Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **FEDERAL REGISTER** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The **FEDERAL REGISTER** will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **FEDERAL REGISTER**.

FEDERAL REGISTER, VOL. 40, NO. 99—WEDNESDAY, MAY 21, 1975

# contents

## THE PRESIDENT

Executive Orders  
Southeast Asian refugees; establishment of the President's Advisory Committee on Refugees 22121

## EXECUTIVE AGENCIES

### ACTION

#### Notices

Meeting:  
National Voluntary Service Advisory Council 22163

## ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

Expenses and rate of assessment: Peaches (fresh) grown in Ga. 22141  
Limitations of handling and shipping: Almonds grown in Calif. 22141

## AGRICULTURE DEPARTMENT

See Agricultural Marketing Service; Cooperative State Research Service; Farmers Home Administration; Forest Service; Rural Electrification Administration; Soil Conservation Service.

## ALCOHOL, DRUG ABUSE, AND MENTAL HEALTH ADMINISTRATION

### Notices

Meetings:  
Advisory Committees 22162

## CIVIL AERONAUTICS BOARD

### Notices

Hearings, etc.:  
Philippine Air Lines Inc. 22163

## COMMERCE DEPARTMENT

See National Oceanic and Atmospheric Administration.

## COMMODITY FUTURES TRADING COMMISSION

### Notices

Public information; availability of transition reports 22163

## COOPERATIVE STATE RESEARCH SERVICE

### Notices

Meetings:  
Cooperative Forestry Research Advisory Board and Committee 22158

## DEFENSE DEPARTMENT

### Notices

Meetings:  
Electron Devices, Advisory Group on (2 documents) 22150  
High Energy Laser Review Group; correction 22151  
Science Board; task forces, etc. (2 documents) 22150, 22151

## EDUCATION OFFICE

### Rules

Adult education programs, State; guidelines for preparation of annual program plans 22229  
Higher education:  
Assistance programs; review and approval of private need analysis systems, etc. 22133

## ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

### Notices

Liquid Metal Fast Breeder Reactor Program; hearing 22166  
Negative declaration:  
Hanford Plant, Richland Wash 22165  
Savannah River Plant 22166

## ENVIRONMENTAL PROTECTION AGENCY

### Proposed Rules

Air quality implementation plans: Idaho 22145  
Pesticide chemicals in or on raw agricultural commodities; tolerances and exemptions, etc.: Chlorothalonil 22146

### Notices

Air pollution; motor vehicles: Carbon monoxide and suspended particles; plans to evaluate propriety equipment 22168  
Pesticide chemicals, tolerances, etc.; petitions:  
American Cyanamid Co. 22166  
Ansul Co. 22166  
Pesticides, specific exemptions and experimental use permits: Massachusetts Department of Public Health 22167  
New Hampshire Department of Agriculture and Division of Public Health 22168  
Pesticide registration: Applications 22168  
Water pollution:  
Areawide waste treatment; management planning approvals area and agency designations 22167

## FARMERS HOME ADMINISTRATION

### Notices

Disaster areas:  
Florida 22158  
Idaho 22159  
Kansas 22159  
Louisiana 22159  
Michigan 22159  
New Mexico 22159  
Pennsylvania 22160  
South Dakota 22160

## FEDERAL AVIATION ADMINISTRATION

### Rules

Airworthiness directives:  
AirResearch 22126  
Beech 22124  
McDonnell Douglas 22125  
Control zone (4 documents) 22126, 22127  
IFR altitudes 22237  
Transition area 22127

## FEDERAL ENERGY ADMINISTRATION

### Rules

Mandatory petroleum price regulations:  
Stripper well lease exemption 22123

### Proposed Rules

Passenger Transportation Services; cancellation of hearing 22146

### Notices

Prohibition orders; intent to issue to certain power plants 22171

## FEDERAL MARITIME COMMISSION

### Notices

Agreements filed, etc.:  
Prudential Lines Inc. 22176  
Sea-Land Service, Inc. et al. 22176  
Casualty and nonperformance, certificates:  
Ocean Cruises Development, Inc. 22176

## FEDERAL POWER COMMISSION

### Notices

Hearings, etc.:  
Lyons, C. H., Jr. et al. 22177  
Shell Oil Co. 22177  
Texaco Inc. 22178  
Yankee Atomic Electric Co. 22178

## FEDERAL PREVAILING RATE ADVISORY COMMITTEE

Meeting 22179

## FEDERAL TRADE COMMISSION

### Rules

Guides concerning use of endorsements and testimonials in advertising 22127

### Proposed Rules

Advertising, endorsements and testimonials guides 22146  
Procedure and rule of practice; correction 22146

# list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month. A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

### Title 3—The President

Executive Order 11860

May 19, 1975

#### Establishing the President's Advisory Committee on Refugees

Since the arrival of the first settlers on our eastern seaboard nearly 400 years ago, America has been a refuge for victims of persecution, intolerance and privation from around the world. Tide after tide of immigrants has settled here and each group has enriched our heritage and added to our well-being as a nation.

For many residents of Southeast Asia who stood by America as an ally and who have lost their homeland in the tragic developments of the past few weeks, America offers a last, best hope upon which they can build new lives. We are a big country and their numbers are proportionately small. We must open our doors and our hearts.

The arrival of thousands of refugees, mostly children, will require many adjustments on their part and considerable assistance on ours. But it is in our best interest as well as theirs to make this transition as gracious and efficient as humanly possible.

I have determined that it would be in the public interest to establish an advisory committee to the President on the resettlement in the United States of refugees from Indochina.

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and statutes of the United States, and as President of the United States, it is ordered as follows:

SECTION 1. *Establishment of a Presidential Advisory Committee.* There is hereby established the President's Advisory Committee on Refugees, hereinafter referred to as the Committee. The Committee shall be composed of such citizens from private life as the President may, from time to time, appoint. The President shall designate one member of the Committee to serve as chairman.

SEC. 2. *Functions of the Advisory Committee.* The Committee shall advise the President and the heads of appropriate Federal agencies concerning the expeditious and coordinated resettlement of refugees from Southeast Asia. The Committee shall include in its advice, consideration of the following areas:

- (a) Health and environmental matters related to resettlement;
- (b) the interrelationship of the governmental and volunteer roles in the resettlement;

- (c) educational and cultural adjustments required by these efforts;
- (d) the general well-being of resettled refugees and their families in their new American communities; and
- (e) such other related concerns as the President may, from time to time, specify.

The Committee shall also seek to facilitate the location, solicitation, and channeling of private resources for these resettlement efforts, and to establish lines of communication with all concerned governmental agencies, relevant voluntary agencies, the Vietnamese-American community and the American public at large. The Committee shall conclude its work within one year.

*Sec. 3. Assistance, Cooperation, and Expenses.*

(a) All executive departments and agencies of the Federal government, to the extent permitted by law, are directed to cooperate with the Committee and to furnish such information, facilities, funds, and assistance as the Committee may require.

(b) No member of the Committee shall receive compensation from the United States by reason of service on the Committee, but may, to the extent permitted by law, be allowed travel expenses, including per diem in lieu of subsistence, as authorized by law (5 U.S.C. 5703).

*Sec. 4. Federal Advisory Committee Act.* Notwithstanding the provisions of any other Executive order, the functions of the President under the Federal Advisory Committee Act (5 U.S.C. App. 1), except that of reporting annually to Congress, which are applicable to the advisory committee established by this Order, shall be performed by the Secretary of Health, Education, and Welfare.

*Gerald R. Ford*

THE WHITE HOUSE,  
May 19, 1975.

[FR Doc. 75-13531 Filed 5-20-75; 10:17 am]

EDITORIAL NOTE: For the texts of the President's remarks on signing Executive Order 11860 and a White House announcement of the Advisory Committee's membership, see the Weekly Compilation of Presidential Documents (vol. 11, no. 21).

## rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

### Title 10—Energy CHAPTER II—FEDERAL ENERGY ADMINISTRATION

#### PART 210—GENERAL ALLOCATION AND PRICE RULES

##### Stripper Well Lease Exemption

On February 28, 1975, the Federal Energy Administration gave notice of a proposal (40 FR 10195, March 5, 1975) to revise its regulations implementing the stripper well lease exemption set forth in section 4(e)(2) of the Emergency Petroleum Allocation Act of 1973 ("EPAA", Pub. L. 93-159, as amended, Pub. L. 93-511). FEA proposed the amendment in order to remove a disincentive to increased production from such marginally-producing stripper well leases that exists under the current regulation. Because the current regulation affords an exemption only in the year following a calendar year in which production from the lease was at or below the statutory stripper well level of ten barrels or less per well per day, there exists no incentive for producers to increase production levels above the ten barrel per well per day limit, either through work-overs or enhanced recovery techniques, because such increased per-well production for a calendar year would then result in a loss of the stripper well lease exemption in the following year.

The amendment proposed in the February 28 Notice would have provided that once the property qualified for the exemption on the basis of its production for any calendar year commencing after December 31, 1973, the exemption would not be lost if production from the lease exceeded the statutory stripper well level in a subsequent year. The February 28 Notice stated the FEA's preliminary determination that "rather than effecting the deregulation of any presently price-controlled crude oil . . . the proposed amendment is expected to encourage the production of additional crude oil which producers would not otherwise produce because threatened by the loss of the stripper well lease exemption that would result under present regulations." (40 FR 10195.)

Comments were received from twenty-nine interested persons and a public hearing was held on March 21, 1975, at which five interested persons presented oral testimony. Consideration of all the written and oral presentations has led the FEA to conclude that this analysis of the existing regulation is correct, and that if continued, the regulation would have the effect of seriously discouraging the implementation of enhanced recovery

techniques on marginally-producing properties that are now subject to primary production techniques.

The comments and oral testimony indicated that many of these properties, now enjoying the stripper well lease exemption, have not been converted to enhanced recovery projects because of the prospective loss of the exemption. For example, many comments indicate that a producer who operates a property currently enjoying the stripper well lease exemption generally would not increase production from the lease (either by initiating enhanced recovery techniques or by reworking existing producing wells) if the result would be to increase the property's average daily production above ten barrels per well per day, thereby losing the property's exempt status under § 210.32 in the following year. Thus, for legitimate economic reasons, many operators of stripper well properties will not take the steps that could provide an additional source of domestic crude oil.

More significant, however, is that production from oil-producing properties generally reaches a point where implementation of enhanced recovery techniques must be undertaken if a significant portion of recoverable oil is not to be lost forever. For example, in an enhanced recovery project using waterflood techniques, as the water front progresses across the oil field, more and more producing wells must be shut in or converted to water injection wells, so that the water front can proceed uniformly across the field. Otherwise, large pockets of oil are likely to be trapped behind the water front and become unrecoverable. Since only producing wells are counted in calculations for purposes of the stripper well lease exemption, a producer of crude oil from a stripper well lease would lose the exemption in circumstances where the conversion of a producing well to an injection well had the effect of reducing the number of producing wells, and thereby increasing the property's average daily production above 10 barrels per well per day.

The FEA concludes that the effect of this amendment will be to remove these kinds of disincentives to increased production, which are inherent in the present regulations, and encourage the implementation of enhanced recovery techniques resulting in the production of additional supplies of crude oil, which might not otherwise have been produced.

The FEA has further concluded that the amendment should be modified so as to provide that once a property has qualified for the exemption on the basis of its per well production for any calendar year commencing after December 31,

1972, the property will retain the exemption notwithstanding increased production from the lease above the stripper well limit in a subsequent year. This modification in the form of the amendment is intended to ensure that, as to properties that qualified for the stripper well lease exemption in 1973, but which exceeded the 10 barrel per well per day level in 1974 through work-overs or other production-stimulation techniques, the incentive to permit production again to decline naturally to stripper well levels will be removed, and further steps to maintain and increase production will be encouraged.

FEA recognizes that besides encouraging the production of additional crude oil that would not otherwise have been produced, the modified amendment may also have the effect of releasing from the ceiling price of 10 CFR 212.73 some crude oil produced in 1975 and thereafter from properties that had qualified as stripper well leases on the basis of production in calendar year 1973, but then lost their stripper well lease exemptions for 1975 because of production in excess of the stripper well limit in calendar year 1974.

Comments received during the course of the proceeding questioned the FEA's authority to promulgate the proposed amendment without first complying with the congressional review procedures outlined in the EPAA. Section 4(g)(2) of the EPAA provides that the President may exempt crude oil, residual fuel oil, or any refined petroleum product from the allocation and price regulations required by the EPAA, only after submission of the exempting amendment, with appropriate findings, to the Congress for its review. The FEA questions whether section 4(g)(2) is applicable to this limited exemption—which is consistent with the stripper well lease exemption contained in the EPAA itself—given Congress' original intent that the EPAA would expire on February 28, 1975. However, if this amendment were to be adopted without its prior submission to Congress, and if the challenge that has been raised in this proceeding were then pursued in a judicial forum, the purpose of the amendment would be significantly frustrated. Producers of crude oil from stripper well leases might continue in their reluctance to increase production from those properties for fear that if the FEA's authority to promulgate the amendment were not ultimately upheld, the properties' stripper well lease exemptions might be lost as a result of having increased production above the ten barrel per well per day limit.

Therefore, due to the nature of the modified amendment, and in order to

XUM

avoid the uncertainty that would necessarily accompany a judicial challenge to this amendment, the FEA has concluded that the procedures of section 4(g)(2) of the EPAA should be followed in this instance. The FEA recognizes that this amendment results in the modification of at least the express terms—though not necessarily the intent—of a specific, congressionally-created exemption and represents a change in the crude oil pricing regulations that were promulgated by the Cost of Living Council and were in effect at the time Congress enacted the EPAA. This amendment is, therefore, unlike the Cost of Living Council's "two-tier" pricing system, which Congress clearly recognized could be continued under the EPAA see "Conf. Rep. No. 628, 93d Cong., 1st Sess. 26 (1973)," and which consequently has been continued. Accordingly, the modified amendment is adopted, as set forth below, effective June 1, 1975 or upon the expiration of the period required pursuant to section 4(g)(2) of the EPAA, whichever is later. In the interim, this Notice and modified amendment will be forwarded to Congress for its review.

**Findings.** It is clear from the legislative history, as well as from the language of the EPAA, that application of the allocation and price regulations to the first sale of crude oil produced from leases whose average daily production is 10 barrels or less per well as not deemed necessary to implement the overall congressional policy embodied in the Act.

The report of the House Interstate and Foreign Commerce Committee indicates that "pricing controls and forced allocation of [crude oil produced from stripper well leases] would unnecessarily inhibit production" since "pricing restrictions imposed under other federal authority have demonstrably had the effect of inhibiting production from such wells." The Committee clearly stated its intent "that a similar result should not be made possible by the Mandatory Petroleum Allocation Program called for [by the EPAA]."

Similarly, the legislative history of the Trans-Alaska Pipeline Authorization Act of 1973 (Pub. L. 93-153, enacted eleven days prior to the EPAA) contained a similar exemption for stripper wells, again indicating a clear congressional policy in favor of ensuring that price controls would not inhibit the continued production from these marginally-producing properties. The Senate Committee on Interior and Insular Affairs stated the purpose of the exemption as being "to insure that direct or indirect price ceilings do not have the effect of resulting in any loss of domestic crude oil production from the premature shutdown of stripper wells for economic reasons." (Emphasis added.) Continuation of the existing regulation, however, would have effects contrary to those that Congress expressly sought to achieve.

The FEA finds that there is currently no shortage of crude oil available to refiners in the United States, and that this amendment will not have an adverse im-

pact on other products covered by FEA regulations. These findings, however, although called for by the EPAA, are not necessarily material considerations in the adoption of this amendment, which is designed to encourage the increased domestic production of crude oil from marginally-producing stripper well leases, and thereby more adequately to carry out the intent of the congressionally-mandated stripper well lease exemption. The impact, therefore, of the amendment on crude oil and other products should be simply to displace with increased domestic production the crude oil that would otherwise need to be imported in order to maintain adequate and reliable supplies of petroleum products. Continuation of the regulation in its present form, on the other hand, would effectively eliminate this potential source of additional domestic crude oil, and would tend to accelerate the decline in production from marginally-producing properties. Accordingly, the FEA finds that the continued regulation of this narrow category of crude oil is unnecessary to carry out the purposes and objectives of the EPAA, and that the effect of the amendment will be to promote the increased production of domestic crude oil, thereby decreasing the Nation's dependence on foreign supplies.

This amendment is not intended to effect any change in the method of measuring the number of barrels of production from a property or in the method of counting the number of production wells for purposes of the stripper well lease exemption. These aspects of the stripper well lease exemption were specifically treated in Ruling 1974-29 and Ruling 1974-30, neither of which is altered in any way by the amendment adopted herein. The amendment is also intended to have no effect on the continued viability of Ruling 1974-28 (Inapplicability of the "Stripper Well Lease" Exemption of 10 CFR 210.32 to Gas Wells), which the FEA is currently reconsidering in a separate proceeding (40 FR 18004, April 24, 1975).

Insofar as the amendment might have the effect of releasing from the ceiling price some crude oil that is produced from properties that lost the stripper well lease exemption because of production levels in excess of ten barrels per well per day during calendar year 1974, the amendment will operate prospectively only. Therefore, for those properties in this narrow category, crude oil may be sold without regard to the ceiling price rule of 10 CFR 212.73, as of the effective date of the amendment. However, such producers may not retroactively increase the price of such crude oil for sales that occurred prior to the effective date of this amendment.

**Conclusion.** After having considered all the comments and testimony submitted in connection with this proceeding, the FEA has concluded that the amendment should be adopted as modified. For the reasons stated herein, this Notice and amendment will be submitted to Congress for its review in accordance with the

procedures of section 4(g)(2) of the EPAA.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159, as amended, Pub. L. 93-511; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790 (39 FR 23185))

In consideration of the foregoing, Part 210 of Chapter II, Title 10 of the Code of Federal Regulations, is amended as set forth below, effective June 1, 1975 or upon the expiration of the period required pursuant to section 4(g)(2) of the EPAA, whichever is later.

Issued in Washington, D.C., May 15, 1975.

ROBERT E. MONTGOMERY, Jr.,  
General Counsel.

Section 210.32 is revised to read as follows:

§ 210.32 Stripper well leases.

(a) The first sale of crude oil, including condensates, produced from any stripper well lease is exempt from the provisions of Parts 211 and 212 of this title.

(b) **Definitions.**  
"Average daily production" means the qualified maximum total production of crude oil, including condensates, produced from a property, divided by a number equal to the number of days in the year times the number of wells that produced crude oil, including condensates, from that property in that year. To qualify as maximum total production, each well on the property must have been maintained at the maximum feasible rate of production, in accordance with recognized conservation practices, and not significantly curtailed by reason of mechanical failure or other disruption in production.

"First sale" means the first transfer for value by the producer or royalty owner.

"Property" is the right that arises from a lease in existence in 1972 or from a fee interest to produce crude oil in existence in 1972 and is coextensive with the term "property" used in § 212.72 for purposes of determining "base production control level crude petroleum."

"Stripper well lease" means a "property" whose average daily production of crude oil, including condensates, per well did not exceed 10 barrels per day during any preceding calendar year beginning after December 31, 1972.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 72-WE-8-AD; Amdt. 39-2211]

PART 39—AIRWORTHINESS DIRECTIVES  
Beech Models Aircraft

Beech Models C-45G, TC-45G, C-45H, TC-45H, TC-45J (SNB-5), RC-45J (SNB-5P), D18C, D18S, E18S, E18S-9700, G18S, H18, JRB-6, 3N, 3NM, and 3TM

Aircraft with Volpar Tricycle Landing Gear (STC SA4-1531, STC SA111WE, STC SA1832WE or any other STC modification incorporating the provisions of this installation).

Amendment 39-1494 (37 FR 15421), AD 72-16-2, as further amended by Amendment 39-1549 (37 FR 23418), provides, among other things, procedures for the inspection and replacement of the Volpar nose landing gear fork, P/N 347, for airplanes equipped with Volpar tri-gear which do not incorporate the Volpar P/N 884 nose landing gear fork. After issuing Amendment 39-1494, due to two additional failures, the agency has determined that the periodic inspection interval should provide for a maximum number of landings in addition to the hour time in service since the last inspection. The service experience indicates that the number of landings relates significantly to the possibility of the occurrence of the cracks in the fork. To minimize the possibility of the cracks progressing to a point of incipient failure, a visual preflight check of the fork is incorporated into this amendment.

Therefore, paragraph 1 of this AD is being amended to relate the nose landing gear fork inspection interval to both the number of landings and the time in service and to provide for a visual preflight check for cracks.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-1494, (37 FR 15421), AD 72-16-2, as further amended by Amendment 39-1549 (37 FR 23418), is amended as follows:

Amend paragraph 1 to read:

1. **Nose Landing Gear Fork**

a. For airplanes incorporating Volpar nose landing gear fork P/N 347 perform the following:

(1) Within the next 50 hours time in service or 25 landings, whichever occurs earlier, after the effective date of this amendment to AD 72-16-2, unless already accomplished within the last 50 hours time in service or 25 landings, and thereafter at intervals not to exceed 100 hours time in service or 50 landings, whichever occurs earlier, from the last inspection, inspect the fork for cracks using dye penetrant or fluorescent penetrant inspection methods in accordance with Volpar Service Bulletin No. 17, as revised July 29, 1969, or later FAA-approved revisions, or an equivalent inspection approved by the Chief, Aircraft Engineering Division, FAA Western Region, until modified in accordance with paragraph 1b. below.

(2) Before each flight conduct a visual check of fork P/N 347 for cracks until modified in accordance with 1b. below. This visual check may be performed by the pilot in command and shall be recorded in the appropriate aircraft records per FAR 91.173.

b. If cracks are found by the inspections or checks per paragraph 1.a.(1) or 1.a.(2) above, replace fork prior to further flight with Volpar P/N 884.

c. The inspections and checks required per paragraphs 1.a.(1) and 1.a.(2) may be discontinued when Volpar fork P/N 884 is installed.

This amendment becomes effective May 27, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on May 9, 1975.

ROBERT H. STANTON,  
Director, FAA Western Region.

[FR Doc. 75-13277 Filed 5-20-75; 8:45 am]

[Airworthiness Docket No. 74-WE-17-AD, Amdt. 39-2213]

PART 39—AIRWORTHINESS DIRECTIVES

McDonnell Douglas Model DC-9 and Military C-9A, C-9B and VC-9C Airplanes

Amendment 39-1906 (39 FR 27645), AD 74-16-02, effective August 5, 1974, requires visual and nondestructive inspection and replacement of the spoiler links and fittings, revision to the Model DC-9 FAA-approved Airplane Flight Manual (AFM), and installation of a placard on McDonnell Douglas DC-9 (-10, -20, -30 and -40 series) and Military C-9A and C-9B airplanes. After issuance of Amendment 39-1906, the agency has received reports of failure of the spoiler link attach pin, P/N 4923307-1 and -501. The agency has determined that failure of the pin could result in an unsafe condition. In one instance an airplane experienced a roll as the result of sudden spoiler deployment which was attributed to fatigue failure of the spoiler link attach pin, P/N 4923307-501, and subsequent fatigue failure of the spoiler link. Failure occurred during approach when the pilot was selecting 40° flaps. The manufacturer has issued Service Bulletin S/B 27-163 to operators of the Model DC-9 and Military C-9A, C-9B and VC-9C airplanes, providing instructions for retrofit of a new improved spoiler link attach pin, P/N 4923307-503, and spoiler link and/or fitting as necessary. The agency has determined that installation of the spoiler link attach pin, P/N 4923307-503, described in Douglas Service Bulletin 27-163, or later FAA-approved revisions, is an approved modification and must be accomplished. The new part, P/N 4923307-503, was incorporated in the DC-9 production line on fuselage number F/N 793 and subsequent airplanes.

Since this condition is likely to exist or develop in other airplanes of the same type design, Airworthiness Directive, AD 74-16-02, is being amended to add a Part III which provides for a one-time-only replacement of the spoiler link attach pin per the manufacturer's instructions specified in Service Bulletin 27-163, interim actions pending accomplishment of the replacement instructions for the new pin, and terminating action.

The AD applicability statement is being amended to include the military VC-9C airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-1906 (39 FR 27645), AD 74-16-02, is amended as follows:

(1) Amend the applicability statement to read as follows:

McDONNELL DOUGLAS, Applies to Model DC-9 (-10, -20, -30, -40 and Military C-9A, C-9B and VC-9C Series) airplanes certificated in all categories, as provided below.

(2) Add a new Part III as follows:

PART III

Applies to all DC-9 airplanes, certificated in all categories, as indicated below.

To prevent damage or failure of the spoiler actuating link attach pins, P/N 4923307-1 and -501, and the spoiler actuating links, P/N 3923250-3, -5 and -7, and/or the spoiler fittings, P/N 3923251-3-NC through "G" change, accomplish the following:

(A)(1) On airplanes incorporating spoiler pins, P/N 4923307-1 and/or -501 with 12,000 hours or more time in service, on or after the effective date of this amendment of AD 74-16-02, prior to the accumulation of additional 1,600 hours time in service on the pins, replace those pins with new pins, P/N 4923307-503, in accordance with the instructions in Douglas Service Bulletin S/B 27-163, or later FAA-approved revisions, or an equivalent modification approved by the Chief, Aircraft Engineering Division, FAA Western Region. Mark the discarded high-time pins in a conspicuous manner to prevent inadvertent return to service.

(2) On airplanes incorporating spoiler pins, P/N 4923307-1 and/or -501 with 12,000 hours or more time in service, on or after the effective date of this amendment to AD 74-16-02, on which modification (A)(1) of Part III has not been incorporated, before the accumulation of 300 additional hours in service on these pins accomplish the following:

(a) Install the appropriate placard in accordance with the instructions per paragraph (A) of Part II of this AD; and,

(b) Comply with the "Limitations" requirements per paragraphs (B)(1) and (B)(2) of Part II of this AD.

(3) For airplanes with less than 12,000 hours time in service on the spoiler link attach pins, P/N 4923307-1 and -501, on the effective date of this amendment, the procedures outlined in (A)(1) or (A)(2) of Part III will become applicable when the pins attain 12,000 hours time in service.

(4) On or before July 1, 1978, on all airplanes, unless previously accomplished, replace the spoiler link attach pins, P/N 4923307-1 and -501 with new pins, P/N 4923307-503, per the instructions, referenced in (A)(1) of Part III, above.

(5) At the time of removal of the hinge pins per (A)(1), (3) or (4) of Part III, inspect the pins for condition. If the pin(s), P/N 4923307-1 and/or -501 is found to be damaged to the extent requiring replacement, then replace the spoiler link, P/N 3923250-(any dash number configuration), and spoiler fitting, P/N 3923251-(any dash number configuration), prior to further flight with a new link and fitting (any dash

## RULES AND REGULATIONS

number configuration) in accordance with the instructions in Douglas Service Bulletin S/B 27-163, or later FAA-approved revisions. Comply with the requirements of this AD applicable to that "Dash Number" part(s) used as replacements.

**NOTE:** For the purpose of Part III of this AD, if the ~~base~~ time in service of the spoiler link attach pin cannot be established, the part will be considered to have the same number of hours time in service as the airplane on which it is installed.

(6) The "Placard" may be removed and the "Limitations" as specified in (A)(2) of Part III, may be terminated when the requirements of paragraphs (A)(1) or (4) of Part III have been accomplished on that DO-9 airplane.

(B) The airplane may be flown in accordance with FAR's 21.197 and 21.199 with cracks in the spoiler pin and/or fitting and/or link, using the applicable limitations and procedures prescribed in Part II, and in paragraphs (A)(2)(a) and (A)(2)(b) of Part III of this AD, to a base where the inspection and/or maintenance can be performed.

This amendment to AD 74-16-02 becomes effective May 27, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, Calif., on May 12, 1975.

ROBERT H. STANTON,  
Director, FAA Western Region.  
[FR Doc.75-13275 Filed 5-20-75; 8:45 am]

[Airworthiness Docket No. 74-WE-52-AD, Amdt. 39-2214]

# **PART 39—AIRWORTHINESS DIRECTIVES** **Certain AiResearch Model TPE331-1, -2, -3, -5, and -6 Series Engines**

Amendment 39-2054 (39 FR 44439), AD 74-26-11, as amended by Amendment 39-2092 (40 FR 6771), requires inspection and modification to the oil supply system for the high speed pinion gear bearing assembly. This action is required because several failures have occurred in the oil supply tube which can result in failure of the high speed pinion gear bearings. After issuing Amendment 39-2092, the agency has determined that the manufacturer has developed an improved oil tube assembly which, when installed, negates the need for a recurring inspection required by the AD. Therefore, the AD is being further amended to include this provision and to require the installation of these improved parts before exceeding the engine operating time in service at the manufacturer's recommended mid-term inspection or overhaul. The manufacturer has also established a production incorporation point after which new engines will incorporate all of these improved parts, thereby making these inspections and modifications required by this AD unnecessary for these engines.

Since a situation exists that requires immediate adoption of the regulation, it is found notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 F.R. 13897), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-2054 (39 FR 44439) AD 74-26-11, as amended by Amendment 39-2092 (40 FR 6771), is further amended to read as follows:

1. Revise paragraph (2) to read as follows:

(2) Engines listed in (1) above, as well as the following: TPE331-1-101B, S/N 93062, 93063; TPE331-1-151A, S/N 92355 through 92357; TPE331-1-151K, S/N 26015 through 26023; TPE331-2-201A, S/N 90279 through 90296; TPE331-3U-303G or TPE331-3UW-303G, S/N 03181 through 03183, 03193, 03195, 03197, 05043 through 05048, 05052; TPE331-5-251C, S/N 22058 through 22103, 22119; TPE331-5-251K, S/N 06443, 06455 through 06537, 06556; TPE331-6-251M or -6-252M, S/N 20534 through 20577. Within the next 100 hours time in service, unless accomplished within the last 100 hours time in service prior to the effective date of this AD, as amended, and thereafter at intervals not to exceed 200 hours time in service, inspect the integral support bracket associated with the oil transfer tube, P/N 3101187-1, or clamp P/N 3101484-1, used with the tube assembly described in (b), below, per the instruction in paragraph 2.C. of the above referenced AiResearch TPE331-72-0092 Service Bulletin. If the oil transfer tube bracket or clamp is cracked or separated, either:

(a) Replace with a serviceable P/N 3101187-1, or,  
(b) Accomplish the installation of a tube, P/N 3101187-2, clamp, P/N 3101484-1, and washer, P/N AN960C416L, using the existing clamp bolt, per the instructions of paragraph 2.E. of the service bulletin.

**NOTE 1.** Revision 1, to AiResearch Service Bulletin TPE331-72-0092, dated January 27, 1975, contains instructions for expanded inspection and maintenance of the high speed pinion (HSP) gear bearing lubricating system. Revision 1 is FAA-approved, and if accomplished, constitutes compliance with paragraph (1) of this AD. Accomplishment of Revision 1 is recommended.

2. Add a new paragraph (3) as follows:

(3) The recurring inspection required in paragraph (2), above, may be discontinued when the following have been accomplished:

(a) The oil transfer tube, P/N 3101187-1, is removed and replaced with a serviceable oil transfer tube, P/N 3101187-2, which has been aged (heat treated) and re-identified as -3 per AiResearch Service Bulletin TPE331-72-0092, Revision 1, dated January 27, 1975, Revision 2, dated April 30, 1975, or later FAA-approved revision, or replaced with a serviceable -3.

(b) The oil supply tube, P/N 3101185-2 (Model TPE331-3U/-3UW) or -1 (all other affected models) is replaced with a tube, P/N 3101605-2 (Model TPE331-3U/-3UW) or P/N 3101605-1 (all other affected models) per AiResearch Service Bulletin TPE331-72-0092, Revision 2, dated April 30, 1975, or later FAA-approved revisions.

(c) Notwithstanding a satisfactory inspection record, all affected engines must be modified to incorporate the modification described in sub-paragraphs (a) and (b) above, before either exceeding a total time in service since new or overhaul equal to the manufacturer's recommended mid-term inspection time as defined in paragraphs 2.A, 2.C or 2.D of AiResearch Service Bulletin No. 606, Revision No. 7, dated March 20, 1975, or later revisions; or, if this inspection

has already been accomplished prior to the effective date of this AD, incorporate these modifications before exceeding the recommended overhaul period as defined in paragraph 1.A of AiResearch Service Bulletin No. 606, Revision No. 7, dated March 20, 1975, or later revisions.

**NOTE 2.** Engine Models TPE331-6-252B and -252M are not specifically included in the above referenced Service Bulletin No. 606. Refer to paragraph 2.D of Service Bulletin No. 606 for mid-term inspection and overhaul times applicable to these engine models.

**NOTE 3.** The modifications described in paragraph (3) are recommended on engines not modified as a result of inspections performed under the original or previous amendment of this AD.

3. Re-identify existing paragraphs (3) and (4) as (4) and (5), respectively.

This amendment becomes effective May 27, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, Calif., on May 12, 1975.

[Airspace Docket No. 75-CE-7]

# **PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

## **Alteration of Control Zone**

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Topeka, Kansas, control zone.

The United States Air Force is reducing the hours of airport traffic control and weather reporting services at Forbes Air Force Base, Topeka, Kansas. Accordingly, it is necessary to alter that portion of the Topeka control zone serving Forbes Air Force Base to reflect the change from a continuous to a part-time control zone. The new hours for the Topeka control zone will initially be published in advance by a Notice to Airmen. Thereafter, the effective date and time of the control zone and any changes thereto will be continuously published in the Airmen's Information Manual.

Since this alteration is relaxatory in nature and is in the interest of safety, compliance with the notice and public procedure provisions of the Administrative Procedure Act is unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective immediately as hereinafter set forth:

In § 71.171 (40 FR 353), the following control zone is amended to read:

## **TOPEKA, KANSAS (FORBES AFB)**

Within a 5-mile radius of Forbes AFB (latitude 38°57'10" N., longitude 95°39'50" W.), within 2 miles each side of the Forbes AFB TACAN 321° radial extending from the 5-mile radius zone to 6 miles NW of the TACAN, and within 2 miles each side of the Forbes AFB ILS localizer SE course, extending from the 5-mile radius zone to 1 mile SE of the OM, excluding the portion subtended by a chord drawn between the points of intersection of the 5-mile radius zone with the Topeka, Kans. (Philip Billard Airport) control zone. This control zone will be effective as established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airmen's Information Manual.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Kansas City, Mo., on May 1, 1975.

## RULES AND REGULATIONS

[Airspace Docket No. 75-EA-21]

# **PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

## **Alteration of Transition Area**

On page 14780 of the FEDERAL REGISTER for April 2, 1975, the Federal Aviation Administration published a proposed rule which would alter the Hazleton, Pa., transition area (40 FR 508).

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulation is hereby adopted, effective 0901 g.m.t. June 26, 1975.

(Sec. 307(a), Federal Aviation Act of 1958, (72 Stat. 749; 49 U.S.C. 1348); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on May 7, 1975.

JAMES BISPO,  
Acting Director, Eastern Region.

Amend § 71.181 of Part 71, Federal aviation regulations so as to amend the description of the Hazleton, Pa. Transition Area by adding, "within 4.5 miles each side of the Hazleton Municipal Airport ILS localizer east course, extending from the OM to 10 miles east of the OM." following, "east of the VOR."

[FR Doc.75-13280 Filed 5-20-75; 8:45 am]

[Airspace Docket No. 75-EA-34]

# **PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

## **Alteration of Control Zone**

The Federal Aviation Administration is amending § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the Calverton, N.Y., control zone (40 FR 364).

The control zone is currently designated during the hours 0800, local time to sunset, Monday through Saturday. The weather and communications requirements for the control zone designation are provided by the Peconic (nonfederal) Tower. The Tower plans to curtail its hours of operations to "0800 hours to 1730, local time, Monday through Friday" as soon as it can be authorized to do so. This requires a change in the control zone description.

Since the amendment is less restrictive in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary.

In view of the foregoing, the proposed regulation is hereby adopted, effective 0901 g.m.t. August 14, 1975, as follows:

1. Amend § 71.171 of Part 71, Federal Aviation Regulations by altering the text of the Calverton, New York Control Zone as follows: In the text delete, "0800 hours local time to sunset, Monday through

Saturday." and substitute therefor, "0800 to 1730 hours, local time, Monday through Friday."

(Sec. 307(a), Federal Aviation Act of 1958, (72 Stat. 749; 49 U.S.C. 1348); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on May 7, 1975.

JAMES BISPO,  
Acting Director, Eastern Region.

# **Title 16—Commercial Practices** **CHAPTER I—FEDERAL TRADE COMMISSION**

## **PART 255—GUIDES CONCERNING USE OF ENDORSEMENTS AND TESTIMONIALS IN ADVERTISING**

On December 1, 1972, there was published in the FEDERAL REGISTER (37 FR 25548) a proposal to amend Title 16, Chapter I by adding a new Part 255—Guides Concerning the Use of Endorsements and Testimonials in Advertising. Written comments were invited from interested parties concerning those proposed guides. Comments were placed on the public record and were considered by the Commission. The Commission is publishing two guides in final form as set forth below under §§ 255.3 and 255.4. Title 16, Chapter I is thus amended by adding a new Part 255.

The Commission is also republishing two proposed Guides for additional public comment under the proposed rules section of this issue of the FEDERAL REGISTER, also under 16 CFR Part 255 and is publishing a third proposed guide which is entirely new.

These guides address major issues peculiar to endorsement and testimonial advertising, and state the views of the Commission concerning situations and techniques that are frequently presented in such advertising. They do not address issues not peculiar to endorsements and testimonials that may also determine the legality of an advertisement. Thus, the fact that a particular advertisement conforms to these Guides does not mean that such advertisement is necessarily in compliance with the Federal Trade Commission Act. Specific issues concerning, for example, the products to which a comparison is being made, or what constitutes "typical" performance of a product, are not resolved by the Guides but should be resolved with reference to the basic principles of Section 5 (15 U.S.C. 45).

The Commission has always expressed particular concern for advertising addressed to children. Because of the special problems which such advertising entails, it was determined that the area of children's advertising could not be completely covered in these Guides. Consequently, even though these Guides apply generally to all advertisements, practices which would conform to these

Guides in adult advertising may nevertheless be questioned in cases of child audiences.

While the Guides are interpretive of laws administered by the Commission, and thus are advisory in nature, proceedings to enforce the requirements of law as explained in the Guides may be brought under the Federal Trade Commission Act (15 U.S.C. Secs. 41-58) which, briefly stated, makes it illegal for one to engage in "unfair methods of competition in or affecting commerce and unfair or deceptive acts or practices in or affecting commerce", as "commerce" is defined therein.

Inquiries and requests for copies of the Guides should be directed to the Bureau of Consumer Protection, Federal Trade Commission, Washington, D.C. 20580.

Part 255 is added to read as follows:

- Sec.  
255.0 Definitions.  
255.1 [Reserved.]  
255.2 [Reserved.]  
255.3 Expert endorsements.  
255.4 Endorsements by organizations.

**AUTHORITY:** The provisions of this Part 255 issued under 38 Stat. 717, as amended; 15 U.S.C. 41-58.

#### § 255.0 Definitions.

(a) The Commission intends to treat endorsements and testimonials identically in the context of its enforcement of the Federal Trade Commission Act and for purposes of this part. The term "endorsements" is therefore generally used hereinafter to cover both terms and situations.

(b) For purposes of this part, an "endorsement" means any advertising message (including verbal statements, demonstrations, or depictions of the name, signature, likeness or other identifying personal characteristics of an individual or the name or seal of an organization) which message consumers are likely to believe reflects the opinions, beliefs, findings, or experience of a party other than the sponsoring advertiser. The party whose opinions, beliefs, findings, or experience the message appears to reflect will be called the endorser and may be an individual, group or institution.

(c) For purposes of this part, the term "product" includes any product, service, company or industry.

(d) For purposes of this part, an "expert" is an individual, group or institution possessing, as a result of experience, study or training, knowledge of a particular subject, which knowledge is superior to that generally acquired by ordinary individuals.

**Example 1:** A film critic's review of a movie is excerpted in an advertisement. When so used, the review meets the definition of an endorsement since it is viewed by readers as a statement of the critic's own opinions and not those of the film producer, distributor or exhibitor. Therefore, any alteration in or quotation from the text of the review which does not fairly reflect its substance would be a violation of the standards set by this part.

**Example 2:** A TV commercial depicts two women in a supermarket buying a laundry detergent. The women are not identified out-

side the context of the advertisement. One comments to the other how clean her brand makes her family's clothes, and the other then comments that she will try it because she has not been fully satisfied with her own brand. This obvious fictional dramatization of a real life situation would not be an endorsement.

**Example 3:** In an advertisement for a pain remedy, an announcer who is not familiar to consumers except as a spokesman for the advertising drug company praises the drug's ability to deliver fast and lasting pain relief. He purports to speak, not on the basis of his own opinions, but rather in the place of and on behalf of the drug company. Such an advertisement would not be an endorsement.

**Example 4:** A manufacturer of automobile tires hires a well-known professional automobile racing driver to deliver its advertising message in television commercials. In these commercials, the driver speaks of the smooth ride, strength, and long life of the tires. Even though the message is not expressly declared to be the personal opinion of the driver, it may nevertheless constitute an endorsement of the tires. Many consumers will recognize the spokesman as being primarily a racing driver and not an advertising announcer. Accordingly, they may well believe he would not speak for an automotive product unless he actually believed in what he was saying and had personal knowledge sufficient to form that belief. Hence they would think that the advertising message reflects his personal views as well as those of the sponsoring advertiser. This attribution of the underlying views to the driver brings the advertisement within the definition of an endorsement for purposes of this part.

**Example 5:** A television advertisement for golf balls shows a prominent and well-recognized professional golfer hitting the golf balls. This would be an endorsement by the golfer even though he makes no verbal statement in the advertisement.

#### § 255.3 Expert endorsements.

(a) Whenever an advertisement represents, directly or by implication, that the endorser is an expert with respect to the endorsement message, then the endorser's qualifications must in fact give him the expertise that he is represented as possessing with respect to the endorsement.

(b) While the expert may, in endorsing a product, take into account factors not within his expertise (e.g., matters of taste or price), his endorsement must be supported by an actual exercise of his expertise in evaluating product features or characteristics with respect to which he is expert and which are both relevant to an ordinary consumer's use of or experience with the product and also are available to the ordinary consumer. This evaluation must have included an examination or testing of the product at least as extensive as someone with the same degree of expertise would normally need to conduct in order to support the conclusions presented in the endorsement. Where, and to the extent that, the advertisement implies that the endorsement was based upon a comparison such comparison must have been included in his evaluation; and as a result of such comparison, he must have concluded that, with respect to those features on which he is expert and which are relevant and available to an ordinary consumer, the

endorsed product is at least equal overall to the competitors' products. Moreover, where the net impression created by the endorsement is that the advertised product is superior to other products with respect to any such feature or features, then the expert must in fact have found such superiority.

**Example 1:** An endorsement of a particular automobile by one described as an "engineer" implies that the endorser's professional training and experience are such that he is well acquainted with the design and performance of automobiles. If the endorser's field is, for example, chemical engineering, the endorsement would be deceptive.

**Example 2:** A manufacturer of automobile parts advertises that its products are approved by the "American Institute of Science." From its very name, consumers would infer that the "American Institute of Science" is a bona fide independent testing organization with expertise in judging automobile parts and that, as such, it would not approve any automobile part without first testing its efficacy by means of valid scientific methods. Even if the American Institute of Science is such a bona fide expert testing organization, as consumers would expect, the endorsement may nevertheless be deceptive unless the Institute has conducted valid scientific tests of the advertised products and the test results support the endorsement message.

**Example 3:** A manufacturer of a non-prescription drug product represents that its product has been selected in preference to competing products by a large metropolitan hospital. The hospital has selected the product because the manufacturer, unlike its competitors, has packaged each dose of the product separately. This package form is not generally available to the public. Under the circumstances, the endorsement would be deceptive because the basis for the choice of the manufacturer's product, convenience of packaging, is neither relevant nor available to consumers.

**Example 4:** The president of a commercial "home cleaning service" states in a television advertisement that the service uses a particular brand of cleanser in its business. Since the cleaning service's professional success depends largely upon the performance of the cleansers it uses, consumers would expect the service to be expert with respect to judging cleaning ability, and not be satisfied using an inferior cleanser in its business when it knows of a better one available to it. Accordingly, the cleaning service's endorsement must at least conform to those consumer expectations. The service must, of course, actually use the endorsed cleanser. Additionally, on the basis of its expertise, it must have determined that the cleaning ability of the endorsed cleanser is at least equal (or superior, if such is the net impression conveyed by the advertisement) to that of competing products with which the service has had experience and which remain reasonably available to it. Since in this example, the cleaning service's president makes no mention that the endorsed cleanser was "chosen," "selected," or otherwise evaluated in side-by-side comparisons against its competitors, it is sufficient if the service has relied solely upon its accumulated experience in evaluating cleansers without having to have performed side-by-side or scientific comparisons.

**Example 5:** An association of professional athletes states in an advertisement that it has "selected" a particular brand of beverages as its "official breakfast drink". As in Example 4, the association would be regarded as expert in the field of nutrition for purposes of this section, because consumers would

expect it to rely upon the selection of nutritious foods as part of its business needs. Consequently, the association's endorsement must be based upon an expert evaluation of the nutritional value of the endorsed beverage. Furthermore, unlike Example 4, the use of the words "selected" and "official" in this endorsement imply that it was given only after direct comparisons had been performed among competing brands. Hence, the advertisement would be deceptive unless the association has in fact performed such comparisons between the endorsed brand and its leading competitors in terms of nutritional criteria, and the results of such comparisons conform to the net impression created by the advertisement. [Guide 3]

#### § 255.4 Endorsements by organizations.

Endorsements by organizations, especially expert ones, are viewed as representing the judgment of a group whose collective experience exceeds that of any individual member, and whose judgments are generally free of the sort of subjective factors which vary from individual to individual. Therefore an organization's endorsement must be reached by a process sufficient to ensure that the endorsement fairly reflects the collective judgment of the organization. Moreover, if an organization is represented as being expert, then, in conjunction with a proper exercise of its expertise in evaluating the product under § 255.3 (Expert endorsements), it must utilize an expert or experts recognized as such by the organization or standards previously adopted by the organization and suitable for judging the relevant merits of such products.

**Example:** A mattress seller advertises that its product is endorsed by a chiropractic association. Since the association would be regarded as expert with respect to judging mattresses, its endorsement must be supported by an expert evaluation by an expert or experts recognized as such by the organization, or by compliance with standards previously adopted by the organization and aimed at measuring the performance of mattresses in general and not designed with the particular attributes of the advertised mattress in mind. (See also § 255.3, Example 5.) [Guide 4]

Sections 255.0, 255.3, 255.4 are promulgated by the Federal Trade Commission and become effective May 21, 1975.

[SEAL] CHARLES A. TOBIN,  
Secretary.

#### Title 17—Commodity and Securities Exchanges

#### CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release Nos. 34-11419, 35-18983, IC-8789]

#### PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

##### Tender Offers

The Commission today announced an amendment to its regulations governing delegation of authority to authorize members of the Commission's staff to take actions in questions presented in

certain tender offers. Rule 14d-2 (17 CFR 240.14d-2) under the Securities Exchange Act of 1934 (the "Act") declares that certain communications relating to tender offers are not subject to Regulation 14D (17 CFR 240.14d-1—240.14d-101) thereunder. One of these, Rule 14d-2(f), provides for a so-called "stop, look and listen" type of notification under which the issuer agrees "on or before a specified date (which shall be not later than 10 days prior to the date specified in the offer, request, or invitation, as the last date on which tenders will be accepted or such shorter period as the Commission may authorize) [to] advise security holders as to management's recommendation to accept or reject" a tender offer for its shares. No authority has in the past been delegated to the Director of the Division of Corporation Finance pursuant to 17 CFR 200.30-1(d) (4) to authorize management to advise security holders as to its position relating to tender offers for an issuer's shares within periods of time less than that prescribed in Rule 14d-2(f).

Given the need for prompt action in such requests and otherwise to expedite the operations of the Commission in this area, the Commission has determined that authority should be delegated to the Director of the Division of Corporation Finance to authorize management of an issuer which is the subject of a tender offer to advise security holders as to its position within periods of time less than that prescribed in Rule 14d-2(f). To accomplish this purpose, the Commission hereby amends the last clause of 17 CFR 200.30-1(d) (4).

17 CFR 200.30-1(d) (4) is amended to read as follows:

§ 200.30-1 Delegation of authority to Director of Division of Corporation Finance.

(d) . . . . .

(4) To authorize the use of forms of proxies, proxy statements, or other soliciting material within periods of time less than that prescribed in Rules 14a-6, 14a-8(d), and 14a-11 (§§ 240.14a-6, 240.14a-8(d), 240.14a-11 of this chapter); to authorize the filing of information statements within periods of time less than that prescribed in Rule 14c-5 (a) (§ 240.14c-5(a) of this chapter); and to authorize the filing of information pursuant to Rule 14d-2(f) (§ 240.14d-2(f) of this chapter) and Rule 14f-1 (§ 240.14f-1 of this chapter) within periods of time less than that prescribed in those sections.

The Commission finds that the foregoing action relates solely to agency organization, procedure or practice and that notice and procedures under 5 U.S.C. 553 are unnecessary. Accordingly, the foregoing action which was taken pursuant to Pub. L. 87-592, 76 Stat. 394, 395 (15 U.S.C. 78d-1, 78d-2), becomes effective immediately.

(Secs. 1, 2, Pub. L. 87-592, 76 Stat. 394, 395 (15 U.S.C. 78d-1, 78d-2))

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

MAY 14, 1975.

[FR Doc.75-13332 Filed 5-20-75;8:45 am]

[Release 35-18963; AS-171]

#### PART 250—GENERAL RULES AND REGULATIONS, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

#### Adoption of and Rescission of Uniform System of Accounts for Public Utility Holding Companies

The Securities and Exchange Commission today announced the adoption of revised Rule 26 (17 CFR 250.26) under the Public Utility Holding Company Act of 1935 and the rescission of the uniform system of accounts for holding companies ("uniform system"). The purpose of the change is to facilitate adjustment of registered holding company accounts to generally accepted accounting standards.

The revision was noticed for comment in Release 35-18782, January 23, 1975 (40 FR 5372, February 5, 1975). Six responses were received, all endorsing the change in substance.

**Commission action.** Pursuant to authority in sections 15 and 20 of the Public Utility Holding Company Act of 1935, the Securities and Exchange Commission hereby adopts revised § 250.26 of Chapter II of Title 17 of the Code of Federal Regulations to read as follows:

#### § 250.26 Financial statement and record-keeping requirements for registered holding companies and subsidiaries.

(a) Every registered holding company and every subsidiary company thereof:

(1) Shall conform to the requirements of Regulation S-X as to form and content of financial statements; and

(2) Shall make and keep current accounts, books and other records of all of its transactions in sufficient detail to permit examination, audit and verification of the financial statements, schedules and reports it is required to file with the Commission or which it issues to stockholders. Such accounts, books and other records shall be maintained in appropriate form and in sufficient detail to provide all of the information with respect to the business of the company specified by such Commission filing requirements as are in effect when the transactions recorded occur.

(b) Every registered holding company shall identify in its Form U5S the chart of accounts used by it and by each subsidiary company.

(1) The initial identification shall be made in the Form U5S, or a supplement thereto, filed in the year in which the use of such accounts is to begin, or in the year 1975 for charts of accounts already in use or proposed to be used in that year. Subsequent Forms U5S need

## RULES AND REGULATIONS

merely state that no change in the accounts used has occurred, if that is the fact.

(2) A copy of each chart of accounts shall be annexed as an exhibit to the filing in which it is identified, except that it is unnecessary to file a copy of an official chart of accounts which any company subject to this rule is required to use by the Federal Power Commission, a state commission or by § 250.27 or § 250.93 under the Act. A company electing to use a chart of accounts promulgated by the Federal Power Commission also need not file a copy thereof.

(3) An amendment to Form U5S shall be filed as to any modification of such chart of accounts, except a modification made to an official chart of accounts by the commission which promulgated it. The amendment shall describe the nature, purpose and effect of the proposed modification and the date it is to be placed in effect. It shall be filed at least 30 days prior to its effective date. Unless the Commission directs otherwise, the chart of accounts, as so modified, shall be used thereafter.

(c) Every registered holding company and every subsidiary company thereof shall hereafter follow the equity method of accounting for investments in any subsidiary company.

(1) Each investment shall be recorded at its carrying value heretofore established and the actual cost of investments hereafter made. Each investment shall be periodically adjusted for the proportionate share of earnings or losses or capital changes of the subsidiary company since its acquisition, crediting any dividends received from such subsidiary company.

(2) Every company subject to this rule shall maintain a subaccount to its retained earnings account which shall be periodically debited or credited with its proportionate share of undistributed retained earnings of subsidiary companies.

(3) No company subject to this rule shall declare or pay any dividends or reacquire any of its own securities from or on the basis of any balances recorded in the subaccount referred to in paragraph (c) (2) of this section, except pursuant to a declaration under section 12(c) of the Act.

(d) No registered holding company which is not a public utility company shall dispose, without authorization from the Commission, of any accounts, books or other records, except pursuant to Public Utility Holding Company Act Release No. 14093 of November 29, 1959 (17 CFR, Appendix to Part 257 of this chapter), as it may be amended from time to time.

(e) This rule shall not modify or revoke any order of the Commission heretofore entered as to the accounting by any company subject to this rule including any continuing provision as to amortization or other disposition of any item governed thereby.

(f) Nothing in this rule shall relieve any company subject thereto from compliance with the requirements as to recordkeeping and retention that may be prescribed by any other regulatory agency.

(g) Any references in other rules, forms or releases under the Act to the uniform system of accounts shall be hereafter deemed to refer to this rule.

**Statutory basis.** Section 15(a) of the Act authorizes the Commission to prescribe the records and accounts to be maintained and the periods during which they are to be retained for inspection and audit by every registered holding company and every subsidiary. Section 15(e) of the Act requires that only an accounting system approved by the Commission be used. And Rule 28 prohibits, with the exceptions stated therein, the use of financial statements inconsistent with the book accounts so maintained.

We hereby authorize, as a transitional measure, the adjustment of all accounts for the calendar year 1975 to conform to the new accounting system adopted in that year by any company subject to the rule, as though such system had been in effect since the beginning of 1975. We have already granted in Holding Company Act Release No. 18782, January 23, 1975, an exception from Rule 28, to permit companies which intend to adopt such accounting system in 1975 pursuant to the amended rule to publish financial statements for the year 1974 on the new basis. This exception is hereby renewed and extended to financial statements for the year 1975 or portions thereof.

**Background and purpose.** We have determined that the uniform system, prescribed in 1936, has become obsolete in significant respects and that there is no longer a need for a single prescribed system of accounts for holding companies. The change will allow holding companies to take the initiative in developing accounting systems adapted to their particular requirements.

The rescission of the uniform system eliminates discrepancies which have developed since the uniform system was adopted between the accounts prescribed and generally accepted accounting principles. The principal effects are the use of the equity method of accounting for investments in subsidiaries in place of the cost method and the presentation of extraordinary gains and losses on the income statement, rather than in retained earnings.

**Record retention.** The rule published herein differs from that proposed in that it adopts rather than rescinds the detailed schedule of record retention requirements which has been in effect since 1959. It should be noted that, under paragraph (g) of the revised Rule 26, references in that schedule to the uniform system of accounts now are to be read as references to Rule 26. We are aware that this schedule needs some change and expect to publish an amendment for comment.

In reviewing the proposed rule in the light of the comments received, it became apparent that the substitution of proposed paragraph (c) for the existing specific instructions as to record retention created uncertainties and ambiguities which should be avoided. It would not be appropriate to defer action on the basic accounting change proposed for republication of record retention require-

ments, so it is necessary to retain the existing requirements until the procedures necessary for change can be completed.

**Other changes from the rule as proposed.** Textual alterations have been made to clarify certain questions raised in the comments. The second sentence of paragraph (c) (2), which would have required that undistributed earnings of subsidiaries be segregated on the parent company's balance sheet, has been deleted. This conforms to our basic policy of leaving the form of financial statements to Regulation S-X. Although the legal restrictions on the use of that portion of the parent company's retained earnings will normally be material, that restriction will usually overlap with similar restrictions imposed by bond indentures or loan agreements, which are customarily described by footnote. A mandatory use of a balance sheet caption for one such restriction could complicate an already difficult problem of disclosure.

The final clause of paragraph (c) (3), which referred to a section 12(c) application becoming effective under Rule 23, is deleted because such an application can become effective in more than one way.

Filing requirements, which originally appeared as paragraph (b) (5), have been restated in a separate paragraph (b). Each existing registered holding company should identify the accounts to be used in its system as part of its Form U5S for 1974, due May 1, 1975, or by supplement thereto. A company electing to continue to use the old uniform system until January 1, 1976, should so state in that filing but must specify the accounts to be used in a supplement thereto filed by December 1, 1975. This conforms to the 30-day advance filing requirement for amendment.

This portion of the rule has been elaborated to make it clear that the filing need not be repeated each year and that copies of official charts of accounts, such as those promulgated by the Federal Power Commission, need not be filed.

Some companies subject to the rule may wish to adopt an official system used by their subsidiaries or associates, even though not required to do so. The rule permits this choice. Such companies are free to modify the system so selected. Any variation from an official system would, of course, preclude meeting the filing requirements by a simple reference. However, official systems are a matter of official notice and may be incorporated by reference in a filing, as long as the variations therefrom are unequivocally stated.

Concern has been expressed that paragraph (b) (9) of Rule 14a-3 under the Securities Exchange Act of 1934 would require inclusion of the entire chart of accounts in the material which the issuer is required to furnish on request to its security holders. That rule specifies the conditions on which exhibits to such filings are to be furnished and is fully adequate to cover the contingency.

**Application of Rule 26.** Rule 26 is co-extensive with section 15(a) of the Act and applies, except as expressly limited,

to every registered holding company and every subsidiary thereof. The proposed text has been rearranged to segregate in paragraph (c) the provisions dealing with the equity method of accounting for investments in subsidiaries, which are inherently limited to such companies in a registered system as have a subsidiary.

The record retention requirements, now paragraph (d), apply only to registered holding companies which are not public utility companies. Such requirements for public utility companies, whether or not holding companies, are specified by the Federal Power Commission or state commissions. We do not, at this time, see a need for additional requirements as to these companies.

"Subsidiary company" as used in this rule has the special meaning prescribed in section 2(a) (8) of the Act, and includes any company regardless of form of organization in which 10% or more of the voting securities are directly or indirectly owned, controlled or held with power to vote by a holding company. The rule does not prohibit use of the equity method of accounting for investments in nonsubsidiaries. Its use for such investments would be governed by applicable accounting standards.

Rule 26 is adopted pursuant to authority conferred on the Commission by the Public Utility Holding Company Act of 1935, particularly sections 15 and 20 thereof, and shall be effective forthwith.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

MAY 1, 1975.

[FR Doc. 75-13302 Filed 5-20-75; 8:45 am]

## Title 21—Food and Drugs

## CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS  
PART 121—FOOD ADDITIVES

## SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

## PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

## Bambermycins, Amprolium, Ethopabate, Roxarsone

The Commissioner of Food and Drugs has evaluated new animal drug applications (95-543V, 95-547V, 95-548V, 95-549V) filed by Hoechst-Roussel Pharmaceuticals, Inc., Somerville, NJ 08876, proposing safe and effective use of several combinations of bambermycins, amprolium, ethopabate, and roxarsone in complete feeds for broiler chickens. The applications are approved.

The Commissioner is amending Parts 121 and 558 (Part 558 formerly Part 135e prior to recodification published in the FEDERAL REGISTER of March 27, 1975 (40 FR 13802)) to reflect the approval as set forth below. This amendment shall become effective May 21, 1975.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))), in accordance with § 510.6

## RULES AND REGULATIONS

22131

(formerly § 3.517), and under authority delegated to the Commissioner (21 CFR 2.120), Parts 121 and 558 are amended as follows:

1. Part 121, Subpart C, is amended as follows:

a. In § 121.210(c) in table 1 by adding four new items after item 2.11, to read as follows:

§ 121.210 Amprolium.

(c) . . . . .

TABLE 1—Amprolium in complete chicken and turkey feed

Principal ingredient	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use
2.12 Amprolium.	113.5 (0.0125%)	Bambermycins. + Ethopabate.	2-3 36.3 (0.004%)	For broiler chickens; feed continuously as the sole ration; as sole source of amprolium; amprolium, ethopabate as provided by No. 00006 in sec. 510.600(c) of this chapter, bambermycins as provided by No. 00009 in sec. 510.600(c) of this chapter.	As an aid in the prevention of coccidiosis where severe exposure to coccidiosis from <i>E. acervulina</i> , <i>E. maxima</i> , and <i>E. brunetti</i> is likely to occur. For increased rate of weight gain and improved feed efficiency.
2.13 Amprolium.	113.5 (0.0125%)	Bambermycins. + Ethopabate. + Roxarsone.	2-3 36.3 (0.004%) 22.8-34.1 (0.0025-0.00375%)	For broiler chickens; feed continuously as the sole ration; as sole source of amprolium and organic arsenic; amprolium and ethopabate as provided by No. 00006 in sec. 510.600(c) of this chapter, roxarsone by No. 017210, bambermycins by No. 00009. Withdraw 5 ds before slaughter.	As an aid in the prevention of coccidiosis where severe exposure to coccidiosis from <i>E. acervulina</i> , <i>E. maxima</i> , and <i>E. brunetti</i> is likely to occur. For increased rate of weight gain, improved feed efficiency, and improved pigmentation.
2.14 Amprolium.	113.5 (0.0125%)	Bambermycins. + Ethopabate. + Roxarsone.	2-3 3.63 (0.0004%) 22.8-34.1 (0.0025-0.00375%)	do.	As an aid in the prevention of coccidiosis. For increased rate of weight gain, improved feed efficiency, and improved pigmentation.
2.15 Amprolium.	113.5 (0.0125%)	Bambermycins. + Roxarsone.	2-3 22.8-34.1 (0.0025-0.00375%)	For broiler chickens; feed continuously as the sole ration; as sole source of amprolium and organic arsenic; amprolium as provided by No. 00006 in sec. 510.600(c) of this chapter, roxarsone by No. 017210, bambermycins by No. 00009. Withdraw 5 d before slaughter.	Do.

b. In § 121.262(c), table 1 by adding three new items following item 1.24, to read as follows:

§ 121.262 3-Nitro-4-hydroxyphenylarsonic acid.

(c) . . . . .

TABLE 1—3-Nitro-4-hydroxyphenylarsonic acid in complete chicken and turkey feed

Principal ingredient	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use
1.25 3-Nitro-4-hydroxyphenylarsonic acid (roxarsone).	22.8-34.1 (0.0025-0.00375%)	Bambermycins. + Amprolium. + Ethopabate.	2-3 113.5 (0.0125%) 36.3 (0.004%)	For broiler chickens; feed continuously as the sole ration; as sole source of amprolium and organic arsenic; amprolium and ethopabate as provided by No. 00006 in sec. 510.600(c) of this chapter, bambermycins by No. 00009, roxarsone by No. 017210. Withdraw 5 d before slaughter.	As an aid in the prevention of coccidiosis where severe exposure to coccidiosis from <i>E. acervulina</i> , <i>E. maxima</i> , and <i>E. brunetti</i> is likely to occur. For increased rate of weight gain, improved feed efficiency, and improved pigmentation.
1.26 3-Nitro-4-hydroxyphenylarsonic acid (roxarsone).	22.8-34.1 (0.0025-0.00375%)	Bambermycins. + Amprolium. + Ethopabate.	2-3 113.5 (0.0125%) 3.63 (0.0004%)	do.	As an aid in the prevention of coccidiosis. For increased rate of weight gain, improved feed efficiency, and improved pigmentation.
1.27 3-Nitro-4-hydroxyphenylarsonic acid (roxarsone).	22.8-34.1 (0.0025-0.00375%)	Bambermycins. + Amprolium.	2-3 113.5 (0.0125%)	For broiler chickens; feed continuously as the sole ration; as sole source of amprolium and organic arsenic; amprolium as provided by No. 00006 in sec. 510.600(c) of this chapter, bambermycins by No. 00009, roxarsone by No. 017210. Withdraw 5 d before slaughter.	Do.

## RULES AND REGULATIONS

2. Part 558 is amended in § 558.95 (formerly § 135e.65) by designating paragraphs (e) (2) and (3) as (e) (1) (i) and (ii) respectively and adding new paragraph (e) (2), (3), (4), and (5). As revised, paragraph (e) reads as follows:

## § 558.95 Bambermycins.

(e) *Conditions of use.* It is used in feed for broiler chickens as follows:

(1) *Amount per ton.* 1 to 2 grams.  
(2) *Indications for use.* For increased rate of weight gain and improved feed efficiency.

(ii) *Limitations.* Feed continuously as the sole ration.

(2) *Amount per ton.* Bambermycins, 2 to 3 grams plus amprolium, 113.5 grams (.0125 percent) plus ethopabate, 36.3 grams (.004 percent).

(i) *Indications for use.* As an aid in the prevention of coccidiosis where severe exposure to coccidiosis from *E. acervulina*, *E. maxima*, and *E. brunetti* is likely to occur. For increased rate of weight gain and improved feed efficiency.

(ii) *Limitations.* Feed continuously as the sole ration; as sole source of amprolium; amprolium and ethopabate as provided by No. 000006 in § 510.600(c) of this chapter.

(3) *Amount per ton.* Bambermycins, 2 to 3 grams plus amprolium, 113.5 grams (.0125 percent) plus ethopabate, 36.3 grams (.004 percent) plus roxarsone, 22.8 to 34.1 grams (.0025-.00375 percent).

(i) *Indications for use.* As an aid in the prevention of coccidiosis where severe exposure to coccidiosis from *E. acervulina*, *E. maxima*, and *E. brunetti* is likely to occur. For increased rate of weight gain, improved feed efficiency, and improved pigmentation.

(ii) *Limitations.* Feed continuously as the sole ration; as sole source of amprolium and organic arsenic; amprolium and ethopabate as provided by No. 000006 in § 510.600(c) of this chapter, roxarsone as provided by No. 017210 in § 510.600(c) of this chapter. Withdraw 5 days before slaughter.

(4) *Amount per ton.* Bambermycins, 2 to 3 grams plus amprolium, 113.5 grams (.0125 percent) plus ethopabate, 3.83 grams (.0004 percent) plus roxarsone, 22.8 to 34.1 grams (.0025-.00375 percent).

(i) *Indications for use.* As an aid in the prevention of coccidiosis. For increased rate of weight gain, improved feed efficiency, and improved pigmentation.

(ii) *Limitations.* Feed continuously as the sole ration; as sole source of amprolium and organic arsenic; amprolium and ethopabate as provided by No. 000006 in § 510.600(c) of this chapter, roxarsone as provided by No. 017210 in § 510.600(c) of this chapter. Withdraw 5 days before slaughter.

(5) *Amount per ton.* Bambermycins, 2 to 3 grams plus amprolium, 113.5 grams (.0125 percent) plus roxarsone, 22.8 to 34.1 grams (.0025-.00375 percent).

(i) *Indications for use.* As an aid in the prevention of coccidiosis. For increased rate of weight gain, improved feed efficiency, and improved pigmentation.

(ii) *Limitations.* Feed continuously as the sole ration; as sole source of amprolium and organic arsenic; amprolium as provided by No. 000006 in § 510.600(c) of this chapter, roxarsone as provided by No. 017210 in § 510.600(c) of this chapter. Withdraw 5 days before slaughter.

*Effective date.* This order shall be effective on May 21, 1975.

(Sec. 512(i), 92 Stat. 347 (21 U.S.C. 360b(1)).  
Dated: May 13, 1975.

C. D. VAN HOUWELING,  
Director, Bureau of Veterinary  
Medicine.

[FRL 377-3]

## PART 123—TOLERANCES FOR PESTICIDES IN FOOD ADMINISTERED BY THE ENVIRONMENTAL PROTECTION AGENCY

## PART 561—TOLERANCES FOR PESTICIDES IN ANIMAL FEEDS ADMINISTERED BY THE ENVIRONMENTAL PROTECTION AGENCY

## Methanearsonic Acid

A petition (FAP 5H5060) was filed (39 FR 31945) by The Ansil Co., PO. Drawer 1165, Weslaco, TX 78596, proposing establishment of food additive tolerances (21 CFR Part 121 now recodified as Parts 123 and 561) for residues of the herbicide methanearsonic acid (expressed as As<sub>2</sub>O<sub>3</sub>) in sugarcane byproducts (bagasse, molasses, sirup, and sugar) at 1 part per million resulting from application of its di- and monosodium salts to sugarcane.

Subsequently, the petitioner amended the petition by (1) withdrawing the request for food additive tolerances for residues of the herbicide resulting from application of its disodium salt to growing sugarcane, (2) restricting the food additive tolerances to provide for residues that may occur from use of the herbicide in a proposed experimental program involving application to growing sugarcane, and (3) withdrawing the request for food additive tolerances for residues of the herbicide in bagasse.

The Reorganization Plan No. 3 of 1970, published in the FEDERAL REGISTER of October 6, 1970 (35 FR 15623), transferred (effective December 2, 1970) to the Administrator of the Environmental Protection Agency the functions vested in the Secretary of Health, Education, and Welfare for establishing tolerances for pesticide chemicals under sections 406, 408, and 409 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346, 346a, and 348).

Having evaluated the data in the petition and other relevant material, it is concluded that:

1. Residues of the herbicide will result in sugarcane molasses, sirup, and sugar from carryover and concentration under agricultural uses provided for by an experimental permit under the Federal Insecticide, Fungicide, and Rodenticide Act. (For a related document, see this issue of the FEDERAL REGISTER, page 22166.)

2. The proposed tolerances should be established to coincide with the experimental permit.

Therefore, pursuant to provisions of the Act (sec. 409(c) (1), (4), 72 Stat. 1786; 21 U.S.C. 348(c) (1), (4)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805, (a) Part 123 is amended by adding the following new section to Subpart A:

## § 123.284 Methanearsonic acid.

Tolerances of 1 part per million are hereby established for residues of the herbicide methanearsonic acid (expressed as As<sub>2</sub>O<sub>3</sub>) in sugarcane byproducts (molasses, sirup, and sugar), resulting from application of its monosodium salt to the growing sugarcane. Such residues may be present therein only as a result of the application of the monosodium methanearsonate to the growing sugarcane treated under an experimental program, which expires May 15, 1976, and on which said sugarcane a temporary pesticide tolerance for residues of the herbicide expiring the same date has been established. Residues remaining in or on the above commodities after expiration of these tolerances will not be considered actionable if the pesticide is legally applied during the term and in accordance with provisions of the temporary permit/food additive tolerances.

(b) Section 561.280 is revised as follows:

## § 561.280 Methanearsonic acid.

(a) Tolerances of 1 part per million are hereby established for residues of the herbicide methanearsonic acid (expressed as As<sub>2</sub>O<sub>3</sub>) in the sugarcane byproduct (molasses), resulting from application of its monosodium salt to the growing sugarcane. Such residues may be present therein only as a result of the application of monosodium methanearsonate to the growing sugarcane treated under an experimental program, which expires May 15, 1976, and on which said sugarcane a temporary pesticide tolerance for residues of the herbicide expiring the same date has been established. Residues remaining in or on the above commodity after expiration of this tolerance will not be considered actionable if the pesticide is legally applied during the term and in accordance with provisions of the temporary permit/food additive tolerance.

(b) A tolerance of 0.9 part per million (expressed as As<sub>2</sub>O<sub>3</sub>) is established for residues of the herbicide methanearsonic acid in cottonseed hulls from application of the disodium and monosodium salts of methanearsonic acid in the production of cotton.

Any person who will be adversely affected by the foregoing order may at any time on or before June 20, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 1019E, 4th & M Streets SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall

show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support.

*Effective date.* This order shall become effective on May 21, 1975.  
(Sec. 409(c) (1), (4), 72 Stat. 1786; (21 U.S.C. 348(c) (1), (4)))

Dated: May 15, 1975.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

## Title 39—Postal Service

## CHAPTER I—U.S. POSTAL SERVICE

## PART 111—GENERAL INFORMATION ON POSTAL SERVICE

## Postal Service Manual; Miscellaneous Amendments

Chapter I of the Postal Service Manual, which has been incorporated by reference in the FEDERAL REGISTER (see 39 CFR 111.1), has been amended by the issuance of Post Office Services (Domestic) Transmittal Letter 36, Issue 102, dated May 1, 1975.

In accordance with 39 CFR 111.3 notice of these changes is hereby published in the FEDERAL REGISTER as an amendment to that section and the text of the changes is filed with the Director, Office of the Federal Register. Subscribers to the Manual will receive these amendments automatically from the Government Printing Office. (For other availability of Chapter I of the Postal Service Manual, see 39 CFR 111.2.)

Description of these amendments to Chapter I of the Postal Service Manual follows:

## PART 114—COMPLAINTS

1. The list in 114.2 of addresses of inspectors in charge is updated.

## PART 132—SECOND CLASS

2. Section 132.33c is revised by deleting reference to an incorrect special advertising rate.

## PART 135—FOURTH CLASS

3. Section 135.312 is revised to include a specific reference to official postage and fees paid mail and prepaid government mail.

## PART 159—UNDELIVERABLE MAIL

4. Section 159.721d is revised by correcting cross references.

## PART 161—REGISTERED MAIL

5. Section 161.34 is revised to include additional instructions for preparing firm registration books.

## RULES AND REGULATIONS

6. Sections 161.35 and 161.45 are revised to delete reference to obsolete endorsements "Deliver to Addressee Only" or "Deliver to Addressee or Order."

## PART 162—INSURED MAIL

7. Section 162.31 is revised to delete reference to the obsolete endorsement "Deliver to Addressee Only."

8. Section 162.441 is revised to include additional instructions for preparing firm mailing books.

## PART 163—COD MAIL

9. Section 163.416 is revised to include additional instructions for preparing firm mailing books.

10. Section 163.418 is revised to restate the use of the COD endorsement on all COD parcels by use of the rubber COD stamp.

## PART 164—INDEMNITY CLAIMS

11. Section 164.44c is revised to include Seattle, Washington in the list of port post offices handling claims.

In consideration of the foregoing, 39 CFR 111.3 is amended as follows:

## § 111.3 Amendments to Chapter I of the Postal Service Manual.

## Amendments to Postal Service Manual

Transmittal letter	Date	FR publication
Letter 36, Issue 102	May 1, 1975	40 FR 4000

These amendments are effective immediately.

(5 U.S.C. 552(a), 39 U.S.C. 401, 404, 407, 408, 3001-3011, 3201-18, 3403-05, 3621, 50 U.S.C. 1463-64)

ROGER P. CRAIG,  
Deputy General Counsel.

## NATIONAL DIRECT STUDENT LOAN PROGRAM, COLLEGE WORK-STUDY PROGRAM, AND SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANTS PROGRAM

## Annual Review of Needs Analysis Systems

Notice of proposed rulemaking was published in the FEDERAL REGISTER on February 19, 1975 (40 FR 7100-7106) setting forth proposed amendments to the regulations governing the National Direct Student Loan (NDSL) Program, the College Work-Study (CWS) Program, and the Supplemental Educational Opportunity Grants (SEOG) Program. (These regulations are set forth in Parts 144, 175, and 176, respectively, of Title 45 of the Code of Federal Regulations.) The purpose of the proposed amendments was to provide procedures and standards by which the Commissioner of Education would review and approve, on an annual basis, the various private systems used

by institutions of higher education for calculating the expected family contributions for dependent students who apply for assistance under these three programs.

Interested parties were invited to submit comments, suggestions or objections regarding the proposed regulations. These comments are summarized and the responses of the Office of Education are provided in Paragraph A, below.

## A. SUMMARY OF COMMENTS AND RESPONSES.

*Comment.* Several commenters stated that it is unreasonable for OE to attempt to implement the proposed rule for the 1975-76 academic year, because (i) awards have already been made or (ii) awards need to be made before the earliest date on which the rule can become effective. In their view, the uncertainty caused by this proposal will result in the loss of prospective students who need to know what financial aid they will have at a date earlier than will be possible if the rule applies to awards for academic year 1975-76.

*Response.* In recognition of these difficulties, the final regulation provides for the standard to be voluntary with respect to awards for the 1975-76 academic year.

*Comment.* Several commenters contended that the proposed two-tiered over-award provision (permitting the use of non-Federal funds to fill the difference between the Federal standard of need and alternative outputs of approved systems) is discriminatory to the students at those institutions whose only financial aid funds are Federal. At such schools that difference must go unfilled. By contrast, schools with other sources of financial aid will be able to use those funds to meet that difference. Several commenters also objected to the use of different standards for dependent and independent students.

*Response.* The regulation has been revised to eliminate such distinctions. The amount of need which may be met with Federal funds has been set at the same level as the amount which may be met with non-Federal funds, and an approved system may be used for both dependent and independent students. The regulation is thus similar to the SEOG regulation previously published on October 21, 1974 (45 CFR 176.14), with the added provision that the total amount of aid awarded to the student shall not exceed his cost of education.

*Comment.* Several commenters offered the speculation that the purpose of the proposed rule was budgetary. Those commenters advanced the argument that the proposed adjustments were motivated by a desire to decrease the demand for Federal funds and that the proposed standard was therefore not a measurement of parental ability to pay, but rather a rationing device.

*Response.* The appropriations for these Federal programs are made by the Congress and are not necessarily determined by the estimated aggregate amount of student need. The regulation is designed

to carry out the Commissioner's responsibility to provide basic criteria in order that Federal funds will be awarded to the neediest students, irrespective of the level of appropriations.

**Comment.** Several commenters offered the view that adjusting by 20 percent the expected contributions shown on the 1974-75 CSS Table E is not the proper way to adjust for an inflation of 20 percent. According to this view, the proper way of accomplishing such an adjustment would be to increase by 20 percent the adjusted effective income at which a given contribution is expected and then also increase that contribution by 20 percent. As an example of what is meant, a family with two dependent children and an adjusted effective income of \$10,000 was expected to contribute \$1,066 according to the 1974-75 CSS Table E. According to the viewpoint expressed by those commenters, that \$10,000 adjusted effective income has become equivalent to a present adjusted effective family income of \$12,000, and the formerly expected contribution of \$1,066 would now be equal to a contribution of \$1,279.

**Response.** The Commissioner desires to offer a method which can be easily understood and can be implemented quickly and easily. He also desires to avoid detailed regulation of the internal mechanics of any system. In recognition of the valid arguments raised about the announced way of deriving benchmark figures, however, the final regulations provide for the use of factors, related to the family's ability to pay, other than inflation in computing contributions for academic year 1976-77 and subsequent years.

**Comment.** Several commenters objected to the intended 20 percent adjustment as being (i) arbitrary, (ii) not based on research data, (iii) a departure from historical precedents, or (iv) unrealistic in view of the recent rapid rate of inflation.

**Response.** The proposed rule was based upon the generally accepted historical precedent of updating expected parental contributions in accordance with inflation. As revised, the final regulation also allows for the use of other factors relevant to determining a family's ability to pay.

**Comment.** A number of commenters objected to the exercise of the Commissioner's authority to establish criteria and schedules for determining need. They contended that voluntarism and local control are preferable and that progress is currently being made, through the National Task Force on Student Aid Problems (commonly known as the Keppel Task Force), toward eliminating the difference among the systems. Other commenters felt that the establishment of specific procedures for the exercise of this authority was long overdue.

**Response.** The Commissioner has statutory responsibility to provide basic criteria and schedules for the guidance of institutions in making awards to needy students. The Commissioner wishes to

rely on private systems and local judgments to the extent possible, but believes he cannot abrogate his statutory responsibility. This regulation does not remove from the student financial aid officer at the institution of higher education the authority to determine, in any individual case, that the expectation calculated according to an approved system does not accurately reflect a given family's ability to pay and to make appropriate adjustments accordingly.

**Comment.** Several commenters objected to the requirement of annual review and annual publication in the FEDERAL REGISTER of the list of approved systems, on the grounds that there is a probability that such review and publication will not be accomplished in a timely fashion, with the result that the institutions' schedule for making awards to students will be disrupted.

**Response.** It is the Commissioner's intention to accomplish the required review in a timely fashion and to publish the list of approved systems in the FEDERAL REGISTER by September 1 of each year. He does not regard such a schedule as being disruptive of award processing. No change has been made in this timetable for completion of the required annual review.

**Comment.** Various commenters objected to the proposed rule on the grounds that it was issued without adequate prior consultation with the student financial aid community.

**Response.** The proposed rule was issued as a Notice of Proposed Rule Making with a 30-day period for public comment, and there was a public hearing on February 28 in order to elicit further public comment. This is the official mechanism for consultation with the public and changes in the proposed rule have been made as a result of this process of consultation.

**Comment.** Several commenters objected to the proposed rule on the grounds that failure to show what they consider to be "true" need would have the result of decreasing the availability of funds from non-Federal sources.

**Response.** The aggregate amount of need calculated pursuant to the proposed rule would clearly exceed the total amount of Federal funds available for meeting it. The Commissioner considers the responsibility for meeting that need to be one shared among a number of public and private parties. He hopes and believes that this regulation will not have the effect of decreasing the amount of non-Federal funds available for student aid.

**Comment.** Several commenters objected to the proposed rule on the grounds that the objective of preventing a shifting of Federal funds from lower to higher income groups could be accomplished in other ways, such as requiring that Federal aid recipients be chosen in rank order of need or by categories of need, or by relying on student financial aid officers to aid the neediest students first.

**Response.** These suggestions may well be suitable methods of choosing which students will be aided when there are not enough funds to aid all needy students. Moreover, student financial aid officers may need to follow such methods in distributing limited resources. However, the Commissioner does not wish either to adopt a complex regulation governing each detail of the award process or to avoid his statutory responsibility to provide guidance for that process. This regulation provides guidance, while preserving a role for private systems and individual judgments.

**Comment.** Numerous commenters were critical of the Office of Education because of the length of time which elapsed between the public announcement in August 1974 by CSS of the changes it was making and the February 19 date on which the Office announced its proposed rule.

**Response.** The Office of Education agrees that the time at which its proposed rule was announced was too late for it to be made mandatory for student awards for academic year 1975-76. The standard has therefore been made voluntary with respect to awards for that academic year.

**Comment.** Several commenters objected to the use, in deriving the benchmark expected family contributions, of the private system (other than the income tax system) used by the largest number of students, on the grounds that use of a system in a heavily populated area does not necessarily make it the best system.

**Response.** The Office of Education agrees that population density in various geographical areas has no necessary bearing on a system's excellence. The decision to construct benchmarks on the basis of the most frequently used system was made on the grounds that it would be the one most familiar to the largest number of institutional users and that its use by the largest number of students would indicate the broadest general acceptance.

**Comment.** Several commenters expressed the view that the proposed regulation could have the opposite of the intended effect and could shift funds from more-needy to less-needy students. This would occur if an institution awarded all available funds to its most-needy students and then discovered that some of those students had received funds in excess of their need as that need is calculated pursuant to the proposed rule. When the excess amount awarded is withdrawn from most-needy students, it can then be made available only to less-needy students.

**Response.** Technically, such a result could happen. In order for it to happen, however, both of the following conditions would have to be met: (i) an institution would have distributed all of the financial aid funds available to it; and (ii) no student to whom aid was denied would be more needy than any student to whom aid was awarded. Even if such a result were to obtain in some

particular institution, the Commissioner would not consider it unjustified, because otherwise some individuals would receive aid in excess of a reasonable estimate of need at the expense of denying aid to other needy students.

#### B. EFFECT OF REVISIONS

(1) Date of implementation. In the preamble of the notice of proposed rule-making, the Commissioner had stated his intention to implement the annual review procedures and standards immediately. The Commissioner has now concluded that other adjustments, related to the family's ability to meet educational expenses, should be taken into consideration. Consequently, it is the Commissioner's intention to publish as soon as possible proposed additional adjustment factors that will be used in conjunction with the Consumer Price Index in deriving benchmark figures.

(2) Derivation of initial benchmark figures. As noted above, it was the Commissioner's intent to implement this regulation immediately, using the 1974-75 CSS schedule adjusted by 20 percent for the Consumer Price Index. Thereafter, the base for the derivation of benchmark expected family contribution figures would be the figures for that system which had been approved under this regulation and which was used by the greatest number of students. However, since the implementation of this regulation has now been postponed, except on a voluntary basis, it is necessary for the Commissioner to revise his approach. In deriving benchmark figures for the review of systems to be used in the 1976-77 academic year, the Commissioner will use the 1974-75 "Expected Parent's Contributions From Adjusted Effective Income" published by the College Scholarship Service, reduced in accordance with the Consumer Price Index for 1974, the estimated Consumer Price Index for 1975, and the other factors which the Commissioner will have established as indicated above in paragraph (2).

(4) "Over-award" provisions. Notice of proposed rulemaking contained a provision, for the coordination of all student aid made available by an institution, which permitted the use of two levels of expected family contributions. That provision has been deleted. The provision contained in this regulation is now the same as that set forth in previously applicable regulations, with the addition of the provision that the total amount of aid made available to a student shall not exceed the student's cost of education and with other minor changes in wording. (See 45 CFR 176.14)

C. Pursuant to the authority contained in sections 464, 444, 413B, and 413C of the Higher Education Act of 1965, as amended (20 U.S.C. 1087dd, 42 U.S.C. 2754, and 20 U.S.C. 1070b-1 and 1070b-2), Parts 144, 175 and 176 of Title 45 of the Code of Federal Regulations are amended as set forth below.

**Effective date.** Pursuant to Section 431 (d) of the General Education Provisions Act, as amended (20 U.S.C. 1232(d))

these regulations have been transmitted to the Congress concurrent with the publication of this document in the FEDERAL REGISTER. That section provides that regulations subject thereto shall become effective on the forty-fifth day following the date of such transmission, subject to the provisions therein concerning Congressional action and adjournment.

(Catalog of Federal Domestic Assistance No. 13.418, Supplemental Educational Opportunity Grants Program; No. 13.463, Higher Education Work-Study; No. 13.471, National Direct Student Loans)

Dated: April 17, 1975.  
Approved: May 14, 1975.

T. H. BELL,  
U.S. Commissioner of Education.  
CASPAR W. WEINBERGER,  
Secretary of Health, Education,  
and Welfare.

PART 144—NATIONAL DIRECT  
STUDENT LOAN PROGRAM

1. Part 144 of Title 45 of the Code of Federal Regulations is amended by adding §§ 144.14 and 144.15, which read as follows:

§ 144.14 Approved need analysis systems.

(a) In order to comply with the requirements of § 144.7(b), an institution shall utilize a need analysis system or method of calculation approved by the Commissioner for that purpose pursuant to this section.

(b) Dependent students. (1) The Commissioner has approved the following systems for the purpose of § 144.7(b), with respect to dependent students:

(i) The method of calculating an expected family contribution used in the Basic Educational Opportunity Grants Program (45 CFR Part 190); and

(ii) The Income Tax System, if adjusted to reflect the number of the parents' dependent children who are attending institutions of higher education. For purposes of this section, the expected family contribution calculated according to the Income Tax System shall be an amount equal to the amount of Federal income tax paid by the parents of a student, plus 5 percent of such parents' net assets in excess of \$10,000 and any amount the student is reasonably able to contribute.

(2) The Commissioner will approve any other need analysis system for the purpose of § 144.7(b), for use with respect to dependent students, which is submitted in accordance with the procedures set forth in paragraph (d) of this section and which meets the following criteria:

(i) The system must produce, as its standard output, expected parents' contribution figures for dependent students which: (a) increase in reasonably smooth increments as the parents' financial strength, measured in real terms, increases; and (b) are equal for families of equal measured financial strength; and

(ii) The system must produce expected parents' contribution figures which, for at least 75 percent of a set of sample cases developed and made available by the Commissioner, deviate by less than \$50 from the figures produced for such sample cases by adjusting the figures produced by the largest private system (excluding the Income Tax System) approved for use during the current fiscal year in accordance with (a) the estimated percent increase in the Consumer Price Index between the December immediately preceding and the December immediately following the submission of the system for approval; and (b) such other criteria related to a family's ability to pay educational costs as are determined by the Commissioner and published in the *FEDERAL REGISTER*.

(ij) In developing the set of sample cases to be made available for this purpose, the Commissioner shall select cases in which: (a) The parental income, net of Federal and State income taxes, social security tax and business expenses, is equal in the prior year and the current year; (b) parental assets, net of related debt and retirement allowance, are equal in the prior year and the current year; and (c) other family and financial circumstances are identical in the prior year and the current year.

(c) Independent students. (1) The Commissioner has approved the following systems for the purpose of § 144.7(b), with respect to independent students:

(i) The method of calculating an expected family contribution used in the Basic Educational Opportunity Grants Program (45 CFR Part 190); and

(ii) The system of need analysis published by the American College Testing Service; and

(iii) The system of need analysis published by the College Scholarship Service.

(2) The Commissioner will approve any other need analysis system for the purpose of § 144.7(b), for use with respect to independent students, which is submitted in accordance with the procedures set forth in paragraph (d) of this section and which meets the following criteria:

(i) The system must produce, as its standard output, expected family contribution figures for independent students which: (a) Increase in reasonably smooth increments as the family financial strength, measured in real terms, increases; and (b) are equal for families of equal measured financial strength; and

(ii) The system must produce expected family contribution figures which are comparable to those produced by one of the systems specified in paragraph (c) (1) of this section.

(d) Application procedures for system approval. Any person or institution seeking to have a need analysis system approved by the Commissioner pursuant to paragraph (b) (2) of this section shall submit such system to the Commissioner prior to June 30 of each year. Such submission shall consist of sufficient information to enable the Commissioner to determine that the system meets the criteria

set forth in that subparagraph, including the expected family contribution figures produced by the system for the sample cases developed and made available by the Commissioner. Any person or institution seeking to have a need analysis system approved by the Commissioner pursuant to paragraph (c) (2) of this section shall, prior to June 30 of any year, submit to the Commissioner sufficient information to enable him to determine that the system meets the criteria set forth in that subparagraph. On or before September 1 of each year, the Commissioner will publish in the *FEDERAL REGISTER* a list of all need analysis systems or methods of calculation which have been approved for use in the succeeding academic year.

(e) Duration of approval. Need analysis systems approved pursuant to paragraphs (b) (1) and (c) (1) of this section are approved without a specific expiration date. A need analysis system approved pursuant to paragraph (b) (2) of this section, and included on the list published by the Commissioner on or before September 1, of one year, may be used by an institution (1) in preparing its application for funds under this part which is to be submitted on or before the published closing date next following that September 1; and (2) in determining the eligibility of students for loans under this part, and in calculating the amount of such loans, to be used by the students during any academic year commencing not earlier than 10 months and not later than 22 months following that September 1. A need analysis system approved pursuant to paragraph (c) (2) of this section shall be approved for an indefinite period of time, but the Commissioner may request periodic confirmation that the system remains in compliance with the criteria set forth in that paragraph.

(f) Adjustments. The institution may, in an individual case, further adjust the expected family contribution calculated according to one of the need analysis systems approved pursuant to this section if the student financial aid officer of the institution has reason to believe that such expected family contribution does not realistically reflect the ability of the student and his parents to contribute towards the student's cost of education. Such adjustments shall be documented in writing, with an accompanying explanation, and made a part of the institution's records with respect to this part.

(20 U.S.C. 1087d)

§ 144.15 Coordination of student financial aid programs and overaward.

(a) Coordinating official. The institution shall appoint an official who shall have the responsibility of coordinating the program covered by this part with the institution's other Federal and non-Federal programs of student financial aid.

(b) Total award. The institution shall not award a loan under this part to a student in an amount which, when combined with all of the resources

made available to the student from Federal and non-Federal sources, would exceed the difference between the student's cost of education and his expected family contribution, as determined in accordance with one of the need analysis systems or methods of calculations approved by the Commissioner pursuant to § 144.14; provided, however, That in no event may the total amount of aid received from all Federal and non-Federal sources exceed the student's cost of education.

(c) Resources. For purposes of paragraph (b) of this section, the term "resources made available to the student from Federal and non-Federal sources" includes any waiver of tuition and fees, any scholarship or grant-in-aid including athletic scholarships, any fellowship or assistantship, any loan made under the Guaranteed Student Loan Program (Title IV-B of the Higher Education Act) except in cases in which paragraph (d) of this section applies, any long-term loan made by the institution other than under the Guaranteed Student Loan Program, and any expected net earnings from employment during periods for which the student receives a loan under this part. For purposes of this section, "net earnings" means gross earnings minus required withholdings and any costs incidental to obtaining such earnings.

(d) Treatment of guaranteed loans. (1) Except as provided in paragraph (d) (2) of this section, loans made under the Guaranteed Student Loan Program shall not be considered to be a student resource and may be used to satisfy the expected family contribution of the borrower calculated in accordance with § 144.14. If the amount of such a loan exceeds the borrower's expected family contribution, only such excess shall be considered a student resource.

(2) Loans for which interest benefits are payable under section 428 of Title IV-B of the Higher Education Act (20 U.S.C. 1078) shall be considered a student resource and may not be used to satisfy a student's expected family contribution in cases in which the borrower has an adjusted family income of more than \$15,000, as determined in accordance with applicable Guaranteed Student Loan Program Regulations (45 CFR Part 177), or in cases in which the amount of the loan would cause the total amount of the borrower's loans insured by the Commissioner, or by a State or non-profit private institution having an agreement with the Commissioner under section 428(b) of the Higher Education Act (20 U.S.C. 1078(b)), to exceed \$2,000 for that academic year.

(e) Administrative responsibility. The institution's responsibility under paragraph (b) of this section shall extend only to those resources which the institution itself makes available to the student, or about which it knows or has reason to know, or can reasonably anticipate at the time that the proceeds of the loan made under this part are disbursed to the

student. The amount of net earnings from any employment provided by the institution for any academic period covered by the loan under this part shall be deemed to have been known by the institution at the time of the disbursement of such loan. However, an institution will not be deemed to have violated the requirements of this section if the sum of all the resources made available to the student, including a loan under this part, exceeded that student's need by not more than \$100.

(20 U.S.C. 1087dd)

#### PART 175—COLLEGE WORK-STUDY PROGRAM

2. Part 175 of Title 45 of the Code of Federal Regulations is amended by adding §§ 175.17 and 175.18, which read as follows:

##### § 175.17 Approved need analysis systems.

(a) In order to comply with the requirements of § 175.5(c), an institution shall utilize a need analysis system or method of calculation approved by the Commissioner for that purpose pursuant to this section.

(b) Dependent students. (1) The Commissioner has approved the following systems for the purpose of § 175.5(c), with respect to dependent students:

(i) The method of calculating an expected family contribution used in the Basic Educational Opportunity Grants Program (45 CFR Part 190); and

(ii) The Income Tax System, if adjusted to reflect the number of the parents' dependent children who are attending institutions of higher education. For purposes of this section, the expected family contribution calculated according to the Income Tax System shall be an amount equal to the amount of Federal income tax paid by the parents of a student, plus 5 percent of such parents' net assets in excess of \$10,000 and any amount the student is reasonably able to contribute.

(2) The Commissioner will approve any other need analysis system for the purpose of § 175.5(c), for use with respect to dependent students, which is submitted in accordance with the procedures set forth in paragraph (d) of this section and which meets the following criteria:

(i) The system must produce, as its standard output, expected parents' contribution figures for dependent students which: (a) Increase in reasonably smooth increments as the parents' financial strength, measured in real terms, increases; and (b) are equal for families of equal measured financial strength; and

(ii) The system must produce expected parents' contribution figures which, for at least 75 percent of a set of sample cases developed and made available by the Commissioner, deviate by less than \$50 from the figures produced for such sample cases by adjusting the figures produced by the largest private system (excluding the Income Tax System) approved for use during the current fiscal

year in accordance with (a) the estimated percent increase in the Consumer Price Index between the December immediately preceding and the December immediately following the submission of the system for approval; and (b) such other criteria related to a family's ability to pay educational costs as are determined by the Commissioner and published in the *FEDERAL REGISTER*.

(iii) In developing the set of sample cases to be made available for this purpose, the Commissioner shall select cases in which: (a) The parental income, net Federal and State income taxes, social security tax and business expenses, are equal in the prior year and the current year; (b) parental assets, net of related debt and retirement allowance, are equal in the prior year and the current year; and (c) other family and financial circumstance are identical in the prior year and the current year.

(c) Independent students. (1) The Commissioner has approved the following systems for the purpose of § 175.5(c), with respect to independent students:

(i) The method of calculating an expected family contribution used in the Basic Educational Opportunity Grants Program (45 CFR Part 190);

(ii) The system of need analysis published by the American College Testing Service; and

(iii) The system of need analysis published by the College Scholarship Service.

(2) The Commissioner will approve any other need analysis system for the purpose of § 175.5(c), for use with respect to independent students, which is submitted in accordance with the procedures set forth in paragraph (d) of this section and which meets the following criteria:

(i) The system must produce, as its standard output, expected family contribution figures for independent students which: (a) Increase in reasonably smooth increments as the family financial strength, measured in real terms, increases; and (b) are equal for families of equal measured financial strength; and

(ii) The system must produce expected family contribution figures which are comparable to those produced by one of the systems specified in paragraph (c) (1) of this section.

(d) Application procedures for system approval. Any person or institution seeking to have a need analysis system approved by the Commissioner pursuant to paragraph (b) (2) of this section shall submit such system to the Commissioner prior to June 30 of each year. Such submissions shall consist of sufficient information to enable the Commissioner to determine that the system meets the criteria set forth in that subparagraph, including the expected family contribution figures produced by the system for the sample cases developed and made available by the Commissioner. Any person or institution seeking to have a need analysis system approved by the Commissioner pursuant to paragraph (c) (2) of this section shall, prior to June 30 of any year, submit to the Commissioner sufficient information to enable him to

determine that the system meets the criteria set forth in that subparagraph on or before September 1 of each year, the Commissioner will publish in the *FEDERAL REGISTER* a list of all need analysis systems or methods of calculation which have been approved for use in the succeeding academic year.

(e) Duration of approval. Need analysis systems approved pursuant to paragraphs (b) (1) and (c) (1) of this section are approved without a specified expiration date. A need analysis system approved pursuant to paragraph (b) (2) of this section, and included on the list published by the Commissioner on or before September 1 of one year, may be used by an institution (1) preparing its application for funds under this part which is to be submitted on or before the published closing date next following that September 1; and (2) in determining the eligibility of students for employment under this part and in calculating the amount of such employment to be made available to a student during any academic year commencing not earlier than 10 months and not later than 22 months following that September 1. A need analysis system approved pursuant to paragraph (c) (2) of this section shall be approved for an indefinite period of time, but the Commissioner may request periodic confirmation that the system remains in compliance with the criteria set forth in that paragraph.

(f) Adjustments. The institution may, in an individual case, further adjust the expected family contribution calculated according to one of the need analysis systems approved pursuant to this section if the student financial aid officer of the institution has reason to believe that such expected family contribution does not realistically reflect the ability of the student and his parents to contribute towards the student's cost of education. Such adjustments shall be documented in writing, with an accompanying explanation, and made a part of the institution's records with respect to this part.

(42 U.S.C. 2754)

##### § 175.18 Coordination of student financial aid programs and over-award.

(a) Coordinating official. The institution shall appoint an official who shall have the responsibility of coordinating the program covered by this part with the institution's other Federal and non-Federal programs of student financial aid.

(b) Total award. The institution shall not award assistance under this part to a student in an amount which, when combined with all of the resources made available to the student from Federal and non-Federal sources, would exceed the difference between the student's cost of education and his expected family contribution, as determined in accordance with one of the need analysis systems or methods of calculations approved by the Commissioner pursuant to § 175.17; provided, however, That in no event may the total amount of aid received from all Federal

and non-Federal sources exceed the student's cost of education.

(c) *Resources.* For purposes of paragraph (b) of this section, the term "resources made available to the student from Federal and non-Federal sources" includes any waiver of tuition and fees, any scholarship or grant-in-aid including athletic scholarships, any fellowships or assistantship, any loan made under the Guaranteed Student Loan Program (Title IV-B of the Higher Education Act) except in cases in which paragraph (d) of this section applies, any long-term loan made by the institution other than under the Guaranteed Student Loan Program, and any expected net earnings from employment during periods for which the student receives assistance under this part. For purposes of this section, "net earnings" means gross earnings minus required withholdings and any costs incidental to obtaining such earnings.

(d) *Treatment of guaranteed loans.* (1) Except as provided in paragraph (d)(2) of this section, loans made under the Guaranteed Student Loan Program shall not be considered to be a student resource and may be used to satisfy the expected family contribution of the borrower calculated in accordance with § 176.17. If the amount of such a loan exceeds the borrower's expected family contribution, only such excess shall be considered a student resource.

(2) Loans for which interest benefits are payable under section 428 of Title IV-B of the Higher Education Act (20 U.S.C. 1078) shall be considered a student resource and may not be used to satisfy a student's expected family contribution in cases in which the borrower has an adjusted family income of more than \$15,000, as determined in accordance with applicable Guaranteed Student Loan Program Regulations (45 CFR Part 177), or in cases in which the amount of the loan would cause the total amount of the borrower's loan insured by the Commissioner, or by a State or nonprofit private institution having an agreement with the Commissioner under section 428 (b) of the Higher Education Act (20 U.S.C. 1078(b)), to exceed \$2,000 for the academic year.

(e) *Administrative responsibility.* The institution's responsibility under paragraph (b) of this section shall extend only to those resources which the institution itself makes available to the student, or about which it knows or has reason to know, or can reasonably anticipate at the time that the assistance under this part is disbursed to the student. The amount of net earnings from any employment provided by the institution for any academic period during which the student is receiving assistance under this part shall be deemed to have been known by the institution at the time of the disbursement of such assistance. However, an institution will not be deemed to have violated the requirements of this section if the sum of all the resources made available to the student, including assistance under this part, ex-

ceeded that student's need by not more than \$100.

(42 U.S.C. 2754)

#### PART 176—SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANTS PROGRAM

3. Sections 176.13 and 176.14 of Title 45 of the Code of Federal Regulations are revised to read as follows:

##### § 176.13 Approved need analysis systems.

(a) In order to comply with the requirements of § 176.12, an institution shall utilize a need analysis system or method of calculation approved by the Commissioner for that purpose pursuant to this section.

(b) Dependent students. (1) The Commissioner has approved the following systems for the purpose of § 176.12(a):

(i) The method of calculating an expected family contribution used in the Basic Educational Opportunity Grants Program (45 CFR Part 190); and

(ii) The Income Tax System, if adjusted to reflect the number of the parents' dependent children who are attending institutions of higher education. For purposes of this section, the expected family contribution calculated according to the Income Tax System shall be an amount equal to the amount of Federal income tax paid by the parents of a student, plus 5 percent of such parents' net assets in excess of \$10,000 and any amount the student is reasonably able to contribute.

(2) The Commissioner will approve any other need analysis system for the purpose of § 176.12(a) which is submitted in accordance with the procedures set forth in paragraph (d) of this section and which meets the following criteria:

(i) The system must produce, as its standard output, expected parents' contribution figures for dependent students which: (a) increase in reasonably smooth increments as the parents' financial strength, measured in real terms, increases; and (b) are equal for families of equal measured financial strength; and

(ii) The system must produce expected parents' contribution figures which, for at least 75 percent of a set of sample cases developed and made available by the Commissioner, deviate by less than \$50 from the figures produced for such sample cases by adjusting the figures produced by the largest private system (excluding the Income Tax System) approved for use during the current fiscal year in accordance with (a) the estimated percent increase in the Consumer Price Index between the December immediately preceding and the December immediately following the submission of the system for approval; and (b) such other criteria related to a family's ability to pay educational costs as are determined by the Commissioner and published in the FEDERAL REGISTER.

(iii) In developing the set of sample cases to be made available for this purpose, the Commissioner shall select cases in which: (a) the parental in-

come, net of Federal and State income taxes, social security tax, and business expenses, are equal in the prior year and the current year; (b) parental assets, net of related debt and retirement allowance, are equal in the prior year and the current year; and (c) other family and financial circumstances are identical in the prior year and the current year.

(c) Independent students. (1) The Commissioner has approved the following systems for the purpose of § 176.12 (b) with respect to independent students:

(i) The method of calculating an expected family contribution used in the Basic Educational Opportunity Grants Program (45 CFR Part 190);

(ii) The system of need analysis published by the American College Testing Service; and

(iii) The system of need analysis published by the College Scholarship Service.

(2) The Commissioner will approve any other need analysis system for the purpose of § 176.12(b) for use with respect to independent students, which is submitted in accordance with the procedures set forth in paragraph (d) of this section and which meets the following criteria:

(i) The system must produce, as its standard output, expected family contribution figures for independent students which: (a) increase in reasonably smooth increments as the family financial strength, measured in real terms, increases; and (b) are equal for families of equal measured financial strength; and

(ii) The system must produce expected family contribution figures which are comparable to those produced by one of the systems specified in paragraph (c) (1) of this section.

(d) Application procedures for system approval. Any person or institution seeking to have a need analysis system approved by the Commissioner pursuant to paragraph (b) (2) of this section shall submit such system to the Commissioner prior to June 30 of each year. Such submission shall consist of sufficient information to enable the Commissioner to determine that the system meets the criteria set forth in that subparagraph, including the expected family contribution figures produced by the system for the sample cases developed and made available by the Commissioner. Any person or institution seeking to have a need analysis system approved by the Commissioner pursuant to paragraph (c) (2) of this section shall, prior to June 30 of any year, submit to the Commissioner sufficient information to enable him to determine that the system meets the criteria set forth in that subparagraph. On or before September 1 of each year, the Commissioner will publish in the FEDERAL REGISTER a list of all need analysis systems or methods of calculation which have been approved for use in the succeeding academic year.

(e) Duration of approval. Need analysis systems approved pursuant to paragraphs (b) (1) and (c) (1) of this section are approved without a specified expiration date. A need analysis system approved pursuant to paragraph (b) (2) of this section, and included on the list published by the Commissioner on or before September 1 of one year, may be used by an institution (1) in preparing its application for funds under this part which is to be submitted on or before the published closing date next following that September 1; and (2) in determining the eligibility of students for awards under this part, and in calculating the amount of such awards, to be used by the students during any academic year commencing not earlier than 10 months and not later than 22 months following that September 1. A need analysis system approved pursuant to paragraph (c) (2) of this section shall be approved for an indefinite period of time, but the Commissioner may request periodic confirmation that the system remains in compliance with the criteria set forth in that paragraph.

(f) Adjustments. The institution may, in an individual case, further adjust the expected family contribution calculated according to one of the need analysis systems approved pursuant to this section if the student financial aid officer of the institution has reason to believe that such expected family contribution does not realistically reflect the ability of the student and his parents to contribute towards the student's cost of education. Such adjustments shall be documented in writing, with an accompanying explanation, and made a part of the institution's records with respect to this part.

(g) The institution shall appoint an official who shall have the responsibility of coordinating the program covered by this part with the institution's other Federal and non-Federal programs of student financial aid.

(20 U.S.C. 1070b-1 and 1070b-2)

##### § 176.14 Coordination of student financial aid programs and over-award.

(a) The institution shall appoint an official who shall have the responsibility

of coordinating the program covered by this part with the institution's other Federal and non-Federal programs of student financial aid.

(b) Total award. The institution shall not award a Supplemental Grant to a student in an amount which, when combined with all of the resources made available to the student from Federal and non-Federal sources, would exceed the difference between the student's cost of education and his expected family contribution, as determined in accordance with one of the need analysis systems or methods of calculations approved by the Commissioner pursuant to § 176.13; provided, however, that in no event may the total amount of aid received from all Federal and non-Federal sources exceed the student's cost of education.

(c) Resources. For purposes of paragraph (b) of this section, the term "resources made available to the student from Federal and non-Federal sources" includes any waiver of tuition and fees, any scholarship or grant-in-aid including athletic scholarships, any fellowships or assistantship, any loan made under the Guaranteed Student Loan Program (Title IV-B of the Higher Education Act) except in cases in which paragraph (d) of this section applies, any long-term loan made by the institution other than under the Guaranteed Student Loan Program, and any expected net earnings from employment during periods for which the student receives a grant. For purposes of this section, "net earnings" means gross earnings minus required withholdings and any costs incidental to obtaining such earnings.

(d) (1) Except as provided in paragraph (d) (2) of this section, loans made under the Guaranteed Student Loan Program shall not be considered to be a student resource and may be used to satisfy

the expected family contribution of the borrower calculated in accordance with § 176.13. If the amount of such a loan exceeds the borrower's expected family contribution, only such excess shall be considered a student resource.

(2) Loans for which interest benefits are payable under section 428 of Title IV-B of the Higher Education Act (20 U.S.C. 1078) shall be considered a student resource and may not be used to satisfy a student's expected family contribution in cases in which the borrower has an adjusted family income of more than \$15,000, as determined in accordance with applicable Guaranteed Student Loan Program Regulations (45 CFR Part 177), or in cases in which the amount of the loan would cause the total amount of the borrower's loans insured by the Commissioner, or by a State or nonprofit private institution having an agreement with the Commissioner under section 428(b) of the Higher Education Act (20 U.S.C. 1078(b)), to exceed \$2,000 for that academic year.

(e) *Administrative responsibility.* The institution's responsibility under paragraph (b) of this section shall extend only to those resources which the institution itself makes available to the student, or about which it knows or has reason to know, or can reasonably anticipate at the time that the Supplemental Grant is disbursed to the student. The amount of net earnings from any employment provided by the institution for any academic period covered by the grant award shall be deemed to have been known by the institution at the disbursement of such grant. However, an institution will not be deemed to have violated the requirements of this section if the sum of all the resources made available to the student, including a grant under this part, exceeded that student's need by not more than \$100.

(20 U.S.C. 1070b-1 and 1070b-2)

U.S. OFFICE OF EDUCATION  
EXPECTED PARENTAL CONTRIBUTIONS  
SAMPLE CASES AND BENCHMARK FIGURES

## proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

### DEPARTMENT OF THE INTERIOR Bureau of Indian Affairs [ 25 CFR Part 41 ] FORT SILL APACHE INDIANS Preparation of Rolls of Indians

MAY 13, 1975.

This notice is published in the exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

Notice is hereby given that it is proposed to amend § 41.3, Part 41, Subchapter F, Chapter I, of Title 25 of the Code of Federal Regulations by the addition of a new paragraph (u). These regulations are proposed pursuant to the authority contained in the Chiricahua Apache plan for use and distribution of judgment funds which was prepared pursuant to the Act of October 19, 1973 (87 Stat. 466), and which became effective March 16, 1975. The proposed regulations will govern the preparation of a roll of Fort Sill Apache Indians as provided in the March 16, 1975 plan to be used for the per capita distribution of the Fort Sill Apache portion of the award of the Indian Claims Commission in Dockets 30, 30-A, 48 and 48-A.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions or objections regarding the proposed regulations to the Director, Office of Indian Services, Bureau of Indian Affairs, Washington, D.C. 20245, on or before June 20, 1975.

It is proposed to amend § 41.3, Part 41, Subchapter F, Chapter I, Title 25 of the Code of Federal Regulations by the addition of a new paragraph (u) to read as follows:

#### § 41.3 Qualifications for enrollment and the deadline for filing applications.

(u) Fort Sill Apache Tribe: (1) All persons who meet the following requirements shall be entitled to be enrolled to share in the distribution of the Fort Sill Apache Tribe's share of the judgment funds awarded the Chiricahua Apache Indians in Indian Claims Commission Dockets 30, 30-A, 48 and 48-A:

(i) They are persons of Fort Sill Apache blood living on March 16, 1975, who remained in Oklahoma after being released as prisoners of war in 1913 and received land pursuant to the Acts of August 24, 1912, June 30, 1913, or January 22, 1923; or

(ii) They were born on or prior to and were living on March 16, 1975, possess at

least one-eighth ( $\frac{1}{8}$ ) degree Fort Sill Apache blood and are lineal descendants of persons of Fort Sill Apache blood who remained in Oklahoma after being released as prisoners of war in 1913 and received land pursuant to one of the Acts designated in (i) above, regardless of whether such ancestor is living or deceased.

(2) No person who is entitled to benefit from the share of the judgment funds due the Mescalero Apache Tribe by virtue of their membership in that tribe shall be entitled to share in the portion of the judgment funds that are due the Fort Sill Apache Tribe.

(3) Applications for enrollment must be filed with the Area Director, Bureau of Indian Affairs, Post Office Box 368, Anadarko, Oklahoma 73005, and must be received by the Director no later than close of business on August 29, 1975.

MORRIS THOMPSON,  
Commissioner of Indian Affairs.  
[FR Doc. 75-13328 Filed 5-20-75; 8:45 am]

### DEPARTMENT OF AGRICULTURE Agricultural Marketing Service [ 7 CFR Part 918 ] FRESH PEACHES GROWN IN GEORGIA Expenses and Rate of Assessment for the 1975-76 Fiscal Period

This notice invites written comment relative to the proposed expenses of \$13.165 and rate of assessment of \$0.015 per bushel basket of peaches (net weight of 48 pounds), or an equivalent of peaches in other containers or in bulk, to support the activities of the Industry Committee for the 1975-76 fiscal period under Marketing Order No. 918.

Consideration is being given to the following proposals submitted by the Industry Committee, established under the marketing agreement, as amended, and Order No. 918, as amended (7 CFR Part 918), regulating the handling of fresh peaches grown in the State of Georgia, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), as the agency to administer the terms and provisions thereof:

(1) That expenses that are reasonable and necessary to be incurred by the Industry Committee during the period March 1, 1975, through February 29, 1976, will amount to \$13.165.

(2) That rate of assessment for said period, payable by each handler in accordance with § 918.41, is fixed at \$0.015 per bushel basket of peaches (net weight of 48 pounds), or an equivalent of peaches in other containers or in bulk.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than June 9, 1975. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: May 15, 1975.

CHARLES R. BRADER,  
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 75-13294 Filed 5-20-75; 8:45 am]

### [ 7 CFR Part 981 ] ALMONDS GROWN IN CALIFORNIA Revision of Cert in Provisions

Notice is given of a proposal to amend Subpart—Administrative Rules and Regulations (7 CFR 981.441-981.481; 39 FR 23239, 39258; 40 FR 3005, 4416, 6475) by revising certain provisions. These provisions pertain to crediting for paid advertising, reserve matters, and reporting requirements.

The subpart is pursuant to the marketing agreement, as amended, and Order No. 981, as amended (7 CFR Part 981; 40 FR 4416), hereinafter collectively referred to as the "order", regulating the handling of almonds grown in California. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The proposal is based on a unanimous recommendation of the Almond Control Board.

Section 981.441 prescribes the procedure for giving a handler credit for paid advertising expenditures against his pro rata expense assessment obligation pursuant to § 981.41(c). Paragraph (b) of § 981.441 currently provides that the media used must be listed in publications of the Standard Rate and Data Service, the Buyer's Guide to Advertising, or station or publication rate cards. The purpose of this is to permit verification of the advertising rates. However, not all weekly newspapers and other media are covered by these sources, and therefore some advertisements, which would otherwise be creditable, are excluded. It is proposed that paragraph (b) be amended to allow credit for these advertisements by providing for the Almond Control Board to grant the claim if it is consistent with rates for comparable outlets. It is

## PROPOSED RULES

also proposed that current § 981.441(f) (3) be deleted to bring § 981.441(f) in conformity with the proposal to amend paragraph (b).

Section 981.441(c) currently provides that the major theme of each advertisement shall promote the sale, consumption, or use of California almonds and nothing in the advertising shall detract from this objective. However, crediting involves handler advertisements of their brands of almonds, and some advertisements appear to have as their major theme a specific brand of almonds. In order to avoid questions of interpretation, it is proposed that paragraph (c) be amended so that the clear and evident purpose, rather than the major theme, of each advertisement would be to promote the sale, consumption or use of California almonds and nothing should detract from this purpose.

Section 981.441(d) (5), (6) and (7) provide the method for computing handler credit for advertising almonds and almond products in retail stores and catalogs. Subparagraphs (5) and (7) were previously suspended for the 1974-75 crop year (40 FR 6495). It is now proposed that these subparagraphs, as well as subparagraph (6) be deleted. These paragraphs have gone unused, require the submission of sales data other than for almonds, and cover advertisements which can be judged adequately under other provisions of § 981.441.

Section 981.441 does not cover advertisements which direct consumers to one or more named retail outlets, other than those which are operated by the handler. These advertisements are deemed to cause buyers to purchase one brand of almonds in preference to another—not increase the consumption, or use, of California almonds. Under the proposal, a new § 981.441(f) (3), which would prohibit crediting for such advertisements, would replace current paragraph (f) (3).

Section 981.441(g) set forth the requirements and procedures for handlers in filing claims for advertising credit. Currently, paragraph (g) provides that claims for credit must be filed within 60 days of the appearance of the advertisement or July 15, whichever is sooner. That provision makes it difficult for some handlers to receive credit because 60 days is insufficient time for them to obtain all of the necessary documentation and file their claims. Paragraph (g) would be amended by deleting all references to 60 days after the advertisements have been published, broadcast, or posted, and require only that in order to obtain credit the handler must file his claim no later than July 15 of the succeeding crop year.

Section 981.441(g) would also be amended to delete provisions requiring unnecessary or duplicate information. This would include deletion of subparagraph (5). Subparagraphs (1), (2) and (3) would be revised to require a handler to submit the agency invoice as well as the invoice for publication or display. The revision includes a redesignation of certain provisions.

Section 981.450 provides for the exemption from program requirements of

almonds disposed of in certain outlets. In order to obtain the exemption and to assure accountability to the Board, a handler is required to submit: A notice of intent to dispose of almonds in exempt outlets; a schedule of processing; an invoice or other instrument to verify shipment; and a user certification that the almonds have been crushed or fed. These requirements, however, are deemed excessive to verify the delivery and disposition of almonds to an exempt outlet. Section 981.450 is proposed to be amended by eliminating the provision requiring the handler to notify the Board of his intention to ship almonds in such outlets. It would also eliminate the need for a written authorization to permit Board employees to observe the storage and processing or other disposition of almonds.

Section 981.467(b) sets forth the forms to be issued by handlers for disposition of almonds in reserve outlets. Currently, separate forms are required which are used only as vehicles for transmitting documents and are not issued by the Board in any way for the handler to prove completion of the reserve obligation. The proposal would delete the requirement for two such forms.

Currently, § 981.472(b) requires a report of production by counties three times a year—as of December 31, March 31 and June 30. Since the greatest need for total production by counties is soon after December 31, and since practically the entire crop is accounted for by March 31, it is proposed that a report of production by counties of production for the period of April 1 to June 30 be deleted. Section 981.472(b) would be amended by deleting that period for reporting and replacing it with a statement giving the Board the power to request this information as needed.

Section 981.473 requires redetermination data by variety as of December 31, March 31 and June 30. A varietal breakdown each time requires a submission of several worksheet forms plus a summary form. However, none of the varietal information has been reproduced and given the industry and other interested parties except after June 30. Section 981.473 would be amended to eliminate the need to report redetermination data by variety.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposal should file the same in quadruplicate with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, to be received not later than June 5, 1975. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during official hours of business (7 CFR 1.27(b)).

The proposal is to amend Subpart Administrative Rules and Regulations (7 CFR 981.441-981.481; 39 FR 23239, 33258; 40 FR 3005, 4416, 6475) as follows:

1. In § 981.441, revise paragraphs (b), (c), (f) (3) and (g), and delete para-

graphs (d) (5), (6) and (7). The revised portions of § 981.441 would read as follows:

§ 981.441 Crediting for paid advertising.

(b) Each advertisement must be published, broadcast, or displayed during the crop year for which credit is requested. The credit granted by the Board shall be that which is appropriate when compared to the applicable outlet rate published in the domestic or Canadian catalogs of Standard Rate and Data Service, The Buyers Guide to Outdoor Advertising, or station or publisher rate cards. In the case of claims for credit not covered by any such source, the Board shall grant the claim if it is consistent with rates for comparable outlets.

(c) The clear and evident purpose of each advertisement shall be to promote the sale, consumption or use of California almonds and nothing therein shall detract from this purpose.

(d) . . . .  
(5) [Removed]  
(6) [Removed]  
(7) [Removed]

(f) Credit granted a handler shall be subject to other conditions as follows:

(3) Advertisements which direct consumers to one or more named retail outlets, other than handler operated shall not be eligible for credit.

(g) A handler must file a claim with the Control Board to obtain credit for an advertising expenditure. No claim shall be granted if it is filed later than July 15 of the succeeding crop year. Each claim must be submitted on ACB Form 31 and accompanied by appropriate proof of performance as follows: (1) For published advertisements, submit a copy of the publication invoice, agency invoice, if any, and tear sheet of the advertisement; (2) for radio advertisements, submit a copy of the station invoice, a copy of the script, or reference to a copy on file with the Control Board, and the agency invoice, if any; (3) for television advertisements, submit a copy of the station invoice, a copy of the script and the agency invoice, if any; (4) for outdoor advertisements, submit a copy of the company invoice, a photograph of the display or a reference to a photograph in the Control Board files, and the agency invoice, if any; and (5) each claim shall also include a certification to the Secretary of Agriculture and to the Control Board that the claim is just and conforms to requirements set forth in § 981.41(c). The Control Board shall advise the handler promptly of the extent to which such claim has been allowed.

2. Revise § 981.450 to read as follows: § 981.450 Exempt dispositions.

As provided in § 981.50, any handler who intends to dispose of almonds, other than those withheld to meet a reserve obligation, for crushing into oil, or for poultry or animal feed, may have the kernelweight of these almonds excluded from his receipts and exempted from program obligations so long as: (1) The handler qualifies as, or delivers such almonds to a feeder or crusher acceptable to the Control Board; (2) each shipment of such almonds is directly to the place of disposition, is certified to the Control Board by the handler on ACB Form 8 and is supported by a sales invoice or bill of lading; and (3) the receiver (user) certifies that the almonds have been crushed, fed, or so commingled with other feed products or otherwise processed that they have lost their identity as almonds, no later than June 30 of the crop year in which the almonds were received.

3. Revise § 981.467(b) to read as follows:

§ 981.467 Disposition in reserve outlets by handlers.

(b) Forms. Intentions to divert almonds shall be reported to the Board on ACB Form 13 and completion of diversion on ACB Form 14. Sales in export shall be reported on ACB Form 18 and completion of deliveries in export on ACB Form 19. On ACB Form 14 and 19, the handler shall report whether the shipment is a disposition of reserve almonds withheld in satisfaction of reserve obligation or a disposition of salable almonds in a reserve outlet pursuant to paragraph (c) of this section.

4. Revise § 981.472(b) to read as follows:

§ 981.472 Report of almonds received.

(b) Each handler shall submit a summary report of almonds received for his own account during the following periods:

July to December 31;  
January 1 to March 31.

Each summary report shall be submitted to the Control Board within 30 days after the end of the reporting period and shall show the quantity of almonds received for the handler's own account during the reporting period by county of production and such varieties as may be requested by the Board.

5. Revise § 981.473 by deleting all references to "variety" as follows:

§ 981.473 [Amended]

(a) In paragraphs (a) and (b), insert a comma after "all almonds" and delete "by variety."

(b) In paragraph (c), delete "variety."

(c) In paragraph (e), delete "the variety of almonds in the lot."

## PROPOSED RULES

22143

(d) In paragraph (f), delete "the variety".

Dated: May 15, 1975.

CHARLES R. BRADER,  
Deputy Director,  
Fruit and Vegetable Division.  
[FR Doc. 75-13293 Filed 5-20-75; 8:45 am]

## DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric  
Administration

[50 CFR Part 246]

## TRANSPORTATION OF WILDLIFE

Proposed Procedures for Assessment of  
Civil Penalties

Section 43 Title 18, United States Code prohibits the transportation in interstate or foreign commerce of any wildlife taken in violation of any Act of Congress, State laws, or foreign law or any regulation issued pursuant to such laws. The Act applies not only to the actual wildlife but to any products or parts thereof and to any false records, accounts, label or identifications thereof. Under the Act, it is immaterial whether the wildlife is shipped for commercial or noncommercial purposes.

A person who knowingly and willfully violates the Act is subject to criminal penalties. In addition, a person who knowingly or who, in the exercise of due care, should know that he is violating the Act may be assessed a civil penalty of not more than \$5,000 for each violation. Each violation constitutes a separate offense.

Therefore, it is the purpose of these proposed regulations to add a new part to carry out the objectives and purposes of the Act insofar as they relate to the civil penalties that may be imposed. The proposed regulations deal with the following matters:

(1) Wildlife refers only to mollusk or crustacean. The Act applies also to wild mammals, wild birds, amphibians, and reptiles but these species are under the jurisdiction of the Department of the Interior.

(2) Enforcement of the Act and procedures for search and seizure of wildlife.

(3) Procedures to be followed in the imposition of a civil penalty.

(4) Appeal procedures from a decision of an administrative law judge.

(5) Enforcement in a U.S. District Court by the Attorney General of any civil penalty imposed.

(6) Institution of forfeiture proceedings against any wildlife seized following the completion of any proceedings involving a civil penalty.

In accordance with Executive Order 11821 dated November 27, 1974, it is hereby certified that the inflationary impact of this action on the nation has been carefully evaluated. The additional federal expenditures required are so minimal that no substantial impact on the nation is anticipated.

These proposed regulations are issued under the authority contained in 18 U.S.C. 43. Written comments, views, or objections on these proposed regulations may be made to the Director, National Marine Fisheries Service, NOAA, U.S. Department of Commerce, Washington, D.C. 20235 no later than June 24, 1975. After reviewing all comments, final regulations will be published as soon as possible.

Issued at Washington, D.C., and dated May 15, 1975.

JACK W. GEHRINGER,  
Acting Director.

246.14 Decisions.  
246.15 Remission; mitigation, or compromise.  
246.16 Payment of penalty.  
246.17 Disposition of seized wildlife, products, property, or items.

AUTHORITY: 18 U.S.C. 43; Reorganization Plan No. 4 of 1970 (35 FR 15627).

## § 246.1 Purpose of regulations.

The regulations contained in this part provide uniform rules and procedures for the assessment of civil penalties in connection with violations of the so-called Lacey Act as it relates to mollusks or crustaceans. For regulations regarding other forms of wildlife see Department of the Interior regulations at Parts 11 and 12 of this title.

## § 246.2 Definitions.

(a) "Act" means the provisions of section 43 of Title 18, U.S. Code.

(b) "Authorized Official" means Enforcement Agents of the National Marine Fisheries Service.

(c) "Director" means the Director of the National Marine Fisheries Service or his delegate.

(d) "Person" means any individual, firm, corporation, association, or partnership.

(e) "Respondent" means a person against whom an action is brought under the Act.

(f) "Secretary" means the Secretary of Commerce pursuant to Reorganization Plan No. 4 of 1970 (84 Stat. 2090) or his delegate.

V 40-99 MAY 21 75

XUM

(g) "State" means the several States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, and Guam.

(h) "taken" means captured, killed, collected or otherwise possessed.

(i) "wildlife" means any mollusk or crustacean or any part, egg or offspring thereof; the dead body or parts thereof; or any product thereof.

#### § 246.3 Prohibitions.

Subsections (a) and (b) of the Act provide that:

(a) Any person who—

(1) Delivers, carries, transports, or ships, by any means whatsoever, or causes to be delivered, carried, transported, or shipped for commercial or noncommercial purposes or sells or causes to be sold any wildlife taken, transported, or sold in any manner in violation of any Act of Congress or regulation issued thereunder; or

(2) Delivers, carries, transports, or ships, by any means whatever, or causes to be delivered, carried, transported, or shipped for commercial or noncommercial purposes or sells or causes to be sold in interstate or foreign commerce any wildlife, taken, transported, or sold in any manner in violation of any law or regulation of any State or foreign country;

(b) Any person who—

(1) Sells or causes to be sold any products manufactured, made, or processed from any wildlife taken, transported, or sold in any manner in violation of any Act of Congress or regulation issued thereunder; or

(2) Sells or causes to be sold in interstate or foreign commerce any products manufactured, made, or processed from any wildlife taken, transported, or sold in any manner in violation of any law or regulation of a State or a foreign country; or

(3) Having purchased or received wildlife imported from any foreign commerce or shipped, transported, or carried in interstate commerce, makes or causes to be made any false record, account, label, or identification thereof; or

(4) Receives, acquires, or purchases for commercial or noncommercial purposes any wildlife—

(i) Taken, transported, or sold in violation of any law or regulation of any State or foreign country and delivered, carried, transported, or shipped by any means or method in interstate or foreign commerce; or

(ii) Taken, transported, or sold in violation of any Act of Congress or regulation issued thereunder . . .

shall be subject to the penalties prescribed . . .

#### § 246.4 Enforcement.

(a) Any authorized official or any officer of the Customs Service is authorized to execute any warrant to search for and seize any wildlife, product, property, records, or item used or possessed in violation of the Act with respect to which a civil penalty under § 246.3 may be assessed.

(b) The Director shall notify the owner or consignee of any wildlife, product, property, or item so seized as soon as practicable following such seizure.

(c) Such wildlife, product, property, or item so seized shall be held by such authorized official until proceedings involving the imposition of a civil penalty are completed.

(d) In lieu of holding such wildlife, product, property, or item so seized, the Director may, in his sole discretion, permit such person to post a bond or other surety satisfactory to the Director.

#### § 246.5 Penalties.

Any person who knowingly violates or who, in the exercise of due care, should know that he is violating any provision of subsection (a) or (b) of the Act (see § 246.3) may be assessed a civil penalty by the Director of not more than \$5,000 for each violation. Each violation shall constitute a separate offense. Such person shall be given notice and opportunity for a hearing with respect to such violation. Such hearing shall follow the procedures set forth in § 246.6-246.16.

#### § 246.6 Notice of proposed assessment; opportunity for hearing.

(a) Prior to the assessment of a civil penalty pursuant to § 246.5 a notice of proposed assessment issued by the Director shall be served personally or by registered or certified mail, return receipt requested, upon the respondent. The notice shall contain:

(1) A concise statement of the facts believed to show a violation;

(2) A specific reference to the provisions of the Act;

(3) The amount of penalty proposed to be assessed.

The notice shall inform the respondent that he has 20 days from receipt of the notice in which to request a hearing or to waive it. The request or waiver shall be in writing and addressed to the Director, National Marine Fisheries Service, U.S. Department of Commerce, Washington, D.C. 20235. The notice shall further inform the respondent that if he does not respond to the notice within the 20 days allowed, he shall be deemed to have waived his right to a hearing and to have consented to the making of an assessment without a hearing.

(b) With his request for a hearing or with his written waiver of a hearing, the respondent may submit objections to the proposed assessment. He may deny the existence of the violation or ask that no penalty be assessed or that the amount be reduced. The respondent must set forth in full all facts supporting his denial of the alleged violation or his request for relief.

#### § 246.7 Waiver of hearing; assessment of penalty.

(a) If a written waiver of a hearing is timely made, or if a hearing is deemed to have been waived as provided in § 246.6(a), the Director shall proceed either to make an assessment of a civil penalty or to rescind the proposed assessment taking into consideration such showing as may have been made by respondent pursuant to § 246.6(b). Such action shall become the final administrative decision of the Secretary when rendered and any civil penalty assessed shall be collected in accordance with § 246.16. Notice of such final decision shall be promptly sent to the respondent

by registered or certified mail, return receipt requested.

(b) If, despite the waiver of a hearing, the Director believes that there are material facts at issue which cannot otherwise be satisfactorily resolved, he may refer the case to an administrative law judge as provided in § 246.8.

#### § 246.8 Appointment of Administrative Law Judge and Agency Representative; notice of hearing.

(a) If a written request for a hearing has been timely made, or the Director determines, pursuant to § 246.7(b), that a hearing should be held, the case shall be assigned to an administrative law judge appointed pursuant to 5 U.S.C. 3105. Written notice of the assignment shall promptly be given to the respondent by the Director, together with the name and address of the person who will present evidence on behalf of the Secretary at the hearing (the agency representative), and thereafter all pleadings and other documents shall be filed directly with the administrative law judge, with a copy served on the agency representative or the respondent as the case may be.

(b) The Director shall deliver to the administrative law judge a copy of the notice of proposed assessment, and response to the respondent thereto, and other materials deemed relevant to the case and shall furnish to the respondent a copy of any such materials not already in respondent's possession.

(c) The administrative law judge shall promptly cause to be served on the parties notice of the time and place of the hearing, which shall not be less than ten (10) days after service of the notice of hearing except in extraordinary circumstances.

#### § 246.9 Failure to appear; official transcript; record for decision.

(a) If the respondent fails to appear at the hearing, he will be deemed to have consented to a decision being rendered on the record made at the hearing.

(b) The Director shall provide the services of an official reporter who shall make the only official transcript of the proceedings. Copies of the official transcript may be obtained from the official reporter upon payment of the charges therefor.

(c) The transcript of testimony and exhibits, together with all papers and requests filed in the proceedings, shall constitute the exclusive record for decision.

#### § 246.10 Duties and powers of the Administrative Law Judge.

(a) It shall be the duty of the administrative law judge to inquire fully into the facts as they relate to the matter before him. Upon assignment to him and before submission of the case, pursuant to § 246.12, to the Secretary, the administrative law judge shall have authority to:

(1) Rule on offers of proof and receive relevant evidence;

(2) Take or cause depositions to be taken whenever the ends of justice would be served thereby;

(3) Regulate the course of the hearing and, if appropriate, exclude from the hearings persons who engage in misconduct, and strike all testimony of witnesses refusing to answer any questions ruled to be proper which are related to such questions;

(4) Hold conferences for the settlement or simplification of the issues by consent of the parties or upon his own motion;

(5) Dispose of procedural requests, motions or similar matters and order hearings reopened prior to issuance of the administrative law judge's report and recommendations;

(6) Grant requests for appearance of witnesses or production of documents;

(7) Limit lines of questioning or testimony which are immaterial, irrelevant, or unduly repetitious;

(8) Examine and cross-examine witnesses and introduce into the record documentary or other evidence;

(9) Request the parties at any time during the hearing to state their respective positions concerning any issue in the case or theory in support thereof;

(10) Continue, at his discretion, the hearing from day-to-day, or adjourn it to a later date or to a different place;

(11) Take official notice of any matters not appearing in evidence in the record which are among the traditional matters of judicial notice; or of technical or scientific facts within the general or specialized knowledge of the Department of Commerce as an expert body; or of a document required to be filed with or published by a duly constituted Government body: *Provided*, That the parties shall be given notice, either during the hearing or by reference in the administrative law judge's decision, of the matters so noticed, and shall be given adequate opportunity to show the contrary;

(12) Prepare, serve, and submit his initial decision pursuant to § 246.14.

(13) Take any other action necessary and not prohibited by this section or the Act.

#### § 246.11 Appearance of the respondent and the agency representative.

The respondent and the agency representative shall have the right to appear at such hearing in person, by counsel, or by other representative, to examine and cross-examine witnesses to the extent required for a full and true disclosure of the facts, to conduct oral argument at the close of testimony and to introduce into the record relevant documentary or other evidence, except that the participation of either party shall be limited to the extent prescribed by the administrative law judge.

#### § 246.12 Evidence.

All evidence which is relevant, material, reliable, and probative, and not unduly repetitious or cumulative, shall be admissible in the hearing.

#### § 246.13 Filing of briefs.

The respondent and the agency representative may submit a brief to the administrative law judge. The original and one copy of such brief shall be filed within 7 days after the close of the hearing, except that the administrative law judge may, for good cause, grant an extension of such time for filing.

#### § 246.14 Decisions.

(a) After the close of the hearing and the receipt of briefs, if any, the administrative law judge shall expeditiously prepare an initial decision. The initial decision shall contain findings of fact, conclusions, and the reasons or basis therefore, upon the material issues presented, and shall specifically find whether the respondent committed the violations alleged and, if so, the amount of the civil penalty to be assessed.

(b) The administrative law judge shall cause his initial decision to be served on the respondent and the agency representative within 20 days after the close of the hearing or the receipt of all briefs, whichever is later, and shall forthwith transfer the record in the case to the Secretary through the Director.

(c) Within 10 days of receipt of the initial decision of the administrative law judge, either the respondent or the agency representative may file with the Secretary by serving the Director, an appeal of the initial decision. If no appeal is received within such period, the initial decision shall become the final administrative decision of the Secretary. If an appeal is received within such period, the Secretary shall render a final decision after considering the record and the appeal. Notice of an appeal by either party shall be promptly given in writing to the other party and notice of the Secretary's final decision upon appeal shall be promptly given in writing to both parties.

#### § 246.15 Remission, mitigation, or compromise.

For good cause shown, the Secretary may at any time remit, mitigate, or compromise the assessment of a civil penalty made under the provisions of these regulations.

#### § 246.16 Payment of penalty.

The respondent shall have 30 days from receipt of the final assessment decision within which to pay the penalty assessed. Upon a failure to pay the penalty, the Secretary may request the Attorney General to institute a civil action in the appropriate United States District Court to collect the penalty.

#### § 246.17 Disposition of seized wildlife, products, property, or items.

(a) Upon the completion of proceeding involving a civil penalty, the Director may proceed in any court of competent jurisdiction against any wildlife, product, property, or item seized as a result of its use or possession in connection with a violation of the Act to have such wildlife, product, property, or item forfeited to the Director.

(b) Any wildlife, product, property, or item forfeited to the Director may be disposed of in such manner as he deems appropriate.

(c) The Director shall return any wildlife, product, property or item seized or the monetary amount if a bond was posted to the owner or consignee if he does not begin an action to have such wildlife, product, property, or item in a court of competent jurisdiction within 30 days following the disposition of the civil penalty pursuant to § 246.7 or § 246.14, whichever is applicable.

#### IDAHO

#### Approval and Promulgation of Implementation Plans; Extension of Comment Period

This notice extends to June 11, 1975 the period for comments to the notice, published April 10, 1975 (40 FR 16218), proposing disapproval of Regulation S, "Control of Sulfur Oxides Emissions," of the "rules and regulations for the Control of Air Pollution in Idaho." The revised Regulation S was submitted to EPA by the Governor of Idaho as a proposed revision to the Idaho Air Quality Implementation Plan on January 10, 1975.

A request for an extension was submitted on May 8, 1975 by The Bunker Hill Company of Kellogg, Idaho, the source affected by the revised Regulation. EPA has determined that the request is reasonable in that it would allow Bunker Hill time to submit additional comments. Therefore EPA is granting an extension of the comment period to June 11, 1975.

This extension does not provide an extension for comments relating to two additional revisions which were proposed for approval on April 10 in the same FEDERAL REGISTER notice. These revisions are Regulation A, "General Provisions," and Regulation C, "Ambient Air Quality Standards," of the "rules and regulations for the Control of Air Pollution in Idaho."

All interested persons are encouraged to submit written comments on whether the proposed revision should be approved or disapproved as required by section 110 of the Clean Air Act, as amended. Comments received on or before June 11, 1975 will be considered. Comments should be directed to the Regional Administrator, Region X, Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Washington 98101, Attention: Ms. K. Higley, M/S 629. Public comments received will be available for public inspection at the EPA Regional Office and EPA Headquarters at the Freedom of Information Center, Environmental Protection Agency, 401 M Street SW, Washington, D.C. 20460.

This notice is issued under the authority of section 110 of the Clean Air Act, as amended. (42 U.S.C. 1857c-5).

Dated: May 14, 1975.

ROGER STRELOW,  
Assistant Administrator for Air  
and Waste Management.

#### [ 40 CFR Part 180 ] CHLOROTHALONIL

[FRL 376-7; PPSE1509/P2]

#### Proposed Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities

Dr. C. C. Compton, Coordinator, Interregional Research Project No. 4, State Agricultural Experiment Station, Rutgers University, New Brunswick NJ 08903, submitted a pesticide petition (PP 5E1569) to the Environmental Protection Agency on behalf of the IR-4 Technical Committee and the Agricultural Experiment Station of Hawaii. This petition proposed establishment of a tolerance for residues of the fungicide Chlorothalonil (tetrachloroisophthalonitrile) and its metabolite 4-hydroxy-2,5,6-trichloroisophthalonitrile in or on the raw agricultural commodity passion fruit at 3.0 parts per million. (Chlorothalonil has been accepted as the common name for tetrachloroisophthalonitrile.)

The data submitted in the petition and other relevant material have been evaluated. The pesticide is considered useful for the purpose for which the tolerance is sought, and there is no reasonable expectation of residues in eggs, meat, milk, or poultry and § 180.6(a)(3) applies. The tolerance established by amending § 180.275 will protect the public health.

Any person who has registered or submitted an application for the registration of a pesticide under the Federal Insecticide, Fungicide, and Rodenticide Act which contains any of the ingredients listed herein may request, on or before June 20, 1975, that this proposal be referred to any advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on this proposal to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, Environmental Protection Agency, Room 423, East Tower, 401 M St. SW, Washington D.C. 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and others interested in reviewing them. The comments must be received on or before June 20, 1975, and should bear a notation indicating the subject (PP5E1569/P2). All written comments filed pursuant to this notice will be available for public inspection in the Office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

(Sec. 408(e), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(e)))

Dated: May 15, 1975.

JOHN B. RITCH, Jr.,  
Director, Registration Division.  
It is proposed that § 180.275, Subpart C, Part 180, be amended by inserting the new paragraph "3 parts per million . . ." after the paragraph "5 parts per million . . ." to read as follows.

§ 180.275 Chlorothalonil; tolerances for residues.

3 parts per million in or on passion fruit.

#### PASSENGER TRANSPORTATION SERVICES—INCLUSION OF AIR FACILITIES AND SERVICES, FILING PROCEDURES FOR AIR TAXI/COMMERCIAL OPERATORS, PUBLIC AIR CARRIERS

##### Cancellation of Public Hearing

The Federal Energy Administration hereby gives notice that the public hearing scheduled for May 22, 1975 in the above captioned proceeding has been cancelled. Only two requests to make oral presentations were received by FEA as of 4:30 p.m., May 16, 1975. One of the requests has been withdrawn and the person who made the only other request indicated in his request that in the absence of other participants of the hearing he would submit written comments in lieu of making an oral presentation. Written comments and other data with respect to the proposed amendment may still be submitted to Executive Communications, Room 3309, Federal Energy Administration, Box CR, Washington, D.C. 20461. All such materials received by 4:30 p.m., May 20, 1975 will be considered by FEA before final action is taken on the proposed regulations.

#### GUIDES CONCERNING USE OF ENDORSEMENTS AND TESTIMONIALS IN ADVERTISING

##### Opportunity To Submit Written Views to Proposed Guides

In addition to the two Guides concerning endorsements by experts and by organizations (16 CFR §§ 255.3 and 255.4) which are published in final form today in the rules and regulations section of this issue of the FEDERAL REGISTER, the Commission is proposing to amend Title 16, Part 255 further by adding three new §§ 255.1, 255.2 and 255.5.

§ 255.1 is an entirely new Guide 1—General considerations—which states certain basic principles that are applicable to all endorsements. Paragraph (a) of this proposed Guide requires that every endorsement reflect the honest views of the endorser, and it incorporates a long established prohibition against statements in endorsements that could not be supported if presented in the advertiser's words rather than the endorser's. See, e.g., "United States v. John J. Fulton Co.," 33 F. 2d 506 (9th Cir. 1929); "American Chemical Paint Co.," 45 F.T.C. 9 (1948).

Paragraph (b) of proposed Guide 1 deals with the advertiser's presentation of endorsement messages. While it does not preclude the editing of an endorser's exact words, it prohibits the obviously deceptive practice of distorting the endorser's opinion or experience with the product by rewording the endorsement or by presenting it out of context. See, e.g., "Country Tweeds, Inc.," 61 F.T.C. 1250, aff'd, 326 F. 2d 144 (2d Cir. 1964); P. Lorillard Co., 46 F.T.C. 735, aff'd, 186 F. 2d 52 (4th Cir. 1950). The first sentence of this paragraph allows an advertiser to continue using an endorsement only so long as he has good reason to believe that the endorser continues to subscribe to the views presented. See "National Dynamics Corp.," 82 F.T.C. 488, mod. on other grds, 492 F. 2d 1333 (2d Cir. 1974), cert. denied, 95 S.Ct. 303 (1974).

Paragraph (c) of proposed Guide 1 concerns representations that the endorser uses the endorsed product, and it requires such an endorser to be a "bona fide" user of the product at the time the endorsement was given. The standard of "bona fide" use requires more than mere actual use and reflects the principle stated in the Commission's opinion in "National Dynamics Corp.," supra, that an endorsement may be used only as long as the endorser continues to subscribe to the views presented. An endorsement of a product which is used by an endorser, but which he does not like, would violate this principle, since an endorser's use of a product impliedly represents his approval of it.

§ 255.2 is proposed Guide 2—Consumer endorsements—which was previously published in somewhat different form on

December 1, 1972 (37 FR 25548) as proposed Guide 4 (§ 255.4). Paragraph (a) recites the general principle that endorsements reflecting the experience of an individual consumer will be interpreted as representing the typical performance of the product under like circumstances. See "National Dynamics Corp.," Dkt. 8803 (modified order, March 4, 1975).

Paragraph (b) of proposed Guide 2 relates to the use of professional actors in consumer endorsements. Endorsements which purport to represent the views or opinions of ordinary consumers derive much of their persuasive ability from the fact that the endorser's opinions or reactions are spontaneous and reflect the speaker's actual experiences with or reactions to the advertised product. The undisclosed use of professional actors to simulate this spontaneity may therefore be similar to the undisclosed use of "mock-ups" to simulate actual tests, demonstrations, or experiments. Use of such mock-ups has been prohibited by the Commission in numerous cases. See, e.g., "F.T.C. v. Colgate-Palmolive Co.," 380 U.S. 374 (1964).

Paragraph (c) of proposed Guide 2 would prohibit lay endorsements concerning the effectiveness of drug products. The addition of such a paragraph was suggested in a comment of the Lehigh Valley Committee Against Health Frauds, Lehigh Valley, Pa. In this connection the Commission wishes to call attention to its opinion in "Brown Auto Stabilizer Co.," 81 F.T.C. 745, 760-761 (1972) where, with regard to a "user endorsement," the Commission held that "this type of evidence inherently lacks probative value when a product's efficacy is not readily apparent and can be measured by more objective means." The Commission also directs attention to the conclusion of the Food and Drug Administration, in connection with its review of over-the-counter drug products, that "the patient's subjective judgment is not a proper standard for determining [the] effectiveness" of such products. 37 FR 9464, 9469 (May 11, 1972).

§ 255.5 is proposed Guide 5—Disclosure of material connections—which was also previously published in somewhat different form on December 1, 1972 (37 FR 25548) as proposed Guide 3. This proposed Guide states the general rule that connections between the endorser and the seller of an advertised product which would materially affect the weight or credibility of the endorsement must be fully disclosed. The first sentence of the proposed Guide incorporates, with only minor stylistic modifications, the originally-proposed Guide 3.

The second sentence of the Guide, as presently proposed, is intended to clarify the application of the general principle to one particular connection: the giving of, or promise of, compensation in advance of the giving of an endorsement by an individual. The Guide makes clear that, ordinarily, the prior giving or promise of such compensation need be disclosed only when the individual endorser is a non-expert consumer, and

that such compensation need not ordinarily be disclosed when the endorser is a celebrity.

The Commission believes it is appropriate to treat endorsements by "ordinary consumers" differently from endorsements by celebrities with respect to disclosure of compensation, because it believes that the consuming public generally expects that celebrities, unlike ordinary consumers, generally are compensated in advance for the use of their name in an advertisement. Similarly, with respect to payments to consumers made after an unsolicited endorsement has been given, the Commission does not believe that the fact of such payment, coming only after an endorsement has already been given, would be deemed by the consuming public to bear on the credibility of the endorsement. The Commission would welcome any survey data or other information relating to consumer beliefs or expectations concerning the payment of compensation for the endorsement of celebrities or non-expert consumers.

By indicating certain instances when the compensation of an endorser will be deemed a material connection requiring disclosure, the Commission does not in any way imply that other connections, such as an advertiser's relationship with a testing company or an endorser's financial interest in the advertising company, may not be equally material. The Commission has merely determined that these issues can be more effectively handled by way of the examples to the proposed Guide.

Opportunity is hereby extended by the Federal Trade Commission to any and all persons, firms, corporations, organizations, or other parties affected by or having an interest in the Guides on Endorsements and Testimonials to present to the Commission their views concerning the proposed changes in the Guides, including such pertinent information, suggestions, or objections as they may desire to submit. For this purpose, copies of the Guides may be obtained upon request to the Commission. Such data, views, information and suggestions may be submitted by letter, memorandum, brief, or other written communication not later than July 21, 1975, to the Assistant Director, Division of National Advertising, Bureau of Consumer Protection, Federal Trade Commission, Pennsylvania Avenue and Sixth Street, NW., Washington, D.C. 20580. All such statements filed not later than will be considered by the Commission in determining appropriate final action on the proposed Guides.

#### Text of the proposed Guides follows: PART 255—GUIDES CONCERNING USE OF ENDORSEMENTS AND TESTIMONIALS IN ADVERTISING

Sec.  
255.1 General considerations.  
255.2 Consumer endorsements.  
255.5 Disclosure of material connections.

AUTHORITY: The provisions of this Part 255 are issued under 38 Stat. 717, as amended; 15 U.S.C. 41-56.

#### § 255.1 General considerations.

(a) Endorsements must always reflect the honest opinions, findings, beliefs, or experience of the endorser. Furthermore, they may not contain any representations which would be deceptive, or could not be substantiated if made directly by the advertiser.

(b) The endorsement message need not be phrased in the exact words of the endorser, unless the advertisement affirmatively so represents. However, the endorsement may neither be presented out of context nor reworded so as to distort in any way the endorser's opinion or experience with the product. An advertiser may use an endorsement only as long as he has good reason to believe that the endorser continues to subscribe to the views presented.

(c) In particular, where the advertisement represents that the endorser uses the endorsed product, then the endorser must have been a bona fide user of it at the time the endorsement is given. Additionally, the advertiser may continue to run the advertisement only so long as he has good reason to believe that the endorser remains a bona fide user of the product.

Example: A magazine advertisement for cigars shows a picture of a well-known entertainer holding a lighted cigar. In fact, the entertainer does not smoke cigars, but posed for the picture only because of compensation paid to him by the cigar manufacturer. The advertisement conveys the impression that the entertainer actually uses the cigars, and this would be a deceptive endorsement of the cigars by the entertainer. [Guide 1]

#### § 255.2 Consumer endorsements.

(a) An advertisement employing an endorsement reflecting the experience of an individual consumer will be interpreted as a claim that such experience represents the typical performance of the product under circumstances similar to those depicted in the advertisement. Therefore if the represented performance is not in fact typical, the advertisement should clearly and conspicuously disclose what the typical or ordinary performance would be in the depicted circumstances. The simple disclosure that "not all consumers will get this result" is not sufficient.

(b) Advertisements presenting endorsements by what is represented, directly or by implication, to be an "actual consumer" should utilize actual consumers, in both the audio and the video, or clearly and conspicuously disclose that the persons in such advertisements are professional actors, appearing for compensation.

(c) Claims concerning the efficacy of any drug or other article or device intended (1) to affect the structure or any function or the body of man or other animals and/or intended (2) for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in man or other animals shall not be made in lay endorsements.

Example 1: An appliance manufacturer prints a statement by a satisfied user that the product served adequately for over eight

years. Even if it is literally true that a particular customer got eight years of life out of an appliance the endorsement would be deceptive if the typical life of the product is substantially less and such typical life is not revealed.

*Example 2:* An advertisement for a certain brand of flashlight batteries includes a statement by a consumer that the batteries saved his life by lasting three nights while he was lost at sea. If the product would not typically perform the same way in these unusual circumstances, then the advertisement must disclose what the typical performance would be in such circumstances. [Guide 2]

#### § 255.5 Disclosure of material connections.

When there exists a connection between the endorser and the seller of the advertised product which might materially affect the weight or credibility of the endorsement, such connection must be fully disclosed. Such a connection would not ordinarily include the payment or promise of payment to an individual (as distinguished from an organizational) endorser as long as the advertiser does not represent that the endorsement was given without compensation. However, when the endorser is neither represented in the advertisement as an expert

nor is known to a significant portion of the viewing public, the payment or promise of payment of compensation prior to the giving of the endorsement must be disclosed.

*Example 1:* A drug company commissions research on its product by a well-known research organization. The drug company pays a substantial share of the expenses of the research project, but the test design is under the control of the research organization. A subsequent advertisement by the drug company mentions the research results as the "findings" of the well-known research organization. The advertisement should reveal the advertiser's role in originating and financing the study, such as by stating that the study was "commissioned" or "sponsored" by the advertiser. Alternatively, if the drug firm designs the test as well as pays for it, that should be revealed as well.

*Example 2:* A well-known research organization, acting on its own initiative and not by prior arrangement with any drug company, publishes its findings with respect to products of various drug companies. A subsequent advertisement for one of the drug companies whose product fared well in the tests highlights the findings and mentions the testing organization. Notwithstanding the fact that the drug company may have paid the research organization for the use of its name and findings, such payment

would not materially affect the credibility of the endorsement and thus would not need to be disclosed.

*Example 3:* A film star endorses a particular food product. The endorsement regards only points of taste and individual preference. This endorsement must of course comply with § 255.1; but even though the compensation paid the endorser is substantial, neither the fact nor the amount of compensation need be revealed.

*Example 4:* A patron of a restaurant, who is neither known to the public nor presented as an expert, is asked for his opinion of a food product served in the restaurant. Consumers generally expect such an endorsement to be given without prior compensation, and the advertisement implies that is the case here. Therefore, the fact of prior compensation must be disclosed.

*Example 5:* A former astronaut is either on the Board of Directors of, or owns substantial stock in, a motel chain. The astronaut subsequently endorses the company's motels. In either case, the connection between him and the company would be material and should be disclosed. [Guide 5]

Issued May 21, 1975.

By direction of the Commission.

(SEAL) CHARLES A. TOBIN,  
Secretary.

(Dept. Circular, Public Debt Series—No. 16-75, Supplement)

#### TREASURY NOTES OF SERIES I-1977

##### Announcement of Interest Rate

MAY 15, 1975.

The Secretary of the Treasury announced on May 14, 1975, that the interest rate on the notes described in Department Circular—Public Debt Series—No. 16-75, dated May 9, 1975, will be 6½ percent per annum. Accordingly, the notes are hereby redesignated 6½ percent Treasury Notes of Series I-1977. Interest on the notes will be payable at the rate of 6½ percent per annum.

JOHN K. CARLOCK,  
Fiscal Assistant Secretary.

[FR Doc. 75-13266 Filed 5-16-75; 9:22 am]

(Dept. Circular, Public Debt Series, No. 17-75)

#### TREASURY NOTES OF SERIES O-1976

Dated and Bearing Interest From June 6, 1975

MAY 16, 1975.

##### I. INVITATION FOR TENDERS

The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, act amended, invites tenders on a yield basis for \$1,500,000,000, or thereabouts, of notes of the United States, designated Treasury Notes of Series O-1976. The interest rate for the notes will be determined as set forth in Section III, paragraph 3, hereof. Additional amounts of these notes may be issued at the average price of accepted tenders to Government accounts and to Federal Reserve Banks for themselves and as agents of foreign and international monetary authorities. Tenders will be received up to 1:30 p.m., Eastern Daylight Saving time, Thursday, May 22, 1975, under competitive and noncompetitive bidding, as set forth in Section III hereof.

##### II. DESCRIPTION OF NOTES

1. The notes will be dated June 6, 1975, and will bear interest from that date, payable on a semiannual basis on October 31, 1975, April 30, 1976, and October 31, 1976. They will mature October 31, 1976, and will not be subject to call for redemption prior to maturity.
2. The income derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or

State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes with interest coupons attached, and notes registered as to principal and interest, will be issued in denominations of \$5,000, \$10,000, \$100,000 and \$1,000,000. Book-entry notes will be available to eligible bidders in multiples of those amounts. Interchanges of notes of different denominations and of coupon and registered notes, and the transfer of registered notes will be permitted.

5. The notes will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing United States notes.

##### III. TENDERS AND ALLOTMENTS

1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to the closing hour, 1:30 p.m., Eastern Daylight Saving time, Thursday, May 22, 1975. Each tender must state the face amount of notes bid for, which must be \$5,000 or a multiple thereof, and the yield desired, except that in the case of noncompetitive tenders the term "noncompetitive" should be used in lieu of a yield. In the case of competitive tenders, the yield must be expressed in terms of an annual yield, with two decimals, e.g., 7.11. Fractions may not be used. Noncompetitive tenders from any one bidder may not exceed \$500,000.

2. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, may submit tenders for account of customers provided the names of the customers are set forth in such tenders. Others will not be permitted to submit tenders except for their own account. Tenders will be received without deposit from banking institutions for their own account, Federally-insured savings and loan associations, States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign States, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, and

Government accounts. Tenders from others must be accompanied by payment of 5 percent of the face amount of notes applied for.

3. Immediately after the closing hour tenders will be opened, following which public announcement will be made by the Department of the Treasury of the amount and yield range of accepted bids. Those submitting competitive tenders will be advised of the acceptance or rejection thereof. In considering the acceptance of tenders, those with the lowest yields will be accepted to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, an interest rate will be established at the nearest ½ of one percent necessary to make the average accepted price 100.000 or less. That will be the rate of interest that will be paid on all of the notes. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price corresponding to the yield bid. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders, in whole or in part, including the right to accept tenders for more or less than the \$1,500,000,000 of notes offered to the public, and his action in any such respect shall be final. Subject to these reservations, noncompetitive tenders for \$500,000 or less without stated yield from any one bidder will be accepted in full at the average price (in three decimals) of accepted competitive tenders.

##### IV. PAYMENT

Settlement for accepted tenders in accordance with the bids must be made or completed on or before June 6, 1975, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. Payment must be in cash, in other funds immediately available to the Treasury by June 6, 1975, or by check drawn to the order of the Federal Reserve Bank to which the tender is submitted, or the United States Treasury if the tender is submitted to it, which must be received at such Bank or at the Treasury no later than: (1) Tuesday, June 3, 1975, if the check is drawn on a bank in the Federal Reserve District of the Bank to which the check is submitted, or the Fifth Federal Reserve District in the case of the Treasury, or (2) Friday, May 30, 1975, if the check is

drawn on a bank in another district. Checks received after the dates set forth in the preceding sentence will not be accepted unless they are payable at a Federal Reserve Bank. Payment will not be deemed to have been completed where registered notes are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. In every case where full payment is not completed, the payment with the tender up to 5 percent of the amount of notes allotted shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States.

#### V. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make such allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of notes on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

WILLIAM E. SIMON,  
Secretary of the Treasury.

[FR Doc. 76-13211 Filed 5-16-75; 2:33 pm]

#### WATER CIRCULATING PUMPS, WET MOTOR TYPE

Use in Residential and Commercial Hydronic Heating Systems, From the United Kingdom; Antidumping Proceeding

On April 25, 1975, information was received in proper form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), indicating a possibility that water circulating pumps, wet motor type, suitable for use in residential and commercial hydronic heating systems, from the United Kingdom are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

There is evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States. This evidence indicates that substantial unit and dollar volume decreases have occurred in the United States industry during the latest three-year period, that there is utilization of less than half the capacity of the U.S. industry, and that imports of the subject merchandise from all sources during the latest three-year period have increased substantially. On the basis of such evidence, it is not deemed necessary to refer the case to the International Trade Commission

pursuant to section 201(c)(22) of the Act (19 U.S.C. 160(c)(22)).

Having conducted a summary investigation as required by § 153.29 of the Customs Regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the U.S. Customs Service is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

A summary of information received all sources is as follows:

The information received tends to indicate that the prices of the merchandise sold for exportation to the United States are less than the prices for home consumption.

This notice is published pursuant to § 153.30 of the Customs Regulations (19 CFR 153.30).

Dated: May 15, 1975.

(SEAL) DAVID R. MACDONALD,  
Assistant Secretary of  
the Treasury.

#### DEPARTMENT OF DEFENSE

##### Office of the Secretary

#### ADVISORY GROUP ON ELECTRON DEVICES

##### Advisory Committee Meeting

Working Group D (Mainly Laser Devices) of the DoD Advisory Group on Electron Devices (AGED) will meet in closed session at Lincoln Laboratory, Lexington, Massachusetts on June 11 and 12, 1975.

The purpose of the Advisory Group is to provide the Director of Defense Research and Engineering, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The Working Group D meeting will be limited to review of research and development programs which the Military Departments propose to initiate with industry, universities or in their laboratories. The laser area includes programs on developments and research related to low energy lasers for such applications as battlefield surveillance, target designation, ranging, communications, weapon guidance and data transmission. The review will include classified program details and will result in advice or recommendations to government research and development agencies preliminary to decisions or actions, the preliminary disclosure of which would interfere with the orderly conduct of government.

In accordance with section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Advisory Group meeting concerns matters listed in section 552(b) of Title 5 of the United States Code, specifically subpara-

graphs (1) and (5) thereof, and that accordingly this meeting will be closed to the public.

MAURICE W. ROCHE,  
Director, Correspondence and  
Directives OASD (Comptroller).

#### ADVISORY GROUP ON ELECTRON DEVICES

##### Advisory Committee Meeting

Working Group C (Special Devices) of the DoD Advisory Group on Electron Devices (AGED) will meet in closed session at 201 Varick Street, 9th Floor, New York, NY 10014 on June 11, 1975.

The purpose of the Advisory Group is to provide the Director of Defense Research and Engineering, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The Working Group C meeting will be limited to review of research and development programs which the Military Departments propose to initiate with industry, universities or in their laboratories. The special device area includes such programs as infrared and night vision sensors. The review will include classified program details and will result in advice or recommendations to government research and development agencies preliminary to decisions or actions, the preliminary disclosure of which would interfere with the orderly conduct of government.

In accordance with section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Advisory Group meeting concerns matters listed in section 552(b) of Title 5 of the United States Code, specifically subparagraphs (1) and (5) thereof, and that accordingly this meeting will be closed to the public.

#### DEFENSE SCIENCE BOARD TASK FORCE ON VERIFICATION

##### Advisory Committee Meeting

The Defense Science Board Task Force on Verification will meet in closed session on June 14, 1975, at The Pentagon, Arlington, Virginia.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense.

The Task Force will provide an analysis of techniques proposed for verifying compliance with the limitations of the Threshold Test Ban Treaty.

In accordance with section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Task Force meeting concerns matters listed in section 552(b) of Title 5 of the United States Code, specifically subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

#### DEFENSE SCIENCE BOARD TASK FORCE ON THEATER NUCLEAR FORCES R&D REQUIREMENTS

##### Advisory Committee Meeting

The Defense Science Board Task Force on Theater Nuclear Forces R&D Requirements will meet in closed session on July 7, 8, and 9, 1975 in the Pentagon, Washington, D.C.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense.

The Task Force will provide an analysis of technology and systems applicable to theater nuclear forces and indicate promising solutions to the problem area for possible implementation within the Department of Defense.

In accordance with section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Task Force meeting concerns matters listed in section 552(b) of Title 5 of the United States Code, specifically subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

#### DEPARTMENT OF THE INTERIOR

##### Bureau of Indian Affairs

#### COEUR D'ALENE INDIAN RESERVATION, IDAHO

#### Ordinance Governing Sale, Distribution and Taxation of Tobacco Products and Liquor

MAY 13, 1975.

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2 (32 FR 13938), and in accordance with the Act of August 15, 1953, Pub. L. 277, 83rd Congress, 1st Session (67 Stat. 588).

I certify that the following ordinance governing the sale, distribution and taxation of tobacco and liquor products on the Coeur d'Alene Indian Reservation was adopted on April 15, 1974 by the Coeur d'Alene Tribe of Indians which has jurisdiction over the area of Indian country included in the ordinance reading as follows:

Whereas, the Coeur d'Alene Tribal Council as the governing body of the Coeur d'Alene Indian Tribe is charged by the Tribal Constitution and By-Laws to manage the affairs of the Coeur d'Alene Tribe and has the responsibility of protecting the health, security and general welfare of the Tribe and its members, and

Whereas, the State of Idaho is without jurisdiction on the Coeur d'Alene Indian Reservation to regulate and control Indian Smoke Shops and Liquor Outlets operated by Tribal members, and

Whereas, the Coeur d'Alene Tribal Council deems it essential to the health, security and general welfare of the Coeur d'Alene Tribe and its members to enact a comprehensive tobacco and liquor ordinance regulating sale and distribution of cigarettes and other tobacco products and liquor products and levying an excise tax upon their distribution and sale on the Coeur d'Alene Indian Reservation,

Now, therefore, the Coeur d'Alene Tribal Council does hereby promulgate and enact the following ordinance:

AN ORDINANCE GOVERNING SALE, DISTRIBUTION AND TAXATION OF TOBACCO AND LIQUOR PRODUCTS WITHIN THE COEUR D'ALENE INDIAN RESERVATION

##### SECTION 1. Title.

This ordinance shall be known as the Coeur d'Alene Tobacco and Liquor Ordinance.

##### SEC. 2. Definitions.

As used in this ordinance, the following words and phrases shall each have the designated meaning unless a different meaning is expressly provided or the context is clearly indicated:

(1) "Tribe" shall mean the Coeur d'Alene Indian Tribe.

(2) "Council" shall mean the Coeur d'Alene Tribal Council.

(3) "Cigarettes" shall mean any roll for smoking made wholly or in part of tobacco, irrespective of size or shape and irrespective

of the tobacco being flavored, adulterated, or mixed with any other ingredient, where such roll has a wrapper or cover made of paper or any material, except where such wrapper is wholly or in the greater part made of natural leaf tobacco in its natural state.

(4) "Tobacco Products" shall mean cigarettes, cigars, smoking tobacco, snuff, chewing tobacco, and other kinds and forms of tobacco prepared in such manner as to be suitable for chewing or smoking.

(5) "Tobacco Outlets or Liquor Outlets" shall mean a Tribally licensed retail or wholesale business selling tobacco or liquor products on the Coeur d'Alene Indian Reservation.

(6) "Operator" shall mean an enrolled member of the Coeur d'Alene Tribe licensed by the Tribe to operate a Tobacco Outlet or Liquor Outlet.

(7) "Liquor Products" shall mean all spirituous liquors and beverages.

SEC. 3. Licensing of Tobacco Outlets or Liquor Outlets.

The Council may license one or more Tobacco Outlets or Liquor Outlets within the Coeur d'Alene Indian Reservation.

##### SEC. 4. Nature of Outlet.

Each Tobacco Outlet or Liquor Outlet licensed hereunder shall be managed by an operator pursuant to a license granted by the Council hereunder, and shall also be managed pursuant to a Federal Indian Trader's License as provided in Section 7 hereof.

##### SEC. 5. Application for Tobacco Outlet or Liquor Outlet License.

Any enrolled member of the Coeur d'Alene Indian Tribe may apply upon an application form provided by the Council for Tobacco Outlet or Liquor Outlet License. The Tribal Secretary-Treasurer shall receive and process applications, and be the official representatives of the Tribe and the Council in matters relating to Tobacco Outlets or Liquor Outlets excise tax collections, etc. Each application shall be accompanied by an application charge or fee of \$50.00.

##### SEC. 6. Tobacco Outlet or Liquor Outlet License.

Upon approval of an application, the Council shall issue the applicant a Tobacco Outlet or Liquor Outlet License for a one-year period which shall entitle the operator to establish and maintain one Tobacco Outlet or Liquor Outlet on the Coeur d'Alene Indian Reservation. The license shall be non-transferable. It shall be renewable at the discretion of the Council each year by filing a new application form and payment of the application fee as provided in section 5.

##### SEC. 7. Trader's License.

No Tobacco Outlet or Liquor Outlet license shall be issued to an operator until he has obtained a Federal Indian Trader's license from the Superintendent of the Northern Idaho Indian Agency. Provided, however, that a full blooded Coeur d'Alene Indian need not obtain a Federal Indian Trader's License to qualify for a Tobacco Outlet license. Revocation of the Federal Indian Trader's License shall be grounds for revocation of the operator's Tobacco Outlet or Liquor Outlet license.

##### SEC. 8. Excise Tax Imposed.

There is levied and there shall be collected as hereinafter provided, a tax upon the distribution of all cigarettes sold or distributed by a Tobacco Outlet or Liquor Outlet in the amount of 1½ cents per package, which tax may be adjusted and changed by the Council. The Council may levy an additional tax upon the distribution of cigarettes and other

## NOTICES

tobacco or liquor products as it deems desirable.

The excise tax levied hereunder shall be added to the retail selling price of tobacco or liquor products sold to the ultimate consumer.

#### Sec. 9. Purchase of Tobacco or Liquor Inventory.

All wholesale purchases of cigarettes and tobacco products by a Tobacco Outlet shall be from wholesalers within the State of Idaho. Exception to this section can be made as to cigarettes or other tobacco or liquor products that cannot be purchased from an Idaho wholesaler. The Tribe shall have no legal responsibility for any unpaid bills owed by a Tobacco Outlet or Liquor Outlet to a wholesale supplier or to any other person. The Operator shall make arrangements with his wholesalers to send copies of all his Purchase Invoices to the Tribal Office, Plummer Sub-Agency.

#### Sec. 10. Restricted Sales to Non-Indians.

An operator may not sell more than five cartons of cigarettes per sale to a non-Indian. The Council may restrict sales of other tobacco or liquor products to non-Indians as it deems necessary.

#### Sec. 11. Restricted Sales to Minors.

An Operator may not sell any tobacco or liquor products to any person under the age of 18 years.

#### Sec. 12. Tribal Liquor Regulations.

The Council will promulgate regulations governing the operation of liquor outlets before it issues licenses therefor.

#### Sec. 13. Other Business by Operator.

An Operator may conduct another business simultaneously with managing a Tobacco Outlet or Liquor Outlet for the Tribe. The other business may be conducted on the same premises and the Operator shall not be required to maintain separate books of account for the other business.

#### Sec. 14. Tribal Liability and Credit.

An Operator is forbidden to represent or give the impression to any supplier or any other person with whom he does business that he is an official representative of the Tribe, authorized to pledge tribal credit or financial responsibility for any of the expenses of his business operation. The operator shall hold the Coeur d'Alene Indian Tribe harmless from all claims and liability of whatever nature. The Tribal Council may revoke the operator's Outlet License if it is not operated in a business like manner or if it does not remain financially solvent or does not pay its operating expenses and bills before they become delinquent.

The Operator shall maintain at his expense adequate insurance covering liability, fire, theft, vandalism and other insurable risks. The liability insurance shall have coverage of at least \$10,000.00 per person and \$25,000.00 per incident.

#### Sec. 15. Audit and Inspection Bond.

All of the books and other business records of the Tobacco Outlet or Liquor Outlet shall be available for inspection and audit by the Tribal Council or its authorized representative at any reasonable time.

The excise tax owed the Tribe shall be remitted to the Tribal offices monthly with reports thereof on forms to be supplied by the Tribe. The Operator shall furnish a satisfactory bond to the Tribe in the principal amount of \$10,000.00, guaranteeing his payment of excise tax.

#### Sec. 16. Revocation of Tobacco Outlet and Liquor Outlet Licenses.

Failure of an operator to abide by the requirements of this ordinance and any additional requirement imposed by the Council will constitute grounds for revocation of the operator's Tobacco Outlet or Liquor Outlet license as well as enforcement of the penalties provided in sec. 17 below.

#### Sec. 17. Violation—Penalties.

Any person violating the provisions of this ordinance shall be guilty of an offense and subject to a fine in Tribal Court of not less than \$50.00 nor more than \$250.00 and forfeiture of all of the remaining stock of tobacco products or liquor products distributed hereunder and situate in his Tobacco Outlet or Liquor Outlet. The Tribal law enforcement officers shall be empowered to seize forfeited tobacco or liquor products.

#### Sec. 18. Severability.

If any provision of this ordinance or its application to any person or circumstance is held invalid, the remainder of this ordinance, or the application of the provision to other persons or circumstances is not affected.

MORRIS THOMPSON,  
Commissioner of Indian Affairs.

#### Bureau of Land Management

[Serial No. F-21269]

#### CLIFFORD W. MOSSBERG

#### Application for Airport Lease

MAY 13, 1975.

Notice is hereby given that pursuant to the Act of May 24, 1928 (49 U.S.C. 211-214) Clifford W. Mossberg has applied for an airport lease for the following land:

FAIRBANKS MERIDIAN, ALASKA

T. 5 N., R. 3 E.,  
Sec. 25, W $\frac{1}{2}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ ;  
Sec. 35, NW $\frac{1}{4}$ NW $\frac{1}{4}$ NE $\frac{1}{4}$ , N $\frac{1}{2}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ NE $\frac{1}{4}$ .

The purpose of this notice is to inform the public that the filing of this application segregates the described land from all other forms of use or disposal under the public land laws.

Interested persons desiring to express their views should promptly send their

the Interior to the Commissioner of Indian Affairs by 230 DM 2.

Section 601(d), Title 1 of the Omnibus Crime Control and Safe Streets Act of 1968, Pub. L. 90-351, places responsibility on the Secretary of the Interior to determine those Indian tribes which perform law and order functions. The listing published beginning on page 13758 of the May 25, 1973, FEDERAL REGISTER (38 FR 13758) identified all eligible Indian tribes and the specific law and order functions they have responsibility to exercise. Determination concerning Indian tribes not listed is made on an individual basis upon application by such tribes under provisions of the Act of the Law Enforcement Assistance Administration, Department of Justice. The Secretary's authority to make such determination was delegated to the Commissioner of Indian Affairs by 230 DM 1.

It has been determined by the Commissioner of Indian Affairs that the Seminole Indian Tribe of Florida has responsibility to perform all six law and order functions listed in the May 25, 1973, FEDERAL REGISTER (38 FR 13758) and amended at page 42392 of the December 4, 1974, FEDERAL REGISTER (39 FR 42392) is further amended by adding the listing for the Seminole Tribe of Indians to have law and order responsibility reading as follows:

Therefore, the listing published beginning at page 13758 of the May 25, 1973, FEDERAL REGISTER (38 FR 13758) and amended at page 42392 of the December 4, 1974, FEDERAL REGISTER (39 FR 42392) is further amended by adding the listing for the Seminole Tribe of Indians to have law and order responsibility reading as follows:

Tribal entities recognized by Federal Government by State	To employ tribal police	To establish tribal court	To adopt a tribal law and order code	To undertake correction functions	To undertake programs aimed at preventing adult crime and juvenile delinquency	To undertake adult and juvenile rehabilitation programs

#### IDAHO

##### Modification of District Boundaries

Pursuant to the authority vested in the Secretary of the Interior by the Taylor Grazing Act of June 28, 1934 (48 Stat. 1269) as amended and delegated to the Director, Bureau of Land Management by 235 DM 1.1, it is ordered as follows:

The district boundary modification notice appearing on page 16862 of the April 15, 1975 edition of the Federal Register (FR Doc. 75-9784), and transferring administrative responsibility of cer-

tain public lands from the Burley to the Idaho Falls District of the Bureau of Land Management is hereby amended to include the following described lands:

BOISE MERIDIAN, IDAHO

T. 12 S. to 15 S. inclusive, R. 46 E.,

Sec. 5, W $\frac{1}{2}$ ;

Secs. 6, 7, All;

Sec. 8, W $\frac{1}{2}$ ;

Sec. 17, W $\frac{1}{2}$ ;

Secs. 18, 19, All;

Sec. 20, W $\frac{1}{2}$ ;

Sec. 20, W $\frac{1}{2}$ ;

Secs. 30, 31, All;

Sec. 32, W $\frac{1}{2}$ .

T. 16 S., R. 46 E.,

Sec. 5, W $\frac{1}{2}$ ;

Secs. 6, 7, All;

Sec. 8, W $\frac{1}{2}$ ;

Sec. 17, W $\frac{1}{2}$ ;

Secs. 18, 19, All;

Sec. 20, W $\frac{1}{2}$ ;

Sec. 20, Lots 3, 4, 5 and 6;

Sec. 30, Lots 1 to 8 inclusive.

This transfer of jurisdiction will not affect the status or use of the public lands involved and shall become effective

May 21, 1975.

GEORGE L. TURCOIT,  
Associate Director.

MAY 13, 1975.

#### MONTANA

##### Airport Lease Application

MAY 12, 1975.

Notice is hereby given that pursuant to the Act of May 24, 1928, 49 U.S.C. 211-214, the Montana Division of Aeronautics has applied for an airport lease for the following land:

PRINCIPAL MERIDIAN, MONTANA

T. 11 N., R. 16 W.,

Sec. 7, A tract of land in the E $\frac{1}{2}$ NE $\frac{1}{4}$ , more particularly described as follows: Beginning at the section corner common to Sections 7 and 8 on the south line of Sec. 5, thence South 0°24' East, a distance of 720.09 feet to a point on the boundary of Shriner Placer, MS 3387, between Corner No. 4 and Corner No. 5; thence South 88°23' West, a distance of 434.19 feet to Corner No. 5 of MS 3387; thence South 43°43' West, a distance of 649.59 feet to a point on the boundary of MS 3387 between Corner No. 5 and Corner No. 6, which is the true point of beginning; thence South 43°43' West, a distance of 53.41 feet to Corner No. 6 of MS 3387; thence South 07°47' East, a distance of 481.39 feet to a point on the boundary of MS 3387 between Corner No. 6 and Corner No. 7; thence North 88°48' West, a distance of 517.14 feet to a point; thence due north a distance of 495.21 feet to a point; thence South 88°48' East, a distance of 491.53 feet to the point of beginning.

The purpose of this notice is to inform the public that the filing of this applica-

#### NEW MEXICO

##### Application

MAY 13, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), Llano, Inc., has applied for one 4 inch natural gas pipeline right-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 21 S., R. 27 E.,

Sec. 7, SE $\frac{1}{4}$ SW $\frac{1}{4}$ , SW $\frac{1}{4}$ SE $\frac{1}{4}$ ;

Sec. 18, NW $\frac{1}{4}$ NE $\frac{1}{4}$  and NE $\frac{1}{4}$ NW $\frac{1}{4}$ .

This pipeline will convey natural gas across 0.232 miles of national resource lands in Eddy County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions. Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, NM 88201.

RAUL E. MARTINEZ,  
Acting Chief, Branch of Lands  
and Minerals Operations.

ATTACHMENT TO FEDERAL FISH AND WILDLIFE  
LICENSE/PERMIT APPLICATION

Jacob M. Valentine, Jr.

1723—Mississippi Sandhill Crane (*Grus canadensis pulla*), an endangered species.

Activity: (1) To collect a maximum of six (6) eggs in Jackson County, Mississippi during 1975, to be shipped or carried to Patuxent Wildlife Research Center, Laurel, Maryland for propagation purposes. This study has been approved by Regional Director, Fish and Wildlife Service, Atlanta, Georgia, as part of Wildlife Management Study (Refuge Division): "The reintroduction of sandhill cranes into southwestern Louisiana. The study also has the approval of the Mississippi Game and Fish Commission and permits are issued each year. (2) To hold cranes, dead or alive, or parts thereof, if found dead, wounded or sick, in the course of studies in the area, until the cranes (and parts) can

be disposed of as directed by Director, Fish and Wildlife Service, or his representative.

APRIL 15, 1975.

Mr. C. R. BAVIN, Chief,  
Division of Law Enforcement,  
U.S. Department of the Interior,  
Fish and Wildlife Service,  
Washington, D.C. 20240

DEAR MR. BAVIN: Reference is made to FWS/LE PRT 8-143-C. I am submitting the following in response to your questions:

1. What effect will the removal of the 6 eggs have on the wild population?

One egg will be taken only from each nest containing two eggs. Two cranes are rarely raised to subadulthood in one breeding season by a pair of cranes. The average number of nests found per year (1966-1974) is 5.3. In 1974 five nests were found. There are so many limiting factors, such as illegal shooting, disease, constricting nesting habi-

tats, etc., that no one can assess the impact of the removal of 6 eggs on the wild population. Thirty-eight (38) eggs have been removed from the wild (1966-1974), an average of 3.8 eggs per year. From those eggs, eight (8) adults survive; another young was raised from eggs from a captive pair.

2. How will the eggs be shipped to Patuxent Wildlife Research Center?

The eggs will be shipped by commercial air freight in a specially prepared egg case, marked special handling, from New Orleans International Airport; and will be met by Patuxent personnel the same day at Baltimore, Maryland, and carried to the Propagation Center, Patuxent Wildlife Research Center, where they will be placed in commercial incubators. This method has been used the past two years.

3. Where will the hatched birds be kept? The hatched birds will be kept in brooders until they are old enough to be put in small cages. Later, they will be placed in larger pens with other young cranes.

4. Will you attempt to reintroduce these birds into the wild? If so where?

The birds will not be introduced into the wild. At the present time, a breeding flock is being developed. The program goal is to raise ten (10) breeding pairs at Patuxent. When that objective is reached, then plans will be formulated as to how, when, where, and to what extent reintroduction will be accomplished.

Reference is made to my request for an endangered species permit for alligator research. You may cancel that request until I receive directions from the Regional Director, Atlanta, Georgia, as to my activities relating to the alligator.

Sincerely yours,

JACOB M. VALENTINE, JR.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before June 20, 1975 will be considered.

Dated: May 15, 1975.

C. R. BAVIN,  
Chief, Division of Law Enforcement,  
U.S. Fish and Wildlife Service.

Signature: Daniel D. Berger Date: 19 April 1975

Additional information required under 50 CFR 17.23.

(1) I propose the attachment of USFWS leg bands, and colored plastic leg bands (in cooperation with Dr. F. Prescott Ward's color marking scheme), and radio transmitters to the young and adults of the species peregrine falcon, *Falco peregrinus*. Judging from previous years experience, we can expect to handle from 3 to 20 or so.

(2) None to be imported.

(3) For justification of permit see attached appendix prepared by William W. Cochran, Associate Wildlife Specialist with the Illinois Natural History Survey, Urbana, IL. All radio tracking will be done with the help of, and in cooperation with, Mr. Cochran. In addition to performing this work on peregrines in arctic Canada and in Greenland, we intend also to continue past research by trapping migrant peregrines during September and October, principally at two trapping sites: Little Suamico, WI and Cedar Grove, WI. Mr. Tom Erdman conducts the trapping at the Little Suamico site and is the holder of Federal Banding Permit No.

9873. The above in part would be done in conjunction with a long term raptor migration study that I have been involved in since 1950.

Submitted by:

DANIEL D. BERGER,

APRIL 19, 1975.

DEVELOPMENT OF A MINIMUM-BIAS RADIO ATTACHMENT FOR PEREGRINE FALCONS AND OTHER BIRDS OF PREY

NOVEMBER 1974.

In late September and early October 1971 tests were conducted on Assateague Island to test the feasibility of using telemetry devices for the study of wild peregrine falcons. Mr. Earl Baysinger, Assistant Chief of the Rare and Endangered Species Section of the BSWF, supervised the work. Scott Ward, Robert Berry, Captain Williston Shor, and myself conducted the tests. The first objective was to test attachment techniques to find one that would in no way harm or encumber the bird and if successful in this

we had hoped to follow a peregrine for a portion of its migratory flight.

In the period September 30 through October 4, five peregrines were fitted with transmitters. Two were fitted with a 2-pound test fine plastic covered wire that held the 1.7 gram transmitter to the back. The wire went around the middle, in front of the legs and behind the wings. Both these were removed by the birds within hours of release. Two were fitted with a 1.6 gram transmitter tied under a tail feather with cotton thread and glued for additional support. Both these slid off in less than 24 hours. They were slipped over the end of the feather without breaking the securing thread. Two were fitted with a transmitter under a tail feather but held in place with a leather bewit-like fastener devised by Captain Shor. Both stayed on for at least two days. One of these was placed on one of the birds which had been used first and had lost its transmitter and was re-captured.

A hurricane to the south and rainy weather conspired to delay migration past the time when our volunteer pilot (and airplane) had to go. Robbed of a means of tracking, there was little point in continuing.

Practically no behavior data was collected except on the one bird that was recaptured, and even this was only for one full day. As far as could be told, there were no ill effects caused by attachment of a 1.6 gram transmitter to the base and underside of an outside tail feather. All participants were in agreement that a tail feather attachment was ideal because (1) there was no contact with living tissue, (2) attachment under an outside tail feather caused no change in aerodynamic properties and (3) a tail feather is ultimately lost in moult.

Further work was postponed.

In late September of 1972 a second opportunity arose when an immature male peregrine was captured and banded by Dan Berger at Cedar Grove, Wisconsin. I used an attachment that was identical to the tie-on method used at Assateague. Although the leather fastener had proved more durable than others tried at Assateague, I hoped its added bulk could be avoided by some modification on the tie-on method. In this case I used a few dabs of fast setting epoxy in place of the Duco cement. The only other change was that the transmitter weight was reduced to 1.4 grams for a 25 day battery life. The transmitter stayed on for three days. This bird was observed visually many times during the three days but was never seen to pull at or preen the tail feather, although he was observed pulling at his leg-band on one occasion. His flight seemed peregrine perfect as far as could be judged by observations. He made numerous kills and migrated to near West Lafayette, Indiana during the period of observation.

He hunted briefly, made a kill, and then migrated after his release. This contrasts with sharp-shinned hawk behavior which, with a body harness, involves a considerable amount of time perched and preening or pulling at the transmitter. This may last from one to several days depending, I assume, on how well the fit is made.

Thus, although the tail-feather attachment was ideal for the bird, for most studies it would be nearly useless if it worked for only a few days. Studies of the behavior of birds raised in captivity and released into the wild would be infinitely improved if telemetry techniques could be used but these would need to last for at least several weeks. Migration or territorial studies also require more time if they are to be of much value. Thus the answer was not just at hand.

## VOYAGEURS NATIONAL PARK DRAFT MASTER PLAN Meetings

Public meetings on the draft master plan for Voyageurs National Park in Minnesota will begin at 7:30 p.m. June 10, 1975 at International Falls, Minnesota and continue at other locations on subsequent evenings through June 14. The purpose of the meetings is to elicit public comment on the draft plan prior to its being put into final form.

Each of the meetings will begin at 7:30 p.m. The schedule:

June 10, Rainy River Community College Theater, Highway 71, west edge of International Falls, Minnesota.  
June 11, High School, Orr, Minnesota.  
June 12, Council Chambers (Room 19), City Hall, 4th and First Street South, Virginia, Minnesota.  
June 13, County Commissioners Board Room, St. Louis County Courthouse, 5th Avenue West and First Street, Duluth, Minnesota.  
June 14, Solarium Room, Curtis Hotel, 10th and Third Avenue South, Minneapolis, Minnesota.

Individuals wishing to make oral statements are requested to fill out cards available at the door prior to the meeting at which they wish to appear. Written statements may be submitted to the Superintendent, Voyageurs National Park, P.O. Box 50, International Falls, Minnesota 56649 up to 30 days after the meeting.

Dated: May 13, 1975.

MERRILL D. BEAL,  
Regional Director  
Midwest Region.

CENTRAL VALLEY PROJECT,  
CALIFORNIASupplement to the Final Environmental  
Statement Tehama-Colusa Canal

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a supplement to the final environmental statement on the Tehama-Colusa Canal (PES 72-17) dated June 7, 1972. The supplement describes features not covered in the final environmental statement including 2,250 acre-foot Funks Dam and Reservoir, a dual-purpose wasteway and the execution of 13 water distribution and/or water service contracts. The proposed features are located in Glenn, Colusa, Tehama and Yolo Counties, California.

Copies are available for inspection at the following locations:

Office of Assistant to the Commissioner—Ecology, Room 7620, Bureau of Reclamation, Department of the Interior, Washington, D.C. 20240; Telephone (202) 343-4991.

Division of Engineering Support, Technical Services and Publications Branch, E&R Center, Denver Federal Center, Denver, Colorado 80225; Telephone (303) 234-3000. Office of the Regional Director, Bureau of Reclamation, 2800 Cottage Way, Sacramento, California 95825; Telephone (916) 484-4792.

Single copies of the final environmental statement may be obtained on request to the Commissioner of Reclamation or the Regional Director. Please refer to the statement number above.

Dated: May 16, 1975.

STANLEY D. DOREMUS,  
Deputy Assistant Secretary  
of the Interior.

[FR Doc.75-13317 Filed 5-20-75; 8:45 am]

GENERAL ADJUSTMENTS IN POWER  
RATESProcedures for Public Participation in  
General Adjustments in Power Rates

In 1973 the Secretary of the Interior promulgated increased power rates for five Federal reclamation projects. Special procedures were developed to allow public participation in the review of the proposed rates, but the procedures were subject to some criticism.

The ratesetting process for Federal power projects is a complex one that involves literally thousands of determinations in connection with the assembly and analysis of factual data, the application of expert methodology in the fields of hydrology, engineering, law, and accounting, and the exercise of judgment on many questions of policy. It is not an adversary process. It is a legislative-type process that involves a balancing of various viewpoints, including the interest of the water users in the use of power revenues to help repay irrigation costs, the interest of the Federal Government and the taxpayers in the prompt payment of all costs assignable to power, the interest of the power users in obtaining the lowest possible rates consistent with sound business principles, and the interest of Congress in obtaining compliance with congressional objectives.

Although there is not statutory requirement for public participation in the ratesetting process, it is the Department's policy to allow reasonable opportunity for such participation in making general adjustments in power rates. Accordingly, the Department proposes to establish procedures to govern public participation in general adjustments in power rates of the Bureau of Reclamation. They would not apply to the other Interior power marketing agencies. The proposed procedures are set forth below.

The Central Valley Project in California was one of the five projects mentioned above. On November 1, 1973, the Secretary of the Interior promulgated a power rate increase for the Central Valley Project in two steps, the first of approximately 23 percent to be effective

April 1, 1974, and the second step of approximately 25 percent to be effective January 1, 1977. In August 1974 the Department instituted procedures for the review of the second step, including a number of meetings with customers and the conduct of computer studies to test the financial effects of alternative criteria. On February 27, 1975, the United States District Court for the District of Columbia set aside the rates "until hearings which comport with due process are held" but stayed its order with respect to the first step pending appeal.

It is proposed in the case of the Central Valley Project to continue with the activities now in progress by completing the computer studies based on various criteria, as developed in consultation with the customers, and making the results of those studies available to customers and the public. That activity is expected to be completed by the end of May 1975, after which the general procedures as set forth below, or as they may be modified after public comment, will be followed in connection with further activities on the Central Valley Project power rate adjustment.

Public comments on the proposed procedures should be submitted in writing, in duplicate, on or before June 20, 1975, to the Commissioner of Reclamation at the following address:

Commissioner, Attention: 600  
Bureau of Reclamation, Room 7612  
Department of the Interior  
Washington, D.C. 20240  
Telephone: (202) 343-6337

After all public comments have been carefully reviewed, a final decision will be made and publicly announced as to the procedures that will be followed.

Dated: May 14, 1975.

ROLAND G. ROBINSON, Jr.,  
Deputy Assistant Secretary  
of the Interior.

## PROPOSED PROCEDURES

## PUBLIC PARTICIPATION IN GENERAL ADJUSTMENTS IN POWER RATES

1. *Purpose and scope.* The purpose of these procedures is to afford interested members of the public a reasonable opportunity for meaningful participation in the development of general adjustments in power rates for Federal reclamation projects. It applies to general adjustments in the power rates for a project that are necessary to assure financial feasibility, but it does not apply to other rate actions that have a minor impact on financial feasibility, such as technical adjustments in rates, the adoption of special rates for limited purposes, the adoption of rates for use in connection with power pool operations, and the like.

2. *Statutory authority.* The establishment of power rates for Federal reclamation projects is pursuant to the Reclamation Act of 1902, as amended and supplemented by subsequent enactments, particularly section 9(c) of the Reclamation Project Act of 1939, 43 U.S.C. 485h(c), and the acts specifically

## NOTICES

applicable to the project in question. Consideration also is given to the statutes under which other Interior power marketing agencies operate, particularly section 5 of the Flood Control Act of 1944, 16 U.S.C. 825s, and the Bonneville Project Act, as amended, 16 U.S.C. 832 et seq.

3. *Definitions.* As used herein—

a. "Departmental" refers to all personnel and components of the Department of the Interior including, but not limited to, the Office of the Secretary, the Office of the Solicitor, and the Bureau of Reclamation.

b. "Secretary" includes the following officers of the Department of the Interior: Secretary, Acting Secretary, Under Secretary, Acting Under Secretary, Deputy Under Secretary, Assistant Secretary, Acting Assistant Secretary, and Deputy Assistant Secretary.

4. *Tentative rates.* The Secretary will announce by the issuance of a press release that tentative adjusted rates for the project have been prepared and are under consideration. The Department will make available to the power customers of the project and other interested persons information in writing concerning (1) the tentative rates, (2) the principal criteria used in determining the rates, and (3) the schedule for public participation in the review of the tentative rates and in the development of the final rates.

5. *Consultation and comment period.* For a period ending 90 days after the issuance of the press release, or 15 days after the close of the formal public hearing described in paragraph 7, below, whichever is later, all interested persons will have the opportunity to consult with, and obtain information from, departmental representatives, to examine backup data, and to make suggestions for modification of the rates or criteria. At any time during this period any person may file written comments with the Regional Director of the Bureau of Reclamation responsible for power marketing from the project.

6. *Public information meetings.* During the consultation and comment period, one or more public information meetings will be held, during which departmental representatives will explain the tentative rates and criteria, answer questions concerning them, and receive comments from interested persons. Questions which cannot be answered by departmental representatives at the meeting will be answered in writing at least 15 days before the formal public hearing described in paragraph 7, below. The number of such meetings will depend upon the size of the power marketing area of the project, the number of power customers, and the degree of interest shown. A transcript of each meeting will be made and copies will be available on request for a fee.

7. *Formal public hearing.* Not less than 60 days after the issuance of the press release, a formal public hearing will be held for the primary purpose of permitting interested persons to submit written comments or make oral presentations of their views and comments. It

will be conducted by a presiding officer who may be an administrative law judge of the Department. Departmental representatives will be present, and they and the presiding officer may ask questions of the witnesses. Persons interested in speaking should submit a request to the Regional Director at least 3 days before the hearing so a witness list can be developed. The presiding officer may allow others to speak if time allows. The hearing normally will last not more than a day. A transcript of the hearing will be made, and copies will be available on request for a fee.

8. *Proposed decision on rate adjustment.* Following departmental review of the information and comments gathered in the course of the proceedings described above, the Secretary will announce his proposed decision on the rate adjustment. He will issue an explanation of the principal factors leading to such decision.

9. *Review period.* Interested persons will be given at least 30 days to submit comments in writing to the Secretary on the proposed decision.

10. *Final decision on rate adjustment.* Following departmental review of the further written comments, the Secretary will announce his final decision on the rate adjustment and the effective date of the adjusted rates. He will issue an explanation of the principal reasons therefor. The effective date shall be not less than 60 days after the announcement.

WATER RESEARCH AND EDUCATION  
ADVISORY COMMITTEE

## Committee Establishment

This notice is issued in accordance with the provisions of 5 U.S.C. 552(a)(1), and section 9(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463). The Secretary of the Interior has established a Water Research and Education Advisory Committee to help solve national, regional and local problems concerning the productive and efficient use of the water resources, to provide scientific expertise to Federal, State and local government agencies, private organizations and individuals; to provide scientific expertise and research support to water programs that relate to foreign relations; to provide scientific competence for teaching and to make available increased research opportunities for graduate students; and to support the rapid dissemination of water research findings and new technologies to the water resource community and to the general public. The Water Research and Education Advisory Committee was established after consultation with the Office of Management and Budget, in accordance with the provisions of the Federal Advisory Committee Act (Pub. L. 92-463). The Committee charter, which contains a description of its nature and purpose and a certification that its establishment is in the public interest, is published in

## NOTICES

its entirety below. Further information regarding the document may be obtained from Jack C. Jorgensen, Assistant Director—Technology Transfer, Office of Water Research and Technology, U.S. Department of the Interior, Washington, D.C. 20240, telephone (202) 343-8445, or 343-8783.

Dated: May 15, 1975.

Jack O. Horton,  
Assistant Secretary of the Interior.

## ADVISORY COMMITTEE CHARTER

1. *Official designation.* Water Research and Education Advisory Committee.

2. *Objectives.* To provide advice and develop recommendations for policy with respect to planning, evaluating, coordinating and supporting long range research programs; defining pressing water resource problem areas; establishing water research priorities; and delineating the appropriate areas of responsibility of Federal and State agencies in carrying out water research and training programs.

3. *Scope.* The Advisory Committee will serve the following purposes:

Provide a means for the exchange of information and ideas on water science among USDI agencies and State universities and Land-Grant colleges.

Serve as a forum (a) for the analysis of existing and proposed programs with emphasis on program development, (b) for the development of recommendations on policy matters and program activities and (c) for effective mobilization of manpower and other resources.

The Committee and its activities will be fully subject to the provisions of the Federal Advisory Committee Act, P.L. 92-463, 5 USC Sec. 1 et seq. (Supp. III, App. I) and will operate in accordance with existing statutes, regulations and directives for Federal advisory committees.

4. *Period of time to carry out its purpose.* It is expected the Committee will continue beyond the foreseeable future. However, its continuation will be subject to biennial review and renewal as required by Section 14 of P.L. 92-463.

5. *To whom does committee report?* The Committee will report annually to the Secretary of the Interior and the President, National Association of State Universities and Land Grant Colleges concerning the Committee's activities and recommendations.

6. *Responsibility for support services.* An Executive Secretary will be designated by the Assistant Secretary—Land and Water Resources from his staff to be responsive for the official minutes meeting, calls and arrangements, reimbursement for travel and other official expenses of Committee members will be arranged for by the organizations they represent.

7. *Description of duties.* The Committee is solely advisory in nature. It shall provide a joint effort directed toward attainment of the following goals:

To help solve national, regional and local problems concerning the productive and efficient use of the water resource.

To provide scientific expertise to Federal, State and local government agencies, private organizations and individuals.

To provide scientific expertise and research support to water programs that relate to foreign relations.

To provide scientific competence for teaching and to make available increased research opportunities for graduate students.

To support the rapid dissemination of water research findings and new technol-

gies to the water resource community and to the general public.

8. *Estimated annual operating costs.* \$5000—2 man year staff support.

9. *Frequency of meetings.* The committee will hold regular semi-annual meetings and such additional special meetings on call of the Chairmen.

10. *Termination date.* The committee will terminate on December 13, 1976, unless prior to that date renewal action is taken as described in paragraph 3 above.

11. *Committee membership.* The committee will function under Co-Chairmen appointed by the Secretary of the Interior and the President of the National Association of State Universities and Land-Grant Colleges. The committee will include an equal number of representatives of USDI and NASULGC as listed below to provide for and attain a balanced membership. The USDI representatives will be designated by the Secretary. The NASULGC representatives will be named by the President of NASULGC. Terms of members will normally be for two years and will be staggered to provide continuity. A representative of the Water Resources Council will serve at the invitation of the Secretary. Initial membership on the committee will be as follows:

## USDI (7)

Asst. Sec.—L&W Resources (Co-Chairman); Dir., Office of Water Research and Technology; Comm., Bureau of Reclamation; Dir., Bureau of Land Management; Dir., Office of Land Use and Water Planning; Dir., U.S. Geological Survey; Director, Water Resources Council.

## NASULGC (7)

4 representatives of NASULGC: Chairman of the NASULGC Water Committee (Co-Chairman) and 3 others designated by NASULGC to include a President or Chancellor of a significant Water Science University, Vice President or Dean of Research or sciences university; Chairman of the National Graduate Studies of a significant water national Association of Water Research Institute Directors; 2 representatives of UCOWR: (Chairman and one other representative).

12. *Authority.* 42 USC 1961 c provides that the Secretary of the Interior shall obtain the continuing advice and cooperation of—private institutions and individuals to assure that the programs authorized (by law) will supplement and not duplicate established water research in otherwise neglected areas and to contribute to a comprehensive, nationwide program of water and water-related resources research—

13. *Determination.* The establishment of the Water Research and Education Advisory Committee is determined to be in the public interest in connection with duties imposed on the Department of the Interior by law (42 USC 1961 c).

Dated: April 8, 1975.

Rogers C. B. Morton,  
Secretary of the Interior.

## DEPARTMENT OF AGRICULTURE

## Cooperative State Research Service

## COOPERATIVE FORESTRY RESEARCH ADVISORY BOARD AND ADVISORY COMMITTEE

## Meeting

The Cooperative Forestry Research Advisory Board and the Cooperative Forestry Research Advisory Committee will

meet June 2-4, 1975, at Olympia, Wash., at 1 p.m.

The meetings are open to the public and will be held in the Greenwood Motel.

The Advisory Board, in separate meeting, will consider recommendations for the allocation of research funds.

The Advisory Committee, in separate meeting, will evaluate forestry research requirements and make suggestions for cooperative research activities.

In joint sessions the Board and Committee will review McIntire-Stennis research accomplishments and evaluate progress in planning systems to achieve coordinated, comprehensive forestry research programs.

The names of Board and Committee members and agenda are available upon request to the recording secretary of the Board, R. L. Lovvorn, USDA, CSRS, Washington, D.C. 20250, or the recording secretary of the Committee, J. D. Sullivan, USDA, CSRS, Washington, D.C. 20250. Written statements may be filed with the Committee before or after the meeting.

R. L. LOVVORN,  
Administrator.

## Farmers Home Administration

[Notice of Designation Number A222]

## FLORIDA

## Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in Holmes County, Fla., as a result of a natural disaster consisting of excessive rainfall and flooding from April 9 to 18, 1975.

Therefore, the Secretary has designated this area as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Reubin O'D. Askew that such designation be made.

Applications for Emergency loans must be received by this Department no later than July 10, 1975, for physical losses and February 12, 1976, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Done at Washington, D.C., this 16th day of May 1975.

FRANK B. ELLIOTT,  
Administrator,  
Farmers Home Administration.

[Notice of Designation Number A221]

## IDAHO

## Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following counties in Idaho:

Bear Lake                      Washington  
Oneida

The Secretary has found that this need exists as a result of a natural disaster consisting of drought March 1 to October 30, 1974, and a hailstorm July 2, 1974, in Bear Lake County, drought May 1 to September 1, 1974, in Oneida County and drought May 1 to October 1, 1974, in Washington County.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Cecil D. Andrus that such designation be made.

Applications for Emergency loans must be received by this Department no later than July 10, 1975, for physical losses and February 12, 1976, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Done at Washington, D.C., this 16th day of May 1975.

FRANK B. ELLIOTT,  
Administrator,  
Farmers Home Administration.

[Notice of Designation Number A218]

## KANSAS

## Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following counties in Kansas:

Johnson                      Wyandotte  
Ottawa

The Secretary has found that this need exists as a result of a natural disaster consisting of drought June 15 to August 15, 1974, in Johnson County, drought June 1 to November 1, 1974, in Ottawa County and drought June 20 to August 15, 1974, in Wyandotte County.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of former Governor Robert B. Coking and Governor Robert F. Bennett that such designation be made.

## NOTICES

Applications for Emergency loans must be received by this Department no later than July 10, 1975, for physical losses and February 12, 1976, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invited public participation.

Done at Washington, D.C., this 16th day of May 1975.

FRANK B. ELLIOTT,  
Administrator,  
Farmers Home Administration.

[Notice of Designation Number A217]

## LOUISIANA

## Designation of Emergency Areas

The secretary of Agriculture has found that a general need for agricultural credit exists in the following parishes in Louisiana:

Rapides  
Grant

The Secretary has found that this need exists as a result of a natural disaster consisting of excessive rainfall August 1 through September 30, 1974, and November 1 through December 31, 1974; and Hurricane Carmen September 7 and 8, 1974.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Edwin Edwards that such designation be made.

Applications for emergency loans must be received by this Department no later than July 10, 1975, for physical losses and February 12, 1976, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas make it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Done at Washington, D.C., this 16th day of May 1975.

FRANK B. ELLIOTT,  
Administrator,  
Farmers Home Administration.  
[FR Doc.75-13336 Filed 5-20-75; 8:45 am]

[Notice of Designation Number A220]

## MICHIGAN

## Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricul-

tural credit exists in Oakland County, Mich., as a result of a natural disaster consisting of excessive rainfall May 3 through June 21, 1974, drought July 5 through August 10, 1974, and an early freeze September 23, 1974.

Therefore, the Secretary has designated this area as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor William G. Milliken that such designation be made.

Applications for Emergency loans must be received by this Department no later than July 10, 1975, for physical losses and February 12, 1976, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Done at Washington, D.C., this 16th day of May 1975.

## Forest Service

## ASPEN-HORSETHIEF TIMBER SALES

## Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Aspen-Horsethief Timber Sales, Sierra National Forest, [USDA-FS-R5-PES(Adm) 75-4].

The environmental statement concerns a proposal to continue with the preparation and eventual sale of the Aspen-Horsethief Timber Sales. These proposed timber sales are southeast of Mammoth Pool Reservoir on the Pineridge District, Sierra National Forest, Fresno County, California. The total area under study comprises 4,870 acres of National Forest lands within the 25,400-acre Kaiser Inventoried Roadless Area. Roughly 1,000 acres within the Study Area would be scheduled for various types of timber harvesting at the first stage of entry. The remaining acreage would be logged at varying intervals during the next 100 years. The ultimate goal of this proposal is to place the Study Area under long-term multiple use management which includes the production of timber resources.

This final environmental statement was transmitted to CEQ on May 12, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service  
South Agriculture Bldg., Rm. 3230  
12th St. & Independence Ave., SW.,

NEBRASKA NATIONAL FOREST  
LIVESTOCK ADVISORY BOARD  
Meeting

The Nebraska National Forest Livestock Advisory Board will meet at 8 p.m., c.d.t., June 17, 1975, at the Forest Service Office, Halsey, Nebraska.

The purpose of this meeting is to elect advisory board members and to discuss various grazing resource management practices.

The meeting will be open to the public. Persons who wish to attend should notify the District Ranger, Bessey Ranger District, Halsey, Nebraska 69142, phone (308) 533-2257.

The Committee has established the following rules for public participation:

1. Members of the public may present oral statements at any time during discussions.
2. Any member of the public who wishes to do so should file a written statement with the Committee, either before or after the meeting.

Dated: May 14, 1975.

R. W. TICE,  
Acting Forest Supervisor.  
[FR Doc. 75-13304 Filed 5-20-75; 8:45 am]

ROCK CREEK ADVISORY COMMITTEE  
Meeting

The Rock Creek Advisory Committee will meet at 7 p.m., on June 17, 1975. Meeting place will be in Drummond, Montana, in the basement of St. Michael's Catholic Church.

The purpose of this meeting is to evaluate four land use management options and to hear a report on the spring runoff of Rock Creek.

The meeting will be open to the public. Any member of the public who wishes to do so shall be permitted to file a written statement with the Committee before or after the meeting. To the extent that time permits, the Committee Chairman may permit interested persons to present oral statements at the meeting.

General participation by members of the public, or questioning of Committee members or other participants shall not be permitted unless approved by the majority of Committee members.

Dated: May 14, 1975.

ROBERT W. DAMON,  
Forest Supervisor,  
Deerlodge National Forest.

Rural Electrification Administration  
CONTINENTAL TELEPHONE CO. OF  
MISSOURI

## Proposed Loan Guarantee

Under the authority of Pub. L. 93-32 (87 Stat. 65) and in conformance with applicable agency policies and procedures as set forth in REA Bulletin 320-22, "Guarantee of Loans for Telephone Facilities," dated February 4, 1975, published in proposed form in the FEDERAL REGISTER, September 16, 1974, (Vol. 39 No. 180, pages 33228-33229) notice is hereby given that the Administrator of REA will consider providing a guarantee supported by the full faith and credit of the United States of America for a loan in the approximate amount of \$7,100,000 to Continental Telephone Company of Missouri, Wentzville, Missouri. The loan funds will be used to finance the construction of facilities to extend telephone service to subscribers and improve telephone service for existing subscribers.

Legally organized lending agencies capable of making, holding and servicing the loan proposed to be guaranteed may obtain information and details of the proposed project from Mr. Donald E. Feaster, President, Continental Telephone Company of Missouri, P.O. Box 307, Wentzville, Missouri 63385.

To assure consideration, proposals must be submitted on or before June 20, 1975 to Mr. Donald E. Feaster. The right is reserved to give such consideration and make such evaluation or other disposition of all proposals received, as the Continental Telephone Company of Missouri, and REA deem appropriate. Prospective lenders are advised that financing for this project is available from the Federal Financing Bank under a standing loan commitment agreement with the Rural Electrification Administration.

Copies of the REA Bulletin 320-22 are available from the Director, Information Services Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated at Washington, D.C., this 13th day of May, 1975.

DAVID A. HAMIL,  
Administrator, Rural  
Electrification Administration.

## ALABAMA ELECTRIC COOPERATIVE, INC.

## Proposed Loan Guarantee

Under the authority of Pub. L. 93-32 (87 Stat. 65) and in conformance with applicable agency policies and procedures as set forth in REA Bulletin 20-22 (Guarantee of Loans for Bulk Power Supply Facilities), notice is hereby given that the Administrator of REA will consider providing a guarantee supported by the full faith and credit of the United States of America for a loan in the approximate amount of \$265,000,000 to Alabama Electric Cooperative, Inc. These loan funds will be used to finance a project consisting of two 210 MW coal

fired generating units, anti-pollution control equipment, approximately 135 miles of 230 kV transmission lines and related terminal facilities and the acquisition of coal reserves and mining equipment.

Legally organized lending agencies capable of making, holding and servicing the loan proposed to be guaranteed may obtain information on the proposed project, including the engineering and economic feasibility studies and the proposed schedule for the advances to the borrower of the guaranteed loan funds from Mr. Charles Lowman, Manager, Alabama Electric Cooperative, Inc., P.O. Box 550, Andalusia, Alabama 36420.

In order to be considered, proposals must be submitted on or before June 20, 1975 to Mr. Lowman. The right is reserved to give such consideration and make such evaluation or other disposition of all proposals received, as Alabama Electric and REA deem appropriate. Prospective lenders are advised that the guaranteed financing for this project is available from the Federal Financing Bank under a standing agreement with the Rural Electrification Administration.

Copies of REA Bulletin 20-22 are available from the Director, Information Services Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated at Washington, D.C., this 13th day of May, 1975.

DAVID A. HAMIL,  
Administrator, Rural  
Electrification Administration.

## Soil Conservation Service

KAERCHER CREEK WATERSHED,  
PENNSYLVANIA

## Availability of Negative Declaration

Pursuant to section 102(B)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Kaercher Creek Watershed Project, Berks County, Pennsylvania.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Benny Martin, State Conservationist, Soil Conservation Service, USDA, Box 985, Federal Square Station, Harrisburg, Pennsylvania 17108, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection, flood prevention and

recreation. The remaining planned works of improvement as described in the negative declaration include conservation land treatment supplemented by installation of recreation facilities on 30 acres of a 170-acre park.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA  
Box 985, Federal Square Station  
Harrisburg, Pennsylvania 17108

Requests for the negative declaration should be sent to above address.

No administrative action on implementation of the proposal will be taken until June 5, 1975.

(Catalog of Federal Domestic Assistance Program No. 101904, National Archives Reference Services.)

Dated: May 14, 1975.

WILLIAM B. DAVEY,  
Deputy Administrator for Water  
Resources, Soil Conservation  
Service.

SALT LICK CREEK WATERSHED  
PROJECT, KENTUCKY

## Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Salt Lick Creek Watershed Project, Bath and Menifee Counties, Kentucky.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Glen E. Murray, State Conservationist, Soil Conservation Service, USDA, 333 Waller Avenue, Lexington, Kentucky 40504, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement as described in the negative declaration include conservation land treatment supplemented by one single-purpose floodwater retarding structure.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA  
333 Waller Avenue  
Lexington, Kentucky 40504

Requests for the negative declaration should be sent to above address.

No administrative action on implementation of the proposal will be taken until June 5, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

Dated: May 14, 1975.

WILLIAM B. DAVEY,  
Deputy Administrator for Water  
Resources, Soil Conservation  
Service.

#### WEST FORK OF BAYOU LACASSINE WATERSHED PROJECT, LOUISIANA

##### Availability of Final Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a final environmental impact statement (EIS) for the West Fork of Bayou Lacassine Watershed Project, Jefferson Davis Parish, Louisiana, USDA-SCS-EIS-WS-(ADM)-75-4-(P)-1A.

The EIS concerns a plan for watershed protection, flood prevention, and drainage. The EIS is prepared for conservation land treatment and 34 miles of channel work. The channel work will involve clearing and debris removal on 2 miles of existing channel and 32 miles of channel enlargement by excavation. Of the 34 miles of work proposed on existing man-made or previously modified streams or channels, 31 miles will involve those with ephemeral flow. The balance involves existing ponded water.

The final environmental impact statement has been filed with the Council on Environmental Quality.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA  
3737 Government Street  
Alexandria, Louisiana 71301

Dated: May 14, 1975.

#### DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

##### Alcohol, Drug Abuse, and Mental Health Administration

##### ADVISORY COMMITTEES

##### Meetings

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following National Advisory bodies scheduled to assemble during the month of June 1975:

NATIONAL ADVISORY MENTAL HEALTH COUNCIL  
June 16-18; 9:30 a.m.  
Conference Room 14-105, Parklawn Bldg.,  
Rockville, Maryland.  
Open—June 16.  
Closed—Otherwise.  
Contact Mrs. Zella Diggs, Parklawn Bldg.,  
Rm. 17C-26, 5600 Fishers Lane, Rockville,  
Md. 20852, 301-443-4333.

**Purpose.** The National Advisory Mental Health Council advises the Secretary, Department of Health, Education, and Welfare, Administrator, Alcohol, Drug Abuse, and Mental Health Administration, and the Director, National Institute of Mental Health, regarding the policies and programs of the Department in the field of mental health. The Council reviews applications for grants-in-aid relating to research, training, and services in the field of mental health and makes recommendations to the Secretary with respect to approval of applications for, and the amount of, these grants.

**Agenda.** June 16 will be devoted to discussion of NIMH policy issues. These will include current administrative, legislative, and program developments. On June 17-18, the Council will conduct a final review of grant applications for Federal assistance and this session will not be open to the public, in accordance with the determination by the Acting Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to provisions set forth in section 552(b)(4), 552(b)(5), and 552(b)(6), Title 5, U.S. Code, and section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

MENTAL HEALTH SMALL GRANT COMMITTEE  
June 26; 1:00 p.m.  
June 27-28; 8:30 a.m.  
Suite G100 and G101, Sheraton-Park Hotel,  
2900 Woodley Road, NW., Washington, D.C.  
Open—June 26, 4:00-5:00 p.m.  
Closed—Otherwise.  
Contact Mary E. Enyart, Parklawn Bldg., Rm.  
10C-14, 5600 Fishers Lane, Rockville, Md.  
20852, 301-443-4337.

**Purpose.** The Committee is charged with the initial review of small grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to mental health research and makes recommendations to the National Advisory Mental Health Council for final review.

**Agenda.** From 4 to 5 p.m., June 26, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Acting Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of sections 552(b)(4), 552(b)(5), and 552(b)(6), Title 5 U.S. Code and section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix I).

Substantive information may be obtained from the contact persons listed above.

The NIMH Information Officer who will furnish summaries of the meetings

and rosters of the committee members is Mr. Edwin Long, Deputy Director, Division of Scientific and Technical Information, NIMH, Room 15-105, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852, telephone (301) 443-3600.

Dated: May 16, 1975.

CAROLYN T. EVANS,  
Committee Management Officer,  
Alcohol, Drug Abuse, and  
Mental Health Administration.

[FR Doc.75-13299 Filed 5-20-75; 8:45 am]

#### Food and Drug Administration CARDIOVASCULAR AND RENAL ADVISORY COMMITTEE

##### Meeting Cancellation

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. App. I)), the Food and Drug Administration announced in a notice published in the FEDERAL REGISTER of April 30, 1975 (40 FR 18828), public advisory committee meeting and other required information in accordance with provisions set forth in section 10(a)(1) and (2) of the act.

Notice is hereby given that the Cardiovascular and Renal Advisory Committee meeting scheduled for May 20, 1975, is canceled.

Dated: May 15, 1975.

SAM D. PINE,  
Associate Commissioner for  
Compliance.

[FR Doc.75-13298 Filed 5-20-75; 8:45 am]

#### National Institutes of Health NATIONAL COMMISSION ON ARTHRITIS AND RELATED MUSCULOSKELETAL DIS- EASES

##### Meeting

Pursuant to Pub. L. 92-463, the National Institute of Arthritis, Metabolism, and Digestive Diseases hereby gives notice of the meeting of the National Commission on Arthritis and Related Musculoskeletal Diseases on June 2, 1975, from 1 p.m. to 5 p.m. in the Tulane Room of the Fairmont Hotel, New Orleans, Louisiana. Having agreed at the meeting of May 13-14 on the kinds of consultants required for developing the arthritis plan, a follow-up meeting at the earliest possible date was found to be essential to meet the stringent time requirements. These circumstances precluded earlier public notice.

In accordance with the provisions set forth in section 552(b)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the entire meeting will be closed to the public for the discussion and evaluation of individuals being considered for consultant roles to the above Commission, including consideration of qualifications and expertise of these individuals, and similar items, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Mr. Victor Wartofsky, Information Officer, NIAMDD, National Institutes of Health, Building 31, Room 9A04, Bethesda, Maryland 20014 (301) 496-3583, will provide summaries of the meeting and rosters of the Commission members.

(Catalog of Federal Domestic Assistance Program No. 13.846, National Institutes of Health)

Dated: May 19, 1975.

SUZANNE L. FREMEAUX,  
Committee Management Officer,  
National Institutes of Health.

[FR Doc.75-13414 Filed 5-20-75; 8:45 am]

#### ACTION

##### NATIONAL VOLUNTARY SERVICE ADVISORY COUNCIL

##### Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following Council meeting:

Name: National Voluntary Service Advisory Council  
Date: May 22, 1975  
Place: ACTION, 806 Connecticut Avenue NW., Washington, D.C., Room 522  
Time: 8 to 9 am

**Purpose of the Meeting:** To meet with the Chairman of the Special Subcommittee on Human Resources of the Senate Committee on Labor and Public Welfare.

Meeting of the Advisory Council is open to the public. Any member of the public may file a written statement with the Council before, during, or after the meeting. To the extent that time permits, the Council Executive Officer may allow public presentation of oral statements at the meeting.

All communications regarding this Advisory Council should be addressed to Ms. Elizabeth Allemang, Advisory Council Executive Officer, 806 Connecticut Avenue NW., Washington, D.C. 20525.

ELIZABETH ALLEMANG,  
Staff Assistant,  
Office of the Director.

[FR Doc.75-13467 Filed 5-20-75; 8:45 am]

#### ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

##### PUBLIC MEETING

Notice is hereby given, pursuant to the Federal Advisory Committee Act, Pub. L. 92-463, that the membership of the Administrative Conference of the United States, which makes recommendations to administrative agencies, to the President, Congress, and the Judicial Conference of the United States regarding the efficiency, adequacy, and fairness of the administrative procedures used by administrative agencies in carrying out their programs, will meet in Plenary Session on Thursday, June 5, 1975 at 1:30 p.m. and on Friday, June 6, 1975 at 9:30 a.m. in Hearing Rooms A and B of the Interstate Commerce Commission, 14th Street and

Constitution Avenue, NW., Washington, D.C.

The Conference will consider (not necessarily in the order stated) the following matters:

1. A proposed statement of the Administrative Conference on strengthening regulatory agency management through seminars for agency officials.
2. A proposed recommendation regarding licensing decisions of the federal banking agencies.
3. A proposed recommendation regarding affirmative action for equal opportunity in nonconstruction employment.
4. A proposed statement of the Administrative Conference on open meeting legislation.
5. A proposed recommendation regarding the choice of forum for judicial review of administrative action.
6. A proposed recommendation regarding procedures to ensure federal facilities compliance with environmental quality standards.

Plenary Sessions of the Conference are open to the public. Further information on the meeting, including copies of proposed recommendations and statements and supporting reports, may be obtained from the Office of the Chairman, 2120 L Street, NW., Suite 500, Washington, D.C. 20037, telephone (202) 254-7020.

Dated: May 14, 1975.

RICHARD K. BERG,  
Executive Secretary.

#### CIVIL AERONAUTICS BOARD

[Docket No. 27701; Order 75-5-81]

##### PHILIPPINE AIR LINES, INC. ET AL. Order Instituting Investigation Regarding U.S.-Manila 30/90 Day Economy-Class Round-Trip Group Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 16th day of May 1975.

On October 30, 1974, Philippine Air Lines, Inc. (PAL), China Airlines, Ltd. (CAL), Japan Air Lines Company, Ltd. (JAL), and Northwest Airlines, Inc. (Northwest) filed tariff revisions, effective November 29, 1974, extending the validity of the Philippine Government-ordered 30/90-day economy-class round-trip group fares to February 29, 1976. The levels of the previously effective west coast-Manila and Honolulu-Manila 30/90-day fares were increased by approximately 8 percent to \$650 and \$546, respectively, and the Anchorage-Manila 30/90-day fare was reduced to the current Honolulu level for an effective 9 percent reduction.

A complaint requesting suspension and investigation of the tariffs was filed by Pan American World Airways, Inc. (Pan American). PAL and Northwest submitted answers in opposition to the complaint. Pan American submitted a reply to PAL's answer.

See Appendix A for currently effective pages.

Upon consideration of the complaint and responses thereto, the Board adopted an order suspending the tariff pending investigation. As required by the provisions of section 801(b) of the Federal Aviation Act of 1958, this order was submitted to the President of the United States. Thereafter, by letter dated April 25, 1975, the President disapproved the Board's proposed order of suspension.

The Board has determined to proceed with an investigation of the fares. Pan American's complaint, except to the extent granted herein, will be dismissed. Accordingly, pursuant to the Federal Aviation Act of 1958, as amended, and particularly sections 204(a), 403, and 1002(j) thereof.

It is ordered, That:

1. An investigation be instituted to determine whether the fares and provisions set forth in Appendix A hereto, including subsequent revisions and reissues thereof, and rules, regulations and practices affecting such fares and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and, if found to be unlawful, to take appropriate action to prevent the use of such fares and provisions or rules, regulations, or practices;
2. Except to the extent granted herein, Pan American's complaint in Docket 27250 be and hereby is dismissed;
3. The investigation ordered herein be assigned for hearing before an Administrative Law Judge of the Board at a time and place hereafter to be designated;
4. The motions of Pan American and Northwest to file unauthorized or untimely documents are granted; and
5. Copies of this order be served upon Philippine Air Lines, Inc., China Airlines, Ltd., Japan Air Lines Company, Ltd., Northwest Airlines, Inc. and Pan American World Airways, Inc., which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

(SEAL) EDWIN Z. HOLLAND,  
Secretary.

[FR Doc.75-13325 Filed 5-20-75; 8:45 am]

#### COMMODITY FUTURES TRADING COMMISSION

##### PUBLIC INFORMATION

##### Availability of Transition Reports

The Commodity Futures Trading Commission has decided to make available to the public 22 of the 23 reports prepared for the Commission by a task force of the Interagency Steering Committee, which

## NOTICES

was established by the Office of Management and Budget to facilitate the transfer to the Commission of the administration and enforcement of the Commodity Exchange Act, 7 U.S.C. 1 et seq., pursuant to the Commodity Futures Trading Commission Act of 1974, Pub. Law 93-463, 88 Stat. 1395.<sup>1</sup>

While the analytical portions of these reports are exempt from the disclosure requirements of the Freedom of Information Act, 5 U.S.C. 552(b)(5), and reflect the type of internal communications that the Commission may not always disclose in the future, the Commission believes that the disclosure of these reports is appropriate in view of their unique nature. It should be understood that these reports do not necessarily reflect the views of the Commission.

Brief descriptions of all 22 reports and the attachments thereto are set forth below. Persons requesting copies should identify the documents desired by reference to the list below. Copies will be made available at a cost not to exceed 10 cents per page. Requests should be addressed to the Commodity Futures Trading Commission, 1120 Connecticut Avenue, NW., Washington, D.C. 20036.

## TASK FORCE REPORTS AVAILABLE

Project No.	Title and description
201-a-----	<b>Definition of "Future Contract":</b> Discussion of the various considerations involved in defining a "future contract" (7 pages); Exhibit A—CEA release announcing issuance of Complaint against R. Stovall and Stovall & Stovall, Inc. (lp.), and Complaint and Notice of Hearing (6 pages) and Annexation (copy) of Transactions Reported to Customers by R. L. Stovall (24 pages).
201-b-----	<b>Designation of Contract Markets:</b> Discussion of the various requirements of the Act and of existing regulations for contract market designations (23 pages); Attachment A—Task Force Memorandum discussing economic data that must be submitted to justify designation as a contract market (8 pages); Attachment B—Task Force Memorandum discussing necessary elements of contract market rule enforcement program (8 pages).

<sup>1</sup> The one report that will not be disclosed—No. 101-b, Collegial Action Procedures—relates to internal Commission matters and is based upon confidential interviews with secretaries of various agencies.

In addition, the Commission is withholding all legal memoranda concerning the Commodity Futures Trading Commission Act that were prepared by attorneys for the task force.

The Commission is also withholding the attachments to the report on Leverage Contracts (No. 217). They reflect confidential interviews—with state securities commissioners, industry persons and others—and to some extent contain confidential commercial and financial information which is itself exempt from disclosure, 5 U.S.C. 552(b)(4).

Project No.	Title and description
201-c-----	<b>Reporting Requirements for "New" Commodities:</b> Recommendations on extending large-trader reporting system, establishment of reporting levels, reporting on certain foreign market trades and positions, consideration of a "universal" firm system; rule changes necessary to implement these proposals; discussion of issues and options (20 pages); Exhibit A—Text of sections 41, rules 15.00-15.04, 17.00-19.04 (10 pages); Exhibit B—Table showing Quantities of Commodities Fixed for Reporting (1 page); Exhibit C—Table showing Open Contracts in Commodity Futures as of February 28, 1975 (3 pages); Exhibit D—Forms (4 pages).
201-d-----	<b>Speculative Limits:</b> The report recommends that speculative trading and position limits should be established for the newly-regulated commodities, but that the Commission should initially focus its efforts on those commodities in which futures trading is reasonably active. (6 pages); Exhibit A—Text of section 4a (2 pages); Exhibit B—Copy of FEDERAL REGISTER Notice re Proposed Limits on Position and Daily Trading (3 pages); Exhibit C—Testimony of Walter L. Frankland, Jr., Paul Franklin and Charles Matvey before Senate Agriculture Committee (10 pages); Exhibit D—Task Force Memorandum re Rationale for Developing Speculative Limit Levels (10 pages); Exhibit E—Letter to Mr. W. Lebeck (Chicago Board of Trade) from Mr. A. Caldwell re silver futures, and reply (7 pages); Letter to Mr. C. Matvey (Commodity Exchange, Inc.) from Mr. A. Caldwell re silver futures, and reply (4 pages).
201-e-----	<b>Commodity Specialists Program:</b> Discusses the need for developing a staff of economists with specialized knowledge in each actively traded commodity; a proposal and implementation plan. (16 pages).
201-f-----	<b>Registration of New Futures Commission Merchants and Floor Brokers:</b> Discussion of the procedures followed by the CEA for the registration of futures commission merchants and floor brokers in the newly-regulated commodities (4 pages); Exhibit A—Text of sections 4d and 4f (2 pages); Exhibit B—Application and related Forms for Registration as a Floor Broker and a Futures Commission Merchant (28 pages); Exhibit C—Letter to Messrs. T. R. McMinn, R. Kirchhoff and C. Pials from Charles Robinson re registration of "new" commodity floor brokers and

Project No.	Title and description
201-f (—Cont.)	futures commission merchants with enclosures (notices informing commodity firms of registration requirements) (6 pages); Exhibit D—Letter of 12/19/74 to Mr. W. Lebeck of the Chicago Board of Trade from Mr. A. Caldwell informing him that copies of notices were sent to persons acting as floor brokers or as commodity brokerage firms solely in new commodities (1 page).
201-g-----	<b>Trust-fund Treatment of Customers' Funds and Positions in "New" Commodities:</b> Discussion of requirement that futures commission merchants give trust-fund treatment to customers' funds and positions and the relationship of that requirement to the expanded definition of "commodity" (3 pages); Exhibit A—Text of section 4d (2 pages); Exhibit B—CEA Notice of 2/21/74 to Newly Registered Futures Commission Merchants re Segregation of Commodity Customers' Funds and Attachments (relating to CEA rules) (7 pages); Exhibit C—CEA Notice of 2/26/75 to Clearing Associations of Commodity Exchanges re Segregation of Commodity Customers' Money, Securities and Property and Attachments (relevant to CEA rules) (7 pages); Exhibit D—CEA Notice of 2/27/75 to Registered Futures Commission Merchants re Segregation of Commodity Customers' Money, Securities and Property (1 page).
201-h-----	<b>Regulatory Gap:</b> Discussion of (1) the exclusive jurisdiction provision of section 2(a)(1) and its impact upon commodity option transactions, commodity futures contracts executed upon foreign exchanges and leverage contracts, and (2) applicability of antifraud provision, section 4b, to these non-contract market transactions (3 pages); Exhibit A—Text of section 201 of the CFTCA (1 page).
202 and 204	<b>Registration of Commodity Trading Advisors and Commodity Pool Operators:</b> Brief description of the CEA's activities respecting the registration of commodity trading advisors and commodity pool operators, including suggested rules published in FEDERAL REGISTER and the public comments received respecting those suggested rules. (4 pages); Exhibit A—Text of section 202 of the CFTCA (1 page); Exhibit B—Text of section 205 (2 pages); Exhibit C—CEA Notice of Inquiry Concerning Commodity Trading Advisors and Commodity Pool Operators (3 pages); Exhibit D—Public comments in re-

Project No.:  
202 and 204—  
(Continued)

Project No.	Title and description
203-a and 203-b	<b>Dual Trading by Floor Brokers and FCM's:</b> Describes alternative courses of action the Commission might consider on the dual trading issue, recommends a course of action, summarizes industry position, recommends language for proposed regulations (9 pages); Exhibit A—Text of section 4j (1 page); Exhibit B—A Report of the Subcommittee on Special Small Business Problems, House Report No. 93-963 (pp. 52, 53 & 54) (2 pages); Exhibit C—Proposed Rules re dual trading by floor brokers (2 pages); Exhibit D—Proposed Rules re dual trading by futures commission merchants (1 page).
204	<b>Registration of Associated Persons:</b> Brief description of the CEA's activities respecting the registration of associated persons, including suggested rules published in FEDERAL REGISTER, and of the public comments received respecting those suggested rules. (8 pages); Exhibit A—Text of section 204 (1 page); Exhibit B—CEA Notice of Inquiry re suggested Regulations for Registration of Associated Persons (6 pages); Exhibit C—CEA memo of 12/12/74 to all Futures Commission Merchants (4 pages); Exhibit D—Letter of 12/13/74 to Chicago Mercantile Exchange from A. Caldwell enclosing a notice and supplemental material sent to all registered FCM's. List of active and inactive contract markets and non-regulated commodity markets (3 pages); Exhibit E—Application form for Registration as Associated Person (2 pages); Exhibit F—Letter of 1/15/75 from A. Caldwell to FCM's (6 pages); Exhibit G—CEA Memo of 1/28/75 to agents of FCM's (2 pages); Exhibit H—Registration card (1 page); Exhibit I—Responses to Notice of Inquiry (20 pages).
207-----	<b>"Public Interest" Test and "Economic Purpose" Test of Futures Trading:</b> Discussion of various options regarding these two tests (4 pages);

## NOTICES

Project No.	Title and description
207—Cont.	Exhibit A—Task Force Memorandum re Economic Justification of a Contract Market (8 pages).
208-----	<b>Multiple Delivery Points Procedures:</b> Discussion of proposed policy for evaluating delivery-point adequacy and proposed remedial procedures (31 pages); Exhibit A—Task Force proposed Policy Statement Regarding Deliverable Grades, Delivery Points, Quality Price Differentials, and Locational Price Differentials (6 pages); Exhibit B—Text of section 5a (1 page); Exhibit C—Text of section 5 (1 page).
210-----	<b>Approval of Exchange Rules:</b> Discussion of proposed requirements for contract market submission on exchange rules; proposed definition of "emergency"; proposed actions on exchange administrative rules; proposed review procedures (6 pages); Exhibit A—Text of section 210 of the CFTCA (1 page); Exhibit B—Letter of 11/5/74 to exchanges from A. Caldwell (4 pages); Exhibit C—Responses to letter of 11/5/74 (17 pages); Section 5a(12) of the CFTCA (7 pages); Exhibit D—Task Force Report No. 201-b (34 pages).
217-----	<b>Trading in Leverage Contracts For Gold and Silver:</b> An extensive discussion of leverage contracts including background material and analyses on how such contracts are sold, the impact of state commodity laws, recommendations for Commission actions (91 pages).
401-----	<b>Codes of Conduct and Ethics:</b> The report recommends the adoption of a code of conduct for employees and members of the Commission. The proposed code is similar to that of the SEC. (4 pages); Exhibit A—Proposed Code (8 pages); Exhibit B—Proposed Conduct Regulation (35 pages); Exhibit C—Proposal for Report of Security Transactions (2 pages); Exhibit D—Proposal to Require Statements of Financial Interests and Outside Employment (3 pages); Exhibit E—Proposed Form of Statement of Financial Interest and Outside Employment (2 pages); Exhibit F—Proposed Employee Form (2 pages).
402-----	<b>"Put" and "Call" Trading:</b> Discussion of Commission approaches regarding option trading regulations and recommends "naked" puts and calls be prohibited as quickly as possible (5 pages); Exhibit A—Text of section 4c (1 page).
404-----	<b>Definition of Bona Fide Hedging:</b> Discussion of Commission options regarding defining "bona fide" hedging (4 pages); Exhibit A—Proposed Federal Register document adopting hedging definition (11 pages).

Project No.	Title and description
406-----	<b>U.S. Standards:</b> Discussion of Commission options regarding adopting U.S. commodity-grade standards (5 pages).

# ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION HANFORD PLANT, RICHLAND, WASH. Negative Declaration

Notice is hereby given that a negative declaration has been prepared by the

Energy Research and Development Administration (ERDA) and placed in the ERDA Public Document Rooms at 1717 H Street, Washington, D.C., and at the Richland Operations Office, Federal Building, Richland, Washington, for public inspection. The negative declaration covers a project proposed for the FY 1976 Budget which has been submitted to the Congress. The declaration sets forth the background for the decision that an environmental statement is not required to support the project and the reasons therefor. The proposed project is to construct additional double-shelled waste storage tanks at the ERDA Hanford Plant at Richland, Washington. The environmental assessment prepared for the project is also available for inspection in the same Public Document Rooms.

Dated at Washington, D.C., this 7th day of May 1975.

For the Energy Research and Development Administration.

JAMES L. LIVERMAN,  
Assistant Administrator for  
Environment and Safety.

[FR Doc.75-13286 Filed 5-20-75; 8:45 am]

#### HIGH LEVEL WASTE STORAGE, SAVANNAH RIVER PLANT, S.C.

##### Negative Declaration

Notice is hereby given that a negative declaration has been prepared by the Energy Research and Development Administration (ERDA) and placed in the ERDA Public Document Rooms at 1717 H Street, Washington, D.C., and at the Savannah River Operations Office, Savannah River Plant, Aiken, South Carolina for public inspection. The negative declaration covers a project proposed for the FY 1976 Budget which has been submitted to the Congress. The declaration sets forth the background for the decision that an environmental statement is not required to support the project and the reasons therefor. The proposed project is to construct Additional Facilities for High Level Waste Storage at the ERDA Savannah River Plant, Aiken, South Carolina. The environmental assessment prepared for the project is also available for inspection in the same two Public Document Rooms.

Dated at Washington, D.C., this 7th day of May 1975.

For the Energy Research and Development Administration.

JAMES L. LIVERMAN,  
Assistant Administrator for  
Environment and Safety.

#### LIQUID METAL FAST BREEDER REACTOR PROGRAM

Availability of Staff Statement for Public Hearing Concerning Proposed Final Environmental Statement

By notice in the FEDERAL REGISTER of Friday, April 25, 1975 (40 FR 18218), the

U.S. Energy Research and Development Administration (ERDA), announced a public hearing concerning the Proposed Final Environmental Statement on the Liquid Metal Fast Breeder Reactor (LMFBR) Program. The hearing will commence at 10:00 a.m. on May 27, 1975, in the auditorium of the General Services Administration, 18th and F Streets, NW., Washington, D.C. The notice advised that an ERDA staff statement summarizing and addressing the issues raised in the written comments on the Proposed Final Statement will be made available prior to the hearing to all hearing participants.

Accordingly, notice is hereby given that the referenced ERDA staff statement is now available. That statement has been sent to all persons that have signified their intention to participate in the hearing and to all persons who submitted written comments on the Proposed Final Environmental Statement. The statement will be made available to others upon written request to W. H. Pennington, Office of the Assistant Administrator for Environment and Safety, ERDA, Washington, D.C. 20545, received not later than 10:00 a.m. on May 27, 1975.

Dated at Washington, D.C. this 15th day of May 1975.

JAMES L. LIVERMAN,  
Assistant Administrator for  
Environment and Safety.

#### ENVIRONMENTAL PROTECTION AGENCY

[FRL 376-5]

##### AMERICAN CYANAMID CO.

##### Renewal of Temporary Tolerance

American Cyanamid Co., PO. Box 400, Princeton, NJ 08540, was granted a temporary tolerance for combined negligible residues of the herbicide N-(ethylpropyl)-3,4-dimethyl-2,6-dinitrobenzylamine, formerly N-(1-ethylpropyl)-2,6-dinitro-3,4-xylylidene, and its metabolite 4-[(1-ethylpropyl)amino]-2-methyl-3,5-dinitrobenzyl alcohol in or on corn grain at 0.1 part per million on April 10, 1974, in connection with Pesticide Petition No. 4G1451 (notice was published in the FEDERAL REGISTER of April 18, 1974, (39 FR 13913)). This tolerance expired April 10, 1975.

The company has requested a 1-year renewal of the temporary tolerance to obtain additional experimental data. It is concluded that such a renewal of the temporary tolerance will protect the public health. A condition under which this temporary tolerance is renewed is that the herbicide be used in accordance with the temporary permit which is being issued concurrently and which provides for distribution under the American Cyanamid Co. name.

This temporary tolerance expires May 15, 1976. Residues remaining in or on the above raw agricultural commodity after expiration of this tolerance will not

be considered actionable if the pesticide is legally applied during the term, and in accordance with provisions of the temporary permit/tolerance.

This section is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805).

Dated: May 15, 1975.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

[FR Doc.75-13361 Filed 5-20-75; 8:45 am]

[FRL 377-4]

##### ANSUL CO.

##### Establishment of Temporary Tolerance

The Ansul Co., PO. Drawer 1165, Weslaco, TX 78596, submitted a petition (PP 3G1357) requesting establishment of a temporary tolerance for residues of the herbicide methanearsonic acid (expressed as As<sub>2</sub>O<sub>3</sub>), resulting from application of its monosodium salt, in or on the raw agricultural commodity sugarcane at 0.39 part per million. (This petition was originally designated Pesticide Petition No. 3F1357, and was filed (38 FR 8016) on March 8, 1973. Subsequently, the petitioner amended the petition by proposing a temporary tolerance for residues of the herbicide resulting from application of its monosodium salt (only) in or on sugarcane at 0.39 part per million.)

It has been determined that this temporary tolerance will protect the public health. It is therefore established on condition that the herbicide be used in accordance with the temporary permit being issued concurrently and which provides for distribution under the Ansul Co. name. (For a related document, see this issue of the FEDERAL REGISTER, page 22132.)

This temporary tolerance expires May 15, 1976. Residues remaining in or on the above raw agricultural commodity after expiration of this tolerance will not be considered actionable if the pesticide is legally applied during the term, and in accordance with provisions of the temporary permit/tolerance.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346 a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805).

Dated: May 15, 1975.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

#### AREAWIDE WASTE TREATMENT

##### Management Planning Approvals; Area and Agency Designations

Pursuant to section 208 of the Federal Water Pollution Control Act Amendments of 1972, notice is hereby given of approvals of designation of areawide waste treatment management planning areas and agencies for the period April 5, 1975 through May 1, 1975.

The following area and agency designations have been approved:

Boston, Massachusetts (Metropolitan Area Planning Council, 44 School Street, Boston, Massachusetts 02108)

Worcester, Massachusetts (Central Massachusetts Regional Planning Commission, 70 Elm Street, Worcester, Massachusetts 01609)

Fitchburg, Massachusetts (Montachusett Regional Planning Commission, 150 Main Street, Fitchburg, Massachusetts 01420)

Puerto Rico (Commission for the Development and Administration of Areawide Waste Treatment Plans for the North Metropolitan Area, Puerto Rico Environmental Quality Board, San Juan, Puerto Rico 00910)

Nassau-Suffolk Counties, Long Island, New York (Nassau-Suffolk Regional Planning Board, Planning Building, Suffolk County Center, Veterans Memorial Highway, Hauppauge, Long Island, New York 11787)

Volusia County, Florida (Volusia Council of Governments, County Courthouse Annex, Daytona Beach, Florida 32014)

Brevard County, Florida (Brevard County Planning and Zoning Department, 2575 N. Courtenay Parkway, Merritt Island, Florida 32952)

Bay County, Florida (Northwest Florida Planning and Advisory Council, 5321 'E' W. Highway 98, Panama City, Florida 32401)

Dallas-Ft. Worth, Texas (North Central Texas Council of Governments, PO Drawer COG, Arlington, Texas 76011)

Beaumont-Port Arthur, Texas (Southeast Texas Regional Planning Commission, PO Drawer 1967, Nederland, Texas 77627)

Houston, Texas (Houston-Galveston Area Council, PO. Box 22777, Houston, Texas 77027)

Powder River, Wyoming (Powder River Areawide Planning Organization, Box 688, Cherdan, Wyoming 82801)

Southeast, Utah (Southeastern Utah Association of Governments, 109 S. Carbon Avenue, Price, Utah 84501)

Yellowstone Tongue, Montana (Areawide Planning Organization, Powder River County Courthouse, Broadus, Montana 59317)

Rifle, Colorado (Colorado West Area Council of Governments, PO. Box 351, Rifle, Colorado 81650)

Clark County, Washington (Regional Planning Council of Clark County, 2400 T Street, Vancouver, Washington 98601)

Seattle, Washington (Municipality of Metropolitan Seattle, 410 West Harrison, Seattle, Washington 98119)

JAMES L. AGEZ,  
Assistant Administrator for  
Water and Hazardous Materials.

MAY 15, 1975.

[FRL 378-8; OPP-180014A]

#### MASSACHUSETTS DEPARTMENT OF PUBLIC HEALTH

##### Denial of Request for Specific Exemption To Use DDT To Control Rabid Bats

On July 3, 1974, a notice appeared in the FEDERAL REGISTER (39 FR 24530) which announced the issuance of a specific exemption to the Massachusetts Department of Public Health (hereafter referred to as the "Applicant") to use DDT for emergency rabid bat control; this action was taken pursuant to the provisions of section 18 (40 CFR Part 166) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136). Part 166 was issued on December 3, 1973 (38 FR 33303), and prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

The specific exemption was granted on the basis of information provided by the Applicant to the Environmental Protection Agency (EPA); it was noted that since DDT would only be applied in a judiciously supervised program to the attics of houses or to the exit holes of roofs where bats might be located, no irreversible adverse environmental effects were anticipated as a result of the use of DDT in that control program. The program was authorized from June 14 to September 30, 1974.

The Applicant has now submitted an application for a specific exemption during calendar year 1975, which, if granted, would terminate on June 30, 1975. Interested parties are referred to the application on file in the Office of the Director, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., SW., Room E-347, Washington, D.C. 20460.

##### BACKGROUND

The rabies virus is endemic to Massachusetts populations of the big brown bat (*Eptesicus fuscus*) and the little brown bat (*Myotis lucifugus*). The exemption granted previously was subject to the following conditions:

- That the bats were dwelling with humans;
- That the above be confirmed by the local health agents, the colony located and the exit(s) determined. In such cases as the local officials needed help, the Department of Public Health personnel would provide on-site consultations;
- That the DDT be placed in exits and/or in places where bats rest if such were accessible or access could be provided;
- That the property owner or occupant agreed to make the necessary structural modifications to prevent reinfestations;
- That all pest control operators who would be exposed to bats had had pre-exposure duck-embryo rabies vaccine;
- That the actual control operation be under the supervision of State health officials or competent local health agents approved by the State; and
- That a final report be submitted to EPA regional personnel.

Considering information which the Applicant has gathered on the habits of these bats and the incidence of bat bites, he feels that there is a small but real possibility that rabies may be transmitted to humans; in addition, even though the possibility is small, the fact that it exists creates a fear in the minds of people and can lead to widespread concern. The Applicant expects that the nature and scope of the problem will remain constant and that it will recur each year between April and September, and to some extent, during warm spells in the winter, as the Applicant has observed in early 1974.

##### DECISION

After consideration of the material submitted by the Applicant, evaluation of the public health risk associated with Massachusetts' bat populations containing endemic rabies, and consultation with the Rabies Control Unit, Center for Disease Control, DHEW, Atlanta, Georgia, EPA has decided to deny the request for a specific exemption, because:

- The Applicant has failed to demonstrate that significant public health problems will occur without the use of DDT, this being one of the requirements of the section 18 regulations (§ 168.1) which allow exemptions to be granted under the amended FIFRA; and
- In fact, treatment of bat populations with DDT will likely increase the probability of humans or pets being bitten, because bats intoxicated with DDT often fall to the ground and die very slowly.

This decision is also based on the following factors: The low frequency of endemic rabies prevalent in bat populations of both species would result in many bats that may be a nuisance but do not carry or transmit rabies being killed; and in recent years, there have been no cases of human rabies due to bat bites.

It should be noted that modifications of the EPA Rules of Practice were promulgated on March 12, 1975, providing special procedures to be followed in the case of an application under section 3 or 18 of the amended FIFRA to allow use of a pesticide at a site and on a pest for which registration has been finally cancelled; the modifications were published in the FEDERAL REGISTER on March 18, 1975 (40 FR 12261). These special procedures do not apply in this case, since the registration of DDT for use by public health officials in disease control programs has not been cancelled (FEDERAL REGISTER of July 7, 1972 (37 FR 13375)).

Finally, the Applicant is advised that, pursuant to § 166.5 of the section 18 regulations and the conditions under which the previous specific exemption was granted, a final report on the 1974 program which utilized DDT to suppress bat populations in Massachusetts is required.

Dated: May 16, 1975.

JAMES L. AGEZ,  
Assistant Administrator for  
Water and Hazardous Materials.

## NEW HAMPSHIRE DEPARTMENT OF AGRICULTURE AND DIVISION OF PUBLIC HEALTH

## Denial of Request for Specific Exemption To Use DDT To Control Rabid Bats

On September 3, 1974, a notice appeared in the *FEDERAL REGISTER* (39 FR 31944) which announced the issuance of a specific exemption to the New Hampshire Department of Agriculture and Division of Public Health (hereafter referred to as the "Applicant") to use DDT for emergency rabid bat control; this action was taken pursuant to the provisions of section 18 (40 CFR Part 166) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136). Part 166 was issued on December 3, 1973 (38 FR 33303), and prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

The specific exemption was granted on the basis of information provided by the Applicant to the Environmental Protection Agency (EPA); it was noted that since DDT would only be applied in a judiciously supervised program to the attics of houses or to the exit holes of roofs where bats might be located, no irreversible adverse environmental effects were anticipated as a result of the use of DDT in that control program. The final report of the 1974 program has been filed with the EPA in compliance with the reporting requirements under § 166.5 of the section 18 regulations. The program was authorized from August 27 to October 30, 1974.

The Applicant has now submitted an application for a specific exemption during calendar year 1975, which if granted, would terminate on October 30, 1975. Interested parties are referred to the application on file in the Office of the Director, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., SW., Room E-347, Washington, D.C. 20460.

## BACKGROUND

The rabies virus is endemic to New Hampshire populations of the big brown bat (*Eptesicus fuscus*) and the little brown bat (*Myotis lucifugus*). The exemption granted previously was subject to the following conditions:

- That the bats were dwelling with humans;
- That the above be confirmed by the local health agents, the colony located and the exit(s) determined. In such cases as the local officials needed help, the Department of Agriculture or Department of Public Health personnel would provide on-site consultations;
- That the DDT be placed in exits and/or in places where bats rest if such were accessible or access could be provided;
- That the property owner or occupant agreed to make the necessary structural modifications to prevent reinfestations;
- That all pest control operators who would be exposed to bats had had pre-exposure duck-embryo rabies vaccine;

- That the actual control operation be under the supervision of State health officials or competent local health agents approved by the State;
- That the applicant reported the amount of DDT used to the New Hampshire Department of Agriculture within three days after treatment and;
- That a final report be submitted to EPA regional personnel.

Considering information which the Applicant has gathered on the habits of these bats and the incidence of bat bites, he feels that there is a small but real possibility that rabies may be transmitted to humans; in addition, even though the possibility is small, the fact that it exists creates a fear in the minds of people and can lead to widespread concern. The Applicant expects that the nature and scope of the problem will remain constant and that it will recur each year between April and September, and to some extent, during warm spells in the winter.

## DECISION

After consideration of the material submitted by the Applicant, evaluation of the public health risk associated with New Hampshire's bat populations containing endemic rabies, and consultation with the Rabies Control Unit, Center for Disease Control, DHEW, Atlanta, Georgia, EPA has decided to deny the request for a specific exemption, because:

- The Applicant has failed to demonstrate that significant public health problems will occur without the use of DDT, this being one of the requirements of the section 18 regulations (§ 166.1) which allow exemptions to be granted under the amended FIFRA; and
- In fact, treatment of bat populations with DDT will likely increase the probability of humans or pets being bitten, because bats intoxicated with DDT often fall to the ground and die very slowly.

This decision is also based on the following factors: the low frequency of endemic rabies prevalent in bat populations of both species would result in many bats that may be a nuisance but do not carry or transmit rabies being killed; and in recent years, there have been no cases of human rabies due to bat bites.

It should be noted that modifications of the EPA rules of practice were promulgated on March 12, 1975, providing special procedures to be followed in the case of an application under section 3 or 18 of the amended FIFRA to allow use of a pesticide at a site and on a pest for which registration has been finally cancelled; the modifications were published in the *FEDERAL REGISTER* on March 18, 1975 (40 FR 12261). These special procedures do not apply in this case, since the registration of DDT for use by public health officials in disease control programs has not been cancelled (*FEDERAL REGISTER* of July 7, 1972 (37 FR 13375)).

## OFFICE OF RESEARCH AND DEVELOPMENT

## Plans To Evaluate Proprietary Equipment

The Environmental Protection Agency (EPA), Office of Research and Development, plans to conduct comparison studies of prototype instrumentation to measure carbon monoxide and suspended particulates. The prototype instrumentation will be compared with existing instrumentation and with the reference method if applicable.

Specifically, EPA is seeking instrumentation for carbon monoxide measurement which uses coulometry as its measurement principle, has a measurement range of 0-5 ppm, is portable and is suitable for field use. Instrumentation for suspended particulates must employ beta-gauge technique and give both respirable and total suspended particulates. The period of performance is 9 months, with an effective date of the study June 1, 1975.

Any developer/manufacture wishing to offer the loan of such a device for use in these studies without fee and at no expense to the government may do so by applying directly to the Director, Chemistry and Physics Laboratory, NERC, Research Triangle Park, N.C.

As a condition to such offer and acceptance, the lender must agree that the results of the aforementioned study shall not be used to indicate or imply that EPA approves, recommends or endorses any proprietary product or proprietary material, or which has as its purpose an intent to cause directly or indirectly the advertised product to be used or purchased because of EPA study reports or results.

EPA reserves the right to restrict and/or limit the acceptance of devices to those which EPA deems to be best suited for the purpose of this study.

Applications in response to this notice must be received by the Laboratory Director concerned no later than June 5, 1975.

Dated: May 15, 1975.

WILSON K. TALLEY,  
Assistant Administrator  
for Research and Development.

[FRL 376-3; OPP-32000/252]

## RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

## Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the *FEDERAL REGISTER* (38 FR 31862) its interim policy with respect to the administration of section 3(c) (1) (d) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the *FEDERAL REGISTER* a notice containing the information shown

below. The labeling furnished by applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street SW., Washington, D.C. 20460.

On or before July 21, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c) (1) (D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the *FEDERAL REGISTER* of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after July 21, 1975.

Dated: May 14, 1975.

JOHN B. RITCH, Jr.,  
Director,  
Registration Division.

[FR Doc.75-13364 Filed 5-20-75; 8:45 am]

# FEDERAL ENERGY ADMINISTRATION ENERGY SUPPLY AND ENVIRONMENTAL COORDINATION ACT Intention To Issue Prohibition Orders to Certain Powerplants

The Federal Energy Administration ("FEA") hereby gives notice of its intention to issue prohibition orders, pursuant to the authorities granted it by section 2 of the Energy Supply and Environmental Coordination Act of 1974 (ESECA) and in accordance with 10 CFR Parts 303 and 305, to the following powerplants:

Docket No.	Owner	Powerplant No.	Generating station	Location
OPU-048	Wisconsin Public Service Corp.	2	Weston	Rotchford, Wis.
OPU-049	Detroit Edison Co.	5	St. Clair	East China Township, Mich.

FEA hereby also gives notice of the opportunity for oral and written presentation of data, views, and arguments on these proposed prohibition orders.

The proposed orders would prohibit the powerplants listed above from burning natural gas or petroleum products as their primary energy source.

Prior to issuance of a prohibition order to a powerplant, section 2 of ESECA requires that FEA make certain findings. FEA's initial conclusions with respect to, and rationale in support of, these findings are set out, with respect to each of the powerplants, at the conclusion of this notice. These findings and rationales may be amended as a result of comments received by FEA pursuant to this notice and other information available to FEA. The findings will be included, with any amendments, in a prohibition order when it is issued.

Upon conclusion of the proceedings described in this notice, FEA may determine to issue prohibition orders to some, or all of the powerplants listed above. These prohibition orders will not become effective, however, (1) until either, (a) the Administrator of the Environmental Protection Agency ("EPA") notifies the FEA, in accordance with section 119(d) (1)(B) of the Clean Air Act, that the powerplant will be able on and after July 1, 1975, to burn coal and to comply with all applicable air pollution requirements without a compliance date extension under section 119, or (b) if no notification is given by EPA the date that the Administrator of EPA certifies pursuant to section 119(d)(1)(B) of the Clean Air Act is the earliest date that the powerplant will be able to comply with all applicable air pollution requirements of section 119 of that Act; and (2) until FEA has considered the environmental impact of such order pursuant to § 305.9 of the FEA regulations that implement section 2 of ESECA and has served the affected powerplant a Notice of Effectiveness, as provided in §§ 303.10(b) and 303.37(b) of those regulations. The date the prohibition order will be effective will be stated in the Notice of Effectiveness.

The Notice of Effectiveness will contain a compliance schedule to insure that the powerplant will be able to comply with the prohibition on the burning of natural gas or petroleum products as a primary energy source on the date the order becomes effective.

Public comment on the proposals to issue prohibition orders to the powerplants listed above is invited in the form of written and oral presentation of data, views and arguments. Comments should relate to individual docket numbers and should make clear to which docket number the individual comment is addressed.

Comments should address (1) the adequacy and validity of each of the proposed findings and the rationale in support of the findings; (2) the identification of any site-specific environmental impacts resulting from the proposed prohibition orders that were not identified or described in the Environmental Impact Statement (FES 75-1, dated April 25, 1975) for the FEA program to implement section 2 of ESECA; and (3) any other relevant aspects or impacts of the proposed prohibition order. With respect to comments regarding any impact on air quality that might result from a proposed prohibition order, however, it should be recognized that ESECA has assigned to EPA the primary responsibility for analyzing the effect of any such order on the Nation's air quality, and for determining the applicable air pollution requirements that apply to the powerplant that has been issued an order. It is expected that in almost every case, a powerplant to which a prohibition order is issued will be eligible to apply to EPA for a compliance date extension. In connection with that application, EPA must also provide an opportunity for written comment and oral presentation of data, views and arguments by interested persons. In addition, FEA will make a site-specific environmental analysis after the issuance of each order, but prior to service of the Notice of Effectiveness, and there will be an opportunity for public comment if the analysis indicates that significant site-specific impacts are likely to result from a prohibition order.

If oral presentation is to be made, it is requested that any detailed technical data, views, and arguments be made in written comments submitted in support of the oral presentation, and that the oral presentation itself be a summary of those more detailed comments.

A public hearing on the proposed prohibition orders will be held beginning at 10:30 a.m., c.d.t. on June 2, 1975, in the Federal Building, 219 South Dearborn, Room 2525, Chicago, Illinois 60603, to receive oral presentation of data, views

and arguments from interested persons. Any person who has an interest in the subject of the hearing, or who is a representative of a group or class of persons which has an interest in the subject of the hearing, may make a written request, or a verbal request if confirmed in writing, for an opportunity to make oral presentation. That request should be directed to David Stein, FEA Region V, 175 West Jackson Boulevard, Room A-342, Chicago, Illinois 60604, (312) 353-0542 and must be received before 4:30 p.m. c.d.t., May 28, 1975. The request may be hand-delivered to David Stein 175 West Jackson Boulevard, Room A-342, Chicago, Illinois between the hours of 8 a.m. and 4:30 p.m. c.d.t., Monday through Friday. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he or she is a proper representative of a group or class of persons which has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he or she may be contacted through May 30, 1975. Each person selected to be heard will be so notified by the FEA by 4:30 p.m. c.d.t., May 29, 1975, and must submit a minimum of 20 copies of the statement to David Stein, 175 West Jackson Boulevard, Room A-342, Chicago, Illinois 60604 before 4:30 p.m., May 30, 1975.

The FEA reserves the right to limit the number or representatives of a particular group or class of persons to be heard at the hearing, to schedule their or other person's presentations, and to establish the procedures governing the conduct of the hearing. The length of time allocated to each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearing. It will not be a judicial or evidentiary-type hearing. During an oral presentation, questions may be asked only by those conducting the hearing, and there will be no cross-examination of persons making oral presentations. At the conclusion of all initial oral presentations, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions to be asked of any person making an oral presentation at the hearing to FEA Region V, David Stein, 175 West Jackson Boulevard, Room A-342, Chicago, Illinois 60604, before 9:00 a.m. c.d.t., June 2, 1975. Any person who makes an oral statement or any other person who wishes to ask a question at the hearing may submit the questions, in writing, to the presiding officer. The FEA, or the presiding officer if the question is submitted at the hearing, will determine whether the question is relevant, and whether time limitations permit it to be presented for answer.

Any further procedural rules necessary for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript will be retained by the FEA and made available for inspection at the FEA Region V, Room A-333, 175 West Jackson Boulevard, Chicago, Illinois, and FEA Administrator's Reception Area, Room 3400, Federal Building, 12th and Pennsylvania Avenue, NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Anyone may purchase a copy of the transcript from the reporter.

Interested persons are invited to submit written comments consisting of data, views, or arguments with respect to the proposed prohibition order to Executive Communications, Federal Energy Administration, Box DD, Washington, D.C. 20461.

Comments should be identified on the outside of the envelope in which they are transmitted and on other documents submitted to FEA Executive Communications with the designation "Proposed Prohibition Order for the \_\_\_\_\_ Powerplant." Fifteen copies should be submitted.

All written comments received by 4:30 p.m., e.d.t., June 4, 1975, all oral presentations and all other relevant information submitted to or otherwise available to FEA will be considered by FEA prior to issuance of any prohibition order.

**Supplemental comment period.** To facilitate the submission of data, views and arguments to supplement either the oral presentation or written comments, FEA shall keep the record of the public hearing open for a period of 10 days from the first day of the public hearing. Such supplementary written data, views or argument shall be filed with Executive Communications, Federal Energy Administration, Box DD, Washington, D.C. 20461. In the event that such supplementary data, views or argument can only be submitted by oral presentation, a verbal request for a conference, in accordance with 10 CFR 303.171, shall be submitted to David Stein, FEA Region V, 175 West Jackson Boulevard, Room A-342, Chicago, Illinois 60604, (312) 353-0542. To ensure that FEA receives the transcript of such oral presentation before the record closes, any oral presentation must be made within 8 days from the first day of the public hearing.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

The sections of ESECA that are relevant to the proposed prohibition orders are stated below:

#### SECTION 1. Short-Title; purpose.

(b) The purposes of this Act are (1) to provide for a means to assist in meeting the essential needs of the United States for fuels, in a manner which is consistent, to the fullest extent practi-

cable, with existing national commitments to protect and improve the environment . . . .

SEC. 2. *Coal conversion and allocation.* (a) The Federal Energy Administrator—

(1) Shall by order, prohibit any powerplant, and

(2) May, by order, prohibit any major fuel burning installation, other than a powerplant, from burning natural gas or petroleum products as its primary energy source, if the Federal Energy Administrator determines such powerplant or installation on the date of enactment of this Act (June 22, 1974) has the capability and necessary plant equipment to burn coal, and if the requirements of subsection (b) are met.

(b) The requirements referred to in subsection (a) are as follows:

(1) An order under subsection (a) may not be issued with respect to a powerplant or installation unless the Federal Energy Administrator finds (A) that the burning of coal by such plant or installation, in lieu of petroleum products or natural gas, is practicable and consistent with the purposes of this Act, (B) that coal and coal transportation facilities will be available during the period the order is in effect, and (C) in the case of a powerplant, that the prohibition under subsection (a) will not impair the reliability of service in the area served by such plant. Such an order shall be rescinded or modified to the extent the Federal Energy Administrator determines that any requirement described in subparagraph (A), (B), or (C) of this paragraph is no longer met; and such an order may at any time be modified if the Federal Energy Administrator determines that such order, as modified, complies with the requirements of this section.

(3) (A) Before issuing an order under subsection (a) which is applicable to a powerplant or installation after June 30, 1975 (or modifying an order to which paragraph (2) applies, so as to apply such order to a powerplant or installation after such date), the Federal Energy Administrator shall give notice to the public and afford interested persons an opportunity for oral and written presentations of data, views, and arguments.

(B) An order (or modification thereof) described in subparagraph (A) of this paragraph shall not become effective until (i) the Administrator of the Environmental Protection Agency notifies the Federal Energy Administrator under section 119(d)(1)(B) of the Clean Air Act that such plant or installation will be able on and after July 1, 1975, to burn coal and to comply with all applicable air pollution requirements without a compliance date extension under section 119(c) of such Act, or (ii) if such notification is not given, the date which the Administrator of the Environmental Protection Agency certifies pursuant to section 119(d)(1)(B) of such Act is the earliest date that such plant or installa-

tion will be able to comply with all applicable requirements of such section 119. Such order (or modification) shall not be effective during any period certified by the Administrator of the Environmental Protection Agency under section 119(d)(3)(B) of the Act.

(e) For purposes of this section:

(1) The term "powerplant" means a fossil-fuel fired electric generating unit which produces electric power for purposes of sale or exchange.

(2) The term "coal" includes coal derivatives.

(f) (1) Authority to issue orders or rules under subsections (a) through (d) of this section shall expire at midnight, June 30, 1975. Such a rule or order may take effect at any time before January 1, 1979.

(2) Authority to amend, repeal, rescind, modify, or enforce such rules or orders shall expire at midnight, December 31, 1978; but the expiration of such authority shall not affect any administrative or judicial proceeding which relates to any act or omission which occurred prior to January 1, 1979.

Copies of the FEA regulations implementing section 2 of ESECA (10 CFR Parts 303, 305, and 307) are available from the FEA Regional Office, 175 West Jackson Boulevard, Room A-342, Chicago, Illinois 60604 (312) 353-0542.

Any questions regarding this notice should be directed to David Stein, FEA Region V, 175 West Jackson Boulevard, Chicago, Illinois 60604 (312) 353-0542. (Energy Supply and Environmental Coordination Act of 1974 (Pub. L. 93-319); Federal Energy Administration Act of 1974 (Pub. L. 93-275); E.O. 11790 (39 FR 23185)).

Issued in Washington, D.C., May 15, 1975.

ROBERT E. MONTGOMERY, JR.,  
General Counsel,  
Federal Energy Administration.

1. OPU-048, WISCONSIN PUBLIC SERVICE CORPORATION, POWERPLANT #2, GENERATING STATION—WESTON, ROTCHILD, WISCONSIN

(a) Proposed findings and rationale for findings:

1. *Capability and necessary plant equipment finding.* Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that on June 22, 1974, this powerplant had the capability and necessary plant equipment to burn coal. This proposed finding is based on facts, interpretations and assumptions stated below:

(A) This powerplant had in place, on June 22, 1974 a boiler that was capable of burning coal, in that such boiler had been designed and constructed, or had been modified to enable it to burn coal as its primary energy source, or to burn coal and another fossil fuel interchangeably as its primary energy source, notwithstanding the fact that on June 22, 1974, such powerplant may not have been burning coal as its primary energy source.

(B) Based on information filed with FEA on March 13, 1975 by the Wisconsin Public Service Corporation, the following significant equipment or facilities have to be acquired or substantially refurbished:

1. Two long retractable soot blowers in the superheater section;

2. Two stationary soot blowers in the economizer section.

FEA assumes that on June 22, 1974, this powerplant had all other significant equipment and facilities associated with the burning of coal.

(C) Within the meaning of ESECA and the regulations promulgated pursuant thereto, the equipment and facilities listed in paragraph (B) do not individually or in combination constitute a lack of capability and necessary plant equipment to burn coal as of June 22, 1974.

(ii) *Burning of coal in lieu of natural gas or petroleum products is practicable and consistent with the purposes of ESECA.* Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that the burning of coal by the powerplant in lieu of petroleum products or natural gas is practicable and consistent with the purposes of ESECA. This proposed finding is based on the facts, interpretations and assumptions stated below.

(A) The powerplant has acquired or modified, or is currently acquiring or modifying the equipment and facilities necessary for the burning of coal as its primary energy source, and such actions are not being undertaken as a result of (or in contemplation of) the issuance of a prohibition order. These acquisitions or modifications include those necessary for compliance with the requirements of Clean Air Act.

(B) The costs associated with the acquisitions or modifications necessary for the burning of coal are identified in the Wisconsin Public Service Corporation's current and prospective budgetary plans.

(C) (1) FEA assumes that the decision by the Wisconsin Public Service Corporation to acquire or modify such equipment and facilities in order to burn coal as a primary energy source was based on an analysis of the financial capability of such corporation to assume such costs (including the requirement to obtain a rate increase) and, therefore the conclusion by such corporation that the burning of coal in lieu of petroleum products is practicable.

(2) If the Wisconsin Public Service Corporation has found that the burning of coal in lieu of petroleum products or natural gas is practicable, FEA proposes to find that the burning of coal by such powerplant is practicable within the meaning of ESECA and the regulations promulgated thereunder.

(A) The issuance of this proposed prohibition order will discourage the use of natural gas or petroleum products and encourage the increased use of coal, and such order is a means that, by virtue of the necessity for the powerplant to com-

ply with the Clean Air Act and other applicable environmental protection requirements, is consistent, to the fullest extent practicable, with existing national commitments to protect and improve the environment.

(iii) *Coal and coal transportation facilities will be available during the period the prohibition order is in effect.* Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that coal and coal transportation facilities will be available to this powerplant during the period until December 31, 1978. The period until December 31, 1978 is the period during all or part of which the prohibition order to which these findings relate will be in effect. This proposed finding is based upon the following facts, interpretations and assumptions:

(A) (1) It is estimated that it will be practicable to produce coal nationally as follows:

Year:	Production (million tons)
1975	662
1976	679
1977	707
1978	735

(2) The estimated national demand, excluding any increased demand resulting from FEA action under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	640
1976	664
1977	688
1978	716

(3) The estimated additional national demand for coal resulting from the prohibition order to which this finding relates, and from FEA actions under authority of section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	7
1976	4.0
1977	13.6
1978	16.2

(4) Coal of the specific type required for use by this powerplant has been identified in the reserves of the Northern and Southern Appalachian, Midwest, Gulf, and Northern Great Plains, coal supply regions, which consist of Bureau of Mines Districts 1-15, 19, 21, and 22.

(5) It is estimated that it will be practicable to produce coal from these coal supply regions as follows:

Year:	Production (million tons)
1975	624
1976	635
1977	657
1978	679

(6) The regional and national production estimates stated in items (1) and (5) assume a surge capacity, or ability to increase production over normal levels, of approximately 4 percent. A 1975 study by the Bureau of Mines of the Department of the Interior indicates a national surge capacity of approximately 6 per-

cent. In response to an industry survey in late 1974, the coal industry itself indicated that it had a surge capacity of up to 8 percent. By comparison, the increased national demand for coal resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA, is less than one tenth of a percent in 1975, increasing to a maximum of 2.3 percent in 1978 of estimated national demand stated in item (2). A market survey of traditional coal suppliers to FEA Region 5 consumers indicates that there is ample production capability to support increased demand for coal from this region resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA.

(7) No State or local laws or policies which would limit the extraction of this coal have been found by FEA or brought to FEA's attention.

(8) The estimated demand for coal from these supply regions, excluding any increased demand resulting from FEA actions under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	602
1976	621
1977	640
1978	660

(9) The estimated additional demand for coal from these supply regions resulting from the prohibition order to which this finding relates and from other FEA orders under section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	7
1976	3.9
1977	13.4
1978	16.0

(10) On the basis of the above information, FEA proposes to find that the estimated production of coal of the specific type required for use by this powerplant exceeds the estimated demand for such coal by amounts adequate to support a conclusion that such coal will be available to this powerplant during the period until December 31, 1978.

(1) Adequate rail facilities exist between these coal supply regions and the powerplant to transport the coal that will be used by such powerplant pursuant to this order.

(2) There is a spur line which will be able to deliver this coal from the main rail line to this powerplant.

(3) Sufficient rolling stock will be available to the Baltimore and Ohio Railroad or the Chicago-Milwaukee and St. Paul and Pacific Railroads for transporting this coal during the period until December 31, 1978.

(iv) *The prohibition of the burning of natural gas or petroleum products as its primary energy source will not impair the reliability of service in the area served by the affected powerplant.* Based on an analysis of the information submitted to or otherwise available to FEA, and after consultation with the Federal

Power Commission, FEA proposes to find that the prohibition of the Weston #2 powerplant of the Wisconsin Public Service Corporation from burning natural gas or petroleum products as its primary energy source will not impair the reliability of service in the area served by such powerplant. This finding is based on the facts, assumptions and interpretations stated below:

#### INTERCONNECTIONS AND POWER DISPATCHING

(1)(a) The Weston Powerplant #2 is within the geographical area of the Mid-America Interpool Network (MAIN) regional electric reliability council.

(b) It is interconnected with and its operations and planning are coordinated with the Wisconsin Power Pool.

(c) Dispatching of electric power is controlled by Wisconsin Public Service Corporation.

(2) The subject powerplant now uses coal on a regular basis. When gas has been available the powerplant has used gas.

(3) No reconversion or outage time for reconversion is necessary, other than three days scheduled in June 1975. (B) For the reasons set forth above, the FEA finds that the burning of coal by Weston #2 powerplant, in lieu of petroleum products or natural gas will not result in the impairment of the reliability of service within the area served within the meaning of ESECA and the regulations promulgated pursuant thereto.

2. OFU-049, DETROIT EDISON COMPANY, POWERPLANT #5, GENERATING STATION—ST. CLAIR, E. CHINA TOWNSHIP, MICHIGAN

(a) Proposed findings and rationale for findings.

1. *Capability and necessary plant equipment finding.* Based on an analysis of the information submitted to or otherwise available to FEA, FEA hereby proposes to find that on June 22, 1974, this powerplant had the capability and necessary plant equipment to burn coal. This proposed finding is based on facts, interpretations and assumptions stated below:

(A) This powerplant had in place, on June 22, 1974, a boiler that was capable of burning coal, in that such boiler had been designed and constructed, or had been modified to enable it to burn coal as its primary energy source, or to burn coal and another fossil fuel interchangeably as its primary energy source, notwithstanding the fact that on June 22, 1974, such powerplant may not have been burning coal as its primary energy source.

(B) Based on information filed with FEA on April 11, 1975 by the Detroit Edison Company, the following significant equipment or facilities would have to be acquired or substantially refurbished:

1. I. D. Fans;
2. Cyclones, primary furnace and floor;
3. Ductwork;
4. Soot-blowing equipment;
5. Flyash system;
6. Bottom ash and slag tap;
7. Coal handling and feeder systems;
8. Control and electrical equipment.

FEA assumes that on June 22, 1974, this powerplant had all other significant equipment and facilities associated with the burning of coal.

(C) Within the meaning of ESECA and the regulations promulgated pursuant thereto, the equipment and facilities listed in paragraph (B) do not individually or in combination constitute a lack of capability and necessary equipment to burn coal as of June 22, 1974.

(f) *Burning of coal in lieu of natural gas or petroleum products is practicable and consistent with the purposes of ESECA.* Based on an analysis of the information submitted or otherwise available to FEA, FEA proposes to find that the burning of coal by the powerplant, in lieu of petroleum products or natural gas, is practicable and consistent with the purposes of ESECA. This proposed finding is based on the facts, interpretations and assumptions stated below:

(1) *Revenue requirements.* (a) The investment costs that result from the acquisition and refurbishment of equipment and facilities associated with the burning of coal by the powerplant are estimated to be approximately \$14,090,000. This estimate is based on existing FEA information and on information filed with the FEA by the company concerning items of equipment and facilities that would have to be acquired or refurbished and the costs of such acquisition or refurbishment.

(b) Costs of acquisition or refurbishing equipment are allocated as follows:

(A) \$7,140,000 to comply with air pollution control requirements of the Clean Air Act.

(B) \$6,950,000 to make those technical plant and equipment adjustments associated with the burning of coal, as well as to comply with environmental requirements other than those imposed by the Clean Air Act.

(b) The increase in operating costs other than fuel costs that result from the burning of coal are estimated to be approximately \$397,000 per year.

(c) (i) The price of petroleum products available to the powerplant is approximately \$1.85 to \$1.95 per million Btu's. The price of coal of the type used by the powerplant is approximately \$.90 to \$1.00 per million Btu's. The burning of coal by the powerplant will result in a reduction of \$.85 to \$1.05 per million Btu's or \$15 to \$19 million per year.

(ii) The Michigan Public Utility Commission permits the inclusion of increased fuel costs in the rate base through a fuel adjustment clause and, if there is a decrease in the cost of fuel as a result of burning coal, there will be a decrease in such rate base.

(d) The total annual incremental increase in revenue requirements resulting from costs associated with burning coal as opposed to oil is \$3,537,000.

(2) *Financial capabilities.* (a) Based on the most recent financial statements and capital expenditure programs of the Detroit Edison Company as well as other information available to FEA, it has been determined that the prohibition order for the powerplant is practicable. This

financial assessment included an evaluation of generally accepted financial ratios; effects on capitalization as a result of the costs of burning coal; impact on current and future construction programs; and possible impacts on rates. This assessment incorporated, but was not limited to, consideration of: the \$14.1 million investment requirement (or .5%) in relation to net property and plant of the company of \$3.1 billion and 1975-1977 construction budget of the company of \$1.08 billion (or 1.3%); the total capitalization of the company of \$2.7 billion; the change in 1974 to 1975 construction budgets of \$362 million to \$252 million; and the 20 years remaining useful life of the plant. These assessments, the above findings, and other evaluations of the general financial health of the company were the basis of this finding.

(b) Because this prohibition order will discourage the use of natural gas or petroleum products and encourage the increased use of coal, FEA proposes to find that its issuance will be consistent with the purpose of ESECA "to provide a means to assist in meeting the essential needs of the United States for fuels." Further, on the basis of the environmental analyses conducted by FEA, the analyses of air quality impacts which EPA is required to conduct prior to effectiveness of a prohibition order, as well as the necessity for the powerplant to comply with the Clean Air Act and other applicable environmental protection requirements, FEA proposes to find that the prohibition order is also consistent with the purpose of ESECA to provide for a means to meet the Nation's essential fuel needs "in a manner which is consistent, to the fullest extent practicable, with existing national commitments to protect and improve the environment."

(iii) *Coal and coal transportation facilities will be available during the period the prohibition order is in effect.* Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that coal and coal transportation facilities will be available to this powerplant during the period until December 31, 1978. The period until December 31, 1978 is the period during all or part of which the prohibition order to which these findings relate will be in effect. This proposed finding is based upon the following facts, interpretations, and assumptions:

A(1) It is estimated that it will be practicable to produce coal nationally as follows:

Year:	Production (million tons)
1975	662
1976	679
1977	707
1978	735

(2) The estimated national demand, excluding any increased demand resulting from FEA action under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	640
1976	664
1977	698
1978	716

(3) The estimated additional national demand for coal resulting from the prohibition order to which this finding relates, and from FEA actions under authority of section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	.7
1976	4.0
1977	13.6
1978	16.2

(4) Coal of the specific type required for use by this powerplant has been identified in the reserves of the Northern and Southern Appalachian, Mid West, Gulf, and Northern Great Plains Coal Supply Regions, which consist of Bureau of Mines District 1-15, 19, 21, and 22.

(5) It is estimated that it will be practicable to produce coal from these coal supply regions as follows:

Year:	Production (million tons)
1975	624
1976	665
1977	657
1978	679

(6) The regional and national production estimates stated in items (1) and (5) assume a surge capacity, or ability to increase production over normal levels, of approximately 4 percent. A 1975 study by the Bureau of Mines of the Department of the Interior indicates a national surge capacity of approximately up to 6 percent. In response to an industry survey in late 1974, the coal industry itself indicated that it had a surge capacity of up to 8 percent. By comparison, the increased national demand for coal resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA, is less than one tenth of a percent in 1975, increasing to a maximum of 2.3 percent in 1978 of estimated national demand stated in item (2). A market survey of traditional coal suppliers to FEA Region V consumers indicates that there is ample production capability to support increased demand for coal from this region resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA.

(7) No State or local laws or policies which would limit the extraction of this coal have been found by FEA or brought to FEA's attention.

(8) The estimated demand for coal from these supply regions, excluding any increased demand resulting from FEA actions under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	602
1976	621
1977	640
1978	660

(9) The estimated additional demand for coal from these supply regions result-

ing from the prohibition order to which this finding relates and from other FEA orders under section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	.7
1976	3.9
1977	13.4
1978	16.0

(10) On the basis of the above information, FEA proposes to find that the estimated production of coal of the specific type required for use by this powerplant exceeds the estimated demand for such coal by amounts adequate to support a conclusion that such coal will be available to this powerplant during the period until December 31, 1978.

B(1) Adequate rail and barge facilities exist between these coal supply regions and the powerplant to transport the coal that will be used by such powerplant pursuant to this order.

(2) There is a spur line and waterway which will be able to deliver this coal to this powerplant.

(3) Sufficient rolling stock will be available to the Burlington Northern and sufficient barges will be available to the Detroit Edison Company for transporting this coal during the period until December 31, 1978.

(iv) *The prohibition of the burning of natural gas or petroleum products as its primary energy source will not impair the reliability of service in the area served by the affected powerplant.* Based on an analysis of the information submitted to or otherwise available to FEA, and after consultation with the Federal Power Commission, FEA proposes to find that the prohibition of the St. Clair #5 powerplant of the Detroit Edison Company from burning natural gas or petroleum products as its primary energy source will not impair the reliability of service in the area served by such powerplant. This finding is based on the facts,

Powerplant designation	Fuel	Type of change	Capacity change	Status and effective date
Karn No. 4....	Oil.....	Addition.....	+663 MWe.....	Under construction start of commercial operation December 1976.

(4) *Scheduled outages.* (a) A scheduled outage of 8 months is estimated to be required to make any modification, installation or other physical adjustment associated with cessation of the burning of natural gas or petroleum products as the powerplant primary energy source. Immediately following modification during on-line testing and adjustment, the powerplant will be less than fully dependable. This period should not exceed 30 days.

Modifications are forecast to commence approximately September 1, 1976, and to be complete and fully tested by May 1, 1977.

(b) Planned maintenance of other powerplants and nuclear plant refueling during the period the powerplant will be implementing the herein prohibition order within the dispatching system will

assumptions and interpretations stated below:

(A) (1) *Interconnections and power dispatching.* (a) The St. Clair Unit #5 is within the geographical area of the East Central Area Reliability Coordination Agreement (ECAR) regional electric reliability council.

(b) It is interconnected with and its operations and planning are coordinated with the Detroit Edison Company and Consumers Power Company which form the Michigan Electric Coordination System (MECS) power pool.

(c) Dispatching of electric power is controlled by MECS.

(d) "Dispatching system" as used later in this finding means MECS.

(2) *Forecast peak loads.* (a) Forecast of peak loads for the dispatching system during the year in which the Detroit Edison Company is expected to be implementing the herein prohibition order is as follows:

Fall Load Period (Sept.-Nov.) 1976, Peak 11085 MWe Sept.  
Winter Load Period (Dec.-Feb.) 1976-77, Peak 10670 MWe Jan.  
Spring Load Period (March-May) 1977, Peak 10180 MWe April.  
Summer Load Period (June-Aug.) 1977, Peak 12720 MWe Aug.

(b) The peak loads forecast have been compared with peak loads in previous similar periods and the compound load growth rate for these forecasts is 6.6 percent, which is considered reasonable.

(3) *Capacity.* (a) The present net dependable capacity of all powerplants of the dispatching system that now are engaged in the sale or exchange of electric power is 15234 MWe.

(b) Additions, retirements, and powerplant ratings during the period in which Detroit Edison Company will be implementing the herein prohibition order, as listed below, will cause the following changes in net dependable capacity or such dispatching system:

cause an average of about 630 MWe to be unavailable.

(5) *Net dependable capacity.* The forecast net dependable capacity for the dispatching system during the period (shown as quarter years) in which the powerplant is expected to be implementing the herein prohibition order and the next quarter following is:

Fall 1976..... 15234 MWe  
Winter 1976-77..... 15697 MWe  
Spring 1977..... 15897 MWe  
Summer 1977..... 15897 MWe

(6) *Gross reserve margin-dispatching system.* (a) The expected minimum gross reserve margin (difference between net system capability and peak load in percent of peak load) of the dispatching system for the load periods specified are as follows:

	Percent
Fall 1976	37.4
Winter 1976-77	48.9
Spring 1977	56.2
Summer 1977	25.0

(b) After deducting the net capacity of units scheduled for maintenance or refueling during these same load periods. The expected minimum reserve margins are:

	Percent
Fall 1976	31.7
Winter 1976-77	43.1
Spring 1977	50.0
Summer 1977	20.0

(7) *Derating.* The St. Clair Unit #5 is projected to have a net dependable capacity of 286 MWe following the commencement of the burning of western bituminous coal as a primary energy source. This is a reduction in capacity of 72 MWe, in relation to its capacity using oil as a primary energy source.

(8) *System stability.* Available information regarding system stability for the dispatching system has been evaluated for each of the load periods stated in paragraph (5) and the issuance of a prohibition order to the powerplant will not cause a significant system stability problem.

(B) *Reliability of service.* (1) The estimated gross reserve margin of the dispatching system during the implementation period associated with the commencement of the burning of coal as primary energy source is forecast to range between 20.0% and 50.0%, depending upon the date of the period of powerplant outage. By scheduling the implementation period during the Winter and Spring load period, the estimated gross dispatching system's reserve margin will be above 43 percent, and the Federal Power Commission considers this to be an acceptable reserve margin.

(2) If dispatching system conditions at the time of the implementation period are as presently forecast by FEA in this finding, there will be no impairment of reliability of service, within the meaning of ESECA and the regulations promulgated thereunder, in the area served by Detroit Edison Company.

(3) Existing transmission system interconnections with other utilities are presently scheduled to transfer approximately 630 megawatts from the dispatching system; with the capacity to transfer approximately 3000 additional megawatts of power into or from the dispatching system. This capacity will provide emergency resource of electric power during the implementation period and will enhance the reliability of service.

(4) The 20 percent derating resulting from the burning of coal as the primary energy source will not impair the reliability of service within the meaning of ESECA and the regulations promulgated thereunder, in the area served by the powerplant.

## FEDERAL MARITIME COMMISSION

SEA-LAND SERVICE, INC. AND MAHER TERMINALS, INC.

## Agreements Filed

Notice is hereby given that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreements at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreements at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before June 10, 1975. Any person desiring a hearing on the proposed agreements shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreements (as indicated hereinafter) and the statement should indicate that this has been done.

## Notice of Agreement Filed by:

Gary R. Edwards, Esq.  
Ragan & Mason  
The Farragut Building  
900 Seventeenth Street NW.  
Washington, D.C. 20006

Agreement No. T-3093, between Sea-Land Service, Inc., (Sea-Land) and Maher Terminals, Inc., (Maher) provides for the interchange of container handling cranes between Sea-Land and Maher. In consideration of the agreement Sea-Land and Maher will share equally the expense incurred to effect the interchange of cranes. The cranes shall be available for interchange whenever a crane is not being used by its owner or undergoing maintenance.

By Order of the Federal Maritime Commission.

Dated: May 15, 1975.

FRANCIS C. HURNEY,  
Secretary.

## FEDERAL POWER COMMISSION

[Docket No. CS71-523, etc.]

C. H. LYONS, JR., ET AL.  
Applications for Small Producer  
Certificates<sup>1</sup>

MAY 14, 1975.

Take notice that each of the Applicants listed herein has filed an application pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the Regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before June 11, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required

<sup>1</sup> This notice does not provide for consolidation for hearing of the several matters covered herein.

herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket No. R175-138]

## SHELL OIL CO.

Hearing on and Suspension of Proposed Change in Rate, and Allowing Rate Change To Become Effective Subject to Refund

MAY 14, 1975.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A below.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Chapter II and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date Suspended Until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the Regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

## NOTICES

## APPENDIX "A"

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date unless suspended	Date suspended until	Cents per Mcf <sup>1</sup>	Rate in effect subject to refund in docket Nos.
RI75-126	Shell Oil Co.	309	23	Montana-Dakota Utilities Co. (Wyoming) (Rocky Mountain).	\$30,447	4-21-75		10-22-75	24.7204	25.7501

<sup>1</sup> Unless otherwise stated, the pressure base is 14.73 psia.  
<sup>2</sup> Production from wells commenced prior to January 1, 1973 only.

The proposed rate increase of Shell exceeds the applicable rate established in Opinion No. 658 and is suspended for five months.

[FR Doc.75-13234 Filed 5-20-75;8:45 am]

[Docket Nos. RI75-139 and RI75-107]  
**TEXACO INC.**

Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund<sup>1</sup>

MAY 14, 1975.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A below.

<sup>1</sup> Does not consolidate for hearing or disposition of the several matters herein.

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date unless suspended	Date suspended until	Cents per Mcf <sup>1</sup>	Rate in effect subject to refund in docket Nos.
RI75-139	Texaco Inc.	45	10	Mountain Fuel Supply Co. (Colorado) (Rocky Mountain).	\$613,000	4-14-75	4-14-75	(9)	28.2374	60.8135
			11		47,000	4-14-75	4-14-75	(9)	27.2553	29.8098
			12			4-14-75	4-14-75	(9)	(7)	(9)

<sup>1</sup> Unless otherwise stated, the pressure base is 15.025 lb/in<sup>2</sup> a.  
<sup>2</sup> Unless otherwise stated, the rate shown is the total rate, inclusive of any applicable British thermal unit adjustment of any applicable British thermal unit adjustment and tax.  
<sup>3</sup> Replacement contract dated Dec. 30, 1971, which supersedes contract dated Feb. 1, 1965 (Texaco Inc. R/S No. 45), and Nov. 15, 1967, contract (Texaco Inc. R/S No. 174).

Texaco had previously filed a unilateral rate increase to the national rate for sales under its PPC Gas Rate Schedule No. 45. Although the primary term of Texaco's contract had expired, there was no replacement contract. Hence the sales did not qualify for the national rate under Opinion No. 699, as amended, and Texaco's previous rate increase was suspended until July 9, 1975 in Docket No. RI75-107. Since the parties have now entered into a replacement contract, the sale now qualifies for the national rate. Consequently, the national rate proposed in Supplement No. 11 is acceptable. In addition, Docket No. RI75-107 is now moot and is hereby terminated.

The proposed rate of 29.8098¢ per Mcf contained in Supplement No. 12 exceeds the applicable ceiling rate under Opinion No. 658 and is therefore suspended for five months.

[FR Doc.75-13236 Filed 5-20-75;8:45 am]

[Docket No. E-9420]  
**YANKEE ATOMIC ELECTRIC CO.**  
**Rate Change Filing**

MAY 14, 1975.

Take notice that on May 1, 1975, Yankee Atomic Electric Company (Yankee) tendered for filing an executed contract between Yankee and ten of its eleven owner companies to supersede the presently effective contract dated June 30, 1959 for sale of the net output of Yankee's nuclear power plant at Rowe, Massachusetts. Yankee states that the owner companies' percentage shares of Yankee common stock and of the net output of the plant are as follows:

	Stock percent- age	Power percent- age
New England Power Co.	30.0	30.0
The Connecticut Light & Power Co.	15.0	15.0
Boston Edison Co.	9.5	9.5
Central Maine Power Co.	9.5	9.5
The Hartford Electric Light Co.	9.5	9.5
Western Massachusetts Electric Co.	7.0	7.0
Public Service Co. of New Hampshire	7.0	10.5
Montauk Electric Co.	4.5	4.5
New Bedford Gas & Edison Co.	2.5	2.5
Cambridge Electric Co.	2.0	2.0
Central Vermont Public Service Corp.	2.5	3.5
	100.0	100.0

Yankee states that Central Maine Power Company, not being located in a state adjoining Massachusetts, is not en-

suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder. (C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
 Secretary.

## APPENDIX "A"

## NOTICES

22179

titled to purchase electrical energy from Yankee and that Public Service Company of New Hampshire supplies power to Central Maine in amounts equivalent to 9.5 percent of the net electrical output of the Yankee plant, after appropriate allowance for transmission losses.

According to Yankee, the revised contract provides for the following changes in the present contract:

1. Under the present contract, the ten owner companies taking shares of the net output of the plant (and Central Maine through its contract with Public Service Company of New Hampshire) reimburse Yankee for its total cost of service in proportion to those shares. The cost of service includes a fixed overall return of five percent on net rate base. Under the payment provisions in section 6 of the revised contract, Yankee's charges would reflect instead an overall return on net rate base equal to Yankee's composite cost of debt plus two percent.

2. Section 6 also provides for an interest charge on any payment delayed beyond thirty days after receipt by the customer of a monthly statement and that Yankee may terminate the contract by written notice if payment is delayed beyond six months.

3. Section 6 provides that Yankee's cost of service shall include accruals to any reserve established by Yankee's board of directors to provide for decommissioning the plant on or after July 1, 1991.

4. Section 11 of the new contract gives Yankee the right to amend section 6 by unilateral filing with the Federal Power Commission.

5. The new contract has an expiration date of June 30, 1991 instead of the June 30, 1981 expiration date in the present contract.

6. The new contract provides that the plant shall be subject to central dispatch pursuant to section 12 of the New England Power Pool agreement dated as of September 1, 1971, as from time to time amended.

7. The arbitration clause in section 8 of the new contract is simpler than the arbitration clause in the present contract.

Yankee requests that the enclosed contract be permitted to become effective on June 1, 1975. If any suspension is ordered, Yankee requests that it be for the minimum one day period.

Yankee states that it enclosed with its filing testimony and exhibits including Statements A through N for the 12 month periods ended January 31, 1975 (Period I) and January 31, 1976 (Period II). Yankee says that Statement O is not included since the new contract does not contain a fuel adjustment clause. Since the Price Commission is no longer active according to Yankee, Yankee requests waiver of the requirement for Statement P.

Yankee states that the revenue comparisons submitted by Yankee for the 12 months ended May 31, 1975 indicate an increase of \$4,468,000. Yankee states that the comparisons for the 12 months ended

May 31, 1976 indicate an increase of \$3,994,000 assuming an overall return of 10 percent and \$4,540,000 assuming an overall return of 12 percent.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 23, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
 Secretary.

**FEDERAL PREVAILING RATE  
 ADVISORY COMMITTEE  
 COMMITTEE MEETINGS**

Pursuant to the provisions of section 10 of Pub. L. 92-463, effective January 5, 1973, notice is hereby given that meetings of the Federal Prevailing Rate Advisory Committee will be held on:

Thursday, June 5, 1975  
 Thursday, June 12, 1975  
 Thursday, June 19, 1975  
 Thursday, June 26, 1975

The meetings will convene at 10 a.m. and will be held in Room 5A06A, Civil Service Commission Building, 1900 E Street NW., Washington, D.C.

The committee's primary responsibility is to study the prevailing rate system and from time to time advise the Civil Service Commission thereon.

At these scheduled meetings, the committee will consider proposed plans for implementation of Pub. L. 92-392, which law establishes pay systems for Federal prevailing rate employees.

The meetings will be closed to the public on the basis of a determination under section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463) and 5 U.S.C., section 552(b)(2), that the closing is necessary in order to provide the members with the opportunity to advance proposals and counter-proposals in meaningful debate on issues related solely to the Federal Wage System with the view toward ultimately formulating advisory policy recommendations for the consideration of the Civil Service Commission.

However, members of the public who wish to do so, are invited to submit material in writing to the Chairman concerning matters felt to be deserving of the committee's attention. Additional information concerning these meetings may be obtained by contacting the Chairman, Federal Prevailing Rate Advisory Com-

mittee, Room 5451, 1900 E Street NW., Washington, D.C. 20415.

DAVID T. ROADLEY,  
 Chairman, Federal Prevailing  
 Rate Advisory Committee.

**NATIONAL SCIENCE FOUNDATION  
 ADVISORY PANEL FOR METABOLIC  
 BIOLOGY**

**Meeting**

The Advisory Panel for Metabolic Biology will hold a meeting on June 6 & 7, 1975, at 9 a.m. in Room 511 at 1800 G Street, NW., Washington, D.C.

The purpose of this Panel is to provide advice and recommendations as part of the review and evaluation process for specific research proposals that have been assigned to the Metabolic Biology Program. This Panel functions in accordance with the Federal Advisory Committee Act, Pub. L. 92-463.

This meeting will not be open to the public because the Panel will be reviewing, discussing, and evaluating individual research proposals. Also, these proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552(b)(4), (5), and (6). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated February 21, 1975, pursuant to the provisions of section 10(d) of Pub. L. 92-463.

For further information about this Panel, please contact Dr. Elijah B. Romanoff, Program Director for Metabolic Biology, Room 323, National Science Foundation, Washington, D.C. 20550, telephone (202) 632-4312.

Dated: May 16, 1975.

# NUCLEAR REGULATORY ADVISORY COMMITTEE ON REACTOR SAFEGUARDS Meeting

In accordance with the purposes of Sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the Advisory Committee on Reactor Safeguards will hold a meeting on June 5-7, 1975, in Room 1046, 1717 H Street NW., Washington, D.C.

The following constitutes that portion of the Committee's agenda for the above meeting which will be open to the public:

THURSDAY, JUNE 5, 1975

11:45 a.m.-12:45 p.m. and 1:45 p.m.-3:45 p.m.—Joseph M. Farley Nuclear Plant Units 1 and 2. The Committee will hear presentations by and hold discussions with representatives of the Alabama Power Company and the NRC Staff regarding the application for an Operating License for this facility. This portion of the meeting will include closed sessions if required to discuss proprietary information related to the design, construction and/or operation of this plant. Closed portions will also be held if required to discuss security arrangements for this facility and for Committee deliberative sessions.

4:15 p.m.-8:15 p.m.: Diablo Canyon Site Units 1 and 2. The Committee will hear presentations by and hold discussions with representatives of the Pacific Gas & Electric Company and the NRC Staff regarding the application for an Operating License for this facility. This portion of the meeting will include closed sessions if required to discuss proprietary information related to the design, construction and/or operation of this plant. Closed portions will also be held if required to discuss security arrangements for this facility and for Committee deliberative sessions.

FRIDAY, JUNE 6, 1975

9:30 a.m.-12:30 p.m.: Washington Public Power Supply System Units 1 and 2. The Committee will hear presentations by and

hold discussions with representatives of the applicant and the NRC Staff regarding the request for a Construction Permit for this facility. This portion of the meeting will include closed sessions if required to discuss proprietary information related to the design, construction and/or operation of this plant. Closed portions will also be held if required to discuss security arrangements for this facility and for Committee deliberative sessions.

1:30 p.m.-2:30 p.m.: Meeting with NRC Staff. The Committee will meet with representatives of the NRC Staff to hear presentations and to discuss items related to recent operating experience and licensing actions regarding nuclear power plants.

3:00 p.m.-6:15 p.m.: St. Lucie Plant Unit 1. The Committee will hear presentations by and hold discussions with representatives of the Florida Power and Light Company and the NRC Staff regarding the request for an Operating License for this plant. This portion of the meeting will include closed sessions if required to discuss proprietary information related to the design, construction and/or operation of this plant. Closed portions will also be held if required to discuss security arrangements for this facility and for Committee deliberative sessions.

It should be noted that, in addition to the closed portions of the agenda items noted above, the Committee will hold other sessions not open to the public under the authority of section 10(d) of Pub. L. 92-463 (the Federal Advisory Committee Act), to consider the above applications and other matters. I have determined in accordance with subsection 10(d) of Pub. L. 92-463 that it is necessary to close such portions of the meeting to protect proprietary data (5 U.S.C. 552(b) (4)), and to protect the free interchange of internal views to avoid undue interference with agency or Committee operation (5 U.S.C. 552(b) (5)). Any non-exempt material that may be discussed during the closed portions of the meeting will be inextricably intertwined with discussion of exempt material and no further separation is practical. Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Committee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business, including provisions to carry over an incomplete open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than May 21, 1975, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Such written comments shall be based on documents related to the agenda items noted above, and related documents on file and available for public inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555, and as follows:

Diablo Canyon Site Units 1 and 2  
San Luis Obispo County Free Library  
888 Morro Street (P.O. Box 3)  
San Luis Obispo, California 93406

Joseph M. Farley Nuclear Plant Units 1 and 2  
George S. Houston Memorial Library  
213 W. Vurdeshaw Street  
Dothan, Alabama 36301

St. Lucie Unit 1  
Indian River Junior College Library  
3209 Virginia Avenue  
Ft. Pierce, Florida 33450

Washington Public Power Supply System  
Units 1 and 2  
Richland Public Library  
Swift and Northgate Streets  
Richland, Washington 99352

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Committee. To the extent that the time available for the meeting permits, the Committee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Committee.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Committee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting or portions of the meeting have been cancelled or rescheduled, and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on June 4, 1975, to the Office of the Executive Secretary of the Committee (Telephone: 202-634-1371) between 8:30 a.m. and 5:15 p.m., et. It should be noted that the schedule noted above is tentative, based on the anticipated availability of related information, etc. It may be necessary to reschedule items during the same day to accommodate required changes. The ACRS Executive Secretary will be prepared to describe these changes on June 4, 1975.

(e) Questions may be propounded only by members of the Committee and its consultants.

(f) The use of still, movie, and television cameras, the physical installation and presence of which will not interfere with the course of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in sessions.

(g) Persons desiring to attend portions of the meeting where proprietary information, other than plant security information, is being discussed may do so by providing to the Executive Secretary 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information providing for access to this information.

(h) A copy of the transcript of the open portions of the meeting will be available for inspection during the following workday at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street NW., Washington, D.C. On request, copies of the minutes of the meeting will be made available for inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street NW., Washington, D.C. on or after September 3, 1975. Copies may be obtained upon payment of appropriate charges.

Dated: May 19, 1975.

SAMUEL J. CHILK,  
Advisory Committee  
Management Officer.

## REGULATORY GUIDE Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications per permits and licenses.

Regulatory Guide 7.3, "Procedures for Picking Up and Receiving Packages of Radioactive Material," describes a method acceptable to the NRC staff for licensees to comply with the Commission's regulations with respect to arrangements for receipt, pickup, and monitoring of packages containing radioactive material and with respect to reporting of packages which, on receipt, show evidence of leakage or excessive radiation levels.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed (listed below) or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 7.3 will, however, be particularly useful in evaluating the need for an early revision if received by July 18, 1975.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated.

## NOTICES

22181

commodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

Other Division 7 Regulatory Guides currently being developed include the following:

- Leakage Tests on Packages for Shipment of Radioactive Materials
- Administrative Guide for Obtaining Exemptions from Certain NRC Requirements over Radioactive Material Shipments
- Standard Format for Applications of Part 71 for Packaging of Type B

(5 U.S.C. 552(a))

Dated at Rockville, Md., this 13th day of May 1975.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,  
Acting Director,  
Office of Standards Development.

## OFFICE OF MANAGEMENT AND BUDGET CLEARANCE OF REPORTS List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on May 15, 1975 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202-395-4529), or from the reviewer listed.

### NEW FORMS

#### ACTION

LRV/UYA reference forms, single-time, individuals, Caywood, D.P., 395-3443.

#### DEPARTMENT OF COMMERCE

Bureau of the Census, Bunker Coal or Fuel Oil Laden on Vessels Cleared for Foreign Countries, Monthly, Customs District Headquarters Ports, Caywood, D.P., 395-3443.

#### DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Services Administration, Evaluation of Specialized Training for Dentists Treating Children with Handicaps, BCHS 0430, single-time, periodontists and general dentists, Human Resources Division, Dick Elisinger, 395-3532.

Social Security Administration, Utah Cost Improvement Project; Provider Interview Guides, SSA-3157, SSA-3158, single-time, hospitals, nurses, Caywood, D.P., 395-3443.

Health Resources Administration, New Jersey Dental Association, Dental Manpower Shortage, area study, BHRD 0428, single-time, dentists, Dick Elisinger, Lowry, R.L., 395-4716.

Office of the Secretary, Mail Questionnaire, OS-29-75, single-time, project director at title VII project, Human Resources Division, Reese, B.F., 395-3532.

Site Director Interview Form, OS-27-75, single-time, title VII Site Managers at Nutrition Sites, Human Resources Division, Reese, B.F., 395-3532.

Outreach Worker Interview Form, OS-28-75, single-time, outreach workers at title VII sites, Human Resources Division, Reese, B.F., 395-3532.

Project Director Project Interview Form, OS-26-75, single-time, project directors of title VII nutrition program, Human Resources Division, Reese, B.F., 395-3532.

Elderly Outreach Activities, Nutrition Program: Project Director Site Interview Form, OS-30-75, single-time, Project Directors of Title VII Program, Human Resources Division, Reese, B.F., 395-3532.

#### DEPARTMENT OF LABOR

Bureau of Labor Statistics, Retail Prices—Initiation and Collection of Food, Commodity and Service Prices, BLS 3400, BLS 3400A, BLS 3400B, BLS 3400C, BALS 3401, monthly, retail establishments, Strasser, A., 395-3880.

#### DEPARTMENT OF THE INTERIOR

Geological Survey, Earthquake Report, on occasion, Postmasters, Lowry, R. L., 395-3772.

#### REVISIONS

COMM. ON REVIEW OF NATIONAL POLICY TOWARD GAMBLING

National Gambling Study Proposal, on occasion, national sample of adults, Hall, George, 395-4097.

#### DEPARTMENT OF COMMERCE

Bureau of the Census, Survey of Gallonage Sales of Gasoline, SG-1, SG-2, SG-3, monthly, retail gasoline service stations, Lowry, R. L., 395-3772.

#### DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Resources Administration, Evaluation of the Effectiveness of CHPS Agency Assessments and Technical Assistance Activities, BERD 0410, single-time, staff and associates of 314 (A) and (B) agencies, Human Resources Division, Caywood, D.P., 395-3532.

National Institutes of Health, International Fellowship Application and Instruction Sheets, NIH-FI-1, annually, recent post-doctoral basic medical research scientists, Lowry, R. L., 395-3772.

Virus Cancer Program Serum Bank Inventory Report, NIH-CA-25, on occasion, hospitals and clinics, Caywood, D.P., 395-3443.

#### EXTENSIONS

#### DEPARTMENT OF COMMERCE

Economic Development Administration, Potential Project Report for Field Staff Screening of Business Loan Applicants, ED-233T, on occasion, firms considering new/expanding plants, Caywood, D.P., 395-3443.

PHILLIP D. LARSEN,  
Budget and Management Officer.

# GENERAL SERVICES ADMINISTRATION

[Federal Property Management Regs.;  
Temporary Reg. A-11]

## INCREASE IN MILEAGE ALLOWANCES FOR USE OF PRIVATELY OWNED AUTOMOBILES

### Changes to Federal Travel Regulations

1. *Purpose.* This regulation amends Federal Property Management Regulations 101-7, Federal Travel Regulations, (a) to implement the Travel Expense Amendments Act of 1975 (Pub. L. 94-22, approved May 19, 1975) and (b) to provide for increases in the mileage allowances for use of privately owned automobiles when used in lieu of Government-furnished automobiles.

2. *Effective date.* This regulation is effective for travel performed on or after May 19, 1975.

3. *Expiration date.* This regulation expires May 1, 1976. Prior to expiration, the provisions of this regulation will be incorporated, as appropriate, in the Federal Travel Regulations (FTR), FPMR 101-7.

4. *Applicability.* The provisions of this regulation apply to the official travel of employees of Government agencies as defined in 5 U.S.C. 5701, except employees of the judicial branch.

5. *Background.* a. Pub. L. 94-22, Travel Expense Amendments Act of 1975, hereinafter referred to as the act, authorizes increases in the statutory maximum travel allowances and makes certain other technical and clarifying changes by amending Subchapter 1 of Chapter 57 of Title 5 of the United States Code (5 U.S.C. 5701-5709). It also establishes a new concept of high rate geographical areas to accommodate those areas where unusually high travel costs are incurred. In addition, the act authorizes the Administrator of General Services to provide regulations setting per diem and mileage allowances not to exceed the statutory maximum amounts and to prescribe the conditions of travel and reimbursement.

b. Because of increased costs of operating Government motor vehicles, mileage rates for use of a privately owned vehicle when such use is in lieu of a Government-furnished vehicle are increased.

c. In consonance with the provisions of this regulation, and to achieve maximum uniformity, the General Services Administration (GSA) proposes to publish additional criteria for the computation of per diem rates for official travel including circumstances which require reduced per diem and/or where the lodgings-plus method may not be appropriate. This action will be reflected in a proposed revision to the FTR after a thorough review has been made of the various travel circumstances and agency comments and recommendations.

6. *Explanation of changes.* Provisions stated in attachment A to this regulation amend the FTR for the reasons given below. It should be noted that cer-

tain existing FTR paragraphs have been incorporated for clarity and continuity purposes and to facilitate use of this regulation. The following changes are made in the FTR which are incorporated by reference into 41 CFR Part 101-7 and transmitted by GSA Bulletin FPMR A-40:

a. Paragraph 1-1.2 is revised to clarify the applicability of Chapter 1 of the FTR to include certain experts and consultants and individuals serving without pay or at \$1 a year who were covered under 5 U.S.C. 5703 prior to amendment by the act. These individuals are now considered to be employees for purposes of the administration of travel allowances under Chapter 1. It also specifically excludes employees of the judicial branch of the Government.

b. Paragraph 1-1.3c is amended to add new definitions and to incorporate modified definitions previously in FPMR Temporary Regulation A-9.

c. Paragraph 1-2.2 is revised to incorporate modified provisions of FPMR Temporary Regulation A-9 to clarify the methods and priorities of transportation to be used for official travel.

d. Paragraph 1-4.1c is revised to authorize reimbursement for the cost of airplane parking, landing, and tiedown fees in addition to the mileage allowance.

e. Paragraph 1-4.2 is amended to increase mileage allowances for use of privately owned conveyances when such use is advantageous to the Government.

f. Paragraph 1-4.4 is amended to increase the mileage allowances for use of a privately owned automobile when such use is in lieu of a Government-furnished automobile.

g. Paragraph 1-7.1a is revised for clarification because of the new high rate geographical area provisions in Part 8.

h. Paragraph 1-7.2 is amended to increase the maximum per diem allowance for official travel within the conterminous United States to \$33.

i. Paragraph 1-7.3c is revised to establish a uniform set rate of \$14 for meals and miscellaneous subsistence expenses and to clarify the method to be used in computing the average cost of lodgings.

j. Paragraphs 1-8.1, 1-8.2, and 1-8.3 are revised to increase the maximum allowance for actual subsistence expense travel, to provide for the newly authorized high rate geographical area method, and to include more detailed and uniform guidance for the authorization and reimbursement of actual subsistence expense travel.

k. Paragraph 1-8.6 is added to designate those cities or areas that have been determined to be high rate geographical areas and to prescribe the maximum allowable rate of reimbursement.

l. Paragraph 2-2.3 is amended to increase the maximum allowable mileage rates for use of a privately owned automobile during permanent change of station travel.

m. The table of contents is amended to add the captions of the new paragraphs provided herein through appropriate annotations.

n. The table of contents is amended to add the captions of the new paragraphs provided herein through appropriate annotations.

7. *Assistance.* Agencies may obtain additional information and assistance concerning the provisions of this regulation by contacting the General Services Administration (FZR), Washington, D.C. 20406, telephone: (703) 557-9030.

8. *Effect on other issuances.* FPMR Temporary Regulation A-9 dated February 6, 1974, and Supplement 2 thereto dated January 24, 1975, are canceled. The applicable provisions of the canceled regulation are modified and incorporated herein.

9. *Agency comments.* Comments and recommendations concerning the provisions of this regulation are requested and should be submitted to the General Services Administration (FZ), Washington, D.C. 20406, within 60 calendar days of the effective date of this regulation for possible incorporation into the permanent regulation. Comments are also desired concerning the proposal to prescribe guidance and rates applicable to all agencies for computation of per diem and for travel circumstances that require reduced per diem rates as described in subparagraph 5c. Comments should include descriptions of travel circumstances requiring reduced per diem (especially those situations unique to the agency commenting) and recommendations for specific rates, if appropriate.

ARTHUR P. SAMPSON,  
Administrator of  
General Services.

MAY 19, 1975.

### CHANGES TO FEDERAL TRAVEL REGULATIONS, FPMR 101-7

1. Paragraph 1-1.2 is revised to read as follows:

1-1.2. *Applicability.*

(a) The provisions of this chapter apply to official travel of civilian employees of Government agencies, including civilian employees of the Department of Defense, as authorized under 5 U.S.C. 5701-5709, but excluding employees of the judicial branch of the Government.

(b) The provisions of this chapter also apply to official travel of individuals employed intermittently in the Government service as consultants or experts and paid on a daily when-actually-employed (WAE) basis and of individuals serving without pay or at \$1 a year. These individuals are not considered to have a "permanent duty station" within the general meaning of that term; however, they may be allowed travel or transportation expenses under this chapter while traveling on official business for the Government away from their homes or regular places of business and while at places of Government employment or service. Maximum rates prescribed herein are applicable unless a higher rate is specifically authorized in an appropriation or other statute.

2. Paragraph 1-1.3c is amended by adding new subparagraphs as follows:

1-1.3. *General rules.*

c. *Definitions.*

(3) *Government-furnished automobile.*

The term Government-furnished automobile includes an automobile which is (a) owned by an agency, (b) assigned or dispatched to an agency on a rental basis from a GSA interagency motor pool, or (c) leased by the Government for a period of 30 days or longer from a commercial firm.

(4) *Government-contract rental automobile.* A Government contract rental automobile is an automobile obtained from a commercial firm under the provisions of an appropriate General Services Administration (GSA) Federal Supply Schedule contract.

(5) *Special conveyance.* Special conveyance is any method of transportation other than common carrier, Government-furnished or privately owned, which requires specific authorization or approval for the use thereof. Such transportation generally includes conveyances obtained through commercial rental means for less than 30 days.

(6) *Employee.* As used in this chapter, employee means an individual employed in or under an agency, including an individual employed intermittently in the Government service as an expert or consultant and paid on a daily when-actually-employed (WAE) basis and an individual serving without pay or at \$1 a year.

(7) *Government.* Government means the Government of the United States and the government of the District of Columbia.

(8) *Agency.* Agency means an executive agency; a military department; an office, agency, or other establishment in the legislative branch; and the government of the District of Columbia but does not include a Government-controlled corporation; a member of Congress; or an office or committee of either House of Congress or of the two Houses.

3. Paragraph 1-2.2 is revised as follows:

1-2.2. *Methods of transportation.*

a. *Authorized methods.* Methods of transportation authorized for official travel include railroads, airlines, helicopter service, ships, buses, streetcars, subways, taxicabs; Government-furnished and contract rental automobiles and airplanes; privately owned and rented automobiles and airplanes; and any other necessary means of conveyance.

b. *Selecting method of transportation to be used.* Travel on official business shall be by the method of transportation which will result in the greatest advantage to the Government, cost and other factors considered. In selecting a particular method of transportation to be used, consideration shall be given to energy conservation and to the total cost to the Government, including costs of per diem, overtime, lost work time, and actual transportation costs. Additional factors to be considered are the total distance of travel, the number of points visited, and the number of travelers. 5 U.S.C. 5733 requires that, "The travel of an employee shall be by the most expeditious means of transportation practicable and shall be commensurate with

the nature and purpose of the duties of the employee requiring such travel."

c. *Presumptions as to most advantageous method of transportation.* (1) *Common carrier.* Since travel by common carrier (air, rail, or bus) will generally result in the most efficient use of energy resources and in the least costly and most expeditious performance of travel, this method shall be used whenever it is reasonably available. Other methods of transportation may be authorized as advantageous only when the use of common carrier transportation would seriously interfere with the performance of official business or impose an undue hardship upon the traveler, or when the total cost by common carrier would exceed the cost by some other method of transportation. The determination that another method of transportation would be more advantageous to the Government than common carrier transportation shall not be made on the basis of personal preference or minor inconvenience to the traveler resulting from common carrier scheduling.

(2) *Government-furnished automobiles.* When it is determined that common carrier transportation is not advantageous to the Government and that an automobile is required for official travel, a Government-furnished automobile shall be used whenever it is reasonably available.

(3) *Privately owned conveyance.* Except as provided in 1-2.2d, the use of a privately owned conveyance shall be authorized only when such use is advantageous to the Government. A determination that the use of a privately owned conveyance would be advantageous to the Government shall be preceded by a determination that common carrier transportation or Government-furnished vehicle transportation is not available or would not be advantageous to the Government. To the maximum extent possible, these determinations and the authorization to use a privately owned conveyance shall be made before the performance of travel.

(4) *Special conveyance.* Commercially rented vehicles and other special conveyances shall be used only when it is determined that use of other methods of transportation discussed in 1-2.2c would not be more advantageous to the Government. In the selection of commercially rented vehicles, first consideration shall be given to Government-contract rental vehicles available under an appropriate GSA Federal Supply Schedule contract.

d. *Permissive use of a privately owned conveyance.* When an employee uses a privately owned conveyance as a matter of personal preference and such use is compatible with the performance of official business, although not determined to be advantageous to the Government under 1-2.2c(3), such use may be authorized or approved: *Provided,* That reimbursement is limited in accordance with the provisions of 1-4.

4. Paragraph 1-4.1c is revised as follows:

1-4.1. *Basic rules.*

c. *Other allowable costs.* Reimbursement for parking fees; ferry fees; bridge, road, and tunnel costs; and airplane parking, landing, and tiedown fees shall be allowed in addition to the mileage allowance unless the travel orders or other administrative determinations restrict such allowance.

5. Paragraph 1-4.2 is amended as follows:

1-4.2. *When use of a privately owned conveyance is advantageous to the Government.*

a. *Mileage rate determinations.* When it is determined that use of a privately owned conveyance by the traveler is advantageous to the Government as provided in 1-2.2c(3), the reimbursement mileage rates shall be as follows:

(1) 8 cents per mile for use of a privately owned motorcycle.

(2) 15 cents per mile for use of a privately owned automobile.

(3) 22 cents per mile for use of a privately owned airplane.

c. *To and from common carrier terminals and office.* (1) *Round trip when in lieu of taxicab to carrier terminals.* In lieu of the use of a taxicab under 1-2.3c, payment on a mileage basis at the rate of 15 cents per mile and other allowable costs as set forth in 1-4.1c shall be allowed for the round-trip mileage of a privately owned automobile used by an employee going from either his home or place of business to a terminal or from a terminal to either his home or place of business. However, the amount of reimbursement for the round trip shall not in either instance exceed the taxicab fare, including tip, allowable under 1-2.3c for a one-way trip between the applicable points.

(2) *Round trip when in lieu of taxicab between residence and office on day of travel.* In lieu of the use of taxicab under 1-2.3d, payment on a mileage basis at the rate of 15 cents per mile and other allowable costs as set forth in 1-4.1c shall be allowed for round-trip mileage of a privately owned automobile used by an employee going from his residence to his place of business or returning from place of business to residence on a day travel is performed. However, the amount of reimbursement for the round trip shall not exceed the taxicab fare, including tip, allowable under 1-2.3d for a one-way trip between the points involved.

6. Paragraph 1-4.4 is amended as follows:

1-4.4. *When use of a privately owned conveyance is in lieu of a Government-furnished automobile.*

b. *Reimbursement based on Government costs.* Based upon average rental rates which agencies pay for GSA motor pool automobiles and the administrative

cost to the user agency. It has been determined that the average mileage cost for use of a Government-furnished automobile for travel in the conterminous United States is 11 cents. Therefore, the mileage rate for authorized use of a privately owned conveyance when use of a Government-furnished automobile would be most advantageous to the Government shall be 11 cents. Exceptions to the above limitation may be authorized if an agency determines that, because of unusual circumstances, the cost of providing a Government-furnished automobile would be higher than 11 cents. In such instances the agency may allow reimbursement at such higher rate within the statutory maximum that will most nearly equal the cost of providing a Government-furnished automobile in those circumstances. In addition to mileage for the distance allowed under 1-4.1b, the employee may be reimbursed for expenses authorized under 1-4.1c which would have been incurred if a Government-furnished vehicle had been used.

c. *Partial reimbursement when Government automobile is available.* When an employee who is committed to using a Government-furnished automobile, or who because of the availability of Government-furnished automobiles, would not ordinarily be authorized to use a privately owned conveyance in lieu of a Government-furnished automobile nevertheless requests use of a privately owned conveyance, reimbursement may be authorized or approved. The rate of reimbursement shall be 6 cents per mile, which is the approximate cost of operating a Government-furnished automobile, fixed costs excluded.

d. *Reimbursement claims.* When claiming mileage at the 11 cent rate, the employee shall state on his voucher that he had not made a commitment to use a Government-furnished automobile and that reimbursement for use of a privately owned automobile was not limited under 1-4.4c.

7. Paragraph 1-7.1a is revised as follows:

1-7.1. *Coverage.*  
a. *Travel for which per diem shall be paid.* Per diem allowances under 1-7 shall be paid for official travel except when it is determined that reimbursement should be on the basis of actual subsistence expenses as provided in 1-8.

8. Paragraph 1-7.2 is amended as follows:

1-7.2. *Maximum locality rates.* A per diem allowance in lieu of actual subsistence expenses for travel on official business shall be authorized or approved with the following maximum rates:

a. *Conterminous United States.* Reimbursement for official travel within the limits of the conterminous United States shall be a daily rate not in excess of \$33 except when actual subsistence expenses travel is authorized or approved due to the unusual circumstances of the travel assignment or for travel to a designated

high rate geographical area as provided in 1-8.1.

10. Paragraphs 1-8.1 thru 1-8.3 are revised as follows:

1-8.1. *Authorization or approval.*  
a. *General.* Authority for reimbursement of actual and necessary subsistence expenses incurred during official travel is normally contingent upon the entitlement to per diem (see 1-7) and the determination that the authorized maximum per diem allowance would be inadequate to cover the actual and necessary expenses of the traveler. A traveler may be reimbursed for the actual and necessary expenses of the official travel when the maximum per diem allowance otherwise allowable is determined to be inadequate due to the unusual circumstances of the travel assignment, or for travel to high rate geographical areas. Heads of those agencies defined in 5 U.S.C. 5701, or their designees (see 1-8.3), shall authorize or approve reimbursement for the actual and necessary subsistence expenses of a traveler incurred during official travel in accordance with the provisions of this part.

b. *Travel to high rate geographical areas.* Actual subsistence expense reimbursement shall be authorized or approved whenever temporary duty travel is performed to or in a location designated as a high rate geographical area in 1-8.6, except when the high rate geographical area is only an intermediate stopover point at which no official duty is performed.

c. *Unusual circumstances of the travel assignment.* Actual subsistence expense reimbursement may be authorized or approved for specific travel assignments within and outside the conterminous United States when it is determined that maximum per diem allowance (see 1-7.2) would be inadequate due to the unusual circumstances of the travel assignment.

(1) The actual subsistence expense basis of reimbursement shall not be authorized or approved in instances in which the actual and necessary subsistence expenses exceed the maximum per diem allowable only by a small amount. The actual subsistence expense basis may appropriately be authorized or approved for travel assignments which otherwise meet conditions prescribed herein and by the head of the agency if, due to unusual circumstances:

(a) The actual and necessary subsistence expenses exceed the maximum per diem allowance (see 1-7.2) by 10 percent or more; or

(b) The traveler has no alternative but to incur hotel costs which absorb all or nearly all of the maximum per diem allowance (see 1-7.2), since hotel accommodations constitute the major portion of necessary subsistence expenses.

(2) Notwithstanding the criteria outlined above, actual subsistence expense reimbursement shall not be authorized or approved solely on the basis of inflated lodging and/or meal costs since

inflated costs are common to all travelers; some unusual circumstances of the travel assignment must be involved to cause the lodging and/or meal costs to be higher than those which normally would be incurred at a particular location (42 Comp. Gen. 440).

(3) Travel which involves unusual circumstances may include, but is not limited to, the following situations:

(a) The traveler attends a meeting, conference, or training session away from his official duty station where lodging and/or meals must be procured at a prearranged place (such as the hotel where the meeting, conference, or training session is being held) and the lodging costs, incurred because of such prearranged accommodations, absorb all or practically all of the maximum per diem allowance.

(b) The traveler, by reason of the assignment, necessarily incurs unusually high expenses in the conduct of official business such as for superior or extraordinary accommodations including a suite or other quarters for which the charge is well above that which he would normally have to pay for accommodations.

(c) The traveler necessarily incurs unusually high expenses incident to his assignment to accompany another traveler in a situation as described above.

d. *Maximum to be stated in travel authorization.* The amount per calendar day authorized by the agency or as prescribed herein for high rate geographical areas shall be stated in the travel authorization for a specific travel assignment.

e. *Conditions warranting approval.* If travel is performed without prior authorization or is authorized on a per diem basis and otherwise conforms to the provisions of this part, the actual and necessary subsistence expenses incurred may be approved within the authorized maximum rates as stated herein.

1-8.2. *Authorized reimbursement.*

a. *Maximum daily reimbursement.* When the actual subsistence expenses incurred during any one day are less than the daily rate authorized, the traveler will be reimbursed only for the lesser amount. The daily rate shall not be prorated for fractions of a day; however, expenses incurred and claimed for a fraction of a day shall be reviewed and allowed only to the extent determined to be reasonable by the agency concerned. The maximum amount of reimbursement for actual subsistence expense travel which may be authorized or approved for each calendar day or fraction thereof, is limited as follows:

(1) For travel within the conterminous United States to designated high rate geographical areas, under the provisions of 1-8.1b, the maximum authorized rates have been set administratively as provided in 1-8.6. These are uniform maximum actual subsistence expense rates and are not subject to change by the agencies concerned. However, this does not preclude agency determination of other appropriate and necessary rates

under 1-8.2a(2) if the travel to a high rate geographical area also involves unusual circumstances of the travel assignment.

(2) For travel within the conterminous United States involving unusual circumstances, the statutory maximum daily rate is \$50. Agencies shall determine appropriate and necessary daily maximum rates not to exceed this amount.

(3) For travel outside the conterminous United States involving unusual circumstances, the statutory maximum daily rate is \$21 per day plus the maximum per diem allowance official established for the overseas locality in which the travel is performed (see 1-7.2). Agencies shall determine appropriate and necessary daily maximum rates not to exceed this limitation.

b. *Allowable expenses.* Actual subsistence expense reimbursement shall be allowed for the same type of expenses normally covered by the per diem allowance under the provisions of 1-7.1b.

c. *Special rules for mixed travel (per diem and actual subsistence expense).* Travel may be authorized or approved on both a per diem basis and an actual subsistence expense basis during a single trip when travel is performed in several locations including high rate geographical areas; however, only one method of reimbursement (per diem or actual subsistence expense) shall be authorized within the same day.

(1) *Rate and method of reimbursement determined by location.* In instances of mixed travel involving both per diem and actual subsistence expense, or several high rate geographical areas, the method of reimbursement and authorized rate for a calendar day (beginning at 12:01 a.m.) shall be determined by the location where the lodgings are obtained for that day. For example, when a traveler performs travel in a per diem area for part of a day and completes that day's travel in a high rate geographical area where he performs official duty and obtains lodging, the traveler shall be reimbursed under the

actual subsistence expense method for the entire day not to exceed the maximum rate prescribed for the high rate geographical area where the lodgings were obtained.

(2) *Reimbursement for day of return.* The method of reimbursement for the day of return to home or official station (where lodgings are not involved) shall be the same method of reimbursement authorized for the first day of travel. For example, if a traveler is authorized actual subsistence expense reimbursement for the first day of travel, reimbursement for the day of return to home or official station shall also be on an actual subsistence expense basis; if per diem is authorized for the first day of travel, per diem shall also be authorized for the day of return to home or official station.

(3) *Reimbursement computation.* A traveler's claim for reimbursement may include several different rates depending upon the location(s) in which travel is performed. See figure 1-8.2c for examples showing computation of mixed travel reimbursement.

1-8.3 *Agency responsibilities, review, and administrative controls.*

a. *Delegation of authority.* Heads of agencies may delegate, with provisions for limited redelegation, authority to authorize or approve travel on an actual subsistence expense basis.

(1) The delegation or redelegation of authority to authorize or approve travel on an actual subsistence expense basis due to unusual circumstances of the travel assignment shall be held to as high an administrative level as practicable to ensure adequate consideration and review of the circumstances surrounding the need for travel on the actual subsistence expense basis.

(2) Since travel to designated high rate geographical areas is automatically on an actual subsistence expense basis, the delegation or redelegation of authority to authorize or approve this type of travel should be at a lower administrative level than that stated in (1), above.

b. *Review and administrative controls.* Heads of agencies shall establish necessary administrative arrangements for an appropriate review of the justification for travel on the actual subsistence expense basis and of the expenses claimed by a traveler to determine whether they are allowable subsistence expenses and were necessarily incurred in connection with the specific travel assignment. Agencies shall ensure that travel on an actual subsistence expense basis is properly administered and shall take necessary action to prevent abuses.

11. Paragraph 1-8.6 is added as follows:

1-8.6. *Designated high rate geographical areas.* Pursuant to the provisions of 1-8.1b and 1-8.2a(1), for temporary duty travel to or within the cities designated as high rate geographical areas below, a traveler automatically shall be placed in an actual subsistence expense status and shall be reimbursed for the actual and necessary subsistence expenses incurred not to exceed the maximum rate prescribed for the particular geographical area involved.

Designated High Rate Geographical Areas	Prescribed maximum daily rates
Boston, Mass. (all locations within the corporate limits of Boston and Cambridge, Massachusetts).....	\$38
Chicago, Ill. (all locations within the corporate limits thereof).....	39

**INTERSTATE COMMERCE COMMISSION**

[Ex Parte No. 293 (Sub-No. 4)]

**ACQUISITION OF RAIL PROPERTIES BY PROFITABLE CARRIERS**

Consideration by the Commission Under the Interstate Commerce Act and the Regional Rail Reorganization Act of 1973 of Acquisition of rail lines by profitable carriers; Request for necessary and appropriate information concerning acquisitions proposed by the United States Railway Association in its Supplement to the Preliminary System Plan relating to the Erie Lackawanna Railway Company.

On May 8, 1975, the United States Railway Association issued a supplement to its Preliminary System Plan, which supplement was published in the FEDERAL REGISTER on May 15, 1975 (40 FR 21401). This report examines the economic viability of light density lines of the Erie Lackawanna Railway Company and, as is pertinent hereto, contains 18 acquisition proposals which generally entail the acquisition by profitable carriers of rail lines of the Erie Lackawanna. These acquisition proposals supplement those contained in Appendix D to the Association's Preliminary System Plan, dated February 28, 1975.

The Commission presently has under consideration, in the above-referenced proceeding, various acquisitions proposed by the Association in its Preliminary System Plan and its Errata to the Plan. This consideration is pursuant to section 206 (d) (3) of the Regional Rail Reorganization Act of 1973, which section requires the Commission to make a determination that each proposed acquisition of rail properties by profitable railroads operating in the region "will be in full accord and comply with the provisions

and standards of section 5 of Part I of the Interstate Commerce Act." In order to formulate these determinations, the Commission requested all interested parties to submit information and specified data, by notices in the FEDERAL REGISTER on February 25, 1975, at pages 8152 through 8153 and on April 21, 1975, at page 17674.

The publication by the Association of the Erie-Lackawanna Supplement to its preliminary system plan, necessitates the further solicitation by the Commission of the public comment and data with respect to those line segments and major market extension projects, subject to acquisition by profitable carriers contained in this supplement. To assure an adequate data base for thorough consideration of each of the newly proposed acquisitions, information with respect to and comments on each proposal are requested from all interested persons included but not limited to the United States Railway Association, railroads involved in or affected by proposed acquisitions, Amtrak, concerned state, regional and local reorganizations, shippers served by the rail properties involved, and the Commission's Rail Services Planning Office.

The newly listed acquisition proposals, contained in the supplement to the Preliminary System Plan, for which the Commission seeks comments are as follows: (1) in Appendix D-2, line numbers: 1262, 1261, 1207, 1239, 1240, 1246, 1247, 1253, 1260, 1263, 1266, 1222, 1224, 1252, 1254; and, (2) in Appendix D-3, Part II projects: USRA-6, USRA-7, and USRA-8. The full description of these acquisition proposals is contained in the Association's report of May 8, 1975, as published in the FEDERAL REGISTER on May 15, 1975 (40 FR 21401).

In submitting comments and data to the Commission, it is requested that interested persons supply such information and views in conformity with the guidelines and specific data requested by the Commission in its above-mentioned notice in the FEDERAL REGISTER of February 25, 1975, at pages 8152 through 8153. An original and 8 copies of all such materials should be filed with the Secretary of the Commission on or before June 6, 1975. Kindly note on all envelopes in which materials are filed, the docket number of this proceeding, Ex Parte No. 293 (Sub-No. 4). It is also requested that separate statements be filed for each individual proposed acquisition, in which parties are interested, and that specific reference be made to each acquisition by USRA project number on the front of all statements.

Notice of intent of the Interstate Commerce Commission to consider the acquisition of rail properties by profitable carriers contained in the supplement to the Preliminary System Plan of the United States Railway Association and to request information from interested parties with regard thereto shall be given to: The United States Railway Association, the Rail Services Planning Office, Amtrak, all Class I and Class II railroads operating in the region and the Gover-

nors, Public Utility Commissions and the Departments of Transportation of all states located within the region.

Issued in Washington, D.C., on the 16th day of May 1975.

By the Commission, Commissioner Tuggle.

[SEAL] JOSEPH M. HARRINGTON,  
Acting Secretary.

[FR Doc. 75-13532 Filed 5-20-75; 8:45 am]

[No. MC-99161 (Sub-No. 5)]

**ALABAMA FREIGHT, INC., EXTENSION, BIRMINGHAM AND MOBILE, ALA.**

**Application for Amended Certificate of Public Convenience and Necessity**

At a session of the Interstate Commerce Commission, Review Board Number 1, held at its office in Washington, D.C., on the 7th day of May 1975.

It appearing, that by application filed October 5, 1973, Alabama Freight, Inc., of Birmingham, Ala., seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, (1) of plastic pipe, and articles made of brass, bronze, iron, copper, or steel, between the plant site and warehouse facilities of O'Neal Steel, Inc., located at Birmingham, Ala., on the one hand, and, on the other points in Georgia, Tennessee, Florida, and Mississippi; and (2) iron and steel articles and aluminum articles from the plant site and storage facilities of O'Neal Steel, Inc., located at Mobile, Ala., to points in Georgia, Tennessee, Florida, and Mississippi;

It further appearing, that the application has been processed under the Commission's modified procedure; that applicant has filed verified statements in support of the application; that protestants Howard Hall Company, Deaton, Inc., Poole Truck Line, Inc., Colonial Fast Freight Lines, Inc., Melton Trucking Lines, Bowman Transportation, Inc., and Osborne Truck Line, Inc., individually, and Georgia-Florida-Alabama Transportation Company (GFA), and Bay Transportation Co., Inc., jointly, motor common carriers, have filed verified statements in opposition to the application; and that the supporting shipper filed a verified statement in rebuttal;

It further appearing, that applicant in its verified statement asks leave to amend its application so as to seek authority to transport plastic pipe and articles made of iron, brass, bronze, copper, steel, or aluminum to or from both origins; that although the proposed amendment will broaden the scope of the original application, we believe applicant has shown sufficient and proper reasons for allowing the relief sought, and applicant will be permitted to amend its application in the manner requested; and good cause appearing therefor:

It is ordered, That applicant, be, and it is hereby, permitted to amend its application in the manner described in the next preceding paragraph.

## NOTICES

It further appearing, that applicant holds authority from this Commission to transport specified commodities from a named plant site at Birmingham to named points in North Carolina, but is primarily a carrier of Alabama intrastate traffic; that it operates 54 power units and 105 flat-bed trailers including 4 which can be extended up to 60 feet and maintains terminals at Birmingham and Mobile; that applicant offers expedited service, timed deliveries and scheduled pickups, split deliveries involving an unlimited number of stopoffs, and deliveries to jobsites and remote areas; and that applicant has submitted appropriate financial data;

It further appearing, that O'Neal Steel Co., Inc., the supporting shipper herein, is engaged in business as a metals service center; that shipper stocks approximately 8,000 articles fashioned from a wide variety of metals which it purchases from suppliers such as steel mills and metal fabricators; that its customers include auto body shops, machine shops, furniture manufacturers, and building and construction companies which can be located at virtually any point in the territory sought; that the commodities shipped vary in size and weight from less than 1 inch in length and a few ounces in weight, to articles measuring 60 feet long and weighing several thousand pounds; that as its customers maintain small inventories and many require timed deliveries, the ability to perform expedited movements is essential to shipper's operations; that from its Birmingham facility it ships annually approximately 5,000 truckloads outbound and receives an unspecified number of inbound shipments; that shipper's Mobile plant commenced operations in April 1973, and shipper expects that this plant will have transportation requirements identical to those of its other plants; that shipper's service requirements include spotting equipment for loading, flat-bed equipment including units which can be extended to accommodate over-length loads, and split deliveries of LTL shipments (which comprise a majority of the traffic involved) timed to coincide with customer production schedules; that shipper states that it uses common carrier service to the extent that it can, but finds such services inadequate, the general commodity carriers because of their limited regular-route operations, restrictions against transporting so-called "size and weight" commodities, and provisions in their tariffs limiting the number of split deliveries offered, and carriers of specified commodities because of their inability to transport a complete line of its products; that the bulk of shipper's traffic is currently handled by O'Neal's large fleet of private equipment which shipper would prefer to reduce; and that at the outset of the proposed operation, shipper would tender applicant approximately two to four shipments a week, a number which shipper expects should increase as it becomes more dependent upon applicant's service;

It further appearing, that generally protestants operate suitable flatbed

equipment, maintain terminals in the Birmingham or Mobile area, and would perform up to four stopoffs per shipment; that certain protestants indicate current traffic that would be subject to diversion by a grant of authority herein and urge that any grant be restricted to protect their interests; and that specific information concerning protestants' authority to perform the proposed operations and traffic transported for the supporting shipper is set forth in the appendix attached hereto;

It further appearing, that in rebuttal the supporting shipper restates its need for a carrier able to handle a full line of its products, its desire to reduce its private carrier operation, and the inability of existing carriers to provide the service required;

It further appearing, that because shipper's outbound traffic may be delivered to any combination of points throughout the sought four-State destination territory, and so that it may combine numerous less-than-truckload orders for delivery at intermediate stops en route to final destination, it is imperative that O'Neal have available a carrier which can serve all the points sought and provide a multiple delivery service; that none of the protestants holds sufficient territorial and commodity authority to perform the complete service required; that inasmuch as applicant's proposed service will have the effect of reducing shipper's private carriage operations, rather than diverting traffic enjoyed by several of the protestants, protestants have not specifically shown that their operations will be affected adversely by our grant of authority set forth below; and that in any event the need of the supporting shipper for the services of a carrier able to transport the involved commodities expeditiously to all existing and potential customer locations takes precedence over the limited interests of the opposing carriers, and we are convinced that the benefits accruing to shipper far outweigh the adverse effects, if any, on protestants which might arise by virtue of our grant;

It further appearing, that inasmuch as certain protestants have submitted data indicating that portions of their present traffic could be subject to diversion unless a grant of authority herein is restricted to the transportation of shipments originating at or destined to the named shipper's facilities, and because we are of the view that such a restriction in the circumstances of this proceeding is warranted and in the public interest, we shall impose it in our findings below; and that this restriction will protect the interests of protestants without affecting applicant's ability to perform the proposed service;

It further appearing, that since it is possible that other parties who have relied upon the notice in the FEDERAL REGISTER of the application as originally published may have an interest in and would be prejudiced by the lack of proper notice of the grant of authority in our findings herein; a notice of the authority actually granted will be published in the

FEDERAL REGISTER and issuance of the certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in the proceeding setting forth in detail the precise manner in which it has been prejudiced;

And it further appearing, that the evidence establishes that applicant is experienced and has the requisite equipment to perform the type of service proposed, and is fit and able, financially and otherwise, to conduct the proposed service; and that the evidence amply warrants the grant of authority set forth below;

Wherefore, and good cause appearing therefor:

We find, that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of plastic pipe, and articles made of brass, bronze, iron, copper, steel, or aluminum, (1) between the facilities of O'Neal Steel, Inc., located at Birmingham, Ala., on the one hand, and, on the other, points in Georgia, Tennessee, Florida, and Mississippi; and (2) from the facilities of O'Neal Steel, Inc., located at Mobile, Ala., to points in Georgia, Tennessee, Florida, and Mississippi, restricted to the transportation of traffic originating at or destined to the facilities of O'Neal Steel, Inc., at Birmingham or Mobile, Ala.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; that this decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969; that an appropriate certificate should be granted; and that the application in all other respects should be denied.

It is further ordered, That said application, except to the extent granted herein, be, and it is hereby, denied.

It is further ordered, That upon compliance by applicant with the requirements of sections 215, 217, and 221(c) of the Interstate Commerce Act and with the Commission's rules and regulations thereunder, within the time specified in the next succeeding paragraph, a certificate be issued to applicant authorizing operation, as a common carrier by motor vehicle, in the manner described above, subject to prior publication in the FEDERAL REGISTER of a notice of the authority actually granted in this order.

And it is further ordered, That unless compliance is made by applicant with the requirements of sections 215, 217, and 221(c) of the Act within 90 days after the date of service of this order, or within such additional time as may be authorized by the Commission, the grant of authority made herein shall be considered as null and void, and the application shall stand denied in its entirety effective upon the expiration of the said compliance time.

By the Commission, Review Board  
Number 1.

[SEAL] JOSEPH M. HARRINGTON,  
Acting Secretary.

## APPENDIX

## PROTESTANTS' PERTINENT AUTHORITY AND EVIDENCE

1. Howard Hall holds authority to transport general commodities, except those requiring special equipment, between Birmingham, on the one hand, and, on the other, points in Georgia on and south of U.S. Highway 90, and points in Florida. Protestant has handled an unspecified amount of traffic for the supporting shipper.

2. Deaton holds authority to transport iron and steel and iron and steel articles, castings, and forgings, from Birmingham to points in Georgia, Tennessee, Florida, and Mississippi. Protestant can also transport general commodities, except those requiring special equipment, over regular routes, between Birmingham and points in Mississippi, and pipe from Birmingham to points in Tennessee, Florida, and Georgia, by tacking regular and irregular-route authority at Anniston, Ala. During 1973 Deaton handled 995.5 tons of the involved commodities for the supporting shipper from Birmingham.

3. Poole holds authority to transport (1) iron and steel articles from Mobile to points in Florida, Georgia, Mississippi, and Tennessee, and (2) building materials from Mobile to specified portions of the States sought. Protestant has transported nearly 3 million pounds of iron and steel commodities from Mobile docks to two points in Alabama and one each in Mississippi and Florida.

4. Colonial Fast Freight holds authority to transport iron and steel mill products and so-called "size and weight" commodities outbound from Birmingham to the entire destination territory sought, and iron and steel articles from Mobile to points in Georgia, Florida, and Mississippi. Colonial has also filed data pursuant to the Commission's Gateway Elimination Rules, which if approved would allow it to transport aluminum articles, the transportation of which because of their size or weight require the use of special equipment, from Birmingham to all points in the sought destination territory. During 1973 and January 1974 Protestant transported a total of 136 shipments within the scope of this proceeding earning \$46,607 therefrom.

5. Bowman holds direct authority to transport general commodities, except those requiring special equipment, over a network of regular routes between points in Alabama within 65 miles of Birmingham, on the one hand, and, on the other, points in Tennessee, Georgia, and Florida by observing one of five north Georgia gateways. Bowman has not transported traffic for the supporting shipper.

6. As pertinent, Osborne holds authority to transport (1) iron and steel products and "size and weight" commodities, between Birmingham and points in the destination States, and (2) pipe, iron and steel, and iron and steel articles from Birmingham to points in Florida. Protestant states that it handles some traffic for shipper inbound to Birmingham but does not provide any specific information with respect to commodities transported, tonnage, or revenue.

7. GFA holds authority to transport general commodities, except those requiring special equipment, over a network of regular routes between (1) Atlanta, Ga., and Mobile, Ala., (2) Birmingham and Mobile, (3) Birmingham and Pensacola, Fla., (4) Birmingham and Dothan, Ala., and (5) Pensacola

## FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

May 16, 1975.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a) (6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by § 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commerce hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

California Docket No. 55675, filed May 7, 1975. Applicant: HAWAIIAN CONTAINER CORPORATION, a Corporation, 5915 Hollis Street, Emeryville, Calif. 94608. Applicant's representative: John Paul Fischer, 140 Montgomery St., San Francisco, Calif. 94104. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: General Commodities between points and places in the San Francisco Territory as follows: San Francisco territory includes all the City of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County Line meets the Pacific Ocean; thence easterly along said County Line to a point one mile west of State Highway 82; southerly along an imaginary line one mile west of and paralleling State Highway 82 to its intersection with Southern Pacific Company right-of-way at Arastradero Road; southeasterly along the Southern Pacific Company right-of-way to Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately two miles southwest from Simla to Permanente; easterly along Pollard Road to W. Parr Avenue; easterly along W. Parr Avenue to Capri Drive; southerly along Capri Drive to Division Street; easterly along Division Street to the Southern Pacific Company right-of-way; southerly along the Southern Pacific right-of-way to the Campbell-Los Gatos City Limits; easterly along said limits and the prolongation thereof to South Bascom Avenue (formerly San Jose-Los Gatos Road); northeasterly along South Bascom Avenue to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to State Highway 82; northwesterly along State Highway 82 to Tully Road; northeasterly along Tully Road and the prolongation thereof to White Road; northwesterly along White Road to

and Hattiesburg, Jackson, and Meridian, Miss., serving all intermediate points in Alabama, Florida, and Mississippi. Bay operates over a regular route between Columbus, Ga., and Panama City, Fla., serving all intermediate points in the transportation of general commodities.

8. Melton holds no authority conflicting with that sought herein. Melton does hold plastic pipe authority from Slacomb, Ala., to points in the four surrounding States, and from Columbia, Miss., to points in the United States (except Alaska and Hawaii). Protestant fears diversion of its present traffic by applicant's tacking any authority granted herein with already existing authority and argues that an appropriate plant site restriction should be imposed.

[Notice 771]

## ASSIGNMENT OF HEARINGS

May 16, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

No. 36064, Jiffy Enterprises, Inc. v. Modern Transfer Co., Inc., now being assigned July 15, 1975, at the offices of the Interstate Commerce Commission, Washington, D.C.

I&SM-28528, Increased Rates on Small Shipments, May 1975, Rocky Mountain Territory, now being assigned July 8, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

No. 35786, Feed Grains to New England, now being assigned continued hearing June 12, 1975 at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 107295 Sub 743, Pre-Fab Transit Co., now assigned July 10, 1975 at St. Louis, Mo. is canceled and application dismissed.

W-78 Sub 12, The Valley Line Company, W-104 Sub 12, Union Mechling Corp., and W-377 Sub 15, Dixie Carriers, Inc., now assigned May 28, 1975, at Washington, D.C. is postponed indefinitely.

MC 139814, Erin Tours, Inc., now assigned May 21, 1975, at New York, N.Y. is canceled and application dismissed.

MC 106644 Sub 180, Superior Trucking Company, Inc., now assigned June 30, 1975 at Washington, D.C. is canceled and the application is dismissed.

MC 73165 Sub 356, Eagle Motor Lines, Inc., application dismissed.

MC 114457 Sub 217, Dart Transit Company, application dismissed.

MC 32882 Sub 71, Mitchell Bros. Truck Lines and MC 125433 Sub 44, F-B Truck Line Company, now assigned May 19, 1975, at Washington, D.C. is canceled.

[SEAL] JOSEPH M. HARRINGTON,  
Acting Secretary.

## NOTICES

McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Highway 238 (Oakland Road); northerly along State Highway 238 to Warm Springs; northerly along State Highway 238 (Mission Blvd.) via Mission San Jose and Niles to Hayward; northerly along Foothill Blvd. and MacArthur Blvd. to Seminary Avenue; easterly along Seminary Avenue to Mountain Blvd.; northerly along Mountain Blvd. to Warren Blvd. (State Highway 13); northerly along Warren Blvd. to Broadway Terrace; westerly along Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland Boundary line; northerly along said boundary line to the Campus Boundary of the University of California; westerly, northerly and easterly along the campus boundary to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to San Pablo Avenue (State Highway 123); northerly along San Pablo Avenue to and including the City of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco waterfront at the foot of Market Street; westerly along said waterfront and shoreline to the Pacific Ocean; southerly along the shoreline of the Pacific Ocean to point of beginning. Subject to the following restrictions: Applicant shall not transport any shipments of:

1. Used household goods, personal effects and office, store and institution furniture, fixtures and equipment not packed in salesmen's hand sample cases, suitcases, overnight or boston bags, brief cases, hat boxes, valises, traveling bags, trunks, lift vans, barrels, boxes, cartons, crates, cases, baskets, pails, kits, tubs, drums, bags (jute, cotton, burlap or gunny) or bundles (completely wrapped in jute, cotton, burlap, gunny, fibreboard, or straw matting).
2. Automobiles, trucks and buses, viz.: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis.
3. Livestock, viz.: barrows, boars, bulls, butcher hogs, calves, cattle, cows, dairy cattle, ewes, feeder pigs, gilts, goats, heifers, hogs, kids, lambs, oxen, pigs, rams (bucks), sheep, sheep camp outfits, sows, steers, stags, swine or wethers.
4. Liquids, compressed gases, commodities in semi-plastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers or a combination of such highway vehicles.
5. Commodities when transported in bulk in dump-type trucks or trailers or in hopper-type trucks or trailers.
6. Commodities when transported in motor vehicles equipped for mechanical mixing in transit.
7. Portland or similar cements, in bulk or packages, when loaded substantially to capacity of motor vehicle.
8. Logs.
9. Articles of extraordinary value.
10. Trailer coaches and campers, including

integral parts and contents when the contents are within the trailer coach or camper. 11. Commodities requiring the use of special refrigeration or temperature control in specially designed and constructed refrigerator equipment. 12. Explosives subject to U.S. Department of Transportation Regulations governing the Transportation of Hazardous Materials. Intrastate, interstate and foreign commerce authority sought.

HEARING: Date, time and place not fixed. Requests for procedural information should be addressed to Public Utilities Commission, State of California, State Bldg., Civic Center, 455 Golden Gate Avenue, San Francisco, Calif. 94102, and should not be directed to the Interstate Commerce Commission.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,  
Acting Secretary.

[FR Doc. 75-13349 Filed 5-20-75; 8:45 am]

## FOURTH SECTION APPLICATIONS FOR RELIEF

MAY 16, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before June 5, 1975.

FSA No. 42990—*Single Empty Freight Trailers Between Points in Southwestern and Southern Territories and Points in Illinois, Kansas and Missouri*. Filed by Southwestern Freight Bureau, Agent, (No. B-526), for interested rail carriers. Rates on single empty freight trailers, new or used, as described in the applica-

tion, between points in southwestern territory, also Natchez, Miss., and Memphis, Tenn., on the one hand, and points in Illinois, Kansas and Missouri, on the other.

Grounds for relief—Rate relationship, short-line distance formula and grouping.

Tariff—Supplement 72 to Southwestern Freight Bureau, Agent, tariff SW 74-G, I.C.C. No. 5127. Rates are published to become effective on June 16, 1975.

FSA No. 42991—*Billets, Bars, Iron or Steel to Russellville, Arkansas*. Filed by Southwestern Freight Bureau, Agent, (No. B-533), for interested rail carriers. Rates on billets, bars, iron or steel, in carloads, as described in the application, from specified points in Illinois, Missouri and Texas, to Russellville, Arkansas.

Grounds for relief—Market and water competition.

Tariff—Supplement 119 to Southwestern Freight Bureau, Agent, tariff 301-F, I.C.C. No. 5098. Rates are published to become effective on June 17, 1975.

## AGGREGATE-OF-INTERMEDIATES

FSA No. 42992—*Billets, Bars, Iron or Steel to Russellville, Arkansas*. Filed by Southwestern Freight Bureau, Agent, (No. B-534), for interested rail carriers. Rates on billets, bars, iron or steel, in carloads, as described in the application, from specified points in Illinois, Missouri and Texas, to Russellville, Arkansas.

Grounds for relief—Maintenance of depressed rates published to meet market and water competition without use of such rates as factors in constructing combination rates.

Tariff—Supplement 119 to Southwestern Freight Bureau, Agent, tariff 301-F, I.C.C. No. 5098. Rates are published to become effective on June 17, 1975.

By the Commission.

## NOTICES

[Notice No. 18]  
MOTOR CARRIER ALTERNATE ROUTE  
DEVIATION NOTICES

MAY 16, 1975.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules—Motor Carriers of Passengers, 1969 (49 CFR 1042.2(c)(9)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.2(c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

## MOTOR CARRIERS OF PASSENGERS

No. MC 13300 (Deviation No. 31), CAROLINA COACH COMPANY, 1201 South Blount Street, Raleigh, N.C. 27602, filed May 7, 1975. Carrier's representative: Lawrence E. Lindeman, Suite 1032, Pennsylvania Bldg., Pa. Ave. & 13th St., NW., Washington, D.C. 20004. Carrier proposes to operate as a common carrier, by motor vehicle, of passengers and their baggage, and express and newspapers in the same vehicle with passengers, over a deviation route as follows: From Greenville, N.C., over U.S. Highway 13 to Bethel, N.C., thence over North Carolina Highway 11 to Oak City, N.C., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: From Greenville, N.C., over North Carolina Highway 43 to Pinetops, N.C., thence over U.S. Highway 258 to Tarboro, N.C., thence over North Carolina Highway 44 to Oak City, N.C., and return over the same route.

No. MC 111383 (Deviation No. 17), BRASWELL MOTOR FREIGHT LINES, INC., 3925 Singleton Blvd., P.O. Box 4447, Dallas, Tex. 75208, filed April 17, 1975. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From Sildell, La., over U.S. Highway 190 to Hammond, La., and return over the same route for operating convenience only. The notice indicates that the carrier is

presently authorized to transport the same commodities, over a pertinent service route as follows: From Sildell, La., over U.S. Highway 59 to New Orleans, La., thence over U.S. Highway 61 (Interstate Highway 10) to Hammond, La., and return over the same route.

No. MC 647 (Deviation No. 1), EXHIBITORS SERVICE COMPANY, 85 Helen Street, McKees Rocks, Pa. 15136, filed May 8, 1975. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From Youngstown, Ohio over U.S. Highway 422 to Ebensburg, Pa., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Youngstown, Ohio over Ohio Highway 7 to Boardman, Ohio, thence over U.S. Highway 224 to New Castle, Pa., thence over Pennsylvania Highway 18 to Rochester, Pa., thence over Pennsylvania Highway 88 to Pittsburgh, Pa., thence over U.S. Highway 22 to Ebensburg, Pa., and return over the same route.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,  
Acting Secretary.

[FR Doc. 75-13350 Filed 5-20-75; 8:45 am]

(Notice No. 39)

## MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

MAY 16, 1975.

The following publications include motor carrier, water carrier, broker, freight forwarder and rail proceedings indexed as follows: (1) grants of authority requiring republication prior to certification; (2) notices of filing of petitions for modification of existing authorities; (3) new operating rights applications directly related to and processed on a consolidated record with finance applications filed under sections 5(2) and 212(b); (4) notices of filing of sections 5(2) and 210a(b) finance applications; and (5) notices of filing of section 212(b) transfer applications.

Each applicant (except as otherwise specifically noted) states that there will be no significant effect on the quality of the human environment resulting from approval of its application in compliance with the requirements of 49 CFR 1100.250.

Protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this Federal Register notice (unless otherwise specified). Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest should comply with section 247(d) or section 240(c) as appropriate of the Commission's general rules of practice which requires that it set forth specifically the grounds upon

which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and a detailed description of the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest (except for petitions and Finance Dockets under Rule 40 requiring the original and six (6) copies of the protest) shall be filed with the Commission, and a copy shall be served concurrently upon applicant's or petitioner's representative, or applicant or petitioner if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) or section 240(c)(4) of the special rules, and shall include the certification required therein.

No. MC 99780 (Sub-No. 48) (Republication), filed October 15, 1974, and published in the FEDERAL REGISTER issue of November 14, 1974, and republished this issue. Applicant: CHIPPER CARTAGE COMPANY, INC., 1327 NE. Bond Street, Peoria, Ill. 61603. Applicant's representative: John R. Zang, P.O. Box 1345, Peoria, Ill. 61601. An Order of the Commission, Operating Rights Board, dated April 21, 1975, and served May 6, 1975, finds that the present and future public convenience and necessity require operation by applicant, in foreign commerce only, as a common carrier, by motor vehicle, over irregular routes, of soybean products, in containers, from the facilities of Central Soya Company, Inc., at Gibson City, Ill., to points in Illinois, restricted to the transportation of traffic having an immediately subsequent movement by rail; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; The purpose of this republication is to modify the commodity and territorial descriptions. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a Certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

MC 117647 (Sub-No. 6) (Republication) filed May 10, 1974, and published in

the *FEDERAL REGISTER* issue of June 20, 1974, and republished this issue. Applicant: BILL J. ELKINS, R.R. No. 4, Box 124, West Terre Haute, Ind. 47885. Applicant's representative: Mark Bell, 8403 North Michigan Road, Indianapolis, Ind. 46268. An Order of the Commission, Operating Rights Board, dated March 24, 1975, and served April 17, 1975, finds, that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of coal tar and coal tar products, in bulk, in tank vehicles, (1) from the facilities of Western Tar Products Corporation, at Terre Haute, Ind., to points in Kentucky, Illinois, Iowa, Michigan, Missouri, Ohio, Tennessee, and Wisconsin, and (2) from Memphis, Tenn., to the facilities of Western Tar Products Corporation at Terre Haute, Ind.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to modify the authority requested from contract route to common route authority, and to modify the territorial description. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

MC 128988 (Sub-No. 40) (Republication), filed January 16, 1974, and published in the *FEDERAL REGISTER* issue of February 22, 1974, and republished this issue. Applicant: JO/KEL, INC., 159 South Seventh Avenue, P.O. Box 1249, City of Industry, Calif. 91749. Applicant's representative: Patrick E. Quinn, 605 South 14th Street, P.O. Box 82038, Lincoln, Nebr. 68501. An Order of the Commission, Review Board Number 3, dated April 21, 1975, and served May 8, 1975, finds, that operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of gears, condensers, and turbines, from the facilities of Westinghouse Electric Corporation, at or near Sunnyvale, Calif., to Pascagoula, Miss., North Huntingdon Township, Pa., and High Point, N.C., restricted against the transportation of commodities in bulk and those which by reason or size or weight require the use of special equipment, under a continuing contract or contracts with Westinghouse Electric Corporation, of Pittsburgh, Pa., will be consistent with the public interest and the national transportation policy. The purpose of this republication is to sub-

stitute North Huntingdon Township, Pa., and High Point, N.C. as destination points in lieu of Irwin, Pa., and Greensboro, N.C. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a Permit in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 113855 (Sub-No. 85) (Notice of filing of petition to modify commodity description), filed April 28, 1975. Petitioner: INTERNATIONAL TRANSPORT, INC., 2450 Marlon Road, SE, Rochester, Minn. 55901. Petitioner's representative: Alan Poes, 502 First National Bank Building, Fargo, N. Dak. 58102. Petitioner holds a motor common carrier certificate in No. MC 113855 (Sub-No. 85), issued October 22, 1965, authorizing transportation, as pertinent, over irregular routes, of wood fencing and building board, from points in Montana, Idaho, Washington, Oregon, California, Arizona, and Washoe County, Nev., to points in Kentucky, Indiana, Ohio, Wisconsin, Illinois, Iowa, the Lower Peninsula of Michigan, and that part of Missouri on and east of U.S. Highway 65.

By the instant petition, petitioner seeks to modify the commodity description in the above authority so as to read, Wood products, in lieu of Wood fencing and building board. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the *FEDERAL REGISTER*.

No. MC 114917 (Sub-No. 6) (Notice of filing of petition to modify a territorial description), filed May 2, 1975. Petitioner: DART TRANSPORTATION SERVICE, a Corporation, 1430 S. Eastman Ave., P.O. Box 23035, Lugo Station, Los Angeles, Calif. 90023. Petitioner's representative: R. Y. Schureman, 1545 Wilshire Boulevard, Los Angeles, Calif. 90017. Petitioner holds a motor contract carrier permit in No. MC 114917 (Sub-No. 6), issued September 27, 1973, authorizing transportation, over irregular routes, of such merchandise as is dealt in by mail order and chain retail department business houses, from Los Angeles, Calif., and points in the Los Angeles, Calif., Harbor Zone, as defined by the Commission, to points in that part of California located north and west of Ventura, Los Angeles, San Bernardino, Inyo, and Mono Counties, Calif., under a continuing contract or contracts with Sears, Roebuck and Co.

By the instant petition, petitioner seeks to modify the territorial description in the above authority so as to read, between points in Los Angeles and Orange

Counties, Calif., on the one hand, and, on the other, points in California. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the *FEDERAL REGISTER*.

No. MC 133979 (Notice of filing of petition to modify a territorial description), filed May 9, 1975. Petitioner: CHRIS DRAKOS, doing business as MONTANA BRAND PRODUCE CO., 111 West Fireclay Avenue, Murray, Utah 84107. Petitioner's representative: Irene Warr, 430 Judge Building, Salt Lake City, Utah 84111. Petitioner holds a motor contract carrier permit in No. MC 133979, issued November 2, 1971, authorizing transportation, over irregular routes, of such merchandise as is dealt in by wholesale, retail, and chain grocers and food business houses (except commodities in bulk), between points in Washington, Oregon, California, Nevada, Utah, Idaho, Montana, Wyoming, and Colorado, under a continuing contract or contracts with Albertson's Inc., of Salt Lake City, subject to the following restrictions: carrier shall conduct separately its contract carrier operation and its other business activities; carrier shall maintain separate accounts and records therefor; and carrier shall not transport property as both a private and contract carrier in the same vehicle at the same time.

By the instant petition, petitioner seeks to modify the territorial description in the above authority so as to read, between points in Washington, Oregon, California, Nevada, Utah, Idaho, Montana, Wyoming, Colorado, Texas, Arizona, New Mexico, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Iowa, Missouri, Arkansas, Louisiana, Mississippi, Alabama, Georgia, South Carolina, and Florida. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the *FEDERAL REGISTER*.

#### APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto (49 CFR 1.240).

#### APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE

No. MC 2095 (Sub-No. 2), filed April 21, 1975. Applicant: KEIM TRANSPORTATION, INC., 420 North Sixth, (R.F.D. 2, Box 10), Sabetha, Kans. 66534. Applicant's representative: Clyde N.

Christey, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Plasterboard, plaster products, and metal lathe, clips, nails, and miscellaneous building materials used with, or in the installation of, plasterboard and plaster products, from Blue Rapids, Kans., to Omaha, Nebr. The purpose of this filing is to eliminate the gateway at Honey Creek, Nebr. This application is a gateway elimination request filed pursuant to the Commission's Policy Statement in Ex Parte No. 55 (Sub-No. 8) noticed in the *FEDERAL REGISTER* issue of December 9, 1974; and is directly related to MC-F-12506 published in the *FEDERAL REGISTER* of May 7, 1975.

No. MC 44735 (Sub-No. 22), filed January 31, 1975. Applicant: KISSICK TRUCK LINES, INC., 7101 East 12th Street, Kansas City, Mo. 64126. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Clay and clay products (except in bulk) between points in Illinois, Iowa, and Nebraska on the one hand, and, on the other, points in Arkansas, Kansas, Missouri, Oklahoma, and Texas, restricted against: (1) the transportation of pipe between points in Kansas (except the Kansas City, Kansas City, Mo. Commercial Zone), Oklahoma, Texas, and Arkansas, (2) the transportation of composition or prepared roofing from Dallas, Tex., and (3) the transportation of precast concrete products from Little Rock, Ark. The purpose of this filing is to eliminate a gateway at points in the Kansas City, Kansas City, Mo. Commercial Zone. This application is a gateway elimination request filed pursuant to the Commission's Policy statement in Ex Parte 55 (Sub-No. 8) noticed in the *FEDERAL REGISTER* issue of December 9, 1974; and is directly related to MC-F-12235 published in the *FEDERAL REGISTER* issue of June 19, 1974.

No. MC 95876 (Sub-No. 171) (correction), filed February 3, 1975, published in the *FEDERAL REGISTER* issue of April 30, 1975, and partially republished, as corrected this issue. Applicant: ANDERSON TRUCKING SERVICE, INC., 203 Cooper Avenue North, St. Cloud, Minn. 56301. Applicant's representative: Donald A. Morken, 1000 First National Bank Building, Minneapolis, Minn. 55402.

NOTE.—The purposes of this partial republication are (A) to correct the territorial description in (12)(A) to read: from Waukegan, Ill., to points in Minnesota, North Dakota, South Dakota and points in Wisconsin beginning at U.S. Highway 61 near Dubuque, Iowa on and west of U.S. Highway 61 to LaCrosse, thence Highway 35 to its junction with Highway 63, thence Highway 63 to its junction with Highway 121 at Whitehall, thence west on Highway 121 to its junction with Highway 93, thence north on Highway 93 to Eau Claire, thence north on Highway 53 to its junction with Highway 63 near Trego, thence northeast on Highway 63 to Baldwin, thence north on Highway 27 to Lake Superior, (B) to correct the territorial

description in (19)(A) to read: from points in South Dakota that are on, west, and north of the following line: Over Highway 85 from the North Dakota-South Dakota State line, south to its junction with Highway 79, then Highway 79 to its junction with Highway 14 near Sturgis, thence Highway 14 to Rapid City, thence Highway 79 to its junction with Highway 36, thence over Highway 36 to its junction with A-16, thence over Highway A-16 to its junction with Highway 16, thence 16 to the South Dakota-Wyoming border to points in Illinois that are on, east, and north of the following line: Over Highway 61 from near the Illinois-Wisconsin State line at South Beloit, thence south on Highway 61 to its junction with Highway 36 near Decatur, thence east on Highway 36 to the Illinois-Indiana State line.

(C) to correct the territorial description in (31)(A) to read: between points in Iowa on and west of State Highway 60, points in South Dakota on and south of U.S. Highway 14 beginning at the Minnesota-South Dakota State line, thence west to the junction with U.S. Highway 16, thence west on U.S. Highway 16 to the South Dakota-Wyoming State line and points in the Upper Peninsula of Michigan located on and east of State Highway 95 near Iron Mountain, then north to U.S. Highway 41, then east to Marquette, Mich., ending at Marquette, Mich. (D) to correct the commodity description in (37) to read: cast iron pressure pipe and fittings and accessories therefor, when moving with such pipe and when moving as contractors' and construction equipment, materials and supplies, and (E) to correct the territorial description in (47)(A) to read: from points in South Dakota, to points in Maine, Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, Pennsylvania, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia, Florida, West Virginia, Ohio, Kentucky, Tennessee, Alabama, Mississippi, Louisiana, New Jersey, District of Columbia, Arkansas, Illinois, points on and south of Highway 6, Indiana, Missouri, Nebraska, points on and south and east of Highway 80 from Omaha to its junction with Highway 81, thence Highway 81 to the Nebraska-Kansas State line, points in Kansas on and east of Highway 81, points in Oklahoma on and east of Highway 1-35, points in Texas on and east of Highway 1-35, points in Michigan on and south of U.S. Highway 10, from Ludington to Bay City, thence Highway 15 and 46 to Lake Huron. The rest of the application remains as originally published.

No. MC 105902 (Sub-No. 18), filed April 14, 1975. Applicant: PENN YAN EXPRESS, INC., 100 West Lake Road, Penn Yan, N.Y. 14527. Applicant's representative: Herbert M. Canter, 315 Seitz Building, 201 East Jefferson Street, Syracuse, N.Y. 13202. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (A) (1) Between Albany, N.Y. and Richfield Springs, N.Y.: From Albany over U.S. Highway 20 to Duaneburg, thence over New York Highway 7 to Oneonta, thence over New York Highway 28 to Cooperstown, thence over New York Highway 80 to junction U.S. Highway 20, thence over U.S. Highway 20 to Richfield Springs, and return over the same route; (2) Between Richfield

Spring, N.Y. and Albany, N.Y.: From Richfield Springs over U.S. Highway 20 to Albany, and return over the same route; (3) Between Cherry Valley, N.Y. and Milford, N.Y.: From Cherry Valley over New York Highway 166 to Milford, and return over the same route; (4) Between Cobleskill, N.Y. and junction New York Highway 145 and U.S. Highway 20: From Cobleskill over New York Highway 145 to junction U.S. Highway 20, and return over the same route; (5) Between Cobleskill, N.Y. and junction New York Highway 10 and U.S. Highway 20: From Cobleskill over New York Highway 10 to junction U.S. Highway 20 and return over the same route; and (6) Between Cooperstown, N.Y. and junction unnumbered Highway with New York Highway 166: From Cooperstown over an unnumbered Highway to junction New York Highway 166, and return over the same route; serving all intermediate points on the routes specified in (A), above, and the off-route points of Altamont, Delanson, and Voorheesville, N.Y.; (B) (1) Between Albany, N.Y. and Oneonta, N.Y.: From Albany over New York Highway 32 to Menands, thence over bridges to Troy, thence over New York Highway 7 to Oneonta, and return over the same route; and (2) Between Oneonta, N.Y. and Norwich, N.Y.: From Oneonta over New York Highway 23 to Norwich, and return over the same route, serving all intermediate points on the routes specified in (B) above and the off-route points of Rensselaer, Cohoes, Scotia, and Franklin, N.Y.

The definitions of Commercial Zones to be served for the cities of Albany, N.Y.; Schenectady, N.Y.; Troy, N.Y.; Hornell, N.Y.; Niagara Falls, N.Y.; and Olean, N.Y. as set forth hereinafter, are from Section 850.1 of Title 17 of the Official Compilation of Codes, Rules, and Regulations of the State of New York and are so defined herein pursuant to the authority and precedent of *The Adley Corp.-Pur-New York & Albany Dispatch, Inc.* 101 M.C.C. 388, 401-462. Commercial zones for Albany, N.Y.; Schenectady, N.Y.; and Troy, N.Y., to be served under (A) and (B) above are as follows: (1) The City of Albany: The city of Albany. The town of Bethlehem, Albany County. The town of Guildford, Albany County. The town of Colonie, Albany County. The city of Rensselaer. The village of Menands, Albany County. The village of Green Island, Albany County. That part of the town of East Greenbush, Rensselaer County, bounded as follows: Beginning at the intersection of the easterly boundary of the city of Rensselaer with the boundary line between the towns of North Greenbush and East Greenbush, thence easterly along the said boundary line between North Greenbush and East Greenbush about 1½ miles to the highway known as U.S. Route No. 4, thence southerly along said U.S. Route No. 4 to the Columbia turnpike, thence southerly along the said Columbia turnpike to the boundary line between the towns of East Greenbush and Schodack, thence westerly along the said boundary line to the

east bank of the Hudson River, thence northerly along the said east bank of the Hudson River to the southerly boundary line of the city of Rensselaer, thence easterly and northerly long the southerly and easterly boundary lines of the city of Rensselaer to the point of beginning.

That portion of the town of New Scotland, Albany County, bounded as follows: Beginning at the intersection of the boundary line of the towns of New Scotland and Bethlehem and the highway known as State Route 32, thence westerly and northerly along said Route 32 and a county road leading through the hamlets of Unionville and Stony Hill to the hamlet of New Scotland, thence continuing northerly and westerly along State Routes Nos. 85A and 85 to the village of Vooreville, thence along the southerly and westerly boundaries of the said village and the said westerly boundary line continued to the boundary line between the towns of New Scotland and Guilderland, thence easterly along the said boundary line between the towns of New Scotland and Guilderland to the boundary line between the towns of New Scotland and Bethlehem, thence southerly along the last-mentioned boundary line to the place of beginning, and including all of the hamlet of Feura Bush.

(2) \* The City of Schenectady: The city of Schenectady and the towns of Rotterdam, Glenville, Niskayuna, and that portion of the town of Colonie lying west of the highway known as U.S. Route No. 9.

(3) \* The City of Troy: The cities of Troy, Watervliet, and Cohoes. The villages of Menands, Green Island, and Waterford. The towns of North Greenbush, Brunswick, and Waterford. That portion of the town of Colonie lying east of the highway known as U.S. Route No. 9. That portion of the town of Schaghticoke lying south of the highway known as the "City of Troy Road", which highway extends from the hamlet of Melrose to the Tomhannock reservoir, and the town road extending west from the hamlet of Melrose to the Hudson River.

(C) (1) Between Jasper, N.Y. and Buffalo, N.Y.: (a) From Jasper over New York Highway 17 to Olean, thence over New York Highway 10 to Buffalo, and return over the same route; (b) From Jasper over New York Highway 17 to Jamestown, thence over New York Highway 17 to Kennedy, thence over U.S. Highway 62 to Buffalo, and return over the same route; (2) Between Wayland, N.Y. and Batavia, N.Y.: From Wayland over New York Highway 63 to Batavia, and return over same route; (3) Between Jasper, N.Y. and Caledonia, N.Y.: From Jasper over New York Highway 21 to Hornell, thence over New York Highway 36 to Caledonia, and return over the same route; (4) Between Genesee, N.Y. and Buffalo, N.Y.: From Genesee over New York Highway 39 to Avon, thence over U.S. Highway 20 and New York Highway 130 to Buffalo, return over the same

route; (5) Between Buffalo, N.Y. and Niagara Falls, N.Y.: From Buffalo over U.S. Highway 62 to Niagara Falls and return over the same route, serving all intermediate points on the routes specified in (C) above, and the off-route points of: Lackawanna, Lockport, Livonia, Alfred, Troupsburg, Howard, Lindley, Perkinsville, Pine City, Presheo, Seeley Creek, and Springwater, N.Y. Commercial zones for Hornell, N.Y., Niagara Falls, N.Y. and Olean, N.Y., to be served under (C) above are as follows: (1) The City of Hornell: The city of Hornell and the town of Hornellsville. (2) The City of Niagara Falls: The city of Niagara Falls and the towns of Lewiston, Niagara, Wheatfield and Grand Island.

(3) The City of Olean: The City of Olean and the towns of Olean and Allegany.

D. (1) Between Owego, N.Y. and Ithaca, N.Y.: (a) From Owego over New York Highway 96 to Ithaca, and return over the same route. (b) From Owego over New York Highway 38 to Richford, thence over New York Highway 79 to Ithaca, and return over the same route; and (2) Between Horseheads, N.Y. and Ithaca, N.Y.: From Horseheads over New York Highway 13 to Ithaca, and return over the same route, serving all intermediate points on the routes specified in (D), above and the off-route points of Wellsburg, Erin, and Straits Corners, N.Y.

NOTE.—By the instant application, applicant seeks to convert a portion of a Certificate of Registration it is seeking to acquire to a Certificate of Public Convenience and Necessity. This is a matter directly related to a Section 5 proceeding in MC-P-12492, published in the *FEDERAL REGISTER* issue of April 23, 1975. If a hearing is deemed necessary, applicant requests it be held at either Syracuse, Binghamton, Jamestown, or Buffalo, N.Y., or Washington, D.C.

No. MC 106644 (Sub-No. 203), filed February 10, 1975. Applicant: SUPERIOR TRUCKING COMPANY, INC., P.O. Box 916, Atlanta, Ga. 30301. Applicant's representative: Guy H. Postell, Suite 713, 3384 Peachtree Road NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier by motor vehicle, over irregular routes, transporting: (1) (A) *Commodities*, the transportation of which because of size, weight, or shape require the use of special equipment or special handling (except pipe, pipeline machinery, equipment, and supplies incidental to and used in connection with the construction, operation, repair, servicing, and dismantling of pipelines and the stringing or picking up thereof), (1) (a) between points in Oklahoma and Missouri (except points in Missouri west of U.S. Highway

67 beginning at the Mississippi River north of St. Louis, Mo. and extending to the Missouri-Arkansas line) and (b) between points in Oklahoma and Missouri (west of U.S. Highway 67 in Missouri). The purpose of this filing is to eliminate the gateway of St. Charles, Mo. and/or on and east of U.S. Highway 67 in Missouri beginning at the Mississippi River, thence U.S. Highway 67 By-Pass to Junction U.S. Highway 61, thence U.S. Highway 61 to Missouri-Arkansas line.

(2) (a) between points in Oklahoma and points in Iowa on and east of U.S. Highway 61 between Dubuque, Iowa and the Missouri-Iowa line and (b) between points in Oklahoma and points in Iowa west of U.S. Highway 61 beginning at Dubuque, Iowa to the Missouri-Iowa line. The purpose of this filing is to eliminate the gateway of St. Charles, Mo. and/or on and east of U.S. Highway 67 in Missouri beginning at the Mississippi River, thence U.S. Highway 67 By-Pass to Junction U.S. Highway 61, thence U.S. Highway 61 to Missouri-Arkansas line.

(3) (a) between points in Missouri and Illinois and (b) between points in Oklahoma and Illinois. The purpose of this filing is to eliminate the gateway of St. Charles, Mo. and/or on and east of U.S. Highway 67 in Missouri beginning at the Mississippi River, thence U.S. Highway 67 By-Pass to Junction U.S. Highway 61, thence U.S. Highway 61 to Missouri-Arkansas line.

(4) (a) between points in Oklahoma, on the one hand, and, on the other, points in Indiana, Ohio, Kentucky and Tennessee (except points in Tennessee south and west of Tennessee Highway 19 beginning at the Mississippi River, thence Tennessee Highway 19 to Junction Tennessee Highway 76, thence Tennessee Highway 76 to Junction Tennessee Highway 57, thence Tennessee Highway 57 to Junction Tennessee Highway 18, thence Tennessee Highway 18 to Tennessee-Mississippi line) and (b) between points in Oklahoma and points in Tennessee south and west of Tennessee Highway 19 beginning at the Mississippi River, thence Tennessee Highway 19 to Junction Tennessee Highway 76, thence Tennessee Highway 76 to Junction Tennessee Highway 57, thence Tennessee Highway 57 to Junction Tennessee Highway 18, thence Tennessee Highway 18 to Tennessee-Mississippi line. The purpose of this filing is to eliminate the gateway of St. Louis, Mo. and/or on and east of U.S. Highways 67-61 in Missouri.

(5) (a) between points in Oklahoma (except south of Interstate 44 from the Oklahoma-Missouri line to Junction Interstate 40, thence Interstate 40 to the Oklahoma-Texas line) and Alabama (except south of U.S. Highway 84 from the Alabama-Mississippi line to Junction Alabama 55, thence Alabama Highway 55 to Alabama-Florida line) (b) between points in Oklahoma (except east and south of Oklahoma Highway 1 from Oklahoma-Arkansas line to Junction Oklahoma Highway 7, thence Oklahoma Highway 7 to Junction U.S. Highway 81, thence U.S. Highway 81 to the Oklahoma-Texas line, on the one hand, and, on the other, points in Virginia west of U.S. Highway 52 between the North Carolina and Kentucky lines. The purpose of this filing is to eliminate the gateway of points in Missouri on and east of U.S. Highway 61 north of the Arkansas-Missouri line, Tennessee, and in North Carolina one mile south of Mouth of Wilson, Virginia.

(8) between points in Oklahoma and Maryland. The purpose of this filing is to

eliminate the gateway of points in Missouri on and east of U.S. Highway 61 north of the Arkansas-Missouri line, Tennessee, and in North Carolina one mile south of Mouth of Wilson, Virginia.

(9) between points in Oklahoma and New Jersey, Massachusetts, and Rhode Island. The purpose of this filing is to eliminate the gateway of points in Missouri on and east of U.S. Highway 61 north of the Arkansas-Missouri line, Tennessee, and in North Carolina one mile south of Mouth of Wilson, Virginia.

(10) (a) between points in Oklahoma and Pennsylvania (except west of U.S. Highway 15 between the New York and Maryland lines) and (b) between points in Oklahoma and points in Pennsylvania west of U.S. Highway 15 between the New York and Maryland lines. The purpose of this filing is to eliminate the gateway of points in Missouri on and east of U.S. Highway 61 north of the Arkansas-Missouri line and Tennessee.

(11) (a) between points in Oklahoma and Georgia, North Carolina, South Carolina, and Florida (except between points in Oklahoma east and south of Oklahoma Highway 9 from the Arkansas line to Oklahoma Highway 7, thence Oklahoma Highway 7 to U.S. Highway 81, thence U.S. Highway 81 to the Texas line, on the one hand, and, on the other, points in Florida west of the Apalachicola River) and (b) between points in Oklahoma east and south of Oklahoma Highway 9 from the Arkansas line, thence Oklahoma Highway 9 to Oklahoma Highway 7, thence Oklahoma Highway 7 to U.S. Highway 81, thence U.S. Highway 81 to the Texas line, on the one hand, and, on the other, points in Florida west of the Apalachicola River. The purpose of this filing is to eliminate the gateways of points in Missouri on and east of U.S. Highway 61 north of Arkansas-Missouri line and Tennessee.

(7) (a) between points in Oklahoma (except east and south of Oklahoma Highway 1 from the Oklahoma-Arkansas line to Junction Oklahoma Highway 7, thence Oklahoma Highway 7 to Junction U.S. Highway 81, thence U.S. Highway 81 to the Oklahoma-Texas line) and Virginia (except west of U.S. Highway 52 in Virginia between North Carolina line and Kentucky line) and (b) between points in Oklahoma east and south of Oklahoma Highway 1 from the Oklahoma-Arkansas line to Junction Oklahoma Highway 7, thence Oklahoma Highway 7 to Junction U.S. Highway 81, thence U.S. Highway 81 to the Oklahoma-Texas line, on the one hand, and, on the other, points in Virginia west of U.S. Highway 52 between the North Carolina and Kentucky lines. The purpose of this filing is to eliminate the gateway of points in Missouri on and east of U.S. Highway 61 north of the Arkansas-Missouri line, Tennessee, and in North Carolina one mile south of Mouth of Wilson, Virginia.

(8) between points in Oklahoma and Maryland. The purpose of this filing is to

eliminate the gateway of points in Missouri on and east of U.S. Highway 61 north of the Arkansas-Missouri line, Tennessee, and in North Carolina one mile south of Mouth of Wilson, Virginia.

(9) between points in Oklahoma and New Jersey, Massachusetts, and Rhode Island. The purpose of this filing is to eliminate the gateway of points in Missouri on and east of U.S. Highway 61 north of the Arkansas-Missouri line, Tennessee, and in North Carolina one mile south of Mouth of Wilson, Virginia.

(10) (a) between points in Oklahoma and Pennsylvania (except west of U.S. Highway 15 between the New York and Maryland lines) and (b) between points in Oklahoma and points in Pennsylvania west of U.S. Highway 15 between the New York and Maryland lines. The purpose of this filing is to eliminate the gateway of points in Missouri on and east of U.S. Highway 61 north of the Arkansas-Missouri line and Tennessee.

(11) (a) between points in Oklahoma and Georgia, North Carolina, South Carolina, and Florida (except between points in Oklahoma east and south of Oklahoma Highway 9 from the Arkansas line to Oklahoma Highway 7, thence Oklahoma Highway 7 to U.S. Highway 81, thence U.S. Highway 81 to the Texas line, on the one hand, and, on the other, points in Florida west of the Apalachicola River) and (b) between points in Oklahoma east and south of Oklahoma Highway 9 from the Arkansas line, thence Oklahoma Highway 9 to Oklahoma Highway 7, thence Oklahoma Highway 7 to U.S. Highway 81, thence U.S. Highway 81 to the Texas line, on the one hand, and, on the other, points in Florida west of the Apalachicola River. The purpose of this filing is to eliminate the gateways of points in Missouri on and east of U.S. Highway 61 north of Arkansas-Missouri line and Tennessee.

(7) (a) between points in Oklahoma (except east and south of Oklahoma Highway 1 from the Oklahoma-Arkansas line to Junction Oklahoma Highway 7, thence Oklahoma Highway 7 to Junction U.S. Highway 81, thence U.S. Highway 81 to the Oklahoma-Texas line) and Virginia (except west of U.S. Highway 52 in Virginia between North Carolina line and Kentucky line) and (b) between points in Oklahoma east and south of Oklahoma Highway 1 from the Oklahoma-Arkansas line to Junction Oklahoma Highway 7, thence Oklahoma Highway 7 to Junction U.S. Highway 81, thence U.S. Highway 81 to the Oklahoma-Texas line, on the one hand, and, on the other, points in Virginia west of U.S. Highway 52 between the North Carolina and Kentucky lines. The purpose of this filing is to eliminate the gateway of points in Missouri on and east of U.S. Highway 61 north of the Arkansas-Missouri line, Tennessee, and in North Carolina one mile south of Mouth of Wilson, Virginia.

(8) between points in Oklahoma and Maryland. The purpose of this filing is to

eliminate the gateway of points in Missouri on and east of U.S. Highway 61 north of the Arkansas-Missouri line, Tennessee, and in North Carolina one mile south of Mouth of Wilson, Virginia.

(9) between points in Oklahoma and New Jersey, Massachusetts, and Rhode Island. The purpose of this filing is to eliminate the gateway of points in Missouri on and east of U.S. Highway 61 north of the Arkansas-Missouri line, Tennessee, and in North Carolina one mile south of Mouth of Wilson, Virginia.

(10) (a) between points in Oklahoma and Pennsylvania (except west of U.S. Highway 15 between the New York and Maryland lines) and (b) between points in Oklahoma and points in Pennsylvania west of U.S. Highway 15 between the New York and Maryland lines. The purpose of this filing is to eliminate the gateway of points in Missouri on and east of U.S. Highway 61 north of the Arkansas-Missouri line and Tennessee.

(11) (a) between points in Oklahoma and Georgia, North Carolina, South Carolina, and Florida (except between points in Oklahoma east and south of Oklahoma Highway 9 from the Arkansas line to Oklahoma Highway 7, thence Oklahoma Highway 7 to U.S. Highway 81, thence U.S. Highway 81 to the Texas line, on the one hand, and, on the other, points in Florida west of the Apalachicola River) and (b) between points in Oklahoma east and south of Oklahoma Highway 9 from the Arkansas line, thence Oklahoma Highway 9 to Oklahoma Highway 7, thence Oklahoma Highway 7 to U.S. Highway 81, thence U.S. Highway 81 to the Texas line, on the one hand, and, on the other, points in Florida west of the Apalachicola River. The purpose of this filing is to eliminate the gateways of points in Missouri on and east of U.S. Highway 61 north of the Arkansas-Missouri line, Tennessee, and in North Carolina one mile south of Mouth of Wilson, Virginia.

(12) (a) between points in Texas and Illinois, Indiana, Ohio, and Kentucky, (b) between points in Texas and points in Missouri except points west of Missouri Highway 15 beginning at the Missouri-Iowa line, thence Missouri Highway 15 to Junction Missouri Highway 22, thence Missouri Highway 22 to Junction Missouri Highway 19, to Junction Missouri Highway 49, thence Missouri Highway 49 to Junction Missouri Highway 21, thence Missouri Highway 21 to the Missouri-Arkansas line, (c) between points in Texas and points in Iowa except points in Iowa west of U.S. Highway 63 between the Iowa-Minnesota line and the Iowa-Missouri line, (d) between points in Texas and points in Tennessee except points in Tennessee west of U.S. Highway 45 beginning at the Tennessee-Mississippi line, thence to Junction Tennessee Highway 20, thence Tennessee Highway 20 to the Tennessee-Missouri line, (e) between points in Texas and points in Missouri west of Missouri Highway 15 beginning at the Missouri-Iowa line, thence Missouri Highway 15 to

Junction Missouri Highway 22, thence Missouri Highway 22 to Junction Missouri Highway 19, thence Missouri Highway 19 to Junction Missouri Highway 49, thence Missouri Highway 49 to Junction Missouri Highway 21, thence Missouri Highway 21 to the Missouri-Arkansas line, (f) between points in Texas and points in Iowa west of U.S. Highway 63 between the Iowa-Minnesota line and the Iowa-Missouri line, and (g) points in Texas and points in Tennessee west of U.S. Highway 45 beginning at the Tennessee-Mississippi line, thence U.S. Highway 45 to Junction Tennessee Highway 20, thence Tennessee Highway 20 to the Tennessee-Missouri line. The purpose of this filing is to eliminate the gateway of points in Missouri on and east of U.S. Highway 61-67.

(13) (a) between points in Texas on and west of north of U.S. Highway 287 from the Texas-Oklahoma line to Junction U.S. Highway 87, thence U.S. Highway 87 to Junction U.S. Highway 80, thence U.S. Highway 80 to the Texas-New Mexico line, and points in Alabama, on and east of U.S. Highway 231 from the Alabama-Florida line to Junction I-65, thence I-65 to the Alabama-Tennessee line, and (b) between points in Texas east and south of U.S. Highway 287 from the Texas-Oklahoma line to Junction U.S. Highway 87, thence U.S. Highway 87 to Junction U.S. Highway 80, thence U.S. Highway 80 to the Texas-New Mexico line, and points in Alabama west of U.S. Highway 231 from the Alabama-Florida line to Junction I-65, thence I-65 to the Alabama-Tennessee line. The purpose of this filing is to eliminate the gateway of points in Missouri on and east of U.S. Highway 61 north of the Arkansas-Missouri line and Tennessee.

(14) (a) between points in Texas on and north and west of U.S. Highway 287 from the Texas-Oklahoma line to Junction U.S. Highway 87, thence U.S. Highway 87 to Junction U.S. Highway 80, thence U.S. Highway 80 to the Texas-New Mexico line, and points in Mississippi on and east of U.S. Highway 45 from the Mississippi-Tennessee line to Junction of Alternate U.S. Highway 45, thence Alternate U.S. Highway 45 to Junction U.S. Highway 45 to Junction Mississippi Highway 16, thence Mississippi Highway 16 to the Mississippi-Alabama line, and (b) between points in Texas and Louisiana, and (c) between points in Texas east and south of U.S. Highway 287 from the Texas-Oklahoma line to Junction U.S. Highway 87, thence U.S. Highway 87 to Junction U.S. Highway 80, thence U.S. Highway 80 to the Texas-New Mexico line, and points in Mississippi west of U.S. Highway 45 from the Mississippi-Tennessee line to Junction Alternate U.S. Highway 45, thence Alternate U.S. Highway 45 to Junction U.S. Highway 45 to Junction Mississippi Highway 16, thence Mississippi Highway 16 to the Mississippi-Alabama line. The purpose of this filing is to eliminate the gateway of points in Missouri on and east of U.S.

Highway 61 north of the Arkansas-Missouri line and Tennessee.

(II) *aluminum ingots, pigs, billets, blooms and plates* which because of size or weight require the use of special equipment, from points in Oklahoma to points in Connecticut, Delaware, and the District of Columbia. The purpose of this filing is to eliminate the gateway of points in Missouri on and east of U.S. Highway 61 north of the Arkansas-Missouri line, Tennessee, and Scottsboro, Ala.

(III) (a) *heat exchangers or equalizers* (b) *heating, cooling, humidifying and dehumidifying machinery and equipment*, and (c) *parts, attachments and accessories* for use in the installation and operation of the above named commodities in (a) and (b), and when commodities in (a), (b), and (c) require special equipment to load and/or unload, from points in Oklahoma and Texas, to points in Connecticut, Delaware, Maine, New Hampshire, Vermont, and the District of Columbia. The purpose of this filing is to eliminate the gateway of points in Missouri on and east of U.S. Highway 61 north of the Arkansas-Missouri line, Montgomery County, Tenn.

(IV) *electric controllers and instruments* which because of size or weight require the use of special equipment, from points in Oklahoma and Texas to points in Delaware, District of Columbia, Connecticut, Vermont, New Hampshire, and Maine. The purpose of this filing is to eliminate the gateway of points in Missouri on and east of U.S. Highway 61, Tennessee, North Carolina, and Roanoke County, Va. This application is a gateway elimination request filed pursuant to the Commission's Policy Statement in Ex Parte No. 55 (Sub-No. 8) noticed in the FEDERAL REGISTER issue of December 9, 1974; and is directly related to MC-F-11318 published in the FEDERAL REGISTER of September 29, 1972.

MC 126588 (Sub-No. 2), filed March 30, 1975. Applicant: KERR MOTOR LINES, INC., 1/4 Jackson Street, Binghamton, N.Y. 13903. Applicant's representative: Norman M. Pinsky, 345 South Warren Street, Syracuse, N.Y. 13202. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between points in New York and Pennsylvania as authorized in applicant's certificate No. MC 126588 on the one hand, and, on the other, points in specified counties in New York as authorized in Dexter's Delivery, Inc. Certificate of Registration No. MC 121616 (Sub-No. 1) which applicant is seeking to acquire. The purpose of this filing is to eliminate a gateway at points in Schoharie County, N.Y. and to convert a Certificate of Registration applicant is seeking to acquire to a Certificate of Public Convenience and Necessity. This application is a gateway elimination request filed pursuant to the Commission's Policy Statement

in Ex Parte No. 55 (Sub-No. 8) noticed in the FEDERAL REGISTER issue of December 9, 1974; and is directly related to MC-F-12482 published in the FEDERAL REGISTER issue of April 23, 1974.

No. MC-F-11043. (Supplemental) (Colonial Motor Freight Line, Inc.—Control—Griggs Trucking Company), published in the December 16, 1970, issue of the FEDERAL REGISTER. By report and order decided February 21, 1974, and served March 27, 1974, the Commission, Division 3, among other things, approved and authorized the acquisition by Colonial Freight Line, Inc., of control of Griggs Trucking Company, through the purchase of capital stock and the merger of the operating rights and property of the latter into the former for ownership, management, and operation.

No. MC-F-11563. (Supplemental) (ROSS TRUCK LINES, INC.—PURCHASE (portion)—ROBERT FOLTZ), published in the June 14, 1972 issue of the FEDERAL REGISTER on page 11818. By petition filed June 14, 1974, Dan E. Turner, Trustee in Bankruptcy of Robert Foltz, sought to be substituted as the transfer or in this proceeding. Turner's petition was granted, and subject to the present republication, the purchase of a portion of the interstate operating rights of Robert Foltz (Dan E. Turner, Trustee in Bankruptcy) of Ottawa, Kans. by Ross Truck Lines, Inc. of Paola, Kans. was authorized by order of the Commission, Review Board Number 5, dated March 20, 1975.

No. MC-F-12495. Authority sought to be purchased by RINGSBY TRUCK LINES, INC., 5773 S. Prince St., Littleton, CO 80120, of a portion of the operating rights of RINGSBY-PACIFIC, LTD., also of Littleton, CO 80120, and for acquisition by J. W. RINGSBY, also of Littleton, CO 80120, of control of such rights through the purchase. Applicants' attorney: Alvin J. Melklejohn, Jr., Suite 1600 Lincoln Center, 1660 Lincoln St., Denver, CO 80203. Operating rights sought to be transferred: *General commodities*, excepting among others, class A and B explosives, household goods and commodities in bulk, as a common carrier over regular routes, between Kalispell, Mont., and Coram, Mont., serving all intermediate points, and serving points within 5 miles of Coram as off-route points, between Spokane, Wash., and Great Falls, Mont., serving all intermediate points between Milltown, Mont. (not including Milltown), and Great Falls, between Coram, and Shelby, Mont., serving all intermediate points, between Browning, and Great Falls, Mont., serving no intermediate points, between Shelby, and Great Falls, Mont., serving no intermediate points, between Spokane, and Oroville, Wash., serving no intermediate and off-route points, between Oroville, Wash., and the United States-Canada Boundary Line approximately 8 miles north of Oroville, serving no immediate points, between points in Washington, serving all intermediate points, between Yakima, Wash., and

Portland, Oreg., serving the intermediate point of Toppenish, Wash., and the off-route point of Wapato, Wash.; *general commodities*, excepting among others, high explosives, and commodities in bulk, over irregular routes, from Portland, Oreg., to points in Yakima County, Wash., except Yakima, Wapato, and Toppenish, Wash.; *farm products*, except in bulk in tank vehicles, from points in Yakima County, Wash., to Portland, Oreg., and Seattle, Wash. (except from Yakima, Wapato, and Toppenish, Wash., to Portland, Oreg.); *paper*, from Oregon City, Oreg., to Hanford, Wash., and points in Yakima County, Wash.; *spray and spray materials*, except in bulk in tank vehicles, from Portland, Oreg., to Wenatchee, Wash., from Yakima, Wash., to Hood River, Oreg.; *powdered milk*, except in bulk in tank vehicles, from Sunnyside, Wash., to Portland, Oreg., over one alternate route for operating convenience only. Vendee is authorized to operate as a common carrier in all of the States in the United States (except Alaska and Hawaii). Application has been filed for temporary authority under section 210a(b).

NOTE.—MC-52709 (Sub-No. 330) directly related matter.

No. MC-F-12496. Authority sought for purchase by RINGSBY-PACIFIC, LTD., 5773 S. Prince St., Littleton, CO 80120, of a portion of the operating rights of RINGSBY TRUCK LINES, INC., also of Littleton, CO 80120, and for acquisition by J. W. RINGSBY, J. V. RINGSBY, D. W. RINGSBY, SUSAN R. PETREZAK, LINDA RINGSBY, and GARY RINGSBY, all of Littleton, CO 80120, of control of such rights through the purchase. Applicants' attorney: Alvin J. Melklejohn, Jr., Suite 1600 Lincoln Center, 1660 Lincoln St., Denver, CO 80203. Operating rights sought to be transferred: *General commodities*, excepting among others, Classes A and B explosives, livestock, household goods and commodities in bulk, as a common carrier over regular routes, between Aberdeen, and Hoquiam, Wash., between Mt. Vernon, and Sedro Woolley, Wash., serving the intermediate and off-route points of Burlington and Clear Lake, Wash., and those within three miles of Mt. Vernon, between Mt. Vernon, and Bellingham, Wash., serving all intermediate points; and off-route points within three miles of Mt. Vernon, between Anacortes, and Stanwood, Wash., serving all intermediate points; and off-route point of La Conner, Wash., and those within three miles of Mt. Vernon, between Vancouver, and Tacoma, Wash., serving various intermediate and off-route points, between Seattle and Bellingham, Wash., serving the intermediate points of Everett and Mt. Vernon, Wash., and all intermediate points between Mt. Vernon and Bellingham, Wash., and those within 30 miles of Mt. Vernon, Wash., between Aberdeen, and Olympia, Wash., between Aberdeen, and Centralla, Wash., serving all intermediate points, between Tenino, and Tacoma, Wash., between Bellingham,

Wash., and the Boundary line between the United States and Canada, serving various intermediate and off-route points with restriction: *meat, meat-products and meat by-products* as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, between Bellingham, and Blaine, Wash., serving no intermediate points, with restriction; *cranberry food products*, serving Markham, Wash., as an off-route point in connection with carrier's authorized regular route operations to and from Aberdeen, Wash., over one alternate route for operating convenience only; *shakes, shingles, and shingle trim*, over irregular routes, from points in Grays Harbor County, Wash., and points in that part of Jefferson County, Wash., west of the Olympic Mountains, to Portland, Oreg. Vendee is authorized to operate as a common carrier in California, Nevada, Oregon and Washington. Application has been filed for temporary authority under section 210a(b).

NOTE.—MC-108398 (Sub-No. 43), directly related matter.

No. MC-F-12510. (Correction) (IMPERIAL VAN LINES, INC.—CONTROL—MARTIN VAN LINES, INC.), Joseph O. Earp, Trustee, published in the May 7, 1975, issue of the FEDERAL REGISTER on page 19889. Prior notice should be modified to include under commodities of *Household goods* as defined by the Commission, between points in Rosebud, Custer, and Treasure Counties, Mont., except Forsyth, Mont., on the one hand, and, on the other, points in Minnesota, South Dakota, North Dakota, Wyoming, Idaho, Washington, and Montana, between Forsyth, Mont., on the one hand, and, on the other, points in Montana more than 125 miles from Forsyth, and those in Minnesota, South Dakota, North Dakota, Wyoming, Idaho, and Washington; in lieu of between points in Rosebud, Custer and Treasure Counties, Mont., except Forsyth, Mont., on the one hand, and, on the other, points in Montana more than 125 miles from Forsyth, and those in Minnesota, South Dakota, North Dakota, Wyoming, Idaho, and Washington.

No. MC-F-12514. Authority sought for control by CHROMALLOY AMERICAN CORPORATION, a non-carrier, 120 S. Central Ave., St. Louis, MO 63105, of F.M.S. TRANSPORTATION, INC., 900 North Alvarado, Los Angeles, CA 90026. Applicants' attorneys: E. Stephen Helsley, Suite 805, 666 Eleventh St., NW, Washington, DC 20001, and Kent E. Friedman, 120 S. Central Ave., St. Louis, MO 63105. Operating rights sought to be controlled: Order in No. MC-139206, conditioned the grant of authority therein upon the filing of this application by CHROMALLOY AMERICAN CORPORATION. Operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of textiles and textile products and materials, equipment

and supplies used in the same, manufacture, processing, production, and distribution of the above-named commodities (except commodities in bulk) between Laredo, Brenham, and Houston, Tex., Wellsville, Mo., and Johnson City, Tenn., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii). Chromalloy American Corporation has control of the Valley Line Company a regulated water carrier operating pursuant to certificate issued in W-78. Chromalloy American also controls American Transit Corp., which in turn controls certain motor carriers of passengers holding certificates from this Commission. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-12517. Authority sought for control by GRAVES TRUCK LINE, INC., 2130 South Ohio, Salina, KS 67401, of THOMAS CARTAGE, INC., 301 N. Wilson St., Amarillo, TX 79105, and for acquisition by WILLIAM H. GRAVES, also of Salina, KS 67401, of control of THOMAS CARTAGE, INC., through the acquisition by GRAVES TRUCK LINE, INC. Applicants' attorney: John E. Jandera, 641 Harrison St., Topeka, KS 66603. Operating rights sought to be controlled: *General commodities*, excepting among others, classes A and B explosives, household goods, and commodities in bulk, as a common carrier over regular routes, between Texhoma, Okla., on the Oklahoma-Texas State line, and Guymon, Okla., serving all intermediate points, between Amarillo, and Turkey, Tex., serving the intermediate points of Silberton and Quitaque, Tex., between Amarillo, Tex., and the Texas-Oklahoma State line, serving all intermediate points between Amarillo and Dumas, Tex., the intermediate points of Etter, Stratford, and Texhoma, Tex., and the off-route point of Sunray, Tex., between Amarillo, and Sunray, Tex., serving the intermediate points of Dumas, and Sheerin, Tex.; serving various off-route points, between Stratford, Tex., and Keyes, Okla., serving all intermediate points and the off-route point of the Bureau of Hines Keys Heliport Plant, Okla., between Dumas, and Stratford, Tex., serving all intermediate points, except Etter, Tex. GRAVES TRUCK LINE, INC., is authorized to operate as a common carrier in Kansas, Oklahoma, Nebraska, Texas, Missouri, and Colorado. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-12518. Authority sought for purchase by BRADA MILLER FREIGHT SYSTEM, INC., 1210 South Union St., Kokomo, IN 46901, of the operating rights of SHERIDAN EXPRESS CO., P.O. Box 486, Lansing, OH 43934, and for acquisition by BELFORD INVESTMENT CO., INC., also of Kokomo, IN 46901, of control of such rights through the purchase. Applicants' attorney: Edward K. Wheeler, 704 Southern Bldg., Washington, DC 20005. Operating rights sought to be transferred: *General commodities*, excepting among others, class

A and B explosives, household goods and commodities in bulk, as a common carrier over irregular routes, between points in Belmont County, Ohio, on the one hand, and, on the other, points in Brooke, Hancock, Marshall, and Ohio Counties, W. Va. Vendee is authorized to operate as a common carrier in Michigan, Ohio, Indiana, Illinois, Kentucky, Pennsylvania, Missouri, West Virginia, Iowa, Wisconsin, Tennessee, Kansas, Nebraska, South Dakota, North Dakota, Minnesota, and New York. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-12519. Authority sought for purchase by AL ZEFFIRO TRANSFER AND STORAGE, INC., P.O. Box 296, Murrysburg, PA 15668, of a portion of the operating rights of DAILY EXPRESS, INC., P.O. Box 39, Carlisle, PA, and for acquisition by MAWSON & MAWSON, INC., P.O. Box 125, Langhorne, PA 19047, of control of such rights through the purchase. Applicants' attorneys: James W. Patterson, 2107 The Fidelity Bldg., Philadelphia, PA 19109, P. F. Sullivan, Suite 711 Washington Bldg., 15th & New York Ave. NW, Washington, D.C. 20005, and James W. Hagar, 100 Pine St., Harrisburg, PA 17108. Operating rights sought to be transferred: *Commodities*, the transportation of which, because of their size or weight, require the use of special equipment, and *related iron and steel and iron and steel products* when their transportation is incidental to the transportation of said carrier of commodities which by reason of size or weight require special equipment, as a common carrier over irregular routes, between points within 80 miles of Columbus, Ohio, including Columbus, on the one hand, and, on the other, points in Wayne County, Ohio, Guernsey County, Ohio, and Athens County, within 80 miles of Columbus, Ohio, between points in Wayne County, Ohio, Guernsey County, Ohio, and Athens County, Ohio, within 80 miles of Columbus, Ohio, on the one hand, and, on the other, points in Kentucky, West Virginia, Indiana, Michigan, Pennsylvania, Illinois, and New York. Vendee is authorized to operate as a common carrier in Pennsylvania, Ohio, Delaware, Maryland, New York, West Virginia, and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

Notice is hereby given that on April 17, 1975, an application was filed in Finance Docket No. 27891 by the BRUSCO TOWBOAT COMPANY, a Washington Corporation, to acquire by purchase all of the outstanding common stock of COLUMBIA TUG BOAT COMPANY, an Oregon Corporation, from Robert Brusco and upon Commission approval to thereafter merge the properties of COLUMBIA TUG BOAT COMPANY, into BRUSCO TOWBOAT COMPANY by statutory merger and for Roland E. Brusco to acquire control of the rights and properties of COLUMBIA TUG BOAT COMPANY, through controlling stock ownership of BRUSCO TOWBOAT COMPANY.

## NOTICES

The operating rights of Columbia Tug Boat Co. which are proposed to be acquired and merged into Brusco Towboat Company will extend Brusco Towboat's authority to perform general towing by non-self-propelled vessels and separate towing vessels from Vancouver, Washington, to points along the Columbia River as far east as Bonneville Dam and from Wauna, Oregon, as far west as the mouth of the Columbia River and on the Willamette River from Portland to Oregon City, Oregon.

Applicants have stated that the requested Commission action involves no known effect on the quality of the human environment. In accordance with the Commission's regulations (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation-National Environmental Policy Act, 1969*, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), supra, Part (b) (1)-(5), 340 I.C.C. 431, 461.

No applicant for temporary authority pertaining to this proceeding has been filed under Section 311(b). The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission on or before June 20, 1975.

Finance Docket No. 27589 (Petitions for Reopening and Modification to Approve and Authorize Participation of 25 Additional Common Carriers by Railroad) (American Rail Box Car Company and Trailer Train Company et al.—For Approval of the Pooling of Car Service in Respect to Box Cars), published in the March 12, 1974, issue of the *FEDERAL REGISTER*. By petition filed March 27, 1975, 25 additional common carriers by railroad seek modification of the report and order of August 1, 1974, as modified by supplemental report and order of September 24, 1974, which approved the box car pooling agreement in the above-entitled proceeding, subject to conditions, in order to permit the petitioning railroads to join in the box car pooling arrangement as full and equal participants. The 25 petitioning railroads are:

Alameda Belt Line  
The Apache Railway Company  
Atlanta & Saint Andrews Bay Railway Company  
Camino, Placerville & Lake Tahoe Railroad Company  
Chattahoochee Valley Railway Company  
Chicago Short Line Railway Company  
The Colorado and Southern Railway Company  
Columbia & Cositz Railway Company  
Des Moines and Central Iowa Railway Company  
Duluth & Northeastern Railroad Company  
East Camden & Highland Railroad Company  
East Erie Commercial Railroad  
Fort Worth and Denver Railway Company  
Green Mountain Railroad Corporation  
Houston Belt & Terminal Railway Company  
Kansas City Terminal Railway Company  
Manufacturers' Junction Railway Company  
Marquette, Tomahawk & Western Railroad Company  
The Oakland Terminal Railway  
Oregon, California & Eastern Railway Company  
Public Belt Railroad Commission  
Sabine River & Northern Railroad Company  
St. Johnsbury & Lamoille County Railroad  
Vaidosta Southern Railroad Company  
Wharton & Northern Railroad Company

Duluth, Missabe and Iron Range Railway Company (DMIR) with offices at Room 500, Missabe Building, Duluth, Minnesota 55802, represented by Mr. Daniel H. Core, Jr., hereby gives notice, that on the 22nd day of April, 1975 it filed with the Interstate Commerce Commission at Washington, D.C. in Finance Docket No. 27893 an Application for authority to use and operate over approximately 10.0 miles of main line track of the Duluth, Winnipeg and Pacific Railway Company (DWP) from a point near DWP Milepost 77 north of the City of Virginia, St. Louis County, Minnesota, to a point at Ramshaw, Minnesota, south and west of the City of Eveleth, St. Louis County, Minnesota, for the purpose of performing common carrier service for the new Monroca Plant of Inland Steel Mining Company.

Applicant contends that the granting of the authority to operate over the trackage in question is not a major federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation-National Environmental Policy Act, 1969*, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), supra, Part (b) (1)-(5), 340 I.C.C. 431, 461.

The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission on or before June 30, 1975.

The Crown Zellerbach Corporation, One Bush Street, San Francisco, California 94119, represented by Mr. Arthur L. Winn, Jr., Attorney At Law, 743 Investment Building, Washington, D.C. 20005, hereby gives notice that on April 10, 1975, in Finance Docket No. 27884, an application was filed for authority to control by stock ownership, the Palantic Steamship Company, Inc., a contract carrier by water by self-propelled vessels and by non-propelled vessels with the use of separate towing vessels of lumber products from Pacific coast ports in the States of Washington, Oregon and California to Atlantic coast ports in the States of New York, Connecticut, Rhode Island, Pennsylvania, Delaware and Maryland while continuing to control, through stock ownership, Western Transportation Co., a common carrier by non-self-propelled vessels with the use of separate towing vessels of commodities generally on the Columbia River below Bonneville Dam and its tributaries but not including the Willamette River above Pulp, Oregon and in the performance of freight-car ferry service between Cathlamet and Longview, Washington. The water carriers referred to have conducted operations for many years under the authority held by them; and no change in such operations is contemplated as a result of the proposed transaction. No application for temporary authority under section 311 (b) has been filed in connection with this transaction.

In the opinion of the applicant, the granting of this application will have no effect upon the quality of the human environment. In accordance with the Commission's regulations (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation-National Environmental Policy Act, 1969*, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), supra, Part (b) (1)-(5), 340 I.C.C. 431, 461. The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than thirty days from the day of first publication in the *FEDERAL REGISTER*.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,  
Acting Secretary.

#### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

MAY 21, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission

## NOTICES

22201

pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before June 10, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75615. By order of May 14, 1975 the Motor Carrier Board approved the transfer to Willetts' Travel Service, Inc., Frostburg, Md., of the operating rights in Certificate No. MC-135176 issued April 28, 1971 to Charles J. Everly, Hagerstown, Md., authorizing the transportation of passengers and their baggage, and express, newspapers, and mail, over regular routes between specified points in Maryland and West Virginia. S. Harrison Kahn, Suite 733 Investment Bldg., Washington, D.C. 20005 Attorney for applicants.

No. MC-FC-75812. By order of May 14, 1975 the Motor Carrier Board approved the transfer to Bux Mont Express Co., a corporation, Lansdale, Pa., of that portion of the operating rights in Certificate No. MC-133082 issued June 4, 1974, to Moore's Hauling, Inc., Lansdale, Pa., authorizing the transportation of packaging materials, from the plant site of Paramount Packaging Corp., in the Borough of Chalfont, Bucks County, Pa., to points in New York, New Jersey, Maryland, and the District of Columbia. Peter A. Greene, 1425 K Street NW, Washington, D.C. 20006 Attorney for applicants.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Notice No. 56]

#### MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

MAY 15, 1975.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR 1131) published in the *FEDERAL REGISTER*, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the

granting of an application must be filed with the field official named in the *FEDERAL REGISTER* publication, within 15 calendar days after the date of notice of the filing of the application is published in the *FEDERAL REGISTER*. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

No. MC 52858 (Sub-No. 113TA) (Correction), filed April 28, 1975, published in the *FEDERAL REGISTER* issue of May 12, 1975, and republished as corrected this issue. Applicant: CONVOY COMPANY, 3900 NW. Yeon Ave., Portland, Ore. 97210. Applicant's representative: William C. Parks (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Automobiles and trucks* in truckaway service in secondary movements, between points in Colorado, on the one hand, and, points in Oklahoma on the other, for 180 days. Supporting shippers: There are approximately 20 statements attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field named below. Send protests to: W. J. Huetig, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 114 Pioneer Courthouse, Portland, Ore. 97204. The purpose of this republication is to state irregular routes, in lieu of regular routes.

No. MC 59640 (Sub-No. 44TA) (Correction), filed April 24, 1975, published in the *FEDERAL REGISTER* issue of May 9, 1975, and republished as corrected this issue. Applicant: PAULS TRUCKING CORPORATION, Three Commerce Drive, Cranford, N.J. 07106. Applicant's representative: Charles J. Williams, 47 Lincoln Park, Newark, N.J. 07102. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Such commodities* as is dealt in by wholesale, retail and chain grocery and food business houses, catalogue showroom stores, and home center stores, and in connection therewith, equipment, materials and supplies used in the conduct of such businesses, except commodities in bulk over irregular routes, (1) between Milford, Conn., on the one hand, and, on the other, points in Delaware, New York, New Jersey, Massachusetts, and Pennsylvania, and (2) between North Berwick, Maine, on the one hand, and, on the other, points in Connecticut, Delaware, New Jersey, New York, Massachusetts, and Pennsylvania. Restriction: The authority sought herein is limited to a transportation serv-

ice to be performed under a continuing contract or contracts, with Supermarkets General Corporation, for 180 days. Supporting shipper: Supermarkets General Corporation, 301 Blair Road, Woodbridge, N.J. 07095. Send protests to: Robert E. Johnston, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 9 Clinton St., Newark, N.J. 07102. The purpose of this republication is to state irregular routes, in lieu of regular routes.

# IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

## Elimination of Gateway Letter Notices

MAY 15, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065) and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before June 2, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 21170 (Sub-No. E140), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushki (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of Section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in that part of Minnesota on and east of a line beginning at Lake Superior and extending along U.S. Highway 61 to junction Minnesota Highway 1, thence along Minnesota Highway 169, thence along Minnesota Highway 169 to junction Minnesota County Truck Highway 18, thence along Minnesota County Truck Highway 18 to the United States-Canada International Boundary line, to points in Kansas on and south of a line beginning at the Missouri-Kansas State line and extending along U.S. Highway 54 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Kansas Highway 7, thence along Kansas Highway 7 to junction

Kansas Highway 39, thence along Kansas Highway 39 to junction Kansas Highway 96, thence along Kansas Highway 96 to junction unnumbered highway at Predmont, thence along unnumbered highway to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Kansas Highway 15, thence along Kansas Highway 15 to junction Kansas Highway 55, thence along Kansas Highway 55 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction unnumbered highway, thence along unnumbered highway to junction Kansas Highway 2, thence along Kansas Highway 2 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction U.S. Highway 270, thence along U.S. Highway 270 to junction U.S. Highway 56, thence along U.S. Highway 56 to the Kansas-Oklahoma State line. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The above authorities were purchased by Cedar Rapids Steel Transportation pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E147), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushki (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of Section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in that part of Minnesota on, south, and west of a line beginning at the South Dakota-Minnesota State line and extending along U.S. Highway 14 to junction unnumbered highway near Tracy, thence along unnumbered highway through Currie to junction U.S. Highway 59, thence along U.S. Highway 59 to the Minnesota-Iowa State line, to points in Vermont. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The above authorities were purchased by Cedar Rapids Steel Transportation pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E148), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushki (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of Section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in that part of Minnesota on, south, and west of a line beginning at the South Dakota-Minnesota State line and extending along Minnesota Highway 28 to junction

U.S. Highway 75, thence along U.S. Highway 75 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Minnesota Highway 119, thence along Minnesota Highway 119 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 212, thence along U.S. Highway 212 to junction Minnesota Highway 67, thence along Minnesota Highway 67 to junction Minnesota Highway 274, thence along Minnesota Highway 274 to junction Minnesota Highway 68, thence along Minnesota Highway 68 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Minnesota Highway 30, thence along Minnesota Highway 30 to junction Minnesota Highway 15, thence along Minnesota Highway 15 to the Minnesota-Iowa State line, to points in Maine. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The above authorities were purchased by Cedar Rapids Steel Transportation pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E149), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushki (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of Section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in that part of Minnesota on a line beginning at the Iowa-Minnesota State line and extending along U.S. Highway 35 to junction Minnesota Highway 30, thence along Minnesota Highway 30 to junction Minnesota Highway 83, thence along Minnesota Highway 83 to junction Minnesota Highway 22, thence along Minnesota Highway 22 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Minnesota Highway 93, thence along Minnesota Highway 93 to junction Minnesota Highway 19, thence along Minnesota Highway 19 to junction unnumbered highway, thence along unnumbered highway to junction U.S. Highway 212 near Glencoe, thence along U.S. Highway 212 to junction Minnesota Highway 4, thence along Minnesota Highway 4 to junction Minnesota Highway 7, thence along Minnesota Highway 7 to junction Minnesota Highway 104, thence along Minnesota Highway 104 to junction Minnesota Highway 9, thence along Minnesota Highway 9 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Minnesota Highway 55, thence along Minnesota Highway 55 to junction unnumbered highway at Nashua, thence along Minnesota unnumbered highway to junction Minnesota Highway 210, thence along Minnesota Highway 210 to the Minnesota-North Dakota State line, to points in Maine on and east of a line beginning at the

Maine-New Hampshire State line and extending along Maine Highway 15 to junction U.S. Highway 95, thence along U.S. Highway 95 to junction Maine Highway 11, thence along Maine Highway 11 to the United States-Canada International Boundary line. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The above authorities were purchased by Cedar Rapids Steel Transportation pursuant to MC-F-10199.

No. MC 21170 (Sub-No. E150), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushki (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Food products and commodities exempt from economic regulation pursuant to the provisions of Section 203(b)(c) of the Interstate Commerce Act in mixed loads with food products, restricted to such commodities as are dealt in by retail, wholesale, and chain grocery stores, from points in that part of Minnesota on and east of a line beginning at the Iowa-Minnesota State line and extending along Minnesota unnumbered highway to junction Minnesota Highway 16 at Albert Lea, thence along Minnesota Highway 16 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Minnesota Highway 60, thence along Minnesota Highway 60 to junction Minnesota Highway 3, thence along Minnesota Highway 3 to junction unnumbered highway near Northfield, thence along unnumbered highway through Hampton to junction U.S. Highway 61, thence along U.S. Highway 61 to the Minnesota-Wisconsin State line, to points in that part of Colorado on and south of a line beginning at the New Mexico-Colorado State line and extending along U.S. Highway 84 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction Colorado Highway 184, thence along Colorado Highway 184 to junction Colorado Highway 147, thence along Colorado Highway 147 to junction U.S. Highway 666, thence along U.S. Highway 666 to the Colorado-Utah State line. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo. The above authorities were purchased by Cedar Rapids Steel Transportation pursuant to MC-F-10199.

No. MC 33093 (Sub-No. E11), filed May 16, 1974. Applicant: GRAY VAN LINES, INC., P.O. Box 25085, Oklahoma City, Okla. 73125. Applicant's representative: Robert J. Gallagher, 1776 Broadway, New York, N.Y. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Household goods, as uncrated between points in Oklahoma, on the one hand, and, on the other, points in Illinois. The purpose of this filing is to eliminate the gateways of Atoka, Choctaw, Haskell, Le Flore, Latimer, McCurtain, McIntosh, Pittsburg, and Pushmataha Counties, Okla.

No. MC 52704 (Sub-No. E8) (Correction), filed June 3, 1974, published in the FEDERAL REGISTER May 2, 1975. Applicant: GLENN MCCLENDON TRUCKING CO., INC., Lafayette, Ala. Applicant's representative: Archie B. Culbreth, Suite 246, 1252 W. Peachtree NW., Atlanta, Ga. 30309. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Glass containers, for beverages and food, from points in Georgia south of Interstate Highway 20 but including Augusta, Ga., to points in West Virginia on and east of U.S. Highway 19, and on and north of U.S. Highway 33. The purpose of this filing is to eliminate the gateway of Henderson, N.C. The purpose of this correction is to correct the "E" number, previously published as E81.

No. MC 100666 (Sub-No. E232), filed May 25, 1974. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Richard W. May (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Composition or prepared roofing, from points in Arkansas (except those points on, north, and east of a line beginning at junction U.S. Highway 63 and the Missouri-Arkansas State line, thence along U.S. Highway 63 to junction U.S. Highway 61, thence along U.S. Highway 61 to the Mississippi River, on the one hand, and, on the other, points in Tennessee on, west, and north of a line beginning at junction U.S. Highway 45W and the Kentucky-Tennessee State line, thence along U.S. Highway 45W to junction Kentucky Highway 54, thence along Kentucky Highway 54 to junction with the Hatchie River, thence along the Hatchie River to junction with the Mississippi River. The purpose of this filing is to eliminate the gateway of West Memphis, Ark.

No. MC 107002 (Sub-No. E63), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Anthol, cymene, esterified tall oil, liquid soap, nalene, paracymene, paramethane, hydroperoxide, ptene, pine oil fatty acids, tall oil pitch, turpentine, and zinc resinates, in bulk, in tank vehicles, from Harrison and Jackson Counties, Miss., to points in New Jersey. The purpose of this filing is to eliminate the gateway of Bay Minette, Ala.

No. MC 107002 (Sub-No. E64), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Anhy-

drous ammonia and acids, in bulk, and ammonium nitrate, fertilizer and fertilizer ingredients, in bulk, in tank vehicles, from the plant and storage facilities of Arkla Chemical Corporation, in Phillips County, to points in South Carolina, restricted to the transportation of shipments originating at the plant and storage facilities of Arkla Chemical Corporation, in Phillips County, Ark. The purpose of this filing is to eliminate the gateway of Decatur, Ala.

No. MC 107002 (Sub-No. E65), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Anhydrous ammonia and acids, liquid, in bulk, and ammonium nitrate, fertilizer and fertilizer ingredients, which are liquid chemicals (except hydrogen peroxide), in bulk, from the plant and storage facilities of Arkla Chemical Corporation, in Phillips County, Ark., to points in Ohio, restricted to the transportation of shipments originating at the plant and storage facilities of Arkla Chemical Corporation, in Phillips County, Ark. The purpose of this filing is to eliminate the gateway of Memphis, Tenn.

No. MC 107002 (Sub-No. E66), filed May 12, 1974. Applicant: MILLER TRANSPORTS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Anhydrous ammonia and acids, liquid, in bulk, and ammonium nitrate, fertilizer and fertilizer ingredients, which are liquid chemicals, liquid, in bulk, in tank vehicles, from the plant and storage facilities of Arkla Chemical Corporation in Phillips County, Ark., to points in Georgia. The purpose of this filing is to eliminate the gateway of Fox, Ala.

No. MC 107002 (Sub-No. E67), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquid caustic soda, in bulk, in tank vehicles, from McIntosh, Ala., to points in West Virginia. The purpose of this filing is to eliminate the gateway of the plant site of Monsanto Chemical Company in Anniston, Ala., and Harrison and Jackson Counties, Miss.

No. MC 107002 (Sub-No. E68), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Naval stores and naval store products, restricted to chemicals, in bulk, in tank vehicles, from Mobile, Ala., to points in Pennsylvania. The purpose of this filing

is to eliminate the gateway of Picayune, Miss.

No. MC 107002 (Sub-No. E69), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except fertilizer and fertilizer ingredients), in bulk, in tank vehicles, from Memphis, Tenn., to those points in Kansas on, north, and west of a line beginning at the Kansas-Missouri State line, and extending along Interstate Highway 70 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Kansas Turnpike, thence along Kansas Highway 99, thence along Kansas Highway 99 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction Kansas Highway 177, thence along Kansas Highway 177 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Oklahoma State line. The purpose of this filing is to eliminate the gateway of those points in Tennessee which are within 10 miles of Barfield, Ark.

No. MC 107002 (Sub-No. E70), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except fertilizer and fertilizer ingredients), in bulk, in tank vehicles, from Memphis, Tenn., to points in Kentucky. The purpose of this filing is to eliminate the gateway of those points in Tennessee which are within 10 miles of Barfield, Ark.

No. MC 107002 (Sub-No. E71), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except fertilizer and fertilizer ingredients), in bulk, in tank vehicles, from Memphis, Tenn., to points in Ohio. The purpose of this filing is to eliminate the gateway of those points in Tennessee which are within 10 miles of Barfield, Ark.

No. MC 107002 (Sub-No. E72), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from points in Covington, Jones, Wayne, Greene, Perry, Forrest, Lamar, Marion, Walthall, Pike, Pearl River, Stone, George, Hancock,

Harrison, and Jackson Counties, Miss., to points in Michigan. The purpose of this filing is to eliminate the gateway of Mobile, Ala.

No. MC 107002 (Sub-No. E73), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except fertilizer and fertilizer ingredients), in bulk, in tank vehicles, from Memphis, Tenn., to points in Iowa. The purpose of this filing is to eliminate the gateway of Arlington, Tenn.

No. MC 107002 (Sub-No. E74), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dry chemicals* (except fertilizer and fertilizer ingredients), in bulk, in tank vehicles, from Memphis, Tenn., to points in Indiana. The purpose of this filing is to eliminate the gateway of Arlington, Tenn.

No. MC 107002 (Sub-No. E75), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia and acids*, in bulk, and *ammonium nitrate, fertilizer and fertilizer ingredients*, which are chemicals, in bulk, from the plant and storage facilities of Arkla Chemical Corporation, in Phillips County, Ark., to points in Michigan. The purpose of this filing is to eliminate the gateways of Barfield, Ark., and points within 10 miles thereof.

No. MC 107002 (Sub-No. E101), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except arsenic acid, acetic acid, wood alcohol, and hydrogen peroxide), in bulk, in tank vehicles, from Barfield, Ark., and points within 10 miles thereof, to Longview, Tex., and those points in Texas on, west, and south of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 281 to junction U.S. Highway 87, thence along U.S. Highway 87 to the Gulf of Mexico. The purpose of this filing is to eliminate the gateway of Memphis, Tenn.

No. MC 107002 (Sub-No. E102), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Anhydrous am-*

*monia and acids*, and *ammonium nitrate, fertilizer, and fertilizer ingredients*, in bulk, in tank or hopper-type trailers, from the plant and storage facilities of Arkla Chemical Corporation, in Phillips County, Ark., to points in Florida. The purpose of this filing is to eliminate the gateway of Mobile, Ala.

No. MC 107002 (Sub-No. E103), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals* (except liquid hydrogen, liquid oxygen, or liquid nitrogen), in bulk, in tank vehicles, from Taylorsville, Miss., to points in Michigan. The purpose of this filing is to eliminate the gateway of those points in Louisiana which are within the Vicksburg, Miss., commercial zone, and Barfield, Ark., and points within 10 miles thereof.

No. MC 107002 (Sub-No. E104), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Nitric acid, dry fertilizer, and fertilizer solutions*, in bulk, in tank, or hopper-type vehicles, from the plant of Mississippi Chemical Corporation near Yazoo City, Miss., to points in Kentucky. The purpose of this filing is to eliminate the gateway of Barfield, Ark., and points within 10 miles thereof.

No. MC 107002 (Sub-No. E105), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Nitric acid, dry fertilizer, and fertilizer solutions*, in bulk, in tank or hopper-type vehicles, from the site of the plant of Mississippi Chemical Corporation near Yazoo City, Miss., to points in Indiana. The purpose of this filing is to eliminate the gateway of Barfield, Ark., and points within 10 miles thereof.

No. MC 107002 (Sub-No. E106), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Nitric acid, dry fertilizer, and fertilizer solutions*, in bulk, in tank or hopper-type vehicles, from the plant site of Mississippi Chemical Corporation near Yazoo City, Miss., to points in Illinois. The purpose of this filing is to eliminate the gateway of Barfield, Ark., and points within 10 miles thereof.

No. MC 107002 (Sub-No. E107), filed May 12, 1974. Applicant: MILLER

TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Nitric acid, dry fertilizer, and fertilizer solutions*, in bulk, in tank or hopper-type vehicles, from the plant site of Mississippi Chemical Corporation near Yazoo City, Miss., to points in Michigan. The purpose of this filing is to eliminate the gateway of Barfield, Ark., and points within 10 miles thereof.

No. MC 107002 (Sub-No. E108), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Nitric acid, dry fertilizer, and fertilizer solutions*, in bulk, in tank or hopper-type vehicles, from the plant site of Mississippi Chemical Corporation near Yazoo City, Miss., to points in Wisconsin. The purpose of this filing is to eliminate the gateway of Barfield, Ark., and points within 10 miles thereof.

No. MC 107002 (Sub-No. E109), filed May 12, 1974. Applicant: MILLER TRANSPORTERS, P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: H. D. Miller, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Nitric acid, dry fertilizer, and fertilizer solutions*, in bulk, in tank or hopper-type vehicles, from the plant site of Mississippi Chemical Corporation near Yazoo City, Miss., to points in Iowa. The purpose of this filing is to eliminate the gateway of Barfield, Ark., and points within 10 miles thereof.

No. MC 107403 (Sub-No. E647), (Correction), filed January 31, 1975, published in the *FEDERAL REGISTER* May 2, 1975. Applicant: MATLACK, INC., 10 W. Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Gasoline and fuel oil*, in bulk, in tank vehicles, from Syracuse, N.Y., to points within 150 miles of Monongahela, Pa., in Ohio, West Virginia, and Pennsylvania (except points in Pennsylvania east of U.S. Highway 220). The purpose of this filing is to eliminate the gateway of Bradford, Pa. The purpose of this correction is to correct the "E" number, previously published as E487.

No. MC 107515 (Sub-No. E518) (Correction), filed January 27, 1975, published in the *FEDERAL REGISTER* May 2, 1975. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 380, Forest Park, Ga. 33050. Applicant's representative: R. M. Tittlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over

irregular routes, transporting: (3) *Yeast and yeast products* (except in bulk), in vehicles equipped with mechanical refrigeration, from Belle Chase, La., to all points in Virginia and West Virginia and that part of Kentucky on and east of a line beginning at the Kentucky-Tennessee State line and extending along Kentucky Highway 61 to junction U.S. Highway 31E, thence along U.S. Highway 31E to the Kentucky-Indiana State line. The purpose of this filing is to eliminate the gateway of Atlanta, Ga. The purpose of this partial correction is to expand the destination territory. The remainder of this letter-notice remains as previously published.

No. MC 107515 (Sub-No. E612), filed January 27, 1975. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods*; (1) from points in California on and south of a line beginning at the California-Nevada State line and extending along Interstate Highway 80 to junction California Highway 20, thence along California Highway 20 to the Pacific Ocean, to points in that

portion of Indiana on, south, or east of a line beginning at the Indiana-Illinois State line and extending along Indiana Highway 154 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Indiana Highway 54, thence along Indiana Highway 54 to junction Indiana Highway 45, thence along Indiana Highway 45 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction Indiana Highway 67, thence along Indiana Highway 67 to the Ohio-Indiana State line, and points in that portion of Ohio on, south, or east of a line beginning at the Ohio-Indiana State line and extending along Ohio Highway 29 to junction U.S. Highway 25, thence along U.S. Highway 25 to junction U.S. Highway 224, thence along U.S. Highway 224 to junction Ohio Highway 18, thence along Ohio Highway 18 to junction Ohio Highway 269, thence along Ohio Highway 269 to Lake Erie; (2) from points in California in and south of Marin, Contra Costa, San Joaquin, Stanislaus, Mariposa, Madera, Fresno, and Inyo Counties, Calif., to points in that portion of Ohio on, south, or east of U.S. Highway 24; (3) from points in that portion of California on, south, or west of a line beginning at San Francisco and extending along Interstate Highway 80 to junction Interstate Highway 580, thence along Interstate Highway 580, to junction California Highway 99, thence along California Highway 99 to junction California Highway 58, thence along California Highway 58 to junction U.S. Highway 66, thence along U.S. Highway 66 to the California-Arizona State line, to points in that portion of Indiana on or south of a line beginning at the Illinois-Indiana State line and extending

along U.S. Highway 136 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Indiana Highway 28, thence along Indiana Highway 28 to junction Indiana Highway 25, thence along Indiana Highway 25 to junction Indiana Highway 24, thence along Indiana Highway 24 to the Ohio-Indiana State line; and (4) from points in that portion of California on and south of a line beginning at the Pacific Ocean at Moss Landing, Calif., and extending along California Highway 1 to junction California Highway 156, thence along California Highway 156 to junction California Highway 25, thence along California Highway 25 to junction California Highway J-2, thence along California Highway J-1 to junction California Highway 80 near Mendota, thence along California Highway 180 to Fresno, thence along California Highway 99 to junction California Highway 198, thence along California Highway 198 to junction California Highway 65, thence along California Highway 65 to junction California Highway 58, thence along California Highway 58 to junction U.S. Highway 66, thence along U.S. Highway 66 to the California-Arizona State line, to points in Ohio and Indiana. The purpose of this filing is to eliminate the gateway of Florence, Ala.

No. MC 107678 (Sub-No. E15), filed June 4, 1974. Applicant: HILL & HILL TRUCK LINE, INC., P.O. Box 9698, Houston, Tex. 77015. Applicant's representative: Jay W. Elston, Bank of The Southwest Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, equipment, materials and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof (except in connection with main or trunk pipe lines), between all points in New Mexico in Union, Quay, Curry, Roosevelt, Lea, Eddy, Chaves, De Baca, Otero, and Dona Ana Counties, N. Mex., on the one hand, and, on the other, all points in Montana and Wyoming. The purpose of this filing is to eliminate the gateway of Texas.

No. MC 107678 (Sub-No. E16), filed June 4, 1974. Applicant: HILL & HILL TRUCK LINE, INC., P.O. Box 9698, Houston, Tex. 77015. Applicant's representative: Jay W. Elston, Bank of The Southwest Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission,

and distribution of natural gas and petroleum and their products and by-products, and *machinery, equipment, materials, and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof (except in connection with main or trunk pipelines), between all points in and east of Dona Ana, Otero, Chaves, DeBaca, Quay, Harding, and Colfax Counties, N. Mex., on the one hand, and, on the other, all points in Nevada. The purpose of this filing is to eliminate the gateway of Texas or Oklahoma.

No. MC 107678 (Sub-No. E19), filed June 4, 1974. Applicant: HILL & HILL TRUCK LINE, INC., P.O. Box 9698, Houston, Tex. 77015. Applicant's representative: Jay W. Elston, Bank of The Southwest Bldg., Houston, Tex. 77002. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, equipment, materials, and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof (except in connection with main or trunk pipe lines); (a) between all points in Nevada, on the one hand, and, on the other, all points in Kansas in and southeast of Greeley, Wichita, Scott, Lane, Ness, Ellis, Russell, Lincoln, Mitchell, Cloud, and Republic Counties, Kans.; and (b) between all points in Kansas, on the one hand, and, on the other, all points in Nevada in and west of Washoe, Churchill, Nye, and Clark Counties, Nev. The purpose of this filing is to eliminate the gateway of Texas or Oklahoma.

No. MC 107678 (Sub-No. E20), filed June 4, 1974. Applicant: HILL & HILL TRUCK LINE, INC., P.O. Box 9698, Houston, Tex. 77015. Applicant's representative: Jay W. Elston, Bank of The Southwest Bldg., Houston, Tex. 77002. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, restricted against the stringing or picking up of pipe in connection with pipelines, over irregular routes, between all points in that portion of Colorado located on and south of U.S. Highway 40 from the Colorado-Kansas State line to Denver, Colo., and on and west of U.S. Highway 85 from

the Colorado-Wyoming State line to Denver, Colo., on the one hand, and, on the other, all points in that portion of Mississippi located on and south of U.S. Highway 80, all points in that portion of Alabama located on and south of U.S. Highway 80, all points in that portion of Georgia, located on and south of U.S. Highway 280, and all points in Florida. The purpose of this filing is to eliminate the gateway of Harris County, Tex.

No. MC 107678 (Sub-No. E21), filed June 4, 1974. Applicant: HILL & HILL TRUCK LINE, INC., P.O. Box 9698, Houston, Tex. 77015. Applicant's representative: Jay W. Elston, Bank of The Southwest Bldg., Houston, Tex. 77002. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, restricted against the stringing or picking up of pipe in connection with pipe lines, over irregular routes, between all points in Utah, on the one hand, and, on the other, all points in Arkansas in Union, Ashley, and Chicot Counties, Ark., all points in Mississippi in and south of Washington, Humphreys, Holmes, Attala, Choctaw, Oktobeha, and Lowndes Counties, Miss., all points in Alabama in and south of Pickens, Tuscaloosa, Jefferson, Saint Clair, Etowah, and Cherokee Counties, Ala., all points in Georgia in and south of Floyd, Gordon, Pickens, Dawson, Lumpkin, White, and Rabun, and all points in Florida. The purpose of this filing is to eliminate the gateway of Harris County, Tex.

No. MC 107678 (Sub-No. E25), filed June 4, 1974. Applicant: HILL & HILL TRUCK LINE, INC., P.O. Box 9698, Houston, Tex. 77015. Applicant's representative: Jay W. Elston, Bank of The Southwest Bldg., Houston, Tex. 77002. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, restricted against the stringing or picking up of pipe in connection with pipe lines, over irregular routes, between all points in North Dakota on and west of a line beginning at the United States-Canada International Boundary line extending along North Dakota Highway 30 to junction unnumbered highway at Lehr, N.

Dak., thence along unnumbered highway to junction North Dakota Highway 3, thence along North Dakota Highway 3 to the North Dakota-South Dakota State line, on the one hand, and, on the other, points in Arkansas in and south of Polk, Montgomery, Garland, Saline, Pulaski, Lonoke, Prairie, Monroe, St. Francis, and Chittenden Counties, Ark., all points in Mississippi in and south of DeSoto, Tate, Lafayette, Union, Lee, and Itawamba Counties, Miss., all points in Alabama, in and south of Marion, Winston, Cullman, Blount, Etowah, Calhoun, and Cleburne Counties, Ala., all points in Georgia in and south of Polk, Paulding, Cobb, Gwinnett, Walton, Morgan, Greene, Taliaferro, Warren, Jefferson, and Richmond Counties, Ga., and all points in Florida. The purpose of this filing is to eliminate the gateway of Texas.

No. MC 107678 (Sub-No. E26), filed June 4, 1974. Applicant: HILL & HILL TRUCK LINE, INC., P.O. Box 9698, Houston, Tex. 77015. Applicant's representative: Jay W. Elston, Bank of The Southwest Bldg., Houston, Tex. 77002. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, restricted against the stringing or picking up of pipe in connection with pipelines, over irregular routes, between points in South Dakota west of the Missouri River and on and north of U.S. Highway 14, on the one hand, and, on the other, points in Mississippi in and south of DeSoto, Tate, Lafayette, Union, Lee, and Itawamba Counties, Miss., in and south of Marion, Winston, Cullman, Blount, Etowah, Calhoun, and Cleburne Counties, Ala., all points in Georgia in and south of Polk, Paulding, Cobb, Gwinnett, Walton, Morgan, Greene, Taliaferro, Warren, Jefferson, and Richmond Counties, Ga., and all points in Florida. The purpose of this filing is to eliminate the gateway of Texas.

No. MC 113855 (Sub-No. E33), filed May 30, 1974. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd. SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which, because of their size or weight, require the use of special equipment (except boats and iron and steel articles), and related *machinery, parts, and supplies* when their transportation is incidental to

the transportation by said carrier of commodities which by reason of size or weight require special equipment; and (2) *Self-propelled articles*, each weighing 15,000 pounds or more and related *machinery, tools, parts, and supplies* moving in connection therewith (restricted to commodities transported on trailers); (a) between points in Minnesota on and west of U.S. Highway 59 from the Minnesota-Manitoba border in a southerly direction to the junction of U.S. Highway 2, thence along U.S. Highway 71 to the Minnesota-Iowa State line, on the one hand, and, on the other, points in New York on and east of New York Highway 30 from the United States-Canada International Boundary line in a southerly direction to junction New York Highway 17, thence along New York Highway 17 to the New York-Pennsylvania State line; and (b) between points in Minnesota on, south, and west of Minnesota Highway 28 from the Minnesota-South Dakota State line to junction U.S. Highway 59, thence along U.S. Highway 59 to the Minnesota-Iowa State line, on the one hand, and, on the other, points in New York on and east of a line beginning at Oswego, N.Y., along New York Highway 57 to junction Interstate Highway 81, thence along Interstate Highway 81 to the New York-Pennsylvania State line. The purpose of this filing is to eliminate the gateways of South Dakota and points in Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line and extending along unnumbered highway (formerly portion U.S. Highway 15) to junction Business U.S. Highway 15, near Fairplay, Pa., thence along Business U.S. Highway 15 through Gettysburg, Pa., to junction U.S. Highway 15, thence along U.S. Highway 15 to junction unnumbered highway (formerly portion U.S. Highway 15), thence along unnumbered highway through Clear Spring, Pa., to junction U.S. Highway 15, thence along U.S. Highway 15 to the Pennsylvania-New York State line (except points in Berks, Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa., and points in Pennsylvania on and east of the above described line in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., and points in Pennsylvania on and east of U.S. Highway 15 and north of the East Branch of the Susquehanna River in Tioga, Bradford, Lycoming, Sullivan, Union, Snyder, Northumberland, Montour, and Columbia Counties, Pa.).

No. MC 113855 (Sub-No. E33), filed May 30, 1974. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd. SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First National Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which, because of their size or weight, require the use of special equip-

ment (except boats and iron and steel articles), and related *machinery, parts and supplies* when their transportation is incidental to the transportation by said carrier of commodities which by reason of size or weight require special equipment, and (2) *Self-propelled articles*, each weighing 15,000 pounds or more and related *machinery, tools, parts, and supplies* moving in connection therewith (restricted to commodities transported on trailers); (a) between points in that part of Iowa on and west of U.S. Highway 71 and on and north of Iowa Highway 175, on the one hand, and, on the other, points in that part of Kentucky east and south of a line beginning at the Tennessee-Kentucky State line at or near Jellico extending along Interstate Highway 75 to Lexington, Ky., thence along Interstate Highway 64 to the Kentucky-West Virginia State line (except points on the described line) (South Dakota or points in Minnesota or Iowa within 50 miles of Sioux Falls, S. Dak., and Elgin, Ill.\*);

(b) Between points in that part of Iowa on and north and west of a line beginning at Council Bluffs, Iowa, extending along Interstate Highway 80 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Iowa Highway 175, thence along Iowa Highway 175 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Iowa-Minnesota State line, on the one hand, and, on the other, points in West Virginia and points in Kentucky (except points in Kentucky east and south of a line beginning at the Tennessee-Kentucky State line at or near Jellico extending along Interstate Highway 75 to Lexington, thence along Interstate Highway 64 to the Kentucky-West Virginia State line) (South Dakota or points in Minnesota or Iowa within 50 miles of Sioux Falls, S. Dak., and Elgin, Ill.\*); (c) between points in that part of Iowa on, west, and north of a line beginning at Council Bluffs extending along Interstate Highway 80 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Iowa Highway 175, thence along Iowa Highway 175 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Iowa-Minnesota State line, on the one hand, and, on the other, points in that part of New York on and east of a line beginning at Oswego, N.Y., extending along New York Highway 57 to junction Interstate Highway 81, thence along Interstate Highway 81 to the New York-Pennsylvania State line and

(d) Between points in that part of Iowa on and west of U.S. Highway 169 beginning at the Iowa-Minnesota State line extending along U.S. Highway 20 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Iowa-Missouri State line (except points described in (c) above), on the one hand, and, on the other, points in that part of New York east of a line beginning at the United States-Canada International Boundary line extending along New York Highway 30 to junction New York Highway 17, thence along New York Highway 17 to the New York-Pennsylvania State line at

Hancock, N.Y. (as to (c) and (d) above), the gateway eliminated is points in South Dakota and points in that part of Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line extending along unnumbered highway (formerly portion U.S. Highway 15) to junction Business U.S. Highway 15 near Fairplay, thence along Business U.S. Highway 15 through Gettysburg to junction U.S. Highway 15, thence along U.S. Highway 15 to junction unnumbered highway (former portion U.S. Highway 15), thence along unnumbered highway through Clear Spring to junction U.S. Highway 15, thence along U.S. Highway 15 to the Pennsylvania-New York State line (except points in Berks, Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa., and points in Pennsylvania on and east of the above-described line in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., and points in Pennsylvania on and east of U.S. Highway 15 and north of the East Branch of the Susquehanna River in Tioga, Bradford, Lycoming, Sullivan, Union, Snyder, Northumberland, Montour, and Columbia Counties, Pa.);

(e) Between points in that part of Iowa on and west of a line beginning at the Iowa-Minnesota State line extending along U.S. Highway 169 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Iowa-Missouri State line, on the one hand, and, on the other, points in Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware and the District of Columbia (points in South Dakota or points in Iowa or points in Minnesota within 50 miles of Sioux Falls, S. Dak., and points in Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line extending along unnumbered highway (formerly portion U.S. Highway 15) to junction Business U.S. Highway 15 near Fairplay, thence along Business U.S. Highway 15 through Gettysburg to junction U.S. Highway 15, thence along U.S. Highway 15 to junction unnumbered highway (formerly portion U.S. Highway 15), thence along unnumbered highway through Clear Spring, to junction U.S. Highway 15, thence along U.S. Highway 15 to the Pennsylvania-New York State line (except points in Berks, Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa., and points in Pennsylvania on and east of the above-described line in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., and points in Pennsylvania on and east of U.S. Highway 15 and north of the East Branch of the Susquehanna River in Tioga, Bradford, Lycoming, Sullivan, Union, Snyder, Northumberland, Montour, and Columbia Counties, Pa., or, alternately, the gateways described immediately above with Elgin, Ill., and that area in Pennsylvania described immediately above which is within the area bounded by points in Scranton, Reading, Allentown, Harrisburg, Lancaster, and Hazleton, Pa., and

mines in that part of Pennsylvania south and west of a line beginning at the Pennsylvania-Ohio State line extending along U.S. Highway 224 to junction U.S. Highway 422, thence along U.S. Highway 19, thence along U.S. Highway 19 to junction unnumbered highway near Portersville, thence along unnumbered highway via Prospect to junction U.S. Highway 422, thence along U.S. Highway 422 to Ebensburg, thence along U.S. Highway 22 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction Pennsylvania highway 641 (formerly Pennsylvania Highway 433), thence along Pennsylvania Highway 641 to junction Pennsylvania Highway 997, thence along Pennsylvania Highway 997 to the Pennsylvania-Maryland State line including points on the indicated portions of the Highway specified<sup>1)</sup>; and

(f) Between points in that part of Iowa on, west and north of a line beginning at the Iowa-Minnesota State line extending along U.S. Highway 71 to junction Iowa Highway 175, thence along Iowa Highway 175 to the Iowa-Nebraska State line, on the one hand, and, on the other, points in that part of Virginia on and east of a line beginning at the West Virginia-Virginia State line extending along U.S. Highway 522 to junction Interstate Highway 64, thence along Interstate Highway 64 to junction U.S. Highway 301, thence along U.S. Highway 301 to the Virginia-North Carolina State line and points in Maryland (except points in Garrett and Allegheny Counties), (points in South Dakota, and points in that part of Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line extending along unnumbered highway (formerly portion U.S. Highway 15) to junction Business U.S. Highway 15 near Fairplay, thence along Business U.S. Highway 15 through Gettysburg to junction U.S. Highway 15, thence along U.S. Highway 15 to junction unnumbered highway, (formerly portion U.S. Highway 15), thence along unnumbered highway through Clear Spring to junction U.S. Highway 15, thence along U.S. Highway 15 to the Pennsylvania-New York State line (except points in Berks, Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa., and points in Pennsylvania on and east of the above-described line in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., and points in Pennsylvania on and east of U.S. Highway 15 and north of the East Branch of the Susquehanna River in Tioga, Bedford, Lycoming, Sullivan, Union, Snyder, Northumberland, Montour, and Columbia Counties, Pa.<sup>2)</sup>). The purpose of this filing is to eliminate the gateways indicated by the asterisks above.

No. MC 113855 (Sub-No. E96), filed May 30, 1974. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd. SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Commodities* (except boats), the transportation of which, because of their size or weight, require the use of special equipment, and related machinery, parts, and related contractors' materials and supplies when their transportation is incidental to the transportation by said carrier of commodities which by reason of size or weight require special equipment, and (2) *Self-propelled articles*, each weighing 15,000 pounds or more and related machinery, tools, parts, and supplies moving in connection therewith (restricted to commodities transported on trailers); (a) between points in Nevada (except points in Esmeralda, Nye, White Pine, Lincoln, and Clark Counties), on the one hand, and, on the other, points in Kansas, points on, east, and north of a line beginning at the Kansas-Nebraska State line along U.S. Highway 183 to junction Kansas Highway 96, thence along Kansas Highway 96 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 35W, thence along U.S. Highway 35W and 35 to the Kansas-Oklahoma State line; and (b) between points in Ely and Tonopah, Nev., on the one hand, and, on the other, Kansas City, Kans. The purpose of this filing is to eliminate the gateways of Utah and South Dakota.

No. MC 113855 (Sub-No. E98), filed May 30, 1974. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Road SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First National Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Commodities* (except boats) the transportation of which, because of their size or weight, require the use of special equipment, and related machinery, parts and related contractors' materials and supplies when their transportation is incidental to the transportation by said carrier of commodities which by reason of size or weight require special equipment, and (2) *Self-propelled articles*, each weighing 15,000 pounds or more and related machinery, tools, parts and supplies moving in connection therewith (restricted to commodities transported on trailers); (a) between points in Idaho (except points in and north of Lemhi, Valley, and Idaho Counties), on the one hand, and, on the other, points in North Dakota (except points in and west of Renville, Ward, McLean, Oliver, Morton, and Sioux Counties); (b) between points in that part of Idaho in and north of Lemhi, Valley, and Idaho Counties, on the one hand, and, on the other, points in that part of North Dakota in and east of Pembina, Walsh, Nelson, Eddy, Wells, Kidder, Burleigh, and Emmons Counties; (c) between points in that part of Idaho west and south of Cassia, Blaine, Custer, Valley, and Adams Counties, on the one hand, and, on the other, points in Burke,

Montrail, Renville, Ward, McLean, Mercer, Oliver, Morton, Grant, and Sioux Counties, N. Dak. (points in Montana and South Dakota east of the Missouri River in (a), (b), and (c) above<sup>3)</sup>); and (3) *Heavy machinery* and other contractors' materials, supplies and equipment, which because of size or weight require the use of special equipment, over irregular routes, and (4) *Self-propelled articles*, each weighing 15,000 pounds or more and related machinery, tools, parts and supplies moving in connection therewith (restricted to commodities transported on trailers), between points in Idaho, on the one hand, and, on the other, points in Bowman, Adams, Slope, Hettlinger, Stark, Billings, Golden Valley, and Dunn Counties, N. Dak. (points in Montana and points in South Dakota east of S. Dakota Highway 73<sup>4)</sup>). The purpose of this filing is to eliminate the gateways indicated by the asterisks above.

No. MC 114273 (Sub-No. E1), filed June 4, 1974. Applicant: CEDAR RAPIDS STEEL TRANSPORTATION, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohuski (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Farm implements and machinery (except those requiring the use of special equipment), from Chicago, Ill., to points in Iowa bounded by a line beginning at the Iowa-Minnesota State line and extending along U.S. Highway 52 through Decorah, Iowa, to junction Iowa Highway 150 at Calmar, Iowa, thence along Iowa Highway 150 through West Union, Iowa, thence along Iowa Highway 150 through West Union, Oelwein, and Independence, Iowa, thence along Iowa Highway 150 to junction Iowa Highway 101, thence along Iowa Highway 101 to junction Iowa Highway 363, thence along Iowa Highway 363 to junction Iowa unnumbered highway at Urbana, Iowa, thence along Iowa unnumbered highway through Shellsburg and Palo, Iowa, to junction Iowa unnumbered highway and Iowa Highway 94, thence along Iowa Highway 94 to junction U.S. Highway 218 at Cedar Rapids, Iowa, thence along U.S. Highway 218 to junction Iowa Highway 1 at Iowa City, Iowa, thence along Iowa Highway 1 to junction Iowa Highway 92 at Washington, Iowa, thence along Iowa Highway 92 to junction U.S. Highway 218 one mile east of Ainsworth, Iowa, thence along U.S. Highway 218 to junction U.S. Highway 34 at Mt. Pleasant, Iowa, thence along U.S. Highway 34 to junction Iowa Highway 1 and through Fairfield, Iowa, thence along U.S. Highway 1 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction Iowa unnumbered highway, thence along Iowa unnumbered highway through Mt. Sterling, Iowa, to the Iowa-Missouri State line, and thence along the Iowa-Missouri State line to junction Iowa Highway 202, thence along Iowa Highway 202 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction Iowa Highway 5 at Centerville, Iowa, thence along Iowa Highway 5 to junction Iowa unnumbered highway at Moravia, Iowa, thence along Iowa unnumbered

highway through Iconium and Malong, Iowa, to junction Iowa Highway 68, thence along Iowa Highway 68 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Iowa Highway 14 at Chariton, Iowa, thence along Iowa Highway 14 to junction Iowa unnumbered highway, thence along Iowa unnumbered highway to junction Iowa unnumbered highway and Iowa Highway 206, thence along Iowa Highway 206 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 69, thence along U.S. Highway 65-69 through Indianola, Iowa, to Des Moines, Iowa, thence from Des Moines, Iowa, on U.S. Highway 69 through Ankeny, Huxley, Ames, and Jewell, Iowa, thence north from Jewell, Iowa along U.S. Highway 69 to junction U.S. Highway 20, thence along U.S. Highway 20 to Williams, Iowa, thence along U.S. Highway 20 to junction Iowa unnumbered highway to Dows, Iowa, thence along Iowa unnumbered highway to junction Iowa unnumbered highway and Iowa unnumbered highway, thence along Iowa unnumbered highway to junction Iowa unnumbered highway and Iowa Highway 263 at Coulter, Iowa, thence along Iowa Highway 263 to junction Iowa unnumbered highway at Latimer, Iowa, thence along Iowa unnumbered highway to junction Iowa unnumbered highway and Iowa unnumbered highway, thence along Iowa unnumbered highway, thence along Iowa unnumbered highway through Chapin, Iowa, to junction Iowa unnumbered highway and U.S. Highway 65, thence along U.S. Highway 65 through Sheffield, Iowa, to junction Iowa unnumbered highway, thence along Iowa unnumbered highway through Rockwell, Cartersville, and Rockford, Iowa, thence along Iowa unnumbered highway to junction Iowa unnumbered highway and U.S. Highway 18, thence along U.S. Highway 18 to Nora Springs, Iowa, thence along U.S. Highway 18 to junction Iowa unnumbered highway, thence along Iowa unnumbered highway to junction U.S. Highway 218 at Osage, Iowa, thence along U.S. Highway 218 to junction Iowa Highway 9, thence along Iowa Highway 9 to New Haven, Iowa, thence along Iowa Highway 9 through Riceville and Saratoga to junction U.S. Highway 63 at Davis Corners, Iowa, thence along U.S. Highway 63 to junction Iowa Highway 157, thence along Iowa Highway 157 to junction Iowa unnumbered highway at Lime Springs, Iowa, thence along Iowa unnumbered highway to the Iowa-Minnesota State line, thence along the Iowa-Minnesota State line to the point of beginning. The purpose of this filing is to eliminate the gateway of Cedar Rapids, Iowa.

No. MC 114273 (Sub-No. E3), filed June 4, 1974. Applicant: CEDAR RAPIDS STEEL TRANSPORTATION, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohuski (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Farm implements and machinery (except those requiring the use

of special equipment), from East Moline, Moline, and Rock Island, Ill., to points in Iowa bounded by a line beginning at the Iowa-Minnesota State line and extending south through New Albin, Iowa, along Iowa Highway 26 to junction Iowa unnumbered highway, thence along Iowa unnumbered highway through Elon, Rossville, and Volney, Iowa, to junction Iowa unnumbered highway and U.S. Highway 52 at Monona, Iowa, thence along U.S. Highway 52 to junction U.S. Highway 52 and Iowa Highway 13, thence along Iowa Highway 13 through Elkade, Strawberry Point, Manchester, and Cogen, Iowa, to junction Iowa Highway 13 and U.S. Highway 151 at Marion, Iowa, thence along U.S. Highway 151 to junction Iowa Highway 149 at Cedar Rapids, Iowa, thence along Iowa Highway 149 through Fairfax and Walford, Iowa, to junction Iowa Highway 201 at Norway, Iowa, thence along Iowa Highway 201 to junction Iowa unnumbered highway at Watkins, Iowa, thence along Iowa unnumbered highway to West Amara, Iowa, thence along Iowa unnumbered highway to Blairtown, Iowa, thence along Iowa unnumbered highway to junction Iowa Highway 212 at Belle Plaine, Iowa, thence along Iowa Highway 212 to junction Iowa unnumbered highway, thence along Iowa unnumbered highway through Chelsea and Haven, Iowa, to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 30 at Tama, Iowa, thence along U.S. Highway 30 to junction Iowa Highway 14 near Marshalltown, Iowa, thence along Iowa Highway 14 to junction U.S. Highway 6 at Newton, Iowa, thence along U.S. Highway 6 to junction Iowa Highway 117 at Colfax, Iowa, thence along Iowa Highway 117 to junction Iowa Highway 163 at Prairie City, Iowa, thence along Iowa Highway 163 to junction Iowa Highway 316, thence along Iowa Highway 316 to junction Iowa unnumbered highway, thence along unnumbered highway through Hartford and Palmyra, Iowa, to junction Iowa unnumbered highway and Iowa Highway 92, thence along Iowa Highway 92 through Ackworth, Iowa, to junction U.S. Highway 65-69 at Indianola, Iowa, thence along U.S. Highway 65-69 to junction U.S. Highway 69 at Des Moines, Iowa, thence along Des Moines, Iowa, on U.S. Highway 69 through Ankeny, and Jewell, Iowa, to junction U.S. Highway 20 to Williams, Iowa, thence along U.S. Highway 20 to junction Iowa unnumbered highway, thence along Iowa unnumbered highway to Dows, Iowa, thence from Dows, Iowa, on Iowa unnumbered highway to junction Iowa unnumbered highway, thence along Iowa unnumbered highway to junction Iowa unnumbered highway and Iowa Highway 263 at Coulter, Iowa, thence along Iowa Highway 263 to junction Iowa unnumbered highway at Latimer, Iowa, thence along Iowa unnumbered highway to junction Iowa unnumbered highway and Iowa unnumbered highway, thence along Iowa unnumbered highway through Chapin,

Iowa, to junction Iowa unnumbered highway and U.S. Highway 65, thence along U.S. Highway 65 through Sheffield, Iowa, to junction Iowa unnumbered highway, thence along Iowa unnumbered highway through Rockwell, Cartersville, and Rockford, Iowa, thence along Iowa unnumbered highway to junction U.S. Highway 18 at Nora Springs, Iowa, thence along U.S. Highway 18 to junction U.S. Highway 18 and Iowa unnumbered highway, thence along Iowa unnumbered highway to junction Iowa unnumbered highway and U.S. Highway 218 at Osage, Iowa, thence along U.S. Highway 218 to junction Iowa Highway 9, thence along Iowa Highway 9 to New Haven, Iowa, thence along Iowa Highway 9 through Riceville, and Saratoga, Iowa, to junction U.S. Highway 63 at Davis Corner, Iowa, thence along U.S. Highway 63 to junction Iowa Highway 157, thence along Iowa Highway 157 and Iowa unnumbered highway at Lime Springs, Iowa, thence along Iowa unnumbered highway to the Iowa-Minnesota State line, thence along the Iowa-Minnesota State line to the point of beginning. The purpose of this filing is to eliminate the gateway of Cedar Rapids, Iowa.

No. MC 114273 (Sub-No. E4), filed June 4, 1974. Applicant: CEDAR RAPIDS STEEL TRANSPORTATION, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohuski (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Farm implements and machinery (except those requiring special equipment), from Kewanee, Ill., to points in Iowa on and bounded by a line beginning at the Iowa-Minnesota State line and extending along Iowa Highway 26 to junction Iowa unnumbered highway at Lansing, Iowa, thence along Iowa unnumbered highway through Village Creek, Waterville, and Volney to junction U.S. Highway 52 at Monona, Iowa, thence along U.S. Highway 52 to junction Iowa Highway 13, thence along Iowa Highway 13 through Strawberry Point, Manchester, and Coggon, Iowa, to junction U.S. Highway 151, thence along U.S. Highway 151 to junction Iowa Highway 149 at Cedar Rapids, Iowa, thence along Iowa Highway 149 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Iowa Highway 212 at Marengo, Iowa, thence along Iowa Highway 212 through Belle Plaine, Iowa, to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Iowa Highway 14 at Marshalltown, Iowa, thence along Iowa Highway 14 to junction U.S. Highway 6 at Newton, Iowa, thence along U.S. Highway 6 to junction Iowa Highway 117 at Colfax, Iowa, thence along Iowa Highway 117 to junction Highway 163 at Prairie City, Iowa, thence along Iowa Highway 163 to junction U.S. Highway 69 at Des Moines, Iowa, thence along U.S. Highway 69 through Ankeny, Huxley, Ames, and Jewell, Iowa, thence along U.S. Highway 69 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction

Iowa unnumbered highway to Dows, Iowa, thence along Iowa unnumbered highway to junction Iowa unnumbered highway and Iowa Highway 263 at Coulter, Iowa, thence along Iowa Highway 263 to junction Iowa unnumbered highway at Latimer, Iowa, thence along Iowa unnumbered highway to junction Iowa unnumbered highway and Iowa unnumbered highway, thence along Iowa unnumbered highway through Chapin, Iowa, to junction Iowa unnumbered highway and U.S. Highway 65, thence along U.S. Highway 65 through Sheffield, Iowa, to junction Iowa unnumbered highway, thence along Iowa unnumbered highway through Rockwell, Cartersville, and Rockford, Iowa, thence along Iowa unnumbered highway to junction Iowa unnumbered highway and U.S. Highway 18, thence along U.S. Highway 18 to Nora Springs, Iowa, thence along U.S. Highway 18 to junction Iowa unnumbered highway, thence along Iowa unnumbered highway to junction Iowa unnumbered highway and U.S. Highway 218 to Osage, Iowa, thence along U.S. Highway 218 to junction Iowa Highway 9, thence along Iowa Highway 9 to New Haven, Iowa, thence along Iowa Highway 9 through Riceville and Saratoga, Iowa, to junction U.S. Highway 63 at Davis Corners, Iowa, thence along U.S. Highway 63 to junction Iowa Highway 157, thence along Iowa Highway 157 to junction Iowa unnumbered highway at Lime Springs, Iowa, thence along Iowa unnumbered highway to the Iowa-Minnesota State line, thence along the Iowa-Minnesota State line to the point of beginning. The purpose of this filing is to eliminate the gateway of Cedar Rapids, Iowa.

No. MC 115841 (Sub-No. E41), filed June 3, 1974. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except in bulk), in vehicles equipped with mechanical refrigeration, from points in Columbia, Dutchess, and Ulster Counties, N.Y., to points in California and Oregon, restricted to traffic originating at the facilities of Clermont Fruit Packers, Inc., located in the above-named counties. The purpose of this filing is to eliminate the gateway of Birmingham, Ala.

No. MC 115841 (Sub-No. E42), filed June 3, 1974. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except liquid commodities, in bulk and in tank vehicles), in vehicles equipped with mechanical refrigeration, from New York, N.Y., points in that part of Rockland County, N.Y., east of the Garden State Parkway and south of Interstate Highway 287,

that part of Nassau County, N.Y., west of Nassau County Highway 1, and points in Bergen, Essex, Hudson, Passaic, and Union Counties, N.J., to points in California. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Birmingham, Ala.

No. MC 119777 (Sub-No. E46), filed April 23, 1974. Applicant: LIGON SPECIALIZED HAULER, INC., P.O. Drawer L, Madisonville, Ky. 42431. Applicant's representative: Ronald E. Butler (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Pallets, skids, bases, boxes, crating, oak treads, oak risers, oak sills, oak molding, cardboard boxes, nails, and lumber*; (a) between points in Alabama on and north of a line beginning at the Alabama-Tennessee State line, thence along Alabama Highway 117 to junction U.S. Highway 72, thence along U.S. Highway 72 to the Alabama-Tennessee State line, on the one hand, and, on the other, points in Arkansas, on and north of a line beginning at the Arkansas-Oklahoma State line, thence along Arkansas Highway 156 to junction Arkansas Highway 59, thence along Arkansas Highway 59 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction Arkansas Highway 16, thence along Arkansas Highway 16 to junction Arkansas Highway 7, thence along Arkansas Highway 7 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction Arkansas Highway 5, thence along Arkansas Highway 5 to junction Arkansas Highway 56, thence along Arkansas Highway 56 to junction Arkansas Highway 9, thence along Arkansas Highway 9 to the Arkansas-Missouri State line; (b) between points in Alabama on and northeast of a line beginning at the Mississippi-Alabama State line, thence along U.S. Highway 78 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction Alabama Highway 69, thence along Alabama Highway 69 to junction Alabama Highway 61, thence along Alabama Highway 61 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction Alabama Highway 41, thence along Alabama Highway 41 to junction Alabama Highway 89, thence along Alabama Highway 89 to junction Alabama Highway 28, thence along Alabama Highway 28 to junction Alabama Highway 21, thence along Alabama Highway 21 to junction Alabama Highway 10, thence along Alabama Highway 10 to junction Alabama Highway 47, thence along Alabama Highway 47 to junction Alabama Highway 83, thence along Alabama Highway 83 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction Alabama Highway 55, thence along Alabama Highway 55 to junction U.S. Highway 331, thence along U.S. Highway 331 to the Alabama-Florida State line, on the one hand, and, on the other, points in Colorado; (c) Between points in Alabama on and west of a line beginning at the Alabama-Tennessee State line, extending thence along Alabama Highway 117 to junction U.S. Highway 72, thence along U.S. Highway 72 to junction Alabama Highway 79, thence along Alabama Highway 79 to junction U.S. Highway 431, thence along U.S. Highway 431 to junction Alabama Highway 21, thence along Alabama Highway 21 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction U.S. Highway 331, thence along U.S. Highway 331 to the Alabama-Florida State line, on the one hand, and, on the other, points in Connecticut; (d) between points in Alabama on, north, and east of a line beginning at the Tennessee-Alabama State line, thence along U.S. Highway 231 to junction Alabama Highway 69, thence along Alabama Highway 69 to junction Alabama Highway 18, thence along Alabama Highway 18 to junction Alabama Highway 98, thence along Alabama Highway 98 to junction Alabama Highway 17, thence along Alabama Highway 17 to junction Alabama Highway 14, thence along Alabama Highway 14 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction U.S. Highway 80, thence along U.S. Highway 80 to the Alabama-Mississippi State line, on the one hand, and, on the other, points in Delaware; (e) between points in Alabama, on the one hand, and, on the other, points in Illinois on and north of a line beginning at the Illinois-Iowa State line, thence along U.S. Highway 136 to junction Illinois Highway 94, thence along Illinois Highway 94 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Illinois Highway 99, thence along Illinois Highway 99 to junction Illinois Highway 100, thence along Illinois Highway 100 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Illinois Highway 106, thence along Illinois Highway 106 to junction Illinois Highway 108, thence along Illinois Highway 108 to junction Interstate Highway 55, thence along Interstate Highway 55 to junction Illinois Highway 16, thence along Illinois Highway 16 to junction Illinois Highway 185, thence along Illinois Highway 185 to junction Illinois Highway 37, thence along Illinois Highway 37 to junction U.S. Highway 37, thence along U.S. Highway 37 to junction Illinois Highway 142, thence along Illinois Highway 142 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Illinois Highway 13, thence along Illinois Highway 13 to the Illinois-Kentucky State line; (f) Between points in Alabama, on and east of a line beginning at the Mississippi-Alabama State line, thence along U.S. Highway 78 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction Alabama Highway 171, thence along Alabama Highway 171 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction Interstate Highway 10, thence along Interstate Highway 10 to the Alabama-Mississippi State line, on the one hand, and, on the other, points in Kansas on and north of a line beginning at the Colorado-Kansas State line on U.S. Highway 40, thence along U.S. Highway 40 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Kansas Highway 4, thence along Kansas Highway 4 to junction U.S.

way 72 to junction Alabama Highway 79, thence along Alabama Highway 79 to junction U.S. Highway 431, thence along U.S. Highway 431 to junction Alabama Highway 21, thence along Alabama Highway 21 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction U.S. Highway 331, thence along U.S. Highway 331 to the Alabama-Florida State line, on the one hand, and, on the other, points in Connecticut; (d) between points in Alabama on, north, and east of a line beginning at the Tennessee-Alabama State line, thence along U.S. Highway 231 to junction Alabama Highway 69, thence along Alabama Highway 69 to junction Alabama Highway 18, thence along Alabama Highway 18 to junction Alabama Highway 98, thence along Alabama Highway 98 to junction Alabama Highway 17, thence along Alabama Highway 17 to junction Alabama Highway 14, thence along Alabama Highway 14 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction U.S. Highway 80, thence along U.S. Highway 80 to the Alabama-Mississippi State line, on the one hand, and, on the other, points in Delaware; (e) between points in Alabama, on the one hand, and, on the other, points in Illinois on and north of a line beginning at the Illinois-Iowa State line, thence along U.S. Highway 136 to junction Illinois Highway 94, thence along Illinois Highway 94 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Illinois Highway 99, thence along Illinois Highway 99 to junction Illinois Highway 100, thence along Illinois Highway 100 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Illinois Highway 106, thence along Illinois Highway 106 to junction Illinois Highway 108, thence along Illinois Highway 108 to junction Interstate Highway 55, thence along Interstate Highway 55 to junction Illinois Highway 16, thence along Illinois Highway 16 to junction Illinois Highway 185, thence along Illinois Highway 185 to junction Illinois Highway 37, thence along Illinois Highway 37 to junction U.S. Highway 37, thence along U.S. Highway 37 to junction Illinois Highway 142, thence along Illinois Highway 142 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Illinois Highway 13, thence along Illinois Highway 13 to the Illinois-Kentucky State line; (f) Between points in Alabama, on and east of a line beginning at the Mississippi-Alabama State line, thence along U.S. Highway 78 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction Alabama Highway 171, thence along Alabama Highway 171 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction Interstate Highway 10, thence along Interstate Highway 10 to the Alabama-Mississippi State line, on the one hand, and, on the other, points in Kansas on and north of a line beginning at the Colorado-Kansas State line on U.S. Highway 40, thence along U.S. Highway 40 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Kansas Highway 4, thence along Kansas Highway 4 to junction U.S.

way 72 to junction Alabama Highway 79, thence along Alabama Highway 79 to junction U.S. Highway 431, thence along U.S. Highway 431 to junction Alabama Highway 21, thence along Alabama Highway 21 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction U.S. Highway 331, thence along U.S. Highway 331 to the Alabama-Florida State line, on the one hand, and, on the other, points in Connecticut; (d) between points in Alabama on, north, and east of a line beginning at the Tennessee-Alabama State line, thence along U.S. Highway 231 to junction Alabama Highway 69, thence along Alabama Highway 69 to junction Alabama Highway 18, thence along Alabama Highway 18 to junction Alabama Highway 98, thence along Alabama Highway 98 to junction Alabama Highway 17, thence along Alabama Highway 17 to junction Alabama Highway 14, thence along Alabama Highway 14 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction U.S. Highway 80, thence along U.S. Highway 80 to the Alabama-Mississippi State line, on the one hand, and, on the other, points in Delaware; (e) between points in Alabama, on the one hand, and, on the other, points in Illinois on and north of a line beginning at the Illinois-Iowa State line, thence along U.S. Highway 136 to junction Illinois Highway 94, thence along Illinois Highway 94 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Illinois Highway 99, thence along Illinois Highway 99 to junction Illinois Highway 100, thence along Illinois Highway 100 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Illinois Highway 106, thence along Illinois Highway 106 to junction Illinois Highway 108, thence along Illinois Highway 108 to junction Interstate Highway 55, thence along Interstate Highway 55 to junction Illinois Highway 16, thence along Illinois Highway 16 to junction Illinois Highway 185, thence along Illinois Highway 185 to junction Illinois Highway 37, thence along Illinois Highway 37 to junction U.S. Highway 37, thence along U.S. Highway 37 to junction Illinois Highway 142, thence along Illinois Highway 142 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Illinois Highway 13, thence along Illinois Highway 13 to the Illinois-Kentucky State line; (f) Between points in Alabama, on and east of a line beginning at the Mississippi-Alabama State line, thence along U.S. Highway 78 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction Alabama Highway 171, thence along Alabama Highway 171 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction Interstate Highway 10, thence along Interstate Highway 10 to the Alabama-Mississippi State line, on the one hand, and, on the other, points in Kansas on and north of a line beginning at the Colorado-Kansas State line on U.S. Highway 40, thence along U.S. Highway 40 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Kansas Highway 4, thence along Kansas Highway 4 to junction U.S.

Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Kansas-Missouri State line; (g) between points in Alabama, on the one hand, and, on the other, points in Maine, on and north of a line beginning at Belfast, Maine, at the Atlantic Ocean, thence along Maine Highway 7 to junction U.S. Highway 2, thence along U.S. Highway 2 to the Maine-New Hampshire State line; (h) between points in Alabama, on and west of a line beginning at the Alabama-Tennessee State line, thence along U.S. Highway 231 to junction Alabama Highway 36, thence along Alabama Highway 36 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction Alabama Highway 69, thence along Alabama Highway 69 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction Alabama Highway 219, thence along Alabama Highway 219 to junction Alabama Highway 14, thence along Alabama Highway 14 to junction U.S. Highway 80, thence along U.S. Highway 80 to the Alabama-Florida State line, on the one hand, and, on the other, points in Maryland on and west of U.S. Highway 11; (i) Between points in Alabama, on and west of a line beginning at the Alabama-Georgia State line, thence along Alabama Highway 9 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Alabama Highway 87, thence along Alabama Highway 87 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction U.S. Highway 331, thence along U.S. Highway 331 to the Florida-Alabama State line, on the one hand, and, on the other, points in Massachusetts; (j) between points in Alabama, on the one hand, and, on the other, points in Missouri, on and north of a line beginning at the Missouri-Illinois State line at Hannibal, Mo., thence along U.S. Highway 36 to junction Missouri Highway 13, thence along Missouri Highway 13 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction Missouri Highway 46, thence along Missouri Highway 46 to junction Missouri Highway 113, thence along Missouri Highway 113 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 159, thence along U.S. Highway 159 to the Missouri-Nebraska State line; (k) between points in Alabama, on and west of a line beginning at the Alabama-Georgia State line, thence along Alabama Highway 74 to junction Alabama Highway 21, thence along Alabama Highway 21 to junction U.S. Highway 280, thence along U.S. Highway 280 to junction Alabama Highway 22, thence along Alabama Highway 22 to junction Alabama Highway 9, thence along Alabama Highway 9 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Alabama-Florida State line, on the one hand, and, on the other, points in New Hampshire;

(l) Between points in Alabama on, north, and west of a line beginning at the Alabama-Tennessee State line, thence along U.S. Highway 231 to junction Alabama Highway 79, thence along Alabama Highway 79 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction Alabama Highway 22, thence along Alabama Highway 22 to junction Alabama Highway 41, thence along Alabama Highway 41 to junction Alabama Highway 47, thence along Alabama Highway 47 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction U.S. Highway 43, thence along U.S. Highway 43 to the terminus at Mobile, Ala., on the Gulf of Mexico, on the one hand, and, on the other, points in New Jersey on, north, and east of a line beginning at the Pennsylvania-New Jersey State line, thence along U.S. Highway 30 to junction New Jersey Highway 168, thence along New Jersey Highway 168 to junction of the Atlantic City Expressway, thence along the Atlantic City Expressway to junction New Jersey Highway 50, thence along New Jersey Highway 50 to junction New Jersey Highway 49, thence along New Jersey Highway 49 to junction New Jersey Highway 47, thence along New Jersey Highway 47 to junction U.S. Highway 9, thence along U.S. Highway 9 to Cape May, N.J., at Atlantic City; (m) between points in Alabama, on and west of a line beginning at the Alabama-Georgia State line, thence along Alabama Highway 48 to junction U.S. Highway 431, thence along U.S. Highway 431 to Phenix City, Ala., on the Georgia-Alabama State line, on the one hand, and, on the other, points in New York, on, north, and west of a line beginning at the New York-Pennsylvania State line, thence along New York Highway 26 to junction New York Highway 434, thence along New York Highway 434 to junction New York Highway 7, thence along New York Highway 7 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Interstate Highway 787, thence along Interstate Highway 787 to junction U.S. Highway 4, thence along U.S. Highway 4 to junction New York Highway 2, thence along New York Highway 2 to the New York-Massachusetts State line; (n) Between points in Alabama, on the one hand, and, on the other, points in Ohio, on and north of a line beginning at the Kentucky-Ohio State line, thence along U.S. Highway 22 to junction Ohio Highway 37, thence along Ohio Highway 37 to junction Ohio Highway 60, thence along Ohio Highway 60 to the Ohio-West Virginia State line; (o) between points in Alabama, on and east of a line beginning at the Alabama-Tennessee State line, thence along U.S. Highway 31 to junction Interstate Highway 65 (below Decatur), thence along Interstate Highway 65 to junction U.S. Highway 31 (below Montgomery), thence along U.S. Highway 31 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Alabama-Florida State line, on the one hand, and, on the other, points in New Hampshire;

State line, on the one hand, and, on the other, points in Oklahoma, on and north of a line beginning at the Kansas-Oklahoma State line, thence along U.S. Highway 75 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction Oklahoma Highway 8, thence along Oklahoma Highway 8 to junction Oklahoma Highway 45, thence along Oklahoma Highway 45 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction Oklahoma Highway 15, thence along Oklahoma Highway 15 to the Oklahoma-Texas State line; (p) between points in Alabama, on and west of a line beginning at the Georgia-Alabama State line, thence along Alabama Highway 22 to junction U.S. Highway 431, thence along U.S. Highway 431 to junction U.S. Highway 280, thence along U.S. Highway 280 to the Alabama-Georgia State line, on the one hand, and, on the other, points in Pennsylvania, on, north, and west of a line beginning at the West Virginia-Pennsylvania State line, thence along Pennsylvania Highway 18 to junction Pennsylvania Highway 21, thence along Pennsylvania Highway 21 to junction Pennsylvania Highway 88, thence along Pennsylvania Highway 88 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction Pennsylvania Highway 201, thence along Pennsylvania Highway 201 to junction Pennsylvania Highway 711, thence along Pennsylvania Highway 711 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction Pennsylvania Highway 53, thence along Pennsylvania Highway 53 to junction Pennsylvania Highway 504, thence along Pennsylvania Highway 504 to junction U.S. Highway 220, thence along U.S. Highway 220 to junction Pennsylvania Highway 287, thence along Pennsylvania Highway 287 to junction Pennsylvania Highway 184, thence along Pennsylvania Highway 184 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction Pennsylvania Highway 414, thence along Pennsylvania Highway 414 to junction Pennsylvania Highway 14, thence along Pennsylvania Highway 14 to the New York-Pennsylvania State line; (q) Between points in Alabama, on and west of a line beginning at the Alabama-Georgia State line, thence along Alabama Highway 9 to junction U.S. Highway 78, thence along U.S. Highway 78 to junction U.S. Highway 431, thence along U.S. Highway 431 to junction Alabama Highway 9, thence along Alabama Highway 9 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Alabama Highway 87, thence along Alabama Highway 87 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction U.S. Highway 331, thence along U.S. Highway 331 to the Alabama-Florida State line, on the one hand, and, on the other, points in Rhode Island; (r) between points in Alabama, on and south of a line beginning at the Alabama-Mississippi State line, thence

along U.S. Highway 84 to the Alabama-Georgia State line, on the one hand, and, on the other, points in Tennessee on, north, east, and west of a line beginning at the Kentucky-Tennessee State line, thence along Tennessee Highway 48 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction U.S. Highway 41-A, thence along U.S. Highway 41-A to junction Tennessee Highway 76, thence along Tennessee Highway 76 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Tennessee Highway 25, thence along Tennessee Highway 25 to junction U.S. Highway 31-W, thence along U.S. Highway 31-W to the Tennessee-Kentucky State line; (s) between points in Alabama, on, north, and east of a line beginning at the Alabama-Tennessee State line, thence along U.S. Highway 31 to junction U.S. Highway 278, thence along U.S. Highway 278 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Interstate Highway 59, thence along Interstate Highway 59 to junction Alabama Highway 77, thence along Alabama Highway 77 to junction Interstate Highway 20, thence along Interstate Highway 20 to junction Alabama Highway 9, thence along Alabama Highway 9 to junction Alabama Highway 46, thence along Alabama Highway 46 to the Georgia-Alabama State line, on the one hand, and, on the other, points in Texas, on and north of a line beginning at the Texas-New Mexico State line, thence along U.S. Highway 60 to the Texas-Oklahoma State line;

(t) Between points in Alabama, on and west of a line beginning at the Alabama-Georgia State line, thence along Alabama Highway 74 to junction Alabama Highway 9, thence along Alabama Highway 9 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Alabama-Florida State line, on the one hand, and, on the other, points in Vermont; (u) between points in Lauderdale County, Ala., on the one hand, and, on the other, points in Highland County, Va.; and (v) between points in Alabama, on and west of a line beginning at the Alabama-Tennessee State line, thence along U.S. Highway 231 to junction Alabama Highway 79, thence along Alabama Highway 79, to junction U.S. Highway 31, thence along U.S. Highway 31 to junction U.S. Highway 331, thence along U.S. Highway 331 to the Alabama-Florida State line, on the one hand, and, on the other, points in West Virginia, on and north of a line beginning at the Kentucky-West Virginia State line, thence along U.S. Highway 60 to junction West Virginia Highway 10, thence along West Virginia Highway 10 to junction U.S. Highway 119, thence along U.S. Highway 119 to junction West Virginia Highway 61, thence along West Virginia Highway 61 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction U.S. Highway 33, thence

along U.S. Highway 33 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction West Virginia Highway 93, thence along West Virginia Highway 93 to junction U.S. Highway 50, thence along U.S. Highway 50 to the West Virginia-Virginia State line. The purpose of this filing is to eliminate the gateways of Logan County, Ky., and Muhlenberg County, Ky.

No. MC 100666 (Sub-No. E75), filed May 30, 1974. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Richard W. May (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Sheet iron roofing*, from points in Arkansas, except those points south and east of a line beginning at the junction of U.S. Highway 270 and the Oklahoma-Arkansas State line, thence along U.S. Highway 270 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction U.S. Highway 63, thence along U.S. Highway 63 to the Missouri-Arkansas State line, on the one hand, and, on the other, points in Mississippi on, north, and west of a line beginning at junction U.S. Highway 82 and the Mississippi River, thence along U.S. Highway 82 to the Mississippi-Alabama State line. The purpose of this filing is to eliminate the gateway of Camden, Ark.

No. MC 100666 (Sub-No. E203), filed May 30, 1974. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Richard May (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Composition or prepared roofing*, from points in Arkansas, except those points on, south, and west of a line beginning at junction Arkansas Highway 234 and the Arkansas-Oklahoma State line, thence along Arkansas Highway 234 to junction U.S. Highways 59 and 71, thence along U.S. Highways 59 and 71 to junction Interstate Highway 30, thence along Interstate Highway 30 to junction Arkansas Highway 4, thence along Arkansas Highway 4 to junction Arkansas Highway 376, thence along Arkansas Highway 376 to junction Arkansas Highway 7, thence along Arkansas Highway 7 to junction U.S. Highway 167, thence along U.S. Highway 167 to junction Arkansas Highway 4, thence along Arkansas Highway 4 to Arkansas City and the Mississippi River, on the one hand, and, on the other, points in Florida west of Florida Highway 71. The purpose of this filing is to eliminate the gateway of West Memphis, Ark.

No. MC 123685 (Sub-No. E6) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER April 23, 1975. Applicant: PEOPLES CARTAGE, INC., 8045 Navarre Road, SW., Massillon, Ohio 44646. Applicant's representative: James W. Muldoon (same as above). Authority sought to operate as a common carrier,

by motor vehicle, over irregular routes, transporting: *Pulpboard, pulpboard products, and paper wrappers*, (2) from those points in Ohio on, east and south of a line beginning at the Ohio-West Virginia State line extending along Ohio Highway 151 to junction U.S. Highway 250, thence along U.S. Highway 250 to junction Ohio Highway 94, thence along Ohio Highway 94 to junction Interstate Highway 271, thence along Interstate Highway 271 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Ohio-Pennsylvania State line, to points in Indiana. The purpose of this filing is to eliminate the gateway of the facilities of Grief Board Corporation, at Stark County, Ohio. The purpose of this correction is to distinguish part (2) from remainder of the letter-notice and to reflect the correct destination State. The remainder of the letter-notice remains as previously published.

No. MC 123685 (Sub-No. E21) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER April 23, 1975. Applicant: PEOPLES CARTAGE, INC., 8045 Navarre Road, SW., Massillon, Ohio 44646. Applicant's representative: James W. Muldoon (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer, fertilizer ingredients, and pesticides*, in bulk, in dump vehicles, (2) between points in Ohio on, south, west, and north of a line beginning at the Ohio-Kentucky State line extending along Interstate Highway 71 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Ohio Highway 60, thence along Ohio Highway 60 to junction Ohio Highway 83, thence along Ohio Highway 83 to junction U.S. Highway 224, thence along U.S. Highway 224 to junction Ohio Highway 114, thence along Ohio Highway 114 to the Ohio-Indiana State line, on the one hand, and, on the other, points in New York; and (3) between points in Ohio on, west, and south of a line beginning at the Ohio-Kentucky State line extending along Interstate Highway 71 to junction U.S. Highway 23, thence along U.S. Highway 23 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Ohio-Indiana State line, on the one hand, and, on the other, those points in Pennsylvania on and west of a line beginning at Lake Erie extending along U.S. Highway 322 to junction Pennsylvania Highway 36, thence along Pennsylvania Highway 36 to junction U.S. Highway 119, thence along U.S. Highway 119 to junction Pennsylvania Highway 56, thence along Pennsylvania Highway 56 to junction Interstate Highway 70, thence along Interstate Highway 70 to the Pennsylvania-Maryland State line. The purpose of this filing is to eliminate the gateway of Orrville, Ohio. The purpose of this partial correction is to correctly set forth the authority sought in parts (2) and (3) above. The remainder of the letter-notice remains as previously published.

No. MC 124211 (Sub-No. E78), filed June 3, 1974. Applicant: HILT TRUCK LINE, INC., P.O. Box 988 D.T.S., Omaha, Nebr. 68101. Applicant's representative: Thomas L. Hilt (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Food products and canned goods* (except (a) frozen food products, (b) meat, meat products, and meat byproducts, dairy products, and articles distributed by meat packinghouses, as described by the Commission, and (c) commodities in bulk), from Kansas City, Mo., to points in California, Nevada, Utah, those in Arizona on and west of U.S. Highway 89, and San Juan County, N. Mex. The purpose of this filing is to eliminate the gateway of Grand Island, Nebr.

No. MC 124211 (Sub-No. E79), filed June 3, 1974. Applicant: HILT TRUCK LINE, INC., P.O. Box 988 D.T.S., Omaha, Nebr. 68101. Applicant's representative: Thomas L. Hilt (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Groceries*, restricted to food products, (except frozen foods, potato products, and meat and packinghouse products, and commodities in bulk), from Wichita, Kans., to points in Nebraska on, north and east of a line beginning at the Nebraska-South Dakota State line, and extending along U.S. Highway 81 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction Nebraska Highway 15, thence along Nebraska Highway 15 to junction U.S. Highway 34, thence along U.S. Highway 34 to the Nebraska-Iowa State line, and Alliance, Nebraska City, O'Neill, and Scottsbluff, Nebr. (Waverly, Nebr.); (2) *Groceries*, restricted to foodstuffs, (except (a) frozen foodstuffs, (b) meat, meat products and meat byproducts, dairy products, and articles distributed by meat packinghouses, as described in Sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, and (c) commodities in bulk), from Wichita, Kans., to those points in California in and north of Fresno, Mono, and Monterey Counties, Calif., those in Nevada on and north of U.S. Highway 50, and those in Utah on and north of U.S. Highway 80 (Waverly, Nebr.); (3) *Groceries*, restricted to foodstuffs, (except candy and confectionery, except meats and packinghouse products, dairy products, frozen foods, potato products, and commodities in bulk), from Wichita, Kans., to points in Oregon, Washington, and Wyoming (Waverly, Nebr.);

(4) *Groceries*, restricted to foods and food products (except commodities in bulk, dairy products, frozen foods, meats, meat products and meat byproducts, and articles distributed by meat packinghouses, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766), from Wichita, Kans., to points in Michigan, Minnesota, and Wisconsin, and those points in Illinois on and north of Illinois Highway 9,

points in Indiana on and north of U.S. Highway 24, and points in Iowa on and north of U.S. Highway 34, restricted to the transportation of shipments destined to points in the above-described destination territory (Waverly, Nebr.); (5) *Groceries*, restricted to foodstuffs (except commodities in bulk, frozen foods, meats, meat products, meat byproducts, and articles distributed by meat packinghouses, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766), from Wichita, Kans., to points in Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont, those points in Ohio on and north of U.S. Highways 30 and 30S, and Dover, Del., and Baltimore, Md. (Waverly, Nebr.); and (6) *Food products* (except frozen foods, dairy products, potato products, meat and packinghouse products, and commodities in bulk), from Wichita, Kans., to points in Idaho, Montana, North Dakota, and South Dakota (Lincoln, Nebr.). The purpose of this filing is to eliminate the gateways as indicated by asterisks above.

No. MC 124211 (Sub-No. E80), filed June 3, 1974. Applicant: HILT TRUCK LINE, INC., P.O. Box 988 D.T.S., Omaha, Nebr. 68101. Applicant's representative: Thomas L. Hilt (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Malt beverages*, from LaCrosse, Wis., to points in Colorado, Oklahoma, those in Iowa on and south of a line beginning at the Iowa-Nebraska State line and extending along U.S. Highway 34 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Iowa-Missouri State line, those in Missouri on and west of a line beginning at the Missouri-Iowa State line and extending along U.S. Highway 71 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Missouri-Kansas State line, and those in Wyoming on and south of U.S. Highway 26. The purpose of this filing is to eliminate the gateway of Omaha, Nebr.

No. MC 124211 (Sub-No. E81), filed June 3, 1974. Applicant: HILT TRUCK LINE, INC., P.O. Box 988 D.T.S., Omaha, Nebr. 68101. Applicant's representative: Thomas L. Hilt (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Malt beverages*, unfrozen, from Pueblo, Colo., to points in Illinois, Indiana, Minnesota, South Dakota, and Wisconsin, those points in Kansas on and north of U.S. Highway 36, and Kansas City, Kans., Detroit, Mich. (Nebraska), and *Malt beverages*, from Pueblo, Colo., to points in Iowa, those points in Missouri on and north of a line beginning at the Missouri-Iowa State line and extending along U.S. Highway 65 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Missouri-Illinois State line, and St. Louis, Mo. (Omaha, Nebr.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 124211 (Sub-No. E82), filed June 3, 1974. Applicant: HILT TRUCK LINE, INC., P.O. Box 988 D.T.S., Omaha, Nebr. 68101. Applicant's representative: Thomas L. Hilt (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Macaroni, noodles, grain products, pancake and cake flour* (except in bulk), *spaghetti, and vermicelli*, from points in Idaho and Montana to points in Indiana; and, from those points in Nebraska on, north and west of a line beginning at the Nebraska-Iowa State line and extending along U.S. Highway 77 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Nebraska-Colorado State line, those in North Dakota on and west of U.S. Highway 83, and those in South Dakota on, west and south of a line beginning at the North Dakota-South Dakota State line and extending along U.S. Highway 281 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-South Dakota State line, to those points in Indiana on and south of U.S. Highway 24; (2) *macaroni, noodles, grain products, pancake and cake flour, spaghetti, and vermicelli* (except commodities in bulk and frozen foods), from those points in Oklahoma on and west of U.S. Highway 83, to those points in Indiana on and north of U.S. Highway 24. The purpose of this filing is to eliminate the gateway of Lincoln, Nebr.

No. MC 127840 (Sub-No. E10) filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60620. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Animal fats, animal oils, and vegetable oils, and edible blends and edible products of animal fats, animal oils, and vegetable oils* (except liquid chemicals), in bulk, in tank or hopper type vehicles, from points in (1) that part of Illinois on and north of a line beginning at the Illinois-Iowa State line, thence along Interstate Highway 80 to its junction with Illinois Highway 47, thence along Illinois Highway 47 to its junction with Illinois Highway 17, thence along Illinois Highway 17 to the Illinois-Indiana State line and (2) that part of Indiana within the Commercial Zone of Chicago, Ill., as defined by the Commission, to points in that part of Kentucky on and east of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 41 to its junction with Kentucky Highway 91, thence along Kentucky Highway 91 to the Kentucky-Illinois State line. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 127840 (Sub-No. E12), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill.

60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Animal fats, animal oils and vegetable oils, and edible blends and edible products of animal fats, animal oils, and vegetable oils* (except liquid chemicals), in bulk, in tank or hopper-type vehicles, from points in that part of Illinois on and within a line beginning at the Illinois-Iowa State line extending along U.S. Highway 34 to junction Illinois Highway 167, thence along Illinois Highway 167 to junction Illinois Highway 78 to junction Illinois Highway 17, thence along Illinois Highway 17 to the Illinois-Indiana State line, thence along the Illinois-Indiana State line to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Illinois Highway 9, thence along Illinois Highway 9 to junction Illinois Highway 41, thence along Illinois Highway 41 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Illinois-Iowa State line, thence along the Illinois-Iowa State line to the place of beginning, to points in Ohio on and north of a line beginning at the Ohio-Indiana State line extending along Ohio Highway 34 to junction Ohio Highway 15, thence along Ohio Highway 15 to junction Ohio Highway 115, thence along Ohio Highway 115 to junction Ohio Highway 65, thence along Ohio Highway 65 to junction U.S. Highway 30S, thence along U.S. Highway 30S to junction Ohio Highway 31, thence along Ohio Highway 31 to junction U.S. Highway 33, thence along U.S. Highway 33 to junction U.S. Highway 23, thence along U.S. Highway 23 to junction U.S. Highway 35, thence along U.S. Highway 35 to the Ohio-West Virginia State line. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 127840 (Sub-No. E13), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Animal fats, animal oils and vegetable oils, and edible blends and edible products of animal fats, animal oils, and vegetable oils* (except liquid chemicals), in bulk, in tank or hopper-type vehicles, from points in (1) that part of Illinois on and north of a line beginning at the Illinois-Iowa State line extending along U.S. Highway 34 to junction Illinois Highway 167, thence along Illinois Highway 167 to junction Illinois Highway 78, thence along Illinois Highway 78 to junction Illinois Highway 17, thence along Illinois Highway 17 to the Illinois-Indiana State line, and (2) that part of Indiana within the commercial zone of Chicago, Ill., as defined by the Commission, to points in Ohio. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 127840 (Sub-No. E14), filed June 4, 1974. Applicant: MONTGOM-

ERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Animal fats, animal oils, and vegetable oils, and edible blends and edible products of animal fats, animal oils, and vegetable oils* (except liquid chemicals), in bulk, in tank or hopper-type vehicles, from points in that part of Illinois on and north of a line beginning at the Illinois-Missouri State line extending along U.S. Highway 36 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction Illinois Highway 10, thence along Illinois Highway 10 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Illinois Highway 9, thence along Illinois Highway 9 to junction Illinois Highway 41, thence along Illinois Highway 41 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Illinois-Iowa State line to points in Ohio. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 127840 (Sub-No. E15), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William Towle, 127 N. Dearborn St., Suite 1133, Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Animal fats, animal oils, and vegetable oils* (except petroleum products, fertilizers, and chemicals), in bulk, in tank vehicles, from that part of Illinois on and east of a line beginning at the Illinois-Wisconsin State line extending along U.S. Highway 45 to junction Illinois Highway 53, thence along Illinois Highway 53 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Interstate Highway 57, thence along Interstate Highway 57 to the Illinois-Missouri State line to points in Minnesota and points in that part of Wisconsin on and west of a line beginning at the Illinois-Wisconsin State line extending along U.S. Highway 61 to junction Wisconsin Highway 27, thence along Wisconsin Highway 27 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 2, thence along U.S. Highway 2 to Lake Superior. The purpose of this filing is to eliminate the gateway of Bradley and Chicago, Ill., and Dubuque, Iowa.

No. MC 127840 (Sub-No. E16), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Animal fats, animal oils, and vegetable oils, and edible blends and edible products of ani-*

mal fats, animal oils, and vegetable oils (except liquid chemicals), in bulk, in tank or hopper-type vehicles, from points in that part of Illinois on and within an area bounded by a line beginning at the Illinois-Iowa State line extending along U.S. Highway 34 to junction Illinois Highway 167, thence along Illinois Highway 167 to junction Illinois Highway 78, thence along Illinois Highway 78 to junction Illinois Highway 17, thence along Illinois Highway 17 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Illinois-Iowa State line, to points in that part of Kentucky on and east of a line beginning at the Kentucky-Indiana State line extending along Interstate Highway 65 to junction Kentucky Highway 61, thence along Kentucky Highway 61 to the Kentucky-Tennessee State line. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 127840 (Sub-No. E17), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (A) *Animal fats, animal oils, and vegetable oils, and edible blends and edible products of animal fats, animal oils, and vegetable oils* (except liquid chemicals), in bulk, in tank or hopper-type vehicles, from points in (1) that part of Illinois on, north, and east of a line beginning at the Illinois-Wisconsin State line, thence along Illinois Highway 47 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Illinois-Indiana State line, and (2) that part of Indiana within the commercial zone of Chicago, Ill., as defined by the Commission, to points in that part of Iowa on, west, and north of a line beginning at the Iowa-Minnesota State line, thence along U.S. Highway 65 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line; and (B) *Animal fats, animal oils, and vegetable oils* (except liquid chemicals), in bulk, in tank vehicles, from points in that part of Illinois on, east, and south of a line beginning at the Illinois-Indiana State line, thence along U.S. Highway 36 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Illinois-Kentucky State line, to points in that part of Iowa, on, west, and north of a line beginning at the Iowa-Minnesota State line, thence along U.S. Highway 65 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line. The purpose of this filing is to eliminate the gateways of Chicago and Bradley, Ill.

No. MC 127840 (Sub-No. E18), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a

common carrier, by motor vehicle, over irregular routes, transporting: *Animal fats, animal oils, and vegetable oils, and edible blends and edible products of animal fats, animal oils, and vegetable oils* (except liquid chemicals), in bulk, in tank or hopper-type vehicles, from points in (1) that part of Illinois on, north, and east of a line beginning at the Illinois-Wisconsin State line, thence along Illinois Highway 47 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Indiana State line, and (2) that part of Indiana within the commercial zone of Chicago, Ill., as defined by the Commission, to points in Iowa on and west of U.S. Highway 69. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 127840 (Sub-No. E19), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Animal fats, animal oils, and vegetable oils and edible blends and edible products of animal fats, animal oils and vegetable oils* (except liquid chemicals), in bulk, in tank or hopper-type vehicles, from points in (1) that part of Illinois on and east of a line beginning at the Illinois-Wisconsin State line, thence along U.S. Highway 51 to its junction with U.S. Highway 52, thence along U.S. Highway 52 to its junction with Illinois Highway 47, thence along Illinois Highway 47 to its junction with U.S. Highway 150, thence along U.S. Highway 150 to its junction with Illinois Highway 130, thence along Illinois Highway 130 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to the Illinois-Indiana State line and (2) that part of Indiana within the Commercial Zone of Chicago, Illinois as defined by the Commission, to points in Nebraska on and west of U.S. Highway 81. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 127840 (Sub-No. E20), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Animal fats, animal oils and vegetable oils and edible blends and edible products of animal fats, animal oils and vegetable oils* (except liquid chemicals), in bulk, in tank or hopper type vehicles, from (1) that part of Illinois east of a line beginning at Illinois-Wisconsin State line, thence along U.S. Highway 51 to its junction with U.S. Highway 30, thence along U.S. Highway 30 to its junction with Illinois Highway 47, thence along Illinois Highway 47 to its junction with Illinois Highway 113, thence along Illinois Highway 113 to its junction with Illinois Highway 17, thence along Illinois Highway 17 to the Illinois-Indiana State line and (2)

that part of Indiana within the Commercial Zone of Chicago, Ill., as defined by the Commission, to points in Kansas. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 127840 (Sub-No. E30), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Animal fats, animal oils, and vegetable oils, and edible blends and edible products of animal fats, animal oils, and vegetable oils* (except liquid chemicals), in bulk, in tank or hopper-type vehicles, from points in (1) that part of Illinois on, east, and north of a line beginning at the Illinois-Wisconsin State line, thence along U.S. Highway 45 to junction Illinois Highway 176, thence along Illinois Highway 176 to junction Illinois Highway 59, thence along Illinois Highway 59 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Illinois Highway 17, thence along Illinois Highway 17 to the Illinois-Indiana State line, and (2) that part of Indiana within the commercial zone of Chicago, Ill., as defined by the Commission, to points in that part of Iowa on, west, and south of a line beginning at the Iowa-Missouri State line, thence along U.S. Highway 61 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction U.S. Highway 218, thence along U.S. Highway 218 to junction Iowa Highway 150, thence along Iowa Highway 150 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 127840 (Sub-No. E31), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (A) *Animal fats, animal oils, and vegetable oils, and edible blends and edible products of animal fats, animal oils, and vegetable oils* (except liquid chemicals), in bulk, in tank or hopper-type vehicles, from points in (1) that part of Illinois on, east, and north of a line beginning at the Illinois-Wisconsin State line, thence along U.S. Highway 45 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Illinois-Indiana State line, and (2) that part of Chicago, Ill., within the commercial zone of Chicago, Ill., as defined by the Commission, to points in Iowa on and north of U.S. Highway 20; and (B) *Animal fats, animal oils, and vegetable oils* (except liquid chemicals), in bulk, in tank vehicles, from points in that part of Illinois on, east, and south of a line beginning at the Illinois-Indiana State line,

thence along U.S. Highway 36 to junction Interstate Highway 57 to the Illinois-Kentucky State line to points in Iowa on and north of U.S. Highway 20. The purpose of this filing is to eliminate the gateways of Bradley and Chicago, Ill.

No. MC 127840 (Sub-No. E33), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17830 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Animal fats, animal oils, and vegetable oils* (except liquid chemicals), in bulk, in tank vehicles, from points in that part of Illinois on and south of U.S. Highway 36 to points in Michigan, New Jersey, New York, that part of Indiana on and north of a line beginning at the Indiana-Illinois State line, thence along Indiana Highway 2 to junction Indiana Highway 8, thence along Indiana Highway 8 to junction Indiana Highway 17, thence along Indiana Highway 17 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Indiana-Ohio State line, points in that part of Ohio on and north of a line beginning at the Ohio-Indiana State line, thence along U.S. Highway 6 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Ohio Highway 18, thence along Ohio Highway 18 to junction U.S. Highway 224, thence along U.S. Highway 224 to the Ohio-Pennsylvania State line, and that part of Pennsylvania on and north of a line beginning at the Pennsylvania-Ohio State line, thence along U.S. Highway 224 to junction Pennsylvania Highway 108, thence along Pennsylvania Highway 108 to junction Pennsylvania Highway 8, thence along Pennsylvania Highway 8 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 322, thence along U.S. Highway 322 to junction Interstate Highway 83, thence along Interstate Highway 83 to the Pennsylvania-Maryland State line. The purpose of this filing is to eliminate the gateway of Chicago and Bradley, Ill.

No. MC 127840 (Sub-No. E52), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Vegetable oil*, in bulk, from that part of Illinois on and north of a line beginning at the Illinois-Missouri State line, thence along Illinois Highway 150 to junction Illinois Highway 3, thence along Illinois Highway 3 to junction Illinois Highway 149, thence along Illinois Highway 149 to junction Illinois Highway 13, thence along Illinois Highway 13 to the Illinois-Kentucky State line to points in Idaho,

Oregon, Washington, and that part of California on and west of a line beginning at the California-Nevada State line, thence along U.S. Highway 395 to junction Interstate Highway 15, thence along Interstate Highway 15 to junction Interstate Highway 805, thence along Interstate Highway 805 to the United States-Mexico International Boundary line. The purpose of this filing is to eliminate the gateways of Bradley and Chicago, Ill., and Des Moines, Iowa.

No. MC 127840 (Sub-No. E53), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Vegetable oils*, in bulk, from that part of Illinois in Kankakee, Iroquois, Ford, Vermillion, Champaign, Piatt, Moultrie, Douglas, Edgar, Coles, Shelby, Cumberland, Clark, Effingham, Jasper, Crawford, Clay, Richland, Lawrence, Wayne, Edwards, Wabash, Hamilton, and White Counties, Ill., to points in Nobles, Rock, Pipestone, Murray, Lyon, Lincoln, Yellow Medicine, Lac Qui Parle, Chippewa, Big Stone, and Traverse Counties, Minn., and points in North Dakota and South Dakota. The purpose of this filing is to eliminate the gateways of Bradley and Chicago, Ill., and Des Moines, Iowa.

No. MC 127840 (Sub-No. E56), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Vegetable oils*, in bulk, in tank vehicles; (a) from points in Dubuque, Jackson, Jones, Cedar, Clinton, Johnson, Muscatine, Scott, Louisa, Des Moines, Washington, Henry, and Lee Counties, Iowa, to points in Oregon and in west of Multnomah, Clackamas, Marion, Linn, Lane, Douglas, and Jackson Counties; (b) from points in Dubuque, Jackson, Clinton, Scott, Muscatine, Louisa, Des Moines, and Lee Counties Iowa, to points in California in and north of Monterey, Kings, Tulare, Fresno, Madera, Tuolumne, and Alpine Counties; and (c) from points in Scott, Muscatine, Louisa, Des Moines, and Lee Counties, Iowa, to points in Washington. The purpose of this filing is to eliminate the gateways of Des Moines, Iowa, and Chicago, Ill. (except points in its commercial zone).

No. MC 127840 (Sub-No. E58), filed June 4, 1974. Applicant: MONTGOM-

ERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Inedible animal and vegetable oil residues* (except fatty acids), in bulk, in tank vehicles, from Yorkville, Ohio, to points in Colorado, Iowa, Kansas, Minnesota, Nebraska that part of Illinois on and north of a line beginning at the Illinois-Missouri State line thence along U.S. Highway 66 to junction Illinois Highway 48, thence along Illinois Highway 48 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Illinois Highway 9, thence along Illinois Highway 9 to the Illinois-Indiana State line, and that part of Indiana on, north, and west of a line beginning at the Indiana-Illinois State line, thence along Indiana Highway 26 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Indiana Highway 51, thence along Indiana Highway 51 to Lake Michigan. The purpose of this filing is to eliminate the gateway of Bradley, Ill.

No. MC 127840 (Sub-No. E60), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Animal fats, animal oils and vegetable oils*, including products and blends of said commodities (except fertilizers and chemicals), in bulk, in tank vehicles, from Bradley, Ill., to points in that part of Wisconsin in and west of Iron, Prime, Taylor, Clark, Jackson, Monroe, Vernon, Richland, and Grant Counties. The purpose of this filing is to eliminate the gateway of Dubuque, Iowa.

No. MC 127840 (Sub-No. E61), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such commodities*, as are usually dealt in, or used by, meat packinghouses (except petroleum products, fertilizers, and chemicals), in bulk, in tank vehicles, from Chicago, Ill., to points in Min-

nesota and points in that part of Wisconsin on and west of a line beginning at the Wisconsin-Illinois State line extending along Wisconsin Highway 78 to junction Wisconsin Highway 11, thence along Wisconsin Highway 11 to its junction with Wisconsin Highway 23, thence along Wisconsin Highway 23 to junction Wisconsin Highway 39, thence along Wisconsin Highway 39 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction Wisconsin Highway 80, thence along Wisconsin Highway 80 to junction Wisconsin Highway 56, thence along Wisconsin Highway 56 to junction Wisconsin Highway 131, thence along Wisconsin Highway 131 to junction Wisconsin Highway 33, thence along Wisconsin Highway 33 to junction Wisconsin Highway 27, thence along Wisconsin Highway 27 to junction Wisconsin Highway 70, thence along Wisconsin Highway 70 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to Lake Superior. The purpose of this filing is to eliminate the gateway of Dubuque, Iowa.

No. MC 128273 (Sub-No. E1) (Correction), filed May 2, 1974, published in the FEDERAL REGISTER January 20, 1975. Applicant: MIDWESTERN DISTRIBUTION, INC., P.O. Box 189, Fort Scott, Kans. 66701. Applicant's representative: Harry Ross (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products*, (e) from Mobile, Ala., and Moss Point, Miss., to points in Indiana, points in that part of Pennsylvania on and west of U.S. Highway 15, points in that part of Ohio on, west and north of a line beginning at a point on the Ohio-Pennsylvania State line near Sharon, Pa., extending along U.S. Highway 62 to Columbus, thence along U.S. Highway 23 to Circleville, thence along U.S. Highway 22 to Cincinnati, and points in that part of Illinois north and west of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 36 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Illinois-Wisconsin State line. The purpose of this filing is to eliminate the gateway of Wickliffe, Ky. The purpose of this correction is to reflect the precise authority sought in (e) above. The remainder of the letter-notice remains as previously published.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,  
Acting Secretary.

PART II

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

## STATE ADULT EDUCATION PROGRAMS

Guidelines for the Preparation of State  
Applications

## Title 45—Public Welfare

## CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

## PART 166—STATE ADULT EDUCATION PROGRAMS

## Appendix C—Guidelines for the Preparation of Annual Program Plans

Under the authority contained in the Adult Education Act, as amended (20 U.S.C. 1201-1211a), notice is hereby given that the U.S. Commissioner of Education is adding a new Appendix C to the regulations for the State Adult Education Program which were published in the FEDERAL REGISTER on April 23, 1975 (40 FR 17950-17960).

Appendix C provides guidelines for the preparation of State applications for Federal assistance under the Adult Education Act. The guidelines will read as set forth below.

**Effective date.** These guidelines become effective on June 20, 1975.

(Catalog of Federal Domestic Assistance No. 13.400, Adult Education—Grants to States)

T. H. BELL,

U.S. Commissioner of Education.

MAY 15, 1975.

## APPENDIX C—GUIDELINES FOR THE PREPARATION OF ANNUAL PROGRAM PLANS

## PART 1—INTRODUCTION

## Sec.

- 1.1 Scope of guidelines.
- 1.2 Applicable statutes and regulations.
- 1.3 Purpose of the annual program plan.

## PART 2—ADMINISTRATIVE PROVISIONS

- 2.1 Civil rights.
- 2.2 Annual program plan requirements.
- 2.3 Administrative organizations.

## PART 3—PROGRAM PLANNING, BUDGETING, AND EVALUATION

- 3.1 Overview of the planning process.
- 3.2 Adult learning needs survey.
- 3.3 Inventory of resources.
- 3.4 Determining program priorities.
- 3.5 Allocation of resources.
- 3.6 Program coordination.
- 3.7 Program evaluation.
- 3.8 Annual program plan format.

## PART 4—LONG-RANGE PROGRAM PLAN

- 4.1 Long-range program plan.

## PART 5—SPECIAL EXPERIMENTAL DEMONSTRATION PROJECTS AND TEACHER TRAINING PROVISIONS

- 5.1 Applicability.
- 5.2 Allocation of resources.
- 5.3 Eligible projects.
- 5.4 Eligible applicants.
- 5.5 Project applications.
- 5.6 Establishment of national priorities in adult education.
- 5.7 Criteria for review of project applications.
- 5.8 Submission of applications.
- 5.9 Selection of participants for teacher training projects.
- 5.10 Application review panel.
- 5.11 Disposition of applications.
- 5.12 Hearings.
- 5.13 Program evaluation procedures.
- 5.14 Reports.
- 5.15 Dissemination of materials produced by projects.

## PART 1—INTRODUCTION

## Sec. 1.1 Scope of guidelines.

(a) The guidelines contained in this document are recommendations and suggestions for meeting the legal requirements which apply to annual program plans for Federal assistance under the Adult Education Act. The guidelines are not to be construed as requirements. However, where the guidelines set forth a permissible means of meeting a legal requirement, the guidelines may be relied upon.

(20 U.S.C. 1208; 113 Cong. Rec. 5936, 5939 (daily ed. May 23, 1967); United States v. Jefferson County Board of Education, 372 F.2d 836, at 857 (1966)).

(b) Where a guideline is issued in connection with or affecting a provision in the regulations, the pertinent regulation and the citation of legal authority will appear in parentheses immediately following the relevant section of the guidelines. For example, if the legal authority for a particular provision of the guidelines is section 306(a) of the Act (20 U.S.C. 1205(b)), and the guideline affects § 166.7 of the regulations (45 CFR 166.7), the following citation will be placed on the line immediately following the guideline (20 U.S.C. 1205(b); 45 CFR 166.7). If no particular section of the Act or regulations is affected, no citation to the Code of Federal Regulations (CFR) will be made.

(20 U.S.C. 1232(a))

## Sec. 1.2 Applicable statutes and regulations.

Annual program plans for adult education are to be prepared and implemented in accordance with applicable Federal statutes and regulations. Pertinent provisions include the Adult Education Act (20 U.S.C. 1201-1211a), the General Education Provisions Act (20 U.S.C. 1221 et seq.), the Adult Education Regulations (45 CFR Part 166), the "General Provisions for Office of Education Programs," (45 CFR Part 100b.) relating to fiscal, administrative, property management and other matters, hereinafter called "General Education Provisions Regulations" (GEPR). The State educational agency should carefully review the above references prior to preparing the annual program plan for adult education.

(20 U.S.C. 1201-1211a; 20 U.S.C. 1221 et seq.; 45 CFR Part 166; 45 CFR Part 100b and Appendices.)

## Sec. 1.3 Purpose of the annual program plan.

(a) The annual program plan for the Adult Education State Grant Programs is similar to the annual program plan requirements for several cooperative Federal-State programs. The annual program plan under the Adult Education Act provides, among other things:

- (1) The basis on which the State, through its State educational agency, will qualify to participate in and receive Federal funds for programs under the Adult Education Act;
- (2) A basis for planning, justifying, and organizing the proposed allocation of funds;
- (3) A basis for common understanding and communication among the State agency, other participating agencies (including State advisory councils), the U.S. Office of Education, and the program reviewers and auditors; and
- (4) A basis for both immediate and long-range planning and for systematic and continuous evaluation.

(b) In order to facilitate communication and program support in the development of the annual program plans, it is recommended that local adult education teachers, administrators, and State and local decisionmakers provide input.

transmitted by memorandum from Commissioner Ottina to the Chief State School Officers on April 22, 1974. The Commissioner's memorandum clearly stated that "obligations must be made during the period of availability not only by the State educational agency, but also by the secondary recipient . . ."

(20 U.S.C. 1205, 1232c(b); 45 CFR 166.11)

## PART 2—ADMINISTRATIVE PROVISIONS

## Sec. 2.1 Civil rights.

(a) Federal financial assistance is subject to the regulations in Part 80 of this title, issued by the Secretary of Health, Education, and Welfare and approved by the President, to effectuate the provisions of Title VI of the Civil Rights Act of 1964 (Pub. L. 88-352).

(42 U.S.C. 2000d; 45 CFR 100b.262(a))

(b) Federal financial assistance is also subject to the provisions of Title IX of the Education Amendments of 1972 (prohibition of sex discrimination) and any regulations issued thereunder.

(20 U.S.C. 1681-1683; 45 CFR 100b.262(b))

## Sec. 2.2 Annual program plan requirements.

(a) General. Subpart C of the regulations contained at 45 CFR Part 166.11 through 166.16 describes certain requirements with regard to submitting the annual program plan for adult education. Appendix A of these regulations also contains the required cover sheet and State-Federal agreement.

(20 U.S.C. 1232c(b))

(b) Transmittal. (1) In order to participate in the program, section 434 of the General Education Provisions Act requires that each State submit to and maintain on file with the Commissioner a general application which meets the requirements of section 434 (b)(1)(A) of the Act. Such general application shall (a) provide for the submission by the State and approval by the Commissioner of an annual program plan with respect to the particular programs in which the State desires to participate, and (b) provide assurances, as set forth in GEPR.

(2) The State educational agency must submit an annual program plan (which consists of a cover sheet, a State-Federal agreement, a narrative description of priorities and objectives for the fiscal year, and a long-range plan, if such a plan exists) to the Assistant Regional Commissioner, Occupational and Adult Education Programs (OAE). The Assistant Regional Commissioner, OAE, reviews and recommends approval of the annual program plan to the U.S. Commissioner of Education. Upon approval of the plan by the Commissioner, two copies of the cover sheet and the State-Federal agreement will be returned to the appropriate Regional Office of the U.S. Office of Education. One of these approved copies will be returned to the State educational agency.

(20 U.S.C. 1205, 1232c(b); 45 CFR 166.11 through 166.16)

(3) Obligation by recipients. The grant period (which is that period of time during which costs may be charged against a grant for a project) may not exceed the period of availability of the Federal allotment. The period of availability of the Federal allotment is prescribed by section 412(b) of GEPA which authorizes the obligation and expenditure of education funds (including those appropriated under the Adult Education Act) for one year succeeding the fiscal year for which appropriated (i.e., two years). This means that all funds appropriated under the Adult Education Act must be obligated or expended, not only by the State educational agency, but also by the secondary recipient (i.e., the school district), during the two-year period of availability of the Federal allotment. An interpretation of this ruling was

transmitted by memorandum from Commissioner Ottina to the Chief State School Officers on April 22, 1974. The Commissioner's memorandum clearly stated that "obligations must be made during the period of availability not only by the State educational agency, but also by the secondary recipient . . ."

The notification of grant award document should specify the "grant period" of the project. Although there is no prohibition against the State educational agency making a commitment to fund multi-year projects, subject to satisfactory performance on the part of the grantee and to continued availability of program funds, it is recommended that the commitment to fund any project under the authority of the Act not exceed a period of three consecutive years.

(20 U.S.C. 1232c(b)(1); 45 CFR 100b.55)

## Sec. 2.3 Administrative organizations.

(a) State administrative agency. It is often helpful for the annual program plan to include the following:

- (1) A State map. This map should show the pertinent administrative agencies within the State (for example, local educational agencies) and the geographical areas for which each such administrative agency is responsible. Such a map could assist the State educational agency in assuring that substantial progress can be made with respect to all segments of the adult population and all areas of the State toward carrying out the purpose of the Act and applicable regulations, particularly when used in conjunction with the adult needs survey referred to in section 3.2 of these guidelines.
- (2) An organizational chart. The annual program plan should include a chart of the organizational structure of the State Department of Education. This chart should reflect the line of authority from the Chief State School Officer to the State Director of Adult Education and show the positions of all persons, by title, serving the State educational agency in the conduct of the adult education program, manpower programs (including programs under the Comprehensive Employment and Training Act), reading programs for adults, community school programs, and other programs that serve the adult citizenry. Show on a separate sheet all positions that are directly involved in the administration of programs under the Adult Education Act.

(b) State and local advisory councils and committees—(1) State advisory councils. Any State which receives assistance under this title may establish and maintain a State advisory council, or may designate and maintain an existing State advisory council, which shall be, or has been, appointed by the Governor or, in the case of a State in which members of the State board which governs the State educational agency are elected (including election by the State legislature), by such board. Such advisory councils should include members of the client group, as set forth in the Act and in § 166.5 of the regulations. It is recommended that representation of women, the elderly, minority and ethnic groups, persons of limited English-speaking ability, and the educationally disadvantaged comprise not less than 50 percent of the membership of the State advisory council. It is also suggested that the annual program plan describe how the advisory council, if such council exists, might assist in carrying out the activities authorized under the Act and Subpart B of the regulations in 45 CFR 166.4 through 166.10. For example, such activities might include (i) an active review of the annual program plan during its development, (ii) the review of projects proposed for funding under sections 308 and 309, (iii) the

evaluation of projects funded under the authority of section 309 of the Act, and (iv) service agency coordination.

(2) Allowable costs. Costs incurred by State advisory council members to perform services for the State adult education program must be classified as a cost of administration. The State educational agency may choose to pay all or some portion of these costs from State and local revenues. However, if Federal funds are to be used for this purpose, such costs must be paid from the 5 percent allowance for the cost of administration.

(20 U.S.C. 1208(b); 45 CFR Part 100b, Subpart G)

(3) Local advisory committees. A local advisory committee (or planning group) can often be a valuable resource, and, therefore, a description of any involvement of such a committee would be appropriate for inclusion in the annual program plan. Local advisory groups may include members of the client group (such as teachers and participants) and may be appointed by the State educational agency or by a local administrative agency.

The annual program plan should describe how the local advisory group(s) assist in carrying out the activities under the Act. For instance, a local council may assist in any of the following activities: (i) Local project design; (ii) annual program plan development; (iii) policy development; (iv) needs assessment; (v) project review; (vi) staff development; (vii) recruitment of program participants; (viii) evaluation and monitoring; (ix) dissemination and reporting; and (x) program promotion.

(c) Other organizations. It is often helpful to hold public hearings and meetings periodically throughout the State to encourage the participation of other concerned groups and members of the general public.

(20 U.S.C. 1205 and 1208(b))

(d) Planning charts referred to throughout these guidelines are attached as Exhibit 1. Copies of these documents may be obtained from the USOE Regional Office.

(20 U.S.C. 1205)

Sec. 3.2 Adult learning needs survey.

(a) It is suggested that a needs survey be conducted without regard to fiscal constraints or anticipated revenues from State, Federal, or local sources, in order to determine the full extent of adult learning needs in the State. Such surveys may be conducted under the authority of section 306 or section 309 of the Act. A survey chart (such as adult program planning chart A) may be used by the State agency or by the local agency in identifying adult learning needs and annual program accomplishments.

(b) Charts similar to adult program planning chart A may also be useful for surveying needs at the adult basic education and adult secondary education levels, as set forth in the regulations in § 166.12(b).

(c) Since this survey will affect subsequent decisions, it is suggested that the county breakdown reflected in the most current census also be examined carefully and compared with the survey data. (See the general social and economic characteristics column of the State census for years of school completed by females and males over 25 years of age according to county. See also educational attainment data of the age group between 16 and 25 by States.)

(d) Resource materials which may be useful in designing an adult education needs survey include:

- (1) Publications of the National Center for Educational Statistics, Office of the Assistant Secretary of Education, DHEW, concerning adult education data;
- (2) Reports of evaluation studies available through the ERIC Clearinghouse on Career Education, Northern Illinois University, 204 Gabel Hall, DeKalb, Illinois.

(3) Teacher training studies produced by the University of Missouri at Kansas City;

(4) Reports of evaluations of other Adult Education State Grant Programs;

(5) The Adult Basic Education Evaluation Model produced by Teachers College, Columbia University;

(6) Regional staff development plan, for the region in which the State is located;

(7) National Advisory Council on Adult Education reports;

(a) Federal Activities in Support of Adult Education, 1972;

(b) Adult Education—State Demographic Data, 1973;

(c) A Target Population in Adult Education, 1974; and

(8) Selected publications of the Educational Policy Research Center, Syracuse, New York.

Sec. 3.3 Inventory of resources.

In addition to the identification of adult learning needs, it is recommended that the State educational agency compile an inventory of those resources that can be applied toward alleviating those needs. An inventory of available resources might include the following:

(a) Personnel. In order to clarify the extent of personnel currently available in the field of adult education and those desired, a chart might be included in the annual program plan. (See adult education program planning chart B.)

(b) Facilities. Identify, by geographical area, facilities that are available for use for the adult education program, such as classrooms, laboratories, libraries or other facilities appropriate for instruction of students, or for research or for administration of the educational programs.

(c) Subsequent sections of these guidelines describe each of the above steps in the planning process.

(c) *Instructional materials.* Identify and catalog those materials which are available which assist in providing instruction, such as audiovisual materials, guidance services, library materials, textbooks, and other supplies for instruction.

(20 U.S.C. 1233c(b))

(d) *Community resources.* Experience indicates that the success of the education program relates closely to the extent to which total community resources are utilized with a view toward maximizing services required by the individual. Community resources should be identified, assessed, and cataloged to determine the contributions that they might make to adult instructional programs. Examples of such resources are local educational agencies, public libraries, museums, television and radio stations, newspapers, transportation, recreational and cultural organizations, business and industry, public health agencies, social security offices, day care centers, hospitals, correctional institutions, learning centers, colleges or community colleges, technical institutes, and other appropriate organizations. During the planning survey, an effort might also be made to identify facilities which are convenient to adult learners and which provide other required services, such as health and welfare services.

(20 U.S.C. 1205)

SEC. 3.4 *Determining program priorities.*  
(a) The State educational agency is required to establish program priorities and objectives and to allocate resources accordingly. A statement setting forth these priorities and objectives must be included in the State's annual program plan, as required by section 434(b)(1)(B) of the General Education Provisions Act and the regulations at § 166.12(b). Such a statement should provide a succinct description of each priority and the basis for establishing each such priority.

(20 U.S.C. 1232c(b))

(b) In accordance with § 166.25 of the regulations, the Commissioner of Education will identify national priorities annually in the field of adult education and, as necessary, will publish current priorities in the *FEDERAL REGISTER*. The State educational agency is urged to take these priorities into consideration in determining its annual priorities and objectives and to describe in its annual program plan how the priorities established for the State relate to the current national priorities.

(c) It is suggested that the State educational agency formulate and disseminate its policies, procedures, criteria, and priorities to concerned persons and organizations in order to guide agencies and individuals in applying for program support, consistent with Subpart C (annual program plan provisions) and Subpart D (special experimental demonstration projects and teacher training) of the regulations.

(d) It is imperative that the State provide a coordinated statewide program which focuses upon the established priorities and concomitantly upon the urgent needs of each locality or group.

To fulfill this responsibility, the State educational agency may wish to request applications which (as described in section 309 of the Act) focus on a particular need not otherwise addressed.

(20 U.S.C. 1205, 1208; 45 CFR 166.11, 12, 13 and 25)

SEC. 3.5 *Allocation of resources.*

(a) *State administration.* Section 313(b) of the Adult Education Act limits the amount

of Federal funds that may be used to pay the cost of development and administration of the annual program plan, and other activities required pursuant to the Act, to 6 percent of the sum appropriated under the Act for any given fiscal year. As stated in § 166.42 of the regulations and in accordance with the authority of section 313(b) of the Act, the Commissioner shall determine and advise the States annually of the maximum allowable amount that each State may use of its annual Federal allotment for administrative expenses.

It is important to note that the 5 percent limitation on administrative costs applies only to the Federal share. This means there is no prohibition against the utilization of State and local revenues to supplement the Federal allowance for paying the cost of State administration of the program.

(b) *Eligible costs for administration of annual program plan.* To the extent that they are reasonably necessary for and attributable to carrying out the annual program plan, the eligible administrative costs, at the discretion of the State educational agency, may include the following:

(1) Salaries of the professional and clerical staff, including all amounts deducted or withheld as contributions to retirement, health, or other welfare benefit funds maintained for such staff. For employees of the State educational agency, the retirement fund contributions may be computed in conformity with State laws or regulations governing the State's share of such contribution;

(2) Fees and approved expenses of consultants, panel members, and other persons or groups acting in an advisory capacity (see Appendix B of GEPR);

(3) Expenses connected with committees, workshops, and conferences which relate to State administration;

(4) Travel expenses of staff and consultants are allowable in accordance with established appropriate State, local, or institutional travel regulations and limitations;

(5) Communications costs;

(6) Supplies, printing, and printed materials;

(7) Rental of, or, where economically justified, purchase of office and program equipment;

(8) Rental cost of space in a privately or publicly owned building is allowable (including the cost of utilities and custodial services) if: The cost does not exceed comparable rental on a square foot basis in the particular locality for the period of occupancy; the expenditure represents an actual cost; and like charges are made to other agencies occupying similar space for similar purposes;

(9) Maintenance and operation costs (such as utilities, insurance, security, janitorial services, elevator service, upkeep of grounds, normal repairs and alterations) are allowable to the extent they are not otherwise included in rental or other charges for space, and

(10) Costs incurred for rearrangements and alterations of facilities required specifically for the grant program or those that materially increased the value or useful life of the facilities are allowable when specifically approved by the grantor agency.

(45 CFR Part 100b, Appendix B)

(c) *Programs of instruction.* The State agency is requested to set forth the policies and procedures to be used to allocate the adult education funds available to it for the purposes of the Act. Each State is expected to use such funds on a broad statewide basis in terms of the purposes specified in the Act and in §§ 166.12 and 166.13 of the regulations. In planning the allocation of such funds, the State agency should also give consideration to the distribution of local funds among

each of the population groups for adult programs and services.

In the development of its annual program plan, the State educational agency is encouraged to examine the functional competencies concept developed by the Adult Performance Level (APL) project. The APL project has developed a research process which has identified competencies which are important to success as adults. Using an assessment method which stems from viewing functional competence as a function of individual capabilities and societal requirements, the APL project has produced data which suggest that, contrary to popular belief, many adults do not have the basic education for living which is indicated for even minimal levels of success. These results, and the objectives upon which they are based, can have profound implications for educational practice, and form a base of information and evidence which can be used to make different educational systems more responsive to the needs of both their clients and society.

In examining this concept, the State educational agency may wish to contact the Division of Extension, The University of Texas, Austin, Texas, as well as those States which are now implementing, or shortly will implement, Adult-Performance Level-related projects or programs. Such States are Alabama, Colorado, Kansas, Mississippi, New Jersey, New York, Oregon, Rhode Island and Texas.

(1) *Adult basic education.* Describe the policies and procedures to be followed by the State educational agency for assuring that special program emphasis will be given to adult basic education programs, as prescribed by the Act. The plan should identify characteristics of the total eligible population in terms of social, economic, racial, ethnic, and geographic factors, and describe the following:

(i) The criteria to be used to identify eligible persons (as defined in § 166.2 of the regulations); (ii) the methods to be used to determine the appropriate design, and to develop and implement relevant programs of instruction; (iii) the proposed level of activity during the fiscal year; (iv) the rationale for the allocation of funds in terms of dollars (or percentage of allotment) by performance levels of instruction; and (v) the reciprocal relationship of proposed activities and the findings of adult learning needs surveys.

(2) *Adult secondary education.* Describe the policies and procedures to be followed by the State educational agency to make available the opportunity for an adult secondary education to eligible persons, as defined in § 166.2 of the regulations. The plan should describe: (i) The criteria to be used to identify eligible persons; (ii) the characteristics of the total eligible population in terms of social, economic, racial, ethnic, and geographic factors; (iii) the methods to be used to assure the availability of relevant programs of instruction; (iv) the rationale for allocation of funds in terms of dollars (or percentage of the allocation) and the proposed level of activity, and (v) procedures to be utilized to assure that the total annual expenditure of Federal funds for adult secondary education programs, including adult secondary education programs for institutionalized persons, does not exceed 20 percent of the total annual allotment of Federal funds.

The plan should also provide information on the procedures to be used to coordinate adult secondary education programs assisted under the Act with other adult secondary education programs operating within the State. For each of the other adult education programs, describe the source of funding.

the number of persons served, characteristics of target population and geographical data, and other pertinent and descriptive program information.

(3) *Programs for institutionalized persons.* Describe the policies and procedures to be followed by the State educational agency to identify eligible institutionalized persons, as defined in § 166.2 of the regulations. The plan should contain a statement which describes: (i) The criteria to be used in identifying institutionalized persons by type of institution represented; (ii) the methods to be used to determine the appropriate design, and to develop and implement relevant programs of instruction; (iii) the proposed level of activity, including information on the estimated number of persons to be served by type of institution; (iv) the rationale for the allocation of funds in terms of dollars (or percentage of allocation); and (v) the procedures to be used to assure that the total annual expenditure of funds for programs for institutionalized persons does not exceed 20 percent of the total expenditure (from Federal funds and State and local matching funds) for the purposes of the Act for any given fiscal year. The plan should also provide information on the procedures to be used to coordinate programs assisted under the Act with other Federal, federally assisted, State, and local programs for institutionalized persons.

(4) *Bilingual adult education programs.* Describe the policies and procedures to be followed by the State agency for providing bilingual adult education programs for persons of limited English-speaking ability, as defined in § 166.2 of the regulations. The plan should describe (i) the criteria to be used to identify persons of limited English-speaking ability; (ii) the methods to be used to determine the appropriate design, and to develop and implement relevant programs of instruction; (iii) the proposed level of activity, including the number and location of persons to be served; and (iv) the rationale for the allocation of funds in terms of dollars (or percentage of allocation). Since title VII funds are awarded directly to the local educational agency by the Commissioner, the local educational agency must assure the State educational agency that expenditures for bilingual adult education programs will supplement title VII monies and not amount to a duplication of effort.

(d) *Eligible program costs.* Expenses incurred by the State educational agency staff which are associated with or attributable directly to program development costs may be classified under the appropriate function or program assignment. For guidance in classifying and prorating items of costs incurred by both State and local educational agencies, use of the following publication of the National Center for Educational Statistics is recommended: "Financial Accounting—Classification and Standard Terminology for Local and State School Systems," 1973, Handbook II, Revised (OE 73-11800).

(20 U.S.C. 1205; 45 CFR 166.42; 45 CFR 100b, Appendix B)

SEC. 3.6 *Program coordination.*

(a) Insofar as practicable, the State educational agency is requested to take such actions as may be necessary to assure (1) conformity of the goals and objectives of the adult education program with the educational goals and policies of the State, and (2) consistency in applying established State-administrative practices.

(b) Activities to be funded under the Adult Education Act should be coordinated with other Federal, federally assisted, State, and local programs, and the State educa-

tional agency is encouraged to set the stage for instituting a more systematic and continuous coordination effort in order to:

(1) Facilitate State and local initiatives and responsibility in developing organizational and procedural arrangements for coordinating program activities;

(2) Eliminate overlap, duplication, and competition in State and local planning activities assisted or required under Federal programs, and to facilitate the most effective use of State and local resources; and

(3) Encourage the States to exercise leadership in delineating and establishing a system of planning and development which can provide a consistent base for the coordination of Federal, State, and local programs.

(c) The State educational agency is requested to include in the annual program plan a statement which describes the objectives and procedures of the adult education program for coordinating its activities with other Federal, federally assisted, State, and local programs concerned with meeting the needs of institutionalized persons and persons of limited English-speaking ability, as defined in the regulations in § 166.2.

(d) It is suggested that the annual program plan provide information on the procedures to be utilized to effectuate cooperative arrangements between programs administered under the Adult Education Act and other adult education programs, in general; the following organizations and agencies should be provided an opportunity to comment on the development of the annual program plan: State Manpower Services Council (section 107 of CETA); State health authority; Community Action, Work Experience, VISTA, Work Study, programs designed to provide reading instruction for adults, and other programs relating to the antipoverty effort. The annual program plan should also describe procedures to effectuate coordination with the following programs: Manpower programs (including programs under CETA) and occupational education programs, community education programs, consumer education programs, career education programs, metric education programs for adults, and programs for the aging assisted under the Older Americans Act. Such coordination might cover provisions for joint studies, utilization of resources, organizational arrangements, and utilization of common and consistent statistics, projects, and assumptions about future activities.

(e) Although program coordination with specific programs is required, this is not to be construed as prescribing the form or substance of the coordination or cooperation to be affected. These are matters to be negotiated between the State agency and the other Federal, federally assisted, State, and local programs.

(20 U.S.C. 1205(a); 45 CFR 166.12 and 166.13; 45 CFR Part 100b, Subpart Q; 20 U.S.C. 1231a(a)(3))

SEC. 3.7 *Program evaluation.*

(a) *Monitoring of program activities.* The annual program plan should contain a statement which sets forth the policies, procedures and practices of the State educational agency for assuring that the performance of adult education programs assisted under the Act are constantly monitored to assure adequate progress is being made toward achieving the goals of the grant. As required by § 100b.431 of GEPR, these reviews shall be made for each function or activity of each grant as set forth in the annual program plan.

Each State educational agency is strongly urged to monitor and report on not less than 10 percent of the adult education programs each year. The State educational agency

should establish and set forth in the annual program plan the sampling procedures to be used for selecting the 10 percent of the total adult education projects to be monitored and reported on annually, and for excluding from the current sample those projects which have been examined as a part of this effort during a preceding fiscal year. For each program that is examined, a report should be prepared and submitted to the U.S. Commissioner of Education, as authorized under § 166.12(b)(4) of the regulations and section 434(b) of the General Education Provisions Act.

In establishing procedures for instituting the monitoring and reporting system, consideration should be given in the sampling procedures to examining the adult education programs which serve the largest number of adults.

(b) *Evaluation of selected program issues.* In accordance with § 166.12(b)(4) of the regulations, the State educational agency should set forth in the annual program plan the procedures which the State educational agency will use to conduct evaluations of all activities under section 306 and 309 of the Act. The State educational agency may wish to evaluate local educational programs directly or use third-party evaluators. However, for the purpose of conducting an evaluation study of the State adult education program, it is recommended that the State educational agency contract with a third party for such services.

The following issues are suggested for consideration for evaluation studies:

(i) Are local programs of instruction designed in harmony with and in response to the findings of adult learning needs surveys and to what degree are they supportive of the consideration that special program emphasis be given to adult basic education?

(ii) Are local programs of instruction reviewed on a recurring basis? This is very important, since the State educational agency or the USOE Regional Office may be able to provide technical assistance which could strengthen the program.

(iii) Is systematic staff development taking place within local programs?

(iv) Have the evaluation studies conducted by the State educational agency included administrative and management components, such as maintaining adequate financial records, systematically providing for program audits, and retention of records?

(v) Have the regulations for the Adult Education program (which includes the State-Federal agreement and the national priorities) and the General Education Provisions Regulations been distributed to all participating agencies?

(vi) How successful has the State been in reaching the most disadvantaged adults (i.e., persons who have completed not more than five grades of schooling) into the program? What is the participant dropout rate in adult basic education programs? In adult secondary education programs?

(vii) What State and/or local efforts, if any, have been made to upgrade the level of instruction and to improve overall program efficiency, including the incorporation of innovative methods and techniques?

(viii) To what extent, if any, are special projects and teacher training activities coordinated on a statewide basis? regional national?

(ix) To what extent are guidance and counseling services available to participants in adult education programs assisted under the Act?

(x) What percentage of the program participants receive guidance and counseling services? In the adult basic education program? In the adult secondary education program?

## RULES AND REGULATIONS

(xi) To what extent, if any, are follow-up studies conducted to determine program effectiveness in terms of serving the goals and needs of the participants.

(20 U.S.C. 1205(a); 45 CFR 166.12(b)(4); 45 CFR Part 100b, Subpart Q)

### Sec. 3.8 Annual program plan format.

The annual program plan must set forth a statement describing the purposes for which Federal funds allotted to a State under section 305 of the Act will be expended during the fiscal year for which the annual program is submitted. In presenting the requirements of the annual program plan, as prescribed by section 434 of GEPA and the regulations at §§ 166.12 and 166.13, a State educational agency may wish to prepare its plan along the lines of the following format:

(a) *General program goal statements.* This portion of the plan should contain a brief introductory overview of the general program goals.

(b) *Needs survey and resource inventory.* This portion of the plan should contain a description of the conclusions of a needs survey and a resource inventory, including information and planning charts such as those discussed in section 3.2 and 3.3.

(c) *Specific program priorities and objectives.* This portion of the program plan should describe the specific program objectives which reflect priorities established in accordance with section 3.4 of these guidelines. Examples of suggested program objectives are to:

(1) Review project applications to assure their compliance with Federal and State guidelines;

(2) Provide on-site visits by State agency staff for technical assistance;

(3) Provide on-site visits in connection with the annual monitoring of at least 10 percent of the adult education programs;

(4) Provide pre-service and in-service training activities;

(5) Establish a State advisory council which will meet \_\_\_\_\_ times a year;

(6) Increase enrollments in adult basic education programs by \_\_\_\_\_ for an increase of \_\_\_\_\_ percent;

(7) Increase enrollments in adult secondary education programs by \_\_\_\_\_ for an increase of \_\_\_\_\_ percent;

(8) Establish \_\_\_\_\_ programs for institutionalized persons for an increase of \_\_\_\_\_;

(9) Establish \_\_\_\_\_ bilingual adult education programs for an increase of \_\_\_\_\_ percent;

(10) Establish \_\_\_\_\_ programs in cooperation with community school programs for an increase of \_\_\_\_\_ percent;

(11) Establish \_\_\_\_\_ programs in cooperation with business and industry for an increase of \_\_\_\_\_ percent;

(12) Add \_\_\_\_\_ new programs during the program year; and

(13) Complete and submit required reports by the deadline date.

(d) *Activities and procedures.* Describe the activities and procedures to be used to address each priority or objective. It is suggested that each priority or objective be discussed individually. (Where appropriate, utilize the suggestions and planning charts referred to in section 3.2.)

(e) *Evaluation.* This portion of the annual program plan may include a discussion of evaluation activities, including:

(1) Evaluation activities proposed to be conducted in the year for which the annual program plan is submitted (see section 3.7); and

(2) The extent to which completed evaluation studies have indicated strengths and weaknesses that have affected the design of the currently proposed activities and procedures.

(20 U.S.C. 1205, 1208, 45 CFR 166.11, 12, 13 and 25)

### PART 4—LONG-RANGE PROGRAM PLAN

#### Sec. 4.1 Long-range program plan.

The State education agency may wish to develop a long-range program plan to be updated annually and submitted to the U.S. Commissioner of Education along with the annual program plan, which is required by the new State application procedure.

(a) The long-range program plan may be developed by the State educational agency with the advice of the State advisory council, if such council exists, as permitted under section 310A of the Act, and in consultation with appropriate staff of the U.S. Office of Education. Such annual revisions should take into consideration: (1) The results of evaluations and surveys made or sponsored by the State educational agency, the State advisory council, if such council exists; and (2) recommendations of the National Advisory Council on Adult Education, and the U.S. Office of Education. Appropriate revisions and a one-year extension to the long-range program plan should be incorporated as a part of the annual program plan which is submitted to the U.S. Commissioner of Education for any given fiscal year.

(b) The long-range program plan may contain the following:

(1) A description of the State's identified projected educational needs of adults, especially as they relate to adult basic education; and

(2) A plan of action for using Federal funds available under the Act to meet identified needs for the duration of the long-range plan, beginning with the fiscal year in which the annual program plan is submitted.

### PART 5—SPECIAL EXPERIMENTAL DEMONSTRATION PROJECTS AND TEACHER TRAINING

#### Sec. 5.1 Applicability.

Federal funds are authorized to be administered by the State educational agency for special projects in adult education under subsection (1) and adult education personnel training under subsection (2) of section 309 of the Act.

(20 U.S.C. 1208)

#### Sec. 5.2 Allocation of resources.

(a) The State educational agency must establish and set forth in its annual program plan the policies and procedures under which it will use not less than 15 percent of the funds allotted to it for any given fiscal year under section 305 of the Act for special projects and teacher training, as prescribed by section 309 of the Act.

(b) The funds available for the purposes of section 309 of the Act must be expended by the State educational agency in such a way as to provide support from each annual allotment for both special projects and teacher training programs. The distribution of such funds among the two programs must be determined by the State educational agency in accordance with the overall objectives of its annual program plan.

#### Sec. 5.3 Eligible projects.

(a) *Special projects.* From each annual Federal allotment to the State educational agency for the purposes of the Act, funds will be available under section 309(1) for special projects which:

(1) Involve the use of innovative methods, systems, materials, or programs which (i) may have national significance, or

(ii) may be of special value in promoting effective programs under the Act, or

(2) Involve programs of adult education which are part of community school programs carried out in cooperation with other Federal, federally assisted, State, or local

programs which have unusual promise in promoting a comprehensive or coordinated approach to the problems of persons with educational deficiencies.

(b) *Teacher training.* From each annual Federal allotment to the State educational agency, funds will be available under section 309(2) of the Act to train persons engaged, or preparing to engage, as personnel in programs designed to carry out the purposes of this Act.

(20 U.S.C. 1208(2); 45 CFR 166.22)

#### Sec. 5.4 Eligible applicants.

(a) *Special projects and teacher training.* Federal funds authorized for the purposes of section 309 of the Act may be used for grants, contracts, or other arrangements, if appropriate under applicable State laws, to provide support for special projects and teacher training. Eligible applicants include the following:

(1) State and local educational agencies;

(2) Public and private agencies, institutions, and organizations; and

(3) Individuals (unless precluded by State law).

(20 U.S.C. 1208; 45 CFR 166.23)

(b) *Ineligible applicants.* No funds may be used from the State's allotment under this part for programs conducted by any school or department of divinity, as defined in section 312 of the Act.

(20 U.S.C. 1210)

#### Sec. 5.5 Project applications.

(a) Since funds to support special projects and teacher training under section 309 of the Act will be available from the appropriate State educational agency, information on policies and procedures for applying for such support should be incorporated into the annual program plan and disseminated widely. A separate application form is recommended for each proposed project.

(b) *Special projects.* Projects should be designed to:

(1) Meet the special educational needs of adults, including persons of limited English-speaking ability, as defined in § 166.2 of the regulations;

(2) Address one or more of the current statewide adult education program priorities which have been identified and published by the State educational agency. Such priorities should be prepared in consultation with the State advisory council, if such advisory council exists, and take into consideration relevant recommendations of the National Advisory Council on Adult Education and, as appropriate, reflect the national adult education program priorities which have been identified by the U.S. Commissioner of Education and appear as Appendix B to the regulations (45 CFR Part 166);

(3) Be consistent with the educational program which the State proposes to conduct under its annual program plan; and

(4) Ensure coordination with community education programs and other Federal, federally assisted, and State and local programs and projects for the education of adults.

(c) *Teacher training.* Applications should be designed to:

(1) Be consistent with State staff development plans developed under regional staff development projects; and

(2) Meet the special training needs of various adult education personnel, including teachers, para-professionals, administrators, counselors, and others; or

(3) Meet the special training needs of personnel employed in priority programs such as bilingual adult education programs for persons with limited English-speaking ability, and community education programs; or

(4) Meet the special training needs of persons preparing to engage in adult education programs.

(d) The State educational agency may not assign any part of its responsibility to another agency. This does not, however, prevent a State educational agency from exercising its authority under the Act to coordinate activities with other Federal, federally assisted, State, and local programs, nor prevent two or more applicants in one or more States from conducting a joint program or project (including a planning project).

(20 U.S.C. 1208; 45 CFR 166.24)

#### Sec. 5.6 Establishment of national priorities in adult education.

(a) Based on the findings of surveys and studies conducted by the U.S. Office of Education, recommendations of the National Advisory Council on Adult Education, and on evaluations by State educational agencies, State advisory councils, and other appropriate information bases, the U.S. Office of Education will annually review and identify national priorities in the field of adult education and, as necessary, will publish current priorities in the Federal Register. In establishing its priorities, the State educational agency may take the national priorities into consideration in the development of the annual program plan. Such priorities are contained in the regulations (45 CFR Part 166) as Appendix B.

(b) In soliciting applications for special projects and adult education personnel training programs, it is recommended that the State educational agency identify and publish, annually, statewide adult education program priorities and evaluation criteria which have been determined in accordance with the requirements contained in the regulations at 45 CFR 166.25. The annual program plan should identify the organizational unit and official(s), by title, that are responsible for establishing procedures for and the identification of program priorities for any given fiscal year.

(c) In order to assure that all interested persons and organizations in all segments of the adult education community throughout the State are aware of the availability of Federal funds for support of special projects and teacher training programs, wide circulation of the announcement of program priorities and criteria is necessary. All Federal funds are to be distributed equitably among the applicants solely on the basis of merit. Therefore, the State educational agency is urged to establish procedures which will provide maximum open and free competition to assure that all citizens of the general public have an equal opportunity to compete for the available Federal funds. The State educational agency is urged to establish procedures for the award of grants as well as contracts which adhere to the procurement standards set forth in subpart I of GEPR. However, when contracts are used as the funding mechanism for awarding Federal funds, the State educational agency must adhere to the requirements of Subpart I of GEPR.

(d) In evaluating applications for special projects and adult education personnel training programs, the State educational agency is encouraged to give special emphasis to applications judged as having a potential for national significance.

(20 U.S.C. 1208; 45 CFR 166.12(b)(4))

#### Sec. 5.7 Criteria for review of project applications.

The State educational agency should establish, publish in the annual program plan, and disseminate the criteria to be used in reviewing project applications from local educational agencies, public and private organizations, or individuals. Such criteria should

## RULES AND REGULATIONS

be applied in conjunction with the criteria developed under §§ 166.12, 166.13 and Appendix B of the regulations contained in 45 CFR Part 166. The value to be assigned to each of the applicable criteria shall be the responsibility of the State.

(a) *General criteria.* It is recommended that the following general criteria be utilized in evaluating both special projects and teacher training applications:

(1) Objectives are sharply defined, clearly stated, capable of being attained by the proposed procedures, and capable of being measured;

(2) Proposed plan of operation is sound;

(3) Proposed activity is relevant to the priority or needs addressed;

(4) Proposed activity is needed in the area to be served by the applicant;

(5) Designated project personnel possess qualifications and experience to adequately carry out project activities;

(6) Facilities and other resources are adequate to carry out the objectives of the project;

(7) Size, scope, and duration of the project would secure productive results, and the estimated cost is reasonable in relation to these results;

(8) Potential for replication and utilization of the results of the project in other adult education programs and the provisions for disseminating these results are judged to be adequate;

(9) Provisions are included for an adequate evaluation of the project's effectiveness and for determining the extent to which its objectives are accomplished.

(b) *Special projects.* In evaluating applications for special projects, it is suggested that the State educational agency give consideration to such factors as whether and to what extent the project:

(1) Involves the use of innovative methods, systems, materials, or programs and which may have national significance and will serve residents of the State or be of special value in promoting effective programs under the Act;

(2) Is to be carried out in cooperation with other federally assisted, State, or local programs which have unusual promise in promoting a comprehensive or coordinated approach to the problems of persons with educational deficiencies;

(3) Is designed to address critical educational needs which have been identified as State or national priorities for adult education;

(4) Has unusual promise for the development of concepts, practices, and techniques which can be adapted or adopted elsewhere in establishing or improving adult education;

(5) Is related to and is carried out in cooperation with appropriate training activities whether or not assisted under the Act;

(6) Will result in the development of materials and methods which may be of value in increasing the effectiveness of adult education programs;

(7) Provides for cooperation and coordination with business and industry, labor and other agencies, institutions, and community education programs and other related programs, as identified in § 166.13 of the regulations, in order to strengthen the project and prevent duplication of effort;

(8) Provides, where appropriate, for cooperation and continuation by the local educational agencies and other public and private agencies; and

(9) Will strengthen the adult education delivery systems within the State.

(c) *Teacher training.* In evaluating applications for training grants, it is suggested that the State educational agency give consideration to such factors and whether as to what extent the project—

(1) Is consistent with the objectives set forth in the annual program plan for the development and training of adult education personnel;

(2) Will include training in the utilization and development of innovative methods, systems, materials, or programs;

(3) Will meet local needs for adult education personnel;

(4) Is designed to address critical training needs which have been identified as State or national priorities for adult education;

(5) Provides for periodic, systematic, and objective reviews and evaluations of the project;

(6) Is coordinated with appropriate special experimental demonstration projects which may be operating in the geographic area served by the applicant;

(7) Is coordinated with adult education programs being sponsored in the State in which the applicant is located or with a consortium of the States from which trainees are drawn or to which trainees may be expected to return;

(8) Is to be carried out in cooperation with other federally assisted, State, or local programs;

(9) Provides for cooperation and coordination with business and industry, labor and other agencies, as identified in § 166.13 of the regulations, to strengthen the project and prevent duplication;

(10) Provides for cooperation and continuation by the local educational agencies and other public and private agencies; and

(11) Includes criteria for eligibility for participation in the project.

(20 U.S.C. 1208; 45 CFR 166.24)

Sec. 5.8 *Submission of applications.* The State educational agency should establish policies and procedures to regulate the submission of applications for special projects and teacher training under section 309 of the Act. Such applications should be submitted in accordance with State laws, regulations, policies, and procedures. It is recommended that the State educational agency:

(a) Develop and implement procedures which will ensure that information concerning the availability of Federal funds for special projects and teacher training is disseminated to all segments of the adult education community in all areas of the State;

(b) Issue a public announcement concerning the availability of funds for special projects and teacher training programs which requests applications that address current statewide adult education program priorities, which have been determined in accordance with the requirements of § 166.25 of the regulations;

(c) Establish and announce closing date for receipt of applications for consideration for funding during the current fiscal year;

(d) Provide forms to be used in submitting applications for special projects and teacher training programs under section 309 of the Act;

(e) All proposals submitted to the State educational agencies for approval and funding should contain at least the signature of the chief executive officer of the organization submitting the proposal.

(20 U.S.C. 1208; 45 CFR 166.24)

Sec. 5.9 *Application review panel.* The State educational agency may wish to establish one or more panels to review and evaluate applications submitted under section 309 of the Act. In the establishment of any such review panel, it is suggested that the State educational agency take into consideration the following factors:

(a) The establishment of criteria for the selection of panel members;

## RULES AND REGULATIONS

(b) The establishment of procedures to assure that each application is reviewed by at least three panel members; and

(c) The identification of subject-matter areas to be represented by panelists to assure that the qualifications of the panelists are relevant to program priorities. It is recommended that panel membership include at least one representative of each of the following: the State agency, the State advisory council on adult education (if such council exists); agencies representing institutionalized persons and persons of limited-English speaking ability, and agencies representing community school programs. Such panel membership should also include women, minority and ethnic groups which reflect the general population of the State.

(20 U.S.C. 1208; 45 CFR 166.24)

**SEC. 5.10 Selection of participants for teacher training projects.**

(a) The State educational agency should establish criteria to be used to select participants of teacher training programs. Such criteria should consider the objectives of the national priorities (which are published periodically in the FEDERAL REGISTER and appear as Appendix B to the regulations (45 CFR Part 166)), and on the priorities and objectives set forth in the annual program plan for the State adult education program. Such criteria should be designed to assure that, among other things, participants are engaged, or are preparing to engage, as personnel in adult education programs designed to carry out the purposes of the Act. The criteria to be used in the final selection of participants from among the applicants should be clearly stated in the application materials.

(b) In the development of selection criteria, consideration should be given to the fact that no person should be declared ineligible to participate in the program solely for the reason that he or she does not possess an academic degree. Such persons should include those who are engaged, or preparing to engage as teachers, guidance counselors, administrators, or other support personnel in adult education programs designed to carry out the purposes of the Act.

(20 U.S.C. 1208; 45 CFR 166.24)

**SEC. 5.11 Disposition of applications.**

(a) It is recommended that the State educational agency establish and describe in the annual program plan the procedures to be used for the disposition of project applications.

(b) Each applicant who submits an application should be advised in writing within a reasonable period of time as to whether or not the project will be funded.

(1) Each awardee should receive a properly executed award document which contains appropriate financial and administrative information as well as any general and special terms and conditions which pertain to the project.

(11) Each unsuccessful applicant should be notified of the reasons why the application was not selected for funding.

(20 U.S.C. 1208; 45 CFR 166.24)

**SEC. 5.12 Hearings.**

The State educational agency should establish an Appeal Board and set forth in the annual program plan the procedures by which any applicant or recipient aggrieved by the final action of the State educational agency may request a hearing under the provisions of section 425 of GEPA.

(20 U.S.C. 1208; 45 CFR 166.24)

**SEC. 5.13 Program evaluation procedures.**

(a) Each program or project application should include an evaluation plan for the purpose of determining the effectiveness of the program or project.

(20 U.S.C. 1208; 45 CFR 166.12(b)(4))

**SEC. 5.14 Reports.**

(a) It is recommended that the annual program plan set forth the policies and procedures to be used by the State educational agency for obtaining reports from recipients of Federal funds to conduct special projects and training under the authority of section 309 of the Act. Such project reports should provide all information that is needed by the State educational agency to comply with the requirements of § 166.52 of the regulations, Subparts P and Q of 45 CFR 100b, and section 424 of the General Education Provisions Act.

(b) *Requested reports.* It is recommended that the State educational agency obtain at least the following reports from each recipient of section 309 funds.

(1) *Final report.* This report should be submitted to the State educational agency 30 days after the expiration or termination of the project and should contain: (i) A financial status report, in accordance with Subpart P of 45 CFR Part 100b, (ii) a report of any products developed by the project, and (iii) a performance report acceptable to the State educational agency. The performance report should include: (1) A summary

of the accomplishments which relate to the objectives outlined in the scope of work (as well as a lack of accomplishments in the case of grants, and the reasons therefor); (2) a statement of the findings, recommendations, and conclusions; and (3) a brief abstract which describes the methodology and operation of the program.

(2) *Special reports.* (i) The grantee should submit project reports to the State agency in accordance with the terms and conditions of the award document and upon request from the State educational agency.

(ii) For teacher training projects, it should be the responsibility of the project director to develop brochures which describe the project activity, as well as appropriate application forms in order to provide potential participants with sufficient information to submit applications for participation in the project.

(3) *Independent evaluation.* The State educational agency should develop policies and procedures for obtaining copies of any independent evaluation of the project (including its operational objectives and conclusions). A copy of such evaluations should be forwarded to the Clearinghouse on Adult Education.

(c) It is recommended that the State educational agency indicate how the results of the project will strengthen the State grant program. This critique should be submitted along with the final report of the project to the U.S. Commissioner of Education, as required by § 166.52(d)(1) of the regulations.

(d) It is recommended that final reports of projects funded under the Act be made available to the general public through the facilities of the Education Resources Information Center (ERIC).

(20 U.S.C. 1208; 45 CFR 166.52)

**SEC. 5.15 Dissemination of materials produced by projects.**

The State educational agency should develop policies and procedures for obtaining copies of all materials that are produced by projects which are funded from its Federal allotment under the authority of section 309 of the Act. It is recommended that the State educational agency include in each award document issued under section 309 of the Act the requirements of the grantee regarding the dissemination of any products produced by the project (e.g., surveys, films, publications, and other materials).

(20 U.S.C. 1208; 45 CFR 166.30)

## RULES AND REGULATIONS

Title 14—Aeronautics and Space  
CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

[Reg. Docket No. 14006, Amdt. 95-259]

PART 95—IFR ALTITUDES

Miscellaneous Changes

The purpose of this amendment to Part 95 of the Federal Aviation Regula-

tions is to make changes in the IFR altitudes at which all aircraft shall be flown over a specified route or portion thereof. These altitudes, when used in conjunction with the current changeover points for the routes or portions thereof, also assure navigational coverage that is adequate and free of frequency interference for that route or portion thereof.

As a situation exists which demands immediate action in the interest of safety, I find that compliance with the

notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for making this amendment effective within less than 30 days from publication.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (24 FR 5662), Part 95 of The Federal Aviation Regulations is amended, effective June 19, 1975, as follows:

1. By amending Subpart C as follows:

§95.1001 DIRECT ROUTES—U.S.

### List of Public Laws

This is a listing of public bills enacted by Congress and approved by the President, together with the law number, the date of approval, and the U.S. Statute citation. The list is kept current in each issue of the Federal Register and copies of the laws may be obtained from the U.S. Government Printing Office.  
S. 172 ..... Pub. L. 94-22  
Travel Expense Amendments Act of 1975.  
(May 19, 1975; 89 Stat. 84)

**ATTENTION:** Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202-523-5266. For information on obtaining extra copies, please call 202-523-5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202-523-5022.

**federal register**

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **FEDERAL REGISTER** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The **FEDERAL REGISTER** will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **FEDERAL REGISTER**.

FEDERAL REGISTER, VOL. 40, NO. 100—THURSDAY, MAY 22, 1975

# rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

## Title 14—Aeronautics and Space CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 74-SW-47;  
Amdt. 39-2203]

### PART 39—AIRWORTHINESS DIRECTIVES

#### Cessna Model 305A Airplanes

Amendment 39-2067 (40 FR 5347), AD 75-04-04, requires replacement of aluminum oil line fittings on Cessna Model 305A airplanes modified in accordance with Supplemental Type Certificate SA568SW or SA504SW. After issuing Amendment 39-2067, the agency determined that an alternate steel fitting is available in addition to the brass fitting noted in AD 75-04-04. Therefore, the AD is being amended to provide for the use of an alternate fitting.

Since this amendment provides an alternative means of compliance, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

#### § 39.13 [Amended]

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), section 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-2067 (40 FR 5347), AD 75-04-04, is amended by changing the third paragraph to read:

"To prevent failure of the aluminum elbow fitting, P/N X34352, remove the fitting from the oil cooler and replace with a fitting of the same part number fabricated from brass, or Weatherhead P/N C5405X10X6, or an equivalent part approved by the Chief, Engineering and Manufacturing Branch, Flight Standards Division, Southwest Region, Federal Aviation Administration, Fort Worth, Texas."

This amendment becomes effective upon May 22, 1975.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).)

Issued in Fort Worth, Texas, on May 6, 1975.

HENRY L. NEWMAN,  
Director, Southwest Region.

[FR Doc. 75-13401 Filed 5-21-75; 8:45 am]

[Docket No. 75-NE-21; Amdt. 39-2212]

### PART 39—AIRWORTHINESS DIRECTIVES Sikorsky S-58 Helicopters Certificated in All Categories

Amendment 191 (25 FR 8026), AD 60-17-3 as amended by Amendment 495

(27 FR 10117), Amendment 747 (29 FR 7668), Amendment 199 (31 FR 3064), and Amendment 39-1552 (37 FR 23711) removed some S-58 main rotor blades from service and established inspections for others. It also provided for an extension of service life limits for certain rotor blades which had been inspected at the times and in the manner set forth in Sikorsky Service Bulletin No. 58B15-4G. After Amendment 39-1552 was issued, the manufacturer issued a revised Service Bulletin, No. 58B15-4H which incorporated an extension of the inspection interval of the blade inspection units from 2 to 3 hours.

The Agency has determined that it is permissible to use the extended inspection interval set forth in Sikorsky Service Bulletin No. 58B15-4H. Therefore, the AD is being revised to change the reference from Sikorsky Service Bulletin No. 58B15-4G to Sikorsky Service Bulletin No. 58B15-4H.

Since this amendment extends an inspection interval and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

#### § 39.13 [Amended]

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), section 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 191 (25 FR 8026), AD 60-17-3 as amended by Amendment 495 (27 FR 10117), Amendment 747 (29 FR 7668), Amendment 199 (31 FR 3064), and Amendment 39-1552 (37 FR 23711) is further amended as follows:

In paragraph (e) delete "No. 58B15-4G dated September 12, 1972" and insert in its place: No. 58B15-4H.

This amendment becomes effective June 4, 1975.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Burlington, Massachusetts, on May 12, 1975.

QUENTIN S. TAYLOR,  
Director,  
New England Region.

[FR Doc. 75-12402 Filed 5-21-75; 8:45 am]

[Airspace Docket No. 75-GL-35]

### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

#### Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regula-

tions is to alter the Carbondale, Illinois, control zone.

A review of the controlled airspace at Carbondale, Illinois, indicates the control zone extensions are no longer required to protect any approach procedures.

Since this alteration is minor in nature and is in the interest of safety, compliance with the notice and public procedure provisions of the Administrative Procedures Act is unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective 0901 G.m.t., August 14, 1975, as hereinafter set forth:

#### § 71.171 [Amended]

In § 71.171 (40 FR 354), the following control zone is amended to read:

#### CARBONDALE, ILLINOIS

Within a 5-mile radius of the Southern Illinois Airport (Latitude 37°46'45" N., Longitude 89°15'00" W.). This control zone is effective during specific dates and times established in advance by a Notice to Airmen. The effective dates and times will thereafter be continuously published in the Airman's Information Manual.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Des Plaines, Illinois, on May 7, 1975.

R. O. ZIEGLER,  
Acting Director,  
Great Lakes Region.

[FR Doc. 75-13403 Filed 5-21-75; 8:45 am]

[Airspace Docket No. 75-EA-33]

### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

#### Alteration of Control Zone and Transition Area

The Federal Aviation Administration is amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Allentown, Pa., Control Zone (40 FR 356) and Transition Area (40 FR 444).

A pending change in the Allentown-Bethlehem-Easton Airport localizer Back Course instrument approach procedure to Runway 24 will require a corresponding change in the Allentown, Pa., Control Zone and 700-foot floor Transition Area designations.

Since the amendment is less restrictive in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary.

## RULES AND REGULATIONS

In view of the foregoing, the proposed regulations are hereby adopted, effective 0901 G.m.t., August 14, 1975, as follows:

## § 71.171 [Amended]

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the description of the Allentown, Pennsylvania, Control Zone by deleting, "within 3 miles each side of the Allentown-Bethlehem-Easton Airport localizer northeast course extending from the localizer to 12.5 miles northeast of the localizer";

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the description of the Allentown, Pennsylvania, 700-foot floor Transition Area by deleting, "within 5 miles each side of the Allentown-Bethlehem-Easton Airport localizer northeast course, extending from the localizer to 16 miles northeast of the localizer," and by substituting "," following the phrase "to the Allentown VORTAC 104° radial".

(Sec. 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)]).

Issued in Jamaica, N.Y., on May 7, 1975.

JAMES BISPO,  
Acting Director,  
Eastern Region.

[FR Doc.75-13405 Filed 5-21-75; 8:45 am]

[Airspace Docket No. 75-EA-35]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

## Alteration of Control Zone

The Federal Aviation Administration is amending § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the Wrightstown, N.J., Control Zone (40 FR 439).

The control zone is described, in part, by reference to the McGuire AFB ILS outer marker. The U.S. Air Force plans to decommission the outer marker within the next few months. This will require an editorial change in the description of the control zone by substituting a distance from the localizer in lieu of the reference to the outer marker.

Since the amendment is editorial in nature, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

## § 71.171 [Amended]

In view of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective May 22, 1975, as follows:

1. Amend § 71.171 of Part 71, Federal Aviation Regulations so as to alter the description of the Wrightstown, New Jersey, Control Zone by deleting "to the OM" and by substituting therefor, "to 8 miles southwest of the localizer".

(Sec. 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)]).

Issued in Jamaica, N.Y., on May 7, 1975.

JAMES BISPO,  
Acting Director,  
Eastern Region.

[FR Doc.75-13405 Filed 5-21-75; 8:45 am]

[Airspace Docket No. 75-SW-13]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING ROUTES

## Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Lafayette, La., transition area.

On March 31, 1975, a notice of proposed rule making was published in the FEDERAL REGISTER (40 FR 14334) stating the Federal Aviation Administration proposed to alter the Lafayette, La., transition area.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., August 14, 1975, as hereinafter set forth.

## § 71.181 [Amended]

In § 71.181 (40 FR 441), the Lafayette, La., transition area is amended to read:

LAFAYETTE, LA.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Lafayette Airport (latitude 30°12'00" N., longitude 91°59'40" W.); within 2 miles each side of the Lafayette ILS localizer north course extending from the OM to the 5-mile radius area; within 2 miles each side of the Lafayette ILS localizer south course extending from the 5-mile radius area to the 5-mile radius area of the Abbeville Municipal Airport (latitude 29°58'19" N., longitude 92°05'08" W.); within 2 miles each side of the Lafayette VORTAC 171° radial extending from the 5-mile radius area of the Lafayette Airport to 8 miles south of the VORTAC; within 2 miles each side of the 278° bearing from the Lafayette RBN (latitude 30°11'35" N., longitude 91°52'58" W.) extending from the RBN to the 5-mile radius area; within 2 miles each side of the Lafayette VORTAC 206° radial extending from the VORTAC to the 5-mile radius area of the Abbeville Airport; within a 5-mile radius of Acadiana Regional Airport (latitude 30°02'15" N., longitude 91°53'00" W.); within 2 miles each side of the Lafayette VORTAC 139° radial extending from the 5-mile radius area of Lafayette Airport to the 5-mile radius area of Acadiana Regional Airport; within 3 miles each side of the Lafayette VORTAC 145° radial extending from the 5-mile radius area of Acadiana to 17.5 miles from the Lafayette VORTAC; within 3 miles either side of the 348° and 168° bearings from the Acadiana NDB (latitude 29°57'21" N., longitude 91°51'45" W.) extending from the 5-mile radius area of the

Acadiana Regional Airport to 8 miles south of the Acadiana Regional Airport.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Fort Worth, Tex., on May 12, 1975.

ALBERT H. THURBURN,  
Acting Director,  
Southwest Region.

[FR Doc.75-13404 Filed 5-21-75; 8:45 am]

## Title 21—Food and Drugs

## CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

## SUBCHAPTER B—FOOD AND FOOD PRODUCTS

## PART 19—CHEESES, PROCESSED CHEESES, CHEESE FOODS, CHEESE SPREADS, AND RELATED FOODS

## Label Requirements for Cottage Cheese Products; Confirmation of Effective Date of Order Amending Standards of Identity

The Commissioner of Food and Drugs issued a final order, published in the FEDERAL REGISTER of October 30, 1974 (39 FR 38222), amending the labeling provisions in the standards of identity for cottage cheese and cottage cheese dry curd (21 CFR 19.530, 19.525) by deleting the undesignated paragraphs immediately following §§ 19.530(e) (4) and 19.525(e) (3) for the purpose of removing an inconsistency between these standards and the requirements of § 1.8d Food labeling; information panel (21 CFR 1.8d).

One objection not relevant to the order was filed by a consumer who felt that he might be adversely affected. The objection stated that polysorbate 80 is permitted in cottage cheese and does not have to be declared on the label. This is erroneous. While polysorbate 80 (21 CFR 121.1009(c) (13)) is permitted as an optional ingredient in the creaming mixture for cottage cheese, § 19.530(e) requires that the name of each optional ingredient used in the food be declared on the label as required by the applicable sections of Part 1 of this chapter.

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055-1056, as amended, 70 Stat. 919 and 72 Stat. 948 (21 U.S.C. 341, 371)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), notice is given that no relevant objections were filed to the subject order. Accordingly, the amendment promulgated by that order became effective November 30, 1974.

Dated: May 15, 1975.

SAM D. FINE,  
Associate Commissioner for  
Compliance.

[FR Doc.75-13430 Filed 5-21-75; 8:45 am]

## RULES AND REGULATIONS

22251

PART 121—FOOD ADDITIVES  
Components of Paper and Paperboard in Contact With Aqueous and Fatty Foods

Notice was given by publication in the FEDERAL REGISTER of October 25, 1974 (39 FR 38010) that a petition (FAP 4B3007) had been filed by GAF Corp., 140 West 51st St., New York, N.Y. 10020, proposing that § 121.2526 Components of paper and paperboard in contact with aqueous and fatty foods (21 CFR 121.2526) be amended to provide for the safe use of castor oil, polyoxyethylated (42 moles ethylene oxide) as an emulsifier in the manufacture of paper and paperboard intended to contact food.

## § 121.2526 Components of paper and paperboard in contact with aqueous and fatty foods.

(b) . . .  
(2) . . .

List of substances	Limitations
Castor oil, polyoxyethylated (42 moles ethylene oxide).	For use only as an emulsifier in nitrocellulose coatings for paper and paperboard intended for use in contact with food only of the types identified in paragraph (c) of this section, table 1, under types IV A, V, VII A, VIII, and IX; and limited to use at a level not to exceed 8 percent by weight of the coating solids.

Any person who will be adversely affected by the foregoing order may at any time on or before June 23, 1975 file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective May 22, 1975.

(Sec. 409(c) (1), 72 Stat. 1786; 21 U.S.C. 348 (c) (1).)

Dated: May 15, 1975.

SAM D. FINE,  
Associate Commissioner for  
Compliance.

[FR Doc.75-13431 Filed 5-21-75; 8:45 am]

The Commissioner of Food and Drugs, having evaluated data in the petition and other relevant material, is amending the regulation as set forth below to provide for use of the additive as proposed by the petitioner. This amendment is effective May 22, 1975.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (Sec. 409(c) (1), 72 Stat. 1786; 21 U.S.C. 348(c) (1) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2526(b) (2) is amended by alphabetically inserting in the list of substances a new item, as follows:

## § 121.2526 Components of paper and paperboard in contact with aqueous and fatty foods.

(b) . . .  
(2) . . .

SUBCHAPTER D—DRUGS FOR HUMAN USE  
PART 436—TESTS AND METHODS OF ASSAY OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS  
Nonaqueous Titrations Test and Anhydrotetracyclines and 4-Epi-anhydrotetracyclines Test.

The Commissioner of Food and Drugs is amending the antibiotic drug regulations to correct errors which appear in two sections of Part 436—Tests and Methods of Assay of Antibiotic and Antibiotic-containing Drugs, effective May 22, 1975.

An order was published in the FEDERAL REGISTER of September 23, 1974 (39 FR 34031), which provided for the certification of amoxicillin trihydrate by amending Part 436, among others. Two items were inserted into the table in § 436.213(c). Under the column headed "Weight in milligrams of sample", the figure "500" appears twice. This figure is incorrect. It should read "100" in both instances.

An order promulgating § 141.580 (now § 436.309 (21 CFR 436.309) pursuant to recodification published in the FEDERAL REGISTER of May 30, 1974 (39 FR 18922)) was published in the FEDERAL REGISTER of January 31, 1974 (39 FR 3935) which established a maximum limit for 4-eplanhydrotetracycline in certain tetracycline products. It also included a

screening procedure for total anhydrotetracyclines content and a determination of anhydrotetracyclines and 4-eplanhydrotetracycline content. In § 436.309(b) (6) (i) and (ii), the portion of the test method which provides for calculating percent anhydrotetracyclines and 4-eplanhydrotetracycline in dosage forms contains an error; the word "Labeled" should be deleted from the denominators of the calculations.

The Commissioner recognizes that the correct information is well known to persons conducting these tests, and publication of these changes merely clarifies the existing procedures.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commissioner (21 CFR 2.120), Chapter I of Title 21 of the Code of Federal Regulations is amended in Part 436 as follows:

1. In § 436.213(c), change the figure "500" to read "100" in the table under the heading "Weight in milligrams of sample". As revised, the table reads as follows:

## § 436.213 Nonaqueous titrations.

(c) . . .

Antibiotic	Weight in milligrams of sample	Solvent
Amoxicillin-acid titration.	100	20 milliliters dimethylsulfoxide and 30 milliliters methyl alcohol.*
Amoxicillin-base titration.	100	50 milliliters glacial acetic acid.
Ampicillin-acid titration.	100	20 milliliters dimethylsulfoxide and 30 milliliters methyl alcohol.*
Ampicillin-base titration.	100	50 milliliters glacial acetic acid.
Ampicillin sodium-base titration.	50	Do.
Cephalexin-base titration.	50	Do.

\*The methyl alcohol is added after the sample has dissolved in dimethylsulfoxide.

## § 436.309 [Amended]

2. In § 436.309(b) (6) (i) and (ii) delete the word "Labeled" from the denominator of the calculations for determining "Percent anhydrotetracyclines in dosage forms" and "Percent 4-eplanhydrotetracycline in dosage forms."

Effective date. This order shall be effective May 22, 1975.

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357.)

Dated: May 15, 1975.

SAM D. FINE,  
Associate Commissioner for  
Compliance.

[FR Doc.75-13432 Filed 5-21-75; 8:45 am]

PART 444—OLIGOSACCHARIDE ANTIBIOTIC DRUGS

PART 448—PEPTIDE ANTIBIOTIC DRUGS  
Neomycin Sulfate and Polymyxin B Sulfate

The Commissioner of Food and Drugs is amending the antibiotic drug regulations to provide for certification of neomycin sulfate-polymyxin B sulfate-hydrocortisone otic suspension, effective immediately. The Commissioner, in a notice published in the *Federal Register* of June 29, 1972 (37 FR 12855), announced his conclusion regarding Cortisporin Otic Drops containing polymyxin B sulfate, neomycin sulfate, and hydrocortisone, marketed by Burroughs-Wellcome and Co., Inc., 3030 Cornwallis Rd., Research Triangle Park, NC 27709 (NDA 60-613).

The notice stated that the drug product was regarded as lacking substantial evidence of effectiveness for one indication and possibly effective for all other other labeled indications.

Based on a reevaluation of the drug product, the Commissioner issued a second notice, which appeared in the *Federal Register* of August 9, 1973 (38 FR 21513), setting forth the indications for which it is regarded as effective.

Since revised labeling information has been provided by the manufacturer in accord with the August 9, 1973 announcement, the Commissioner concludes that the antibiotic regulations should be amended, as set forth below, to provide for the certification of this drug product.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commissioner (21 CFR 2.120), Subchapter D of Chapter I of Title 21 of the Code of Federal Regulations is amended as follows:

In Part 444:

1. A new § 444.42 is added to Subpart A—"Bulk Drugs" to read as follows:

§ 444.42 Neomycin sulfate.

(a) *Requirements for certification—(1) Standards of identity, strength, quality, and purity.* Neomycin sulfate is the sulfate salt of a kind of neomycin or a mixture of two or more such salts. It is so purified and dried that:

(i) Its potency is not less than 600 micrograms of neomycin per milligram, calculated on an anhydrous basis.

(ii) It passes the safety test.

(iii) Its loss on drying is not more than 8.0 percent.

(iv) Its pH in an aqueous solution containing 33 milligrams per milliliter is not less than 5.0 and not more than 7.5.

(v) It gives a positive identity test for neomycin.

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 432.5 of this chapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 431.1 of this chapter, each such request shall contain:

(i) Results of tests and assays on the batch for potency, safety, loss on drying, pH, and identity.

(ii) Samples required: 10 packages, each containing approximately 300 milligrams.

(b) *Tests and methods of assay—(1) Potency.* Proceed as directed in § 436.105 of this chapter, preparing the sample for assay as follows: Dissolve an accurately weighed sample in sufficient 0.1M potassium phosphate buffer, pH 8.0 (solution 3), to give a stock solution of convenient concentration. Further dilute an aliquot of the stock solution with solution 3 to the reference concentration of 1.0 microgram of neomycin per milliliter (estimated).

(2) *Safety.* Proceed as directed in § 436.33 of this chapter.

(3) *Loss on drying.* Proceed as directed in § 436.200(a) of this chapter.

(4) *pH.* Proceed as directed in § 436.202 of this chapter, using a solution containing 33 milligrams of neomycin per milliliter.

(5) *Identity—(i) Reagents.* (a) Sulfuric acid solution: Mix concentrated sulfuric acid and distilled water in volumetric proportions of 40:60.

(b) Xylene.

(c) *p-Bromoaniline:* (Prepare and store this reagent in brown, nonactinic glassware.) Place 380 milliliters of thiourea-saturated glacial acetic acid solution in the bottle, add 10 milliliters of 20 percent sodium chloride solution, 5 milliliters of 5 percent oxalic acid solution, and 5 milliliters of 10 percent disodium phosphate solution, and mix well. Add 8 grams of *p*-bromoaniline and mix well. Let this reagent stand overnight before use. Prepare the reagent once weekly.

(ii) *Procedure.* Place about 10 milligrams of the sample into a test tube (19 millimeters × 150 millimeters), dissolve with 1 milliliter of water, and then carefully add 5 milliliters of the sulfuric acid solution. Heat in a boiling water bath for 100 minutes. Cool to room temperature. Add 10 milliliters of xylene to the test tube. Stopper the tube and shake vigorously for about 1 minute. Let the two layers separate and then decant the xylene layer into a second test tube. Add 10 milliliters of the *p*-bromoaniline reagent to the xylene solution, shake, and let stand. The development of a vivid pink-red color is a positive identity test for neomycin.

2. A new § 444.442g is added to Subpart E—"Otic Dosage Forms," to read as follows:

§ 444.442g Neomycin sulfate-polymyxin B sulfate-hydrocortisone otic suspension.

(a) *Requirements for certification—(1) Standards of identity, strength, quality, and purity.* Neomycin sulfate-polymyxin B sulfate-hydrocortisone otic suspension contains in each milliliter 3.5 milligrams neomycin, 10,000 units polymyxin B, and 10 milligrams hydrocortisone in a suitable and harmless vehicle. It may also contain one or more suitable and harmless buffers, dispersants, and preservatives. Its neomycin sulfate content is satisfactory if it is not less than

90 percent and not more than 130 percent of the number of milligrams of neomycin that it is represented to contain. Its polymyxin B sulfate content is satisfactory if it is not less than 90 percent and not more than 130 percent of the number of units of polymyxin B that it is represented to contain. It is sterile. Its pH is not less than 3.0 and not more than 5.5. The neomycin sulfate used conforms to the standards prescribed by § 444.42(a) (1), except safety. The polymyxin B sulfate used conforms to the standards prescribed by § 448.30(a) (1) of this chapter, except safety.

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 432.5 of this chapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 431.1 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(a) The neomycin sulfate used in making the batch for potency, loss on drying, pH, and identity.

(b) The polymyxin B sulfate used in making the batch for potency, loss on drying, pH, and identity.

(c) The batch for potency, sterility, and pH.

(ii) Samples required:

(a) The neomycin sulfate used in making the batch: 10 packages, each containing approximately 300 milligrams.

(b) The polymyxin B sulfate used in making the batch: 10 packages, each containing approximately 300 milligrams.

(c) The batch:

(i) For all tests except sterility: A minimum of six immediate containers.

(2) For sterility testing: 20 immediate containers, collected at regular intervals throughout each filling operation.

(b) *Tests and methods of assay—(1) Potency—(i) Neomycin content.* Proceed as directed in § 436.105 of this chapter, preparing the sample for assay as follows: Dilute an accurately measured representative portion with sufficient 0.1M potassium phosphate buffer, pH 8.0 (solution 3), to the reference concentration of 1.0 microgram of neomycin per milliliter (estimated).

(ii) *Polymyxin B content.* Proceed as directed in § 436.105 of this chapter, except add to each concentration of the polymyxin B standard response line a quantity of neomycin to yield the same concentration of neomycin as that present when the sample is diluted to contain 10 units of polymyxin B per milliliter. Prepare the sample for assay as follows: Dilute an accurately measured representative portion with sufficient 10 percent potassium phosphate buffer, pH 6.0 (solution 6), to the reference concentration of 10 units of polymyxin B per milliliter (estimated).

(2) *Sterility.* Proceed as directed in § 436.20 of this chapter, using the method described in paragraph (e) (1) of that section, except if the steroid prevents solubilization, use 0.25 milliliter of sample in lieu of 1 milliliter and proceed as directed in paragraph (e) (2) of that section.

(3) *pH.* Proceed as directed in § 436.202 of this chapter, using the undiluted sample.

3. In Part 448 a new § 448.30 is added to Subpart A—"Bulk Drugs", to read as follows:

§ 448.30 Polymyxin B sulfate.

(a) *Requirements for certification—(1) Standards of identity, strength, quality, and purity.* Polymyxin B sulfate is the sulfate salt of a kind of polymyxin or a mixture of two or more such salts. It is a white to buff-colored powder. It is so purified and dried that:

(i) Its potency is not less than 6,000 units of polymyxin B per milligram on an anhydrous basis.

(ii) It passes the safety test.

(iii) Its loss on drying is not more than 7.0 percent.

(iv) Its pH in an aqueous solution containing 5 milligrams per milliliter is not less than 5.0 and not more than 7.5.

(v) It gives positive color identity tests for polymyxin.

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 432.5 of this chapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 431.1 of this chapter, each such request shall contain:

(i) Results of tests and assays on the batch for potency, safety, loss on drying, pH, and identity.

(ii) Samples required: 10 packages, each containing approximately 300 milligrams.

(b) *Tests and methods of assay—(1) Potency.* Proceed as directed in § 436.105 of this chapter, preparing the sample for assay as follows: Add 2.0 milliliters of sterile distilled water to each 5 milligrams of an accurately weighed portion of the sample. Dilute with sufficient 10 percent potassium phosphate buffer, pH 6.0 (solution 6), to give a stock solution containing 10,000 units of polymyxin B per milliliter (estimated). Further dilute an aliquot of the stock solution with solution 6 to the reference concentration of 10 units of polymyxin B per milliliter (estimated).

(2) *Safety.* Proceed as directed in § 436.33 of this chapter.

(3) *Loss on drying.* Proceed as directed in § 436.200(b) of this chapter.

(4) *pH.* Proceed as directed in § 436.202 of this chapter, using a solution containing 5 milligrams per milliliter.

(5) *Identity.* (i) To a solution of 2 milligrams of the sample in 5.0 milliliters of water, add 0.5 milliliter of triketohydrindene solution (1:1,000) and 2 drops of pyridine. Boil for 1 minute and cool. A blue color is a positive test.

(ii) To a solution of 2 milligrams of the sample in 5 milliliters of water, add 5 milliliters of sodium hydroxide solution (1:10) and mix well. Add, dropwise, 5 drops of a cupric sulfate solution (1:100), mixing after the addition of each drop. A reddish-violet color is a positive test.

Since the conditions prerequisite to providing for certification of subject antibiotic drug have been complied with

and since the matter is noncontroversial in nature, notice and public procedures are not prerequisites to this promulgation.

*Effective date.* This order becomes effective May 22, 1975.

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357)

Dated: May 15, 1975.

MARY A. MCENIRY,  
Assistant to the Director for  
Regulatory Affairs, Bureau of  
Drugs.

Title 24—Housing and Urban Development  
SUBTITLE A—OFFICE OF THE SECRETARY

[Docket No. R-75-297]

PART 58—ENVIRONMENTAL REVIEW  
PROCEDURES FOR THE COMMUNITY  
DEVELOPMENT BLOCK GRANT PROGRAM

Miscellaneous Amendments

On January 7, 1975, these procedures were published for effect in the *Federal Register* (40 FR 1392-99). In part, the published procedures implement a provision of section 104(h) (3) of the Housing and Community Development Act of 1974, Pub. L. 93-383, 88 Stat. 639, which permits certain certifications to be made and certain responsibilities to be assumed " . . . by the chief executive officer or other officer of the applicant qualified under regulations of the Secretary . . . . " However, the published procedures permit such certifications to be made and such responsibilities to be assumed only by the applicant's chief executive officer. Experience with the procedures as published has indicated a need to modify those procedures in order to fully implement the statutory authorization to permit certifications and assumptions of responsibility to be made by a duly qualified officer of the applicant other than the chief executive officer.

In accordance with 24 CFR 10.5 (36 FR 24423, December 22, 1971), the Secretary of Housing and Urban Development has determined that advance publication of this modification of the subject procedures is impracticable, unnecessary and contrary to the public interest because the modification (1) is required to facilitate the filing by April 15, or such later date as may be specifically approved by HUD, of applications under the Community Development Block Grant Program, and (2) relaxes an existing requirement for the benefit of the only affected interest group.

A finding of inapplicability has been prepared on this modification in accordance with HUD Circular 1390.1, which was published October 20, 1972 at 37 FR 22673.

§§ 58.5, 58.30, 58.31 [Amended]

Accordingly, Part 58 is amended by changing (1) in § 58.5(a) the reference to the "chief executive officer" in lines 10, 23-24 and 25-26 to read "chief executive

officer or other officer of the applicant approved by HUD", (2) in § 58.30(a) (6) the reference to "chief executive officer" in line 10 to read "chief executive officer or other officer of the applicant approved by HUD" and the reference to "chief executive officer of the applicant" in lines 26-27 to read "chief executive officer or other officer of the applicant approved by HUD", (3) in § 58.30(b) the reference to "chief executive officer" in lines 6, 27-8, 48-9, 56-7, 58, 69-70, 75, 81, 84-5, 89, and 102-3 to read "chief executive officer or other officer of the applicant approved by HUD", and (4) in § 58.31(b) (1) the reference to "chief executive officer of the applicant" in lines 3-4 to read "chief executive officer or other officer of the applicant approved by HUD".

(Sec. 7(d) of the Department of HUD Act, (42 U.S.C. 3535(d))).

*Effective date:* This amendment is effective on May 22, 1975.

CARLA A. HILLS,  
Secretary of Housing  
and Urban Development.

[FR Doc.75-13429 Filed 5-21-75; 8:45 am]

Title 38—Pensions, Bonuses, and  
Veterans' Relief

CHAPTER I—VETERANS  
ADMINISTRATION

PART 3—ADJUDICATION

Subpart A—Pension, Compensation and  
Dependency and Indemnity Compensation

EFFECTIVE DATES OF AWARDS

On page 16092 of the *Federal Register* of April 9, 1975, there was published a notice of proposed regulatory development to amend § 3.667 to provide that dependency and indemnity compensation will be payable from the first day of the month in which the child attains age 18 or commences a course of instruction, whichever is applicable. In addition, instructions as to actions to be taken when notice of school attendance is not timely received have been deleted. Editorial changes have been made in § 3.666 designed to reflect agency policy to avoid any appearance of seeming to preclude benefits for female veterans. Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulations.

No written comments have been received and the proposed regulations are hereby adopted without change and are set forth below.

*Effective date.* Section 3.667 is effective May 16, 1975.

Approved: May 16, 1975.

By direction of the Administrator.

[SEAL] ODELL W. VAUGHN,  
Deputy Administrator.

1. In § 3.666, paragraphs (a) (2), (b) (1) and (2), (c) and (d) are revised to read as follows:

**§ 3.666 Penal institutions.**

(a) **Disability pension.** Payment may be made to the wife, husband, child or children of a veteran disqualified under this section:

(2) If the annual income of the wife (husband) or child is within the statutory limitations which would be applicable to the payment of death pension.

(b) **Death pension.** Payment may be made to a child or children where a widow (widower) or child is disqualified under this section:

(1) If widow (widower) is disqualified, to child or children at the rate of death pension payable if there were no such widow or widower; or

(2) If a child is disqualified, to a widow (widower) or other child or children at the rate of death pension payable if there were no such child, and

(c) **Resumption of pension upon release from incarceration.** Pension will be resumed as of the day of release if notice (which constitutes an informal claim) is received within 1 year following release; otherwise resumption will be effective the date of receipt of such notice. Where an award or increased award was made to any other payee based upon the disqualification of the veteran, widow (widower), or child while in prison, such award will be reduced or discontinued as of date of last payment and pension will be resumed to the released prisoner at a rate which will be the difference, if any, between the total pension payable and the amount which was paid to the other person or persons through the date of last payment and thereafter the full rate.

(d) **Veteran entitled to compensation.** If an imprisoned veteran is entitled to a lesser rate of disability compensation such compensation will be awarded as of the 61st day of imprisonment in lieu of the pension he (she) was receiving provided:

(1) He (she) is single, or  
(2) He (she) is married, from the date the veteran requests that the Veterans Administration take such action.

2. In § 3.667, paragraphs (a) and (b) are revised to read as follows:

**§ 3.667 School attendance.**

(a) **General.** (1) Pension or compensation may be paid from a child's 18th birthday based upon school attendance if the child was at that time pursuing a course of instruction at an approved school and a claim for such benefits is filed within 1 year from the child's 18th birthday.

(2) Pension or compensation based upon a course which was begun after a child's 18th birthday may be paid from the commencement of the course if a claim is filed within 1 year from that date.

(3) **An initial award of dependency and indemnity compensation to a child**

in its own right may be paid from the first day of the month in which the child attains age 18 if the child was pursuing a course of instruction at an approved school on the 18th birthday and a claim for such benefits is filed within 1 year from the child's 18th birthday.

(38 U.S.C. 3010(e))

(4) An initial award of dependency and indemnity compensation to a child in its own right based upon a course which was begun after the child's 18th birthday may be paid from the first day of the month in which the course commenced if a claim is filed within 1 year from that date.

(38 U.S.C. 3010(e))

(5) Where a child was receiving dependency and indemnity compensation in its own right prior to age 18, payments may be continued from the 18th birthday if the child was then attending an approved course of instruction and evidence of such school attendance is received within 1 year from the 18th birthday. Where the child was receiving dependency and indemnity compensation in its own right prior to age 18 and was not attending school on the 18th birthday but commences an approved course of instruction after the 18th birthday, payments may be resumed from the commencing date of the course if evidence of such school attendance is filed within 1 year from that date.

(b) **Vacation periods.** A child is considered to be in school during a vacation or other holiday period if he or she was attending school at the end of the preceding school term and resumes attendance, either in the same or a different approved school, at the beginning of the next term. If an award has been made covering a vacation period, and the child fails to commence or resume school attendance, benefits will be terminated the date of last payment or the last day of the month preceding the date of failure to pursue the course, whichever is the earlier.

[FR Doc. 75-13510 Filed 5-21-75; 8:45 am]

**Title 40—Protection of Environment**

[FRL 365-3]

**CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY****SUBCHAPTER C—AIR PROGRAMS****PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS****Approval of Revisions to Washington Implementation Plan**

Section 110 of the Clean Air Act, as amended, and the implementing regulations of 40 CFR Part 51, require each State to submit a plan which provides for the implementation, maintenance and enforcement of national ambient air quality standards throughout the State. On May 31, 1972 (37 FR 10842), the Administrator of the Environmental Protection Agency (EPA) approved, with certain exceptions, the State of Wash-

ington Air Quality Implementation Plan. Contained in that plan are selected chapters of the Washington Administrative Code (WAC) dealing with the control of air pollution in the State by the Department of Ecology.

On February 15, 1973, the Governor of the State of Washington submitted for the Administrator's approval amendments to WAC chapters 18-04 (General Regulation for Air Pollution Sources), 18-40 (Suspended Particulate Standards) and 18-12 (Open Burning), and a new chapter 18-06 (Sensitive Areas). These revisions to the Implementation Plan were submitted after proper notice and public hearing, in accordance with 40 CFR 51.4 and 51.6.

On February 26, 1974, (39 FR 7433), the Administrator proposed for approval and invited public comment on WAC chapters 18-04, 18-40 and 18-06, as submitted on February 15, 1973. No comments were received during the 30-day public comment period.

WAC 18-12, as submitted on February 15, 1973, has been superseded by supplemental amendments to WAC 18-12, submitted to EPA on September 10, 1973. On November 5, 1974 (39 FR 39048), EPA published a notice in the *Federal Register* informing the public that EPA has requested additional information from the State of Washington to be used in making a final decision to approve or disapprove WAC 18-12 and other proposed State Implementation Plan revisions submitted on September 10, 1973, relating to open burning. The final decision on the State's open burning regulations will appear in a separate *Federal Register* Notice of Final Rulemaking.

The amended chapter 18-04 (General Regulation for Air Pollution Sources) contains a generalized compliance schedule for all sources subject to a future effective regulation. The amended chapter also imposes additional emission limitations on asphalt batch plants and requires control of fugitive dust and all wood waste burners.

The amendments to WAC 18-40 (Suspended Particulate Standards) are minor "housekeeping" changes designed to clarify various portions of the regulation. The Administrator has determined that the changes to the regulation are for purposes of clarification and will not interfere with the attainment of the national ambient air quality standards.

The new chapter WAC 18-06 (Sensitive Areas) designates sensitive areas in the State and sets more stringent requirements for wigwam burners in designated sensitive areas than apply otherwise under WAC 18-04 (General Regulation).

The revisions have been reviewed by the Administrator and found to be consistent with the Federal Clean Air Act, as amended, the implementing regulations of 40 CFR Part 51, and the approved State Implementation Plan. The Administrator hereby approves the amendments to WAC chapters 18-04 and

18-40 and the new chapter WAC 18-06, as submitted on February 15, 1973.

The Administrator finds good cause for making this rulemaking effective immediately as the regulations are already in effect under State law and EPA approval will impose no additional burden on the State.

(Sec. 110(a) of the Clean Air Act, as amended. (42 U.S.C. 1857c-5(a)).)

Dated: May 16, 1975.

RUSSELL E. TRAIN,  
Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

**Subpart WW—Washington**

1. In § 52.2470, paragraph (c) (1) is revised to read as follows:

§ 52.2470 Identification of plan.

(c) Supplemental information was submitted on:

(1) January 28, May 5, July 19, and September 11, 1972; February 15 (compliance schedules and WAC 18-04, 18-06 and 18-40), April 13, and October 11, 1973; and June 14, 1974 (Washington Complex Source Regulation (WAC 18-24)), and

[FR Doc. 75-13481 Filed 5-21-75; 8:45 am]

**Title 41—Public Contracts and Property Management****CHAPTER 5A—FEDERAL SUPPLY SERVICE, GENERAL SERVICES ADMINISTRATION****PART 5A-11—FEDEKAL, STATE, AND LOCAL TAXES****Policies and Procedures**

This change to the General Services Administration Procurement Regulations (GSPR) updates the policies and procedures concerning Federal, State, and local taxes.

The table of contents for Part 5A-11 is amended as follows:

5A-11.401-71 [Reserved]

**Subpart 5A-11.2—Exemptions From Federal Excise Taxes**

Section 5A-11.270 is revised as follows:

**§ 5A-11.270 Federal excise taxes.**

(a) Federal excise taxes are not imposed on purchases by the Government (see § 1-11.201(b) and 1-11.202(b)) of supplies for export, or for shipment to a possession of the United States, including Puerto Rico, where:

(1) The purchase is substantial;  
(2) Exportation or shipment to a possession is intended to follow not more than 6 months after the title to the supplies passes to the United States; and  
(3) The supplies are in fact exported or shipped to a possession in due course.

(b) The term "substantial" in (a) (1) above, is defined as any transaction where the estimated Federal excise tax exceeds \$200.

(1) **Definite quantity contracts for nonstock items.** When the estimated Federal excise tax exceeds \$200, the clause set forth in § 1-11.401-3(b) shall be included in the solicitation, appropriately amended, as prescribed in the referenced Federal Procurement Regulations section.

(2) **Requirements contracts.** (i) When the requirements contract expressly sets forth the Federal excise taxes; e.g., in contracts for tires and tubes, the export delivery orders issued under these contracts shall exclude the excise tax and the following statement shall be clearly set forth on the order: FOR EXPORT OR SHIPMENT TO A POSSESSION.

(ii) When the requirements contract does not expressly set forth the Federal excise tax, the delivery orders issued under these contracts may include the Federal excise taxes, except when it is known or estimated that the Federal excise tax will exceed \$200. In the latter instance, the contracting officer or ordering office, as appropriate, shall determine the amount of the tax. The order shall exclude this tax, and be marked for EXPORT OR SHIPMENT TO A POSSESSION.

(iii) In compliance with (a) (2) above, delivery orders for shipment to a geographical location within the United States for export or reshipment to a United States possession (including Puerto Rico) within 6 months from the date the title to supplies passes to the United States Government, shall be processed in the same manner as set forth in (b) (2) (i) or (ii) above. The requisitioning documents on which the procurement action is based, will bear an appropriate statement that the items are destined for export or shipment to a United States possession (including Puerto Rico) within 6 months from the date the title to the supplies to be ordered passes to the Government.

(c) The above provisions do not apply to contracts made on behalf of the Agency for International Developmental (AID). GSA Form 1248, GSA Supplemental Provisions (AID Procurement), is a part of these contracts. (See § 5A-2.201-70(f)).

**Subpart 5A-11.4—Contract Clauses**

Section 5A-11.401-71 is deleted and reserved.

§ 5A-11.401-71 [Reserved]

**Subpart 5A-11.5—Tax Exemption Forms**

Section 5A-11.501-1 is revised as follows:

§ 5A-11.501-1 Certificate of export to a possession or to Puerto Rico.

Purchase orders for export or shipment to a possession or Puerto Rico are not subject to manufacturers excise taxes (see § 1-11.202) and, in certain cases, retailers excise taxes. (See § 1-11.201.) When requested by the contractor, proof of export or shipment to a possession or Puerto Rico shall be furnished in the form of a certificate similar to that in § 1-11.501-1. Certificates shall be signed by officials designated in the Delegations of Authority Manual, ADM P 5450.39A.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))  
*Effective date.* These regulations are effective on the date shown below.

Dated: May 7, 1975.

M. J. TIMBERS,  
Commissioner, ESS.

[FR Doc. 75-13379 Filed 5-21-75; 8:45 am]

**CHAPTER 9—ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION****PART 9-7—CONTRACT CLAUSES****Subpart 9-7.50—Use of Standard Clauses****MISCELLANEOUS AMENDMENT**

This revision to the ERDA-PR is being made to recognize the need to shorten the period between reimbursement of accrued pension costs by ERDA and the payment to the pension fund by the contractor.

In Subpart 9-7.50, Use of Standard Clauses, § 9-7.5006-25(a) is revised as follows:

§ 9-7.5006-25 Payments (cost-type contracts where funds are not advanced).

(a) **Payments on account of allowable costs.** Once each month (or at more frequent intervals, if approved by the Contracting Officer) the contractor may submit to the Contracting Officer, in such form and reasonable detail as he may require, an invoice or voucher supported by a statement of cost incurred by the contractor in the performance of this contract and claimed to constitute allowable costs. When pension contributions are paid by the Contractor to the retirement fund less frequently than quarterly, accrued costs therefor shall be excluded from indirect costs for payment purposes until such costs are paid. If pension contributions are paid on a quarterly or more frequent basis, accruals therefor may be included in indirect costs for payment purposes provided that they are paid to the fund within 30 days after the close of the period covered. If payments are not made to the fund within such 30-day period, pension contribution costs shall be excluded from indirect cost for payment purposes until payment has been made. Promptly after receipt of each invoice or voucher the Government shall, subject to the provisions of (c) of this section, make payment thereon as approved by the Contracting Officer.

Note: For supply-type contracts make last sentence read "make payment to the extent of 90 percent thereon."

*AUTHORITY:* Sec. 105 of the Energy Reorganization Act of 1974 (Pub. L. 93-438).

*Effective date.* This amendment is effective May 22, 1975.

Dated at Germantown, Maryland this 13th day of May, 1975.

JOSEPH L. SMITH,  
Director of Procurement.

[FR Doc. 75-13494 Filed 5-21-75; 8:45 am]

# CHAPTER 101—FEDERAL PROPERTY MANAGEMENT REGULATIONS

## SUBCHAPTER H—UTILIZATION AND DISPOSAL [FPMR Amendment H-89]

### PART 101-47—UTILIZATION AND DISPOSAL OF REAL PROPERTY

#### Surplus Real Property for Historic Monument Purposes and Miscellaneous Changes

Part 101-47 is amended pursuant to Pub. L. 92-362, approved August 4, 1972, to provide that the Administrator of General Services may convey surplus real and related personal property to any State, political subdivision, instrumentality thereof, or municipality, without monetary consideration, which the Secretary of the Interior determines is suitable and desirable for use as a historic monument for the benefit of the public. No property shall be determined to be suitable or desirable for use as a historic monument except in conformity with the recommendation of the Advisory Board on National Parks, Historic Sites, Buildings, and Monuments.

For property to be classified as historic for the purposes of this program, it must be either on the National Register of Historic Places or eligible for listing on the National Register. The criteria that is used by the National Park Service, Department of the Interior, in determining eligibility for listing on the National Register may be found in the National Register of Historic Places under the section headed National Register Criteria of Evaluation. The National Register is revised annually and published in the FEDERAL REGISTER in February of each year. Further information concerning eligibility requirements may be obtained from the Historic Preservation Officer for the State in which the property is located or the Office of Archeology and Historic Preservation, National Park Service, Department of the Interior, Washington, DC 20240.

The Administrator of General Services also may authorize the use of property conveyed under subsection 203(k)(3) or the Surplus Property Act of 1944, as amended, for revenue-producing activities if the Secretary of the Interior:

(a) Determines that such activities, as described in the applicant's proposed program of utilization, are compatible with the use of the property for historic monument purposes;

(b) Approves the grantee's plan for repair, rehabilitation, restoration, and maintenance of the property;

(c) Approves the grantee's plan for financing the repair, rehabilitation, restoration, and maintenance of the property (The plan shall not be approved unless it provides that incomes in excess of costs of repair, rehabilitation, restoration, and maintenance shall be used by the grantee only for public historic preservation, park, or recreational purposes.); and

(d) Examines and approves the grantee's accounting and financial procedures for recording and reporting on revenue-producing activities. In addition,

tion, § 101-47.308-7(p) is revised to provide that upon reversion of real property conveyed for public park and recreation areas, the grantee shall be required to provide protection and maintenance for the property until title reverts to the Federal Government, including the period of any notice of intent to revert.

The table of contents for Part 101-47 is amended by revising two entries and adding one entry as follows:

- 101-47.308-3 Property for use as historic monuments.
- 101-47.4904-1 Instructions for preparation of GSA Form 1334, Request for Transfer of Excess Real and Related Personal Property.
- 101-47.4912 Regional offices of the Bureau of Outdoor Recreation, Department of the Interior.

#### Subpart 101-47.2—Utilization of Excess Real Property

1. Section 101-47.202-2(b) (8) is added as follows:

##### § 101-47.202-2 Report forms.

- (b) . . . . .
- (8) The historical significance of the property, if any, and whether the property is listed, is eligible for, or has been nominated for listing in the National Register of Historic Places or is in proximity to a property on the National Register. If the holding agency is aware of any effort by the public to have the property listed on the National Register, this information should be included.

2. Section 101-47.203-5(b) is revised as follows:

##### § 101-47.203-5 Screening of excess real property.

- (b) Notices of availability for information of the Secretary of Health, Education, and Welfare in connection with the exercise of the authority vested in him under the provisions of section 203(k)(1) of the act and for information of the Secretary of the Interior in connection with the exercise of the authority vested in him under the provisions of section 203(k)(2) of the act or a possible determination under the provisions of section 203(k)(3) of the act, will be sent to the offices designated by the Secretaries to serve the areas in which the properties are located. A similar notice of availability for the information of the Secretary of Housing and Urban Development in connection with a possible transfer (assignment) and disposal under section 414 of the Housing and Urban Development Act of 1969, as amended (40 U.S.C. 484b) will be sent to the central office of the Department of Housing and Urban Development.

#### Subpart 101-47.3—Surplus Real Property Disposal

1. Section 101-47.303-2 is amended as follows:

#### § 101-47.303-2 Disposals to public agencies.

The disposal agency, in compliance with the Office of Management and Budget Circular No. A-95, Revised, shall solicit the comments of the Governor, local elected officials, and State and area-wide clearinghouses concerning the compatibility of the proposed disposal with State, regional and local development plans and programs. Simultaneously, eligible public agencies are to be afforded the opportunity to procure the property. Citations of the statutes authorizing the disposal of property to public agencies, the type of property the public agencies may procure under each statute, and the public agencies eligible to procure such property are given in § 101-47.4905.

- (1) Notice for property located in a State shall be given to the Governor of the State, to the county clerk or other appropriate official of the county in which the property is located, to the mayor or other appropriate official of the city or town in which the property is located, to the head of any other eligible local governmental body known to be interested in the property, and to appropriate State and area-wide clearinghouses.

(2) Notice for property located in the District of Columbia shall be given to the Mayor of the District of Columbia and to appropriate clearinghouses.

(3) Notice for property located in the Virgin Islands shall be given to the Governor of the Virgin Islands and to appropriate clearinghouses.

(4) Notice for property located in the Commonwealth of Puerto Rico shall be given to the Governor of the Commonwealth of Puerto Rico and to appropriate clearinghouses.

2. Section 101-47.304-9(a) (5) (iii) is deleted and § 101-47.304-9(b) is revised as follows:

##### § 101-47.304-9 Negotiated disposals.

- (a) . . . . .
- (5) . . . . .
- (iii) [Deleted]

(b) Appraisal data required pursuant to the provisions of § 101-47.303-4, when needed for the purpose of conducting negotiations under § 101-47.304-9(a) (3), (4), or (5) (i) shall be obtained under contractual arrangements with experienced and qualified real estate appraisers familiar with the types of property to be appraised by them: *Provided, however, That in any case where the cost of obtaining such data from a contract appraiser would be out of proportion to the expected recoverable value of the property, or if for any other reason employing a contract appraiser would not be in the best interest of the Government, the head of the disposal agency or his designee should authorize any other method of obtaining an estimate of the fair market value of the*

property or the fair annual rental he may deem to be proper.

3. Section 101-47.308-3 is amended as follows:

#### § 101-47.308-3 Property for use as historic monuments.

(a) Under section 203(k)(3) of the act, the disposal agency may, in its discretion, convey, without monetary consideration, to any State, political subdivision, instrumentality thereof, or municipality, surplus real and related personal property for use as a historic monument for the benefit of the public provided the Secretary of the Interior has determined that the property is suitable and desirable for such use. No property shall be determined to be suitable or desirable for use as a historic monument except in conformity with the recommendation of the Advisory Board on National Parks, Historic Sites, Buildings, and Monuments. In addition, the disposal agency may authorize the use of property conveyed under subsection 203(k)(3) of the act or the Surplus Property Act of 1944, as amended, for revenue-producing activities if the Secretary of the Interior:

(1) Determines that such activities, as described in the applicant's proposed program of utilization, are compatible with the use of the property for historic monument purposes;

(2) Approves the grantee's plan for repair, rehabilitation, restoration, and maintenance of the property;

(3) Approves the grantee's plan for financing the repair, rehabilitation, restoration, and maintenance of the property. The plan shall not be approved unless it provides that incomes in excess of costs of repair, rehabilitation, restoration, and maintenance shall be used by the grantee only for public historic preservation, park, or recreational purposes; and

(4) Examines and approves the grantee's accounting and financial procedures for recording and reporting on revenue-producing activities.

(b) The disposal agency shall notify State and area-wide clearinghouses and eligible public agencies, in accordance with the provisions of § 101-47.303-2, that property which may be disposed of for use as a historic monument has been determined to be surplus. A copy of the holding agency's Standard Form 118, Report of Excess Real Property, with accompanying schedules shall be transmitted with the copy of each such notice when it is sent to the proper regional office of the Bureau of Outdoor Recreation as provided in § 101-47.308-2(d).

(c) Upon request, the disposal agency shall furnish eligible public agencies with an application form to acquire real property for permanent use as a historic monument and advise the potential applicant that it should consult with the appropriate Bureau of Outdoor Recreation Regional Office early in the process of developing the application.

(d) Eligible public agencies shall submit the original and two copies of the completed application to acquire real

property for use as a historic monument in accordance with the provisions of § 101-47.303-2 to the appropriate Bureau of Outdoor Recreation Regional Office which will forward one copy of the application to the appropriate regional office of the disposal agency. After consultation with the National Park Service, the Bureau of Outdoor Recreation shall promptly submit to the disposal agency the determination required of the Secretary of the Interior under section 203(k)(3) of the act for disposal of the property for a historic monument and compatible revenue-producing activities or shall inform the disposal agency that no such recommendation will be submitted.

(e) Upon receipt of the determination, the disposal agency may with the approval of the head of the disposal agency or his designee convey to an eligible public agency property determined by the Secretary of the Interior to be suitable and desirable for use as a historic monument for the benefit of the public and for compatible revenue-producing activities subject to the provisions of section 203(k)(3) of the act.

(f) The Secretary of the Interior has the responsibility for enforcing compliance with the terms and conditions of disposals; the reformation, correction, or amendment of any disposal instrument; the granting of releases; and any action necessary for recapturing such property in accordance with the provisions of section 203(k)(4) of the act. Any such action shall be subject to the disapproval of the head of the disposal agency.

(g) The Department of the Interior shall notify the appropriate GSA regional Real Property Division, Public Buildings Service, immediately by letter when title to such historic property is to be reversioned in the United States for noncompliance with the terms and conditions of disposal or for other cause. The notification shall cite the legal and administrative actions that the Department must take to obtain full title and possession of the property. In addition, it shall include an adequate description of the property, including any improvements constructed thereon since the original conveyance to the grantee. Upon receipt of a statement from the Department that title to the property has reversioned, GSA will assume custody and accountability of the property. However, the grantee shall be required to provide protection and maintenance of the property until such time as the title reverts to the Federal Government, including the period of any notice of intent to revert. Such protection and maintenance shall, at a minimum, conform to the standards prescribed in § 101-47.4913.

4. Sections 101-47.308-4(k) and 101-47.308-4(l) are revised as follows:

#### § 101-47.308-4 Property for educational and public health purposes.

(k) The Secretary of Health, Education, and Welfare has the responsibility

for enforcing compliance with the terms and conditions of transfer; for the reformation, correction, or amendment of any transfer instrument; for the granting of releases; and for the taking of any necessary actions for recapturing such property in accordance with the provisions of section 203(k)(4) of the act. Any such action shall be subject to the disapproval of the head of the disposal agency. Notice to the head of the disposal agency by the Secretary of any action proposed to be taken shall identify the property affected, set forth in detail the proposed action, and state the reasons therefor.

(l) In each case of repossession under a terminated lease or reverter of title by reason of noncompliance with the terms and conditions of sale or other cause, the Department of Health, Education, and Welfare shall, at or prior to such repossession or reversion of title, provide the appropriate GSA regional Real Property Division, Public Buildings Service, with an accurate description of the real and related personal property involved. Standard Form 118, Report of Excess Real Property, and the appropriate schedules shall be used for this purpose. Upon receipt of advice from the Department that such property has been repossessed or title has reversioned, GSA will assume custody and accountability of the property. However, the grantee shall be required to provide protection and maintenance for the property until such time as the title reverts to the Federal Government, including the period of any notice of intent to revert. Such protection and maintenance shall, at a minimum, conform to the standards prescribed in § 101-47.4913.

5. Sections 101-47.308-7(o) and 101-47.308-7(p) are revised as follows:

#### § 101-47.308-7 Property for use for public park or recreation purposes.

(o) The Secretary of the Interior has the responsibility for enforcing compliance with the terms and conditions of transfer; the reformation, correction, or amendment of any transfer instrument; the granting of releases; and any necessary actions for recapturing such property in accordance with the provisions of section 203(k)(4) of the act. Any such action shall be subject to the disapproval of the head of the disposal agency. Notice to the head of the disposal agency by the Secretary of any action proposed to be taken shall identify the property affected, set forth in detail the proposed action, and state the reasons therefor.

(p) The Department of the Interior shall notify the appropriate GSA regional Real Property Division, Public Buildings Service, immediately by letter when title to property transferred for use as a public park or recreation area is to be reversioned in the United States for noncompliance with the terms and conditions of disposal or for other cause. The notification shall cite the legal and administrative actions that the Department must take to obtain full title and possession of the property. In addition, it shall include an adequate description of the

## RULES AND REGULATIONS

property, including any improvements constructed thereon since the original conveyance to the grantee. Upon receipt of a statement from the Department that title to the property has reverted, GSA will assume custody and accountability of the property. However, the grantee shall be required to provide protection and maintenance for the property until such time as the title reverts to the Federal Government, including the period of any notice of intent to revert. Such protection and maintenance shall, at a minimum, conform to the standards prescribed in § 101-47.4913.

## Subpart 101-47.49—Illustrations

1. Section 101-47.4904-1(e) is amended by retitling the section and adding subparagraph j as follows:

§ 101-47.4904-1. Instructions for preparation of GSA Form 1334, Request for Transfer of Excess Real and Related Personal Property.

(e) Page 5 of Instructions for Preparation of GSA Form 1334.

(j) When the requested property is listed or may be eligible for listing on the

National Register of Historic Places, or is in the immediate vicinity of a property on the National Register, evaluate the effect on the historic character of the property of the proposed use of the property and any planned repair, rehabilitation, restoration, and maintenance work by applying the "Criteria for Effect" in the Procedures for Compliance with section 106 of the National Historic Preservation Act of 1966, issued by the Advisory Council on Historic Preservation. If it is decided there is a beneficial effect or no effect, state the decision and basis. If it appears that there may be an adverse effect on the property, the agency requesting the transfer of the property shall be responsible for taking all action required under the procedures of the Advisory Council on Historic Preservation to mitigate the adverse effects. The agency shall record actions taken and their disposition, and attach copies of appropriate documents.

2. Section 101-47.4905 is revised to read as follows:

§ 101-47.4905. Extract of statutes authorizing disposal of surplus real property to public agencies.

Statute	Type of property <sup>1</sup>	Eligible public agency
40 U.S.C. 484(k)(1)(A). Disposals for school, classroom, or other educational purposes.	Any surplus real property, including buildings, fixtures, and equipment situated thereon, exclusive of (1) minerals having a commercial value separate and apart from the surface, and (2) property which the holding agency has requested reimbursement of the net proceeds of disposition pursuant to sec. 204(c) of the act.	States and their political subdivisions and instrumentalities thereof, and tax-supported educational institutions; District of Columbia; Commonwealth of Puerto Rico; and the Virgin Islands.
40 U.S.C. 484(k)(1)(B). Disposals for public health purposes including research.	Any surplus real property, including buildings, fixtures, and equipment situated thereon, exclusive of (1) minerals having a commercial value separate and apart from the surface, and (2) property which the holding agency has requested reimbursement of the net proceeds of disposition pursuant to sec. 204(c) of the act.	States and their political subdivisions and instrumentalities thereof, and tax-supported medical institutions; District of Columbia; Commonwealth of Puerto Rico; and the Virgin Islands.
40 U.S.C. 484(k)(2). Disposals for public park or recreation areas.	Any surplus real property recommended by the Secretary of the Interior as being needed for use as a public park or recreation area, including buildings, fixtures, and equipment situated thereon, exclusive of (1) minerals; (2) improvements without land; (3) military chapels subject to disposal as a shrine, memorial, or for religious purposes under the provisions of sec. 101-47.308-5; and (4) property which the holding agency has requested reimbursement of the net proceeds of disposition pursuant to sec. 204(c) of the act.	Any State, political subdivision, or municipality; District of Columbia; Commonwealth of Puerto Rico; and the territories and possessions of the United States.
40 U.S.C. 484(k)(3). Disposals for historic monuments.	Any surplus real and related personal property, exclusive of (1) minerals; (2) improvements without land; (3) military chapels subject to disposal as a shrine, memorial, or for religious purposes under the provisions of sec. 101-47.308-5; and (4) property for which the holding agency has requested reimbursement of the net proceeds of disposition pursuant to sec. 204(c) of the act. Before property may be conveyed under this statute, the Secretary of the Interior must determine that the property is suitable and desirable for use as a historic monument for the benefit of the public. No property shall be determined to be suitable or desirable for use as a historic monument except in conformity with the recommendation of the Advisory Board on National Parks, Historic Sites, Buildings, and Monuments established by sec. 3 of the act entitled "An Act for the preservation of historic American sites, buildings, objects, and antiquities of national significance, and for other purposes," approved Aug. 21, 1935 (49 Stat. 666), and only so much of any such property shall be so determined to be suitable or desirable for such use as is necessary for the preservation and proper observation of its historic features. The Administrator of General Services may authorize the use of the property conveyed under this subsection for revenue-producing activities if the Secretary of the Interior (1) determines that such activities are compatible with use of the property for historic monument purposes, (2) approves the grantee's plan for repair, rehabilitation, restoration, and maintenance of the property, (3) approves the grantee's plan for financing repair, rehabilitation, restoration, and maintenance of the property which must provide that incomes in excess of the costs of such items shall be used by the grantee only for public historic preservation, park, or recreational purposes, and (4) approves the grantee's accounting and financial procedures for recording and reporting on revenue-producing activities.	Any State, political subdivision, or municipality; District of Columbia; Commonwealth of Puerto Rico; and the territories and possessions of the United States.

## RULES AND REGULATIONS

Statute	Type of property <sup>1</sup>	Eligible public agency
50 U.S.C. app. 1622(g). Disposals for public airport purposes.	Any surplus real or personal property, exclusive of (1) military chapels subject to disposal as a shrine, memorial or for religious purposes under the provisions of Sec. 101-47.308-5; (2) property subject to disposal as a historic monument site under the provisions of Sec. 101-47.308-3; (3) property the highest and the best use of which is determined by the disposal agency to be industrial and which shall be so classified for disposal, and (4) property which the holding agency has requested reimbursement of the net proceeds of disposition pursuant to sec. 204(c) of the act.	Any State, political subdivision, municipality, or tax-supported institution; Commonwealth of Puerto Rico; and the Virgin Islands.
16 U.S.C. 667b-d. Disposals for wildlife conservation purposes.	Any surplus real property (with or without improvements) that can be utilized for wildlife conservation purposes other than migratory birds, exclusive of (1) oil, gas, and mineral rights, and (2) property which the holding agency has requested reimbursement of the net proceeds of disposition pursuant to sec. 204(c) of the act.	The agency of the State exercising the administration of the wildlife resources of the State.
23 U.S.C. 107 and 317. Disposals for Federal aid and other highways.	Any real property or interests therein determined by the Secretary of Transportation to be reasonably necessary for the right-of-way of a Federal aid or other highway (including control of access thereto from adjoining lands) or as a source of material for the construction or maintenance of any such highway adjacent to such real property or interest therein, exclusive of (1) minerals having a commercial value separate and apart from the surface, and (2) property which the holding agency has requested reimbursement of the net proceeds of disposition pursuant to sec. 204(c) of the act.	State wherein the property is situated for such political subdivision of the State as its law may provide, including the District of Columbia and Commonwealth of Puerto Rico.
40 U.S.C. 484(c). Disposals for authorized widening of public highways, streets, or alleys.	Such interest in surplus real property as the head of the disposal agency determines will not be adverse to the interests of the United States, exclusive of (1) minerals having a commercial value separate and apart from the surface, (2) property subject to disposal for Federal aid and other highways under the provisions of 23 U.S.C. 107 and 317, and (3) property which the holding agency has requested reimbursement of the net proceeds of disposition pursuant to sec. 204(c) of the act.	State or political subdivision of a State.
50 U.S.C. app. 1622(d). Disposals of power transmission lines needful for or adaptable to the requirements of a public power project.	Any surplus power transmission line and the right-of-way acquired for its construction.	Any State or political subdivision thereof or any State agency or instrumentality.
40 U.S.C. 484(c)(3)(H). Disposals by negotiations.	Any surplus real property including related personal property.	Any State, political subdivision thereof, or tax-supported agency therein; Commonwealth of Puerto Rico; and the Virgin Islands.
40 U.S.C. 122. Transfer to the District of Columbia of jurisdiction over properties within the District for administration and maintenance under conditions to be agreed upon.	Any surplus real property, except property which the holding agency has requested reimbursement of the net proceeds of disposition pursuant to sec. 204(c) of the act.	District of Columbia.

<sup>1</sup> The Commissioner, Public Buildings Service, General Services Administration, Washington, D.C. 20405, in appropriate instances, may waive any exclusions listed in this column, except for those required by law.

3. Section 101-47.4906 is amended by revising the second paragraph of the notice as follows:

§ 101-47.4906. Sample notice to public agencies of surplus determination.

This property is surplus property available for disposal pursuant to the provisions of the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 471 et seq.) and applicable regulations. The applicable regulations provide that public agencies (non-Federal) shall be allowed a reasonable period

of time to submit a formal application for surplus real property in which they may be interested. Disposal of this property or portions thereof may be made to public agencies for the public uses stated below whenever the Government determines that the property is available for such uses and that disposal thereof is authorized by the statutes cited and applicable regulations.<sup>1</sup>

<sup>1</sup> List only the statutes (showing type of disposal) applicable to disposal to public bodies of the property determined to be surplus.

Statute	Type of disposal
23 U.S.C. 107 and 317.	Federal aid and certain other highways.
40 U.S.C. 484(e) (3) (H).	Negotiated sales to public bodies for use for public purposes generally. <sup>1</sup>
40 U.S.C. 484(k) (1) (A).	School, classroom, or other educational purposes.
40 U.S.C. 484(k) (1) (B).	Protection of public health, including research.
40 U.S.C. 484(k) (2).	Public park or recreation area.
40 U.S.C. 484(k) (3).	Historic monument.
50 U.S.C. app. 1622(g).	Public airport.

<sup>1</sup> List only for properties having an estimated fair market value of \$10,000 or more.

5. Section 101-47.4912 is added as follows:

**§ 101-47.4912 Regional offices of the Bureau of Outdoor Recreation, Department of the Interior.**

Address communications to: Regional Director, Bureau of Outdoor Recreation, Department of the Interior.

Region and jurisdiction	Address and telephone
Northeast region: Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and District of Columbia.	Federal Bldg., 600 Arch St., Philadelphia, Pa. 19106. Code 215, 597-7989.
Southeast region: Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, Puerto Rico, South Carolina, Tennessee, and Virgin Islands.	148 Cain St., Atlanta, Ga. 30303. Code 404, 526-4405.
Lake Central region: Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin.	3853 Research Park Dr., Ann Arbor, Mich. 48104. Code 313, 769-3211.
Midcontinent region: Colorado, Iowa, Kansas, Missouri, Montana, Nebraska, North Dakota, South Dakota, Utah, and Wyoming.	Building 41, Denver Federal Center, P.O. Box 25387, Denver, Colo. 80225. Code 303, 234-2634.
South Central region: Arkansas, Louisiana, New Mexico, Oklahoma, and Texas.	Patio Plaza Bldg., 5000 Marble Ave., NE, Albuquerque, N. Mex. 87110. Code 505, 843-3514.
Northwest region: Alaska, Idaho, Oregon, and Washington.	United Pacific Bldg., 1000 Second Ave., Seattle, Wash. 98104. Code 206, 442-4706.
Pacific Southwest region: American Samoa, Arizona, California, Guam, Hawaii, and Nevada.	Box 36062, 450 Golden Gate Ave., San Francisco, Calif. 94102. Code 415, 556-0182.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

**Effective date.** This regulation is effective on May 22, 1975.

Dated: May 14, 1975.

(Catalog of Federal Domestic Assistance Program No. 39.002, Disposal of Federal Surplus Real Property.)

ARTHUR F. SAMPSON,  
Administrator of General Services.

[FR Doc. 75-13380 Filed 5-21-75; 8:45 am]

**Title 43—Public Lands: Interior**

**SUBTITLE A—OFFICE OF THE SECRETARY**

**PART 26—GRANTS TO STATES FOR ESTABLISHING YOUTH CONSERVATION CORPS PROGRAMS**

**Grant Regulations**

Part 26, to Title 43, Subtitle A of the Code of Federal Regulations is revised as a final regulation. The Interim Regulation for implementing the pilot grant program was published on November 30, 1973 (38 FR 33082). The Interim Regulations invited comments or recommendations from interested persons to be submitted by November 1, 1974. No substantive comments or recommendations were received except for three letters from States, each of which took exception to the administrative determination that a maximum of 50 percent of total cost of State projects is to be financed by Federal grant. Pub. L. 93-408 provided that States may receive grants up to but not to exceed 80 percent of the cost of funding a project from the Federal Government (§ 26.6(b)).

These regulations were developed jointly by the Department of Agriculture and the Department of the Interior. The

Department of Agriculture will publish the same interim regulations under Title 36 of the Code of Federal Regulations, Part 214.

**Findings and Determinations.** It has been determined that the delay in making these regulations effective would be contrary to the public interest; accordingly, they shall be effective May 22, 1975.

In consideration of the above, the Interim Regulation, issued in Part 26 of Title 43 of the Code of Federal Regulations is superseded and final regulations issued to read as follows:

**PART 26—GRANTS TO STATES FOR ESTABLISHING YOUTH CONSERVATION CORPS PROGRAM**

Sec.	
26.1	Introduction.
26.2	Definitions.
26.3	Program purpose and objectives.
26.4	Legislation.
26.5	Administrative requirements.
26.6	Request for grant.
26.7	Application format and instructions.
26.8	Program reporting requirements.
26.9	Consideration and criteria for awarding grants.

**AUTHORITY:** Sec. 4, 86 Stat. 1320, as amended, 88 Stat. 1097.

**§ 26.1 Introduction.**

(a) The Youth Conservation Corps (YCC) is a program of summer employment for young men and women, aged 15 through 18, who work, earn, and learn together by doing projects which further the development and conservation of the natural resources of the United States. The Corps is open to youth of both sexes, and youth of all social, economic, and racial classifications who are permanent

residents of the United States, its territories, possessions, or trust territories.

(b) The Youth Conservation Corps Act of 1970 (Pub. L. 91-378) provided for a 3-year pilot program to be carried out on lands and waters under the jurisdiction of the Secretary of Agriculture or the Secretary of the Interior. Pub. L. 92-597 amended the 1970 Act to include a pilot program (beginning in FY 1974) under which grants shall be made to States, to assist them in meeting the cost of Youth Conservation Corps projects on non-Federal public lands and waters within the States. Pub. L. 93-408 made the Youth Conservation Corps program permanent.

**§ 26.2 Definitions.**

(a) Terms used in these regulations are defined as follows:

(1) **Act.** The Youth Conservation Corps Act of 1970, Pub. L. 91-378 as amended.

(2) **Secretaries.** The Secretaries of Agriculture and the Interior, or their designated representatives, who jointly administer the grant program. Within the Department of Agriculture, the YCC program is administered by the Forest Service; within the Department of the Interior, it is administered by the Office of Manpower Training and Youth Activities.

(3) **States.** Any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Trust Territory of the Pacific Islands, and American Samoa.

(4) **Grant.** Money, or property provided in lieu of money, paid or furnished by the Secretaries pursuant to the Act to a State to carry out YCC programs on non-Federal public lands and waters. The amount of any grant shall be determined jointly by the Secretaries, except that no grant for any project may exceed 80 per centum of the cost (as determined by the Secretaries) of said project.

(5) **Grantee.** Any State which receives a Federal grant for the operation of a YCC grant program.

(6) **Sub-Grantee.** Any public organization, municipality or agency which administers non-Federal public lands and waters which successfully applied through a State for the operation of a Youth Conservation Corps project within that State.

(7) **Contractor.** Any public agency or organization or any private non-profit agency or organization which has been in existence for at least 5 years which operates a YCC project for a grantee or sub-grantee.

(8) **Program Agent.** Agent designated by the State to have program responsibility for all aspects of YCC operations in that State except for those projects conducted under Federal auspices.

(9) **Grant Program.** The YCC program which consists of one or more projects operated by the State with State funds and Federal grant funds.

(10) **Project.** The operating unit or camp of the State YCC grant program, either of residential or nonresidential program type, as follows:

(1) **Residential Project.**—One in which youths reside either seven or five days per week at a camp on or adjacent to the public lands where they conduct their work-education program.

(11) **Nonresidential Project.**—One in which youths reside at home and daily commute to the public lands to conduct their work-education program.

(11) **Operating Year.** January 1 to December 31.

(12) **Non-Federal Public Lands and Waters.** Any lands or waters within the territorial limits of a State owned either in fee simple by a State or political subdivision thereof or over which a State or political subdivision thereof has, as determined by the Secretaries, sufficient long-term jurisdiction so that improvements made as the result of a grant will accrue primarily to the benefit of the public as a whole. Federally owned public lands and waters administered by a State or political subdivision thereof under agreement with a Department or Agency of the Federal Government are eligible under such definition if the Secretaries determine that the State or political subdivision thereof is entitled to or is likely to retain administrative responsibility for an extended period of time sufficient to justify classification as non-Federal public lands or waters.

**§ 26.3 Program purpose and objectives.**

(a) The purpose of the Act is to further the development and maintenance of the natural resources of the United States, by American youth and in so doing prepare them for the ultimate responsibility of maintaining and managing these resources for the American people. The Departments of Agriculture and the Interior have stressed the following three equally important objectives of the Youth Conservation Corps as reflected in the law:

(1) Accomplish needed conservation work on public lands.

(2) Provide gainful employment for 15 through 18 year-old males and females from all social, economic, ethnic, and racial backgrounds.

(3) Develop an understanding and appreciation, in participating youths, of the Nation's natural environment and heritage.

(b) These objectives will be accomplished in a manner that will provide the youth with an opportunity to acquire increased self-dignity and self-discipline, to work and relate with peers and supervisors, and build lasting cultural bridges between youth from various social, ethnic, racial, and economic backgrounds.

**§ 26.4 Legislation.**

State programs must meet all of the requirements of section 4 of the Act. Section 4 of the Act which applies to the grant program reads in part as follows:

Sec. 4 (a) The Secretary of the Interior and the Secretary of Agriculture shall jointly establish a program under which grants shall be made to States to assist them in meeting the cost of projects for the employment of young men and women to develop, preserve, and maintain non-Federal public lands and

waters within the States. For purposes of this section, the term "States" includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Trust Territory of the Pacific Islands, and American Samoa.

(b) (1) No grant may be made under this section unless an application therefore has been submitted to, and approved by, the Secretary of the Interior and the Secretary of Agriculture. Such application shall be in such form, and submitted in such manner, as the Secretaries shall jointly by regulation prescribe, and shall contain—

(A) assurances satisfactory to the Secretaries that individuals employed under the project for which the application is submitted shall: (i) have attained the age of fifteen but not attained the age of nineteen, (ii) be permanent residents of the United States or its territories, possessions, or Trust Territory of the Pacific Islands, (iii) be employed without regard to the personnel laws, rules, and regulations applicable to full-time employees of the applicant, (iv) be employed for a period of not more than ninety days in any calendar year, and (v) be employed without regard to their sex or social, economic, or racial classification; and

(B) such other information as the Secretaries may jointly by regulation prescribe.

(2) The Secretaries may approve applications which they determine (A) meet the requirements of paragraph (1) and (B) are for projects which will further the development, preservation, or maintenance of the non-Federal public lands or waters within the jurisdiction of the applicant.

(c) (1) The amount of any grant under this section shall be determined jointly by the Secretaries, except that no grant for any project may exceed 80 per centum of the cost (as determined by the Secretaries) of such project.

(2) Payments under grants under this section may be made in advance or by way of reimbursement and at such intervals and on such conditions as the Secretaries find necessary.

(d) Thirty per centum of the sums appropriated under section 6 for any fiscal year shall be made available for grants under this section for such fiscal year.

**§ 26.5 Administrative requirements.**

The following administrative requirements must be met:

(a) Recruitment and selection will be conducted in a manner designated to assure a full opportunity for American youth to participate in the Youth Conservation Corps. The grantee and sub-grantee will assure that the YCC program is open to all eligible youth, from all parts of the Country including urban and rural youth of both sexes and youth of all social, economic, racial and ethnic classifications. A well balanced YCC camp enrollment should also include representation of urban and rural youth, non-public school youth, the disadvantaged, and youth having quit school before graduation.

(b) To the maximum extent practicable, enrollees should be selected from an area within one day's surface travel from their residence to a YCC camp.

(c) Capital outlays for facilities should be kept at a minimum.

(d) YCC projects may be conducted during periods other than summer months provided that enrollees will not leave school in order to participate.

(e) The enrollee is an employee of the grantee or subgrantee. The Enrollee Pay

Plan must comply with Federal or State Minimum Wage Laws whichever may be higher. To the maximum extent practicable, State YCC enrollees should receive the same rate of pay as Federal YCC enrollees.

(f) Grantees must provide for an effective accident control, health, and safety program. As a minimum, grantees should follow U.S. Department of Labor Bulletin 158, "State Child Labor Standards."

(g) Grantees will have a financial management system which will provide the information called for in Attachment G of FMC 74-7.

(h) "Request for Advance or Reimbursement" as outlined in FMC 74-7 will be used to obtain an advance to start and/or maintain the program. It can also be used to obtain a reimbursement during or at the end of a project. An advance, not to exceed one month's needs may be made after approval of the grant application.

(i) "Financial Status Report" as outlined in FMC 74-7 will be submitted to Secretaries' Representatives within 90 days upon completion of the project funded under the grant program. The same functional headings used in preparing Part II of the application should be used in preparing the Financial Status Report. Instructions and forms will be supplied to the grantee at time of grant award.

(j) Allowable costs under the grant program are defined in FMC 74-7 and FMC 74-4.

(k) Records retention and custodial requirements for records are prescribed by Attachment C to FMC 74-7.

(l) Because of the short duration of each project, budget revisions normally should be unnecessary; however, if a budget revision becomes necessary, the grantee will be governed by Attachment K of FMC 74-7.

(m) Grantees shall comply with the provisions of Attachments O and N of FMC 74-7 in regard to nonexpendable personal property and procurement standards.

(n) Grantees shall permit the Secretaries to periodically inspect the conduct of the program by the State.

(o) Grantees will supervise those projects in the State being administered by sub-grantees and contractors. Sub-grantees and contractors will be required to operate in accordance with the procedures outlined in these regulations and the grant agreement with the State. Periodic inspection of sub-grantee projects will be made by the grantee under the direction of the Program Agent or his designee. Grantees or sub-grantees may contract with a qualified non-profit agency or organization for the operation of their YCC project.

(p) No grant is to be made for construction of residential facilities other than to provide temporary facilities and their necessary basic infrastructure and necessary renovation or modification of existing facilities.

(q) If the grantee fails to comply with the grant award stipulations, standards,

## RULES AND REGULATIONS

or conditions, the Secretaries may suspend the grant. Subsequent to or during any period of suspension of the grant, the Federal Government shall not be obligated to reimburse the grantee for any incurrence of obligations other than direct salaries of enrollees and then only for a period of time which the Secretaries shall determine to be reasonable. In addition, the Secretaries may terminate the grant. Termination shall be effected by a notice of termination.

Upon receipt of a notice of termination, the grantee shall:

- (1) Discontinue further commitments of grant funds.
- (2) Cancel all subgrants or contracts, where possible, scheduled for payment with grant funds.
- (3) Supply the Secretaries within two months after receipt of the notice of termination, a final financial statement, along with a refund check for any unused portion of funds advanced, or a request for reimbursement for allowable expenditures incurred in the grant program.

## § 26.6 Request for grant.

(a) Of the amount available for the Youth Conservation Corps, 30 percent will be allocated for State projects. All States will be given an opportunity to participate in the program. Allocated funds not needed by a State will be reallocated based on the merits of proposals submitted in accordance with § 26.6(c) or a pre-application in accordance with Attachment M of FMC 74.7. All proposed projects should be listed by priority. Grant funds are for State projects only. A grant to a State must be matched by the State for each project. Matching can consist of either direct expenditures or services of an in-kind nature.

(b) Pursuant to section 4(c) (1) of Pub. L. 93-408, States may receive grants up to but not to exceed 80 percent of the cost of funding a project from the Federal Government.

(c) "Application for Federal Assistance (short form)" will be used by applicants in applying for grants under this program. Application forms will be supplied to Program Agents. Only a Program Agent may submit an application. A separate form will be submitted for each proposal. Similar projects may be included in a single proposal. Separate proposals should be submitted for projects operated by sub-grantees and contractors. If there is more than one proposal submitted by a State, the State should indicate priorities of proposals for consideration and approval of the Secretaries.

(d) The Secretaries have designated individuals in each State who will jointly represent them. Grant applications (original and two copies) must be submitted to the designated representative of either Secretary. January 1 has been established as the deadline date for acceptance of applications for each operating year, except for the 1975 program, February 15, 1975, is the deadline for submission of applications. Names and

addresses of designated representatives will be furnished to each State. The Secretaries' representatives must jointly approve grant proposals. Approval or disapproval of proposals will be documented by a formal letter to the Program Agent. The Secretaries' representatives will also be available for technical assistance and advice.

## § 26.7 Application format and instructions.

Grant proposals must be made using the Office of Management and Budget approved form entitled "Application for Federal Assistance (short form)." Instruction for completing the form by part numbers follow.

- (a) Part I—Shall be completed.
- (b) Part II—(Budget Data) lines 1-8 need not be used. However, the following information is needed relative to the YCC program. Please prepare a supplemental sheet using the following functional headings:

General  
Staff Pay  
Enrollee Pay  
Camp Opening and Closing Costs  
Food  
Work Project Costs  
Program Direction

A description of the items to be included under each of these functional headings are:

**General.** Include expenditures for (1) construction, (2) other (medical, first-aid expense, utilities, maintenance costs, recreation, all supplies not otherwise identified).

**Staff pay.** Includes pay, benefits, and travel, net of any deductions made for meals and quarters furnished.

**Enrollee pay.** Includes pay, benefits, and transportation of enrollees.

**Camp opening and closing costs.**

**Food.** Includes cost of food and related freight charges.

**Work project costs.** Safety equipment, transportation, and work supplies and materials.

**Program direction.** Includes support services, and program administration expenses at locations other than at projects. The total of the above categories should be entered on line 9 of Part II, and the rest of Part II completed.

**Indirect costs.** Compute the appropriate allowance for indirect costs on line 15 and enter on line 10.

(c) Part III—(Program Narrative Statement) should include the following information:

- (1) Location of project (address and county).
- (2) Distance to nearest town; name of town.
- (3) Number of youth planned for project.
- (4) Type of project (7-day residential; 5-day residential; nonresidential; other).
- (5) Length of session (i.e., number of weeks) and proposed beginning and ending dates.
- (6) Description of living conditions (types of facilities, age, condition, tents, cabins, dormitories).
- (7) Project staff (number and position titles).

(8) Complete calculation for daily rate of enrollee pay including deduction for food and lodging.

(9) Description of health and safety program.

(10) Enrollee recruiting system and recruiting areas.

(11) Description of the work-learning program.

(12) Types of work projects that will be available (an integrated environmental-work-learning program is preferred).

(13) States agreement to administer tests, conduct interviews, or otherwise assist the Federal Government in collecting data on the grant program. The data is to be used for the required report to the President and Congress on accomplishing the purposes of the Act. A statement to this effect must be written into the proposal by the applicant.

(d) Part IV—(Assurances) is pre-printed and is to be included as part of the application.

## § 26.8 Program reporting requirements.

(a) Monitoring and reporting of program performance will be in accordance with Attachment I of FMC 74-7. Grantees will submit performance reports with the Financial Status Report filed at the end of each project to the Secretaries' representatives. This report is due 90 days after termination of the project. The performance report will include the number of youth enrolled in the project, number of weeks of camp operation, youth loss rate, value of work accomplished by resource category (for example, timber management, recreation, etc.), narratives of significant project accomplishments, hours of youth work-learning experience by resource category and value of work supplies and materials by resource category.

(b) As a part of the performance report, grantees must provide the Secretaries' representatives with detailed information on the demographic characteristics of enrollees in State projects as follows:

- (1) Number of youth by age.
- (2) Number of male and female, by project.
- (3) Number from communities of up to 2,500 population, 2,500 to 50,000 population, 50,000 to 750,000 population, and over 750,000 population.
- (4) Number from families of under \$5,000 annual family income, \$5,000 to \$10,000 family income, \$10,000 to \$15,000 family income, and over \$15,000 family income.
- (5) Race of enrollees; number of Black, White, Spanish Surname, American Indian, Oriental, and other.

(c) The reporting and/or record-keeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

## § 26.9 Consideration and criteria for awarding grants.

(a) The decision by the Secretaries' representatives on grants to individual States will consider the following:

(1) Amount of grant funds appropriated and available.

(2) The population and non-Federal public land ownership of each State in relation to the total for all States.

(3) The amount of Federal program funds allotted to the State.

(4) States with few Federal public lands will be given preference, assuming that applications are comparable.

(5) The quality of the proposed program in terms of meeting program objectives as reflected in the State application. After the initial year, actual performance of the States in administering YCC projects in prior years will also be considered.

(6) The cost to the Federal Government of the State program in relation to quality and quantity of projects proposed.

(b) To place each State on equal footing, evaluation of an application will be based on the proposed cost for enrollee, calculated on an eight-week operating cycle regardless of project duration in the proposal.

RICHARD R. HITE,  
Deputy Assistant Secretary  
of the Interior.

MAY 15, 1975.

[FR Doc. 75-13457 Filed 5-21-75; 8:45 am]

## Title 49—Transportation

## CHAPTER I—DEPARTMENT OF TRANSPORTATION

## SUBCHAPTER A—HAZARDOUS MATERIALS REGULATIONS BOARD

[Docket No. HM-102; Amdt. No. 173-78A]

## PART 173—SHIPPERS

## Flammable, Combustible, and Pyrophoric Liquids; Definitions

The purpose of these revisions to the amendment made under Docket HM-102; Amdt. 173-78 is to:

- (1) Permit the use of an additional test method for the determination of flash points.
- (2) Modify the evaporation requirements for mixtures.
- (3) Permit the marking of the flash point range of materials as an alternative to the marking of a specific flash point on the outside package.
- (4) Specify the minimum flash point of certain aqueous solutions containing alcohol.
- (5) Grant a special exemption for alcoholic beverages, and
- (6) Extend the mandatory compliance date of amendments made under Docket HM-102.

On January 24, 1974, the Board published amendments 172-23, 173-78, 174-19, and 177-29 (39 FR 2768) to: (1) specify a new definition for the class of materials identified as "Flammable liquid"; (2) create and define a new class of materials identified as "Combustible liquid"; (3) modify the definition for pyrophoric liquids within the flammable liquid class; and (4) set forth the requirements for the materials that are covered by the new definitions. Since

## RULES AND REGULATIONS

22263

publication of the amendments, a large number of petitions have been received by the Board pertaining to the amendments and the Board has decided that many of the petitions have merit.

**Setaflash tester.** Several petitions have been received for the addition of the Setaflash closed tester for flash point testing. This apparatus has been subjected to extensive testing within the United States and Europe. Standard test procedures for its use have been issued by the American Society for Testing and Materials (ASTM), The International Standards Organization (ISO), and the British Standards Institution (BSI). The Setaflash tester has been presented as suitable for highly viscous materials such as pastes. Special advantages of the Setaflash tester include: (1) increased safety due to small sample size required (2 milliliters vs. 50 to 70 milliliters for Tag or Pensky-Martens); (2) a decrease in the time necessary to run a test due to the small sample size, with a corresponding reduction in the heating time at different temperatures; and (3) data comparing the Setaflash tester with other flash point testers indicates that the Setaflash test gives better reproducibility and repeatability because it produces liquid-vapor equilibrium test results. Based on these considerations, the Board has decided to specify two standard test methods, using the Setaflash tester, as alternate test methods for the determination of flash points.

**Evaporation procedures.** A number of questions concerning the validity of the evaporation requirement and the double testing of mixtures having components of widely differing volatilities and flash points have been raised. The Board believes safety considerations require that provisions be made for the most hazardous situation that could reasonably be expected to occur and, since flash point is the sole criterion specified for the classification of flammable and combustible liquids, it is necessary to classify a material according to the lowest flash point that could reasonably be expected to occur. The requirement for the evaporation of 90% of the original volume before retesting is not feasible for mixtures containing 10% or less volatiles. Therefore, the Board has changed the requirements to specify an evaporation time as an alternative to the 90% evaporation requirement. Also, no evaporation temperature was specified in the amendment; therefore, in many cases it would have been possible to selectively remove any component desired. By specifying an evaporation temperature in conjunction with an evaporation time or volume decrease, the Board believes these concerns will be alleviated.

**Specification of flash point vs. flash point range.** In order to use the partial exemptions specified in § 173.118 (a) (3) and (b), for flammable liquids with a flash point between 73° F. and 100° F., amendment 173-78 required that the flash point must be marked on the outside of the package. It is not necessary to show the exact flash point of a flammable liquid as long as marking indi-

cates that the flash point is 73° F. or higher. Therefore, changes are being made to permit an alternative marking.

One petitioner questioned the need for marking flash points on containers in order to qualify for these partial exemptions since no similar requirement exists for such a marking on smaller quantity packagings. The reason for the marking is to provide a visual affirmation that the material in the package has a flash point high enough to qualify for partial exemptions when in quantities of more than one quart. The small quantity partial exemption presently in effect differentiates between metal containers (up to one quart) and other kinds of containers (up to one pint). The new partial exemption (up to and including one gallon) applies to flammable liquids having flash points from 73° F. to 100° F. and does not specify the material of construction for their packaging. Therefore, the marking will be an indication that the flammable liquid (73-100° F.) is authorized under the partial exemption where the absence of such a marking will be an indication that specification packaging, marking, and labeling is required. The same applies to packaging having capacities of more than 1 gallon which would not be subject to the specification packaging requirements if they are marked to indicate that the flash point is 73° F. or higher. Therefore, the petition for removal of the flash point marking requirement is hereby denied.

**Alcohol water solutions.** The Board has decided to make a declaration in the regulations that the flash point of dilute alcohol water solutions, containing no more than 24 percent alcohol by volume, are considered to have flash points of 100° F. or higher because the Board believes the combustible liquid classification is more appropriate for such materials (if they have a flash point below 200° F.). The declaration is applicable only when the remainder of the solution does not meet any definition of a hazardous material as defined in Title 49 CFR including those of a flammable or a combustible liquid. This decision is based in part on petitions for reconsideration received relative to wine and certain consumer commodities. The maximum alcohol content specified is based on the maximum alcohol content for wine as defined in 27 CFR 4.10 which is 24% by volume alcohol. Rather than restrict this revision to the wine industry, it has been expanded to include other alcohol water solutions.

**Exemption for alcoholic beverages.** A special provision for alcoholic beverages is included in this amendment to provide complete exemption from the Department's Hazardous Materials Regulations when they are shipped in containers having a rated capacity of one gallon or less. These beverages are restricted to those defined in 27 CFR 4.10 and 5.11 as wine and distilled spirits. Due to the controls exercised by the Department of the Treasury pertaining to these products, the Board believes that it is unnecessary,

from a transportation safety standpoint, to make them subject to the Department's regulations.

**Environmental impact.** Pursuant to the provisions of section 102(2)(c) of the National Environmental Policy (42 U.S.C. 4321 et seq.), the Board has considered the requirements of that Act concerning Environmental Impact Statements and has determined that this amendment would not have a significant impact upon the environment. Accordingly, an Environmental Impact Statement is not necessary and will not be issued with respect to this amendment.

For purposes of clarity, several editorial changes have been made to §§ 173.115 and 173.118, and the two sections are set forth in this amendment in their entirety.

In consideration of the foregoing, §§ 173.115 and 173.118 of Part 173 are revised to read as follows:

1. In Part 173 Table of Contents, the headings of Subpart C and § 173.115 are revised to read as follows:

Subpart C—Flammable, Combustible and Pyrophoric Liquids; Definitions and Preparation Sec. 173.115 Flammable, Combustible, and Pyrophoric Liquids; Definitions.

2. § 173.115 is revised to read as follows:

§ 173.115 Flammable, combustible, and pyrophoric liquids; definitions.

(a) Flammable liquid. (1) For the purposes of this subchapter, a flammable liquid means any liquid having a flash point below 100° F. (37.8° C.), with the following exceptions:

(i) Any liquid meeting one of the definitions specified in § 173.300;

(ii) Any mixture having one component or more with a flash point of 100° F. (37.8° C.) or higher, that makes up at least 99 per cent of the total volume of the mixture;

**NOTE 1:** A flammable liquid with a flash point of 73° F. or higher in packaging having a capacity of 110 gallons or less packaged prior to January 1, 1976, may be shipped and transported without being subject to any of the requirements of this subchapter applicable to flammable liquids until January 1, 1977.

(2) For the purposes of this subchapter, a distilled spirit of 140 proof or lower is considered to have a flash point no lower than 73° F.

(b) Combustible liquid. (1) For the purposes of this subchapter, a combustible liquid is defined as any liquid that does not meet the definition of any other classification specified in this subchapter and has a flash point at or above 100° F. (37.8° C.) and below 200° F. (93.3° C.) except any mixture having one component or more with a flash point at 200° F. (93.3° C.) or higher, that makes up at least 99 per cent of the total volume of the mixture.

(2) For the purposes of this subchapter, an aqueous solution containing 24 per cent or less alcohol by volume is considered to have a flash point no less than

100° F. (37.8° C.) if the remainder of the solution does not meet the definition of a hazardous material as defined in this subchapter.

(3) 200° F. (93.3° C.) is a limitation of the application of the regulations in this subchapter and should not be construed as indicating that liquids with higher flash points will not burn. Markings such as "NONFLAMMABLE" or "NONCOMBUSTIBLE" should not be used on a vehicle containing a material that has a flash point of 200° F. (93.3° C.) or higher.

(c) Pyrophoric liquids. (1) For the purposes of this subchapter, a pyrophoric liquid is any liquid that ignites spontaneously in dry or moist air at or below 130° F. (54.5° C.).

**NOTE 1:** The Bureau of Explosives is equipped to test samples of flammable liquids to determine whether or not they are pyrophoric.

(d) Flash point. (1) "Flash point" means the minimum temperature at which a liquid gives off vapor within a test vessel in sufficient concentration to form an ignitable mixture with air near the surface of the liquid and shall be determined as follows:

(i) For a homogeneous, single-phase, liquid having a viscosity less than 45 S.U.S. at 100° F. (37.8° C.) that does not form a surface film while under test, one of the following test procedures shall be used:

(A) Standard Method of Test for Flash Point by Tag Closed Tester, (ASTM D56-70);

(B) Standard Method of Test for Flash Point of Aviation Turbine Fuels by Setaflash Closed Tester, (ASTM D3243-73) or

(C) Standard Methods of Test for Flash Point of Liquids by Setaflash Closed Tester, (ASTM D3278-73).

(ii) For a liquid other than one meeting all of the criteria of subparagraph (d)(1)(i) of this paragraph, one of the following test procedures shall be used:

(A) Standard Method of Test for Flash Point by Pensky-Martens Closed Tester, (ASTM D93-71). Alternate tests authorized in this standard may be used.

(B) Standard Method of Test for Flash Point of Aviation Turbine Fuels by Setaflash Closed Tester, (ASTM D3243-73), or

(C) Standard Methods of Test for Flash Point of Liquids by Setaflash Closed Tester, (ASTM D3278-73).

(2) For a liquid that is a mixture of compounds that have different volatility and flash points, its flash point shall be determined as specified in paragraph (d)(1) of this section, on the material in the form in which it is to be shipped. If it is determined by this test that the flash point is higher than 20° F. (-6.67° C.) a second test shall be made on a sample of the liquid evaporated from an open beaker (or similar container), under ambient pressure and temperature (20 to 25° C.) conditions, to 90 percent of its original volume or for a period of 4 hours, whichever comes first. The lower

flash point of the two tests shall be the flash point of the material.

(3) For flash point determinations by Setaflash closed tester, the glass syringe specified need not be used as the method of measurement of the test sample if a minimum quantity of 2 milliliters is assured in the test cup.

(e) "S.U.S." means Saybolt Universal Seconds as determined by the Standard Method of Test for Saybolt Viscosity (ASTM D88-56) (reapproved 1968) and may be determined by use of the S.U.S. conversion tables specified in ASTM Method D2161-66 following determination of viscosity in accordance with the procedures specified in the Standard Method of Test for Viscosity of Transparent and Opaque Liquids (ASTM D445-65).

(f) Viscous liquids. Flammable liquids are described as viscous flammable liquids based on the viscosity as determined by one of the following methods:

(1) The viscosity of the liquids must be determined in a Stormer viscometer with an actuating weight of 400 grams and with the liquid maintained at a temperature of 28° C. The cylinder of the viscometer must be immersed in the liquid.

(2) For transparent liquids the sample may be tested in a vertical glass tube, 1-inch inside diameter by approximately 13 inches long, having two marks 10 inches apart engraved thereon, the lower mark being 2 inches above the bottom of the tube. The liquid to be tested shall be poured into the tube until its surface rises one-half inch above the upper mark and must be maintained at a temperature of 28° C. during the test; a polished steel ball one-fourth inch in diameter shall be supported one-half inch above the surface of the liquid at the center of the tube and dropped therein.

(3) When the speed of the cylinder in the first test does not exceed 10 revolutions per 13 seconds, or the time required in the second test for the steel ball to fall the vertical distance between the two lines upon the glass tube is not less than 4 seconds, the material is classed as "viscous."

(g) If experience or other data indicate that the hazard of a material is greater or less than indicated by the criteria specified in paragraphs (a), (b), and (c) of this section, the Department may revise its classification or make the material subject to the requirements of Parts 170-189 of this subchapter.

3. In § 173.118 paragraphs (a) and (b) are revised; paragraphs (c) and (d) are redesignated paragraphs (d) and (e) respectively; a new paragraph (c) is added to read as follows:

§ 173.118 Exemptions for flammable and combustible liquids.

(a) Flammable liquids, except those for which no exemptions are provided as indicated by the "No exemption" statement in § 172.5 of this subchapter are, unless otherwise provided, exempt from specification packaging, marking, and labeling requirements when packed in

accordance with one of the following subparagraphs of this paragraph except that marking name of contents on the outside container is required for shipments via carrier by water. Shipments for transportation by highway carriers are exempt also from Part 177 of this subchapter except § 177.817:

(1) In metal containers not over 1 quart capacity each, packed in strong outside containers,

(2) In containers having a capacity not over 1 pint or 16 ounces by weight each, packed in strong outside containers, or

(3) In inside containers having a rated capacity of one gallon or less when packed in strong outside containers. The provisions of this partial exemption apply only if the flash point of the material is 73° F. or higher and the flash point, or an indication that the flash point is 73° F. or higher is marked on the outside package.

(b) A flammable liquid having a flash point of 73° F. or higher is not subject to the specification packaging requirements of this Part when in a packaging having a capacity of 110 gallons or less. The provisions of this paragraph apply only if the flash point of the material, or an indication that its flash point is 73° F. or higher, is marked on the outside package.

(c) Alcoholic beverages (wine and distilled spirits as defined in 27 CFR 4.10 and 5.11) in containers having a rated capacity of one gallon or less are not subject to the requirements of this subchapter.

(d) Combustible liquids in portable tanks, cargo tanks, or tank cars are exempt from the requirements of this subchapter except those that pertain to:

(1) Shipping papers, waybills, switching orders or other billing,

(2) Marking of portable tanks,

(3) Marking or placarding rail cars and motor vehicles, and

(4) Reporting incidents as prescribed in §§ 171.15 and 171.16 of this subchapter.

(e) The requirements of this subchapter do not apply to combustible liquids in packaging having capacities of 110 gallons or less.

**Effective date:** This amendment is effective January 1, 1976. However, immediate compliance with the regulations, as amended herein, is authorized except as they pertain to the placarding of tank cars containing combustible liquids.

# Title 7—Agriculture

## CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 353]

### PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

#### Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period May 23-29, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

#### § 907.653 Navel Orange Regulation 353.

(a) Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges is declining. Prices f.o.b. averaged \$3.57 per carton on a reported sales volume of 862 cartons last week, compared with an average f.o.b. price of \$3.72 per carton and sales of 1,104 cartons a week earlier. Track and rolling supplies at 257 cars were down 145 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges

which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on May 20, 1975.

(b) Order. (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period May 23, 1975, through May 29, 1975, are hereby fixed as follows:

(i) District 1: 500,000 cartons;

(ii) District 2: Unlimited movement;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; (7 U.S.C. 601-674))

Dated: May 21, 1975.

CHARLES R. BRADER,  
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 75-13678 Filed 5-21-75; 12:17 pm]

[Valencia Orange Reg. 499]

### PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

#### Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period May 23-29,

1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

**§ 908.799 Valencia Orange Regulation 499.**

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges is fairly good for larger sizes. Prices f.o.b. averaged \$3.38 per carton on a reported sales volume of 655,000 cartons last week, compared with an average f.o.b. price of \$3.35 per carton and sales of 483,000 cartons a week earlier. Track and rolling supplies at 396 cars were up 52 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regula-

tion must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on May 20, 1975.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period May 23, 1975, through May 29, 1975, are hereby fixed as follows:

- (i) District 1: 210,000 cartons;
  - (ii) District 2: 345,000 cartons;
  - (iii) District 3: 195,000 cartons.
- (2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674))

Dated: May 21, 1975.

CHARLES R. BRADER,  
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 75-13677 Filed 5-21-75; 12:16 pm]

**CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE**

**PART 984—WALNUTS GROWN IN CALIFORNIA, OREGON, AND WASHINGTON**

**Amendment of Administrative Rules and Regulations**

Notice was published in the April 28, 1975, issue of the FEDERAL REGISTER (40 FR 18449) regarding a proposal to amend Subpart—Administrative Rules and Regulations (7 CFR 984.437-984.480; 40 FR 12481). The subpart is operative pursuant to the marketing agreement, as amended, and Order No. 984 (7 CFR Part

984; 39 FR 35377; 35999), regulating the handling of walnuts grown in California, Oregon, and Washington. The marketing agreement and order (hereinafter referred to collectively as the "order"), are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The amendment is based on a recommendation of the Walnut Marketing Board.

The notice afforded interested persons an opportunity to submit written data, views, or arguments on the proposal. None were received.

The order was amended October 1, 1974. The amendment, among other things, changed the Board's procedures for voting by mail and telegram, added provisions requiring handlers to report walnut receipts from growers, deleted provisions on reports of controlled walnuts, inshell volume regulation, and deferment of time in meeting a surplus obligation, and replaced setaside requirements for surplus walnuts with holding requirements. The amendment recognizes these changes in the order.

The amendment includes provisions designating the inspection services which can inspect walnuts under the order. The order provides that inspections shall be performed by the inspection service designated by the Board with the approval of the Secretary. The DFA of California, an association which serves dried fruit and tree nut processors in California, is designated as the inspection service for handlers in the State of California. For handlers in the States of Oregon and Washington, the designated inspection service is the Oregon State Department of Agriculture, Federal-State Shipping Point Inspection Service.

The amendment also changes some of the provisions in the subpart so they more accurately reflect current industry operating practices, and simplifies and reorganizes other provisions.

After consideration of all relevant matter presented, including that in the notice, the information and recommendation submitted by the Board, and other available information, it is found that the amendment of Subpart—Administrative Rules and Regulations (7 CFR 984.437-984.480; 40 FR 12481) will tend to effectuate the declared policy of the act. The amendment is the same as proposed in the April 28, 1975, issue of the FEDERAL REGISTER (40 FR 18449) except for one minor correction. In the first sentence of § 984.450(a), the word "shelled" is changed to "inshell".

It is further found that good cause exists for not postponing the effective time for this action until after June 23, 1975 (5 U.S.C. 553), and for making this action effective at the time hereinafter specified in that: (1) This action recognizes order changes effective October 1, 1974, and simplifies and reorganizes some of the provisions in the subpart; (2) this action facilitates operations under and administration of the order, and should be effective as soon as possible; (3) handlers have been aware of this action and need no additional time or

preliminary preparation to comply therewith; and (4) no useful purpose would be served by postponing the effective time of this action.

Therefore, Subpart—Administrative Rules and Regulations (7 CFR 984.437-984.480; 40 FR 12481) is amended as follows:

1. A new § 984.445 is added to read as follows:

**§ 984.445 Procedures for voting by mail or telegram.**

Whenever the Board votes upon any proposition by mail or telegram at least six members or alternates acting as members must vote and one dissenting vote shall prevent its adoption. Each proposition to be voted upon by either of these methods shall specify a time limit for members to vote, after which the alternates shall be given the opportunity to vote.

2. Section 984.450 is revised to read as follows:

**§ 984.450 Minimum kernel content requirements for surplus.**

(a) *For inshell walnuts.* Any lot of inshell walnuts withheld from handling to meet any part or all of a handler's surplus obligation shall have a certified kernelweight of not less than 10 percent of the inshell weight of the lot. No inshell lot may be exported unless it meets the minimum requirements for merchantable inshell walnuts effective pursuant to § 984.50(a).

(b) *For shelled walnuts.* Any lot of shelled walnuts withheld from handling to meet any part or all of a handler's surplus obligation shall have a certified kernelweight of kernels  $\frac{3}{4}$ 's of an inch or larger, of not less than 10 percent of the total weight of the lot. This minimum kernel size requirement shall not apply to any lot of walnut meal certified by the designated inspection service as having been derived from chopping, slicing, or dicing merchantable shelled walnuts. No shelled lot may be exported unless it meets the minimum requirements for merchantable shelled walnuts effective pursuant to § 984.50(b).

3. Section 984.451 is revised to read as follows:

**§ 984.451 Inspection and certification of inshell and shelled walnuts.**

(a) The inspection service for handlers in the State of California shall be the DFA of California. For handlers in the States of Oregon or Washington, the inspection service shall be the Oregon State Department of Agriculture, Federal-State Shipping Point Inspection Service.

(b) Inspection of all shelled walnuts shall be made on the premises of the handler prior to moving them to any other location.

(c) Each handler shall make each container of each lot of walnuts accessible for sampling and sealing or stamping in connection with the inspection and certification of any lot of inshell or shelled walnuts.

(d) Inshell and shelled walnuts for export pursuant to 984.56(b) shall be inspected and certified within 60 days of shipment from the handler's plant.

**§ 984.454 [Deleted]**

4. Section 984.454 is deleted.

5. Section 984.456 is revised to read as follows:

**§ 984.456 Designation of agents for export of surplus walnuts.**

Any handler may be designated an agent of the Board to export merchantable surplus walnuts upon execution of an "Export Agreement for Surplus Walnuts" furnished by the Board setting forth the terms and conditions for export sales.

6. A new § 984.458 is added to read as follows:

**§ 984.458 Transfer of excess surplus credits.**

Any handler who desires to transfer excess surplus credits to another handler shall submit a request to the Board for such transfer on WMB Form No. 17 signed by both handlers. The request shall show (1) the name of the handler requesting the transfer, (2) the name of the handler to whom the transfer is to be made, and (3) the quantity of credits to be transferred.

**§ 984.460 [Deleted]**

7. Section 984.460 is deleted.

**§ 984.461 [Deleted]**

8. Section 984.461 is deleted.

9. Section 984.462 is revised to read as follows:

**§ 984.462 Surplus pool.**

Each lot of surplus walnuts delivered to the Board for pooling and disposition shall be separately weighed by a public weighmaster either upon removal from the handler's premises or in transit to Board storage facilities or diversion point. A tare weight of one pound shall be used for bags and tare weights for other containers shall be actual weights. Such tare weights shall be used in determining net weight. A copy of each weighmaster certificate shall be forwarded to the Board by the handler.

**§ 984.464 [Amended]**

10. In paragraph (b) of § 984.464, "WCB" is deleted and "WMB" is inserted in lieu thereof.

11. Section 984.471 is revised to read as follows:

**§ 984.471 Reports of handler carryover.**

Reports of handler carryover as of August 1, January 1, and April 1 of each marketing year shall be submitted to the Board on WMB Form No. 4 for inshell walnuts and on WMB Form No. 5 for shelled walnuts, on or before August 15, January 15, and April 15 respectively, of that marketing year.

12. Section 984.472 is revised to read as follows:

**§ 984.472 Reports of merchantable walnuts handled.**

(a) *Inshell.* Reports of merchantable inshell walnuts handled during a month shall be submitted to the Board on WMB Form No. 6 not later than the 5th day of the following month. Such reports shall include all shipments during the preceding month and shall show (1) the quantity shipped, (2) whether they were shipped into domestic or export channels, and (3) for exports, the quantity by country of destination. If a handler makes no shipments during any month he shall submit a report marked "None". If a handler has completed his shipments for the season he shall mark the report "Completed" and he shall not be required to submit any additional WMB Form No. 6 reports during the remainder of that marketing year.

(b) *Shelled.* Reports of merchantable shelled walnuts handled during a month shall be submitted to the Board on WMB Form No. 9 not later than the 5th day of the following month. Such reports shall include all shipments during the preceding month and shall show (1) the quantity shipped and (2) whether they were shipped into domestic or export channels. If a handler makes no shipments during any month he shall submit a report marked "None". If a handler has completed his shipments for the season he shall mark the report "Completed" and he shall not be required to submit any additional WMB Form No. 9 reports during the remainder of that marketing year.

(c) *Reports of walnuts purchased from growers for manufacturing or for retail sale.* Reports of walnuts purchased directly from growers by handlers who are manufacturers or retailers shall be submitted to the Board on WMB Form No. 6 for inshell walnuts and on WMB Form No. 9 for shelled walnuts, not later than the 5th day of the month following the month in which the walnuts were purchased. Such reports shall show the quantity of walnuts purchased and the quantity inspected and certified as merchantable walnuts.

13. Section 984.473 is revised to read as follows:

**§ 984.473 Report of walnut receipts.**

Each handler shall file a report of his walnut receipts from growers on or before January 15 of each marketing year on forms supplied by the Board.

14. Section 984.474 is revised to read as follows:

**§ 984.474 Reports of shipment of walnuts between States of production.**

Any shipment of walnuts between the States of California, Oregon, and Washington for sale or delivery to a handler shall be reported to the Board on WMB Form No. 15 upon receipt by the receiving handler.

15. Section 984.476 is revised to read as follows:

**§ 984.476 Declaration of privilege.**

Declarations of intentions to handle shall be on WMB Form No. 10.

16. Section 984.480 is revised to read as follows:

**§ 984.480 Books and other records.**

Each handler shall maintain true and complete records of all inshell and shelled walnuts and walnut material, by categories, received, held, or disposed of by him. The records shall be maintained in such form as to permit verification of all transactions involved and shall be

made available during normal business hours to authorized representatives of the Board or the Secretary of Agriculture. These records shall include the following:

(a) The names and addresses of the persons from whom received, and the quantities received from each such person;

(b) The names and addresses of the persons to whom disposal is made, and the quantities disposed of to each such person;

(c) The quantities used by the handler for such purposes as manufacturing,

production of oil, and livestock feeding; and

(d) The quantities held on August 1, January 1, and April 1 of each marketing year.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated May 19, 1975, to become effective June 1, 1975.

CHARLES R. BRADER,  
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

## proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

### DEPARTMENT OF AGRICULTURE

#### Agricultural Marketing Service

#### [7 CFR Part 916]

#### HANDLING OF NECTARINES GROWN IN CALIFORNIA

#### Proposed Rulemaking With Respect to Container and Pack Regulations for Nectarines

This proposal would specify container and pack requirements applicable to fresh shipments of California nectarines effective June 30, 1975. The proposed regulation is designed to ensure shipment of containers of nectarines which are tightly packed and well-filled in accordance with the specifications of standard pack and to provide information to the trade by requiring that (1) the name of the variety, if known, or the words "unknown variety," if not known, be stamped on each container of nectarines, (2) the count of nectarines packed in molded forms in cartons, lug boxes, or flats and the size of nectarines loose-filled, loose-packed, or tight-filled in any container be stamped on each container, and (3) the specified net weights be stamped on standard lug boxes 22D and 22E of loose-filled or loose-packed nectarines. The proposed regulation contains the same container and pack requirements set forth in Amendment 3 of Nectarine Regulation 2, which is currently effective through June 29, 1975. The proposed regulation is consistent with the objective of the act of promoting orderly marketing and protecting the interest of consumers.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposal shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than June 13, 1975. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Notice is hereby given that the Department is considering a proposed Nectarine Regulation 3 setting forth container and pack requirements for California nectarines, pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 916, as amended (7 CFR Part 916), regulating the handling of nectarines grown in California. (This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The proposed regulation was recommended by the Nectarine

Administrative Committee, established under said amended marketing agreement and order as the agency to administer the terms and provisions thereof.

The proposal is as follows:

#### § 916.349 Nectarine Regulation 3.

Order. (a) On and after June 30, 1975, no handler shall handle any package or container of any variety of nectarines except in accordance with the following terms and conditions:

(1) Such nectarines, when packed in any closed container, shall conform to the requirements of standard pack.

(2) Each package or container of nectarines shall bear, on one outside end in plain sight and in plain letters, the name of the variety, if known or, when the variety is not known, the words "unknown variety."

(3) Each package or container of nectarines shall bear, on one outside end in plain sight and in plain letters, the following count or size description of the nectarines as applicable:

(i) The size of nectarines packed in molded forms (tray packs) in cartons, lug boxes, or flats shall be indicated in accordance with the number of nectarines in each container, such as "80 count," "88 count," etc.

(ii) The size of nectarines loose-filled, loose-packed, or tight-filled (not packed in rows) in No. 22D standard lug boxes shall be indicated according to the number of such nectarines when packed in molded forms in said boxes in accordance with the requirements of standard pack, such as "80 size," "88 size," etc.

(iii) The size of nectarines loose-filled, loose-packed, or tight-filled (not packed in rows) in any container, other than the No. 22D standard lug box, shall be indicated according to the number of such nectarines when packed in molded forms in a No. 22D standard lug box in accordance with the requirements of standard pack, such as "80 size," "88 size," etc.

(4) Each No. 22D standard lug box of loose-filled or loose-packed nectarines (not packed in rows) shall bear on one outside end, in plain sight and in plain letters, the words "25 pounds net weight."

(5) Each No. 22E standard lug box of loose-filled or loose-packed nectarines (not packed in rows) shall bear on one outside end, in plain sight and in plain letters, the words "35 pounds net weight."

(b) As used herein, "standard pack" shall have the same meaning as set forth in the U.S. Standards for Grades of Nectarines (§ 51.3145-51.3160 of this title); the terms "No. 22D standard lug box" and "No. 22E standard lug box" shall have the same meaning as set forth in

§ 1387.11 of the "Regulations of the California Department of Food and Agriculture"; and all other terms shall have the same meaning as when used in the marketing agreement and order.

Dated: May 19, 1975.

CHARLES R. BRADER,  
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 75-13492 Filed 5-21-75; 8:45 am]

#### Animal and Plant Health Inspection Service

#### [9 CFR Parts 331, 381]

#### MEAT AND POULTRY INSPECTION

#### Intended Designation of New York

Statement of considerations. A representative of the Governor of the State of New York has advised this Department that, effective July 15, 1975, the State of New York will no longer be in a position to continue administering the State meat and poultry inspection programs, with respect to establishments within the State at which cattle, sheep, swine, goats, equines, or poultry are slaughtered or their carcasses, or parts or products thereof, are prepared for use as human food, solely for distribution within such State, and with respect to intrastate operations and transactions concerning meat products and poultry products and articles and animals subject to the Acts, and persons, firms, and corporations engaged therein.

The Secretary heretofore determined that the State of New York had developed and activated requirements at least equal to the requirements under titles I and IV of the Federal Meat Inspection Act and sections 1-4, 6-10, and 12-22 of the Poultry Products Inspection Act. However, such provisions contemplate a continuous, ongoing program, and in view of the termination date now applicable to the New York program, notice is hereby given that unless the circumstances change, the Secretary of Agriculture intends to designate the said State under section 301(c)(3) of the Federal Meat Inspection Act and section 5(c)(3) of the Poultry Products Inspection Act, 30 days prior to July 15, 1975. It is further intended that effective July 15, 1975, upon the expiration of 30 days after such designation, the provisions of titles I and IV of the Federal Meat Inspection Act and sections 1-4, 6-10, 12-22 of the Poultry Products Inspection Act would apply to intrastate operations and transactions and person engaged therein, in said State, to the same extent and in the same manner

as if such operations and transactions were conducted in or for "commerce," within the meaning of the Acts and that any establishment in said State which conducts any slaughtering of livestock or poultry or processing of meat or poultry products as described above must have Federal inspection or cease its operations unless it qualifies for any exemption under section 23(a) or 301(c) of the Federal Meat Inspection Act or section 5 (c) (2) or 15 of the Poultry Products Inspection Act. The exemption provisions of these Acts are limited.

Necessary arrangements will be made for determining which establishments in this State are eligible for Federal inspection, for providing inspection at the eligible establishments, and for otherwise enforcing the applicable provisions of the Federal Acts with respect to intrastate activities in this state when the said provisions of the acts become effective.

Therefore, the operator of each such establishment in the State of New York who desires to continue such operations after designation of the State becomes effective should immediately communicate with the Regional Director specified below:

Dr. M. J. Hatter, Director, Northeastern Region for Meat and Poultry Inspection Program, Seventh Floor, 1421 Cherry Street, Philadelphia, Pennsylvania 19102, Telephone: Area Code (215) 597-4216.

Done at Washington, D.C., on: May 20, 1975.

F. J. MULHERN,  
Administrator, Animal and Plant  
Health Inspection Service.

#### Federal Crop Insurance Corporation [7 CFR Part 401]

##### SUGAR BEETS

#### Proposed Revisions Applicable in all States Except California

Pursuant to a Statement of Policy issued by the Secretary of Agriculture on July 20, 1971 (36 FR 13804), notice is hereby given that the Board of Directors of the Federal Crop Insurance Corporation is considering and tentatively approved at its meeting on May 15, 1975, an amendment to the Federal Crop Insurance Regulations for the 1969 and Succeeding Crop Years, as amended, (7 CFR 401.101 et seq.) to be effective beginning with the 1976 Crop Year, which would amend § 401.140 in its entirety, as follows:

§ 401.140 The sugar beet endorsement applicable in all States except California.

1. *Insured crop.* The crop insured shall be sugar beets grown under a contract with a processor for processing as sugar. Item 1 of the second sentence of subsection 2(c) of the policy shall not be applicable to sugar beets.

Insurance shall not attach or be considered to have attached to any acreage (1) excluded from the processor contract for, or during, the crop year, and (2) unless otherwise pro-

vided on the county actuarial table, planted to sugar beets the preceding crop year in Michigan, Minnesota, and Ohio, or the two preceding years in other states.

2. *Production guarantees.* The applicable production guarantees in tons per acre shall be those shown on the county actuarial table (hereinafter called "actuarial table") and are progressive as follows:

(1) *First Stage.*—From planting until July 1 or upon determination by the Corporation that the acreage was damaged prior to July 1 to the extent that growers in the area usually would not further care for the crop.

(2) *Second Stage.*—From July 1 until 15 percent of the per acre production guarantee for the third stage has been harvested.

(3) *Third Stage.*—After 15 percent of the per acre production guarantee for this stage has been harvested.

The stage of production applicable in any case shall not be determined to be the same for an entire insurance unit unless the entire unit meets the requirements for the same stage. When the entire unit does not meet the requirements for the same stage, the stages of production shall be determined for the various portions of the unit.

3. *Insurance period.* Insurance on any insured acreage shall attach at the time the sugar beets are planted and shall cease upon harvesting, but in no event shall insurance remain in effect later than the applicable date set forth below of the calendar year in which the sugar beets are normally harvested.

Michigan, Minnesota, Montana, and North Dakota.....	Nov. 10
Ohio.....	Nov. 25
All other States.....	Nov. 15

4. *Claim for loss.* (a) Any claim for loss on an insurance unit (hereinafter called "unit") must be submitted to the Corporation, on a form prescribed by the Corporation, no later than 60 days after the applicable calendar date for the end of the insurance period (see section 3 above). The Corporation reserves the right to provide additional time if it determines that circumstances beyond the control of either party prevent compliance with this provision.

(b) It is the responsibility of the insured to provide complete information of all production from the unit, to establish that the loss claimed was caused during the insurance period by one or more of the hazards insured against, and to furnish such other information about the loss as may be required by the Corporation.

(c) *Losses shall be determined separately for each unit.* The amount of loss with respect to any unit shall be determined by (1) multiplying the insured acreage of sugar beets on the unit by the applicable production guarantee per acre; which product shall be the production guarantee for the unit, (2) subtracting therefrom the total production to be counted for the unit, (3) multiplying the remainder by the applicable price for computing indemnities, and (4) multiplying the result obtained in (3) by the insured interest: *Provided,* That if for the unit the insured fails to report all of his interest or insurable acreage, the amount of loss shall be determined with respect to all of his interest and insurable acreage, but in such cases or otherwise, if the premium computed on the basis of the insurable acreage and interest exceeds the premium on the reported acreage and interest, or the acreage and interest when determined by the Corporation under section 3 of the policy, the amount of loss shall be reduced proportionately.

The total production to be counted for a unit shall be determined by the Corporation, and subject to provisions hereinafter, shall

include all harvested production and any appraisals made by the Corporation for unharvested or potential production, poor farming practices, uninsured causes of loss, or for acreage abandoned or put to another use without the consent of the Corporation: *Provided,* That for unharvested acreage or acreage not qualifying for the third stage production guarantee only the amount of appraised and harvested production in excess of the difference between the third stage production guarantee and the production guarantee applicable to such acreage shall be counted except that for acreage abandoned, put to another use without prior written consent of the Corporation, or damaged solely by an uninsured cause, not less than the applicable production guarantee shall be counted.

(d) Any harvested production of sugar beets shall be adjusted by the factor (rounded to three decimal places) obtained by dividing the average percentage of sugar in the sugar beets, as determined from individual tests made at the time of delivery to the processor, by the percentage of sugar shown on the actuarial table: *Provided,* however, That if individual tests of sugar content are not made by the processor at the time of delivery of the sugar beets, the factor to be used shall be 1.000: *Provided, further,* That for harvested sugar beets which are not acceptable under the contract with a processor due to an insurable cause of loss occurring within the insurance period, the Corporation will determine the production to count by dividing the value of the beets, as determined by the Corporation, by the value of undamaged beets containing the percentage of sugar shown on the actuarial table and multiplying the result obtained by the tons of beets harvested: *Provided, further,* That any Corporation appraisals in the preceding paragraph shall be the tons appraised with no adjustment for quality.

5. *Cancellation and termination for indebtedness dates.* For each year of the contract the cancellation date is the December 31 and the termination date for indebtedness the April 15 immediately preceding the beginning of the crop year.

6. *Annual premium.* If at any time the cumulative dollar amount of indemnities paid under this endorsement exceeds the cumulative premiums earned through the previous crop year, the premium discounts referred to in section 6(b) of the policy shall not thereafter be applicable until the cumulative earned premiums equal or exceed the cumulative indemnities.

7. *Meaning of terms.* (a) "Harvest" means the lifting and topping of the sugar beets for the purpose of delivery to a processor.

Since the Sugar Act of 1948, as amended, was discontinued effective for the 1975 Crop Year, it has become necessary for a complete revision of the sugar beet endorsement, currently in use, inasmuch as the present endorsement contains certain contractual provisions that are based on the sugar program as was administered under the now defunct Sugar Act of 1948, as amended, including the establishment of production and acreage records, which are now no longer available, and upon which coverage guarantees were previously based.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed amendment should send the same to Melvin R. Peterson, Manager, Federal Crop Insurance Corporation, Room 4096, South Building, U.S. Department of Agriculture, Washington, D.C. 20250. All written submissions must be delivered or postmarked no later than June 23, 1975

to be sure of consideration. All written submissions made pursuant to this notice will be available for public inspection at the Office of the Manager during regular business hours, 8:15 A.M. to 4:45 P.M., Monday through Friday (7 CFR 1.27(b)).

Dated: May 16, 1975.

[SEAL] PETER F. COLE,  
Secretary, Federal Crop  
Insurance Corporation.

#### DEPARTMENT OF TRANSPORTATION

##### Federal Aviation Administration

##### [14 CFR Part 21]

[Docket No. 14611; Notice 75-21]

#### STATUS OF FAA PILOTS AND APPLICANTS DURING FLIGHT TESTS

##### Proposed Rule Making

The Federal Aviation Administration is considering amending Part 21 of the Federal Aviation Regulations to clarify the status of FAA pilots and applicants during flight tests required for the certification of an aircraft.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue SW., Washington, D.C. 20591. All communications received on or before August 19, 1975, will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Section 1.1 defines "pilot in command" as the "pilot responsible for the operation and safety of an aircraft during flight time." The definition indicates those individuals upon whom the duties and obligations of a pilot in command, as required by the regulations, are imposed. The standard set forth in the definition involves a factual determination based on the circumstances of each flight. Even though that is the case, at times the definition has been improperly applied to FAA pilots performing official aircraft certification flight test duties aboard aircraft. In order to permit application of the definition properly and effectively, the status of the FAA pilot must be made unmistakably clear to all concerned.

With respect to the testing provided for in Part 21 of the Federal Aviation Regulations, there are numerous situations where an FAA pilot is aboard the aircraft as an observer. On other occa-

sions, the FAA pilot may be at the controls with the applicant or his representative, but the actual control of the aircraft and the inherent responsibility for the aircraft's safe operation lies with the applicant's pilot who should have the greatest experience with the aircraft being tested. Under these circumstances, the applicant, and not the FAA pilot, is in charge of the aircraft and is responsible for its safe operation. In the past, § 3.16-1(g) of the Civil Aeronautics Manual conveyed that information to the FAA pilot and the applicant. The FAA now believes that if that information is to be effectively conveyed to both the FAA pilot and the applicant it must be in a regulatory form.

The FAA recognizes that under certain circumstances, such as with single seat aircraft, the FAA pilot must have actual control and command of the aircraft being tested. Therefore, under the proposal, the FAA pilot may assume the position of pilot in command if a written agreement is made prior to flight between the FAA pilot and the applicant or the pilot provided by the applicant.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).)

#### § 21.37 Status of FAA pilots and applicants during flight tests.

In consideration of the foregoing, it is proposed to amend Part 21 of the Federal Aviation Regulations as follows:

1. By adding to the end of § 21.37 the phrase, "and to act as pilot in command during those flight tests."

2. By adding a new § 21.38 to read as follows:

#### § 21.38 Status of FAA pilots and applicants during flight tests.

(a) Except as provided in paragraph (b) of this section, an FAA pilot is not the pilot in command of an aircraft during any of the flight tests prescribed in this subchapter. The applicant or the pilot provided by the applicant under § 21.37 is responsible for the planning, scheduling, and location of all flight tests and is responsible for the operation and safety of the aircraft during those flight tests.

(b) An FAA pilot may act as pilot in command during a flight if a written agreement is made to that effect prior to that flight with the applicant or the pilot provided by the applicant.

Issued in Washington, D.C., on May 15, 1975.

J. A. FERRARESE,  
Acting Director,  
Flight Standards Service.  
[FR Doc.75-13407 Filed 5-21-75; 8:45 am]

#### [14 CFR Part 39]

[Docket No. 75-NW-14-AD]

#### BOEING MODEL 727 SERIES AIRPLANES Proposed Airworthiness Directive

Amendment 39-1456 (37 FR 11235),  
AD 72-12-1, as amended by Amendment

39-2026 (39 FR 41248), requires inspections of the main landing gear downlock torque shaft, P/N 65-23366, for cracks on Boeing Model 727 series airplanes. The AD requires the inspections at intervals not to exceed 1200 landings, either by the magnetic particle method or by the dye penetrant method with the shaft loaded. After issuing Amendment 39-2026, an operator discovered a failed torque shaft which had been magnetic inspected 417 landing cycles prior to failure. Therefore, the agency is considering further amending Amendment 39-1456, as amended, to require the inspections at more frequent intervals of 400 landings.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Department of Transportation, Federal Aviation Administration, Northwest Region, Attention: The Regional Counsel, Airworthiness Rules Docket, 9010 East Marginal Way South, Seattle, Washington 98108. All communications received on or before July 11, 1975, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

#### § 39.13 [Amended]

In consideration of the foregoing, it is proposed to amend § 39.13 of the Federal Aviation Regulations, Amendment 39-1456 (37 FR 11235) as amended by Amendment 39-2026 (39 FR 41248) as follows:

1. By striking out the words "900 landings" and "1200 landings" from Paragraph (a) and inserting the words "100 landings" and "400 landings", respectively, in place thereof.

2. By adding the following new paragraphs at the end of the AD:

"The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a) (1)."

"All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. The documents may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington."

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Seattle, Washington, May 14, 1975.

C. B. WALK, Jr.,  
Director Northwest Region.

## PROPOSED RULES

## [ 14 CFR Part 71 ]

[Airspace Docket No. 75-SW-26]

## CONTROL ZONE

## Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to change the effective times of the part-time control zone at Dallas, Tex. (Redbird Airport).

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before June 23, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

## § 71.171 [Amended]

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.171 (40 FR 441), the Dallas, Tex. (Redbird Airport), control zone is amended by deleting "This control zone is effective from 0600 to 2200 hours, local time, daily," and substituting therefor, "This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airmen's Information Manual."

This change will provide flexibility for more compatible hours of operation through the issuance of appropriate Notices to Airmen.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Fort Worth, Tx., on May 12, 1975.

ALBERT H. THURBURN,  
Acting Director, Southwest Region.  
[FR Doc.75-13410 Filed 5-21-75;8:45 am]

## [ 14 CFR Part 71 ]

[Airspace Docket No. 75-SW-25]

## TRANSITION AREA

## Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a 700-foot transition area at Many, La.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before June 23, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

## § 71.181 [Amended]

In § 71.181 (40 FR 441), the following transition area is added:

## MANY, LA.

That airspace extending from 700 feet above the surface within an 8.5-mile radius of the Hart Airport (latitude 31°32'43" N., longitude 93°29'15" W.) and within 3.5 miles each side of the 300° bearing from the NDB (latitude 31°34'18" N., longitude 93°32'29" W.) extending from the 8.5-mile-radius area to a point 12 miles west of the NDB.

The proposed transition area will provide controlled airspace for aircraft executing the proposed NDB RWY 11, Original, instrument approach procedure.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Fort Worth, Tx., on May 12, 1975.

ALBERT H. THURBURN,  
Acting Director, Southwest Region.  
[FR Doc.75-13409 Filed 5-21-75;8:45 am]

## [ 14 CFR Part 71 ]

[Airspace Docket No. 75-EA-37]

## TRANSITION AREA

## Proposed Alteration

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Gaithersburg, Md., Transition Area (40 FR 498).

A revision to the NDB Rwy 14 instrument approach procedure for Montgomery County Airpark, Gaithersburg, Md., requires alteration of the Gaithersburg, Md., transition area to provide the additional controlled airspace required to protect aircraft executing the procedure.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before June 30, 1975 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Gaithersburg, Maryland, proposes the airspace action hereinafter set forth:

## § 71.181 [Amended]

1. Amend § 71.181 of Part 71, Federal Aviation Regulations by deleting the description of the Gaithersburg, Md. Transition Area and by substituting the following in lieu thereof:

"That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of the center (39°09'54" N., 77°10'00" W.), of Montgomery County Airpark, Gaithersburg, Md.; within 5 miles each side of the Frederick, Md. VOR 178° radial, extending from the VOR to 13 miles south of the VOR; and within 4.5 miles south and 9.5 miles north of a 292° bearing from the Gaithersburg, Md. RBN (39°10'08" N., 77°09'42" W.), extending from the RBN to 18.5 miles west of the RBN."

(Sec. 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].)

Issued in Jamaica, N.Y., on May 7, 1975.

JAMES BISPO,  
Acting Director, Eastern Region.  
[FR Doc.75-13408 Filed 5-21-75;8:45 am]

## Hazardous Materials Regulations Board

## TANK CAR HEAD SHIELDS

## Notice of Proposed Rulemaking; Correction

On April 23, 1975, the Hazardous Materials Regulations Board published in the FEDERAL REGISTER (40 FR 17855) a notice that it is considering amending § 179.100-23 of Part 179 to allow a small opening on a head shield applied to DOT 112A and 114A tank cars built before September 1, 1974, to permit an existing hand brake bracket to pass through the head shield.

The second paragraph of the preambulatory text of that notice is amended to read as follows:

Except for the requirement that the hand brake bracket be mounted on a 3/4-inch thick steel pad that is continuously welded to the head of the tank shell, this proposed amendment was requested by the Project Review Committee of the Railway Progress Institute—Association of American Railroads

## PROPOSED RULES

Tank Car Research and Test Project. It would supplement the amendments proposed in the March 11, 1975 issue of the FEDERAL REGISTER (40 FR 11362).

Issued in Washington, D.C., on May 15, 1975.

## FM BROADCAST STATIONS; TABLE OF ASSIGNMENTS

## Order Extending Time for Filing Reply Comments; Berryville, Va., and Harpers Ferry, W. Va.

In the matter of the amendment of § 73.202(b), table of assignments, FM Broadcast Stations. (Berryville, Virginia and Harpers Ferry, West Virginia).

1. On February 18, 1975, the Commission adopted a notice of proposed rule making in the above-entitled proceeding. Publication was given in the FEDERAL

REGISTER on March 4, 1975, (40 FR 8965). The date for filing comments has expired and reply comments are presently due May 15, 1975.

2. On May 8, 1975, counsel for Elektra Broadcasting Corporations (one of the proponents in this proceeding) requested that the time for filing reply comments be extended to and including May 26, 1975. Counsel states that Elektra's consulting engineers need the additional time to study the engineering data submitted in this proceeding.

3. We are of the view that the public interest would be served by extending the time in this proceeding. Since May 26, is a holiday, it is ordered, that the date for filing reply comments is extended to and including May 27, 1975.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and §§ 0.281 and 1.46 of the Commission's rules.

Adopted: May 13, 1975.

Released: May 15, 1975.

#### ADVISORY PANEL ON MUSIC Meeting

Pursuant to Pub. L. 92-463, the Federal Advisory Committee Act, notice is hereby given that the Advisory Panel on Music has scheduled a meeting to be held on Tuesday, June 11, in Room 1408 at the Department of State, 2201 C Street NW, Washington, D.C. The meeting hours will be from 9:30 a.m. to 12:30 p.m. and from 2 p.m. to 5:30 p.m.

The sessions will be open to the public. The agenda is:

- (1) Review of recent overseas tours in the music field sponsored by the Department of State;
- (2) Evaluation of tapes and records of performing artists who are planning tours abroad, and other performers who wish to be considered as candidates for grants, sponsorship or other assistance in connection with overseas tours. In order to protect the reputations of the persons involved, the tapes and records will not be identified either to the panel members or to the general public during the meeting.

Members of the public in attendance who wish to comment on the agenda items may do so, subject to restrictions of time and direction of the Chair.

For the purpose of fulfilling building security requirements, it is requested that persons wishing to attend this open session advise the Executive Secretary, Beverly Gerstein, by telephone before June 6; the telephone number is (area code 202) 632-2846.

The meeting room has a seating capacity of 40, so the public will be admitted on a first-come, first-served basis.

Dated: May 15, 1975.

GUY E. CORIDEN,  
Director, Office of International  
Arts Affairs.

[CM-5/53]

#### OCEAN AFFAIRS ADVISORY COMMITTEE Meeting

The Marine Science Section of the Ocean Affairs Advisory Committee will meet on June 26, 1975, in conference room 6320 of the Department of State, 2201 C Street NW, Washington, D.C. at 9 a.m. Presentations will be made on activities pertaining to marine science at the March-May 1975 session of the Third U.N. Law of the Sea Conference, and to current problems facing the U.S. in the Intergovernmental Oceanographic Commission with particular reference to its Ninth Assembly, October 22-November 4, 1975, followed by a discussion. At or about 10:30 a.m. the meeting will continue not open to the public since the discussions will then be devoted to matters exempt from public disclosure under 5 USC 552 (b)(1) and the public interest requires that such discussions be withheld from disclosure. These discussions will be confined to classified documents and briefings on the Law of the Sea and Intergovernmental Oceanographic Commission activities.

The portion of the meeting from 9 a.m. to 10:30 a.m. will be open to the public to the extent of the seating capacity, and the public will be invited to participate in the discussions.

Dated: May 15, 1975.

WILLIAM L. SULLIVAN, Jr.,  
Coordinator of Oceans and  
Fisheries Affairs.

### DEPARTMENT OF JUSTICE

#### Antitrust Division

#### UNITED STATES V. KEWANE OIL CO.

##### Proposed Consent Judgment and Competitive Impact Statement

Notice is hereby given that a proposed consent Final Judgment as well as a Competitive Impact Statement have been filed in United States v. Kewanee Oil Company, Civil Action No. 72 Civ. 369, Southern District of New York. The Complaint in this action alleged that Kewanee Oil Company, during a period of shortage of nickel, required its customers to purchase other electroplating materials in order to obtain nickel.

The proposed Final Judgment enjoins the defendant from: selling or offering to sell nickel on the condition that a purchaser buy electroplating materials from defendant; allotting nickel to any person conditioned on such person's purchasing electroplating materials from defendant; or refusing to sell, or discriminating in price of nickel, conditioned on the fact that the purchaser will not agree to buy electroplating materials.

Written comments on the Judgment from the public are invited on or before July 21, 1975. Such comments and responses thereto will be published in the FEDERAL REGISTER and filed with the Court. Comments should be directed to Hugh P. Morrison, Jr., Chief, Special Trial Section, Antitrust Division, Department of Justice, Washington, D.C. 20530.

Dated: May 15, 1975.

THOMAS E. KAUPER,  
Assistant Attorney General,  
Antitrust Division.

UNITED STATES DISTRICT COURT  
SOUTHERN DISTRICT OF NEW YORK  
Stipulation

United States of America, plaintiff v. Kewanee Oil Company, defendant, Civil Action No. 72 Civ. 369, filed: May 15, 1975.

It is stipulated by and between the undersigned parties, by their respective attorneys, that:

1. A Final Judgment in the form hereto attached may be filed and entered by the

Court, upon the motion of either party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act (15 U.S.C. § 16), and without further notice to either party or other proceedings, provided that plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed Final Judgment by serving notice thereof on defendant and by filing that notice with the Court.

2. In the event plaintiff withdraws its consent or if the proposed Final Judgment is not entered pursuant to this stipulation, this stipulation shall be of no effect whatever and the making of this stipulation shall be without prejudice to plaintiff and defendant in this and any other proceeding.

Dated: May 15, 1975.

For the Plaintiff.

Thomas E. Kauper, Assistant Attorney General; William H. McManus, Baddia J. Rashid, and Charles F. B. McAleer, Attorneys, Department of Justice.

UNITED STATES DISTRICT COURT, SOUTHERN DISTRICT OF NEW YORK

#### FINAL JUDGMENT

United States of America, plaintiff v. Kewanee Oil Company, defendant, Civil Action No. 72 Civ. 369 filed: May 15, 1975.

Plaintiff, United States of America, having filed its complaint herein on January 26, 1972, and defendant, Kewanee Oil Company, having filed its answer thereto denying the substantive allegations thereof and the parties hereto, by their respective attorneys, having consented to the making and entry of this Final Judgment without trial or adjudication of any issue of fact or law herein, and without admission by any party in respect to any such issue;

NOW, THEREFORE, before the taking of any testimony and upon said consent of the parties hereto, it is hereby

ORDERED, ADJUDGED AND DECREED as follows:

I. This Court has jurisdiction of the subject matter hereof and the parties hereto. The complaint states claims against defendant upon which relief may be granted under Section 1 of the Act of Congress of July 2, 1890, entitled "An Act to protect trade and commerce against unlawful restraints and monopolies", commonly known as the Sherman Act, as amended, and under Section 3 of the Act of Congress of October 15, 1914, commonly known as the Clayton Act, as amended.

II. As used herein:

A. "Person" shall mean any individual, partnership, corporation, association or any other business or legal entity;

B. "Electroplating materials" shall mean chemicals and equipment for nickel electroplating processes, including but not limited to brighteners, alkaline cleaners, boric acid and other acids, salts and tanks;

C. "Nickel" shall mean electrolytic nickel, S.D. nickel, nickel anode bars, S.D. nickel chips and each of them.

III. The provisions of this Final Judgment applicable to the defendant shall also apply to each of its officers, agents, servants, employees and attorneys, and to all other persons in active concert or participation with any of them who receive actual notice of this Final Judgment by personal service or otherwise. The provisions of this Final Judgment shall not apply to sales of electroplating materials or nickel for use outside the United States except for sales of electroplating materials to or for the use of plaintiff or any instrumentality or agency thereof.

IV. Defendant is ordered and directed, within thirty (30) days after the date of this

Final Judgment, to advise in writing each of its nickel electroplating customers that this Final Judgment prohibits defendant from selling or offering to sell nickel on the condition or understanding that purchasers buy electroplating materials from defendant, and that this Final Judgment prohibits defendant from allocating nickel among its customers conditioned on their purchasing of electroplating materials from defendant.

V. Defendant is enjoined and restrained from directly or indirectly in any manner: A. Selling or offering to sell nickel on the condition, agreement or understanding that any purchaser buy electroplating materials from defendant;

B. Allocating the amount of nickel to any person conditioned on such person's purchasing of electroplating materials from defendant; provided, however, that nothing contained in this Final Judgment shall prevent defendant from allocating nickel on a fair and equitable basis;

C. Refusing to sell, or unlawfully discriminating in prices of nickel, conditioned on the fact the purchaser has or has not bought, is or is not buying, or will or will not agree to buy electroplating materials from defendant.

VI. For a period of six (6) years from the date of entry of this Final Judgment, the defendant is ordered to file with the plaintiff, on each anniversary date of this Final Judgment, a report setting forth the steps which it has taken during the prior year to advise the defendant's appropriate officers, directors, and employees of its and their obligations under this Final Judgment.

VII. For the purpose of determining or securing compliance with this Final Judgment, and subject to any legally recognized privilege, duly authorized representatives of the Department of Justice shall, upon written request of the Attorney General or the Assistant Attorney General in charge of the Antitrust Division, and on reasonable notice to defendant, made through its principal office, be permitted (1) access during office hours to all books, ledgers, accounts, correspondence, memoranda, and other records and documents in the possession or under the control of the defendant relating to any of the subject matters contained in this Final Judgment, and (2) subject to the reasonable convenience of defendant, and without restraint or interference from it to interview officers, or employees of the defendant who may have counsel present, regarding any such matters; and upon such request defendant shall submit such reports in writing to the Department of Justice with respect to any of the matters contained in this Final Judgment as may from time to time be requested. No information obtained by the means provided in this section VII shall be divulged by any representative of the Department of Justice to any person; other than a duly authorized representative of the Executive Branch of plaintiff, except in the course of legal proceedings to which the United States of America is a party for the purpose of securing compliance with this Final Judgment or as otherwise required by law.

VIII. Upon sixty (60) days' written notice to the Attorney General, the defendant may file a petition with this Court, at any time after ten years following entry of this Final Judgment, for abatement of the provisions in paragraph V herein. In any such proceeding, the burden shall be upon the defendant to establish that such provisions are no longer needed either to restore competition, or to remove the effects of the violations of law alleged in the Complaint, or to prevent their recurrence.

IX. Jurisdiction is retained for the purposes of enabling any of the parties to this

Final Judgment to apply to this Court at any time for such further orders and directions as may be necessary or appropriate for the construction or carrying out of this Final Judgment or for the modification of any of the provisions thereof, and for the enforcement of compliance therewith and the punishment of violations thereof.

X. The entry of this Final Judgment is in the public interest.

Dated:

United States District Judge.

UNITED STATES DISTRICT COURT  
SOUTHERN DISTRICT OF NEW YORK

United States of America, plaintiff v. Kewanee Oil Company, defendant, Civil Action No. 72 Civ. 369 Proposed Consent Decree: Competitive Impact Statement, filed: May 15, 1975.

Pursuant to section 2(b) of the Antitrust Procedures and Penalties Act (15 U.S.C. 16 (b)-(h)), the United States of America hereby files this Competitive Impact Statement relating to the proposed consent judgment submitted for entry in this civil antitrust proceeding.

Nature of case. On January 26, 1972, the Department of Justice filed a civil antitrust suit alleging that Kewanee Oil Company, of Bryn Mawr, Pa., during a period of shortage of nickel, required its customers to purchase other electroplating materials in order to obtain nickel, in violation of Section 1 of the Sherman Act and Section 3 of the Clayton Act. Kewanee Oil Company ("Kewanee"), a wholly owned subsidiary, is a distributor of primary nickel to the electroplating industry for the International Nickel Co., Inc. It is estimated that it sells annually approximately \$12,000,000 worth of nickel and \$6,000,000 worth of electroplating materials exclusive of tanks and other equipment.

The Industry. Nickel, a hard malleable metallic element, is nearly silver white, and capable of a high polish. Its strength and resistance to heat and corrosion give it wide usefulness as an alloy for both industrial and military application. One of the significant uses for nickel is the coating of metal objects by the electroplating process. In this process the object to be coated is immersed in a solution containing a salt of the metal to be plated onto such object. Nickel in various forms is also placed in the solution and a high amperage current is passed through the solution which removes metal ions from the nickel and carries them to the object to be plated and deposits them in the form of a coating. There is no practical substitute for nickel in the electroplating process. By the addition of so-called "brighteners" to the solution, the coated object is given a high polish without the necessity of buffing. Nickel used in the electroplating process is estimated to be valued in excess of \$50,000,000 in 1970.

Except for Canada and Russia, all of the world's industrial nations must import the vast bulk of their nickel requirements. In the past 30 years the United States has imported in excess of 90 percent of its total requirements of nickel from Canada. One of the aspects of this industry is that one company, The International Nickel Co. of Canada Ltd., (Inco, Ltd.) controls the production and distribution of nickel in the United States. Inco, Ltd. is a producing company with its principal place of business at Copper Cliff, Ontario, Canada. It mines nickel in Canada and arranges through its subsidiary International Nickel Co. Inc. ("Inco"), to have its nickel distributed and sold throughout the United States. Inco has no sales and distribution organization in the United States, but distributes and sells nickel through 10 American distributors. Five of these distributors

are engaged in the distribution and sale of nickel to the electroplating industry.

While 15 percent of the nickel used in the United States for electroplating is furnished by two Canadian companies and one American supplier, these companies do not have sufficient capacity to serve the entire industry during times of shortage. For all intents and purposes the hundreds of electroplating companies scattered throughout the United States must rely upon nickel produced by Inco's parents and distributed by Inco through its five distributors.

Because of periodic strikes at the mines owned by Inco, Ltd., there have been several severe shortages of nickel in this country. One of these strikes took place in 1965, and as a result of the shortage it created, Inco and its five distributors allocated nickel to their customers' previous purchases. This allocation lasted until the latter part of 1970. Because of this allocation program, a company engaged in electroplating could only look to its previous supplier of nickel in order to satisfy its demands.

**Restrictive practices alleged.** It is alleged that the defendant has used the shortage of nickel as leverage to tie-in sales of their other products, with special emphasis on the sale of so-called brighteners. The ability to tie other products to the sale of nickel carries over to periods of ample supply as the threat of future shortages forces customers to purchase brighteners and other electroplating materials only from their nickel distributor in order to obtain nickel from their distributor when the next period of short supply occurs. This restrains independent suppliers of these tied products from freely selling their product.

The development of brighteners (which are organic chemical compounds) has greatly simplified the electroplating process. Nickel plated materials are now removed from the plating bath in finished condition, whereas prior to the development of brighteners such products required polishing and buffing in order to be put into a final form. All of the Inco distributors (including Kewanee) who sell nickel to the electroplating industry have their own brighteners. Total industry sales of brighteners to the nickel electroplating industry are substantial and run into the millions of dollars. There are a number of manufacturers and sellers of brighteners to the nickel electroplating industry other than the distributors of nickel.

A tying arrangement is defined as an agreement by a party to sell one product but only on the condition that the buyer also purchase a different (or tied) product, or at least agrees that he will not purchase that product from any other supplier. The distributors of nickel taken together, or separately, possess the requisite economic power over the tying product nickel which is both a unique and desirable product. The leverage possessed by the distributors is quite pronounced in that, as a group, they distribute 85 percent of all of the nickel used by the electroplating industry in the United States. Individually, each distributor is in a dominant position both during normal periods of supply and during times of shortage. During times of shortage, an individual distributor will normally supply only a customer that has a history of purchases from him. As the nickel industry has a history of shortages the customer will usually only deal with one supplier during normal periods for fear of losing his allocation during periods of short supply. Thus the customer's free choice of a source of supply for the tied products is restrained.

It is apparent that each distributor possesses sufficient economic power over nickel

to its customers and that the amount of commerce involved in the tied products (viz, nickel brighteners and other electroplating materials) is substantial.

**Proposed judgment.** The proposed consent decree provides a combination of measures to dispel the anticompetitive effects alleged by the Complaint. Defendant is enjoined from: selling or offering to sell nickel on the condition that a purchaser buy electroplating materials from defendant; allotting the amount of nickel to any person conditioned on such person's purchasing of electroplating materials from defendant; or refusing to sell, or discriminating in prices of nickel, conditioned on the fact the purchaser has or has not bought, is or is not buying, or will or will not agree to buy electroplating materials from defendant. In addition, the defendant is ordered, within thirty (30) days after the date of the decree, to advise in writing each of its nickel electroplating customers the terms of the decree and for a period of six (6) years the defendant is ordered to file with the plaintiff, on each anniversary date of the decree, a report setting forth the steps which it has taken during the prior year to advise defendant's appropriate officers, directors and employees of its and their obligations under the decree. The decree also contains provisions for access by the Antitrust Division to records and documents of defendant and to officers and employees of defendant relating to any matters covered by the decree. Jurisdiction is retained by the Court to enable any party to apply to the Court for such further orders and directions as may be necessary for the construction or carrying out of the decree or for the modification of any provisions thereof. In addition, the defendant upon sixty (60) days written notice to the Attorney General, may file a petition with the Court, at any time after ten years following the entry of the decree, for abatement of the provisions of the decree.

**Alternative relief.** The prayer for relief in this case asks for injunctive relief against the defendant to prevent the defendant from engaging in "tie-in" practices as alleged in the Complaint. It is our belief that the provisions of the proposed consent decree encompass all of the relief requested in the Complaint except in one regard. The Complaint requested, and the plaintiff sought relief to the effect that the defendant be perpetually enjoined from engaging in the practices complained of. The defendant argued strongly during negotiations that the judgment should be limited to 10 years. The matter was compromised by section VIII which permits the defendant, after ten years, to make a showing to the satisfaction of the Court that the need for the judgment no longer exists.

**Private remedies.** Any potential private plaintiff who might have been damaged by the alleged violations will retain the same right to sue for monetary damages and any other legal and equitable remedies which they would have had, were the proposed consent decree not entered. However, this judgment may not be used as prima facie evidence in private litigation pursuant to section 5(a) of the Clayton Act, as amended, 15 U.S.C. 16(a).

**Modification of judgment.** The proposed Final Judgment is subject to a stipulation by and between the United States and the Defendant, which provides that the United States may withdraw its consent to the proposed Final Judgment at any time until the Court has found that entry of the proposed judgment is in the public interest. By its terms, the proposed judgment also provides for retention of jurisdiction of this action in order, among other things, to permit either of the parties thereto to apply

to the Court for such orders as may be necessary or appropriate for its modification.

This case is a companion case with U.S. v. M&T Chemicals (Civil Action No. 72 Civ. 368) and U.S. v. Udyllite Corporation (Civil Action No. 72 Civ. 370). The relief to be obtained in settlement of the M&T case is identical with the relief set forth in the Kewanee Judgment. Soon after the filing of these three cases the Department of Justice learned that the Federal Trade Commission on June 3, 1970, had entered a Consent Order against Udyllite's parent corporations, Occidental Petroleum Corporation and Hooker Chemical Corporation, requiring relief that was substantially identical to the relief requested by the Department of Justice in the case against Udyllite. Seeing no compelling need to have Udyllite under an Order by both the Federal Trade Commission and the Department of Justice covering the same matter, it is the intention of the Department of Justice to dismiss its pending suit against Udyllite. The attached letter of Counsel reflects the Department's intention to insure equal enforcement of the three Orders.

**Comments.** As provided by the Antitrust Procedures and Penalties Act, any persons wishing to comment on the proposed judgment may, for a 60-day period, submit written comments to Hugh P. Morrison, Esquire, United States Department of Justice, Antitrust Division, Washington, D.C. 20530. The Division will file with the Court and publish in the Federal Register such comments and its response thereto. The Department of Justice will evaluate any and all such comments and determine whether there is any reason for withdrawal of its consent to the proposed Final Judgment.

No materials and documents of the type described in Section (b) of the Antitrust Procedures and Penalties Act (15 U.S.C. 16(b)) were considered in formulating this proposed judgment.

Dated: May 15, 1975.

WILLIAM H. McMANUS,  
Attorney,  
Department of Justice.

MAY 8, 1975.

Re Letter of Understanding on Uniform Enforcement Policy of Final Judgments and Consent Order.

THOMAS E. KAUPER,  
Assistant Attorney General,  
Antitrust Division,  
U.S. Department of Justice,  
Washington, D.C. 20530

DEAR MR. KAUPER: This letter shall constitute a letter of understanding between Kewanee Oil Company and the United States Department of Justice respecting future enforcement of the Negotiated Final Judgments entered this date against M&T Chemicals, Inc. and Kewanee Oil Company, and the Federal Trade Commission's outstanding Consent Order entered June 3, 1970, against Occidental Petroleum Corporation and Hooker Chemical Corporation.

On January 26, 1972, the United States of America filed complaints in the Southern District of New York against M&T Chemicals, Inc. (Civil Action No. 72 Civ. 368), Kewanee Oil Company (Civil Action No. 72 Civ. 369) and the Udyllite Corporation, a subsidiary of Occidental Petroleum (Civil Action No. 72 Civ. 370), alleging illegal tying of nickel and electroplating materials. In order to avoid the expense of litigation regarding the various allegations made against it, Kewanee has consented this date to the entry of a Final Judgment in substantially identical terms to the Final Judgment to be entered against M&T Chemicals, Inc. The Department of Justice has stated, however, that

it intends to dismiss its suit against the Udyllite Corporation in light of an existing Federal Trade Commission Consent Order entered June 3, 1970, against Udyllite's parent corporation, Occidental Petroleum Corporation and Hooker Chemical Corporation.

It is our understanding as part of its even-handed enforcement policy, that should the Department of Justice determine to proceed against Kewanee Oil Company with respect to any matter related to the aforesaid Final Judgment, and if the Department has reason to believe that either M&T or Udyllite or both are engaged in the same or similar acts and practices, then the Department shall not proceed against Kewanee until it proceeds simultaneously against M&T and/or until the Department has called the alleged violations on the part of Occidental and Udyllite to the attention of the Federal Trade Commission and has given the Commission a reasonable opportunity to proceed against Occidental and Udyllite.

It is our further understanding that the Department agrees that a copy of this letter may be filed in the above-referred to proceeding against Kewanee Oil Company in the Southern District of New York and that the Department will promptly forward a copy of such letter to the Federal Trade Commission with the request that such letter be incorporated into the docket file of the Commission's proceeding against Occidental and Udyllite.

Sincerely yours,

KEWANEE OIL COMPANY,  
EBEN H. COCKLEY,  
Attorney.

[FR Doc.75-13384 Filed 5-21-75;8:45 am]

#### UNITED STATES v. M&T CHEMICALS, INC.

##### Proposed Consent Judgement and Competitive Impact Statement

Notice is hereby given that a proposed consent Final Judgment as well as a Competitive Impact Statement have been filed in United States v. M&T Chemicals, Inc., Civil Action No. 72 Civ. 368, Southern District of New York. The Complaint in this action alleged that M&T Chemicals, Inc., during a period of shortage of nickel, required its customers to purchase other electroplating materials in order to obtain nickel.

The proposed Final Judgment enjoins the defendant from: selling or offering to sell nickel on the condition that a purchaser buy electroplating materials from defendant; allotting nickel to any person conditioned on such person's purchasing electroplating materials from defendant; or refusing to sell, or discriminating in price of nickel, conditioned on the fact that the purchaser will not agree to buy electroplating materials.

Written comments on the Judgment from the public are invited on or before July 21, 1975. Such comments and responses thereto will be published in the Federal Register and filed with the Court. Comments should be directed to Hugh P. Morrison, Jr., Chief, Special Trial Section, Antitrust Division, Department of Justice, Washington, D.C. 20530.

Dated: May 15, 1975.

THOMAS E. KAUPER,  
Assistant Attorney General,  
Antitrust Division.

SOUTHERN DISTRICT OF NEW YORK

#### STIPULATION

United States of America, plaintiff, v. M&T Chemicals, Inc., defendant. Civil action No. 72 Civ. 368, filed: May 15, 1975.

It is stipulated by and between the undersigned parties, by their respective attorneys, that:

1. A Final Judgment in the form hereto attached may be filed and entered by the Court, upon the motion of either party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act (15 U.S.C. §16), and without further notice to either party or other proceedings, provided that plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed Final Judgment by serving notice thereof on defendant and by filing that notice with the Court.

2. In the event plaintiff withdraws its consent or if the proposed Final Judgment is not entered pursuant to this stipulation, this stipulation shall be of no effect whatever and the making of this stipulation shall be without prejudice to plaintiff and defendant in this and any other proceeding.

Dated: May 15, 1975.

For the Plaintiff: Thomas E. Kauper, Assistant Attorney General; William H. McManus, Baddia J. Rashid, Charles F. B. McAleer, Attorneys, Department of Justice.

For the Defendant M&T Chemicals, Inc.: J. Randolph Wilson, Covington & Burling.

UNITED STATES DISTRICT COURT  
SOUTHERN DISTRICT OF NEW YORK

#### Final Judgment

United States of America, plaintiff, v. M&T Chemicals, Inc., defendant. Civil action No. 72 Civ. 368, filed: May 15, 1975.

Plaintiff, United States of America, having filed its complaint herein on January 26, 1972, and defendant, M&T Chemicals, Inc., without admitting any violations of law as alleged in such complaint, and the parties hereto, by their respective attorneys, having consented to the making and entry of this Final Judgment without trial or adjudication of any issue of fact or law herein, and without admission by any party in respect to any such issue;

Now, Therefore, before the taking of any testimony and upon said consent of the parties hereto, it is hereby Ordered, Adjudged and Decreed as follows:

I. This Court has jurisdiction of the subject matter hereto and the parties hereto. The complaint states claims against defendant upon which relief may be granted under Section 1 of the Act of Congress of July 2, 1890, entitled "An Act to protect trade and commerce against unlawful restraints and monopolies", commonly known as the Sherman Act as amended, and under Section 3 of the Act of Congress of October 15, 1914, commonly known as the Clayton Act, as amended.

II. As used herein:  
A. "Person" shall mean any individual, partnership, corporation, association or any other business or legal entity;

B. "Electroplating materials" shall mean chemicals and equipment for nickel electroplating processes, including, but not limited to brighteners, alkaline cleaners, boric acid and other acids, salts and tanks;

C. "Nickel" shall mean electrolytic nickel, S. D. nickel, nickel anode bars, S. D. nickel chips and each of them.

III. The provisions of this Final Judgment applicable to the defendant shall also apply to each of its officers, agents, servants, employees and attorneys, and to all other persons in active concert or participation with any of them who receive actual notice of this

Final Judgment by personal service or otherwise. The provisions of this Final Judgment shall not apply to sales of electroplating materials or nickel for use outside the United States except for sales of electroplating materials to or for the use of plaintiff or any instrumentality or agency thereof.

IV. Defendant is ordered and directed, within thirty (30) days after the date of this Final Judgment, to advise in writing each of its nickel electroplating customers that this Final Judgment prohibits defendant from selling or offering to sell nickel on the condition or understanding that purchasers buy electroplating materials from defendant, and that this Final Judgment prohibits defendant from allocating nickel among its customers conditioned on their purchasing of electroplating materials from defendant.

V. Defendant is enjoined and restrained from directly or indirectly in any manner:  
A. Selling or offering to sell nickel on the condition, agreement or understanding that any purchaser buy electroplating materials from defendant;

B. Allocating the amount of nickel to any person conditioned on such person's purchasing of electroplating materials from defendant; provided, however, that nothing contained in this Final Judgment shall prevent defendant from allocating nickel on a fair and equitable basis;

C. Refusing to sell, or unlawfully discriminating in prices of nickel, conditioned on the fact the purchaser has or has not bought, is or is not buying, or will or will not agree to buy electroplating materials from defendant.

VI. For a period of six (6) years from the date of entry of this Final Judgment, the defendant is ordered to file with the plaintiff, on each anniversary date of this Final Judgment, a report setting forth the steps which it has taken during the prior year to advise the defendant's appropriate officers, directors, and employees of its and their obligations under this Final Judgment.

VII. For the purpose of determining or securing compliance with this Final Judgment, and subject to any legally recognized privilege, duly authorized representatives of the Department of Justice shall, upon written request of the Attorney General or the Assistant Attorney General in charge of the Antitrust Division, and on reasonable notice to defendant, made through its principal office, be permitted (1) access during office hours to all books, ledgers, accounts, correspondence, memoranda, and other records and documents in the possession or under the control of the defendant relating to any of the subject matters contained in this Final Judgment, and (2) subject to the reasonable convenience of defendant, and without restraint or interference from it to interview officers or employees of the defendant, who may have counsel present, regarding any such matters; and upon such request defendant shall submit such reports in writing to the Department of Justice with respect to any of the matters contained in this Final Judgment as may from time to time be requested. No information obtained by the means provided in this Section VII shall be divulged by any representative of the Department of Justice to any person, other than a duly authorized representative of the Executive Branch of plaintiff, except in the course of legal proceedings to which the United States of America is a party for the purpose of securing compliance with this Final Judgment or as otherwise required by law.

VIII. Upon sixty (60) days' written notice to the Attorney General, the defendant may file a petition with this Court, at any time after ten years following entry of this Final Judgment, for abatement of the provisions

In Paragraph V herein. In any such proceeding, the burden shall be upon the defendant to establish that such provisions are no longer needed either to restore competition, or to remove the effects of the violations of law alleged in the Complaint, or to prevent their recurrence.

IX. Jurisdiction is retained for the purposes of enabling any of the parties to this Final Judgment to apply to this Court at any time for such further orders and directions as may be necessary or appropriate for the construction or carrying out of this Final Judgment or for the modification of any of the provisions thereof, and for the enforcement of compliance therewith and the punishment of violations thereof.

X. The entry of this Final Judgment is in the public interest.

Dated: \_\_\_\_\_  
United States District Judge.

UNITED STATES DISTRICT COURT  
SOUTHERN DISTRICT OF NEW YORK

United States of America, plaintiff, v. M&T Chemicals, Inc., defendant. Civil action No. 72 Civ. 368 Proposed Consent Decree: Competitive Impact Statement. filed: May 15, 1975.

Pursuant to section 2(b) of the Antitrust Procedures and Penalties Act (15 U.S.C. 16 (b)-(h)), the United States of America hereby files this Competitive Impact Statement relating to the proposed consent judgment submitted for entry in this civil antitrust proceeding.

**Nature of case.** On January 26, 1972, the Department of Justice filed a civil antitrust suit alleging that M&T Chemicals, Inc., of New York, N.Y., during a period of shortage of nickel, required its customers to purchase other electroplating materials in order to obtain nickel, in violation of Section 1 of the Sherman Act and Section 3 of the Clayton Act. M&T Chemicals, Inc. ("M&T"), a wholly owned subsidiary of American Can Company, in addition to selling chemicals and certain basic metals, is also a distributor of primary nickel to the electroplating industry for the International Nickel Co., Inc. It is estimated that it sells annually approximately \$5,000,000 worth of nickel and \$2,500,000 worth of electroplating materials exclusive of tanks and other equipment.

**The industry.** Nickel, a hard malleable metallic element, is nearly silver white, and capable of a high polish. Its strength and resistance to heat and corrosion give it wide usefulness as an alloy for both industrial and military application. One of the significant uses for nickel is the coating of metal objects by the electroplating process. In this process the object to be coated is immersed in a solution containing a salt of the metal to be plated onto such object. Nickel in various forms is also placed in the solution and a high amperage current is passed through the solution which removes metal ions from the nickel and carries them to the object to be plated and deposits them in the form of a coating. There is no practical substitute for nickel in the electroplating process. By the addition of so-called "brighteners" to the solution, the coated object is given a high polish without the necessity of buffing. Nickel used in the electroplating process is estimated to be valued in excess of \$50,000,000 in 1970.

Except for Canada and Russia, all of the world's industrial nations must import the vast bulk of their nickel requirements. In the past 30 years the United States has imported in excess of 90 percent of its total requirements of nickel from Canada. One of the aspects of this industry is that one company, The International Nickel Co. of Canada Ltd. (Inco, Ltd.) controls the produc-

tion and distribution of nickel in the United States. Inco, Ltd. is a producing company with its principal place of business at Copper Cliff, Ontario, Canada. It mines nickel in Canada and arranges through its subsidiary International Nickel Co. Inc. ("Inco"), to have its nickel distributed and sold throughout the United States. Inco has no sales and distribution organization in the United States, but distributes and sells nickel through 10 American distributors. Five of these distributors are engaged in the distribution and sale of nickel to the electroplating industry.

While 15 percent of the nickel used in the United States for electroplating is furnished by two Canadian companies and one American supplier, these companies do not have sufficient capacity to serve the entire industry during times of shortage. For all intents and purposes the hundreds of electroplating companies scattered throughout the United States must rely upon nickel produced by Inco's parents and distributed by Inco through its five distributors.

Because of periodic strikes at the mines owned by Inco, Ltd., there have been several severe shortages of nickel in this country. One of these strikes took place in 1965, and as a result of the shortage it created, Inco and its five distributors allocated nickel to their customers, supposedly on the basis of the customers' previous purchases. This allocation lasted until the latter part of 1970. Because of this allocation program, which was based upon prior purchases, a company engaged in electroplating could only look to its previous supplier of nickel in order to satisfy its demands.

**Restrictive practices alleged.** It is alleged that the defendant has used the shortage of nickel as leverage to tie-in sales of their other products, with special emphasis on the sale of so-called brighteners. The ability to tie the other products to the sale of nickel carries over to periods of ample supply as the threat of future shortages forces customers to purchase brighteners and other electroplating materials only from their nickel distributor in order to obtain nickel from their distributor when the next period of short supply occurs. This restrains independent suppliers of these tied products from freely selling their product.

The development of brighteners (which are organic chemical compounds) has greatly simplified the electroplating process. Nickel plated materials are now removed from the plating bath in finished condition, whereas prior to the development of brighteners such products required polishing and buffing in order to be put into a final form. All of the Inco distributors (including M&T) who sell nickel to the electroplating industry have their own brighteners. Total industry sales of brighteners to the nickel electroplating industry are substantial and run into the millions of dollars. There are a number of manufacturers and sellers of brighteners to the nickel electroplating industry other than the distributors of nickel.

A tying arrangement is defined as an agreement by a party to sell one product but only on the condition that the buyer also purchase a different (or tied) product, or at least agrees that he will not purchase that product from any other supplier. The distributors of nickel taken together, or separately, possess the requisite economic power over the tying product nickel which is both a unique and desirable product. The leverage possessed by the distributors is quite pronounced in that, as a group, they distribute 85 percent of all of the nickel used by the electroplating industry in the United States. Individually, each distributor is in a dominant position both during normal pe-

riods of supply and during times of shortage. During times of shortage, an individual distributor will normally supply only a customer that has a history of purchases from him. As the nickel industry has a history of shortages the customer will usually only deal with one supplier during normal periods for fear of losing his allocation during periods of short supply. Thus the customer's free choice of a source of supply for the tied products is restrained.

It is apparent that each distributor possesses sufficient economic power over nickel sold to its customers and that the amount of commerce involved in the tied products (viz., nickel brighteners and other electroplating materials) is substantial.

**Proposed judgment.** The proposed consent decree provides a combination of measures to dispel the anticompetitive effects alleged by the Complaint. Defendant is enjoined from: selling or offering to sell nickel on the condition that a purchaser buy electroplating materials from defendant; allotting the amount of nickel to any person conditioned on such person's purchasing of electroplating materials from defendant; or refusing to sell, or discriminating in prices of nickel, conditioned on the fact the purchaser has or has not bought, is or is not buying, or will or will not agree to buy electroplating materials from defendant. In addition, the defendant is ordered, within thirty (30) days after the date of the decree, to advise in writing each of its nickel electroplating customers the terms of the decree and for a period of six (6) years the defendant is ordered to file with the plaintiff, on each anniversary date of the decree, a report setting forth the steps which it has taken during the prior year to advise defendant's appropriate officers, directors and employees of its and their obligations under the decree. The decree also contains provisions for access by the Antitrust Division to records and documents of defendant and to officers and employees of defendant relating to any matters covered by the decree. Jurisdiction is retained by the Court to enable any party to apply to the Court for such further orders and directions as may be necessary for the construction or carrying out of the decree or for the modification of any provisions thereof. In addition, the defendant upon sixty (60) days written notice to the Attorney General, may file a petition with the Court, at any time after ten years following the entry of the decree, for abatement of the provisions of the decree.

**Alternative relief.** The prayer for relief in this case asks for injunctive relief against the defendant to prevent the defendant from engaging in "tie-in" practices as alleged in the Complaint. It is our belief that the provisions of the proposed consent decree encompass all of the relief requested in the Complaint except in one regard. The Complaint requested, and the plaintiff sought relief to the effect that the defendant be perpetually enjoined from engaging in the practices complained of. The defendant argued strongly during negotiations that the judgment should be limited to 10 years. The matter was compromised by Section VIII which permits the defendant, after ten years, to make a showing to the satisfaction of the Court that the need for the judgment no longer exists.

**Private remedies.** Any potential private plaintiff who might have been damaged by the alleged violations will retain the same right to sue for monetary damages and any other legal and equitable remedies which they would have had, were the proposed consent decree not entered. However, this judgment may not be used as prima facie evidence in private litigation pursuant to section 5(a) of the Clayton Act, as amended, 15 U.S.C. 16(a).

**Modification of judgment.** The proposed Final Judgment is subject to a stipulation by and between the United States and the Defendant, which provides that the United States may withdraw its consent to the proposed Final Judgment at any time until the Court has found that entry of the proposed judgment is in the public interest. By its terms, the proposed judgment also provides for retention of jurisdiction of this action in order, among other things, to permit either of the parties thereto to apply to the Court for such orders as may be necessary or appropriate for its modification.

This case is a companion case with U.S. v. Kewanee Oil Company (Civil Action No. 72 Civ. 369) and U.S. v. Udyllite Corporation (Civil Action No. 72 Civ. 370). The relief to be obtained in settlement of the Kewanee Oil case is identical with the relief set forth in the M&T Judgment. Soon after the filing of these three cases the Department of Justice learned that the Federal Trade Commission on June 3, 1970, had entered a Consent Order against Udyllite's parent corporations, Occidental Petroleum Corporation and Hooker Chemical Corporation, requiring relief that was substantially identical to the relief requested by the Department of Justice in the case against Udyllite. Seeing no compelling need to have Udyllite under an Order by both the Federal Trade Commission and the Department of Justice covering the same matter, it is the intention of the Department of Justice to dismiss its pending suit against Udyllite. The attached letter of Counsel reflects the Department's intention to insure equal enforcement of the three Orders.

**Comments.** As provided by the Antitrust Procedures and Penalties Act, any persons wishing to comment on the proposed judgment may, for a 60-day period, submit written comments to Hugh P. Morrison, Esquire, United States Department of Justice, Antitrust Division, Washington, D.C. 20530. The Division will file with the Court and publish in the Federal Register such comments and its response thereto. The Department of Justice will evaluate any and all such comments and determine whether there is any reason for withdrawal of its consent to the proposed Final Judgment.

No materials and documents of the type described in section (b) of the Antitrust Procedures and Penalties Act, (15 U.S.C. 16(b)), were considered in formulating this proposed judgment.

Dated: May 15, 1975.

WILLIAM H. McMANUS,  
Attorney, Department of Justice.

APRIL 29, 1975.

Re: U.S. v. M&T Chemicals, Inc. (S.D.N.Y. Civil Action No. 72 Civ. 368): Letter of Understanding on Uniform Enforcement Policy of Final Judgments and Consent Order

THOMAS E. KAUPER, Esq.,  
Assistant Attorney General,  
Antitrust Division,  
United States Department of Justice,  
Washington, D.C. 20530.

DEAR MR. KAUPER: This letter shall constitute a letter of understanding between M&T Chemicals, Inc. and the United States Department of Justice respecting future enforcement of the Negotiated Final Judgments to be entered against M&T Chemicals, Inc. and Kewanee Oil Company, and the Federal Trade Commission's outstanding Consent Order entered June 3, 1970, against Occidental Petroleum Corporation and Hooker Chemical Corporation.

On January 26, 1972, the United States of America filed complaints in the Southern District of New York against M&T Chemicals,

Inc. (Civil Action No. 72 Civ. 368), Kewanee Oil Company (Civil Action No. 72 Civ. 369), and the Udyllite Corporation, a subsidiary of Occidental Petroleum (Civil Action No. 72 Civ. 370), alleging illegal tying of nickel and electroplating materials. In order to avoid the expense of litigation regarding the various allegations made against it, M&T has consented this date to the entry of a Final Judgment in substantially identical terms to the Final Judgment to be entered against Kewanee Oil Company. The Department of Justice has stated, however, that it intends to dismiss its suit against the Udyllite Corporation in light of an existing Federal Trade Commission Consent Order entered June 3, 1970, against Udyllite's parent corporation, Occidental Petroleum Corporation and Hooker Chemical Corporation.

It is our understanding, as part of its evenhanded enforcement policy, that should the Department of Justice determine to proceed against M&T Chemicals, Inc. with respect to any matter related to the aforesaid Final Judgment, and if the Department has reason to believe that either Kewanee or Udyllite or both are engaged in the same or similar acts and practices, then the Department shall not proceed against M&T until it proceeds simultaneously against Kewanee and/or until the Department has called the alleged violations on the part of Occidental and Udyllite to the attention of the Federal Trade Commission and has given the Commission a reasonable opportunity to proceed against Occidental and Udyllite.

It is our further understanding that the Department agrees that a copy of this letter may be filed in the above-referred to proceeding against M&T Chemicals, Inc. in the Southern District of New York and that the Department will promptly forward a copy of such letter to the Federal Trade Commission with the request that such letter be incorporated into the docket file of the Commission's proceeding against Occidental and Udyllite.

Sincerely yours,

J. RANDOLPH WILSON,  
Attorney for M&T  
Chemicals, Inc.

**Federal Bureau of Investigation  
NATIONAL CRIME INFORMATION CENTER  
(NCIC) MISSING PERSON FILE  
Establishing a Computerized Missing  
Person File**

Law enforcement has long recognized the need for a national computerized index on missing persons. Such an index would meet humanitarian and social, as well as law enforcement needs. At a February, 1974, meeting the NCIC Advisory Policy Board approved the establishment of a Missing Person File within the National Crime Information Center (NCIC).

The Missing Person File will provide law enforcement agencies with the capability of entering missing person records into the national NCIC computer and inquire against the resulting file with instantaneous response.

A record format for the Missing Person File, the criteria for entering, and procedures to administer such a computerized file have been developed. The format provides for the entry of descriptive information and unique numeric identifiers and specifically identifies the

individual as a missing person and not as a person for whom an arrest warrant is outstanding. This file will be separate and distinct from the NCIC Wanted Person File.

The criteria for entering a missing person record into the file will be:

1. A person of any age who is missing and who is under proven physical/mental disability or is senile, thereby subjecting himself or others to personal and immediate danger.
2. A person of any age who is missing under circumstances indicating that the disappearance was not voluntary.
3. A person of any age who is in the company of another person under circumstances indicating that his physical safety is in danger.
4. A person who is declared unemancipated as defined by the laws of his state of residence and does not meet any of the entry criteria set forth in 1, 2, or 3 above.

At the time of entering a missing person record into the file, it will be mandatory for the entering agency to have in its possession documentation (from a source other than the investigating police agency) supporting the stated conditions under which the person is declared missing under NCIC criteria. This documentation, which will be noted in the record, will be reassurance that the right to privacy of the individual will not be violated.

This file application is expected to become operational by October 1, 1975.

The establishment of this file has been approved by the Attorney General, U.S. Department of Justice.

Further information may be obtained from Mr. Frank B. Buell, Section Chief, National Crime Information Center, Federal Bureau of Investigation, Washington, D.C.

CLARENCE M. KELLEY,  
Director of the Federal  
Bureau of Investigation.

**DEPARTMENT OF THE INTERIOR  
Bureau of Land Management  
[S 1805]  
CALIFORNIA  
Order Providing for Opening of Public  
Lands**

MAY 13, 1975.

The order of the Acting Director, Geological Survey, of January 11, 1973, entitled "Power Site Cancellation 258 (38 FR 1289) having cancelled Power Site Classification 220 of May 13, 1929, and in accordance with the authority delegated to me by the State Director, California State Office, Bureau of Land Management, effective January 6, 1972 (37 FR 491) it is ordered as follows:

1. The following-described lands are hereby restored to disposition under applicable public land laws subject to valid existing rights.

MOUNT DIABLO MERIDIAN

 T. 5 N., R. 20 E.,  
 The area described aggregates about 24,650 acres.

The State of California has waived its preference right of application for highway right-of-way or material sites afforded it by section 24 of the Federal Power Act.

At 10 a.m. on May 23, 1975, the unappropriated, unreserved public lands shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals and classifications, and the requirements of applicable laws. The lands embraced in the forest shall be open to such disposition as may be made of national forest lands.

All the lands not otherwise withdrawn or reserved have been open to application and offers under the mineral leasing laws and to location under the U.S. mining laws subject to provisions of the Act of August 11, 1955 (69 Stat. 682; 30 U.S.C. 621).

Inquiries concerning these lands should be addressed to the Bureau of Land Management, Room E-2841, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

WALTER F. HOLMES,  
 Chief, Branch of Lands and Minerals Operations.

# ROCKY MOUNTAIN NATURAL GAS COMPANY, INC.

## Pipeline Application

MAY 13, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 U.S.C. 185), Rocky Mountain Natural Gas Company, Inc., P.O. Box 700, Glenwood Springs, Colorado 81601, has applied for a right-of-way for a 2 $\frac{3}{4}$  inch and a 4 $\frac{1}{2}$  inch natural gas pipeline totaling approximately two miles in length across the following lands:

SIXTH PRINCIPAL MERIDIAN, COLORADO

T. 8 S., R. 104 W.,

#### NEW MEXICO Application

MAY 16, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), Transwestern Pipeline Company has applied for a 4 inch natural gas pipeline right-of-way across the following land:

NEW MEXICO PRINCIPAL MERIDIAN,  
NEW MEXICO

T. 21 S., R. 27 E.,  
Sec. 2, lot 13;  
Sec. 3, lot 16, N $\frac{1}{2}$ SE $\frac{1}{4}$ .

This pipeline will convey natural gas across 41 miles of national resource land in Eddy County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, NM 88201.

RAUL E. MARTINEZ,  
Acting Chief, Branch  
of Lands and Minerals Operations.

#### NEW MEXICO Applications

MAY 15, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for six 4½ inch natural gas pipelines rights-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 29 N., R. 8 W.  
Sec. 1, S $\frac{1}{2}$ SE $\frac{1}{4}$ ;  
Sec. 9, W $\frac{1}{2}$ NW $\frac{1}{4}$ , SE $\frac{1}{4}$ NW $\frac{1}{4}$ ;  
Sec. 10, NE $\frac{1}{4}$ NW $\frac{1}{4}$ ;  
Sec. 12, NE $\frac{1}{4}$ NE $\frac{1}{4}$ ;  
Sec. 13, SE $\frac{1}{4}$ SW $\frac{1}{4}$ .

Sec. 22, S $\frac{1}{2}$ NW $\frac{1}{4}$ , NE $\frac{1}{4}$ NW $\frac{1}{4}$ ;  
Sec. 24, NE $\frac{1}{4}$ NW $\frac{1}{4}$ ;  
T. 30 N., R. 10 W.  
Sec. 14, lots 3 and 6.

These pipelines will convey natural gas across 1,416 miles of national resource lands in San Juan County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the applications should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, 3550 Pan American Freeway, NE, Albuquerque, NM 87107.

RAUL E. MARTINEZ,  
Acting Chief, Branch  
of Lands and Minerals Operations.

#### DEPARTMENT OF AGRICULTURE

##### Soil Conservation Service

##### DIAMOND BROOK WATERSHED PROJECT, MASSACHUSETTS

##### Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Diamond Brook Watershed Project, Norfolk County, Massachusetts USDA - SCS - EIS - WS - (ADM) - 75 - 01-(D)-MA.

The environmental impact statement concerns a plan for watershed protection, flood prevention, and improvement of fish and wildlife habitat. The planned works of improvement include conservation land treatment, supplemented by a multiple-purpose reservoir structure and channel work. The multiple-purpose structure will provide storage for floodwater to protect existing property and storage that will create a 17-acre pool for a warm water fishery and wetland wildlife. The channel work will involve installation of about 780 feet of floodwater conduit and enlargement of about 400 feet of existing channel to provide increased flow capacity for floodwater through an urban area. The floodwater conduit will parallel an existing conduit which now carries stream flows. In the channel work area, Diamond Brook is a perennial previously modified stream flowing through an urban area.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, 29 Cottage Street, Amherst, Massachusetts 01002

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local

agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Dr. Benjamin Isgur, State Conservationist, Soil Conservation Service, 29 Cottage Street, Amherst, Massachusetts 01002.

Comments must be received on or before July 11, 1975, in order to be considered in the preparation of the final environmental impact statement.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

Dated: May 13, 1975.

WILLIAM B. DAVEY,  
Deputy Administrator for Water  
Resources, Soil Conservation  
Service.

#### STUCKER FORK WATERSHED, INDIANA

##### Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; § 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and § 650.8(b) (3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Stucker Fork Watershed Project, Scott, Clark, Jefferson, and Washington Counties, Indiana.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Cletus J. Gillman, State Conservationist, Soil Conservation Service, USDA, 5610 Crawfordsville Road, Building 3, Indianapolis, Indiana 46224, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement as described in the negative declaration include conservation land treatment supplemented by two floodwater retarding structures.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA  
5610 Crawfordsville Road  
Indianapolis, Indiana 46224

Requests for single copies of the negative declaration should be sent to the above address.

No administrative action on implementation of the proposal will be taken until June 6, 1975.

##### Domestic and International Business Administration

##### BROOKHAVEN NATIONAL LABORATORY Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (40 FR 12253 et seq., 15 CFR 701, 1974).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00312-75-42800.  
Applicant: Brookhaven National Laboratory, Associated Universities, Inc., Upton, Long Island, New York 11973. Article: Electron Analyzing Magnet. Manufacturer: Voest, Austria. Intended use of article: The article is intended to be used in a research program of investigating the properties of atomic nuclei. The experiments to be conducted consist of irradiating targets of various elements in a beam of slow neutrons at the Brookhaven High Flux Beam Research Reactor and observing the electrons which are ejected after neutrons are captured by target nuclei.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The National Bureau of Standards (NBS) advised in its memorandum dated May 1, 1975 that the electron analyzing magnet as well as chemical composition within narrow limits for certain parts, as provided by the article, are pertinent to the applicant's research purposes. NBS also advises that it knows of no domestic supplier of materials of equivalent scientific value to the foreign materials for the applicant's intended use.

#### UPPER NANTICOKE RIVER WATERSHED, DELAWARE

##### Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; § 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and § 650.8(b) (3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Upper Nanticoke River Watershed project, Sussex County, Delaware.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Otis D. Fincher, State Conservationist, Soil Conservation Service, USDA, Treadway Towers, Suite 2-4, 9 East Lookerman Street, Dover, Delaware 19901, has determined that the preparation and review of an environmental impact statement is not needed for this work.

The project concerns a plan for watershed protection, flood prevention and agricultural water management. The remaining planned works of improvement as described in the negative declaration include conservation land treatment and multiple purpose channel work. The negative declaration discusses work on 9.2 miles of man-made ephemeral flow channel and 4.2 miles of man-made intermittent flow channel.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA  
Treadway Towers, Suite 2-4  
9 East Lookerman Street  
Dover, Delaware 19901

The negative declaration is available for single copy requests from the above address.

No administrative action on implementation of the proposal will be taken until June 6, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

Dated: May 12, 1975.

WILLIAM B. DAVEY,  
Deputy Administrator for Water  
Resources, Soil Conservation  
Service.

[FR Doc.75-13368 Filed 5-21-75; 8:45 am]

with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before June 11, 1975.

Amended regulations issued under cited Act, as published in the March 18, 1975 issue of the *FEDERAL REGISTER*, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket number: 75-00497-65-61195. Applicant: U.S. Department of Agriculture, Agricultural Research Service, Southern Regional Research Center, P.O. Box 19687, New Orleans, Louisiana 70179. Article: Model SW-2 Wrinklemeter. Manufacturer: Elma Electronics Instrumentation and Control Ltd., Israel. Intended use of article: The article is intended to be used for rating fabric appearance in all ranges of wrinkling which commonly result from laundering or wearing of textiles or after exposure to laboratory types of wrinkling devices. Application received by Commissioner of Customs: April 29, 1975.

Docket number: 75-00498-33-46500. Applicant: University of Pittsburgh, School of Medicine, The Montefiore Hospital, 3459 Fifth Avenue, Pittsburgh, PA 15213. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of the transport of macromolecules (tracers) across biological barriers in which normal and altered mammalian tissues, derived from animal experiments will be investigated. Ultra-histochemistry techniques will be employed. In particular, the identification of sites of enzymatic activity at the ultra-structural level. Another aspect of the research involves the transfer of large molecular weight materials across the cell membrane. Application received by Commissioner of Customs: April 29, 1975.

Docket number: 75-00499-33-46040. Applicant: Kentucky Department of Agriculture, Diagnostic Laboratory, North Drive, Hopkinsville, Kentucky 42240. Article: Electron Microscope, Model EM 9S-2. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used to determine the presence of viral particles in tissue fluids and tissue culture fluids and for the examination of fixed tissues in order to confirm or refute a viral diagnosis. Application received by Commissioner of Customs: April 29, 1975.

Docket number: 75-00500-33-77030. Applicant: Stanford University, 820 Quarry Road, Palo Alto, California 94304. Article: NMR Spectrometer, Model HX 360. Manufacturer: Spectrospin AG,

Switzerland. Intended use of article: The article is intended to be used in NMR studies to decipher in detail the structural rearrangement in the repressor protein, which underlies the mechanism of depression of a gene and thereby gain further insight into (a) the molecular mechanism of genetic control and (b) the mechanisms of protein folding. The article will also be used only for highly specialized training at the postdoctoral level as its requires a very high degree of expert knowledge and skill. Application received by Commissioner of Customs: April 29, 1975.

#### FLORIDA DEPARTMENT OF NATURAL RESOURCES

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (40 FR 12253 et seq., 15 CFR 701, 1974.)

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 75-00343-33-46040. Applicant: Florida Department of Natural Resources, Marine Research Laboratory, 100 Eighth Avenue SE, St. Petersburg, Florida 33701. Article: Electron Microscope, Model HS-9-1. Manufacturer: Hitachi Perkin-Elmer, Japan. Intended use of article: The article is intended to be used to investigate the ultrastructure of Florida's Red Tide organism, *Gymnodinium breve*, and the effects of the Red Tide toxin on tissues and blood of fishes and invertebrates. The fine structure investigation of *G. breve* will include field specimens of VS cultured specimens, light quality studies on cultured material, cells in log growth phase VS stationary growth phase, determine possibility of endosymbionts, and characterize amphiplexa.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (January 2, 1975). Reasons: The applicant requires an electron microscope which is suitable for use by relatively inexperienced operators for study of the "red tide" organism and its toxins. The foreign article is a relatively simple, easy to operate, electron micro-

scope providing only one accelerating voltage. It is designed for confident use by beginners with a minimum of detailed programming. It also provides low distortion micrographs at 500 to 100,000x plus 200x for scanning without a pole piece change, which permits scanning and photography at the lowest magnifications followed by immediate examination at the highest magnifications. The domestic instrument available at the time the article was ordered was the Model EMU-4C electron microscope supplied by the Adam David Company. The Model EMU-4C was a relatively complex instrument designed for the use of an experienced operator. The EMU-4C, with its standard pole piece, had a specified magnification range from 1,400 to 240,000x. For survey and scanning the lower end of this range could be reduced to 250 magnifications or less. But the continued reduction of magnification would induce an increasingly greater distortion. For highest quality, low magnification electron micrographs, from 500 to 70,000x, the EMU-4C's low magnification pole piece would have to be used. The Department of Health, Education, and Welfare advises in its memorandum dated April 4, 1975 that (1) Scanning and photography at lowest magnification followed immediately by examination and photography at the highest magnification as well as simplicity and ease of operation are pertinent to the applicant's intended use, (2) the EMU-4C does not have equivalent magnification range and is too complex for routine screening and teaching work and (3) the Model PA-1 of the Adam David Company was in development when the article was ordered. We, therefore, find that the Model EMU-4 was not of equivalent scientific value to the foreign article for such purposes as the article is intended to be used at the time the article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

#### MEDICAL COLLEGE OF WISCONSIN

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (40 FR 12253 et seq., 15 CFR 701, 1974.)

A copy of the record pertaining to this decision is available for public review

during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00368-83-25600. Applicant: Medical College of Wisconsin, Milwaukee County General Hospital, 8700 West Wisconsin Avenue, Milwaukee, Wisconsin 53226. Article: Short Circuit Current System. Manufacturer: Dipl. Ing. U. Gebhardt, West Germany. Intended use of article: The article is intended to be used to study ion and water transport by isolated mucosa of rat colon.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated April 22, 1975 that the foreign article's capability of applying a voltage or a current clamp to the biologic membranes is pertinent to the applicant's studies involving short circuited biologic membranes and electrical determination of ion and water flux through rat mucosa. HEW also advises that it knows of no domestic instrument of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

#### NASA—MOFFETT FIELD

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (40 FR 12253 et seq., 15 CFR 701, 1974.)

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 75-00248-01-07795. Applicant: National Aeronautics and Space Administration, Ames Research Center, Physical Gas-Dynamic and Lasers Branch, Mail Stop 230-3, Moffett Field, Calif. 94035. Article: Imacon Camera. Manufacturer: John Hadland Ltd., United Kingdom. Intended use of

article: The article is intended to be used for studies of the following: (a) The modes of disintegration of water droplets and ice crystals in the region behind a strong shock wave in air. (b) The mechanism of the various aspects of the fragmentation or disintegration process. (c) The time required to fragment water drops and ice crystals.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: This application is a resubmission of Docket Number 74-00337-10-07795 which was denied without prejudice to resubmission on August 20, 1974 for informational deficiencies. The foreign article provides the capability of taking at least six consecutive frames per run. The most closely comparable domestic instrument, the Quantad Model ID3-5-20, provides the capability for either three or five frames per run. The National Bureau of Standards (NBS) advises in its memorandum dated April 22, 1975 that a single camera capable of at least six consecutive frames per run is pertinent to the applicant's intended use. NBS also advises that it knows of no domestically available high-speed image converter camera or equivalent scientific value to the foreign article for the applicant's intended use. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

#### SUNY AT ALBANY

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (40 FR 12253 et seq., 15 CFR 701, 1974.)

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00261-01-46200. Applicant: State University of New York at Albany, Department of Chemistry, 1400 Washington Avenue, Albany, New York 12222. Article: #2 Pascall Mortar

and Pestle Mill-Porcelain Mortar Only. Manufacturer: Pascall Engineering Co. Ltd., United Kingdom. Intended use of article: The article is intended to be used to grind beef hearts to extract sub-mitochondrial particles from cell fragments.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The application relates to a compatible component for an instrument that had been previously imported for the use of the applicant institution. The article is being furnished by the manufacturer which produced the instrument with which the article is intended to be used and is pertinent to the applicant's purposes.

The Department of Commerce knows of no similar component being manufactured in the United States, which is interchangeable with or can be readily adapted to the instrument with which the foreign article is intended to be used.

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (40 FR 12253 et seq., 15 CFR 701, 1974.)

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 75-00298-98-41200. Applicant: Syracuse University, Purchasing Department, Skytop Offices, Syracuse, New York 13210. Article: Reflex Klystron. Manufacturer: Varian of Canada Ltd., Canada. Intended use of article: The article is intended to be used to permit extending the magnetic field and temperature domain in research in which electron spin resonance will be induced in silicon at cryogenic temperatures and at magnetic field of approximately 70 KOe. Other semiconductors such as germanium, III-V and II-VI compound semiconductors, will also be similarly investigated.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for

such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides a frequency coverage of 170 to 220 gigahertz at 10 milliwatts. The National Bureau of Standards (NBS) advises in its memorandum dated May 7, 1975 that the specification described above is pertinent to the applicant's intended purposes. NBS also advises that it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's intended uses.

#### UNIVERSITY OF ARIZONA COLLEGE OF MEDICINE, ET AL.

##### Consolidated Decision on Applications for Duty-Free Entry of Scientific Articles

The following is a consolidated decision on applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (40 FR 12253 et seq., 15 CFR 701, 1974).

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Decision: Applications denied. Applicants have failed to establish that instruments or apparatus of equivalent scientific value to the foreign articles, for such purposes as the foreign articles are intended to be used, are not being manufactured in the United States.

Reasons: Section 301.8 of the regulations provides in pertinent part:

The applicant shall on or before the 20th day following the date of such notice, inform the Deputy Assistant Secretary whether it intends to resubmit another application for the same article for the same intended purposes to which the denied application relates. The applicant shall then resubmit the new application on or before the 90th day following the date of the notice of denial without prejudice to resubmission, unless an extension of time is granted by the Deputy Assistant Secretary in writing prior to the expiration of the 90 day period. . . . If the applicant fails, within the applicable time periods specified above, to either (a) inform the Deputy Assistant Secretary whether it intends to resubmit another application for the same article to which the denial without prejudice to resubmission relates, or (b) resubmit the new application, the prior denial without prejudice to resubmission shall have the effect of a final decision by the Deputy Assistant Secretary on the application within the context of Subsection 301.11.

The meaning of the subsection is that should an applicant either fail to notify the Deputy Assistant Secretary of its intent to resubmit another application for the same article to which the denial without prejudice relates within the 20 day period, or fails to resubmit a new application within the 90 day period, the prior denial without prejudice to resubmission will have the effect of a final denial of the application.

None of the applicants to which this consolidated decision relates has satisfied the requirements set forth above, therefore, the prior denials without prejudice have the effect of a final decision denying their respective applications.

Section 301.8 further provides:

. . . the Deputy Assistant Secretary shall transmit a summary of the prior denial without prejudice to resubmission to the Federal Register for publication, to the Commissioner of Customs, and to the applicant.

Each of the prior denials without prejudice to resubmission to which this consolidated decision relates was based on the failure of the respective applicants to submit the required documentation, including a completely executed application form, in sufficient detail to allow the issue of "scientific equivalency" to be determined by the Deputy Assistant Secretary.

Docket number: 75-00236-33-46500. Applicant: University of Arizona College of Medicine, Arizona Medical Center, 1501 N. Campbell Avenue, Tucson, Arizona 85724. Article: Ultramicrotome, Model LKB 8800A. Date of denial without prejudice to resubmission: January 15, 1975.

Docket number: 75-00060-33-46500. Applicant: University of Colorado, School of Dentistry, 4200 East 9th Avenue, Denver, Colorado 80220. Article: Ultramicrotome, Model LKB 8800A. Date of denial without prejudice to resubmission: January 17, 1975.

Docket number: 75-00063-33-46500. Applicant: University of Wisconsin-Wausau Center, 2605 Marsh Lane, Madison, Wisconsin 53706. Article: Ultramicrotome, Model LKB 8800A. Date of denial without prejudice to resubmission: January 20, 1975.

Docket number: 75-00100-33-46500. Applicant: Cornell University Medical College, Department of Physiology, 1300 York Avenue, New York, N.Y. 10021. Article: Ultramicrotome, Model OM U2. Date of denial without prejudice to resubmission: January 20, 1975.

Docket number: 75-00115-33-46500. Applicant: University of North Carolina at Chapel Hill, School of Medicine, Chapel Hill, North Carolina 27514. Article: Ultramicrotome, Model OM U3. Date of denial without prejudice to resubmission: January 15, 1975.

Docket number: 75-00123-33-46070. Applicant: University of Nebraska Medical Center, Department of Dermatology, Conkling Hall, Room 4006, 42nd and Dewey Avenue, Omaha Nebraska 68105. Article: Mini Scanning Electron Microscope, Model MSM-5. Date of denial

without prejudice to resubmission: January 6, 1975.

##### Consolidated Decision on Applications for Duty-Free Entry of EMI Scanner Systems

The following is a consolidated decision on applications for duty-free entry of EMI Scanner Systems pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (40 FR 12253 et seq., 15 CFR 701, 1974). (See especially 4301.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 75-00325-33-90000.

Applicant: University of Cincinnati, Cincinnati General Hospital, 234 Goodman Street, Cincinnati, Ohio 45267. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used as a clinical, education, and research tool. Clinical utilization entails diagnostic evaluation of neurologic, otologic, and ophthalmologic disorders. The article will also be used in the study of cerebral trauma including an in-depth study of the problems of chronic subdural hematomas. In addition, post-traumatic hydrocephalus including its serial development and progression is to be evaluated. The article is to also be included in the curriculum of the teaching of neuro-diagnosis to Radiology, Neurology, and Neurosurgery residents, as well as medical students. Application received by Commissioner of Customs: January 20, 1975. Advice submitted by the Department of Health, Education, and Welfare on: April 22, 1975. Article ordered: November 21, 1974.

Docket number: 75-00326-33-90000. Applicant: Vanderbilt Hospital, 21st and Garland Avenues, Nashville, Tennessee 37232. Article: EMI Scanner System with Tape Storage Unit. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for the investigation of patients with symptoms suggesting cerebrovascular accidents, brain damage from other causes, intracranial tumors, intracranial abscesses, and other cerebral disorders. The results of these studies will be compared with conventional diagnostic studies, such as skull films, air and radiopaque contrast studies, and isotopic studies. Application received by Commissioner of Customs: January 20, 1975.

Docket number: 75-00347-99-90000. Applicant: St. Vincent's Medical Center, Barrs and St. Johns Avenue, Jacksonville, Florida 32204. Article: EMI Scanner System with Magnetic Tape Storage System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for the training of residents, student nurses and student radiologic technologists as well as for informing the medical community on the availability of the unit and its applications. Application received by Commissioner of Customs: January 29, 1975. Advice submitted by the Department of Health, Education, and Welfare on: April 22, 1975. Article ordered: December 31, 1974.

Docket number: 75-00372-33-90000. Applicant: Baptist Hospital, 1000 West Moreno Street, Pensacola, Florida 32501. Article: EMI Scanner System with Magnetic Tape Storage. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used to detect abnormalities in the brain

and adjacent structures. In addition, the article will be used to further complement the education program known as the Pensacola Educational Program. Application received by Commissioner of Customs: February 12, 1975. Advice submitted by the Department of Health, Education, and Welfare on: April 22, 1975. Article ordered: July 30, 1974.

Docket number: 75-00373-33-90000. Applicant: University of New Mexico, School of Medicine, Division of Neurosurgery, 915 Stanford Drive NE, Albuquerque, New Mexico 87131. Article: EMI Scanner System with Magnetic Tape Storage. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be an integral part of the investigation of brain pathology in the following research projects: (1) The investigation of a pleomorphic radiation on primary and secondary tumors of the brain. (2) The investigation of congenital abnormalities of the brain in an attempt to predict the prognosis of a case in relationship to the anatomy of the brain as seen on EMI scan and the influence of hydrocephalus on that outcome. (3) The investigation of cases of closed head injury with emphasis on the prognostic value of the EMI-Scan in regard to the long term neurological status of the patients. (4) Investigation of the blood-brain barrier systems in regard to contrast materials and modification of the barrier by various drugs. In addition, the article will be used to train residents in radiology and neurology in advanced techniques of neuroradiology.

Application received by Commissioner of Customs: February 12, 1975. Advice submitted by the Department of Health, Education, and Welfare on: April 22, 1975. Article ordered: October 4, 1974.

Comments: No comments have been received with respect to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for such purposes as these articles are intended to be used, was being manufactured in the United States at the time the articles were ordered. Reasons: Each foreign article is a newly developed system which is designed to provide precise transverse axial X-ray tomography. The Department of Health, Education, and Welfare (HEW) advised in its respectively cited memoranda that the sensitivity and the non-invasive methodology of each article are pertinent to the purposes for which each foreign article is intended to be used. HEW also advised that it knows of no domestic instrument of equivalent scientific value to any of the articles to which the foregoing applications relate for such purposes as these articles are intended to be used which was being manufactured in the United States at the time the articles were ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as

these articles are intended to be used, which was being manufactured in the United States at the time the articles were ordered.

#### UNIVERSITY OF ILLINOIS

##### Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (40 FR 12253 et seq., 15 CFR 701, 1974).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 75-00353-00-46040.

Applicant: University of Illinois, Urbana-Champaign Campus, Purchasing Division, 223 Administration Bldg., Urbana, Illinois 61801. Article: Wide Angle Tilt Rotation Goniometer Stage. Manufacturer: Hitachi Ltd., Japan. Intended use of article: The article is intended to be used for research on metals and alloys to learn more of the nature of martensitic phase transformations by using the electron microscope for both crystal structure and substructure analysis.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The application relates to a compatible accessory for an instrument that had been previously imported for the use of the applicant institution. The article is being furnished by the manufacturer which produced the instrument with which the article is intended to be used and is pertinent to the applicant's purposes.

The Department of Commerce knows of no similar accessory being manufactured in the United States, which is interchangeable with or can be readily adapted to the instrument with which the foreign article is intended to be used.

## UNIVERSITY OF ROCHESTER

## Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (40 FR 12253 et seq., 15 CFR 701, 1974.)

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00378-93-16295. Applicant: University of Rochester, Rochester, N.Y. 14627. Article: D-CDA Crystal. Manufacturer: Quantum Technology Ltd., Canada. Intended use of article: The article is intended to be used in the study of Dirac-Kapitza scattering to determine the dependence of the scattering probability on the intensity of electromagnetic field.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The article is capable of tuning to peak conversion efficiency and maintaining the correct temperature within narrow limits. The National Bureau of Standards (NBS) advises in its memorandum dated May 7, 1975 that the capability described above is pertinent to the applicant's intended purposes. NBS also advises that it knows of no domestically available crystal of equivalent scientific value to the foreign article for the applicant's intended use.

Maritime Administration  
[Docket No. 8-451]

LYKES BROS. STEAMSHIP CO., INC.  
Application

Notice is hereby given that Lykes Bros. Steamship Co., Inc., a Louisiana corporation, has filed an application dated December 2, 1974, and amended April 8, 1975 and May 6, 1975, with the Maritime Subsidy Board (Board) pursuant to Title VI (46 U.S.C. 1171-1183) of the Merchant Marine Act, 1936, as amended (the Act), for a twenty-year operating-differential subsidy contract for operation of services on Trade Route No. 21 (U.S. Gulf ports/United Kingdom and Continent), Trade Route No. 13 (U.S. South Atlantic and Gulf ports/Mediterranean and Black Sea), Trade Route No. 22 (U.S. Gulf

ports/Far East), Trade Route No. 15-B (U.S. Gulf ports/South and East Africa) and Trade Route No. 31 (U.S. Gulf ports/West Coast South America).

If this application is approved, the twenty-year agreement would succeed and become effective upon termination of the applicant's present subsidy agreement, Contract No. FMB-59, on December 31, 1977.

Lykes Bros. Steamship Co. is presently authorized to operate a fleet of 41 subsidized vessels, and until replaced as required by the United States, the fleet to be operated under a new contract would consist of the following 41 MA design cargo vessels—eight C3-S-37c, five C3-S-37d, twelve C4-S-66a, nine C5-S-37e, four C5-S-37f and three C8-S-82a.

The applicant has proposed certain substantive changes in the service description contained as of this date in its present operating-differential subsidy agreement, as follows:

(1) The addition to its Line B (Trade Route No. 21) Service of "U.S.S.R. ports east of the border with Finland in the Barents Sea";

(2) An increase in the permanent maximum on its Line D (Trade Route No. 22) Service from 60 to 84 sailings per annum (Lykes is presently authorized to make up to 84 sailings per annum under a temporary authorization);

(3) Elimination of the minimum and maximum requirements for service to Indonesia/Malaysia on Line D, thereby making possible service to that area on any or all Line D sailings;

(4) Addition of Brunei to the Line D service area;

(5) Addition of the Bahama Islands to the Line D and Line E (Trade Route 15-B) service areas; and

(6) Increase the aggregate maximum permissible number of sailings annually on all services from 246 to 276.

If the application is approved, the Lykes Bros. fleet of 41 vessels would operate in the services summarized generally as follows:

(1) Trade Route No. 21—a minimum of 24 and a maximum of 42 sailings per annum with Sea-Barge Carrier vessels, and up to 24 additional sailings per annum with conventional vessels (but up to a maximum of 84 sailings per annum with conventional vessels if Sea Barge Carriers are not employed in the service) between U.S. Gulf ports and ports in the United Kingdom and Continental Europe from the northern border of Portugal to the southern border of Denmark with permissive or privilege calls in Scandinavia and Baltic countries, at U.S.S.R. ports east of the border with Finland in the Barents Sea, and at ports on the East Coast of Mexico.

(2) Trade Route No. 13—a minimum of 42 and a maximum of 48 sailings per annum between U.S. Gulf and South Atlantic ports and ports in Portugal, Spain, Morocco and on the Mediterranean Sea, Aegean Sea, Adriatic Sea and other minor seas which are arms of the Mediterranean, with permissive calls in the Black Sea and privilege calls at the Azores and certain ports in the Caribbean, subject to the stipulation that a minimum of 16 outbound sailings per annum shall include a port or ports in the U.S. South Atlantic area.

(3) Trade Route No. 22—a minimum of 48 and a maximum of 84 sailings per annum between U.S. Gulf ports and ports in the Far East, Indonesia and Malaysia (including Singapore), with permissive calls at U.S.S.R. in Asia, Mainland China, Okinawa and up to 16 calls at U.S. Atlantic ports with certain cargoes from the Philippines, and privilege calls at Hawaii, Guam, Wake and Midway, Panama Canal Zone, East Coast of Mexico and West Indies;

(4) Trade Route No. 15-B—a minimum of 18 and a maximum of 24 sailings per annum between U.S. Gulf ports and ports in South and East Africa, with permissive calls at Malagasy Republic, and Trinidad and privilege calls at the islands of Ascension, St. Helena, Mauritius, Reunion, ports in the West Indies, Central America and the East Coast of Mexico.

(5) Trade Route No. 31—a minimum of 30 and a maximum of 36 sailings per annum between U.S. Gulf ports and ports on the West Coast of South America, with privilege calls at ports in Panama, Canal Zone, North Coast of Colombia and the East Coast of Mexico.

Interested parties may inspect the application in the Office of the Secretary, Maritime Subsidy Board, Room 3099-B, Department of Commerce Building, Fourteenth and E Streets, NW., Washington, D.C. 20230.

Any person, firm or corporation having an interest in such application who desires to offer views and comments thereon for consideration by the Maritime Subsidy Board should submit them in writing, in triplicate, to the Secretary, Maritime Subsidy Board, Washington, D.C. 20230, by the close of business on June 9, 1975.

The Maritime Subsidy Board will consider these views and comments, and take such action with respect thereto as may be deemed appropriate.

(Catalog of Federal Domestic Assistance Program No. 11.504, Operating-Differential Subsidies (ODS))

By Order of the Maritime Subsidy Board.

Dated: May 19, 1975.

JAMES S. DAWSON, Jr.,  
Secretary.

TUITION FEE FOR COLLISION AVOIDANCE  
RADAR TRAINING COURSE

Change of Procedures

Notice is hereby given that beginning July 1, 1975, the tuition fees that are assessed for the Collision Avoidance Radar courses offered at the Maritime Administration Radar Training Centers in New York, New Orleans, Toledo and San Francisco, will be increased as follows:

8- and 5-day Courses.....	\$90.00
3-day refresher Course.....	50.00
Recertification Exercise.....	20.00

Payment shall be to the registrar at the school attended in the form of a check or money order made payable to "Maritime Administration—Commerce" in the amount of the fee assessed for the course selected. Such receipts will be deposited in an appropriate account as general receipts of the Treasury of the United States.

Dated: May 16, 1975.

By Order of the Assistant Secretary of Commerce for Maritime Affairs.

JAMES S. DAWSON, Jr.,  
Secretary,  
Maritime Administration.

DEPARTMENT OF HEALTH,  
EDUCATION, AND WELFARE

Office of the Secretary  
PRESIDENT'S ADVISORY COMMITTEE  
ON REFUGEES

Meeting

Notice is hereby given, pursuant to Pub. L. 92-463, that the President's Advisory Committee on Refugees will hold a meeting on Friday, May 23, 1975, from 10 a.m. to 2 p.m. The meeting will be held in Room 4203, New Executive Office Building, 17th & Pennsylvania Ave., NW., Washington, D.C. 20503.

The meeting of the committee shall be open to the public. The proposed agenda includes the development of the formative activities for the operation of the committee.

Because of the necessity to commence the humanitarian activities of the committee as soon as possible, the usual requirement for advance notice of the committee's meeting has been waived.

Records shall be kept of all committee proceedings (and shall be available for public inspection at the Library of the Department of Health, Education, and Welfare, located in Room 1436, 30 Independence Ave., SW., Washington, D.C. 20201).

Dated: May 21, 1975.

WILLIAM S. BALLENGER,  
Assistant to the Secretary.

SOCIAL SECURITY BENEFIT INCREASES  
Cost-of-Living Increase in Benefits and  
Income Limitations

Pursuant to authority contained in section 215(i) of the Social Security Act (42 U.S.C. 415(i)), as amended by section 3 of Pub. L. 93-233, enacted December 31, 1973, and in section 1617 of the Social Security Act (42 U.S.C. 1382f), I hereby determine and announce a cost-of-living increase of 8.0 percent in benefits under the Social Security Act, title II effective June 1975 and title XVI effective July 1975; that the following revised

table of benefits is deemed to appear in section 215(a) of the Act; that, with respect to benefits for transitional insured persons aged 72 and over entitled under section 227 of the Act (42 U.S.C. 427) and for uninsured persons aged 72 and over entitled under section 228 of the Act (42 U.S.C. 428), the amounts \$69.60 and \$34.80 are established in lieu of the respective amounts of \$64.40 and \$32.20, that appear in sections 227 and 228 of the Act; that, regarding the additional amount of the supplemental security income benefit with respect to essential persons payable under section 211 of Pub. L. 93-66, as amended, the amount of \$946 is established in lieu of the amount of \$876 that appears in section 211(a)(1) (A) of that law; and that, with respect to income limitations under the program of supplemental security income for the aged, blind, and disabled, the amounts of \$1,892.40 and \$2,839.20 are established in lieu of the respective amounts of \$1,752 and \$2,628 that appear in sections 1611(a)(1)(A), 1611(a)(2)(A), 1611(b)(1), and 1611(b)(2) of the Act.

AUTOMATIC BENEFIT INCREASE  
DETERMINATION

Section 215(i) of the Social Security Act requires that, when certain conditions are met in the first calendar quarter of a year, the Secretary shall determine that a cost-of-living increase in benefits and income limitations is due. That section further specifies a formula which automatically determines the amount of any cost-of-living increase in benefits and income limitations, based on the Consumer Price Index reported by the Department of Labor.

Section 215(i)(2)(A) of the Act provides that the Secretary shall determine each year, beginning with 1975, whether there is a cost-of-living computation quarter in such year. If he so determines, such subsection also provides that he shall, effective with June of that year, increase benefits for individuals entitled under sections 227 and 228 of the Act, and that he shall increase the primary insurance amounts of all other individuals entitled to benefits under title II of the Act (excluding primary insurance amounts determined under section 215(a)(3)). The subsection further provides that the percentage of increase in benefits shall be equal to the percentage of increase by which the Consumer Price Index for the cost-of-living computation quarter exceeds the Index for the most recent prior base quarter or cost-of-living computation quarter.

Section 215(i)(1) of the Act defines a base quarter as a calendar quarter ending on March 31 in each year after 1974, or any other calendar quarter in which occurs the effective month of a general benefit increase. This subsection of the Act also defines a cost-of-living computation quarter as a base quarter in which the Consumer Price Index prepared by the Department of Labor exceeds by not less than 3 percent such Index in the last prior cost-of-living computation quarter or, if later, the most recent calendar quarter in which a general benefit increase was effective. This subsection of

the Act further provides that the Consumer Price Index for a base quarter or a cost-of-living computation quarter shall be the arithmetical mean of such Index for the 3 months in such quarter.

Under the provisions of the Act described above, the first possible cost-of-living computation quarter was the calendar quarter ending March 31, 1975. The Consumer Price Index prepared by the Department of Labor for each month in that quarter was: For January 1975, 156.1; for February 1975, 157.2; for March 1975, 157.8. The arithmetical mean for the calendar quarter ending March 31, 1975, is thus 157.0. This result is to be compared to the most recent calendar quarter in which a general benefit increase was effective. The most recent such quarter was the quarter ending June 30, 1974. (Pub. L. 93-233, enacted December 31, 1973, provided for a general benefit increase effective June 1974. See section 3(i) of Pub. L. 93-233 and section 215(i)(3) of the Social Security Act, as amended.) The Consumer Price Index prepared by the Department of Labor for each month in that quarter was: For April 1974, 143.9; for May 1974, 145.5; for June 1974, 146.9. The arithmetical mean for the calendar quarter ending June 30, 1974, is thus 145.4. Comparing this result to the arithmetical mean for the calendar quarter ending March 31, 1975, yields an increase of 8.0 percent. Thus, since the percentage of increase in the Consumer Price Index from the calendar quarter ending June 30, 1974, to the calendar quarter ending March 31, 1975, exceeds 3 percent, the quarter ending March 31, 1975, is a cost-of-living computation quarter. Consequently, a cost-of-living benefit increase of 8.0 percent is effective for benefits under title II of the Act for June 1975.

TITLE II BENEFITS

In accordance with section 215(i)(2)(D)(iv) of the Act, the primary insurance amounts and the maximum family benefits shown in columns IV and V, respectively, of the revised benefit table set forth in this announcement were obtained by increasing by 8.0 percent the corresponding amounts shown in the benefit table heretofore established by Pub. L. 93-233. (So much of the table as applies to average monthly wages of \$1,101 through \$1,175 does not appear in the table as amended by Pub. L. 93-233,

but results from the operation of section 215(i)(2)(D)(v), section 230 of the Social Security Act, as amended, and Pub. L. 93-233, particularly, section 3(i) of Pub. L. 93-233.) With respect to benefits for persons entitled under sections 227 and 228 of the Act, the amounts of \$64.40 and \$32.20 heretofore established, were increased by 8.0 percent to obtain the new amounts of \$69.60 and \$34.80, respectively. The table extensions referred to in section 215(i)(2)(D)(v) will be published concurrent with the publication of a contribution and benefit base determination pursuant to section 230(a).

TITLE XVI BENEFITS

Section 1617 of the Social Security Act provides that, whenever the benefits under title II are increased as a result of a determination made under section 215(i), the amounts in sections 1611(a)(1)(A), 1611(a)(2)(A), 1611(b)(1), and 1611(b)(2) of the Social Security Act and in section 211(a)(1)(A) of Pub. L. 93-66, shall be increased, effective with months after the month in which the title II increase is effective, and that such percentage of increase shall be the same as the percentage of increase by which the title II benefits are increased (and rounded, when not a multiple of \$1.20, to the next higher multiple of \$1.20).

In accordance with section 1617, benefit amounts under the program of supplemental security income for the aged, blind, and disabled and the maximum amounts of income, other than income excluded under section 1612(b), under the program of supplemental security income for the aged, blind, and disabled, of \$1,752 and \$2,628 heretofore established are increased effective July 1975, by 8.0 percent to obtain the new amounts of \$1,892.40 and \$2,839.20, respectively. With respect to the amount of the additional supplemental security income benefit with respect to essential persons payable under section 211(a)(1)(A) of Pub. L. 93-66, as amended, the amount of \$876 heretofore established is increased by 8.0 percent to obtain the new amount of \$946.

(Catalog of Federal Domestic Assistance Programs Nos. 13.802-5, and 13.807 Social Security Programs.)

Dated: May 14, 1975.

CASPAR W. WEINBERGER,  
Secretary.

TABLE FOR DETERMINING PRIMARY INSURANCE AMOUNT AND MAXIMUM FAMILY BENEFITS  
BEGINNING JUNE 1975

This Revised Table Was Made Pursuant to Section 215(i)(2)(D) of the Social Security Act, As Amended

I (Primary insurance benefit under 1939 Act, as modified)		II (Primary insurance amount effective for June 1974)		III (Average monthly wage)		IV (Primary insurance amount)	V (Maximum family benefits)
If an individual's primary insurance benefit (as deter- mined under subsec. (d)) is--		Or his primary insurance amount (as determined under subsec. (c)) is--		Or his average monthly wage (as determined under subsec. (b)) is--		The amount referred to in the preceding paragraphs of this subsection shall be--	And the maximum amount of benefits payable (as provided in sec. 203(a)) on the basis of his wages and self- employment income shall be--
At least--	But not more than--			At least--	But not more than--

TERMINAL INSTRUMENT PROCEDURES  
(TERPs) HELICOPTER WORKING GROUP  
Meeting

Notice is hereby given that the TERPs Helicopter Working Group will hold a meeting beginning at 9 a.m., Edt, June 11 and 12, in Room 7A, Federal Aviation Administration, 800 Independence Avenue SW, Washington, D.C. The following agenda item is scheduled for this meeting:

Discussion. Review of the obstacle clearance requirements applicable to helicopter instrument approach procedures presently specified in Chapter 11 of the TERPs Handbook.

All those interested in attending the meeting should contact Juan K. Croft, Chairman, TERPs Helicopter Working Group, Federal Aviation Administration, AFS-824, 800 Independence Avenue SW, Washington, D.C. 20591, telephone 202 426-8194. The meeting will be open to the public.

Issued in Washington, D.C. on May 15, 1975.

JAMES A. FORGAS,  
Chairman, U.S. Terminal Instru-  
ment Procedures (TERPs)  
Advisory Committee.

National Highway Traffic Safety  
AdministrationFAILURES OF POWER BRAKE VACUUM  
VALVES ON 1965-1971 GENERAL MO-  
TORS VEHICLES

## Public Proceeding

Pursuant to section 152 of the National Traffic and Motor Vehicle Safety Act of 1966 as amended (Public Law 93-492, 88 Stat. 1470; October 27, 1974; (15 U.S.C. 1412)), the Associate Administrator, Motor Vehicle Programs, has made an initial determination that a defect relating to motor vehicle safety exists with respect to failures of power brake vacuum check valves on certain 1965-1971 General Motors automobiles because such failures can result in loss of power brake assist, property damage or personal injury.

A public meeting will be held at 10 a.m., on June 24, 1975, in Room 5332, Department of Transportation Headquarters, 400 Seventh Street SW., Washington, D.C. 20590, at which General Motors Corporation will be afforded an opportunity to present data, views and arguments to establish that the alleged defect does not exist or does not affect motor vehicle safety.

Interested persons are invited to participate through written or oral presentations. Persons wishing to make oral presentations are requested to notify Mrs. Nancy Martus, Office of Defects Investigation, National Highway Traffic Safety Administration, Washington, D.C. 20590, Telephone (202) 426-2850, before the close of business on June 20, 1975. A transcript will be kept and exhibits may be accepted. There will be no cross examination of witnesses.

The agency's investigative file in this matter is available for public inspection during regular working hours (7:45 a.m.-4:15 p.m.) in the Technical Reference Division, Room 5108, 400 Seventh Street SW., Washington, D.C. 20590.

(Sec. 152, Pub. L. 93-492, 88 Stat. 1470 (15 U.S.C. 1412) delegations of authority at 49 CFR 1.51 and 49 CFR 501.8)

Issued on May 19, 1975.

ROBERT L. CARTER,  
Associate Administrator,  
Motor Vehicle Programs.

## CIVIL AERONAUTICS BOARD

[Docket 26993; Order 75-5-63]

## ALASKA AIRLINES, INC.

Fuel Surcharge Applicable to the Carriage  
of Intra-Alaska Mail; Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 16th day of May 1975.

By Order 74-12780, the Board proposed to amend Alaska Airlines, Inc. (Alaska) service mail rates to provide a fuel surcharge to the rates for its intra-Alaska operations, to be effective on and after December 20, 1974.

By petition filed August 30, 1974, Alaska had sought a surcharge effective September 1, 1974, but indicated that it did not desire to institute proceedings leading to a general examination of its service mail rates. In proposing a surcharge effective December 20, the Board found that Alaska's petition was procedurally defective in that it failed to challenge the carrier's entire mail rate, as required by Rule 303(b) of the Board's rules of practice (14 CFR Part 302), and, therefore, could not serve to open the carrier's service mail rate. The Board determined, however, to treat the petition as a request to institute a mail rate proceeding to establish a fuel surcharge on a prospective basis, and, as indicated, opened the carrier's intra-Alaskan service mail rates effective December 20.

Alaska and the Postal Service have filed timely objections and answers. Both parties object to application of the proposed surcharge on a prospective basis only and contend that the surcharge should apply on and after September 1, 1974, the day following Alaska's petition.

Alaska supports its objections on the basis that for the Board to deny its request for relief from substantially increased fuel costs effective September 1 solely on the grounds that its petition was rejectable pursuant to Rule 303(b) is an overly rigid interpretation of the rule. The carrier submits that the law is not so rigid that agency rules cannot be interpreted broadly, and argues that the present case is appropriate for a broad interpretation of Rule 303 because the only other affected party, the Postal Service, had answered in support of its petition. The carrier further argues, however, that Rule 303(b) does not in any event preclude establishment of the surcharge effective September 1.

The Postal Service's answer contends that the petition filed by Alaska fully meets the requirements of Rule 303, and that the Board has misinterpreted the requirements of Rule 303(b). It is the Postal Service's position that a carrier need only challenge the rate for the entire ratemaking unit, and need not challenge all the cost components underlying the rate.

Upon consideration of the answers filed herein, we come to the same conclusions as in Order 75-4-34, concerned with a similar surcharge to the intra-Alaskan mail rates of Reeve Aleutian Airways, namely, that pursuant to Rule 303, one element of cost cannot be examined without reference to the reasonableness of the entire rate. For that reason, in reopening Alaska's final mail rates in Order 74-12-80, we determined that the overall rate, including a prospective surcharge for increased fuel costs, would be reasonable. We still adhere to that view. However, since both the carrier and the ratepayer (i.e. the Postal Service) urge that any rate increase should be retroactive, and no other person is affected, we have reconsidered our disposition of the case. As we determined for Reeve in Order 75-4-34, Alaska's mail rate will be

considered open as of the date the Postal Service filed its answer in support. We therefore propose that the increased final mail rates for Alaska shall be effective September 6, 1974.

On February 24, 1975, Alaska filed a petition for adjustment of the fuel surcharge applicable to carriage of intra-Alaska mail to be effective January 1, 1975. Since the rates are open, we will treat this petition as a request for adjustment of the fuel surcharge proposed by the Board in Order 74-12-80.

In support of its petition Alaska states that its sole supplier of aviation fuel has imposed an increase in the price of jet fuel of approximately 20 percent, effective January 1, 1975. To measure the impact on intra-Alaska service mail rates for this fuel cost increase, the carrier used the same methodology presented in its original petition, but reflecting the fuel cost increase effective January 1, 1975. Based on these computations, Alaska seeks a fuel surcharge of 9.32 cents per great-circle mail ton-mile.

The U.S. Postal Service filed an answer on March 7, 1975, asserting that it believes the requested rate adjustment to be fair and reasonable and raises no objection.

However, the carrier bases its request for the fuel surcharge amendment on cost and operations during the month of January 1975 compared with the results for the base year (FY 1969) underlying its service mail rates. We do not believe that one month's operations, especially the month of January when the load factors are seasonally low, is representative of the annual revenue ton-mile cost impact for the January 1, 1975 fuel price increase. For this reason in computing the surcharge proposed below, we have used the same methodology as in Order 74-12-80, but substituted January 1, 1975 fuel prices. The computations are set forth in the attached Appendix. The impact of January 1 prices on the carrier's calendar-year 1974 intra-Alaska operations indicates a fuel surcharge requirement of 7.75 cents per ton-mile applicable to the carriage of intra-Alaska mail effective January 1, 1975. In our opinion, the fuel surcharge resulting from this computation is fair and reasonable and will not result in an overpayment to the carrier for the carriage of mail.

Therefore, we tentatively find and conclude that the fair and reasonable final rates of compensation to be paid by the Postmaster General to Alaska Airlines, Inc., for the transportation of mail by aircraft over its intra-Alaska routes, the facilities used and useful therefor, and the services connected therewith, are the rates established in Order 71-2-102, February 23, 1971, plus the following fuel surcharges per great-circle mail ton-mile:

<sup>1</sup> For fiscal year 1969, Alaska's reported results indicate total operating costs of 58.67 cents per revenue ton-mile. For the year ended September 30, 1974 these costs had risen approximately 29 percent to 75.44 cents per revenue ton-mile.

September 6, 1974 through December 31, 1974—4.68 cents  
On and after January 1, 1975—7.75 cents

Accordingly, pursuant to the Federal Aviation Act of 1958, particularly sections 204(a) and 406 thereof, and the regulations promulgated in 14 CFR Part 302; it is ordered, That: 1. All interested persons, and particularly Alaska Airlines, Inc., and the Postmaster General, are directed to show cause why the Board should not amend Order 71-2-102, February 23, 1971, so as to adopt the following service mail rates per great-circle mail ton-mile of: (a) priority mail \$1.3468 and nonpriority \$1.0966 effective from September 6, 1974 through December 31, 1974; (b) priority mail \$1.375 and nonpriority \$1.125 effective on and after January 1, 1975, subject to the terms and conditions as set forth in Order 71-2-102;

2. Further procedures shall be in accordance with the rules of practice, 14 CFR Part 302, and if there is any objection to the rates and charges or to the related findings and conclusions proposed herein, notice thereof shall be filed within 10 days, and if notice is filed, written answer and supporting documents shall be filed within 30 days after the date of service of this order;

3. If notice of objection is not filed within 10 days, or if notice is filed and answer is not filed within 30 days after service of this order, or if an answer timely filed raises no material issue of fact, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of an order fixing final service mail rates and the Board may enter an order incorporating the findings and conclusions proposed herein and fix and determine the rates herein specified;

4. If notice of objection and answer are filed presenting issues for hearing, issues going to the establishment of the fair and reasonable rates herein shall be limited to those specifically raised by such answers except as otherwise provided in 14 CFR 302.307; and

5. This order shall be served upon Alaska Airlines, Inc. and the Postmaster General.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,  
Secretary.

[Docket No. 28494; Agreement C.A.B. 24818 R-8, 24832 R-1 through R-19; Order 75-6-65]

#### INTERNATIONAL AIR TRANSPORT ASSOCIATION

##### Order Relating to Passenger Air Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 16th day of May, 1975.

By Orders 75-3-98 (March 26, 1975) and 75-3-100 (March 26, 1975), the

<sup>1</sup> Appendix filed as part of the original.

Board disapproved increases in all South Pacific passenger fares and all North/Central Pacific normal economy fares, proposed by the carrier members of the International Air Transport Association (IATA) for effect from April 1, 1975 through March 31, 1976. The South Pacific agreement had proposed a general increase of 13 percent while the North/Central Pacific agreement had proposed a general increase of eight percent. The Board's disapproval rested on the earnings positions of the U.S.-flag carriers.<sup>1</sup>

By petitions filed April 15, 1975, Pan American World Airways, Inc. (Pan American) urges the Board to reconsider its actions, and approve the fare increases as agreed to within IATA. Pan American asserts that resort to a 12 percent rate-of-return (ROI) standard, particularly as a maximum, is improper, since the Board has never made such a finding with respect to international services; that the particular exigencies and risks of international operations justify a higher return; that Pan American's historic South Pacific rate of return (year ended September 30, 1974) was only 2.47 percent; and that the Board should consider both the carrier's forecast and its most recent experience for an average over a reasonable period of time. Pan American contends that the Board's estimates of its return on both routes are overstated since they do not recognize cost escalations during the forecast year; that it is unreasonable to hold a carrier to a 12 percent return in each limited, geographical area; that Pan American will never achieve a reasonable rate of return on a system basis if the Board does not allow less profitable markets to be subsidized by the more profitable ones; and that the Board's criticisms of Pan American's capacity and load factors are unreasonable.

The Board has decided to deny Pan American's petitions. The South Pacific fare increases were disapproved on the basis that Pan American itself, the only U.S. carrier providing direct service on this route, forecast a 13.26 percent return on investment in scheduled passenger service alone at present fares, and data supplied by the carrier in support of previous fare and rate increases, as adjusted by the Board, reflected a return of over 14 percent in overall South Pacific operations.<sup>2</sup> Accordingly, the Board

<sup>1</sup> The Board approved increases in North/Central Pacific first-class normal fares and economy-class promotional fares. All Alaska-Pac East fares were disapproved on grounds that they were out of line with fares to competing markets.

<sup>2</sup> Under existing fares/rates, the Board found that Pan American would earn 11.8 percent in combination service and 41.2 percent in freighter service for an overall ROI of 14.5 percent. The five percent fare and rate increases proposed at that time were disapproved because approval would have resulted in returns of 13.9 percent (combination service), 47.3 percent (freighter service) and 17.0 percent (overall operations). See Order 74-12-23 dated December 6, 1974.

concluded that the proposed fare increase was not necessary to provide Pan American with overall earnings consistent with the Board's 12 percent return guideline.

In disposing of the North/Central Pacific agreement, the Board concluded that the carriers had apparently incurred cost increases which legitimately warranted some compensation by yield improvement, but that approval of the proposed fare increases in toto, would result in both U.S. carriers (Pan American and Northwest) earning in excess of the 12 percent return guideline. Accordingly, the Board was unable to conclude that approval of the proposed increase in normal economy fares was essential to the carriers' financial stability. Moreover, the proposed fare structure included several promotional fares which offered discounts from the normal economy fare in excess of 50 percent, and disapproval of the economy fares coupled with approval of the various promotional-fare increases substantially resolved this problem by reducing the spread between normal and discount fares. Pan American has presented no specific rebuttal to the Board's rationale.

Pan American rests its argument essentially on the allegation that the 12 percent rate of return standard found reasonable for domestic services after extensive formal investigation does not reflect the allegedly greater risks incurred in international operations, and should therefore not be applied. We recognize that the Board has not held formal proceedings directed specifically to the issue of rate of return from international services. However, this does not lead to the necessary conclusion that the domestic standard is inappropriate as an international guideline. Pan American suggests only that the return element should be higher; it offers no evidence that they incur a higher cost of capital than do the domestic carriers, and we have no independent indication that this is in fact the case. Nor does Pan American suggest other specific factors which would distinguish the two types of operations.

Pan American also contends that the Board should consider both the carrier's forecast and its most recent experience in evaluating its need for additional revenue. The Board relies, whenever possible, on historical results as a basis for carrier forecasts, and it permits inclusion of legitimate cost escalations experienced or contracted for since the end of the historical period.<sup>3</sup> In our opinion, it is inconsistent with the public interest, the establishment of a reasonable fare level and Board precedent to ask future passengers to compensate carriers for past losses. Finally, we are not persuaded that the Board should depart from its traditional approach of evaluating carrier earnings on a divisional basis. IATA has divided the world into seven confer-

<sup>3</sup> In the instant case, because of route realignments on the Pacific which are expected to provide Pan American with substantial benefits, it would be particularly inappropriate to use an averaging technique as Pan American suggests.

ence areas (and numerous sub-areas) for the purpose of setting fares and rates, and rate levels and structure vary from one area to another. We find nothing unreasonable in our treating the major IATA Conference areas as separate ratemaking entities for rate agreement evaluation purposes.

In summary, Pan American has not presented any facts which would convince the Board that it erred in disapproving these fare increases. Our actions were consistent with long-established policy regarding consideration of IATA agreements and supporting economic justification from the U.S. carriers, and nothing in Pan American's petition persuades us that those policies are unreasonable.

Accordingly, it is ordered, That: the petitions of Pan American World Airways, Inc., for reconsideration of Orders 75-3-98 and 75-3-100, be and hereby are denied.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND,  
Secretary.

#### COMMISSION ON CIVIL RIGHTS CALIFORNIA STATE ADVISORY COMMITTEE

##### Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a press conference of the California State Advisory Committee, SAC, to this Commission will convene at 10 a.m. on June 10, 1975, in the State Capitol Press Conference Room, First Floor, Sacramento, California 95814.

Persons wishing to attend this press conference should contact the Committee Chairperson, or the Western Regional Office of the Commission, Room 1015, 312 North Spring Street, Los Angeles, California 90012.

The purpose of this press conference is to release Asian American Report #2 entitled, "A Dream Unfulfilled: Korean and Filipino Health Professionals in California."

This meeting will be conducted pursuant to the rules and regulations of the Commission.

Dated at Washington, D.C., May 19, 1975.

ISAIAH T. CRESWELL, Jr.,  
Advisory Committee  
Management Officer.

[FR Doc. 75-13514 Filed 5-21-75; 8:45 am]

#### COLORADO STATE ADVISORY COMMITTEE

##### Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Colorado State Advisory Committee (SAC) to this Commission will convene at 8 a.m.,

June 14, 1975, and end at 1 p.m., in the Quality Inn Motel, Summit Room, 1840 Sherman Street, Denver, Colorado 80203.

Persons wishing to attend this meeting should contact the Committee Chairperson, or the Mountain States Regional Office of the Commission, Room 216, 1726 Champa Street, Denver, Colorado 80202.

The purpose of this meeting is to finalize plans for the report on the Committee's project, access to the medical and legal professions by minorities and women.

This meeting will be conducted pursuant to the rules and regulations of the Commission.

Dated at Washington, D.C., May 16, 1975.

ISAIAH T. CRESWELL, Jr.,  
Advisory Committee  
Management Officer.

# ENVIRONMENTAL PROTECTION AGENCY

[FRL 378-3, OPP-33000/257]

## RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

### Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the *Federal Register* (38 FR 31862) its interim policy with respect to the administration of section 3(c) (1) (D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the *Federal Register* a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street SW., Washington, D.C. 20460.

On or before July 21, 1975 any person who (a) is or has been an applicant, (b) believes that data be developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c) (1) (D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the *Federal Register* of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services

## NOTICES

Division (WH-569), Office of Pesticide Programs, 401 M Street SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after July 21, 1975.

Dated May 16, 1975.

JOHN B. RITCH, Jr.,  
Director,  
Registration Division.

#### WATER QUALITY PROGRAMS AND IMPLEMENTATION PLANS Final Agreement

An interagency agreement to coordinate areawide waste treatment management planning and comprehensive planning has been worked out between the Environmental Protection Agency and the Department of Housing and Urban Development. This agreement, presented below, defines the relationship between the Areawide Waste Treatment Management Planning Program authorized under Title II of the Federal Water Pollution Control Act Amendments of 1972 and the Comprehensive Planning Assistance Program of the Housing Act of 1954, as amended. It also sets forth coordination policies to be followed in those areas developing both areawide waste

treatment management plans and land use elements pursuant to the Comprehensive Planning Assistance Program. The agreement is effective on signature of the parties.

MAY 16, 1975.

RUSSELL E. TRAIN,  
Administrator.

#### INTERAGENCY AGREEMENT BETWEEN THE DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT AND THE ENVIRONMENTAL PROTECTION AGENCY

## I. PURPOSE

This Interagency Agreement has been developed in recognition of the need to: (1) rationalize the planning assistance activities of the two signatory agencies in accordance with the Administration's objectives; (2) encourage interagency coordination of planning activities within and among the state, regional, and local levels of government; (3) secure agreement on coordination of implementation programs which affect the planning programs identified below; and (4) ensure that land use planning undertaken for water quality purposes is developed within the broader framework of comprehensive planning.

## II. PROGRAMS INVOLVED

The following programs are involved:

Comprehensive Planning Assistance (701) Program of the Housing Act of 1954, as amended  
Areawide Waste Treatment Management Planning Assistance Program (208) of the Federal Water Pollution Control Act Amendments of 1972

## III. PROVISIONS

1. To the extent that resources are available, the HUD 701 land use element shall provide basic land use planning including: (1) long and short term policies with regard to where growth should and should not take place; (2) the type, intensity and timing of growth; (3) studies, criteria, standards, and implementing procedures necessary for effectively guiding and controlling major decisions as to where growth shall and shall not take place.

To the extent that resources are available, land use evaluation under section 208 shall be directed to: (1) determining the most efficient design of treatment systems consistent with the basic land use plan; and (2) analyzing land use-water quality relationships to determine what modifications should be made to the basic land use plan for the purpose of controlling or managing point and nonpoint sources of pollution.

2. Pursuant to provision (1) above:  
A. Performance criteria will be developed relating and ensuring consistency between the HUD land use element and the land use-related provisions of the 208 plan. The performance criteria will include the land use outputs required for both programs.

B. Directives will be issued to the HUD and EPA regional and HUD area offices which will provide guidance with respect to land use-related planning and evaluation activities that may be supported by each agency and the allowable funding levels for such activities. The specific amount for the land use planning and evaluation activities of each individual grant will be based on the allowable land use costs under each planning program and on work program(s) developed by the planning agency(s).

3. In those geographic areas where both a 701 land use element and a 208 areawide waste treatment management plan will be developed, planning agencies will demon-

## NOTICES

22303

strate in their work programs how activities under both the 701 and 208 programs will be coordinated so as to ensure that: (1) there is no duplication of effort; (2) completed plans will be consistent; and (3) the objectives of both programs will be achieved.

4. Promptly upon submission for approval by a grantee of an areawide or comprehensive plan, each signatory agency will make available to the other a copy of the submitted plan (or of the land use element or provisions thereof) for review and written comment pursuant to this agreement. Written comments, if any, will be submitted within 45 days. No plan will be approved unless such opportunity for review is granted to the other agency.

5. Each signatory agency will take action including issuance of guidelines to assure that coordinated land use planning requirements will also be effected, to the extent possible, for planning which is already underway.

6. In designated 208 areas, EPA will encourage, wherever possible, the designation or substantive involvement of qualified areawide comprehensive planning agencies in the 208 areawide waste treatment management planning program.

7. All HUD and EPA assisted agencies will be actively encouraged to use common data bases, analytic techniques, and consistent criteria in their planning activities wherever appropriate.

8. Wherever the appropriate HUD and EPA field staff agree that, as a result of planning assisted or required by one or more other Federal agencies, an impediment to implementation of the HUD 701 land use element and the land use-related provisions of the 208 plan exists or is likely to exist, the respective offices will invite representatives of interested federal, state, and areawide planning agencies to review the situation and whenever possible to formulate recommendations for removing the impediment.

9. Directives, guidelines, and performance criteria issued pursuant to this agreement will have joint concurrence of both signatory agencies prior to issuance and will be developed in accordance with Executive Orders and regulations governing both programs.

10. Joint reports on the progress of the above provisions will be prepared 6 months and 12 months from the date of signature.

Signed at Washington, D.C., this 24th day of March 1975.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT,  
D. O. MEEKER, Jr.,  
Assistant Secretary for Community Planning and Development.

ENVIRONMENTAL PROTECTION AGENCY,  
RUSSELL E. TRAIN,  
Administrator of EPA.

#### FEDERAL COMMUNICATIONS COMMISSION

##### GREAT LAKES AGREEMENT Enforcement Grace Period

MAY 2, 1975.

The Federal Communications Commission announced today a 30 day grace period until June 5, 1975, in enforcement of the terms of the new Great Lakes Agreement for vessel radio installations to allow the public additional

time to come into compliance with its provisions.

The Commission explained that its Order amending the rules to promulgate the new Agreement, which takes effect on May 6, 1975, was released on May 1, 1975, and that this did not allow the public sufficient time to install new radio stations, or other related equipment. The Great Lakes Agreement between Canada and the United States requires that certain specified vessels be equipped with efficient radio installations for the purpose of promoting the safety of life and property on the Great Lakes by means of radio. Generally, the vessels subject to the terms of the Agreement are those that are over 65 feet in length, used for towing, or that carry more than six passengers for hire. The Agreement does not apply to war or troop ships or to government ships not engaged in trade.

The Commission cautioned that the suspension of enforcement actions applies only in instances where new or greater requirements for a vessel operator are imposed by the Agreement on May 6, than previously existed and that it applies only to vessels that are not navigated outside U.S. waters. For vessels in this category that navigate to Canada, the Commission suggested that operators request temporary exemptions, which will be routinely granted if the applicant fully explains the circumstances and establishes that new or greater requirements are imposed which cannot be reasonably met prior to May 6, 1975.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] VINCENT J. MULLINS,

Secretary.

[Docket No. 20231; File No. BR-4621; FCC 75 R-192]

#### OIL SHALE BROADCASTING CO. (KWSR) Memorandum Opinion and Order Enlarging Issues

1. This proceeding involves the application of Oil Shale Broadcasting Company (Oil Shale), Rifle, Colorado, for renewal of its license to operate standard broadcast station KWSR, Rifle, Colorado. By order and notice of apparent liability, FCC 74-1207, 39 FR 40607, published November 19, 1974, the Commission designated the captioned application for hearing on various issues. Now before the Review Board is a motion, filed on March 18, 1975, by Oil Shale, re-

The designated issues seek to determine, inter alia, whether the applicant violated section 509 of the Communications Act, as amended, § 73.961 of the Commission's rules, whether the applicant made false log entries and whether misrepresentations were made to the Commission regarding these issues.

The Board also has before it for consideration the following related pleadings: (a) Opposition, filed March 31, 1975, by the Broadcast Bureau; and (b) reply, filed April 8, 1975, by Oil Shale.

V 40-100 MAY 22 1975

XUM

## NOTICES

questing clarification or enlargement of the issues in this proceeding seeking authorization to adduce evidence relating to the past programming and community service of Station KWSR in mitigation of any possible adverse findings under the presently specified issues.<sup>1</sup>

2. Oil Shale concedes that to the extent that this motion seeks enlargement of the issues it is late-filed. However, petitioner contends that good cause exists for late filing since counsel only recently became aware of the cases of Chronicle Broadcasting Co., 18 FCC 2d 120, 16 RR 2d 494 (1969); Blue Grass Broadcasting Co., Inc., 14 FCC 2d 788, 14 RR 2d 448 (1968); and Wagoner Radio Co., 12 FCC 2d 978, 13 RR 2d 114 (1968), in which specific issues were added to allow the presentation of evidence relating to past meritorious programming.<sup>2</sup> In addition, petitioner asserts that grant of the motion will not delay commencement of the hearing, nor prejudice the Broadcast Bureau since it is not anticipated that the Bureau will offer evidence regarding past programming and community service.<sup>3</sup> In any event, petitioner maintains, citing *Bunker Ramo Corp. v. Western Union Telegraph Co.*, 31 FCC 2d 449, 450, 22 RR 2d 843, 847 (1971), that its untimely motion must be entertained because it pertains to the resolution of serious public interest questions which, inasmuch as they involve the renewal of the only broadcast station in Rifle, Colorado, are "fundamental to a fair and complete resolution of this proceeding." More specifically, Oil Shale cites the Report on Uniform Policy as to Violation by Applicants of Laws of the United States, 1 RR Pt. 3, 91:495 (1951), and argues that consistent with the policy set forth therein, resolution of the presently specified issues should not be conclusive regarding the licensee's future ability to operate a radio in the public interest. In this regard, Oil Shale contends that the public interest would best be served by permitting a full and complete record to be developed concerning the ability of the licensee to serve the public interest and that the addition of the requested issue is essential to that end.

3. In opposition, the Broadcast Bureau first states that Edgefield-Saluda Radio Co., 5 FCC 2d 148, 8 RR 2d 611 (1966), not *Bunker Ramo Corp.*, supra, is the leading case governing the disposition of

late filed petitions to enlarge issues.<sup>4</sup> Thus, the Bureau asserts, since Oil Shale failed to specify or even mention the nature and/or scope of the programming relied upon as the basis for its motion, the Review Board cannot apply the Edgefield-Saluda test.<sup>5</sup> Moreover, the Bureau contends that the effect of Oil Shale's eleventh hour request, if granted, would be to disrupt the fair and orderly administration of the Commission's business, since the Review Board will in all likelihood be unable to act upon Oil Shale's eleventh-hour request prior to the hearing sessions now scheduled to commence on April 21, 1975, and the addition of a meritorious programming issue would necessitate additional hearing sessions, and could increase the evidentiary burdens on the parties. With respect to the merits of petitioner's request for enlargement,<sup>6</sup> the Bureau avers that Oil Shale's reliance on *Blue Grass Broadcasting Co., Inc.*, supra; and *Wagoner Radio Co.*, supra, is misplaced. In particular, the Bureau observes that although meritorious programming issues were added in those cases, both of which involved designated misrepresentation issues, more recent cases,<sup>7</sup> establish that addition of meritorious programming issues under such circumstances is inappropriate. Thus, continues the Bureau, since two issues specified in this proceeding directly involve the question of whether the applicant has made misrepresentations to the Commission, addition of Oil Shale's requested meritorious programming issue is clearly inapt.<sup>8</sup> Finally, the Bureau alleges that in referring to "community service" in phrasing its requested issue, Oil Shale's request seeks to expand the scope of the inquiry customarily contemplated by the Commission under a meritorious program issue.

<sup>1</sup>In any event, continues the Bureau, *Bunker Ramo Corp.*, supra, is distinguishable since it involved questions concerning legal conclusions allegedly not considered in the designation Order, and the Common Carrier Bureau partially supported the applicant's nondisruptive request.

<sup>2</sup>Furthermore, the Bureau maintains that by failing to advance such allegation, Oil Shale also failed to meet the specificity requirements of 1.229(c).

<sup>3</sup>With respect to clarification, the Bureau correctly notes that any motion to clarify must be initially filed with the Presiding Law Judge.

<sup>4</sup>Most notably, *Action Radio, Inc.*, 38 FCC 2d 489, — RR 2d — (1972), aff'd FCC 75-274, 33 RR 2d 51, released March 20, 1975; *Radio Carrolton*, 40 FCC 2d 92, 26 RR 2d 1523 (1973); and *Western Communications, Inc.*, (KORK-TV), 38 FCC 2d 975, 26 RR 2d 304 (1973).

<sup>5</sup>The relevant issues read as follows:  
(d) To determine whether applicant, or any of its officers, directors, shareholders, or supervising personnel, issued instructions to employees of the licensee to make misrepresentations.

(f) To determine whether the applicant, or any of its officers, directors, shareholders, or employees made misrepresentations to, or has been lacking in candor with the Commission.

4. The Board will grant petitioner's request insofar as it contemplates enlargement of the issues. Despite the procedural imperfections of Oil Shale's instant request, the Board is nonetheless persuaded that, in view of the fact that the renewal of the only broadcast station in Rifle, Colorado, is at stake, the public interest in having a full and fair hearing on Oil Shale's application for renewal of license would best be served if the Board considers the merits of the subject motion.<sup>9</sup> Cf. *Western Communications, Inc.*, supra; and *Action Radio, Inc.*, supra. With regard to the merits of the request, the Review Board is satisfied that, consistent with past practice, Oil Shale should be permitted to show meritorious past programming in the public interest.<sup>10</sup> Friendly Broadcasting Company, 35 FCC 2d 611, 24 RR 2d 712 (1972); *KFPW Broadcasting Co.*, (KFPW-TV), 33 FCC 2d 313, 23 RR 2d 515 (1972). We will not, however, expand the scope of the meritorious programming issue to encompass nonprogramming matters, i.e. community service. As noted in *Action Radio, Inc.*, supra, a determination of whether a station has otherwise served the needs of its community would create a virtually boundless issue which could have an extremely dilatory effect on the conduct of the proceeding. As a final matter, we note that any mitigating effect of the evidence adduced pursuant to the issue added herein shall be limited to those issues which do not involve misrepresentation or other acts involving moral turpitude relating directly to the operation of a broadcast station since they involve that degree of culpable conduct which renders consideration of past programming as a mitigating factor inappropriate. See *KFPW Broadcasting Co.*, 40 FCC 2d 126, 26 RR 2d 1633 (1973); and *Western Communications, Inc.*, 41 FCC 2d 581, 27 RR 2d 1286 (1973).

5. Accordingly, it is ordered, That the motion to clarify or enlarge issues, filed on March 18, 1975, by Oil Shale Broadcasting Company (KWSR), is granted to the extent indicated herein, and is denied in all other respects; and

"The Board is not unmindful of the Broadcast Bureau's allegations regarding disruption of the commencement of the subject hearing. Nevertheless, given the fact that this motion was filed prior to the commencement of said hearing, that petitioner has interposed no objection to accepting documents and notification of additional witnesses at a time subsequent to action on this motion, and that the Bureau has not shown that it would be irreparably prejudiced by the delay, we are of the view that the serious public interest questions raised by the instant motion should, on balance, be entertained."

<sup>10</sup>However, as the Board has consistently held, such a showing must be limited to the licensee's performance before it learned that its license was in jeopardy, and the parties are free to argue the weight which should be accorded such evidence. *Cosmopolitan Broadcasting Corp.*, 39 FCC 2d 698, 26 RR 2d 1172 (1973).

6. It is further ordered, That the issues in this proceeding are enlarged by the addition of the following issue:

To determine whether the programming of Station KWSR has been meritorious, particularly with regard to public service programs.

7. It is further ordered, That the burden of proceeding with the introduction of evidence and the burden of proof under the issue added herein shall be on Oil Shale Broadcasting Company (KWSR).

FEDERAL COMMUNICATIONS COMMISSION,

#### RADIO TECHNICAL COMMISSION FOR AERONAUTICS Meeting

As a matter of public notice, members of the Executive Committee of the Radio Technical Commission for Aeronautics tentatively plan to meet on administrative matters on Friday, June 13, 1975, in Conference Room 261, 1717 H Street NW., Washington, D.C., commencing at 9:30 a.m.

The sole agenda item will be:

Approval for publication of a Report from RTCA Special Committee 128 on proposed amendments to RTCA Document DO-161 titled "Minimum Performance Standards—Airborne Ground Proximity Warning System".

Prior to June 13, 1975, the RTCA Secretariat will poll members of the Executive Committee by telephone to determine their position in this matter. If all the telephone votes support SC-128's recommendations, the June 13, 1975, meeting will not be held.

The meeting is open to the public subject to limitations of space available, and any member of the public may present oral or written statements at the meeting, subject to time available, or to the RTCA Secretariat. Persons planning to attend or who desire additional information concerning this meeting are requested to contact the RTCA Secretariat, Suite 655, 1717 H Street NW., Washington, D.C. 20006, or telephone area code (202) 296-0484.

#### WORLD ADMINISTRATIVE RADIO CONFERENCE PREPARATORY ADVISORY COMMITTEES

##### Notice of Establishment

The Federal Communications Commission is responsible for identifying and documenting the future non-governmental communication requirements of the United States in preparation for the 1979 World Administrative Radio Conference (WARC) of the International Telecommunication Union. To insure that the interests of the U.S. are adequately represented at the 1979 WARC, preliminary studies covering the current standards, procedures, regulations and frequency allocation will be needed for each type of radio service utilized in this country.

To obtain assistance in these studies, this agency has approved the establishment of the following 23 specialized advisory committees:

WARC Advisory Committee for Amateur Radio  
WARC Advisory Committee for Land Mobile Radio  
WARC Advisory Committee for Aeronautical Mobile Radio  
WARC Advisory Committee for Maritime Mobile Radio  
WARC Advisory Committee for Private Microwave  
WARC Advisory Committee for Fixed Satellite  
WARC Advisory Committee for Radio Relay (Common Carrier)  
WARC Advisory Committee for Domestic Land Mobile Radio  
WARC Advisory Committee for High Frequency Fixed  
WARC Advisory Committee for Television  
WARC Advisory Committee for Aural-AM  
WARC Advisory Committee for Aural-FM  
WARC Advisory Committee for Satellite Broadcast  
WARC Advisory Committee for International Broadcast  
WARC Advisory Committee for Auxiliary Broadcast Services  
WARC Advisory Committee for Field Inspections  
WARC Advisory Committee for International Monitoring  
WARC Advisory Committee for Direction Finding Procedures  
WARC Advisory Committee for Infractions  
WARC Advisory Committee for Operator Licensing  
WARC Advisory Committee for Satellite Distribution (Cable TV)  
WARC Advisory Committee for Radio Relay (Cable TV)  
WARC Advisory Committee for Radio Astronomy

The purpose of each of the 23 specialized committees is to provide advice and recommendations to the FCC WARC preparatory staff concerning anticipated future requirements of the service or

Docket No.	Owner	Powerplant number	Generating station	Location
OFC-050.....	Public Service Company of New Hampshire....	4	Schiller.....	Portsmouth, N.H.
OFC-051.....	do.....	5	do.....	do.....

FEA hereby also gives notice of the opportunity for oral and written presentation of data, views, and arguments on these proposed prohibition orders.

The proposed orders would prohibit the powerplants listed above from burning natural gas or petroleum products as their primary energy source.

Prior to issuance of a prohibition order to a powerplant, section 2 of ESECA requires that FEA make certain findings. FEA's initial conclusions with respect to, and rationale in support of, these findings are set out, with respect to each of the powerplants, at the conclusion of this notice. These findings and rationales may be amended as a result of written or oral comments received by FEA pursuant to this notice and other information avail-

area with which the committees are concerned, and to propose changes which may be necessary or desirable in the pertinent regulations.

It is anticipated that each of the above committees will hold 3-6 meetings per year. Membership is extended to any member of the public who expresses an interest in participating in the work of a committee.

The Commission has also approved the establishment of a WARC Industry Advisory Committee, whose purpose is to recommend practical solutions to the WARC preparatory staff in areas of conflict between two or more advisory committees. Members of the WARC Industry Advisory Committee will be selected by the Commission's WARC preparatory staff.

The Federal Communications Commission has determined that the establishment of all of the above committees is necessary and in the public interest. Anyone who desires additional information concerning the work of the WARC preparatory committees may contact a member of the Commission's International Conference Staff, Office of Chief Engineer, 2025 "M" Street NW., Room 7002, Washington, D.C. 20554, Telephone (202) 632-7060.

FEDERAL COMMUNICATIONS COMMISSION,  
[SEAL] VINCENT J. MULLINS,  
Secretary  
[FR Doc.75-13473 Filed 5-21-75; 8:45 am]

#### FEDERAL ENERGY ADMINISTRATION PROHIBITION ORDERS

##### Intention To Issue to Certain Powerplants

The Federal Energy Administration ("FEA") hereby gives notice of its intention to issue prohibition orders, pursuant to the authorities granted by section 2 of the Energy Supply and Environmental Coordination Act of 1974 (ESECA) and in accordance with 10 CFR Parts 303 and 305, to the following powerplants:

Docket No.	Owner	Powerplant number	Generating station	Location
OFC-050.....	Public Service Company of New Hampshire....	4	Schiller.....	Portsmouth, N.H.
OFC-051.....	do.....	5	do.....	do.....

able to FEA. The findings will be included, with any amendments, in a prohibition order when it is issued.

Upon conclusion of the proceedings described in this notice, FEA may determine to issue prohibition orders to some or all of the powerplants listed above. These prohibition orders will not become effective, however, (1) until either, (a) the Administrator of the Environmental Protection Agency ("EPA") notifies the FEA, in accordance with section 119(d) (1)(B) of the Clean Air Act, that the powerplant will be able on and after July 1, 1975, to burn coal and to comply with all applicable air pollution requirements without a compliance date extension under section 119, or (b) if no notification is given by EPA, the date that

The Administrator of EPA certifies pursuant to section 119(d)(1)(B) of the Clean Air Act is the earliest date that the powerplant will be able to comply with all applicable air pollution requirements of section 119 of that Act; and (2) until FEA has considered the environmental impact of such order pursuant to § 305.9 of the FEA regulations that implement section 2 of ESECA and has served the affected powerplant a Notice of Effectiveness, as provided in §§ 303.10 (b) and 303.37(b) of those regulations. The date the prohibition order will be effective will be stated in the Notice of Effectiveness.

The Notice of Effectiveness will contain a compliance schedule to insure that the powerplant will be able to comply with the prohibition of the burning of natural gas or petroleum products as a primary energy source on the date the order becomes effective.

Public comment on the proposals to issue prohibition orders to the powerplants listed above is invited in the form of written and oral presentation of data, views and arguments. Comments should relate to individual docket numbers and should make clear to which docket number the individual comment is addressed.

Comments should address (1) the adequacy and validity of each of the proposed findings and the rationale in support of the findings; (2) the identification of any site-specific environmental impacts resulting from the proposed prohibition orders that were not identified or described in the Environmental Impact Statement (FES 75-1, dated April 25, 1975) for the FEA program to implement section 2 of ESECA; and (3) any other relevant aspects or impacts of the proposed prohibition order. With respect to comments regarding any impact on air quality that might result from a proposed prohibition order, however, it should be recognized that ESECA has assigned to EPA the primary responsibility for analyzing the effect of any such order on the Nation's air quality, and for determining the applicable air pollution requirements that apply to the powerplant that has been issued an order. It is expected that in almost every case, a powerplant to which a prohibition order is issued will be eligible to apply to EPA for a compliance date extension. In connection with that application, EPA must also provide an opportunity for written comment and oral presentation of data, views and arguments by interested persons. In addition, FEA will make a site-specific environmental analysis after the issuance of each order, but prior to service of the Notice of Effectiveness, and there will be an opportunity for public comment if the analysis indicates that significant site-specific impacts are likely to result from a prohibition order.

If oral presentation is to be made, it is requested that any detailed, technical data, views, and arguments be made in written comments submitted in support of the oral presentation, and that the oral presentation itself be a summary of those more detailed comments.

A public hearing on the proposed prohibition orders will be held beginning at 9 a.m., e.d.t. on June 4, 1975, in the J. W. McCormack Post Office and Courthouse, Auditorium, Room 304, Post Office Square, Boston, Massachusetts 02109, to receive oral presentation of data, views and arguments from interested persons. Any person who has an interest in the subject of the hearing, or who is a representative of a group or class of persons which has an interest in the subject of the hearing, may make a written request, or a verbal request if confirmed in writing, for an opportunity to make oral presentation. That request should be directed to Joseph Pecoraro, Federal Energy Administration, Region I, 150 Causeway Street, Boston, Massachusetts 02114, (617) 223-2674 and must be received before 4:30 p.m. e.d.t., May 30, 1975. The request may be hand-delivered to Joseph Pecoraro, Seventh Floor, FEA Region I, 150 Causeway Street, Boston, Massachusetts 02114 between the hours of 8 a.m. and 4:30 p.m. e.d.t., Monday through Friday. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he or she is a proper representative of a group or class of persons which has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he or she may be contacted through June 3, 1975. Each person selected to be heard will be so notified by the FEA by 4:30 p.m. e.d.t., June 2, 1975 and must submit a minimum of 20 copies of the statement to Joseph Pecoraro, Seventh Floor, 150 Causeway Street, Boston, Massachusetts 02114 before 4:30 p.m., June 3, 1975.

The FEA reserves the right to limit the number of representatives of a particular group or class of persons to be heard at the hearing, to schedule their or other persons' presentations, and to establish the procedures governing the conduct of the hearing. The length of time allocated to each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearing. It will not be a judicial or evidentiary-type hearing. During an oral presentation, questions may be asked only by those conducting the hearing, and there will be no cross-examination of persons making oral presentations. At the conclusion of all initial oral presentations, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions to be asked of any person making an oral presentation at the hearing to FEA Region I, Joseph Pecoraro, Seventh Floor, 150 Causeway Street, Boston, Massachusetts, before 9 a.m. e.d.t., June 4, 1975. Any person who makes an oral statement or any

other person who wishes to ask a question at the hearing may submit the questions, in writing, to the presiding officer. The FEA, or the presiding officer if the question is submitted at the hearing, will determine whether the question is relevant, and whether time limitations permit it to be presented for answer.

Any further procedural rules necessary for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript will be retained by the FEA and made available for inspection at the FEA Region I Library, Seventh Floor, 150 Causeway Street, Boston, Massachusetts, 02114, and FEA Administrator's Reception Area, Room 3400, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Any one may purchase a copy of the transcript from the reporter.

Interested persons are invited to submit written comments consisting of data, views, or arguments with respect to the proposed prohibition order to Executive Communications, Federal Energy Administration, Box DD, Washington, D.C. 20461.

Comments should be identified on the outside of the envelope in which they are transmitted and on other documents submitted to FEA Executive Communications with the designation "Proposed Prohibition Order for the \_\_\_\_\_ Powerplant." Fifteen copies should be submitted.

All written comments received by 4:30 p.m., e.d.t., June 6, 1975, all oral presentations and all other relevant information submitted to or otherwise available to FEA will be considered by FEA prior to issuance of any prohibition order.

Supplemental Comment Period. To facilitate the submission of data, views and arguments to supplement either the oral presentation or written comments, FEA shall keep the record of the public hearing open for a period of 10 days from the first day of the public hearing. Such supplementary written data, views or argument shall be filed with Executive Communications, Federal Energy Administration, Box DD, Washington, D.C. 20461. In the event that such supplementary data, views or argument can only be submitted by oral presentation, a verbal request for a conference, in accordance with 10 CFR 303.171, shall be submitted to Joseph Pecoraro, FEA Region I, 150 Causeway Street, Seventh Floor, Boston, Massachusetts 02114, (617) 223-2674. To ensure that FEA receives the transcript of such oral presentation before the record closes, any oral presentation must be made within 8 days from the first day of the public hearing.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only.

The FEA reserves the right to determine the confidential status of the information or data and to treat it accordingly to its determination.

The sections of ESECA that are relevant to the proposed prohibition orders are stated below:

#### Sec. 1. Short-Title; Purpose.

(b) The purposes of this Act are (1) to provide for a means to assist in meeting the essential needs of the United States for fuels, in a manner which is consistent, to the fullest extent practicable, with existing national commitments to protect and improve the environment . . . .

#### Sec. 2. Coal Conversion and Allocation.

(a) The Federal Energy Administrator— (1) shall by order, prohibit any powerplant, and

(2) may, by order, prohibit any major fuel burning installation, other than a powerplant, from burning natural gas or petroleum products as its primary energy source, if the Federal Energy Administrator determines such powerplant or installation on the date of enactment of this Act (June 22, 1974) has the capability and necessary plant equipment to burn coal, and if the requirements of subsection (b) are met.

(b) The requirements referred to in subsection (a) are as follows:

(1) An order under subsection (a) may not be issued with respect to a powerplant or installation unless the Federal Energy Administrator finds (A) that the burning of coal by such plant or installation, in lieu of petroleum products or natural gas, is practicable and consistent with the purposes of this Act, (B) that coal and coal transportation facilities will be available during the period the order is in effect, and (C) in the case of a powerplant, that the prohibition under subsection (a) will not impair the reliability of service in the area served by such plant. Such an order shall be rescinded or modified to the extent the Federal Energy Administrator determines that any requirement described in subparagraph (A), (B), or (C) of this paragraph is no longer met; and such an order may at any time be modified if the Federal Energy Administrator determines that such order, as modified, complies with the requirements of this section.

(3) (A) Before issuing an order under subsection (a) which is applicable to a powerplant or installation after June 30, 1975 (or modifying an order to which paragraph (2) applies, so as to apply such order to a powerplant or installation after such date), the Federal Energy Administrator shall give notice to the public and afford interested persons an opportunity for oral and written presentations of data, views, and arguments.

(B) An order (or modification thereof) described in subparagraph (A) of this paragraph shall not become effective until (1) the Administrator of the Environmental Protection Agency notifies the Federal Energy Administrator under section 119(d)(1)(B) of the Clean Air Act that such plant or installation will be able on and after July 1, 1975, to burn coal and to comply with all applicable air pollution requirements without a compliance date extension under section 119(c) of such Act, or (2) if such notification is not given, the date which the Administrator of the Environmental Protection Agency certifies pursuant to section 119(d)(1)(B) of such Act is the earliest date that such plant or installation will be able to comply with all applicable requirements of such section 119. Such order (or modification) shall not be effective during any period certified by the Administrator of the Environmental Protection Agency under section 119(d)(3)(B) of such Act.

(e) For purposes of this section: (1) The term "powerplant" means a fossil-fuel fired electric generating unit which produces electric power for purposes of sale or exchange.

(2) The term "coal" includes coal derivatives.

(f) (1) Authority to issue orders or rules under subsections (a) through (d) of this section shall expire at midnight, June 30, 1975. Such a rule or order may take effect at any time before January 1, 1976.

(2) Authority to amend, repeal, rescind, modify, or enforce such rules or orders shall expire at midnight, December 31, 1978; but the expiration of such authority shall not affect any administrative or judicial proceeding which relates to any act or omission which occurred prior to January 1, 1979.

Copies of the FEA regulations implementing section 2 of ESECA (10 CFR Parts 303, 305 and 307) are available from the FEA Regional Office, 150 Causeway Street, Seventh Floor, Boston, Massachusetts 02114, (617) 223-2674.

Any questions regarding this notice should be directed to Joseph Pecoraro, FEA Region I, 150 Causeway Street, Boston, Massachusetts 02114 (617) 223-2674.

(Energy Supply and Environmental Coordination Act of 1974 (Pub. L. 93-319); Federal Energy Administration Act of 1974 (Pub. L. 93-275); E.O. 11790 (39 FR 23185))

Issued in Washington, D.C., May 17, 1975.

ROBERT E. MONTGOMERY, Jr.,  
General Counsel,  
Federal Energy Administration.

OFU-050, 051, PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE, POWERPLANTS 4 AND 5, GENERATING STATION—SCHILLER, PORTSMOUTH, NEW HAMPSHIRE

(1) Capability and Necessary Plant Equipment Finding.

Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that on June 22, 1974, these powerplants had the capability and necessary plant equipment to burn coal. This proposed finding is based on facts, interpretations and assumptions stated below:

(A) These powerplants had in place on June 22, 1974, a boiler that was capable of burning coal, in that such boiler had been designed and constructed, or had been modified to enable it to burn coal and another energy source, or to burn coal and another fossil fuel interchangeably as its primary energy source, notwithstanding the fact that on June 22, 1974, such powerplant may not have been burning coal as its primary energy source.

(B) Based on information filed with FEA on April 10, 1975, by the Public Service Company of New Hampshire, the following significant equipment or facilities would have to be acquired or substantially refurbished:

- (1) Coal unloading facilities;
- (2) One bulldozer;
- (3) Separator tubes for mechanical dust collector on Unit 4;
- (4) Extensive overhaul of coal and ash handling systems.

FEA assumes that on June 22, 1974, these powerplants had all other significant equipment and facilities associated with the burning of coal.

(C) Within the meaning of ESECA and the regulations promulgated pursuant thereto, the equipment and facilities listed in paragraph (b) do not individually or in com-

bination constitute a lack of capability and necessary plant equipment to burn coal as of June 22, 1974.

(11) Burning of coal in lieu of natural gas or petroleum products is practicable and consistent with the purposes of ESECA.

Based on an analysis of the information submitted or otherwise available to FEA, FEA proposes to find that the burning of coal by the powerplant, in lieu of petroleum products or natural gas, is practicable and consistent with the purposes of ESECA. This proposed finding is based on the facts, interpretations and assumptions stated below.

(A) (1) Revenue Requirements.

(a) The investment costs that result from the acquisition and refurbishment of equipment and facilities associated with the burning of coal by the powerplants are estimated to be approximately \$2,424,000. This estimate is based on existing FEA information and on information filed with the FEA by the company concerning items of equipment and facilities that would have to be acquired or refurbished and the costs of such acquisition or refurbishment.

(1) Costs of acquisition or refurbishing equipment are allocated as follows:

(A) \$2,000,000 to comply with air pollution control requirements of the Clean Air Act.

(B) \$424,000 to make those technical plant and equipment adjustments associated with the burning of coal as well as to comply with environmental requirements other than those imposed by the Clean Air Act.

(b) The increase in operating costs other than fuel costs that result from the burning of coal are estimated to be approximately \$125,000 per year.

(c) (1) The price of petroleum products available to the powerplants is approximately \$1.85 to \$1.95 million Btu's. The price of coal of the type used by the powerplants is approximately \$1.55 to \$1.65 per million Btu's. The burning of coal by the powerplant will result in a reduction of .20 to .40 per million Btu's or \$1 to \$2 million per year.

(2) The New Hampshire Public Utility Commission permits the inclusion of increased fuel costs in the rate base through a fuel adjustment clause and, if there is a decrease in the cost of fuel as a result of burning coal, there will be a decrease in such rate base.

(d) The total annual incremental increase in revenue requirements resulting from costs associated with burning coal as opposed to oil is \$752,000.

(2) Financial Capabilities.

(a) Based on the most recent financial statements and capital expenditure programs of the Public Service Company of New Hampshire, as well as other information available to FEA, it has been determined that the prohibition order for the powerplants is practicable. This financial assessment included an evaluation of generally accepted financial ratios; effects on capitalization as a result of the costs of burning coal; impact on current and future construction programs; and possible impacts on rates. This assessment incorporated, but was not limited to, consideration of: the \$2.4 million investment requirement (or .8 percent) in relation to net property and plant of the company of \$381.2 million and 1975-1977 construction budget of the company of \$240 million (or 1 percent); the total capitalization of the company of \$394.8 million; the change in 1974 to 1975 construction budgets of \$43.2 million to \$50 million and the 15 years remaining useful life of the plant. These assessments, the above findings, and other evaluations of the general financial health of the company were the basis of this finding.

(B) Because this prohibition order will discourage the use of natural gas or petroleum products and encourage the increased

use of coal, FEA proposes to find that its issuance will be consistent with the purpose of ESECA "to provide a means to assist in meeting the essential needs of the United States for fuels." Further, on the basis of the environmental analyses conducted by FEA, the analyses of air quality impacts which EPA is required to conduct prior to effectiveness of a prohibition order, as well as the necessity for the powerplants to comply with the Clean Air Act and other applicable environmental protection requirements, FEA proposes to find that the prohibition order is also consistent with the purpose of ESECA to provide for a means to meet the Nation's essential fuel needs "in a manner which is consistent, to the fullest extent practicable, with existing national commitments to protect and improve the environment."

(iii) Coal and coal transportation facilities will be available during the period the prohibition order is in effect.

Based on an analysis of the information submitted to or otherwise available to FEA, FEA proposes to find that coal and coal transportation facilities will be available to these powerplants during the period until December 31, 1978. The period until December 31, 1978 is the period during all or part of which the prohibition order to which these findings relate will be in effect. This proposed finding is based upon the following facts, interpretations and assumptions:

(1) It is estimated that it will be practicable to produce coal nationally as follows:

Year:	Production (Million tons)
1975	662
1976	679
1977	707
1978	735

(2) The estimated national demand, excluding any increased demand resulting from FEA action under the authority of section 2 of ESECA, is as follows:

Year:	Demand (Million tons)
1975	640
1976	664
1977	688
1978	716

(3) The estimated additional national demand for coal resulting from the prohibition order to which this finding relates, and from FEA actions under authority of section 2 of ESECA, will be as follows:

Year:	Demand (Million tons)
1975	7
1976	4.0
1977	13.6
1978	16.2

(4) Coal of the specific type required for use by this powerplant has been identified in the reserves of the Northern and Southern Appalachian Coal supply regions, which consist of Bureau of Mines Districts 1 through 8 and 13.

(5) It is estimated that it will be practicable to produce coal from the Northern and Southern Appalachian coal supply regions as follows:

Year:	Production (Million tons)
1975	406
1976	402
1977	457
1978	412

(6) The regional and national production estimates stated in items (1) and (5) assume a surge capacity, or ability to increase production over normal levels, of approximately 4 percent. A 1976 study by the Bureau of Mines of the Department of the Interior indicates a national surge capacity of approx-

mately 6 percent. In response to an industry survey in late 1974, the coal industry itself indicated that it had a surge capacity of up to 8 percent. By comparison, the increased national demand for coal resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA, is less than one tenth of a percent in 1975, increasing to a maximum of 2.3 percent in 1978 of estimated national demand stated in item (2). A market survey of traditional coal suppliers to FEA Region I consumers indicates that there is ample production capability to support increased demand for coal from this region resulting from the prohibition order to which this finding relates and other FEA actions under section 2 of ESECA.

(7) No State or local laws or policies which would limit the extraction of this coal have been found by FEA or brought to FEA's attention.

(8) The estimated demand for coal from these supply regions, excluding any increased demand resulting from FEA actions under the authority of section 2 of ESECA, is as follows:

Year:	Demand (million tons)
1975	390
1976	394
1977	395
1978	398

(9) The estimated additional demand for coal from these supply regions resulting from the prohibition order to which this finding relates and from other FEA orders under section 2 of ESECA, will be as follows:

Year:	Demand (million tons)
1975	4
1976	2.5
1977	10.2
1978	12.4

(10) On the basis of the above information, FEA proposes to find that the estimated production of coal of the specific type required for use by this powerplant exceeds the estimated demand for such coal by amounts adequate to support a conclusion that such coal will be available to these powerplants during the period until December 31, 1978.

B(1) Adequate rail and barge facilities exist between these coal supply regions and the powerplant to transport the coal that will be used by such powerplant pursuant to this order.

(2) There is a waterway which will be able to deliver this coal from the main rail line to these powerplants.

(3) Sufficient rolling stock will be available to the Reading Company and sufficient barges available to the Express Maine Transportation Corporation for transporting this

coal during the period until December 31, 1978.

(iv) The prohibition of the burning of natural gas or petroleum products as its primary energy source will not impair the reliability of service in the area served by the affected powerplants.

Based on an analysis of the information submitted to or otherwise available to FEA, and after consultation with the Federal Power Commission, FEA proposes to find that the prohibition of the Schiller Units #4 and #5 powerplants of the Public Service Company of New Hampshire from burning natural gas or petroleum products as their primary energy source will not impair the reliability of service in the area served by such powerplants. This finding is based on the facts, assumptions and interpretations stated below:

(A) (1) Interconnections and Power Dispatching.

(a) The Schiller Units are within the geographical area of the Northeast Power Coordinating Council (NPCC) regional electric reliability council.

(b) They are interconnected with and their operations and planning are coordinated with the New England Power Exchange (NEPEX) power pool.

(c) Dispatching of electric power is controlled by NEPEX.

(d) "Dispatching system" as used later in this finding means NEPEX.

(2) Forecast Peak Loads.

(a) Forecast of peak loads for the dispatching system during the year in which the Public Service Company of New Hampshire is expected to be implementing the herein prohibition order is as follows:

Year:	Forecast Peak Load (MW)
1975	14146
1976	14146
1977	14146
1978	14146

(b) The peak loads forecast have been compared with peak loads in previous similar periods and the compound load growth rate for these forecasts is 6 percent, which is considered reasonable.

(3) Capacity.

(a) The present net dependable capacity of all powerplants of the dispatching system that now are engaged in the sale or exchange of electric power is 19671 MW.

(b) Additions, retirements, and powerplant reratings during the period in which Public Service Company of New Hampshire will be implementing the herein prohibition order, as listed below, will cause the following changes in net dependable capacity of such dispatching system.

Powerplant designation	Fuel	Type of change	Capacity change	Status and effective date
Millstone No. 2	Nuclear	Addition	+630	Under construction, commercial operation, August 1975.
New Haven Harbor	Oil	do	+445	Do.
Newington	No. 6 oil	Rerating	+47	Authorized July 1975.
Canal No. 2	Oil	Addition	+539	Under construction, commercial operation, October 1975.
Winnamett	Nuclear	Rerating	+464	Authorized November 1975.
Vernon	do	do	+112	Do.
Purchased power	do	Addition	+399	January 1976.
Do	do	Retirement	-259	July 1975.
Pawtucket No. 1	Oil	do	-25	October 1975.
			-25	

1 Winter.  
2 Summer.

#### (4) Scheduled Outages.

(a) A scheduled outage of 6 weeks for Unit #4 and 4 weeks for Unit #5 is estimated to be required to make any modification, installation or other physical adjustment associated with cessation of the burning of natural gas or petroleum products as the powerplant primary energy source. Immediately following modification during on-line testing and adjustment, each powerplant will be less than fully dependable. This period should not exceed 30 days.

Modifications are forecast to commence approximately February 1, 1976, and to be complete and fully tested by June 15, 1976.

(b) Planned maintenance of other powerplants and nuclear plant refueling during the period the powerplants will be implementing the herein prohibition order within the dispatching system will result in the loss of generating capability which is expected to average the listed values during the specified load periods:

Winter Period—500 MWe
Spring Period—2100 MWe
Summer Period—1050 MWe

(5) Net Dependable Capacity.

The forecast net dependable capacity for the dispatching system during the period (shown as quarter years) in which the powerplants are expected to be implementing the herein prohibition order and the next quarter following is:

Winter 1975-1976—21850 MWe
Spring 1976—21812 MWe
Summer 1976—21470 MWe

(6) Gross Reserve Margin-Dispatching System.

(a) The expected minimum gross reserve margin (difference between net system capability and peak load in percent of peak load) of the dispatching system for the load periods specified are as follows:

Winter 1975-76—54.5 percent.
Spring 1976—70.2 percent.
Summer 1976—57.2 percent.

(b) After deducting the net capacity of units scheduled for maintenance or refueling during these same load periods, the expected minimum reserve margins are:

Winter 1975-76—51.0 percent.
Spring 1976—53.8 percent.
Summer 1976—49.5 percent.

(7) Derating.

There will be no derating of the powerplant when using coal as the primary energy source.

(8) System Stability.

Available information regarding system stability for the dispatching system has been evaluated for each of the load periods stated in paragraph (5) and the issuance of a prohibition order to the powerplant will not cause a significant system stability problem.

(B) Reliability of Service.

(1) The estimated gross reserve margin of the dispatching system during the implementation period associated with the commencement of the burning of coal as a primary energy source is forecast to range between 49.5 percent and 53.8 percent, depending upon the date of the period of powerplant outage. By scheduling the implementation period during the Winter, Spring or Summer load period, the estimated gross dispatching system's reserve margin will be above 49.5 percent, and the Federal Power Commission considers this to be an acceptable reserve margin.

(2) If dispatching system conditions at the time of the implementation period are as presently forecast by FEA in this finding, there will be no impairment of reliability of service, within the meaning of ESECA and the regulations promulgated thereunder, in the area served by the Public Service Company of New Hampshire.

(3) Existing transmission system interconnections with other utilities are presently scheduled to transfer approximately 394 megawatts into the dispatching system; with the capacity to transfer approximately 1300 additional megawatts of power into the dispatching system. This capacity will provide emergency resource of electric power during the implementation period and will enhance the reliability of service.

[FR Doc.75-13411 Filed 5-19-75; 10:10 am]

### POWERPLANTS IN THE EARLY PLANNING PROCESS

#### Requirement To File Identification Report

The Federal Energy Administration hereby gives notice of the requirement, pursuant to 10 CFR 307.6(b), that each powerplant (other than a combustion gas turbine or a combined cycle unit) in the early planning process file an Identification Report (FEA form C-603-S-0, GAO approval No. D-181254 (RO 196)) with FEA by June 2, 1975. This reporting requirement applies to all powerplants (other than combustion gas turbines or combined cycle units) that as of April 1, 1975 were in the early planning process.

By May 23, 1975 FEA will have mailed copies of the Identification Report to persons that own, control or operate powerplants that generate electric power in the amount of 25 MW or greater. The Report is to be completed in accordance with the instructions contained therein, for any powerplant in the early planning process that is owned, controlled or operated by such persons. Any powerplant (other than a combustion gas turbine or a combined cycle unit) in the early planning process as of April 1, 1975 that does not receive an Identification Report should contact the Federal Energy Administration, Office of Fuel Utilization, Industry Analysis Branch, Washington, D.C. 20461 ((202) 961-8541) to obtain a copy.

Powerplants (other than a gas turbine or a combined cycle unit) that enter the early planning process at anytime in a month subsequent to April 1, 1975 are required to file an Identification Report, at the address provided in 10 CFR 303.12 (Federal Energy Administration, Code OFU (Identification Report), Washington, D.C. 20461), by the fifteenth day of the subsequent month. Copies of such report can be obtained by writing to that address.

**Definitions.** "Combined cycle unit" means an electric power generation unit that consists of a combination of one or more combustion gas turbine units and one or more steam turbine units with the required energy input of the steam turbine(s) provided by and approximately matched to the energy in the exhaust gas from the combustion turbine unit(s). Use of small amounts of supplemental firing for the steam turbine does not preclude the unit from being a combined cycle unit.

"Combustion gas turbine" means an electric power generation unit that is a combination of a rotary engine driven by a gas under pressure that is created

by the combustion of a fuel, usually natural gas or a petroleum product, with an electric power generator driven by such engine.

"Early planning process" commences 10 years prior to the planned commencement of the sale or exchange of electric power by a powerplant and terminates with commencement of the driving of the foundation piling, or the equivalent foundation structural event, in accordance with approved final drawings for the main boiler of the powerplant.

"Person" means any association, firm, company, corporation, estate, individual, joint-venture, partnership, or sole proprietorship or any other entity however organized including charitable, educational, or other eleemosynary institutions, and the Federal Government including corporations, departments, Federal agencies and other instrumentalities, and State and local governments, and includes any officer, director, owner or duly authorized representative thereof. The FEA may, in regulations and in any forms issued in this part, treat as a person:

(a) A parent and the consolidated and unconsolidated entities (if any) which it directly or indirectly controls.

(b) A parent and its consolidated entities.

(c) An unconsolidated entity, or

(d) Any part of a person.

"Powerplant" means a fossil-fuel fired steam electric generating unit that produces electric power for purposes of sale or exchange, and includes any person who owns, leases, operates or controls any such unit.

(Energy Supply and Environmental Coordination Act of 1974 (Pub. L. 93-319); Federal Energy Administration Act of 1974 (Pub. L. 93-275); EO 11790 (39 FR 23185))

Issued in Washington, D.C., May 20, 1975.

ROBERT E. MONTGOMERY, Jr.,  
General Counsel,  
Federal Energy Administration.

### FEDERAL MARITIME COMMISSION

[Docket No. 75-17]

CLETO HERNANDEZ R. D/B/A PAN INTER Independent Ocean Freight Forwarder License; Order of Investigation and Hearing

On January 27, 1966, Cleto Hernandez R. d/b/a Pan Inter, 267 West 89th St., Suite 6-c, New York, New York 10024, was issued independent ocean freight forwarder license FMC No. 1108.

Information has been developed that Cleto Hernandez R. d/b/a Pan Inter (Hernandez) is now employed by Continental Can Company, Inc. (Continental), an export shipper in the foreign ocean commerce of the United States.

Section 1 of the Shipping Act, 1916, defines an independent ocean freight forwarder as a "person carrying on the business of forwarding for a consideration who is not a shipper or consignee or a seller or purchaser of shipments to

## NOTICES

foreign countries, nor has any beneficial interest therein, nor directly or indirectly controls or is controlled by such shipper or consignee or by any person having such a beneficial interest."

The Commission has in the past held that a forwarder may not be employed by a shipper regardless of whether or not the forwarder forwards shipments for their shipper-employers or whether or not control over the forwarder is exercised by the shipper-employer. See Application For Freight Forwarder License—York Shipping Corporation—9 F.M.C. 72 (1965) and Application For Freight Forwarder License—William V. Cady, 8 F.M.C. 352 (1964).

Mr. Hernandez was notified by certified letters of January 29, 1975 and of March 3, 1975 from the Commission's staff that his employment with Continental barred him from continuing to serve as an independent ocean freight forwarder and that if he did not sever his employment or surrender his license that a formal hearing would be instituted to determine whether his license should be suspended or revoked.

In reply, Mr. Hernandez stated that he is not shipper connected as he does not act as Continental's ocean forwarder and that Continental has no relationship with the freight forwarding business. These statements were verified by a letter from the Manager of International Sales and Traffic for Continental.

In the above cases, the Commission found that the forwarders involved had utilized their employees' offices to conduct forwarding activities, received business from clients of their employers, and at one time did forward shipments for their employers. None of these elements appear to be present in regard to Hernandez, but the Commission in Cady stated:

On its face, the master and servant [employee] relation between a shipper and licensed forwarder is inconsistent with the purpose of the Act . . .

Thus, it would appear that Hernandez no longer qualifies as an independent ocean freight forwarder pursuant to sections 1 and 44 of the Shipping Act, 1916, and §§ 510.2(a) and 510.9(d) of the Commission's General Order 4.

In addition, further information has been developed which reveals that Hernandez had apparently violated the following sections of the Commission's General Order 4:

Section 510.23(f) requires prompt accounting by a licensee to its principal for monies due such principal. In 1974 Hernandez failed to timely remit monies due his principal in the amount of \$4,475, a violation of this section.

Section 510.23(k) requires a licensee to maintain all records and books of account in connection with the carrying on the business of forwarding in an orderly, systematic and convenient manner as to permit authorized Commission personnel

to determine readily the licensee's cash position, accounts receivable and accounts payable. Hernandez has failed to maintain records in the prescribed manner.

Therefore, it is ordered, Pursuant to sections 22 and 44 of the Shipping Act, 1916 (46 U.S.C. 821, 841(b)) that a proceeding is hereby instituted to determine whether Cleto Hernandez R. d/b/a Pan Inter has violated §§ 510.23(f) and (k) of General Order 4, and continues to qualify for a license as an independent ocean freight forwarder, and whether its license as an independent ocean freight forwarder should be continued in effect or be suspended or revoked pursuant to sections 1 and 44 of the Shipping Act, 1916 (46 U.S.C. 801, 841(b)), and §§ 510.9(b) and (d), of the Commission's General Order 4.

It is further ordered, That Cleto Hernandez R. d/b/a Pan Inter be made respondent in this proceeding and that the matter be assigned for public hearing before an Administrative Law Judge of the Commission's Office of Administrative Law Judges and that the hearing be held at a date and place to be determined by the Presiding Administrative Law Judge, but in any event, shall commence on or before November 16, 1975.

It is further ordered, That notice of this order be published in the Federal Register and a copy thereof and notice of hearing be served upon respondent, Cleto Hernandez R. d/b/a Pan Inter.

It is further ordered, That any person other than respondents and Hearing Counsel having an interest and desiring to participate in this proceeding shall file a petition for leave to intervene in accordance with Rule 5(1) (46 CFR 502.72) of the Commission's rules of practice and procedure.

Pursuant to these Rules, absent good cause shown, parties must commence discovery procedures within 30 days after publication of this Notice in the Federal Register; moreover any intervenor desiring to utilize the discovery procedures provided for in Subpart L thereof must commence doing so no later than 15 days after his petition for leave to intervene has been granted. If the petition for leave to intervene is filed later than 30 days after the date of publication of this order in the Federal Register, petitioner will be deemed to have waived his right to utilize such procedures unless good cause is shown for the failure to file the petition within the 30-day period. (46 CFR 502.72(b).)

It is further ordered, That all future notices issued by or on behalf of the Commission, including notice of time and place of hearing, or prehearing conference, shall be mailed directly to all parties of record.

By the Commission.

[SEAL] FRANCIS C. HORNBY,  
Secretary.

## FEDERAL POWER COMMISSION

[Docket No. E-9432]

AMERICAN MUNICIPAL POWER-OHIO, INC.

Filing of Initial Rate Schedule

MAY 15, 1975.

Take notice that on May 6, 1975, American Municipal Power—Ohio, Inc. (AMP—Ohio) tendered for filing an initial rate schedule for service with the City of Orrville, Ohio. AMP—Ohio states that it is uncertain when service will commence under this schedule. Accordingly AMP—Ohio requests waiver of the Commission's 90 day filing requirements.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 30, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 75-13435 Filed 5-21-75; 8:45 am]

[Docket No. E-9712]

CAROLINA POWER & LIGHT CO.

Filing of Motion To Terminate Docket

MAY 15, 1975.

Take notice that on May 12, 1975, Commission Staff Counsel tendered for filing a motion to terminate the proceedings in the above-referenced proceeding. In the motion, Staff Counsel stated that the issues over which the Commission had expressed concern had been resolved in a manner acceptable to the public interest.

Any person desiring to be heard or to protest said filing should file written comments with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such comments should be filed on or before May 30, 1975.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP75-99]

COLUMBIA GAS TRANSMISSION CORP.

Request for Advance Commission Approval of Accounting and Rate Treatment of R&D Expenditures

MAY 15, 1975.

Take notice that on May 8, 1975, Columbia Gas Transmission Corporation

## NOTICES

22311

(Columbia), filed a request pursuant to § 154.38(d)(5)(a) of the Commission's regulations, for advance Commission approval of accounting and rate treatment of research and development expenditures associated with an experimental test program on the Appalachian gas shales proposed to be conducted by Columbia.

Columbia proposes to undertake a program of research and development for the purpose of determining reservoir and production characteristics achieved through the application of a variety of existing and new stimulation techniques on low permeability gas shales in the Upper and Middle Devonian Age Formations in four (4) diverse areas in the Appalachian Basin. The program will evaluate the feasibility of recovering approximately 285 trillion cubic feet of reserves estimated to exist in the Devonian shales of the Appalachian Basin.

The experimental stimulation program will require estimated expenditures of approximately \$8,500,000, to be spent by Columbia over a 36-month period, extending from mid-1975 to mid-1978.

Any person desiring to be heard or to protest said notice, should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 29, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Columbia's proposed accounting and rate treatment for Research and Development expenditures is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 75-13437 Filed 5-21-75; 8:45 am]

[Docket Nos. RP74-82; RP74-81]

COLUMBIA GAS TRANSMISSION CORP.  
AND COLUMBIA GULF TRANSMISSION CO.

Settlement Conference

MAY 15, 1975.

Take notice that on Thursday, May 29, 1975, and Friday, May 30, 1975, a conference of all interested parties in the above-referenced dockets will be convened at 10 a.m., in a conference room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. See the bulletin board on the second floor for the room number.

The conference will be held pursuant to § 1.18 (Conferences, Offers of Settlement) of the Commission's rules of practice and procedure (18 CFR 1.18). Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, such attendance at the conference will

not be deemed to authorize such intervention as a party in the proceedings.

In accordance with the provisions of § 1.18 of the rules, all parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of Columbia Gas Transmission Corporation and Columbia Gulf Transmission Company's proposed tariff changes, any procedural matters preparatory to a full evidentiary hearing, or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference. Failure to attend the conference shall constitute a waiver of all objections to stipulations and agreements reached by the parties in attendance at the conference.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 75-13438 Filed 5-21-75; 8:45 am]

[Docket No. RP75-8; PGA75-36]

COMMERCIAL PIPELINE CO.

Filing of Revised Tariff Sheet

MAY 15, 1975.

Take notice that on May 2, 1975, Commercial Pipeline Company (Commercial) tendered for filing corrected substitute Sixth Revised Sheet 3A superseding Sixth Revised Sheet No. 3A.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 23, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 75-13439 Filed 5-21-75; 8:45 am]

[Docket No. E-9435]

CONSUMERS POWER CO.

Proposed Tariff Change

MAY 15, 1975.

Take notice that Consumers Power Company (Consumers Power) on May 9, 1975, tendered for filing a contract for electric service between Consumers Power and the City of Petoskey, Michigan (Petoskey) that, when effective, will cancel and supersede an existing contract for electric service dated March 23, 1966, as amended, and an agreement dated May 3, 1971, as amended. The new contract will become effective when construction of a 15,000 kVA substation by Petoskey is completed. This date is expected to be on or about July 1, 1975. The

rates to be charged by Consumers Power for power and energy under the new contract are the rates approved by the Commission in its Order of August 30, 1974, in Docket No. E-7903. The new contract increases the capacity reserved for Petoskey from 13,750 kilowatts to 18,750 kilowatts.

Copies of the filing were served on the City of Petoskey and on the Michigan Public Service Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 28, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

Secretary.

[FR Doc. 75-13442 Filed 5-21-75; 8:45am]

[Docket No. C175-34]

## GAS GATHERING CORP.

## Order Setting for Hearing Request for Disclaimer of Jurisdiction, Instituting Show Cause Proceeding, Setting Proceedings for Formal Hearing, Granting Petition to Intervene and Establishing Procedural Dates

On July 17, 1974, Gas Gathering Corporation (GGC) filed a petition for disclaimer of jurisdiction alleging that it performs only a gas gathering function and is not a producer or mainline transporter of natural gas and is not, therefore, subject to Commission jurisdiction. Notice of the petition was issued by the Commission on July 30, 1974, and was published in the Federal Register on August 6, 1974 (39 FR 28321). On August 23, 1974, Transcontinental Gas Pipe Line Corporation (Transco) filed a petition to intervene. No other petitions to intervene have been filed.

In its petition for disclaimer of jurisdiction GGC states that since its origin in 1955 it has gathered, metered and dehydrated gas which it purchases from producers in the Atchafalaya Basin of south central Louisiana and sells exclusively to Transco. The gas sold to Transco is mixed in its general gas stream for resale in interstate commerce. GGC also states that it performs a transportation service for Southern Natural Gas Company (Southern) and Texaco Inc. (Texaco). GGC states that its system extends from a point in Pointe Coupee Parish, Louisiana, to its southwestern extremity in St. Martin Parish, Louisiana, and consists of 21 miles of 8-inch pipeline, 10 miles of 6-inch pipeline, and 5 miles of 4-inch pipeline with no line compression required on its system.

In support of its request for disclaimer of jurisdiction GGC cites Commission Opinion No. 617 issued April 24, 1974 (47 FPC 1088), in which the Commission found that Panhandle Eastern Pipe Line Company's facilities in Docket No. CP70-234 and those of Phillips Petroleum Company in Docket No. C170-917 were gas gathering facilities and not subject to Commission jurisdiction; and the Commission's order denying application for rehearing, etc. to South Texas Natural Gas Gathering Company in Docket Nos. CP67-349 and its order affirming examiner's decision in Docket No. CP71-26 both issued May 8, 1972, in which proceedings the Examiner and the Commission found that Southern Union should not be classified as a Class A pipeline and was thus not subject to Commission jurisdiction. GGC alleges that its operation parallels on a smaller scale the facts and circumstances which contributed and caused the Commission's findings of lack of jurisdiction in the abovementioned proceedings.

The Federal Power Commission has been delegated under the Natural Gas Act<sup>1</sup> with the responsibility of regulating the transportation and sale for resale of natural gas in interstate commerce and the construction and operation of facilities and the rates and charges therefor. For the purpose of carrying out these responsibilities, the Commission has classified all natural gas companies as either pipelines or independent producers of natural gas<sup>2</sup> and has promulgated separate regulations applicable to each class.<sup>3</sup>

We believe that the operations performed by GGC may be similar to those operations classified as gather-type pipelines subject to Commission jurisdiction in Baca Gas Gathering, Inc. (CP65-57), C. B. Gas Gathering, Inc. (CP73-91) and Western Transmission Corporation (CP70-252). For example, Bluebonnet Gas Corporation (Bluebonnet), the predecessor of C. B. Gas Gathering, Inc. was authorized in Docket No. CP65-326 to construct and operate 3 meter stations and approximately 4.5 miles of 4-inch pipeline in Louisiana for the transportation and sale of natural gas to Florida Gas Transmission Company (FGT). In Docket No. CP65-417, Bluebonnet was authorized to construct and operate metering, regulating and interconnecting facilities and sell gas acquired from George J. Despot, Operator to FGT. In Docket No. CP71-229, Bluebonnet was authorized to construct and operate approximately 200 feet of 2 x 2-inch gathering line and a measuring station to transport to FGT gas purchased from the Ballard and Cordell Corporation.

In Barnes Transportation Company, Inc. (18 FPC 369), the Commission stated that the ordinary concept of the word "gathering" as used in the natural gas industry means the collecting of gas from various wells and bringing it by separate and several individual lines to a central point where it is delivered into a single line. Following this concept, "gathering" is considered to have ended when the gas reaches the "central point" for delivery into a single line. The Commission held that the fact that the single line may be in back of a plant would not be controlling but the function of that single line would be determinative. In Opinion No. 617, cited by GGC, the Commission stated that Panhandle's Exhibit F diagram demonstrates that the original

<sup>1</sup> Approved June 21, 1938 (52 Stat. 821-833; Title 15 USC 717-717a), as amended February 7, 1942 (59 Stat. 83-84); Title 15 USC 717f, July 25, 1947 (61 Stat. 459); Title 15 USC 717f(h), August 28, 1958 (72 Stat. 941 at 947; 15 USC 717f) and May 21, 1962 (76 Stat. 72; 15 USC 717f(e)).

<sup>2</sup> E.g., Mississippi River Fuel Corporation, Docket No. G-7376, et al., order issued January 12, 1965 (unreported); National Sulphur Company, Docket No. CP66-282, 36 FPC 173; Nueces Industrial Gas Corporation, Docket No. CP71-287 45 FPC 1224; Southern Union Gathering Company, Docket No. CP71-26, 47 FPC 1177.

<sup>3</sup> Subchapters E and F of Chapter I, Title 18 of the Code of Federal Regulations.

facilities behind the Douglas plant which were certificated in Docket No. CP70-243 were facilities predominantly for the transportation of natural gas with incidental gathering facilities.

In this proceeding, the main function of GGC's facilities may be transportation of natural gas and any gathering services performed by GGC within the boundary of the fields themselves may be incidental to transportation to Transco.

It is also important to note that GGC may not meet the definition of an independent producer contained in section 154.91(a) of the regulations since it may perform a transportation service. Section 154.91(a) defines an independent producer as "any person as defined in the Natural Gas Act who is engaged in the production or gathering of natural gas and who sells natural gas in interstate commerce for resale, but who is not engaged in the transportation of natural gas (other than gathering) by pipeline in interstate commerce."

It appears that GGC may be a natural gas company subject to Commission jurisdiction; however, what classification it may fall under and the extent of our jurisdiction, if any, will be the subject of the instant proceeding. In Ben Bolt Gathering Company (26 FPC 825), the Commission held that if facilities are predominantly used for transporting natural gas in interstate commerce after gathering has ended, such facilities are mere extensions of major pipeline systems and should be certificated. Similarly in Northern Natural Gas Co. v. State Corporation Commission of Kansas, 1965, 372 U.S. 84, 83 S. Ct. 646, 9 L. Ed. 2d 601, the Supreme Court stated: "It has been consistently held that 'production' and 'gathering' are terms narrowly confined to the physical acts of drawing gas from the earth and preparing it for the first stages of distribution". accord, FPC v. Corporation Commission of State of Oklahoma et al., 362 F. Supp. 522 (1973) at 540, aff'd mem., 415 U.S. 961. GGC's existing pipeline facilities system here involved may go beyond these limited acts and may have with regard to GGC's gas, as their primary function, the transportation of natural gas in interstate commerce to Transco.

In view of the foregoing, we hereby direct GGC in this proceeding to show cause why it should not be classified as a pipeline under section 16 of the Natural Gas Act. In its answer, GGC shall provide the following information:

1. A description of system design reflecting:
  - (a) A flow diagram with volumes and pressures;
  - (b) Show the locations and capabilities of your compressors;
  - (c) Diameter and length of the pipe of "gathering" facility segments;
  - (d) Processing plants—Location, owners, handling capacity, by-products extracted, owners of any proceeds and effect on Btu level of the stream;
  - (e) Indicate Btu level from each formation at the well-head;
  - (f) Points of receipt and delivery of the gas.

## NOTICES

22313

If there is more than one system because of pressure and location differences, provide information requested for each system.

2. **Contractual Arrangements.** (a) Contractual arrangements between GGC and its producers.

(b) Contractual arrangements between GGC and Transco, Southern Natural Gas Company (Southern) and Texaco Inc.

3. **Rates.** Describe the existing rate or rates to Transco, Southern and Texaco, how they were developed and how they work.

4. **Provide a copy of the Corporate Charter of GGC.**

5. **Volumes of gas delivered by GGC.** (a) Maximum volumes ever sold to Transco on any given day and maximum volumes transported for Southern and Texaco (include volumes of exchange gas handled on this day).

(b) Annual volumes for current years (1973, 1974, and 1975).

(c) Indicate the full capability that your system has to increase its sales to Transco and transportation for Southern and Texaco (System capability should be shown under various circumstances—peak, summer and average day).

(d) Your interpretation of Transco's, Southern's and Texaco's maximum demands under existing Commission orders and your contracts with those companies. This should include annual and daily demand and should reflect both permanent and limited duration volumes.

6. **Transportation System.** (a) Background and history of the system (when was it built—when were major segments added).

(b) Indicate generally how it operates.

(c) Indicate the age, investment in each of the major segments and the type of account in which it is reflected on your books.

(d) Indicate maximum mile of haul of any given Mcf and the average mile of haul of an Mcf of gas on this system.

7. **Wells connected to the system.** (a) Does GGC own any wells of its own?

(b) Number of wells connected to its system—Indicate:

(1) Number owned by affiliates.

(2) Number where production is dedicated to Transco, or Southern.

(3) Number of affiliate wells connected to Transco, or Southern.

(4) All other wells.

(c) Indicate the different fields in which these wells are located. (Provide name and location).

8. Indicate points on the system where the gas from the different formations and fields come together.

9. Indicate lines and points on your system where the gas production dedicated to Transco, or Southern under contract is commingled with the production that is dedicated to GGC under contract.

10. Show the same for the Transco or Southern systems.

11. Indicate gross revenues received from sales to Transco for 1971-1974. (Show both with and without volumes of exchange gas). Indicate gross revenues received from Southern and Texaco and the nature thereof.

12. Show total volumes of gas exchanged for the years 1971-1974.

**The Commission finds.** (1) It may be that GGC is a pipeline within Section 1(b) of the Natural Gas Act and is therefore subject to Commission jurisdiction under Section 7 of the Natural Gas Act.

(2) It is necessary and appropriate that the proceeding in Docket No. C175-34 be set for formal hearing.

(3) It is not within the public interest to grant GGC's petition for disclaimer of jurisdiction at this time.

(4) The petition to intervene filed by Transco may be in the public interest.

**The Commission orders.** (A) GGC shall show cause, if any there be, at the hearing directed in paragraph (B) below, why it should not be classified as a pipeline under section 1(b) of the Natural Gas Act, subject to Commission jurisdiction under section 7 of the Natural Gas Act.

(B) Pursuant to the provisions of the Natural Gas Act, a formal hearing shall be convened in Docket No. C175-34 in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, on July 8, 1975, at 10 a.m. (e.d.t.). The Presiding Administrative Law Judge for the purpose—see Delegation of Authority 18 CFR 3.5(d)—shall preside at the hearing in this proceeding and shall prescribe relevant procedural matters not herein provided.

(C) The direct case of GGC as to all issues raised in its filing in Docket No. C175-34, as well as all issues referred to in this order shall be filed and served on all parties of record including Commission Staff on or before June 16, 1975.

(D) GGC's petition for disclaimer of jurisdiction is denied.

(E) Transco is permitted to intervene in this proceeding as hereinbefore discussed, subject to the Rules and Regulations of the Commission; *Provided, however,* That the participation of such intervenor shall be limited to matters affecting asserted rights and interests specifically set forth in the petition to intervene; *Provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders issued by the Commission in this proceeding.

By the Commission.

Issued: May 15, 1975.

## INTERSTATE POWER CO.

Further Extension of Procedural Dates

MAY 15, 1975.

On May 8, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued October 18, 1974, as most recently modified by notice issued March 6, 1975, in the above-designated matter, pending Commission action in the settlement agreement filed March 19, 1975. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff's Testimony, July 1, 1975.

Service of Intervenor's Testimony, July 15, 1975.

Service of Company Rebuttal, July 29, 1975.

Hearing, August 12, 1975 (10 a.m. EDT).

KENNETH F. PLUMB,  
Secretary.

[Docket Nos. E-8394; E-8439]

## METROPOLITAN EDISON CO.

Filing of Revised Sheets Pursuant to Settlement Agreement

MAY 7, 1975.

Take notice that on April 7, 1975, Metropolitan Edison Company (Met. Ed.) tendered for filing revised sheets to its FPC Electric Tariff, Original Volume No. 1 incorporating all changes provided by a settlement agreement with Met-Ed's all requirements wholesale customers, Hershey Electric Company and the Borough of Kutztown, Pennsylvania. Met-Ed states that refunds in the amount of \$267,896.48 have been made to those customers. Met-Ed requests an effective date of May 10, 1975.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket Nos. RP73-14, RP73-102, PGA75-3 and AP75-3]

## MICHIGAN WISCONSIN PIPE LINE CO.

Order Clarifying and Modifying Prior Order

Upon review, we find that our order of April 30, 1975, at these proceedings may have been unclear as to what conditions have been placed upon the acceptance of Michigan-Wisconsin's tendered tariff sheets. Ordering Paragraphs (A) and (F) may not have expressed clearly our intention that Mich-Wis' tendered Alternate Ninth Revised Sheet No. 27F was accepted for filing to be placed into effect as of May 1, 1975 and its Ninth Revised Sheet No. 27F was accepted for filing to be placed into effect as of May 2, 1975, subject to the condition that the company file revised sheets reflecting elimination of that portion of its proposed rate increase relating to certain payments made to Exxon.

We also note that Michigan Wisconsin's filing of March 13, 1975, contained no testimony or exhibits supporting its filing and that our order of April 30, 1975, did not provide the company an opportunity to file such direct evidence. To correct this oversight we shall amend ordering paragraph (C) of our April 30 order so as to provide such an opportunity.

*The Commission finds:* Good cause exists to clarify and modify our order of April 30, 1975, in these proceedings as set forth above.

*The Commission orders:* (A) Ordering Paragraphs (A) and (C) of our order of April 30, 1975, in these proceedings are hereby modified and amended as follows:

(A) Pending a hearing and a decision thereon, the proposed changes in rates and charges tendered on March 13, 1975, in Michigan-Wisconsin's Alternate Ninth Revised Sheet No. 27F, Second Revised Volume No. 1, is accepted for filing to be placed into effect as of May 1, 1975; and Ninth Revised Sheet No. 27F, Second Revised Volume No. 1 is accepted for filing to be placed into effect as of May 2, 1975, subject to the company's filing revised tariff sheets reflecting the elimination of that portion of the rate increase relating to payments made to Exxon for exploration and development in Alaska.

(C) On or before July 1, 1975, Michigan-Wisconsin shall file its direct testimony and exhibits relating to the advance payments set for hearing. On or before August 12, 1975, the Commission Staff shall serve its prepared testimony and exhibits. Any prepared testimony and exhibits of the intervening parties shall be served on or before August 26, 1975. Any rebuttal evidence by Michigan-Wisconsin shall be served on or before September 9, 1975.

By the Commission.

Issued: May 15, 1975.

[Docket No. E-9135]

**MISSISSIPPI POWER CO.,  
Extension of Procedural Dates**

MAY 15, 1975.

On May 9, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued December 31, 1974, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff's Testimony, June 17, 1975.  
Service of Intervenor's Testimony, July 1, 1975.  
Service of Company Rebuttal, July 15, 1975.  
Hearing, August 6, 1975 (10 a.m. EDT).

KENNETH F. PLUMB,  
Secretary.

[Docket No. E-9362]

**MISSISSIPPI POWER & LIGHT CO.  
Notice of Cancellation**

MAY 15, 1975.

Take notice that on April 8, 1975, Mississippi Power & Light Company tendered for filing a notice of cancellation of Rate Schedule No. 35.19, effective date June 30, 1974, and filed with the Federal Power Commission by Middle South Services, Inc., as agent for Mississippi Power & Light Company. The Company proposes

March 31, 1975 as the effective cancellation date.

Middle South Services states that notice of the proposed cancellation has been served upon the Tennessee Valley Authority.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 30, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. RI75-40]

**MOBIL OIL CORP.  
Settlement Proposal**

MAY 15, 1975.

Take notice that on May 9, 1975, Mobil Oil Corporation (Petitioner), Three Greenway Plaza East, Suite 800, Houston, Texas 77046, filed a Settlement Proposal in Docket No. RI75-40, pursuant to § 1.18 of the Commission's rules of practice and procedure (18 CFR Chapter I, Subchapter A, Part 1).

Petitioner states that on April 28, 1975, a Settlement Conference was convened to discuss a settlement of the price which would be acceptable to Petitioner with respect to the sale of gas from the LVO Livingston Gas Unit and the

Texaco-operated Kincheloe Unit, Bradshaw Unit, Hamilton County, Kansas to the purchaser, Kansas-Nebraska Gas Company, Inc. Based on these discussions, the Commission Staff's review of Petitioner's workpapers and records in its offices at Oklahoma City, Oklahoma, and the filing of certain additional data and information, Petitioner proposes and would agree to accept as settlement of the special relief sought for the sale of Petitioner's share of gas from the aforesaid units, a price of 25.6 cents per Mcf, which would become effective upon a proper order issued by the Commission accepting this offer of settlement.

Any person desiring to comment on the proposed settlement should submit the comment to the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, on or before May 28, 1975. Comments will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the person commenting a party to this proceeding.

[Docket No. RM74-16]

**NATURAL GAS COMPANIES**

**Order Granting Petitions for Rehearing for Purposes of Further Consideration**

Petitions for rehearing granted: Natural Gas Companies annual report of proved domestic gas reserves: FPC Form No. 40.

On February 25, 1975, the Commission issued Order No. 526,<sup>1</sup> which promulgated a new FPC Form No. 40. The effective date of this order was to be April 28, 1975. On April 15, 1975, we issued an order postponing the effective date of Order No. 526 to a date yet to be determined and granting petitions for rehearing for purposes of further consideration.

Since the April 15, 1975 order was issued, additional petitions for rehearing have been filed by Devon Corporation and Basin Petroleum Corp. (Devon and Basin) on April 21, 1975, Samedan Oil Corporation (Samedan) on the same date, Champlin Petroleum Company, (Champlin) on April 24, 1975, Ashland Oil, Inc. (Ashland) on April 28, 1975, Eason Oil Company (Eason) on May 1, 1975, Michigan Consolidated Gas Company, (Michigan Consolidated) on May 2, 1975, and Tesoro Petroleum Corporation (Tesoro) on May 14, 1975. In accordance with the April 15, 1975 order all these petitions will be granted for the reasons expressed therein.

<sup>1</sup> Order No. 526, Order Prescribing Procedures And Instituting Uniform Annual Filing Of National Proved Domestic Natural Gas Reserves Information, Docket No. RM 74-16, — FPC — (Issued February 25, 1975).

*The Commission orders:* The petitions for rehearing of Order No. 526 filed by Devon and Basin, Samedan, Champlin, Ashland, Eason, Michigan Consolidated, and Tesoro are granted for purposes of further consideration for the reasons expressed in the order issued April 15, 1975 in Docket No. RM74-16.

By the Commission.

[Docket No. E-9433]

**PUBLIC SERVICE INDIANA  
Termination of Interconnection Agreement**

MAY 15, 1975.

Take notice that Public Service Indiana (PSI), tendered for filing on May 1, 1975, by letter, notice of its intention to terminate its interconnection

agreement with the City of Washington, Indiana (City).

PSI states that the interconnection agreement is dated October 13, 1969; is on file with the FPC as Rate Schedule FPC No. 215; and that PSI's action is pursuant to section 10.3 of Article 10 of said agreement.

PSI states that it intends to terminate the agreement at the end of the fixed term of eight consecutive years, provided by the agreement.

PSI states that City's contention before the FPC that the present interconnection agreement is a fixed rate contract and that the rates incorporated therein cannot be changed by PSI even in the light of PSI's escalating costs, makes it necessary for PSI to give this "notice of termination".

PSI states that this "notice" is given more than 30 months prior to the termination of the fixed term of the present interconnection agreement, so that there is ample time for PSI and the City to negotiate a new interconnection agreement.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 27, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. CP75-326]

**TRANSCONTINENTAL GAS PIPE LINE  
CORP.**

**Notice of Application**

MAY 15, 1975.

Take notice that on May 1, 1975, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP75-326 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the operation of two additional points of delivery from Consolidated Gas Supply Corporation (Consolidated) to Applicant under the transportation agreement between the two companies dated September 12, 1972, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

By agreement dated February 21, 1975, Applicant and Consolidated have

provided for additional delivery points on Applicant's existing lines on the Texaco Inc. "A" Production Platform in Block 206, and on the Texaco Inc. "C" Production Platform in Block 196, both of which are in the Block 205 Field, Eugene Island Area, offshore Louisiana. Authorization for operation of such delivery points for transportation of gas to be purchased by Consolidated in the Block 205 Field is requested in this application.

Under the terms of the September 12, 1972, Transportation agreement, Applicant is presently obligated to transport for Consolidated on a firm basis 71,548 Mcf of gas per day. The transportation service was authorized by Commission order issued August 23, 1972, in Docket No. CP72-244.

Applicant states that Consolidated will purchase gas, to be delivered at the proposed delivery points, from Texaco Inc. in the Block 205 Field. Applicant further states that the addition of the proposed delivery points will assist Consolidated by making additional volumes available to utilize the firm capacity committed to it under the September 12, 1972, agreement.

Applicant proposes no increase in the transportation demand volumes and no additional facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 30, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be

unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMS,  
Secretary.

[FR Doc. 75-13455 Filed 5-21-75; 8:45 am]

[Docket No. CP75-330]  
TRUNKLINE GAS CO.  
Notice of Application

MAY 15, 1975.

Take notice that on May 7, 1975, Trunkline Gas Company (Applicant), P.O. Box 1842, Houston, Texas 77001, filed in Docket No. CP75-330 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to transport for various producers natural gas on a firm basis from points of receipt in the South Marsh Island Area, offshore Louisiana, to a point of delivery in St. Mary Parish, Louisiana, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant requests authorization to transport up to 55,177 Mcf of gas per day pursuant to agreements dated March 31, 1975, and April 29, 1975. The March 31, 1975, agreement is between Applicant and the Placid Group, which is composed of the following producers: Placid Oil Company, Hunt Industries, Hunt Petroleum Corporation, Hamilton Brothers Oil Company, Hamilton Brothers Exploration Company and Hamilton Brothers Petroleum Corporation. The April 29, 1975, agreement is between Applicant and the Ashland Group, which is composed of the following producers: Ashland Oil, Inc., Kewanee Oil Company, and Highland Resources, Inc.

The subject gas will be transported from South Marsh Island Blocks 268, 269 and 281 into the offshore line for which Applicant is seeking authorization in Docket No. CP75-19 to an onshore connection with Applicant's existing Terrebonne system. From such point the gas will be transported to the existing Calumet Processing Plant, operated by Shell Oil Company and the proposed Patterson II Processing Plant to be operated by Placid Oil Company. Following processing, the gas is to be redelivered for the account of the producers to Southern Natural Gas Company (Southern) at a new point of delivery 4.9 miles downstream of the Calumet Processing Plant on an existing right-of-way of Southern. Applicant states that authorization for such new point of delivery has been requested in Docket No. CP75-149, wherein Applicant proposes to transport gas from South Marsh Island Blocks 268, 269 and 281 on a nearly identical basis for Southern.

Applicant proposes to charge for the service to be performed a price derived from the full cost of service for the facilities involved in rendering the service. The total charge is \$107,043.38 per month: \$58,200.00 for the transportation of 30,000 Mcf of gas for the Placid Group

and \$48,843.38 for the transportation of 25,177 Mcf of gas for the Ashland Group.

The facilities Applicant proposes to use for the transportation service proposed herein are the subject of applications in Docket Nos. CP75-19 and CP75-149. The transportation service is further dependent upon the Commission's granting of producers' applications to sell gas to Applicant in Docket Nos. CP75-59, CP75-66, CP75-67, CP75-69 and CP75-122, according to the application in the instant docket. Southern has filed related applications in Docket No. CP75-163 for authorization to construct the necessary receiving station at the point of interconnection between Southern's and Applicant's facilities, together with the pipeline and compressor facilities relating to Southern's receipt and transportation of the gas delivered by Applicant, and in Docket No. CP75-316 for authorization to transport gas to two fertilizer plants near Donaldsonville, Louisiana, for the Placid Group. Applicant states that Southern is negotiating a separate agreement with the Ashland Group for a similar service.

Applicant states that it acquired from the producers the commitment of reserves in the South Marsh Island blocks aforementioned by entering into separate gas purchase agreements, advance payment agreements and related agreements and instruments with each producer. Applicant states that these agreements generally provide for Applicant to purchase approximately 60 percent of the reserves from said blocks with the producers' having the right to elect to reserve up to one half of their reserves for their own use. Southern has acquired commitment of the remaining 40 percent of said reserves. Applicant further states that it has completed negotiations with the producers concerning transportation of the reserved gas and that the subject transportation agreements are the result of such negotiations.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 29, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rule of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this ap-

plication if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMS,  
Secretary.

#### FEDERAL RESERVE SYSTEM

##### KLEIN BANCORPORATION, INC.

##### Formation of Bank Holding Company

Klein Bancorporation, Inc., Chaska, Minnesota, has applied for the Board's approval under section 3(a) (1) of the Bank Holding Company Act (12 U.S.C. 1842(a) (1)) to become a bank holding company through acquisition of 95.2 percent of the voting shares of The First National Bank of Chaska, Chaska; 91.9 percent of the voting shares of The First National Bank of Waconia, Waconia; 94.2 percent of the voting shares of The Klein National Bank of Madison, Madison; 96.7 percent of the voting shares of First National Bank in Montevideo, Montevideo; 91.4 percent of the voting shares of State Bank of Young America, Young America; 93 percent of the voting shares of State Bank of Cologne, Cologne; and 87.1 percent of the voting shares of Victoria State Bank, Victoria, all located in Minnesota. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Minneapolis. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received not later than June 9, 1975.

Board of Governors of the Federal Reserve System, May 13, 1975.

[SEAL] ROBERT SMITH, III,  
Assistant Secretary of the Board.

#### NATIONAL CITY CORP.

##### Acquisition of Bank

National City Corporation, Cleveland, Ohio, has applied for the Board's approval under section 3(a) (3) of the Bank Holding Company Act (12 U.S.C. 1842(a) (3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of National City Bank, Mentor, Ohio, a proposed new bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

National City Corporation is also engaged in the following nonbank activities: loans and other extensions of credit; providing insurance that is directly related to an extension of credit; full pay-out leasing of motor vehicles; originating and servicing of mortgage loans; leasing of real property; and providing financial advice and assistance to corporations and other business firms. In addition to the factors considered under section 3 of the Act (banking factors), the Board will consider the proposal in the light of the company's nonbanking activities and the provisions and prohibitions in section 4 of the Act (12 U.S.C. 1843).

The application may be inspected at the Office of the Board of Governors or at the Federal Reserve Bank of Cleveland. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than June 16, 1975.

Board of Governors of the Federal Reserve System, May 15, 1975.

#### PAN AMERICAN BANCSHARES, INC.

##### Order Approving Merger of Bank Holding Companies

Pan American Bancshares, Inc., Miami, Florida ("Pan American"), a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a) (5) of the Act (12 U.S.C. 1842(a) (5)) to merge with General Financial Systems, Inc., Riviera Beach, Florida ("GFS"), under the title and charter of Pan American.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Pan American, the tenth largest banking organization in Florida, controls 15 banks with aggregate deposits of approximately \$558 million, representing 2.4 percent of the total deposits in commercial banks in the State.<sup>1</sup> GFS is the 22nd largest banking organization in the State and controls four banks (one of which has not yet opened for business) with aggregate deposits of approximately \$201 million or 0.9 percent of the total deposits in commercial banks in the State. In addition, GFS owns from 15.1 to 24.9 percent of the voting shares of six other banks (hereafter referred to

<sup>1</sup> All banking data are as of June 30, 1974, and reflect holding company formations and acquisitions approved through February 28, 1975.

as non-subsidiary banks).<sup>2</sup> Upon consummation of the proposed merger, Pan American would control 3.3 percent of the total State deposits and would become the eighth largest banking organization in Florida.

Pan American's subsidiary banks are located in seven different banking markets as follows: seven in the greater Miami market, two in each of the North Broward and Orlando markets; and one in each of the Daytona Beach, Sarasota, Tampa and West Volusia markets.<sup>3</sup> GFS's three operating subsidiary banks (First National Bank and Trust Company of Lake Worth, Lake Worth with deposits of approximately \$91.5 million, First Marine Bank & Trust Company of the Palm Beaches, Riviera Beach with deposits of approximately \$71 million, and First National Bank & Trust Company of Jupiter/Tequesta, Tequesta with deposits of approximately \$39.2 million) are all located in the West Palm Beach market, and its subsidiary bank which has not yet opened for business is located in the Jacksonville market.<sup>4</sup> Neither Pan American nor GFS has any subsidiary banks located within the same market; and neither has any subsidiary banks located in adjacent markets. Moreover, none of GFS's non-subsidiary banks are located within the same markets where Pan American's subsidiary banks are located. Thus, it appears that no meaningful competition presently exists between any of the banking subsidiaries of Pan American and those of GFS, nor is any such competition likely to develop in view of the market separation and Florida's branching laws.

Although consummation of the proposed merger would foreclose the possibility that either Pan American or GFS

<sup>2</sup> This Order does not constitute a determination that any of the six nonsubsidiary banks is or may become a subsidiary of Pan American; nor is this Order any indication that Pan American would be permitted to acquire direct or indirect control of any additional shares of any of said banks. Furthermore, the determination herein does not preclude the Board from determining that Pan American exercises a controlling influence over the management or policies of any of the six nonsubsidiary banks within the meaning of section 2(a) (2) (C) of the Act.

<sup>3</sup> The greater Miami market is approximated by all of Dade County and the Hollywood area of Broward County; the North Broward market is approximated by the northern two-thirds of Broward County; the Orlando market is approximated by all of Orange County and the southern half of Seminole County; the Daytona Beach market is approximated by the coastal half of Volusia County north of Ponce de Leon Inlet; the Sarasota market is approximated by the northern half of Sarasota County; the Tampa market is approximated by all of Hillsborough County and the town of Land O'Lakes in Pasco County; and the West Volusia market is approximated by the inland half of Volusia County, all in Florida.

<sup>4</sup> The West Palm Beach banking market is approximated by the northern three-quarters of Palm Beach County; and the Jacksonville market is approximated by all of Duval County and the town of Orange Park in Clay County, all in Florida.

would enter the banking markets of the other, the Board believes that there is little likelihood of significant potential competition developing between the two banking organizations in the absence of the subject proposal. It does not appear from the facts of record that GFS has the necessary financial resources to expand geographically in the foreseeable future. Although Pan American does appear to possess the financial capability to enter the West Palm Beach market de novo, that market appears only moderately attractive for such entry due in part to the market's population per banking office ratio being below the State average.

In the West Palm Beach market, Pan American operates an office of a mortgage banking subsidiary which makes loans secured by one-to-four unit residential properties. In addition to GFS's three subsidiary banks, 27 other commercial banks, 7 savings and loan associations and 20 mortgage banking companies also make such loans in this market. After consummation of the proposal, Pan American would control less than 4.3 percent of the total loans originated in the market which are secured by one-to-four unit residential properties. Thus, it appears that any adverse competitive effect with respect to such loans would not be significant.

In light of the foregoing and facts of record, the Board concludes that consummation of the proposal would not have any significant adverse effects on existing or potential competition in any relevant area and that the competitive considerations are consistent with approval of the application.

The financial condition and managerial resources of Pan American, GFS and their respective subsidiaries are considered generally satisfactory, and the future prospects for each appear favorable. Furthermore, Pan American has committed itself to maintain an adequate capital position for the subsidiary banks which it will acquire as a result of this proposal. Thus, the banking factors lend weight toward approval of the application. Although there is no evidence to indicate that the banking needs of the residents of the relevant markets are not presently being met, Pan American proposes to provide GFS's present subsidiary banks with international services and increase the lending limits of these banks. Accordingly, considerations relating to the convenience and needs of the communities to be served lend some weight toward approval of the application. Therefore, it is the Board's judgment that consummation of this transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal

Reserve Bank of Atlanta pursuant to delegated authority.  
By order of the Board of Governors,  
effective May 14, 1975.

[SEAL] GRIFFITH L. GARWOOD,  
[FR Doc. 75-13373 Filed 5-21-75; 8:45 am]

#### TEXAS COMMERCE BANCSHARES, INC. Acquisition of Bank

Texas Commerce Bancshares, Inc., Houston, Texas, has applied for the Board's approval under section 3(a) (3) of the Bank Holding Company Act (12 U.S.C. 1842(a) (3)) to acquire 100 percent of the voting shares of the following banks in Dallas, Texas: Northwest National Bank of Dallas, Casa Linda National Bank, Royal National Bank, Fidelity Bank, and The Village Bank (National Association). The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than June 13, 1975.

Board of Governors of the Federal Reserve System, May 14, 1975.

[SEAL] ROBERT SMITH, III,  
Assistant Secretary of the Board,  
[FR Doc. 75-13373 Filed 5-21-75; 8:45 am]

#### WEST POINT FIRST NATIONAL CO. Order Approving Formation of Bank Holding Company

West Point First National Co., Lincoln, Nebraska ("Applicant"), has applied for the Board's approval under section 3(a) (1) of formation of a bank holding company through the acquisition of 84 percent of the voting shares of The First National Bank of West Point, West Point, Nebraska ("Bank").

Notice of the application, affording an opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments has expired, and the application and all comments received have been considered in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, a nonoperating corporation with no subsidiaries, was organized for the purpose of becoming a bank holding company through the acquisition of Bank Bank (deposits of \$16.7 million) is the larger of two banks in West Point, Nebraska. Upon acquisition of Bank,

\* Voting for this action: Vice-Chairman Mitchell and Governors Holland, Wallach and Coldwell. Absent and not voting: Chairman Burns and Governors Sheahan and Bucher.  
† All banking data are as of June 30, 1974.

Applicant would control the 55th largest bank in Nebraska, holding .31 percent of total deposits in commercial banks in the State. Bank is the largest bank in the relevant banking market and controls 27.9 percent of the total commercial bank deposits therein.

The principals involved in this case are also officers and/or directors of NBC Co., Lincoln, Nebraska, a one-bank holding company which owns 99.5 percent of National Bank of Commerce Trust and Savings Association, Lincoln, Nebraska. NBC Co. presently is one of eight affiliated one-bank holding companies that individually own banks across the State, collectively holding 3.8 percent of the State's deposits. The purpose of the transaction is to effect an eventual transfer of the ownership of Bank to the shareholders of NBC Co. The nearest affiliates of NBC Co. are located in Fremont approximately 33 miles from Bank and operate in a separate market. There is no existing competition between Bank and its potential affiliates. Accordingly, it is concluded that consummation of the proposal would not have any adverse effect on other banks in the relevant market. Thus, competitive considerations are consistent with approval.

The financial and managerial resources and future prospects of both Applicant and Bank are considered satisfactory. In light of Bank's past earnings and its anticipated growth, the projected earnings of Bank appear to provide Applicant with the necessary flexibility to meet its annual debt servicing requirement and to maintain an adequate capital position for Bank. Therefore, considerations relating to banking factors are consistent with approval of the application.

Although consummation of the proposal would effect no changes in the banking services offered by Bank, the considerations relating to the convenience and needs of the community to be served are consistent with approval. It has been determined that consummation of the proposal would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above.

The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Kansas City, pursuant to delegated authority.

By order of the Acting Secretary of the Board, acting pursuant to delegated authority from the Board of Governors effective May 12, 1975.

[SEAL] GRIFFITH L. GARWOOD,  
Assistant Secretary of the Board,  
[FR Doc. 75-13374 Filed 5-21-75; 8:45 am]

\* The relevant banking market is approximated by Cumming County.

#### FEDERAL TRADE COMMISSION LINE OF BUSINESS REPORTING PROGRAM

Confidentiality Rules and Procedures for the 1974 Reporting Year  
Correction

In FR Doc. 75-13068 appearing at page 21542 in the issue for Friday, May 16, 1975, remove the following words from the seventh and eighth lines of the seventh paragraph: "substantially similar provisions in".

#### GENERAL ACCOUNTING OFFICE REGULATORY REPORTS REVIEW Receipt and Approval of a Proposed Document

The following request for clearance of a proposed document intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on May 14, 1975. (See 44 U.S.C. 3512 (c) & (d)). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt and the action taken by GAO.

##### FEDERAL ENERGY ADMINISTRATION

Request was made to GAO for approval of a "Fuel Company Authorization Document." This Document is going to be used in conjunction with FEA's Project Conserve Questionnaire and requests only the respondents name, address, signature, and the name of the fuel company used by the respondent. In view of the minimal amount of information requested, GAO does not feel that it is necessary to allow time for public comment on the document.

GAO has provided clearance of this collection of information under number B-181254 (S75027). This clearance expires October 31, 1975.

NORMAN F. HEYL,  
Regulatory Reports  
Review Officer.

#### GENERAL SERVICES ADMINISTRATION COMMISSION ON GOVERNMENT PROCUREMENT

##### Contractor Debarment Policies; Opportunity for Comment

The purpose of this notice is to make known an interagency task group proposal on recommendation A-46 of the Commission on Government Procurement, and to offer an opportunity for comment on this recommendation from interested parties in the private sector. Interested persons may submit their comments to the General Services Administration (AMC), Washington, D.C. 20405. To be given consideration, comments must be received on or before July 14, 1975.

Background. The Office of Management and Budget (OMB), in memoranda to Heads of Executive Departments and

Agencies, dated December 7, 1972, and March 14, 1973, established and outlined plans for the coordination of executive branch efforts in response to the Commission on Government Procurement (COGP) Report. Interagency task groups made up of assigned lead and participating agencies were formed to examine and recommend executive branch positions on each of the 149 COGP recommendations. Direction of executive branch efforts on COGP matters is a function delegated to the General Services Administration by Executive Order 11717 on May 9, 1973.

The subject COGP Recommendation reads as follows:

A-46: Revise current debarment policies to provide for uniform treatment for comparable violations of the various social and economic requirements and to establish a broader range of sanctions for such violations.

Task Group Proposal for an Executive Branch Position/Implementation. The interagency task group favored adoption of this recommendation with a modification. The change would delete "and to establish a broader range of sanctions for such violations" and replace it with "and provide for reinstatement of a contractor's eligibility after he has demonstrated compliance." The Task Group believes that current debarment policies have already been revised since the COGP report. Both the FPR (Amendment 127, April 17, 1974) and ASPR (July 1974) have added language concerning due process in a contractor suspension situation.

The Task Group proposes that the Office of Federal Procurement Policy (OFPP) should initiate action to insert into existing statutes or administrative regulations a provision limiting debarment for a violation to a period of not more than three (3) years. Further, the Task Group proposes that the OFPP initiate a consolidation of all contractor suspended, debarment, and ineligibility lists. These tasks, the group believes, fall into the scope of sections 6(d) (1) and 6(d) (5), respectively, of the OFPP Act. Lastly, the Task Group considered two other "sanctions": fines and reinstatements. The group concurs in reinstatement of contract eligibility upon demonstrated compliance, but rejects the use of fines as proposed by the Commission for several reasons given below.

Areas of Consideration. The Task Group considered two areas of debarment—i.e., the Labor Department statutes and Administrative debarment. The Labor statutes already provide for debarment action for failure to comply in appropriate cases. The Department of Labor (DOL) has spent much time and money in preparing a consolidated labor statute which will include provisions for uniform labor debarment procedures. A bill calling for such consolidation will be part of the DOL legislative program for the 94th Congress.

In its discussion of A-46, the Task Group considers only administrative debarment procedures. Their report deals with A-46 from three standpoints: due

process in debarment/suspension cases, uniformity of procedure, and other sanctions.

a. Due Process: Events have overtaken the COGP report in this area. The Task Group believes that the FPR revision of 1974 adequately handles this issue, including a guarantee for a hearing. ASPR coverage allows for information in opposition to a proposed debarment without specifically citing the opportunity for a "hearing." ASPR should be amended by providing for a hearing in the interest of due process.

b. Uniform Procedures: The Task Group recommends that a set of mandatory standards be developed for use by all Government agencies. These standards should outline the grounds for Administrative debarment/suspension and define procedures for carrying out the standards. The Group strongly advocates consolidation of all debarred/suspended lists to insure that a contractor debarred by one agency shall be considered debarred/suspended by all Government agencies, especially if the circumstances for such action are based on uniform standards. Currently, GSA, Army (for DOD and NASA), and the Comptroller General maintain "centralized" debarred/suspended lists.

c. Other Sanctions: The use of fines was considered and ruled out for the following reasons: (1) Some executive agencies do not have statutory authority to assess fines; (2) To determine the amount of a fine, even within a range defined by statute, is a highly subjective action which would be difficult to defend; (3) Fines appear to be more in the nature of a punitive action rather than an action to protect the Government; (4) Assessment of fines could lead to a contractor psychology causing repetition of violations in the thought that, if discovered, only monetary payment would be imposed; and (5) Some debarments are effected as a consequence of court convictions, in which cases, fines in addition to court-imposed penalties would be inappropriate. Reinstatement of contractors after demonstrated compliance should be made part of the uniform debarment/suspension criteria.

Dissenting Opinion: The Department of Transportation member dissented on the implementation of administrative debarment proceedings. He believes that administrative procedures for debarment should be conducted in the same manner as Labor Department statutes. In the latter, Labor Department procedures usually involve full due process consideration before Administrative Law Judges. Administrative debarments are heard before agency personnel. The DOT member's minority report states in summary:

It is my view that due process should be provided from the beginning of debarment considerations, and that it is both practicable and necessary to consider statutory and regulatory debarment together rather than separately to arrive at optimum Government-wide uniformity. As the Commission [on Government Procurement] recog-

nized, minor statutory changes will be necessary.

Publication of this notice is to invite comments from the private sector and does not imply executive branch acceptance of the proposed position. Responses received from interested parties regarding this notice of opportunity for comment will be given careful consideration in the formulation of an executive branch position.

Dated at Washington, D.C. on May 14, 1975.

R. E. ZECHMAN,  
Associate Administrator for  
Federal Management Policy.

#### COMMISSION ON GOVERNMENT PROCUREMENT

##### Executive Branch Position on Recommendation D-4

Recommendation D-4 of the report of the Commission on Government Procurement concerns the centralization of policy responsibility for specifications used by the Government in the procurement of commercial products. The Commission recommended that the Office of Federal Procurement Policy be responsible for policy regarding the development and coordination of such specifications.

The enactment of the Office of Federal Procurement Policy Act (Pub. L. 93-400) resulted in the acceptance by the executive branch of Recommendation D-4. The Act has the effect of vesting in the Administrator for Federal Procurement Policy the policy responsibility regarding the development and coordination of purchase specifications. Consequently, recommendation D-4 was implemented when the Office of Federal Procurement Policy was activated on December 31, 1974.

Dated at Washington, D.C., on May 15, 1975.

R. E. ZECHMAN,  
Associate Administrator.

#### REGIONAL PUBLIC ADVISORY PANEL ON ARCHITECTURAL AND ENGINEERING SERVICES

##### Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the Regional Public Advisory Panel on Architectural and Engineering Services, Region 3, June 5, 1975, from 10:30 a.m. to 12 noon, Room 202, General Services Administration, Winder Building, 17th and F Streets NW., Washington, D.C. The meeting will be devoted to the initial step of the procedures for screening and evaluating the qualifications of architect-engineers under consideration for selection to furnish professional services to prepare a comprehensive study to determine the feasibility of installing at the GSA Central Heating Plant a system to permit the burning of high sulphur coal as fuel, within the emission limits of the 1970 Federal Clean Air Act. Frank and open

discussion of the professional qualifications of the firms being considered is essential to insure selection of the best qualified firms. Accordingly, pursuant to a determination that it will be concerned with a matter listed in 5 U.S.C. 522(b) (5) the meeting will not be open to the public."

BEN SCHIFFMAN,  
Acting Regional Administrator.

MAY 15, 1975.

#### NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-295 and 50-304]

#### COMMONWEALTH EDISON CO.

##### Proposed Issuance of Amendments to Facility Operating Licenses

The Nuclear Regulatory Commission (the Commission) is considering the issuance of amendments to Facility Operating Licenses No. DPR-39 and DPR-48 issued to Commonwealth Edison Company (the licensee) for operation of the Zion Station Units 1 and 2 (the facility) located in Zion, Illinois.

In accordance with the licensee's application for license amendments dated April 21, 1975, the amendments would modify operating limits in the Technical Specifications based upon an evaluation of ECCS performance calculated in accordance with an acceptable evaluation model that conforms to the requirements of the Commission's regulations in 10

CFR 50.46. The amendments would modify various limits established in accordance with the Commission's Interim Acceptance Criteria, and would, with respect to the Zion Station Units 1 and 2, terminate the further restrictions imposed by the Commission's December 27, 1974 Order for Modification of License, and would impose instead, limitations established in accordance with the Commission's Acceptance Criteria for Emergency Core Cooling Systems for Light Water Nuclear Power Reactors, 10 CFR 50.46.

Prior to issuance of the proposed license amendments, the Commission will have made the findings required by the Act and the Commission's regulations.

By June 23, 1975 the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendments to the subject facility operating licenses. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 and to Mr. John W. Rowe, Isham, Lincoln & Beale, One First National Plaza, Chicago, Illinois 60690, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may

present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see (1) the application for amendments dated April 21, 1975, and (2) the Commission's Order for Modification to License and the documents referred to in the Order dated December 27, 1974, published in the FEDERAL REGISTER on January 9, 1975 (40 FR 1784), which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Waukegan Public Library, 128 North County Street, Waukegan, Illinois 60085. As they become available, the Commission's related Safety Evaluation and license amendments and any attachments may be inspected at the above locations. A copy of the license amendments and attachments and the Safety Evaluation, when available, may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 14th day of May 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,  
Chief, Operating Reactors  
Branch No. 1, Division of Reactor Licensing.

[Docket Nos. 50-275 O.L., 50-323 O.L.]

#### PACIFIC GAS AND ELECTRIC CO. (DIABLO CANYON UNITS NOS. 1 AND 2)

##### Order Relative to Prehearing Conference Concerning Special Nuclear Materials and Marine Environment

Before the Atomic Safety and Licensing Board.

The Board will hold a prehearing conference at the Cavalier Room, San Luis Bay Inn, near Avila Bay (San Luis Obispo Drive Exit off Highway 101) on May 28, 1975, commencing at 10 a.m. (local time). The Board requests that briefs relating to its jurisdiction to consider the application for special nuclear materials be submitted. The Mothers for Peace, if they so desire, may submit additional information concerning their motion with service on the Board, Applicant and Staff, prior to the prehearing conference. The Board expects the parties to be in contact to make the necessary arrangements for this in person service in San Luis Obispo. The Board will be in session the afternoon of Tuesday the 27th at Sands Motel, 1930 Monterey Street, San Luis Obispo, and will expect the documents to be there by noon.

The Board feels it is still hampered by a lack of information concerning the marine environment, and will further pursue this matter at the conference.

It is so ordered.

Issued at Bethesda, Maryland this 16th day of May, 1975.

For the Atomic Safety and Licensing Board.

ELIZABETH S. BOWERS,  
Chairman.

[FR Doc. 75-13394 Filed 5-21-75; 8:45 am]

[Docket No. 50-244]

#### ROCHESTER GAS AND ELECTRIC CO.

##### GINNA Nuclear Power Plant; Negative Declaration Regarding Proposed Changes to the Technical Specifications of License DPR-18

The Nuclear Regulatory Commission (the Commission) has considered the issuance of changes to the Technical Specifications of Facility Operating License No. DPR-18. These changes would authorize the Rochester Gas and Electric Company (the licensee) to operate the Ginna Nuclear Power Plant (located in Wayne County, New York) with changes to the limiting conditions for operation resulting from application of the Acceptance Criteria for Emergency Core Cooling System (ECCS). This change is being made in conjunction with a reactor refueling for core cycle 5.

The U.S. Nuclear Regulatory Commission, Division of Reactor Licensing, has prepared an environmental impact appraisal for the proposed changes to the Technical Specifications of License No. DPR-18, Ginna Nuclear Power Plant, described above. On the basis of this appraisal, the Commission has concluded that an environmental impact statement for the particular action is not warranted because there will be no environmental impact attributable to the proposed action other than that which has already been predicted and described in the Commission's Final Environmental Statement for Ginna Nuclear Power Plant issued in December 1973. The environmental impact appraisal is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Lyons Public Library, 67 Canal Street, Lyons, New York and at the Rochester Public Library, 115 South Avenue, Rochester, New York.

Dated at Rockville, Maryland this 30th day of April 1975.

For the Nuclear Regulatory Commission.

WM. H. RECAN, JR.,  
Chief, Environmental Projects  
Branch 4, Division of Reactor Licensing.

[Docket No. 50-244]

#### ROCHESTER GAS AND ELECTRIC CORP.

##### Issuance of Amendment to Provisional Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 7 to Provisional Operating License No. DPR-18 issued to Rochester Gas and Electric Corporation which revised Tech-

nical Specifications for operation of the R. E. Ginna Nuclear Power Plant located in Wayne County, New York. The amendment is effective as of its date of issuance.

The amendment (1) changes operating limits in the Technical Specifications based upon an acceptable evaluation model that conforms to the requirements of 10 CFR 50.46; (2) terminates restrictions imposed on the facility by the Commission's December 27, 1974 Order for Modification of License, and imposes instead, limitations established in accordance with 10 CFR 50.46; (3) incorporates an updated inservice inspection program for safety related components to (a) meet section XI of the ASME Boiler and Pressure Vessel Code, (b) provide an augmented inservice inspection program for high energy piping outside of containment, and (c) provide requirements for steam generator inspection consistent with Regulatory Guide 1.83; and (4) decrease the maximum permissible steam generator leakage from 1 gpm to 0.1 gpm to avoid operation with significant steam generator tube cracks.

Notice of Proposed Issuance of Amendment to Provisional Operating License in connection with items (1) and (2) was published in the FEDERAL REGISTER on March 24, 1975 (40 FR 13051) and in connection with item (3) was published in the FEDERAL REGISTER on March 28, 1975 (40 FR 14125). No request for a hearing or petition for leave to intervene was filed following notice of the proposed actions.

For further details with respect to this action see (1) the applications for amendment dated October 31, 1974, March 11 and April 28, 1975, and supplements dated April 1 (2 letters), 8, and 30, 1975, and May 13, 1975; (2) Amendment No. 7 to License No. DPR-18, with Change No. 16; (3) the Commission's related Safety Evaluation; and (4) the Commission's Negative Declaration dated April 30, 1975, which is being published concurrently with this notice, and associated Environmental Impact Appraisal. All of these items are available for public inspection at the Commission's Public Document Room 1717 H Street, NW., Washington, D.C. and at the Lyons Public Library, 67 Canal Street, Lyons, New York 14489 and at the Rochester Public Library, 115 South Avenue, Rochester, New York 14627.

A copy of items (2), (3), and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 14th day of May 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,  
Chief, Operating Reactors  
Branch No. 1, Division of Reactor Licensing.

[FR Doc. 75-13398 Filed 5-21-75; 8:45 am]

[Docket No. 50-206]

#### SOUTHERN CALIFORNIA EDISON CO. AND SAN DIEGO GAS AND ELECTRIC CO. Issuance of Amendment to Provisional Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 11 to Provisional Operating License No. DPR-13 issued to Southern California Edison Company and San Diego Gas and Electric Company (the licensee) which revised Technical Specifications for operation of the San Onofre Nuclear Generating Station, Unit 1, located in San Diego County, California. The amendment is effective as of its date of issuance.

The amendment modifies those provisions in the Technical Specifications relating to control group insertion limits and continuous power distribution monitoring for operation with the Cycle 5 core.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment is not required since this amendment is substantially the same as that identified in the Notice of Proposed Issuance of Amendment to Provisional Operating License, published in the FEDERAL REGISTER on February 13, 1975 (40 FR 6724), which was not implemented because it was superseded by the application for this amendment, and such differences as do exist, do not involve a significant hazards consideration. No request for a hearing or petition for leave to intervene was filed following notice of the earlier proposed action.

For further details with respect to this action, see (1) the application for amendment dated March 7, 1975, and supplements dated April 23 and May 2, 1975, (2) Amendment No. 11 to License No. DPR-13, with Change No. 21, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the San Clemente Public Library, 233 Granada Street, San Clemente, California 92672.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 13th day of May 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,  
Chief, Operating Reactors  
Branch No. 1, Division of Reactor Licensing.

[FR Doc. 75-13397 Filed 5-21-75; 8:45 am]

[Docket No. 50-407]

**UNIVERSITY OF UTAH****Order Extending Construction Completion Date**

The University of Utah is the holder of Construction Permit No. CPRR-119, issued by the Commission on April 24, 1973, for construction of a TRIGA Mark I nuclear reactor for research purposes on the University's campus at Salt Lake City, Utah.

On April 15, 1975, The University of Utah filed a request for an extension of the completion date due to extensive testing requirements before final inspection required for completion of the facility. This action involves no significant hazards consideration; good cause has been shown for the delay; and the requested extension is for a reasonable period, the bases for which are set forth in the staff evaluation dated May 15, 1975.

It is hereby ordered, That the latest completion date for Construction Permit No. CPRR-119 is extended from June 1, 1975, to September 1, 1975.

Date of Issuance: MAY 15, 1975.

For the Nuclear Regulatory Commission.

KARL R. GOLLER,  
Assistant Director for Operating Reactors, Division of Reactor Licensing.

[FR Doc. 75-13398 Filed 5-21-75; 8:45 am]

[Docket No. 50-261]

**CAROLINA POWER & LIGHT CO.****Issuance of Amendment to Facility Operating License**

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 11 to Facility Operating License No. DPR-23 issued to Carolina Power & Light Company which revised Technical Specifications for operation of the H. B. Robinson Unit No. 2, located in Darlington County, South Carolina. The amendment is effective as of its date of issuance.

The amendment revises the provisions in the Technical Specifications relating to the minimum boron concentration permissible in the Boron Injection Tank while operating in accordance with the licensee's application for amendment dated August 30, 1974. Present Technical Specifications limit the minimum boron concentration to 20,000 ppm. The amendment allows operation for a period not to exceed 24 hours if the boron concentration in the Boron Injection Tank falls below 20,000 ppm and is greater than 15,000 ppm. If the concentration falls below 15,000 ppm, the reactor would be placed in the hot shutdown condition utilizing normal operating procedures.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings

as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated August 30, 1974, (2) Amendment No. 11 to License No. DPR-23, with Change No. 36 and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. and at the Hartsville Memorial Library, Home and Fifth Avenue, Hartsville, South Carolina 29550.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 15th day of May, 1975.

For the Nuclear Regulatory Commission.

GEORGE LEAR,  
Chief, Operating Reactors Branch  
#3, Division of Reactor Licensing.

[FR Doc. 75-13495 Filed 5-21-75; 8:45 am]

[Docket No. 50-247]

**CONSOLIDATED EDISON CO. OF NEW YORK, INC.****Issuance of Amendment to Facility Operating License**

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 13 to Facility Operating License No. DPR-26 issued to Consolidated Edison Company of New York, Inc. which revised Technical Specifications for operation of the Indian Point Nuclear Generating Unit No. 2, located in Buchanan, Westchester County, New York. The amendment is effective as of its date of issuance.

This amendment incorporates in the Indian Point Nuclear Generating Unit No. 2 Technical Specifications a revised section on Administrative Controls and a revised definition of Abnormal Occurrence.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated December 2, 1974, (2) Amendment No. 13 to License No. DPR-26, with Change No. 10 and (3) the Commission's related Safety Evaluation. All

of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW, Washington, D.C. and at the Hendrick Hudson Free Library, 31 Albany Post Road, Montrose, New York 10548.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

For the Nuclear Regulatory Commission.

Dated at Bethesda, Maryland, this 9th day of May, 1975.

GEORGE LEAR,  
Chief, Operating Reactors Branch  
#3 Division of Reactor Licensing.

[FR Doc. 75-13496 Filed 5-21-75; 8:45 am]

[Docket No. 50-331]

**IOWA ELECTRIC LIGHT AND POWER CO.****Issuance of Amendment to Facility Operating License**

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 7 to Facility Operating License No. DPR-49 issued to Iowa Electric Light and Power Company which revised Technical Specifications for operation of the Duane Arnold Energy Center located in Linn County, Iowa. The amendment is effective as of its date of issuance.

The amendment changes references from the U.S. Atomic Energy Commission to the U.S. Nuclear Regulatory Commission. Also certain soil and vegetation environmental sampling locations are changed and sampling frequencies adjusted to availability of crops. Administrative controls in the technical specifications were amended regarding operating procedure preparation, review and approval.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated February 21, 1975, and (2) Amendment No. 7 to License No. DPR-49 with Change No. 8. Both of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. and at the Cedar Rapids Public Library, 426 Third Avenue, SE, Cedar Rapids, Iowa 52041.

A copy of item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 16th day of May 1975.

For the Nuclear Regulatory Commission.

Chief, Operating Reactors Branch  
#4, Division of Reactor Licensing.

[FR Doc. 75-13498 Filed 5-21-75; 8:45 am]

[Dockets Nos. 50-277 and 50-278]

**PHILADELPHIA ELECTRIC CO., ET AL.****Issuance of Amendments to Facility Operating Licenses**

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 8 and 6 to Facility Operating Licenses Nos. DPR-44 and DPR-56 issued to Philadelphia Electric Company, Public Service Electric and Gas Company, Delmarva Power and Light Company, and Atlantic City Electric Company which revised Technical Specifications for operation of the Peach Bottom Atomic Power Station Units 2 and 3, located in Peach Bottom, York County, Pennsylvania. The amendment is effective as of its date of issuance.

The amendment permits correction of a typographical error. The Confirmatory Low Level Trip setting had been incorrectly specified as less than, or equal to, 6 inches. This correction will change the setting to greater than, or equal to, 6 inches.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated April 11, 1975, (2) Amendments Nos. 8 and 6 to Licenses Nos. DPR-44 and DPR-56, with Changes Nos. 9 and 6, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. and at the Martin Memorial Library, 159 E. Market Street, York, Pennsylvania 17401.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 8th day of May, 1975.

For the Nuclear Regulatory Commission.

**REGULATORY GUIDES****Issuance and Availability**

The Nuclear Regulatory Commission has issued two new guides in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations, and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.70.31, "Information for Safety Analysis Reports—Plant Procedures," and Regulatory Guide 1.70.32, "Information for Safety Analysis Reports—Reactor Water Cleanup System," identify information that is needed in safety analysis reports at the construction permit and operating license stages of review.

These guides are two of a number being issued in the 1.70.X series to identify information that has often been missing from applicants' safety analysis reports or to present revisions necessary to make a portion of the "Standard Format and Content of Safety Analysis Reports for Nuclear Power Plants," Revision 1, October 1972 (Regulatory Guide 1.70), consistent with the appropriate Standard Review Plan. Standard Review Plans (SRPs) are being prepared by the NRC staff for the guidance of staff reviewers who perform the detailed safety review of applications to construct or operate nuclear power plants. A primary purpose of SRPs is to improve the quality and uniformity of staff reviews and to provide a well-defined base from which to evaluate proposed changes in the scope and requirements of reviews. A complete Revision 2 of the Standard Format incorporating the changes presented in this 1.70.X series will be issued following completion of publication of the SRPs.

Comments and suggestions in connection with improvements in all published guides are encouraged at any time. Public comments on Regulatory Guides 1.70.31 and 1.70.32 will, however, be particularly useful in developing the forthcoming revision of the Standard Format if received by July 21, 1975.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory Guides are available for inspection at the Commission's Public

Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them. (5 U.S.C. 522(a))

Dated at Rockville, Maryland this 15th day of May 1975.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,  
Acting Director,  
Office of Standards Development.

**NATIONAL TRANSPORTATION SAFETY BOARD**

[1448B; 1536, 1537; 1434A, 1425]

**ACCIDENT REPORT; SAFETY RECOMMENDATIONS AND RESPONSES****Availability and Receipt**

The National Transportation Safety Board announces the issuance last week of a highway accident report and two safety recommendation letters. Also, two letters responsive to earlier Safety Board recommendations were received.

The report and the recommendation letters are available to the general public; single copies may be obtained without charge. A \$4.00 user-service charge will be made for each letter responsive to Board recommendations, and a charge of 10¢ per page will be made for reproduction. All requests must be in writing, addressed to: Publications Unit, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of the accident report may be purchased from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

**HIGHWAY ACCIDENT REPORT**

Report No. NTSB-HAR-75-2, released May 15, 1975, concerns a series of multiple collisions on the New Jersey Turnpike, killing nine persons and injuring 39 others during the night of October 23-24, 1973. The Safety Board determined that the probable cause was the "penetration of vehicles into areas of severely reduced visibility due to fog and smoke" from nearby dump fires which had not been promptly put out. The Board also found that "the delay in closing the affected roadways by the New Jersey State Police contributed to the number of accidents."

The report contains six recommendations, Nos. H-75-3 through 8, which are intended to prevent recurrence of such accidents. The Board recommends that: (1) New Jersey State Police insure that all the weather reports it receives from its private weather service are distributed as they are received

## NOTICES

to all its troop stations on the turnpike "and are thoroughly understood by all patrol personnel";

(2) The New Jersey Turnpike Authority, in implementing its automatic traffic control system, consider methods for immediately and safely closing the turnpike manually; (3) the U.S. Environmental Protection Agency (EPA) include in its proposed guidelines "measures to prevent abandoned dumps and landfills from becoming hazards to public health and safety"; (4) the New Jersey Department of Environmental Protection revise its sanitary code for solid waste disposal to require property owners to close old dump sites properly; (5) EPA, the New Jersey Department of Environmental Protection, the Hackensack Meadows Development Commission, and the U.S. Corps of Engineers cooperatively "eliminate the possibility of fire and smoke" from old dumps in the meadows; and (6) the National Highway Traffic Safety Administration modify Federal Highway Traffic Safety Standard No. 4, "Driver Education," to include more definitive information relative to reduced-visibility driving.

## SAFETY RECOMMENDATIONS

A-75 43 and 44, issued May 12, 1975, to the Federal Aviation Administration, concern main landing gear aft trunnion failures. Recommendations are that the FAA (1) require by Airworthiness Directive, a one-time visual inspection of all Boeing 727 spare and in-service main landing gear outer cylinders at the upper radius area of the aft trunnion for machining grooves visible under the paint finish, and, if any visible grooves or cracks are found, repair or replace as required; and (2) reassess the landing gear manufacturer's quality control procedures and eliminate the deficiencies which enabled an improperly machined part to enter service.

R-75-7, issued May 15, 1975, to the Federal Railroad Administration, resulted from the Safety Board's investigation of the derailment, February 21, 1975, of a new electric locomotive, class E60CP, built by the General Electric Company for Amtrak. The locomotive derailed during a test run on the Penn Central, sustaining vibratory yawing on a track which caused no reported problems to other trains. The Board recommends that FRA monitor the testing of the E60CP locomotive and determine that the conditions which caused the derailment are corrected before the locomotive is placed in service.

## RESPONSES TO SAFETY RECOMMENDATIONS

The Federal Aviation Administration responded May 2, 1975, to Safety Board recommendations A-75-22 through 24, stating that they will (1) survey available icing test facilities to determine the capabilities and limitations of each facility, (2) prepare an air carrier operations alert bulletin regarding the possibility of in-flight engine icing while operating at reduced power, and (3) analyze reports of incidents of shutdown of large turbofan engines after bird ingestion. FAA will advise of intended courses of action on these recommendations by June 30.

National Aeronautics and Space Administration's response of May 6, 1975, to Safety Board recommendation A-75-16 (40 FR 19043) reports on progress of NASA's research programs concerning uncontained failed jet engine rotor fragments and improved turbine disk design concepts. NASA will continue regularly to inform the Safety Board of progress in rotor burst protection research.

NATIONAL ADVISORY COUNCIL ON  
SUPPLEMENTARY CENTERS AND  
SERVICES

## Meeting

Notice of Public Meeting of the National Advisory Council on Supplementary Centers and Services.

Notice is hereby given, pursuant to Pub. L. 92-436, that the next meeting of the National Advisory Council on Supplementary Centers and Services will be held on June 12 and 13, 1975, from 9 a.m. to 5 p.m. at the Westbury Hotel, 480 Sutter Street, San Francisco, California.

The National Advisory Council on Supplementary Centers and Services is established under section 309 of Pub. L. 90-247. The Council is directed to advise the President and the Congress concerning the operation of Title III of the Elementary and Secondary Education Act.

Agenda items for the meeting will include: (1) Executive Director's summary of Fiscal Year 1975 activities; (2) reports from U.S. Office of Education officials; (3) discussion of special reports on dropout prevention, nutrition and health and the nonpublic schools; (4) report on the presentation of the Seventh Annual Report; (5) review and discussion of the Eighth Annual Report; (6) report from ESEA Title III State Coordinator, Jack Baillie of Nebraska; (7) report of the Committee on Special Concerns.

The meeting of the Council shall be open to the public. Records shall be kept of all Council proceedings and shall be available for public inspection at the office of the Council's Executive Director, located in Suite 529, 425 13th Street, NW., Washington, D.C.

Signed at Washington, D.C. on May 19, 1975.

GERALD J. KLUEMPKE,  
Executive Director.

NATIONAL SCIENCE FOUNDATION  
ADVISORY COMMITTEE REPORTS

## Notice of Availability

The National Science Foundation has filed with the Library of Congress reports of those advisory committees which held any closed or partially closed meetings in 1974. The reports were filed in accordance with the Federal Advisory Committee Act, Pub. L. 92-463, and are available for public inspection and use at the Library of Congress, Rare Book Division, Rm. 256, Washington, D.C. In addition, copies of the reports may be obtained by writing the Committee Management Coordination Staff, Management Analysis Office, National Science Foundation,

Washington, D.C. 20550. The names of the committees submitting reports are:

Advisory Panel for Anthropology  
Advisory Panels for Biochemistry and Biophysics<sup>1</sup>  
Advisory Panel for Chemistry  
Advisory Panel for Developmental Biology  
Advisory Panel for Earth Sciences  
Advisory Panel for Economics  
Advisory Panel for Environmental Biology  
Advisory Panel for Genetic Biology  
Advisory Panel for History and Philosophy of Science  
Advisory Panel for Human Cell Biology  
Advisory Panel for Mathematical Sciences  
Advisory Panel for Metabolic Biology  
Advisory Panel for Neurobiology  
Advisory Panel for Oceanography  
Advisory Panel for Physics  
Advisory Panel for Political Science  
Advisory Panel for Psychobiology  
Advisory Panel for Regulatory Biology  
Advisory Panel for Research Management Improvement  
Advisory Panel for Science Education Projects  
Advisory Panel for Social Psychology  
Advisory Panel for Sociology  
Advisory Panel for Systematic Biology  
Advisory Panel on the Materials Research Laboratories  
IDOE Proposal Review Panel  
National Magnet Laboratory Visiting Committee

ADVISORY PANEL FOR ECONOMICS  
Meeting

The Advisory Panel for Economics will meet on June 9 & 10, 1975, at 9 a.m. in room 511 at 1800 G Street, NW., Washington, D.C.

The purpose of this Panel is to provide advice and recommendations as part of the review and evaluation process for specific research proposals that have been assigned to the Economics Program. This Panel functions in accordance with the Federal Advisory Committee Act, Pub. L. 92-463.

This meeting will not be open to the public because the Panel will be reviewing, discussing, and evaluating individual research proposals. Also, these proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552(b)(4), (5), and (6). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated February 21, 1975, pursuant to the provisions of section 10(d) of Pub. L. 92-463.

For further information about this Panel, please contact Dr. James H.

<sup>1</sup> These panels were merged to form the Advisory Panel for Molecular Biology on February 25, 1975.

OFFICE OF MANAGEMENT AND  
BUDGETBUSINESS ADVISORY COUNCIL ON  
FEDERAL REPORTS

## Public Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the Business Advisory Council on Federal Reports to be held in Room 10103, New Executive Office Building, 726 Jackson Place NW., Washington, D.C., on June 17, 1975, at 9:30 a.m.

The purpose of the meeting is to conduct Council business such as the Treasurer's Report, Council budget, and reports of various Committees; to hear remarks from the Deputy Associate Director for Statistical Policy; and to receive reports of recent actions by the Office of Management and Budget which affect the burden on business firms of reporting to Federal agencies. The meeting will be open to public observation and participation.

Anyone wishing to participate should contact the Deputy Associate Director for Statistical Policy, Room 10201, New Executive Office Building, Washington, D.C. 20503, Telephone (202) 395-3730.

VELMA N. BALDWIN,  
Assistant to the Director  
for Administration.

## SMALL BUSINESS ADMINISTRATION

[License No. 10/13-0024]

## INDUSTRIAL INVESTMENT CORP.

License; Surrender

Notice is hereby given that Industrial Investment Corporation (Industrial), 413 West Idaho Street, Boise, Idaho 83702, has surrendered its license No. 10/13-0024, issued March 26, 1964. Industrial was acquired by Capital Investors Corporation, 1101 Dexter-Horton Building, Seattle, Washington 98104.

Industrial has complied with all conditions set forth by SBA for surrender of its license. Therefore, under the authority vested by the Small Business Investment Act of 1958, as amended, and pursuant to the regulations promulgated thereunder, the surrender of the license of Industrial is hereby accepted, and it is no longer licensed to operate as a small business investment company.

Dated: May 14, 1975.

JAMES THOMAS PHELAN,  
Deputy Associate Administrator  
for Investment.

[Declaration of Disaster Loan Area 1140]

## TEXAS

## Declaration of Disaster Loan Area

Whereas, It has been reported that during the months of April and May, because of the effects of a certain disaster, damage resulted to property located in the State of Texas;

Whereas, The Small Business Administration has investigated and received reports of other investigations of conditions in the area affected;

Whereas, After reading and evaluating reports of such conditions, I find that the conditions in such area constitute a catastrophe within the purview of the Small Business Act, as amended;

Now, Therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in Robertson County and adjacent affected areas, suffered damage or destruction resulting from tornadoes accompanied by hail and heavy rainfall which occurred April 29 through May 7, 1975. Adjacent areas include only counties within the state for which the declaration is made and do not extend beyond state lines.

Office: Small Business Administration, District Office, Niels Esperson Building—Room 1210, 808 Travis Street, Houston, Texas 77002.

2. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to July

14, 1975. EIDL applications will not be accepted subsequent to February 13, 1976.

Date: May 13, 1975.

THOMAS S. KLEPPE,  
Administrator.

EVANS DELIVERY CO., INC. AND  
CENTURY EXPRESS, LTD.

## Lease and Interchange of Vehicles by Motor Carriers

MAY 19, 1975.

At a session of the Interstate Commerce Commission, Motor Carrier Leasing Board, held at its office in Washington, D.C. on the 12th day of May, 1975.

It appearing, that a petition has been filed by Evans Delivery Company, Inc. (MC-5591 and various subs) and Century Express, Ltd. (MC-5592 and Sub 1), under temporary common control for waiver of paragraphs (a) (3) and (c) of § 1057.4 of the Lease and Interchange of Vehicles Regulations (49 CFR Part 1057), concerning equipment leased between petitioners;

It further appearing, that petitioners have a jointly administered program applying the same standards of inspection and maintenance to equipment in accordance with the motor carrier safety regulations of the U.S. Department of Transportation;

It further appearing, that the U.S. Department of Transportation recommends that the petition be granted based on an examination of petitioners' records;

It is ordered, That waiver of paragraph (a) (3) and (c) of § 1057.4, be, and it is hereby granted provided that the equipment is inspected on the day it is to be leased and found to meet the requirements of the motor carrier safety regulations of the U.S. Department of Transportation and that petitioners remain in satisfactory compliance with these regulations and under common control.

By the Commission, Motor Carrier Leasing Board.

[Ex Parte No. 270 (Sub-No. 9)]

## GRAIN AND GRAIN PRODUCTS

## Investigation of Rate Structure of Railroad Freight Rates

MAY 19, 1975.

Upon consideration of the record in Ex Parte No. 270, Investigation of Railroad Freight Rate Structure, the report of the Coordinator, Investigation of Railroad Freight Rate Structure, 345 I.C.C. 4, and of the following documents which will be placed in the public docket in the

above-captioned subnumbered proceeding:

1. Amended Statement of Interest filed on behalf of the North Dakota Public Service Commission and the North Dakota State Wheat Commission on May 2, 1975.

2. Letter dated November 1, 1973, received November 5, 1974, together with attachments, addressed to the Coordinator by the Minneapolis Grain Exchange; and

It appearing, that the Commission has previously indicated an intention to study in depth in Ex Parte No. 270 the rate structure on grain and grain products, increased freight rates, 1970 and 1971, 339 I.C.C. 125, 221, 228, and that a need exists for a detailed study thereof;

And it further appearing, that the matters under consideration in this subnumbered proceeding do not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321-47 (1970); that the bases for this negative environmental determination is attached hereto as Appendix A; that any person desiring to express any views, arguments, or comments regarding the environmental amenities involved in this proceeding is invited to participate by filing an appropriate statement in accordance with the schedule set forth below; and that such statements should comply with this Commission's regulations (49 CFR 1100.250) regarding the filing of environmental pleadings; and good cause appearing therefor:

It is ordered, That under the authority of the national transportation policy (49 U.S.C. preceding section 1) and the specific provisions of Part I of the Interstate Commerce Act, in particular sections 1, 2, 3, 6, 12, 13, 15, 15a, and 20, an investigation be, and it is hereby, instituted into the lawfulness of all rates on grain and grain products maintained by railroads subject to the Interstate Commerce Act, and that said railroads to the extent they participate in the transportation of grain and grain products be, and they are hereby, made respondents;

It is further ordered, That any person interested in actively participating in this proceeding by assuming all duties and obligations of a party shall file with the Interstate Commerce Commission, Office of Proceedings, Room 5942, Washington, D.C. 20423, on or before June 18, 1975, the original and two copies of a statement of intention to participate, and shall comply with the procedural dates and other provisions set forth in Appendix B hereto. The statement of intention to participate should include (1) information as to whether the parties are capable of consolidating, and will consolidate, their interests with those of other interested parties by filing joint statements in order to limit the number of copies of pleadings that need be served, and (2) any comments with respect to the environmental amenities

\* Filed as part of the original document.

\* Filed as part of the original document.

that may possibly be involved in this investigation;

It is further ordered, That persons not intending to participate as parties but merely wishing to receive future Commission releases in this proceeding may so advise the Secretary of the Commission by letter at any time during the course of this proceeding;

It is further ordered, That as soon after June 18, 1975, as possible a service list will be made available.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy in the office of the Commission's Secretary and by filing a copy with the Director, Office of the Federal Register. Copies may be obtained from the Interstate Commerce Commission, 12th and Constitution Avenue NW., Washington, D.C. 20423.

Dated at Washington, D.C., this 9th day of May, 1975.

By the Commission, Commissioner Hardin, Coordinator.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc. 75-13508 Filed 5-21-75; 8:45 am]

#### IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

##### Elimination of Gateway Letter Notices

MAY 16, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before June 2, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 1783 (Sub-No. E1), filed May 12, 1974. Applicant: BLUE LINE EXPRESS, INC., 260 D. W. HIGHWAY, NASHUA, N.H. 03060. Applicant's representative: Earl McCutcheon (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: General commodities, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, automobiles, livestock, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between

points in Massachusetts on and east of a line beginning at the New Hampshire-Massachusetts State line and extending along U.S. Highway 202 to junction U.S. Highway 5 and thence over U.S. Highway 5 to the Massachusetts-Connecticut State line on the one hand, and, on the other, Albany, N.Y., and points within 10 miles thereof and points in Massachusetts within 15 miles of Springfield, Mass.

The purpose of this filing is to eliminate the gateway of Springfield, Mass. and points within 15 miles thereof.

No. MC 30844 (Sub-No. E1), filed May 15, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: John P. Rhodes (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Prepared frozen foods, (1) from points in Arkansas, Missouri, Kansas, Oklahoma, Texas, and Illinois on and south of U.S. Highway 36, to points in Minnesota; (2) from points in Ohio, to points in that part of Minnesota on and west of a line beginning at the Minnesota-Iowa State line, thence along U.S. Highway 218 to junction U.S. Highway 65, thence along U.S. Highway 169, thence along U.S. Highway 38, thence along Minnesota Highway 38 to Minnesota Highway 6, thence along Minnesota Highway 6 to Grand Falls, Minn., thence over unnumbered Minnesota Highway to the Canadian Boundary; (3) from points in Nebraska on and south of U.S. Highway 30, to points in that part of Minnesota on and east of a line beginning at the Minnesota-Iowa State line, thence along Minnesota Highway 15 to junction of U.S. Highway 10, thence along U.S. Highway 10 to junction Minnesota Highway 371, thence along Minnesota Highway 371 to junction U.S. Highway 71, thence along U.S. Highway 71 to International Falls, Minn.; (4) from points in Indiana north of Indiana Highway 26, to points in that part of Minnesota in and west of Freeborn, Blue Earth, Nicollet, Sibley, McLeod, Meeker, Stearns, Todd, Wadena, Hubbard, Beltrami, and Lake of the Woods Counties, and from points in Indiana on and south of Indiana Highway 26 (except Indianapolis), to points in that part of Minnesota on and west of a line beginning at the Minnesota-Iowa State line, thence along U.S. Highway 218 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Minnesota Highway 65, thence along Minnesota Highway 65 to the Canadian Boundary; (5) from points in Colorado to points in Minnesota on and east of U.S. Highway 71. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 30844 (Sub-No. E5), filed May 15, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: John P. Rhodes (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Meat, meat products, and meat by-products, and articles distributed by meat packinghouses, from Detroit, Flint, and Saginaw, Mich., and Toledo, Ohio, to points in Nebraska and Kansas, and from Cincinnati, Columbus, Dayton, and Toledo, Ohio, to points in Nebraska. The purpose of this filing is to eliminate the gateway of Waterloo, Iowa.

No. MC 30844 (Sub-No. E6), filed May 15, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: John P. Rhodes (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Meat, meat products, and meat by-products, and articles distributed by meat packinghouses, from Detroit, Flint, and Saginaw, Mich., and Toledo, Ohio, to points in Nebraska and Kansas, and from Cincinnati, Columbus, Dayton, and Toledo, Ohio, to points in Nebraska. The purpose of this filing is to eliminate the gateway of Waterloo, Iowa.

No. MC 30844 (Sub-No. E28), filed May 15, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: John P. Rhodes (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Prepared frozen foods, from points in New York to points in Missouri on and west of U.S. Highway 65 and those in Arkansas on and west of Arkansas Highway 7. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Keokuk, Iowa.

No. MC 30844 (Sub-No. E28), filed May 26, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Candy, confectionery, and confectionery products (except commodities in bulk, in tank vehicles), from Duryea, Pa., to points in Texas, Oklahoma, Kansas, Nebraska, Colorado, and those in Missouri on and west of U.S. Highway 65, and Fayetteville, Ark. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 30844 (Sub-No. E27), filed May 26, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Nuts, candy and peanut products, cream-filled cookies, coffee, tea, and prepared foods (except frozen meats, meats, meat products, meat by-products, and commodities in bulk), from the plant sites of Standard Brands, Inc., at Suffolk, Va., to Denver, Colo., Manhattan, Pittsburgh, Topeka, and Wichita, Kans., Joplin, and Kansas City, Mo., Lincoln, Norfolk, and Omaha, Nebr., Bristow, Oklahoma City, and Tulsa, Okla., and Amarillo, Lubbock, and San Angelo, Tex. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 30844 (Sub-No. E28), filed May 26, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Frozen fruits, from Winchester, Va., to points in Colorado, Kansas, Nebraska, Oklahoma, Minnesota, and those in Missouri on and west of U.S. Highway 65 and those in Texas on and west of Interstate Highway 35. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 30844 (Sub-No. E31), filed May 26, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Frozen fruits, from Winchester, Va., to points in Colorado, Kansas, Nebraska, Oklahoma, Minnesota, and those in Missouri on and west of U.S. Highway 65 and those in Texas on and west of Interstate Highway 35. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

Oklahoma, Minnesota, and those in Missouri on and west of U.S. Highway 65 and those in Texas on and west of Interstate Highway 35. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 30844 (Sub-No. E29), filed May 26, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Tea, from Hoboken, Jersey City, Port Newark, N.J., and New York, N.Y., to Denver, Colo., Manhattan, Pittsburgh, Topeka, and Wichita, Kans., Joplin, and Kansas City, Mo., Lincoln, Norfolk, and Omaha, Nebr., Bristow, Oklahoma City, and Tulsa, Okla., and Amarillo, Lubbock, San Angelo, and San Antonio, Tex. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 30844 (Sub-No. E30), filed May 26, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Frozen fruits, from New York, N.Y., to points in Texas, Oklahoma, Kansas, Nebraska, Colorado, and those points in Missouri on and west of U.S. Highway 65. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 30844 (Sub-No. E31), filed May 26, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Tea, from New York, N.Y., to points in Texas, Oklahoma, Kansas, Nebraska, Colorado, and those points in Missouri on and west of U.S. Highway 65. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 30844 (Sub-No. E32), filed May 28, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Frozen vegetables, from Plant City, Fla., to Denver, Colo., Lincoln, Norfolk, and Omaha, Nebr., and Dubuque, Iowa. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 30844 (Sub-No. E33), filed May 28, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Frozen vegetables, from Clayton, Del., Ridgely, Md., Camden, N.J., and Lansdowne, Pa.,

to points in Iowa and Minnesota. The purpose of this filing is to eliminate the gateways of Napoleon, Ohio, and Des Moines, Iowa.

No. MC 35831 (Sub-No. E1), filed June 3, 1974. Applicant: E. A. HOLLIER, INC., P.O. Box 8625, Fort Worth, Texas 76115. Applicant's representative: Billy R. Reid, 8108 Sharon Road, Fort Worth, Tex. 76115. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: earth drilling machinery and equipment, and machinery equipment, materials and supplies incidental to, used in, or in connection with the transportation, installation, removal, operation, repair, servicing, maintenance and dismantling of facilities for the discovery, development and production of natural gas and petroleum, between points in Oklahoma (except points in Cimarron, Texas, Beaver, Harper, Ellis, and Woodward Counties) and Texas, on the one hand, and, on the other, points in Lea and Eddy Counties, N.M. The purpose of this filing is to eliminate the gateway of points in Loving, Ward, Reeves or Winkler Counties, Tex.

No. MC 54932 (Sub-No. E118), filed June 3, 1974. Applicant: ROGERS CARTAGE CO., 10735 So. Cicero Avenue, Oak Lawn, Ill. 60453. Applicant's representative: W. P. Farrell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Acids and chemicals, restricted to frozen and cleaning compounds (except chemicals derived or produced from petroleum), from the plantsite of E. I. DuPont de Nemours & Company, Inc., at Montague, Mich., to points in Kansas, Nebraska, Oklahoma, and Texas (Chicago Heights, Ill.); and frozen and cleaning compounds from the plantsite of E. I. DuPont de Nemours & Company, Inc., at Montague, Mich., to points in Kentucky (Jeffersonville, Ind.). The purpose of this filing is to eliminate the gateways as indicated by asterisks above.

No. MC 78177 (Sub-No. E34), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd Street, Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Classes A and B explosives, and blasting supplies; (a) from points in New York on and east of a line beginning at the New York-Pennsylvania State line and extending along U.S. Highway 210 to junction New York Highway 98, thence along New York Highway 98 to Lake Ontario, to points in Arkansas (the facilities of Trojan-U.S. Powder Division of Commercial Solvents Corp., located at or near Paint Pleasant, W. Va., Grafton, Ill., and Wolf Lake, Ill.); (b) from points in New York east of New York Highway 14 to points in Oklahoma south of Adair, Cherokee, Wagoner, Tulsa, Creek, Payne, Noble, Garfield, and Alfalfa Counties (same as paragraph (a)); (c) from points in New York to

points in New Mexico and Arizona (same as paragraph (a)); and (d) from points in Pennsylvania to points in Arizona, Arkansas, New Mexico, and Oklahoma (Jacksonville, Ind., and points within 15 miles thereof, Grafton, Ill., and Wolf Lake, Ill.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 100866 (Sub-No. E44), filed March 21, 1975. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Richard W. May (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Compositions board, from points in Texas (except Pinedale or Silsbee and particleboard from Diboll) except from points east and north of a line beginning with the junction of U.S. Highway 267 and the New Mexico-Texas border, thence south on U.S. Highway 267 to the junction with Interstate Highway 40, thence east on Interstate Highway 40 to the Texas-Oklahoma border to points in Missouri in, south and east of Bollinger, Cape Girardeau, Carter, Crawford, Dent, Dunklin, Franklin, Gasconade, Howell, Iron, Jefferson, Madison, Marion, Mississippi, New Madrid, Oregon, Osage, Pemiscot, Perry Phelps, Pulaski, Reynolds, Riley, Saint Charles, Saint Francois, Saint Louis, Sainte Genevieve, Scott, Shannon, Stoddard, Texas, Warren, Washington, Wayne, Webster, and Wright Counties and the City of Saint Louis. The purpose of this filing is to eliminate the gateways of Irving, Pinedale, and Acme, Tex., and Miami, Okla.

No. MC 100866 (Sub-No. E47), filed April 21, 1974. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Shreveport, Louisiana 71107. Applicant's representative: Richard W. May (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Compositions board, to points in Texas, (except Pinedale or Silsbee and particleboard from Diboll) south of a line formed by the Canadian River beginning at the junction of the Canadian River and the New Mexico-Texas State line, thence east through, and including Lake Meredith and the Sanford Dam, then continuing east on the Canadian River to its junction with the Texas-Oklahoma State line, except Pinedale or Silsbee and particleboard from Diboll to points in Kansas. The purpose of this filing is to eliminate the gateways of Acme, Irving, and Pinedale, Texas and Duke, Oklahoma.

No. MC 102567 (Sub-No. E1), filed May 9, 1974. Applicant: MC FAIR TRANSPORT, INC., 2000 North Loop West, Suite 300, Houston, Texas 77016. Applicant's representative: Jo E. Shaw (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such petroleum products as are required in bulk, in tank vehicles, (except liquefied petroleum gases), from

those points in Texas which are within 150 miles of Henderson, Tex., including Henderson, Tex., and which are south of a line beginning at Ft. Worth, Tex., and extending along U.S. Highway 175 to junction U.S. Highway 69, to junction Texas Highway 63, to the Texas-Louisiana State line, to those points in Alabama on and south of U.S. Highway 80. The purpose of this filing is to eliminate the gateway of plant site of American Cyanamid Company at Avondale, La.

No. MC 102567 (Sub-No. E2), filed June 3, 1974. Applicant: MC NAIR TRANSPORT, INC., 2040 North Loop-west, Houston, Tex. 77018. Applicant's representative: Tom Wright (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such petroleum products as are *liquid chemicals* (except in bulk in tank vehicles, liquefied petroleum gases), from those points in Texas which are within 150 miles of Henderson, Tex., including Henderson, Tex., and which are south of a line beginning at Chilton, Tex., and extending along Texas Highway 7 to junction U.S. Highway 287, to the Texas-Louisiana State line, to points in Alabama. The purpose of this filing is to eliminate the gateway of plant site American Cyanamid Company at Avondale, La.

No. MC 102567 (Sub-No. E3), filed June 3, 1974. Applicant: MC NAIR TRANSPORT, INC., P.O. DRAWER 5357, BOSSIER CITY, La. 71010. Applicant's representative: Jo. E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such petroleum products as are *liquid chemicals* (except in bulk in tank vehicles, liquefied petroleum products), from Henderson, Tex., and points in Texas within 150 miles of Henderson, to those points in Alabama south of a line beginning at the Alabama-Mississippi State line and extending along Alabama Highway 56 to junction Interstate Highway 65, to junction Alabama Highway 10, to the Alabama-Georgia State line. The purpose of this filing is to eliminate the gateway of plant site of American Cyanamid Company at Avondale, La.

No. MC 102567 (Sub-No. E4), filed June 3, 1974. Applicant: MC NAIR TRANSPORT, INC., P.O. DRAWER 5357, BOSSIER CITY, La. 71010. Applicant's representative: Jo. E. Shaw, Houston First Saving Bldg., Houston, Texas 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such petroleum products as are *liquid chemicals* (except in bulk in tank vehicles, liquefied petroleum gases), from Henderson, Tex., and points in Texas within 150 miles of Henderson, to points in Florida. The purpose of this filing is to eliminate the gateway of plant site of American Cyanamid Company at Avondale, La.

No. MC 102567 (Sub-No. E5), filed June 3, 1974. Applicant: MC NAIR TRANSPORT, INC., P.O. DRAWER

5357, BOSSIER CITY, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such petroleum products as are *liquid chemicals* (petrochemicals), in bulk, in tank vehicles, from those points in Louisiana within 150 miles of Henderson, Tex., which are east of a line beginning at Strong, Ark., and extending along U.S. Highway 82, to junction U.S. Highway 79, to junction Arkansas Highway 9, to junction Arkansas Highway 147, to junction U.S. Highway 167, to Alexandria, La., to points in Oklahoma. The purpose of this filing is to eliminate the gateway of plant site of Dow Chemicals U.S.A. in Columbia County, Ark.

No. MC 102567 (Sub-No. E6), filed June 3, 1974. Applicant: MC NAIR TRANSPORT, INC., P.O. DRAWER 5357, BOSSIER CITY, LOUISIANA 71010. Applicant's representative: Jo. E. Shaw, Houston First Saving Bldg., Houston, Texas 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such petroleum products as are *liquid chemicals* (except in bulk in tank vehicles, liquefied petroleum gases), from those points in Texas which are within 150 miles of Henderson, Tex., including Henderson, and which are south of a line beginning at Denton, Tex., and extending along Interstate Highway 35E to junction U.S. Highway 175/69, to junction Texas Highway 63, to the Texas-Louisiana State line, to points in Georgia. The purpose of this filing is to eliminate the gateway of plant site of American Cyanamid Company at Avondale, La.

No. MC 102567 (Sub-No. E10), filed June 3, 1974. Applicant: MC NAIR TRANSPORT, INC., P.O. DRAWER 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such petroleum products as are *liquid chemicals* (petrochemicals), in bulk, in tank vehicles, from those points within 150 miles of Henderson, Tex., which are east of a line beginning at Strong, La., and extending along U.S. Highway 82 to junction U.S. Highway 71, to Alexandria, La., to those points in Oklahoma north of a line beginning at the Texas-Oklahoma State line and extending along Interstate Highway 35 to junction Oklahoma Highway 77 to junction Oklahoma Highway 12 to junction Oklahoma Highway 3, to junction U.S. Highway 69, to junction Interstate Highway 40 to Oklahoma-Arkansas State line. The purpose of this filing is to eliminate the gateway of plant site of Dow Chemicals U.S.A., in Columbia County, Ark.

No. MC 102567 (Sub-No. E11), filed June 3, 1974. Applicant: MC NAIR TRANSPORT, INC., P.O. DRAWER 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First

Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such petroleum products as are *liquid chemicals* (petrochemicals), in bulk, in tank vehicles, from those points within 150 miles of Henderson, Tex., which are south and east of a line beginning at El Dorado, Ark., and extending along U.S. Highway 82 to junction U.S. Highway 79, to junction U.S. Highway 20, to junction U.S. Highway 171, to junction Louisiana Highway 5, to junction Texas Highway 7, to junction U.S. Highway 96, to the Gulf of Mexico, to those points in Oklahoma on and north of a line beginning at the Oklahoma-New Mexico State line and extending along Oklahoma Highway 325 to junction U.S. Highway 64, to junction Oklahoma Highway 11, to junction U.S. Highway 60, to the Oklahoma-Missouri State line. The purpose of this filing is to eliminate the gateway of plant site of Dow Chemicals, U.S.A., in Columbia County, Ark.

No. MC 102567 (Sub-No. E16), filed June 3, 1974. Applicant: MC NAIR TRANSPORT, INC., P.O. DRAWER 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such petroleum products as are *liquid chemicals* (except in bulk in tank vehicles, liquefied petroleum gases), from those points in Texas within 150 miles of Henderson, Tex., including Henderson, and which are south of a line beginning at Chilton, Tex., and extending along Texas Highway 7 to junction U.S. Highway 287, to junction U.S. Highway 190, to the Texas-Louisiana State line, to those points in Tennessee east of a line beginning at the Tennessee-Kentucky State line and extending along Tennessee Highway 48 to junction Tennessee Highway 100, to junction Tennessee Highway 20, to junction U.S. Highway 43 to the Alabama-Tennessee State line. The purpose of this filing is to eliminate the gateway of plant site of American Cyanamid Company at Avondale, La.

No. MC 102567 (Sub-No. E17), filed June 3, 1974. Applicant: MC NAIR TRANSPORT, INC., P.O. DRAWER 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such petroleum products as are *liquid chemicals* (except in bulk in tank vehicles, liquefied petroleum gases), from those points in Texas within 150 miles of Henderson, Tex., including Henderson, and which are south of a line beginning at Chilton, Tex., and extending along Texas Highway 7 to junction U.S. Highway 287, to junction U.S. Highway 190, to the Texas-Louisiana State line, to those points in Illinois north of a line beginning at the Illinois-Iowa State line

and extending along U.S. Highway 30 to junction Illinois Highway 38, to Lake Michigan. The purpose of this filing is to eliminate the gateway of plant site of American Cyanamid Company at Avondale, La.

No. MC 102567 (Sub-No. E18), filed June 3, 1974. Applicant: MC NAIR TRANSPORT, INC., P.O. DRAWER 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such petroleum products as are *liquid chemicals* (except liquefied petroleum products), in bulk in tank vehicles, from those points in Texas within 150 miles of Henderson, Tex., including Henderson, and which are south of a line beginning at Chilton, Tex., and extending along Texas Highway 7 to junction U.S. Highway 278, to junction U.S. Highway 190, to the Texas-Louisiana State line, to those points in Indiana west of a line beginning at the Indiana-Illinois State line and extending along U.S. Highway 50 to junction U.S. Highway 41, to junction Indiana Highway 66, to junction U.S. Highway 23, to the Indiana-Kentucky State line. The purpose of this filing is to eliminate the gateway of plant site of American Cyanamid Company at Avondale, La.

No. MC 102567 (Sub-No. E30), filed June 3, 1974. Applicant: MC NAIR TRANSPORT, INC., P.O. DRAWER 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum products* (except liquefied petroleum gas), as defined in Appendix XIII and the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from those points in Texas, Arkansas, and Louisiana within 150 miles of Henderson, Tex., and which are east of a line beginning at Mena, Ark., and extending along U.S. Highway 71 to Alexandria, Ark., to those points in Texas south of a line beginning at the Gulf of Mexico and extending along Texas Highway 44 to junction U.S. Highway 81, thence along U.S. Highway 81 to the United States-Mexico International Boundary line. The purpose of this filing is to eliminate the gateway of Shreveport, Bossier City, and Cotton Valley, La., and points within 5 miles of Cotton Valley.

No. MC 102567 (Sub-No. E31), filed June 3, 1974. Applicant: MC NAIR TRANSPORT, INC., P.O. DRAWER 5357, Bossier City, La. 71010. Applicant's representative: Jo A. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum products*, (except liquefied petroleum gas), as defined in Appendix XIII and the report in *Descriptions in Motor Carrier Certifi-*

cates, 61 M.C.C. 209, in bulk, in tank vehicles, from those points in Texas, Arkansas, and Louisiana within 150 miles of Henderson, Tex., which are east of a line beginning at Mena, Ark., and extending along U.S. Highway 71 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction U.S. Highway 79, thence U.S. Highway 79 to junction Arkansas Alternate Highway 2, thence along Arkansas Alternate Highway 2 to junction Arkansas Highway 15, thence along Arkansas Highway 15 to Calion, Ark., to those points in Texas south of and more than 150 miles from Henderson, Tex., which are east of U.S. Highway 77. The purpose of this filing is to eliminate the gateways of Shreveport, Bossier City, and Cotton Valley, La., and points within 5 miles of Cotton Valley.

No. MC 102567 (Sub-No. E32), filed June 3, 1974. Applicant: MC NAIR TRANSPORT, INC., P.O. DRAWER 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum products* (except liquefied petroleum gas) as defined in Appendix XIII and the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from those points in Texas, Arkansas, and Louisiana within 150 miles of Henderson, Tex., which are east of a line beginning at Mena, Ark., and extending along U.S. Highway 71 to junction U.S. Highway 82, to junction U.S. Highway 79, to junction Louisiana Highway 146, to junction Interstate Highway 20, to Monroe, La., to those points in Texas which are south of and more than 150 miles from Henderson, Tex., and which are located on and east of a line beginning at the United States-New Mexico International Boundary line and extending along U.S. Highway 77 to junction U.S. Highway 87 (formerly portion U.S. Highway 77), to junction U.S. Highway 77-A (formerly portion U.S. Highway 77), to junction U.S. Highway 77, to a point on U.S. Highway 77 near Hicks, Tex. The purpose of this filing is to eliminate the gateway of Shreveport, Bossier City, and Cotton Valley, La., and points within 5 miles of Cotton Valley.

No. MC 102567 (Sub-No. E33), filed June 3, 1974. Applicant: MC NAIR TRANSPORT, INC., P.O. DRAWER 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum products* (except liquefied petroleum gas) as defined in Appendix XIII and the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from those points in Texas, Arkansas, and Louisiana within 150 miles of Henderson, Tex., which are east of a line beginning at Mena, Ark., and extending along U.S. Highway 71 to junction U.S. Highway 82, to junction U.S. Highway 79, to junction Louisiana Highway

9, to junction Louisiana Highway 147, to junction U.S. Highway 167, to Alexandria, La., to Brownsville, Tex. The purpose of this filing is to eliminate the gateway of Shreveport, Bossier City, and Cotton Valley, La., and points within 5 miles of Cotton Valley.

No. MC 102567 (Sub-No. E35), filed June 3, 1974. Applicant: MC NAIR TRANSPORT, INC., P.O. DRAWER 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum products* (except liquefied petroleum gas), as defined in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from those points in Texas, Arkansas, and Louisiana within 150 miles of Henderson, Tex., and which are east of a line beginning at Page, Okla., and extending along U.S. Highway 259 to junction Interstate Highway 30, thence along Interstate Highway 30 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Interstate Highway 20 to Monroe, La., to those points in Texas which are south of and more than 150 miles from Henderson, Tex., and which are east of U.S. Highway 77. The purpose of this filing is to eliminate the gateways of Shreveport, Bossier City, and Cotton Valley, La., and points within 5 miles of Cotton Valley.

No. MC 105886 (Sub-No. E1), filed June 4, 1974. Applicant: MARTIN TRUCKING, INC., P.O. Box 67, Bessemer, Pa. 16112. Applicant's representative: Henry M. Wick, Jr., 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Brick*, (1) from points in Ashtabula, Trumbull, Mahoning, and Columbiana Counties, Ohio to points in Kentucky; (2) from points in Mahoning County, Ohio to points in that part of New York on, north and east of a line beginning at Silver Creek, N.Y. and extending along New York Highway 428 to junction New York Highway 39, thence along New York 39 to junction U.S. Highway 219, and thence along U.S. Highway 219 to the New York-Pennsylvania State line; (3) from points in Mahoning and Columbiana Counties, Ohio to points in Indiana and Michigan; and (4) from points in Columbiana County, Ohio to points in New York. No. MC 111401 (Sub-No. E-83), filed May 4, 1975. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Mr. Victor R. Comstock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquid petrochemicals, in bulk, in tank vehicles, from points in Oklahoma on and west of U.S. Highway 83 to points in Alabama on and south of U.S. Highway 84 and points in Louisiana on and south of U.S. Highway 190. The purpose of this filing is to eliminate the gateway of Texas City, Tex.

No. MC 111401 (Sub-No. E-84), filed May 4, 1975. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Mr. Victor R. Comstock (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Petroleum products (except lubricating oils) in bulk, in tank vehicles, from points in Kansas on and west of a line beginning at the Nebraska-Kansas State line and extending along U.S. Highway 83 to its junction with Interstate Highway 70, to its junction with U.S. Highway 81 to the Kansas-Oklahoma State line to points in Alabama, Kentucky, Louisiana, Mississippi, and Tennessee. The purpose of this filing is to eliminate the gateways of Ardmore, Cleveland, Cushing, Duncan, Tulsa, and Wynnewood, Okla.

No. MC 113158 (Sub-No. E1), filed May 15, 1974. Applicant: TODD TRANSPORT CO., INC., Secretary, Md. 21664. Applicant's representative: Harry Harrington Todd (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Canned goods, from points in Cecil, Kent, Queen Annes, Talbot, Caroline, Dorchester, Wilcomico, Worcester, and Somerset Counties, points in Kent and Sussex Counties, Del., and

points in Accomack and Northampton Counties, to points in New York north of New York Highway 7. The purpose of this filing is to eliminate the gateways of Newark, Del., and points in Dorchester, Caroline, and Talbot Counties, Md.

No. MC 113908 (Sub-No. E254), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Vinegar, in bulk, in tank vehicles, from points in California to Fremont, Bailey, and Belding, Mich., and Lyndonville, N.Y., with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 113908 (Sub-No. E256), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Vinegar, in bulk, in tank vehicles, from Marionville, Mo., to Wenatchee and Yakima, Wash., Delta and Denver, Colo., and Dallas and Houston, Tex. The purpose of this filing is to eliminate the gateway of Oklahoma City, Okla.

No. MC 113908 (Sub-No. E263), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Vinegar, in bulk in tank vehicles, from Bailey, Belding, and Fremont, Mich., to points in California (except those points on and east and north of a line beginning at the California-Oregon State line and extending along Interstate Highway 5 to junction California Highway 36, thence along California Highway 36 to junction U.S. Highway 395, thence along U.S. Highway 395 to the Nevada-California State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Memphis, Tenn.

No. MC 113908 (Sub-No. E265), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Vinegar, in bulk, in tank vehicles, from Delta, Colo., to points in Missouri on and north of a line beginning at the Oklahoma-Missouri State line and extending along Interstate Highway 44 to junction U.S. Highway 60, thence along U.S. High-

way 60 to the Kentucky-Missouri State line, and points in Texas on and east of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 271 to junction U.S. Highway 69, thence along U.S. Highway 69 to Port Arthur, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Rogers, Ark.

No. MC 113908 (Sub-No. E267), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Vinegar and vinegar stock, in bulk, in tank vehicles, from St. Paul, Minn., to points in New York, Pennsylvania, Delaware, Maryland, and those in Ohio east of a line beginning near Huron, Ohio, and extending along Ohio Highway 13 to junction Ohio Highway 256, thence along Ohio Highway 256 to junction Ohio Highway 664, thence along Ohio Highway 664 to junction U.S. Highway 33, thence along U.S. Highway 33 to junction Ohio Highway 93, thence along Ohio Highway 93 to the Ohio-Kentucky State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Belding, Mich.

No. MC 113908 (Sub-No. E353), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Vinegar and vinegar stock, in bulk, in tank vehicles, from Dallas, Houston, and Paris, Tex., to points in Ohio north and east of U.S. Highway 250, and points in Pennsylvania, New York, Maryland, and Delaware. The purpose of this filing is to eliminate the gateway of Fremont, Mich.

No. MC 113908 (Sub-No. E354), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Vinegar, in bulk, in tank vehicles, from Rogers, Ark., to Wenatchee and Yakima, Wash., with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Paris, Tex.

No. MC 113908 (Sub-No. E375), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Vinegar, in bulk, in tank vehicles, from Rog-

ers, Arkansas to Wenatchee, Yakima, Washington; St. Paul, Minnesota; Delta, Denver, Colorado; Fremont, Bailey, and Belding, Michigan; Lyndonville and North Rose, New York; Charlotte, North Carolina; Memphis, Tennessee. The purpose of this filing is to eliminate the gateway of Nixa and Marionville, Mo.

No. MC 113908 (Sub-No. E378), filed December 5, 1974. Applicant: ERICKSON TRANSPORT CORP., P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Vinegar and vinegar stock, in bulk, in tank vehicles, from Denver, Colo., to points in New York, Pennsylvania, Maryland, Delaware, and Ohio (except those points in Ohio south and west of a line beginning at the Indiana-Ohio State line and extending along Ohio Highway 725 to junction Ohio Highway 123, thence along Ohio Highway 123 to junction Ohio Highway 73, thence along Ohio Highway 73 to junction Ohio Highway 28, thence along Ohio Highway 28 to junction U.S. Highway 23, thence along U.S. Highway 23 to the Ohio-Kentucky State line. The purpose of this filing is to eliminate the gateway of Belding, Mich.

No. MC 114457 (Sub-No. E28), filed June 3, 1974. Applicant: DART TRANSIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Metal canned goods containers and container ends, accessories, and materials and supplies used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight require the use of special equipment), when moving in mixed loads with metal containers, from points in Missouri (except points in Atchison County), to points in North Dakota. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114457 (Sub-No. E27), filed June 3, 1974. Applicant: DART TRANSIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Metal canned goods containers and container ends, accessories and materials and supplies used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight, require the use of special equipment), when moving in mixed loads with metal containers, from points in Montana, to points in Iowa in and east of Winnebago, Hancock, Wright, Hamilton, Boone, Polk, Warren, Clarke, and Decatur Counties. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114457 (Sub-No. E31), filed June 3, 1974. Applicant: DART TRANSIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Metal canned goods containers and container ends, accessories, and materials, and supplies used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight, require the use of special equipment), when moving in mixed loads with metal containers, from points in Montana (except Powder River and Big Horn Counties), to points in Missouri (except Atchison, Nodaway, Worth, Gentry, DeKalb, Buchanan, Andrew, and Holt Counties). The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114457 (Sub-No. E32), filed June 3, 1974. Applicant: DART TRANSIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Metal canned goods containers and container ends, accessories, and materials, and supplies used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight require the use of special equipment), when moving in mixed loads with metal containers, from points in Wisconsin in and north of Trempealeau, Jackson, Wood, Portage, Waupaca, Outagamie, Brown, and Kewaunee Counties, to points in Kansas in and west of Nemaha, Jackson, Shawnee, Wabaunsee, Lyon, Greenwood, Elk, and Chautauqua Counties. No. MC 114457 (Sub-No. E34), filed June 3, 1974. Applicant: DART TRANSIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's rep-

resentative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Metal canned goods containers and container ends, accessories, and materials and supplies used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight require the use of special equipment), when moving in mixed loads with metal containers, from points in Montana (except Powder River and Big Horn Counties), to points in Missouri (except Atchison, Nodaway, Worth, Gentry, DeKalb, Buchanan, Andrew, and Holt Counties). The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114457 (Sub-No. E36), filed June 3, 1974. Applicant: DART TRANSIT COMPANY, 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Metal canned goods containers and container ends, accessories, and materials and supplies used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight, require the use of special equipment), when moving in mixed loads with metal containers, from points in Wisconsin in and west of Iron, Price, Rusk, Chippewa, Dunn, and Pepin Counties, to points in Missouri. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114457 (Sub-No. E38), filed June 3, 1974. Applicant: DART TRANSIT COMPANY, 780 North Prior Ave., St. Paul, Minn. 55014. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Metal canned goods containers, container ends, accessories, and materials and supplies used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight require the use of special equipment), when moving in mixed loads with metal containers, from points in Iowa in and east of Kossuth, Humboldt, Webster, Carroll, Audubon, Cass, Adams, and Taylor Counties, to points in North Dakota. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114457 (Sub-No. E39), filed June 3, 1974. Applicant: DART TRANSIT CO., 780 N. Prior Ave., St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Metal canned goods containers and container ends, accessories, and materials and supplies used in connection with the manufacture and distribution of metal containers (except commodities in bulk and those which because of size or weight require the use

of special equipment), when moving in mixed loads with metal containers, from points in North Dakota, to points in Missouri (except points in Atchison County). The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 119777 (Sub-No. E51), filed April 23, 1975. Applicant: LIGON SPECIALIZED HAULER, INC., P.O. Drawer "L", Madisonville, Ky. 42431. Applicant's representative: Ronald E. Butler (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Pallets, skids, bases, boxes, crating, oak heads, oak risers, oak sills, oak molding, cardboard cartons, nails, and lumber.

(1) (a) between points in Indiana on, east, and south of a line beginning at the Indiana-Michigan State line, thence along Interstate Highway 69 to the junction of Indiana Highway 18, thence along Indiana Highway 18 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction Indiana Highway 67, thence along Indiana Highway 67 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Indiana Highway 441, thence along Indiana Highway 441 to Vincennes, Ind., on the Illinois-Indiana State line, on the one hand, and, on the other, Liberal and Elkhart, Kans.; (b) between points in Indiana on, south, and west of a line beginning at the Indiana-Illinois State line, thence along U.S. Highway 150 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction Indiana Highway 135, thence along Indiana Highway 135 to the Indiana-Kentucky State line, on the one hand, and, on the other, points in Maine; (c) between points in Indiana on and south of a line beginning at the Indiana-Illinois State line, thence along U.S. Highway 460 to junction Indiana Highway 68, thence along Indiana Highway 68 to junction Indiana Highway 245, thence along Indiana Highway 245 to junction Indiana Highway 70, thence along Indiana Highway 70 to junction Indiana Highway 66, thence along Indiana Highway 66 to Cannelton, Ind., at the Indiana-Kentucky State line, on the one hand, and, on the other, points in Maryland;

(d) Between points in Indiana on, south, and west of a line beginning at the Indiana-Illinois State line, thence along U.S. Highway 150 to junction Indiana Highway 56, thence along Indiana Highway 56 to junction Indiana Highway 145, thence along Indiana Highway 145 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction Indiana Highway 237, thence along Indiana Highway 237 to the Indiana-Kentucky State line, on the one hand, and, on the other, points in Massachusetts on and east of a line beginning at the Massachusetts-Connecticut State line, thence along Massachusetts Highway 12 to junction Massachusetts Highway 31, thence along Massachusetts Highway 31 to the Massachusetts-New Hampshire State line; (e) between

points in Indiana on and south of a line beginning at the Indiana-Kentucky State line, thence along U.S. Highway 41 to junction Indiana Highway 57, thence along Indiana Highway 57 to junction Indiana Highway 64, thence along Indiana Highway 64 to junction Indiana Highway 61, thence along Indiana Highway 61 to junction Indiana Highway 56, thence along Indiana Highway 56 to junction Indiana Highway 164, thence along Indiana Highway 164 to junction Indiana Highway 145, thence along Indiana Highway 145 to junction Indiana Highway 64, thence along Indiana Highway 64 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction U.S. Highway 460, thence along U.S. Highway 460 to the Indiana-Kentucky State line, on the one hand, and, on the other, points in Minnesota on and north of a line beginning at the Minnesota-North Dakota State line, thence along U.S. Highway 10 to junction U.S. Highway 71, thence along U.S. Highway 71 to International Falls, Minn., on the United States-Canadian border.

(f) Between points in Indiana on and east of a line beginning at the Indiana-Michigan State line, thence along Indiana Highway 19 to junction U.S. Highway 33, thence along U.S. Highway 33 to junction Indiana Highway 15, thence along Indiana Highway 15 to junction Indiana Highway 18, thence along Indiana Highway 18 to junction Indiana Highway 3, thence along Indiana Highway 3 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction Indiana Highway 1, thence along Indiana Highway 1 to junction Indiana 121, thence along Indiana Highway 121 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Indiana Highway 229, thence along Indiana Highway 229 to junction Indiana Highway 46, thence along Indiana Highway 46 to junction U.S. Alternate Highway 31, thence along U.S. Alternate Highway 31 to junction Interstate Highway 65, thence along Interstate Highway 65 to the Kentucky-Indiana State line, on the one hand, and, on the other, points in Missouri on and south of a line beginning at the Arkansas-Missouri State line, thence along Missouri Highway 101 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Kentucky-Missouri State line; (g) between points in Indiana on, east, and south of a line beginning at the Kentucky-Indiana State line, thence along U.S. Highway 41 through Evansville, Ind., to junction Indiana Highway 57, thence along Indiana Highway 57 to junction Indiana Highway 56, thence along Indiana Highway 56 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction U.S. Highway 150, thence along U.S. Highway 150 to junction Indiana Highway 56, thence along Indiana Highway 56 to junction U.S. Highway 421, thence along U.S. Highway 421 to the Kentucky-Indiana State

line, on the one hand, and, on the other, points in Nebraska on and west of a line beginning at the South Dakota-Nebraska State line, thence along U.S. Highway 83 to the Kansas-Nebraska State line.

(h) Between points in Indiana on, south, and west of a line beginning at Cannelton, Ind., on the Kentucky-Indiana State line, thence along Indiana Highway 66 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction Indiana Highway 64, thence along Indiana Highway 64 to junction Indiana Highway 145, thence along Indiana Highway 145 to junction U.S. Highway 150, thence along U.S. Highway 150 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Illinois-Indiana State line, on the one hand, and, on the other, points in New Hampshire; (i) between points in Indiana on, south, and west of a line beginning at the Illinois-Indiana State line, thence along Indiana Highway 64 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Indiana Highway 56, thence along Indiana Highway 56 to junction Indiana Highway 162, thence along Indiana Highway 162 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction Indiana Highway 545, thence along Indiana Highway 545 to junction Indiana Highway 66, thence along Indiana Highway 66 to junction Indiana Highway 69, thence along Indiana Highway 69 to the Kentucky-Indiana State line, on the one hand, and, on the other, points in New Jersey; (j) between points in Indiana on and west of a line beginning at the Indiana-Illinois State line, thence along Indiana Highway 441 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Indiana Highway 56, thence along Indiana Highway 56 to junction Indiana Highway 162, thence along Indiana Highway 162 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction Indiana Highway 545, thence along Indiana Highway 545 to junction Indiana Highway 66, thence along Indiana Highway 66 to junction Indiana Highway 237, thence along Indiana Highway 237 to the Indiana-Kentucky State line, on the one hand, and, on the other, points in New York on and east of a line beginning at the United States-Canadian border, thence along New York Highway 30 to junction New York Highway 28, thence along New York Highway 28 to junction U.S. Highway 9, thence along U.S. Highway 9 to junction Interstate Highway 87, thence along Interstate Highway 87 to junction U.S. Highway 209, thence along U.S. Highway 209 to the New York-Pennsylvania State line.

(k) Between points in Indiana on and west of a line beginning at the Indiana-Illinois State line, thence along Indiana Highway 28 to junction U.S. Highway 41, thence along U.S. Highway 41 to the junction of Interstate Highway 70, thence along Interstate Highway 70 to junction Indiana Highway 46, thence along Indiana Highway 46 to junction Indiana Highway 159, thence along Indiana Highway 159 to junction

Indiana Highway 48, thence along Indiana Highway 48 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Indiana Highway 45, thence along Indiana Highway 45 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Kentucky-Indiana State line, thence along U.S. Highway Hammond, and Gary, Ind., on the one hand, and, on the other, points in North Carolina on and south of a line beginning at the North Carolina-Tennessee State line, thence along U.S. Highway 421 to junction U.S. Highway 21, thence along U.S. Highway 21 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction North Carolina Highway 73, thence along North Carolina Highway 73 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction North Carolina Highway 98, thence along North Carolina Highway 98 to junction U.S. Highway 64, thence along U.S. Highway 64 to its terminus at the Atlantic Ocean; (l) between points in Indiana on and south of a line beginning at the Indiana-Illinois State line, thence along Indiana Highway 64 to junction Indiana Highway 57, thence along Indiana Highway 57 to junction U.S. Highway 150, thence along U.S. Highway 150 to junction Indiana Highway 56, thence along Indiana Highway 56 to junction U.S. Highway 421, thence along U.S. Highway 421 to the Indiana-Kentucky State line, on the one hand, and, on the other, points in North Dakota on and west of a line beginning at the Canadian-United States border, thence along North Dakota Highway 256 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction North Dakota Highway 49, thence along North Dakota Highway 49 to junction North Dakota Highway 21, thence along North Dakota Highway 21 to junction North Dakota Highway 8, thence along North Dakota Highway 8 to junction U.S. Highway 12, thence along U.S. Highway 12 to the North Dakota-South Dakota State line.

(m) Between points in Indiana on and east of a line beginning at the Indiana-Michigan State line, thence along Indiana Highway 19 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction Indiana Highway 22, thence along Indiana Highway 22 to junction Indiana Highway 19, thence along Indiana Highway 19 to junction Indiana Highway 38, thence along Indiana Highway 38 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Indiana Highway 44, thence along Indiana Highway 44 to junction Indiana Highway 3, thence along Indiana Highway 3 to junction Indiana Highway 46, thence along Indiana Highway 46 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction U.S. Highway 50, thence along U.S. Highway 50, to junction Indiana Highway 57,

thence along Indiana Highway 57 to junction Indiana Highway 64, thence along Indiana Highway 64 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Indiana-Kentucky State line, on the one hand, and, on the other, points in Oklahoma on, south, and west of a line beginning at the Oklahoma-Arkansas State line, thence along U.S. Highway 62 to junction Oklahoma Highway 10, thence along Oklahoma Highway 10 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Oklahoma Highway 33, thence along Oklahoma Highway 33 to junction Oklahoma Highway 34, thence along Oklahoma Highway 34 to junction U.S. Highway 183, thence along U.S. Highway 183 to the Oklahoma-Kansas State line; (n) between points in Indiana on and south of a line beginning at the Illinois-Indiana State line, thence along U.S. Highway 460 to junction Indiana Highway 61, thence along Indiana Highway 61 to junction Indiana Highway 66, thence along Indiana Highway 66 to junction Indiana Highway 45, thence along Indiana Highway 45 to Rockport, Ind., on the Indiana-Kentucky State line, on the one hand, and, on the other, points in Pennsylvania.

(o) Between points in Indiana on, south, and west of a line beginning at the Indiana-Illinois State line, thence along U.S. Highway 150 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Indiana Highway 56, thence along Indiana Highway 56 to junction Indiana Highway 145, thence along Indiana Highway 145 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction Indiana Highway 237, thence along Indiana Highway 237 to the Indiana-Kentucky State line, on the one hand, and, on the other, points in Rhode Island; (p) between points in Indiana on and west of a line beginning at the Indiana-Michigan State line, thence along U.S. Highway 31 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 421, thence along U.S. Highway 421 to junction Indiana Highway 43, thence along Indiana Highway 43 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Indiana Highway 46, thence along Indiana Highway 46 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction Indiana Highway 245, thence along Indiana Highway 245 to junction Indiana Highway 70, thence along Indiana Highway 70 to junction Indiana Highway 66, thence along Indiana Highway 66 to junction Indiana Highway 237, thence along Indiana Highway 237 to the Indiana-Kentucky State line, on the one hand, and, on the other, points in South Carolina.

(q) Between points in Indiana on and south of a line beginning at the Kentucky-Indiana State line at Mount Vernon, Ind., thence along Indiana Highway 69 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction Indiana Highway 68, thence along Indiana Highway 68 to junction Indiana Highway 65, thence along Indiana Highway 65 to junction Indiana Highway 56, thence along Indiana Highway 56 to junction Indiana Highway 57, thence along Indiana Highway 57 to junction U.S. Highway 150, thence along U.S. Highway 150 to junction Indiana Highway 56, thence along Indiana Highway 56 to junction Indiana Highway 60, thence along Indiana Highway 60 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction U.S. Highway 460, thence along U.S. Highway 460 to Jeffersonville, Ind., and the Kentucky-Indiana State line, on the one hand, and, on the other, points in South Dakota on and west of a line beginning at the North Dakota-South Dakota State line, thence along South Dakota Highway 63 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 212, thence along U.S. Highway 212 to Gettysburg, S. Dak., thence along U.S. Highway 212 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Nebraska-South Dakota State line.

(r) Between points in Indiana on and north of a line beginning at the Illinois-Indiana State line, thence along Interstate Highway 74 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Indiana-Ohio State line, including Indianapolis, Ind., and its commercial zone, on the one hand, and, on the other, points in Tennessee on and west of a line beginning at the Tennessee-Kentucky State line, thence along U.S. Highway 231 to junction U.S. Highway 70S, thence along U.S. Highway 70S to junction Tennessee Highway 56, thence along Tennessee Highway 56 to junction Tennessee Highway 8, thence along Tennessee Highway 8 to junction U.S. Highway 127, thence along U.S. Highway 127 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Tennessee-Georgia State line; (s) between points in Indiana, on the one hand, and, on the other, points in Texas on and south of a line beginning at the Texas-New Mexico State line, thence along Texas Highway 116 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction Texas Highway 79, thence along Texas Highway 79 to the Texas-Oklahoma State line; (t) between points in Indiana on, south, and west of a line beginning at the Illinois-Indiana State line, thence along U.S. Highway 50 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction Indiana Highway 66, thence along Indiana Highway 66 to junction

Indiana Highway 166, thence along Indiana Highway 166 to Tobsport, Ind., on the Kentucky-Indiana State line, on the one hand, and, on the other, points in Vermont.

(u) Between points in Indiana on and south of a line beginning at the Illinois-Indiana State line, thence along U.S. Highway 460 to junction Indiana Highway 68, thence along Indiana Highway 61, thence along Indiana Highway 61 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Indiana Highway 70, thence along Indiana Highway 70 to junction Indiana Highway 66, thence along Indiana Highway 66 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Indiana-Kentucky State line, on the one hand, and, on the other, points in Virginia on and east of a line beginning at the Virginia-Tennessee State line at Bristol, Tenn., thence along U.S. Highway 19 to the Virginia-West Virginia State line; (v) between points in Posey and Vanderburg Counties, Ind., on the one hand, and, on the other, points in West Virginia on and east of U.S. Highway 19; (2) (a) between points in Iowa on and east of a line beginning at the Iowa-Minnesota State line, thence along U.S. Highway 52 to junction Iowa Highway 9, thence along Iowa Highway 9 to junction Iowa Highway 51, thence along Iowa Highway 51 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction U.S. Highway 61, thence along U.S. Highway 61 to the Iowa-Illinois State line, on the one hand, and, on the other, points in Louisiana on and east of a line beginning at the Louisiana-Arkansas State line, thence along U.S. Highway 165 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction Louisiana Highway 6, thence along Louisiana Highway 6 to the Louisiana-Texas State line; (b) between points in Iowa on and south of a line beginning at the Iowa-Nebraska State line, thence along U.S. Highway 34 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction Iowa Highway 5, thence along Iowa Highway 5 to the Iowa-Missouri State line, on the one hand, and, on the other, points in Maine; (c) between Payne, Iowa, on the one hand, and, on the other, points in Maryland.

(d) Between Payne, Sidney, and Hamburg, Iowa, on the one hand, and, on the other, points in Massachusetts; (e) between points in Iowa on, east, and north of a line beginning at Davenport, Iowa, thence along U.S. Highway 61 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 218, thence along U.S. Highway 218 to the Iowa-Minnesota State line, on the one hand, and, on the other, points in Mississippi on, south, and east of a line beginning at Vicksburg, Miss., thence along U.S. Highway 61 to junction Mississippi Highway 3, thence along Mississippi Highway 3 to junction U.S. Highway 49E, thence along U.S. Highway 49E

to junction U.S. Highway 82, thence along U.S. Highway 82 to junction Mississippi Highway 15, thence along Mississippi Highway 15 to junction Mississippi Highway 6, thence along Mississippi Highway 6 to junction U.S. Highway 45, thence along U.S. Highway 45 to the Mississippi-Tennessee State line; (f) between points in Iowa on, south, and west of a line beginning at the Nebraska-Iowa State line, thence along Iowa Highway 2 to junction U.S. Highway 59, thence along U.S. Highway 59 to the Iowa-Missouri State line, on the one hand, and, on the other, points in New Hampshire; (g) between points in Iowa on, south, and west of a line beginning at the Nebraska-Iowa State line, thence along Iowa Highway 2 to junction U.S. Highway 59, thence along U.S. Highway 59 to the Iowa-Missouri State line, on the one hand, and, on the other, points in New Jersey; (h) between Payne, Iowa, on the one hand, and, on the other, points in New York on, south, and east of a line beginning at the Pennsylvania-New York State line, thence along New York Highway 370 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 8, thence along New York Highway 8 to junction New York Highway 7, thence along New York Highway 7 to junction New York Highway 23, thence along New York Highway 23 to junction Interstate Highway 87, thence along Interstate Highway 87 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 4, thence along U.S. Highway 4 to the New York-Vermont State line.

(i) Between points in Iowa on, south, and west of a line beginning at the South Dakota-Iowa State line, thence along Iowa Highway 3 to junction U.S. Highway 59, thence along U.S. Highway 59 to the Iowa-Missouri State line, on the one hand, and, on the other, points in Ohio on and south of a line beginning at the Kentucky-Ohio State line at the junction of Ohio Highway 93 and U.S. Highway 52, thence along U.S. Highway 52 to junction Ohio Highway 243, thence along Ohio Highway 243 to junction Ohio Highway 7 at Bradrick, Ohio, on the Ohio West Virginia State line; (j) between Payne, Iowa, on the one hand, and, on the other, points in Pennsylvania on and east of a line beginning at the New York-Pennsylvania State line, thence along Interstate Highway 81 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction Pennsylvania Highway 54, thence along Pennsylvania Highway 54 to junction Pennsylvania Highway 45, thence along Pennsylvania Highway 45 to junction Pennsylvania Highway 104, thence along Pennsylvania Highway 104 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 322, thence along U.S. Highway 322 to junction Pennsylvania Highway 75, thence along Pennsylvania Highway 75 to junction Interstate Highway 76, thence along Interstate Highway 76 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction Pennsylvania Highway 928, thence along Penn-

sylvia Highway 928 to the Pennsylvania-Maryland State line; (k) between points in Iowa on and south of a line beginning at the Nebraska-Iowa State line, thence along U.S. Highway 34 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction Iowa Highway 5, thence along Iowa Highway 5 to the Iowa-Missouri State line, on the one hand, and, on the other, points in Rhode Island; (l) between points in Iowa, on the one hand, and, on the other, points in Tennessee on and east of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 41 to junction Tennessee Highway 13, thence along Tennessee Highway 13 to the Tennessee-Alabama State line.

(m) Between points in Iowa on and east of a line beginning at the Iowa-Illinois State line, thence along U.S. Highway 61 to junction U.S. Highway 67, thence along U.S. Highway 67 to the Iowa-Illinois State line, on the one hand, and, on the other, points in Texas on and south of a line beginning at the United States-Mexico border at Eaglepass, Tex., thence along U.S. Highway 277 to junction Texas Highway 85, thence along Texas Highway 85 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Texas Highway 97, thence along Texas Highway 97 to junction Texas Highway 72, thence along Texas Highway 72 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Texas Highway 21, thence along Texas Highway 21 to junction Texas Highway 30, thence along Texas Highway 30 to junction U.S. Highway 190, thence along U.S. Highway 190 to the Texas-Louisiana State line; (n) between points in Iowa on and west of a line beginning at the Iowa-Nebraska State line, thence along Iowa Highway 2 to junction U.S. Highway 275, thence along U.S. Highway 275 to the Iowa-Missouri State line, on the one hand, and, on the other, points in Vermont; (o) between points in Iowa on, south, and west of a line beginning at the Nebraska-Iowa State line at Council Bluffs, Iowa, thence along U.S. Highway 275 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Iowa Highway 48, thence along Iowa Highway 48 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction Iowa Highway 5, thence along Iowa Highway 5 to the Iowa-Missouri State line, on the one hand, and, on the other, points in Virginia on and south of a line beginning at the Virginia-West Virginia State line, thence along Virginia Highway 55 to junction U.S. Highway 340, thence along U.S. Highway 340 to the Virginia-Maryland State line.

(p) Between points in Iowa on and west of a line beginning at the Iowa-Minnesota State line, thence along Iowa Highway 4 to junction Iowa Highway 9, thence along Iowa Highway 9 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S.

Highway 69, thence along U.S. Highway 69 to junction Interstate Highway 35, thence along Interstate Highway 35 to the Iowa-Missouri State line, on the one hand, and, on the other, points in West Virginia on and south of a line beginning at the Virginia-West Virginia State line, thence along Virginia Highway 39 to junction U.S. Highway 21, thence along U.S. Highway 21 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction West Virginia-Ohio State line at Huntington, W. Va.; (3) (a) between points in Kansas, on and south of a line beginning at the Oklahoma-Kansas State line, thence along U.S. Highway 56 to junction U.S. Highway 270, thence along U.S. Highway 270 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction Kansas Highway 14, thence along Kansas Highway 14 to junction Kansas Highway 44, thence along Kansas Highway 44 to junction Kansas Highway 49, thence along Kansas Highway 49 to junction U.S. Highway 166, thence along U.S. Highway 166 to junction U.S. Highway 166 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction U.S. Highway 169, thence along U.S. Highway 169 to the Oklahoma-Kansas State line, on the one hand, and, on the other, points in Michigan on and east of a line beginning at the Mackinaw City-St. Ignace Bridge, thence along Interstate Highway 75 to junction U.S. Highway 23, thence along U.S. Highway 23 to junction Michigan Highway 33, thence along Michigan Highway 33 to junction Michigan Highway 76, thence along Michigan Highway 76 to junction U.S. Highway 23, thence along U.S. Highway 23 to the Ohio-Michigan State line.

(b) Between points in Kansas on, north, and west of a line beginning at the Kansas-Nebraska State line, thence along U.S. Highway 183 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Kansas-Colorado State line, on the one hand, and, on the other, points in Mississippi on and east of a line beginning at the Mississippi-Tennessee State line, thence along U.S. Highway 45 to junction U.S. Highway 45A, thence along U.S. Highway 45A to junction U.S. Highway 45, thence along U.S. Highway 45 to the Mississippi-Alabama State line; (c) between points in Kansas on, south, and west of a line beginning at the Kansas-Oklahoma State line, thence along U.S. Highway 77 to the junction of Kansas Highway 15, thence along Kansas Highway 15 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 154, thence along U.S. Highway 154 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Kansas-Colorado State line, on the one hand, and, on the other, points in Ohio on and east of a line beginning at Toledo, Ohio, thence along Interstate Highway 75 to the Ohio-Kentucky State line at Cincinnati, Ohio; (d) between points in Kansas on, south, and west of a line beginning at the Kansas-Nebraska State line, thence along U.S. Highway 183 to junction

Kansas Highway 9, thence along Kansas Highway 9 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Kansas-Missouri State line, on the one hand, and, on the other, points in Pennsylvania; (e) between points in Kansas, on the one hand, and, on the other, points in Tennessee on and east of a line beginning at the Kentucky-Tennessee State line, thence along Tennessee Highway 120 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction Tennessee Highway 49, thence along Tennessee Highway 49 to junction Tennessee Highway 48, thence along Tennessee Highway 48 to junction Tennessee Highway 46, thence along Tennessee Highway 46 to junction Tennessee Highway 100, thence along Tennessee Highway 100 to junction Tennessee Highway 50, thence along Tennessee Highway 50 to junction U.S. Highway 43, thence along U.S. Highway 43 to the Tennessee-Alabama State line.

(f) Between points in Kansas on, west, and south of a line beginning at the Nebraska-Kansas State line, thence along Kansas Highway 15W to junction Kansas Highway 9, thence along Kansas Highway 9 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Kansas Highway 16, thence along Kansas Highway 16 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Kansas-Missouri State line, on the one hand, and, on the other, points in West Virginia; (4) (a) between points in Louisiana on and east of a line beginning at the Louisiana-Arkansas State line, thence along U.S. Highway 165 to junction U.S. Highway 90, thence along U.S. Highway 90 to the Louisiana-Texas State line, on the one hand, and, on the other, points in Minnesota on and north of a line beginning at the Minnesota-North Dakota State line, thence along Minnesota Highway 171 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Minnesota Highway 175, thence along Minnesota Highway 175 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 2, thence along U.S. Highway 2 to the Minnesota-Wisconsin State line and points in Minnesota on and east of a line beginning at the Minnesota-Iowa State line, thence along U.S. Highway 52 to junction Minnesota Highway 44, thence along Minnesota Highway 44 to junction Minnesota Highway 43, thence along Minnesota Highway 43 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction Minnesota Highway 60, thence along Minnesota Highway 60 to the Minnesota-Wisconsin State line.

(b) Between points in Louisiana on and east of a line beginning at the Louisiana-Mississippi State line, thence along Louisiana Highway 10 to junction Louisiana Highway 21, thence along Louisiana Highway 21 to junction of the Lake Pontchartrain Causeway at Covington, La., thence along Lake Pontchartrain Causeway to junction U.S. Highway 90 below Metairie, La., thence along U.S. Highway 90 to junction Louisiana Highway 315 at

Houma, La., thence along Louisiana Highway 315 to its terminus on the Gulf of Mexico, on the one hand, and, on the other, points in Missouri on, east, and north of a line beginning at the Iowa-Missouri State line, thence along U.S. Highway 63 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Illinois-Missouri State line; (c) between points in Louisiana on and east of a line beginning at the Mississippi-Louisiana State line, thence along Louisiana Highway 21 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction of the Lake Pontchartrain Causeway, thence along the Lake Pontchartrain Causeway to junction Interstate Highway 10, thence along Interstate Highway 10 to junction U.S. Highway BR-90, thence along U.S. Highway BR-90 to junction Louisiana Highway 23, thence along Louisiana Highway 23 to Venice, La., its terminus on the Gulf of Mexico, on the one hand, and, on the other, points in Nebraska on and north of a line beginning at the Wyoming-Nebraska State line, thence along U.S. Highway 26 to junction Nebraska Highway 71, thence along Nebraska Highway 71 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Nebraska-Iowa State line.

(d) Between points in Louisiana on, north, and west of a line beginning at the Louisiana-Arkansas State line, thence along U.S. Highway 65 to junction Louisiana Highway 2, thence along Louisiana Highway 2 to junction U.S. Highway 165, thence along U.S. Highway 165 to junction Louisiana Highway 8, thence along Louisiana Highway 8 to the Texas-Louisiana State line, on the one hand, and, on the other, points in North Carolina on and north of a line beginning at the North Carolina-Tennessee State line, thence along U.S. Highway 421 to junction Interstate Highway 85, thence along Interstate Highway 85 to junction U.S. Highway 70, thence along U.S. Highway 70 to the terminus of U.S. Highway 70 at Atlantic, N.C., on the Atlantic Ocean; (e) between points in Louisiana on and east of a line beginning at the Arkansas-Louisiana State line, thence along U.S. Highway 165 to junction U.S. Highway 167, thence along U.S. Highway 167 to junction Louisiana Highway 82, thence along Louisiana Highway 82 to junction Louisiana Highway 333 to Intracoastal, La., on the Gulf of Mexico, on the one hand, and, on the other, points in North Dakota on and north of a line beginning at the Montana-North Dakota State line, thence along U.S. Highway 2 to the North Dakota-Minnesota State line; (f) between Ida, La., on the one hand, and, on the other,

points in South Carolina on, east, and north of a line beginning at Charleston, S.C., thence along Interstate Highway 26 to the junction of South Carolina Highway 34, thence along South Carolina Highway 34 to junction U.S. Highway 178, thence along U.S. Highway 178 to the South Carolina-North Carolina State line; (g) between points in Louisiana on and east of a line beginning at the Louisiana-Mississippi State line, thence along Louisiana Highway 21 to junction Louisiana Highway 25, thence along Louisiana Highway 25 to junction of the Lake Pontchartrain Causeway, thence along Lake Pontchartrain Causeway to junction U.S. Highway 90, thence along U.S. Highway 90 to junction Louisiana Highway 1, thence along Louisiana Highway 1 to the terminus at Grand Isle, La., on the Gulf of Mexico, on the one hand, and, on the other, points in South Dakota.

(h) Between points in Louisiana on and west of a line beginning at the Mississippi-Louisiana State line, thence along Louisiana Highway 131 to junction Louisiana Highway 15, thence along Louisiana Highway 15 to junction Louisiana Highway 1, thence along Louisiana Highway 1 to junction Louisiana Highway 105, thence along Louisiana Highway 105 to junction Louisiana Highway 360, thence along Louisiana Highway 360 to junction Louisiana Highway 10, thence along Louisiana Highway 10 to junction U.S. Highway 167, thence along U.S. Highway 167 to junction Louisiana Highway 82, thence along Louisiana Highway 82 to junction Louisiana Highway 333, thence along Louisiana Highway 333 to the terminus on the Gulf of Mexico, on the one hand, and, on the other, points in Tennessee on and north of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 231 to junction U.S. Highway 70N, thence along U.S. Highway 70N to junction Interstate Highway 40, thence along Interstate Highway 40 to junction Tennessee Highway 62, thence along Tennessee Highway 62 to junction U.S. Highway 127, thence along U.S. Highway 127 to junction Tennessee Highway 52, thence along Tennessee Highway 52 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Tennessee-Kentucky State line; (i) between points in Louisiana on and west of a line beginning at the Louisiana-Mississippi State line, thence along U.S. Highway 61 to junction Louisiana Highway 10, thence along Louisiana Highway 10 to junction Louisiana Highway 78, thence along Louisiana Highway 78 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction U.S. Highway 167, thence along U.S. Highway 167 to junction Louisiana Highway 82, thence along Louisiana Highway 82 to junction Louisiana Highway 333, thence along Louisiana Highway 333 to its terminus at Intracoastal, La., on the Gulf of Mexico, on the one hand, and, on the other, points in Virginia; (j) between points in Louisiana, on the one hand, and, on the other, points in West Virginia on and north of a line beginning at the Vir-

ginia-West Virginia State line, thence along West Virginia Highway 83 to junction West Virginia Highway 16, thence along West Virginia Highway 16 to junction West Virginia Highway 3, thence along West Virginia Highway 3 to junction West Virginia Highway 63, thence along West Virginia Highway 63 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction U.S. Highway 60, thence along U.S. Highway 60 to the West Virginia-Virginia State line.

(k) Between points in Louisiana on, east, and south of a line beginning at the Louisiana-Arkansas State line, thence along U.S. Highway 165 to junction Louisiana Highway 1, thence along Louisiana Highway 1 to junction Louisiana Highway 8, thence along Louisiana Highway 8 to the Louisiana-Texas State line, on the one hand, and, on the other, points in Wisconsin; (5) (a) between points in Maine, on the one hand, and, on the other, points in Missouri on, west, and south of a line beginning at the Iowa-Missouri State line, thence along U.S. Highway 63 to junction Missouri Highway 6, thence along Missouri Highway 6 to the Illinois-Missouri State line at Hannibal, Mo.; (b) between points in Maine, on the one hand, and, on the other, points in Nebraska on, south, and west of a line beginning at the South Dakota-Nebraska State line, thence along U.S. Highway 385 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction Nebraska Highway 61, thence along Nebraska Highway 61 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to the Nebraska-Iowa State line; (c) between points in Maine on, north, and east of a line beginning at the United States-Canadian border, thence along U.S. Highway 201 to junction Maine Highway 16, thence along Maine Highway 16 to junction Maine Highway 15, thence along Maine Highway 15 to junction U.S. Highway 1A, thence along U.S. Highway 1A to Ellsworth, Me., thence along Maine Highway 3 to its terminus at Seal Harbor, Me., on the one hand, and, on the other, points in North Dakota on and west of a line beginning at the United States-Canadian border, thence along North Dakota Highway 256 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction North Dakota Highway 48, thence along North Dakota Highway 48 to junction North Dakota Highway 200, thence along North Dakota Highway 200 to junction North Dakota Highway 49, thence along North Dakota Highway 49 to junction North Dakota Highway 21, thence along North Dakota Highway 21 to junction North Dakota Highway 31, thence along North Dakota Highway 31 to the North Dakota-South Dakota State line.

(d) Between points in Maine, on the one hand, and, on the other, points in South Dakota on and west of a line beginning at the South Dakota-Nebraska State line, thence along U.S. Highway 385 to junction South Dakota Highway

79, thence along South Dakota Highway 79 to junction U.S. Highway 85, thence along U.S. Highway 85 to the South Dakota-North Dakota State line; (e) between points in Maine, on the one hand, and, on the other, points in Tennessee on and west of a line beginning at the Tennessee-Kentucky State line, thence along U.S. Highway 127 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Tennessee-Georgia State line; (6) (a) between points in Maryland on and north of a line beginning at the Maryland-Washington, D.C. State line, thence along U.S. Highway 50 to junction Maryland Highway 450, thence along Maryland Highway 450 to junction Maryland Highway 2, thence along Maryland Highway 2 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Maryland Highway 16, thence along Maryland Highway 16 to junction Maryland Highway 318, thence along Maryland Highway 318 to the Maryland-Delaware State line, on the one hand, and, on the other, points in Mississippi on, north, and west of a line beginning at the Alabama-Mississippi State line, thence along U.S. Highway 98 to junction Mississippi Highway 26, thence along Mississippi Highway 26 to junction U.S. Highway 49, thence along U.S. Highway 49 to its terminus at Gulf Port, Miss., on the Gulf of Mexico.

(b) Between points in Maryland, on the one hand, and, on the other, points in Missouri on and south of a line beginning at the Missouri-Kansas State line, thence along U.S. Highway 36 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Missouri Highway 116, thence along Missouri Highway 116 to junction Missouri Highway 13, thence along Missouri Highway 13 to junction Missouri Highway 10, thence along Missouri Highway 10 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Missouri Highway 22, thence along Missouri Highway 22 to junction Missouri Highway 19, thence along Missouri Highway 19 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Interstate Highway 244, thence along Interstate Highway 244 to junction U.S. Highway Bypass 50, thence along U.S. Highway Bypass 50 to the Missouri-Illinois State line; (c) between points in Maryland, on the one hand, and, on the other, points in Nebraska on, west, and south of a line beginning at the Nebraska-South Dakota State line, thence along U.S. Highway 83 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to the Nebraska-Iowa State line; (d) between points in Maryland, on the one hand, and, on the other, points in Nebraska on, west, and south of a line beginning at the Nebraska-South Dakota State line, thence along U.S. Highway 83 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to the Nebraska-Iowa State line; (e) between points in Maryland, on the one hand, and, on the other, points in South Dakota on and west of a line beginning at the South Dakota-North Dakota State line, thence along U.S. Highway 85 to junction South Dakota Highway 79, thence along South Dakota Highway 79 to junction U.S. Highway 385, thence along U.S. Highway 385 to the South Dakota-Nebraska State

line; (f) between points in Maryland, on the one hand, and, on the other, points in Tennessee on and west of a line beginning at the Tennessee-Kentucky State line, thence along U.S. Highway 31E to junction Interstate Highway 24, thence along Interstate Highway 24 to junction Tennessee Highway 96, thence along Tennessee Highway 96 to junction U.S. Highway 31A, thence along U.S. Highway 31A to junction Interstate Highway 65, thence along Interstate Highway 65 to the Tennessee-Alabama State line.

(7) (a) Between points in Massachusetts, on the one hand, and, on the other, points in Missouri on and south of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 36 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Missouri-Illinois State line; (b) between points in Massachusetts, on the one hand, and, on the other, points in Nebraska on, west, and south of a line beginning at the Nebraska-Missouri State line, thence along U.S. Highway 138 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 26, thence along U.S. Highway 26 to junction U.S. Highway 385, thence along U.S. Highway 385 to the Nebraska-South Dakota State line; (c) between points in Massachusetts on and east of a line beginning at the Massachusetts-Connecticut State line, thence along Massachusetts Highway 12 to the junction of Interstate Highway 290, thence along Interstate Highway 290 to junction Interstate Highway 495, thence along Interstate Highway 495 to junction Massachusetts Highway 38, thence along Massachusetts Highway 38 to the Massachusetts-New Hampshire State line, on the one hand, and, on the other, points in North Dakota on, north, and west of a line beginning at the North Dakota-Montana State line, thence along U.S. Highway 2 to junction U.S. Highway 85, thence along U.S. Highway 85 to the United States-Canadian border; (d) between points in Massachusetts, on the one hand, and, on the other, points in South Dakota on and west of a line beginning at the South Dakota-North Dakota State line, thence along U.S. Highway 85 to junction South Dakota Highway 54, thence along South Dakota Highway 54 to junction South Dakota Highway 79, thence along South Dakota Highway 79 to junction U.S. Highway 18, thence along U.S. Highway 18 to the Wyoming-South Dakota State line.

(e) Between points in Massachusetts, on the one hand, and, on the other, points in Tennessee on and west of a line beginning at the Alabama-Tennessee State line, thence along U.S. Highway 72 to junction Tennessee Highway

27, thence along Tennessee Highway 27 to junction Tennessee Highway 28, thence along Tennessee Highway 28 to junction U.S. Highway 127, thence along U.S. Highway 127 to junction Tennessee Highway 8, thence along Tennessee Highway 8 to junction Tennessee Highway 111, thence along Tennessee Highway 111 to junction Tennessee Highway 42, thence along Tennessee 42 to the Tennessee-Kentucky State line; (8) (a) between points in Michigan on, west, and south of a line beginning at the Michigan-Indiana State line, thence along U.S. Highway 131 to junction Michigan Highway 37, thence along Michigan Highway 37 to junction Michigan Highway 46, thence along Michigan Highway 46 to its terminus at Muskegon, Mich., and all points on and east of Interstate Highway 75 in the Upper Peninsula of Michigan, or the one hand, and, on the other, points in Missouri on, south, and east of a line beginning at the Missouri-Illinois State line, thence along U.S. Highway 60 and U.S. Highway 62 to junction U.S. Highway 62, thence along U.S. Highway 62 through Sikeston, Mo., to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction Missouri Highway 17, thence along Missouri Highway 17 to the Missouri-Arkansas State line.

(b) Between points in the Upper Peninsula of Michigan on and west of a line beginning at Marquette, Mich., thence along U.S. Highway 41 to the junction of Michigan Highway 35, thence along Michigan Highway 35 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Wisconsin-Michigan State line, on the one hand, and, on the other, points in North Carolina on, south, and west of a line beginning at the Virginia-North Carolina State line, thence along North Carolina Highway 86 to junction U.S. Highway 158, thence along U.S. Highway 158 to junction North Carolina Highway 39, thence along North Carolina Highway 39 to junction North Carolina Highway 98, thence along North Carolina Highway 98 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction U.S. Highway 17, thence along U.S. Highway 17 to the Pamlico River at Washington, N.C., near the Atlantic Ocean; (c) between points in the Lower Peninsula of Michigan on, north, and east of a line beginning at Ludington, Mich., thence along U.S. Highway 10 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Michigan Highway 78, thence along Michigan Highway 78 to junction Michigan Highway 66, thence along Michigan Highway 66 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction U.S. Highway 131, thence along U.S. Highway 131 to the Michigan-Indiana State line; and points in the Upper Peninsula of Michigan, on and east of a line beginning at the Mackinaw City-St. Ignace Bridge, thence along Interstate Highway 75 to junction Michigan Highway 123, thence along Michigan Highway 123 to its terminus approximately one mile past Whitefish Point, Mich., on the one hand,

and, on the other, points in Oklahoma on and south of a line beginning at the Arkansas-Oklahoma State line, thence along Oklahoma Highway 9A to junction U.S. Highway 271, thence along U.S. Highway 271 to junction Oklahoma Highway 9, thence along Oklahoma Highway 9 to junction U.S. Highway 270, thence along U.S. Highway 270 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction Oklahoma Highway 6, thence along Oklahoma Highway 6 to its terminus at the Oklahoma-Texas State line.

(d) Between points in Michigan on and west of a line beginning at Grand Marais, Mich., thence along Michigan Highway 77 to junction Michigan Highway 28, thence along Michigan Highway 28 to junction Michigan Highway 94, thence along Michigan Highway 94 to Manistique, Mich., on the one hand, and, on the other, points in South Carolina; (e) between points in Michigan, on the one hand, and, on the other, points in Tennessee on and west of a line beginning at the Tennessee-Georgia State line at Chattanooga, Tenn., thence along Tennessee Highway 27 to junction Tennessee Highway 108, thence along Tennessee Highway 108 to junction Tennessee Highway 56, thence along Tennessee Highway 56 to junction U.S. Highway 70S, thence along U.S. Highway 70S to junction U.S. Highway 31W, thence along U.S. Highway 31W to the Tennessee-Kentucky State line; (f) between points in Michigan in the Lower Peninsula and points in the Upper Peninsula on and east of a line beginning at the United States-Canadian border, thence along Interstate Highway 75 to Mackinaw, Mich., on the one hand, and, on the other, points in Texas, on and south of a line beginning at the Texas-New Mexico State line, thence along Interstate Highway 40 to the Texas-Oklahoma State line; (g) between points in Michigan on and west of a line beginning at Marquette, Mich., thence along Michigan Highway 35 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Michigan-Wisconsin State line, on the one hand, and, on the other, points in Virginia on, south, and west of a line beginning at the Virginia-Kentucky State line, thence along U.S. Highway 23 to junction Virginia Highway 83, thence along Virginia Highway 83 to junction Virginia Highway 72, thence along Virginia Highway 72 to junction U.S. Highway 58A, thence along U.S. Highway 58A to junction U.S. Highway 11, thence along U.S. Highway 11 to junction U.S. Highway 52, thence along U.S. Highway 52 to the Virginia-North Carolina State line; (h) between points in Keweenaw County, Mich., on the one hand, and, on the other, points in Bluefield, W. Va.

(9) (a) Between points in Minnesota on and east of a line beginning at the Minnesota-Iowa State line, thence along U.S. Highway 52 to the Minnesota-North Dakota State line, on the one hand, and, on the other, points in Mississippi; (b) between points in Minnesota on and west of a line beginning at the United States-Canadian border, thence along Minnesota Highway 313 to junction Minnesota

Highway 11, thence along Minnesota Highway 11 to junction Minnesota Highway 72, thence along Minnesota Highway 72 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Minnesota Highway 34, thence along Minnesota Highway 34 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Minnesota Highway 40, thence along Minnesota Highway 40 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Minnesota Highway 68, thence along Minnesota Highway 68 to junction U.S. Highway 59, thence along U.S. Highway 59 to the Minnesota-Iowa State line, on the one hand, and, on the other, Chesapeake, Ohio; (c) between points in Minnesota, on the one hand, and, on the other, points in Tennessee on and east of a line beginning at the Mississippi-Tennessee State line, thence along Tennessee Highway 18 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction U.S. Highway 45E, thence along U.S. Highway 45E to junction Tennessee Highway 54, thence along Tennessee Highway 54 to junction Tennessee Highway 89, thence along Tennessee Highway 89 to the Tennessee-Kentucky State line.

(d) Between points in Minnesota on and east of a line beginning at the United States-Canadian border, thence along U.S. Highway 53 to junction Minnesota Highway 73, thence along Minnesota Highway 73 to junction Minnesota Highway 37, thence along Minnesota Highway 37 to junction U.S. Highway 53, thence along U.S. Highway 53 to the Minnesota-Wisconsin State line, on the one hand, and, on the other, points in Texas on and east of a line beginning at the Texas-Louisiana State line, thence along Texas Highway 63 to junction U.S. Highway 96, thence along U.S. Highway 96 to junction Interstate Highway 10, thence along Interstate Highway 10 to junction Texas Highway 124, thence along Texas Highway 124 to junction Texas Highway 87, thence along Texas Highway 87 to junction of the Galveston-Port Bolivar Ferry, thence along the Galveston-Port Bolivar Ferry to Galveston, Tex., on the Gulf of Mexico and its commercial zone; (e) between points in Minnesota on and west of a line beginning at the United States-Canadian border, thence along U.S. Highway 71 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction Minnesota Highway 22, thence along Minnesota Highway 22 to junction U.S. Highway 65, thence along U.S. Highway 65 to the Minnesota-Iowa State line, on the one hand, and, on the other, points in Virginia on, south and west of a line beginning at the Virginia-West Virginia State line, thence along Virginia Highway 39 to junction Virginia Highway 42, thence along Virginia Highway 42 to junction Virginia Highway 254, thence along Virginia Highway 254 to junction Interstate Highway 64, thence along Interstate Highway 64 to junction U.S. Highway 340, thence along U.S. Highway 340 to its terminus at Reedville, Va., on Chesapeake Bay.

(f) Between points in Minnesota on, south and west of a line beginning at the South Dakota-Minnesota State line, thence along Interstate Highway 94 to junction U.S. Highway 75, thence along U.S. Highway 75 to the Minnesota-Iowa State line, and St. Vincent, Minn., and its commercial zone, on the one hand, and, on the other, points in West Virginia on and south of a line beginning at the Kentucky-West Virginia State line, thence along Interstate Highway 64 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction West Virginia Highway 16, thence along West Virginia Highway 16 to junction West Virginia Highway 39, thence along West Virginia Highway 39 to the Virginia-West Virginia State line; (10) (a) between points in Mississippi on, south and east of a line beginning at the Mississippi-Alabama State line, thence along U.S. Highway 98 to junction Mississippi Highway 26, thence along Mississippi Highway 26 to junction U.S. Highway 49, thence along U.S. Highway 49 to its terminus at Gulfport, Miss., on the Gulf of Mexico, on the one hand, and, on the other, points in Missouri on and east of a line beginning at the Missouri-Illinois State line, thence along Interstate Highway 70 to junction Missouri Highway 19, thence along Missouri Highway 19 to junction Missouri Highway 22, thence along Missouri Highway 22 to junction Missouri Highway 15, thence along Missouri Highway 15 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 38, thence along U.S. Highway 38 to junction Missouri Highway 5, thence along Missouri Highway 5 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction U.S. Highway 65, thence along U.S. Highway 65 to the Missouri-Iowa State line.

(b) Between points in Mississippi on and east of a line beginning at the Mississippi-Tennessee State line, thence along Mississippi Highway 7 to junction Mississippi Highway 9W, thence along Mississippi Highway 9W to junction Mississippi Highway 9, thence along Mississippi Highway 9 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 90, thence along U.S. Highway 90 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Mississippi Highway 13, thence along Mississippi Highway 13 to junction U.S. Highway 98, thence along U.S. Highway 98 to junction Mississippi Highway 35, thence along Mississippi Highway 35 to the Louisiana-Mississippi State line, on the one hand, and, on the other, points in Nebraska on and north of a line beginning at the Nebraska-Wyoming State line, thence along U.S. Highway 26 to junction U.S. Highway 345, thence along U.S. Highway 345 to junction Nebraska Highway 87, thence along Nebraska Highway 87 to junction U.S. Highway 26, thence along U.S. Highway 26 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Nebraska-South Dakota State line; (c) between points in

Mississippi on and west of a line beginning at the Tennessee-Mississippi State line, thence along U.S. Highway 45 to junction Mississippi Highway 30, thence along Mississippi Highway 30 to junction Mississippi Highway 7, thence along Mississippi Highway 7 to junction U.S. Highway 49E, thence along U.S. Highway 49E to junction Mississippi Highway 3, thence along Mississippi Highway 3 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction U.S. Highway 84, thence along U.S. Highway 84 to the Mississippi-Louisiana State line, on the one hand, and, on the other, Mount Airy, N.C., and its commercial zone;

(d) Between points in Mississippi on the one hand, and, on the other, points in North Dakota on and north of a line beginning at the Montana-North Dakota State line, thence along U.S. Highway 12 to junction North Dakota Highway 8, thence along North Dakota Highway 8 to junction North Dakota Highway 21, thence along North Dakota Highway 21 to junction North Dakota Highway 6, thence along North Dakota Highway 6 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction North Dakota Highway 34, thence along North Dakota Highway 34 to junction North Dakota Highway 30, thence along North Dakota Highway 30 to junction North Dakota Highway 46, thence along North Dakota Highway 46 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Interstate Highway 94, thence along Interstate Highway 94 to the North Dakota-Minnesota State line; (e) between points in Mississippi, on the one hand, and, on the other, Lemmon, S. Dak., and its commercial zone.

(f) Between points in Mississippi on and west of a line beginning at the Mississippi-Tennessee State line, thence along U.S. Highway 61 to junction U.S. Highway 49E, thence along U.S. Highway 49E to junction U.S. Highway 40, thence along U.S. Highway 40 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Mississippi-Louisiana State line, on the one hand, and, on the other, points in Pickett County, Tenn.; (g) between points in Mississippi on and east of a line beginning at the Mississippi-Tennessee State line, thence along U.S. Highway 45 to junction U.S. Highway 72, thence along U.S. Highway 72 to junction Mississippi Highway 7, thence along Mississippi Highway 7 to junction U.S. Highway 49E, thence along U.S. Highway 49E to junction U.S. Highway 49W, thence along U.S. Highway 49W to junction Mississippi Highway 3, thence along Mississippi Highway 3 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction U.S. Highway 80, thence along U.S. Highway 80 to the Mississippi-Louisiana State line, on the one hand, and, on the other, points in Virginia; (h) between points in Mississippi on and west of a line beginning at the Mississippi-Alabama State line, thence along U.S. Highway 78 to junction

Mississippi Highway 6, thence along Mississippi Highway 6 to junction Mississippi Highway 15, thence along Mississippi Highway 15 to junction Mississippi Highway 12, thence along Mississippi Highway 12 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Mississippi-Louisiana State line, on the one hand, and, on the other, points in West Virginia; (i) between points in Mississippi, on the one hand, and, on the other, points in Wisconsin on and northeast of a line beginning at the Illinois-Wisconsin State line, thence along Wisconsin Highway 78 to junction Wisconsin Highway 11, thence along Wisconsin Highway 11 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to junction Wisconsin Highway 130, thence along Wisconsin Highway 130 to junction U.S. Highway 14, thence along U.S. Highway 14 to the Wisconsin-Minnesota State line.

(11) (a) Between points in Missouri on, west and south of a line beginning at Hannibal, Mo., thence along U.S. Highway 24 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction Missouri Highway 31, thence along Missouri Highway 31 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Missouri-Iowa State line, on the one hand, and, on the other, points in New Hampshire; (b) between points in Missouri on and south of a line beginning at the Kansas-Missouri State line, thence along Interstate Highway 70 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Missouri Highway 7, thence along Missouri Highway 7 to junction Missouri Highway 13, thence along Missouri Highway 13 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction Missouri Highway 7, thence along Missouri Highway 7 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Missouri Highway 72, thence along Missouri Highway 72 to junction Missouri Highway 32, thence along Missouri Highway 32 to Ste. Genevieve, Mo., on the Missouri-Illinois State line, on the one hand, and, on the other, points in New York; (c) between points in Missouri on, south and east of a line beginning at the Missouri-Arkansas State line, thence along U.S. Highway 67 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction Missouri Highway 74, thence along Missouri Highway 74 to its terminus at Cape Girardeau, Mo., on the one hand, and, on the other, points in North Dakota on, north and west of a line beginning at the North Dakota-Montana State line, thence along U.S. Highway 2 to junction U.S. Highway 85, thence along U.S. Highway 85 to the United States-Canadian border;

(d) Between points in Missouri on and south of a line beginning at Ste. Genevieve, Mo., thence along Missouri Highway 32 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Missouri Highway 64, thence along Missouri Highway 64 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Missouri Highway 64, thence along Missouri Highway 64 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Iowa-Missouri State line, on the one hand, and, on the other, points in Vermont; (i) between points in Missouri on, south and west of a line beginning at the Missouri-Iowa State line, thence along U.S. Highway 63 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Iowa-Missouri State line, on the one hand, and, on the other, points in Virginia; (j) between points in Missouri on and south of a line beginning at the Missouri-Kansas State line, thence along Interstate Highway 70 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Missouri Highway 7, thence along Missouri Highway 7 to junction Missouri Highway 13, thence along Missouri Highway 13 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction

Missouri Highway 34, thence along Missouri Highway 34 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 66, thence along U.S. Highway 66 to the Missouri-Kansas State line, on the one hand, and, on the other, points in Ohio on, east and south of a line beginning at Lake Erie, at, and including Cleveland, Ohio and its commercial zone, thence along Interstate Highway 71 to junction Ohio Highway 3, thence along Ohio Highway 3 to junction Interstate Highway 71, thence along Interstate Highway 71 to Cincinnati, Ohio; (e) between points in Missouri on and south of a line beginning at the Kansas-Missouri State line, thence along Interstate Highway 70 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction Missouri Highway 32, thence along Missouri Highway 32 to Ste. Genevieve, Mo., on the one hand, and, on the other, points in Pennsylvania; (f) between points in Missouri on, north and west of a line beginning at the Arkansas-Missouri State line, thence along Missouri Highway 101 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 66, thence along U.S. Highway 66 to the Illinois-Missouri State line, on the one hand, and, on the other, points in Tennessee on and east of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 79 to junction U.S. Alternate Highway 41, thence along U.S. Alternate Highway 41 to junction Interstate Highway 65, thence along Interstate Highway 65 to the Alabama-Tennessee State line.

(g) Between Cape Girardeau, Mo., on the one hand, and, on the other, El Paso, Tex.; (h) between points in Missouri on, south and west of a line beginning at the Missouri-Iowa State line, thence along U.S. Highway 36 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Iowa-Missouri State line, on the one hand, and, on the other, points in Vermont; (i) between points in Missouri on, south and west of a line beginning at the Missouri-Iowa State line, thence along U.S. Highway 63 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Missouri-Illinois State line, on the one hand, and, on the other, points in Virginia; (j) between points in Missouri on and south of a line beginning at the Missouri-Kansas State line, thence along Interstate Highway 70 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Missouri Highway 7, thence along Missouri Highway 7 to junction Missouri Highway 13, thence along Missouri Highway 13 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction

Missouri Highway 64, thence along Missouri Highway 64 to junction Missouri Highway 32, thence along Missouri Highway 32 to the Missouri-Illinois State line, on the one hand, and, on the other, points in West Virginia; (12) (a) between points in Nebraska on, south and west of a line beginning at the Nebraska-Iowa State line, thence along Nebraska Highway 2 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Nebraska Highway 33, thence along Nebraska Highway 33 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Nebraska-Wyoming State line, on the one hand, and, on the other, points in New Hampshire.

(b) Between points in Nebraska on, west and south of a line beginning at the South Dakota-Nebraska State line, thence along U.S. Highway 385 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to the Iowa-Nebraska State line, on the one hand, and, on the other, points in New Jersey; (c) between points in Nebraska on and west of a line beginning at the Nebraska-Colorado State line, thence along Nebraska Highway 19 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Nebraska Highway 71, thence along Nebraska Highway 71 to junction U.S. Highway 26, thence along U.S. Highway 26 to the Nebraska-Wyoming State line, and points on and south of a line beginning at the Nebraska-Colorado State line, thence along U.S. Highway 6 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line, on the one hand, and, on the other, points in New York on and east of a line beginning at and including Rochester, N.Y., and its commercial zone, thence along New York Highway 31 to junction New York Highway 14, thence along New York Highway 14 to the New York-Pennsylvania State line; (d) between points in Nebraska on and west of a line beginning at the Nebraska-Kansas State line, thence along U.S. Highway 83 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Nebraska Highway 61, thence along Nebraska Highway 61 to junction U.S. Highway 26, thence along U.S. Highway 26 to the Nebraska-Wyoming State line, on the one hand, and, on the other, points in Ohio on, south and east of a line beginning at the Ohio-Kentucky State line, thence along Interstate Highway 71 and 75 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 22, thence along U.S. Highway 22 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction Ohio Highway 16, thence along Ohio Highway

16 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 22, thence along U.S. Highway 22 to the Ohio-Pennsylvania State line.

(e) Between points in Nebraska on, south and west of a line beginning at the Wyoming-Nebraska State line, thence along U.S. Highway 26 to junction U.S. Highway 386, thence along U.S. Highway 386 to junction Nebraska Highway 19, thence along Nebraska Highway 19 to the Nebraska-Colorado State line, and points on and south of a line beginning at the Colorado-Nebraska State line, thence along U.S. Highway 6 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Nebraska-Kansas State line, on the one hand, and, on the other, points in Pennsylvania on, south and east of a line beginning at the Ohio-Pennsylvania State line, thence along Pennsylvania Highway 68 to junction U.S. Highway 422, thence along U.S. Highway 422 to junction Pennsylvania Highway 85, thence along Pennsylvania Highway 85 to junction U.S. Highway 119, thence along U.S. Highway 119 to junction Pennsylvania Highway 255, thence along Pennsylvania Highway 255 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 220, thence along U.S. Highway 220 to junction Pennsylvania Highway 287, thence along Pennsylvania Highway 287 to the Pennsylvania-New York State line; (f) between points in Nebraska on, west and south of a line beginning at and including Omaha, Nebr., and its commercial zone, thence along Nebraska Highway 92 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Nebraska Highway 22, thence along Nebraska Highway 22 to junction Nebraska Highway 39, thence along Nebraska Highway 39 to junction Nebraska Highway 91, thence along Nebraska Highway 91 to junction U.S. Highway 281, thence along U.S. Highway 281 to the Nebraska-South Dakota State line, on the one hand, and, on the other, points in Rhode Island.

(g) Between points in Nebraska, on the one hand, and, on the other, points in Tennessee on and east of a line beginning at the Kentucky-Tennessee State line, thence along Tennessee Highway 119 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction Tennessee Highway 69, thence along Tennessee Highway 69 to junction Tennessee Highway 20, thence along Tennessee Highway 20 to junction Tennessee Highway 13, thence along Tennessee Highway 13 to the Tennessee-Alabama State line; (h) between points in Nebraska on, south, and west of a line beginning at the Wyoming-Nebraska State line, thence along U.S. Highway 20 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction U.S. Highway 26, thence along U.S. Highway 26 to junction Nebraska Highway 61, thence along Nebraska Highway 61 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway

way 6, thence along U.S. Highway 6 to junction Nebraska Highway 14, thence along Nebraska Highway 14 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Missouri-Nebraska State line, on the one hand, and, on the other, points in Vermont; (i) between points in Nebraska on, west, and south of a line beginning at the Nebraska-South Dakota State line, thence along U.S. Highway 281 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction Nebraska Highway 14, thence along Nebraska Highway 14 to junction Nebraska Highway 39, thence along Nebraska Highway 39 to junction Nebraska Highway 27, thence along Nebraska Highway 27 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 275, thence along U.S. Highway 275 to the Nebraska-Iowa State line, on the one hand, and, on the other, points in Virginia.

(j) Between points in Nebraska on, west, and south of a line beginning at the Nebraska-South Dakota State line, thence along Nebraska Highway 61 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Nebraska-Iowa State line, on the one hand, and, on the other, points in West Virginia on and south of a line beginning at the West Virginia-Ohio State line, thence along U.S. Highway 35 to junction West Virginia Highway 2, thence along West Virginia Highway 2 to junction U.S. Highway 33, thence along U.S. Highway 33 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction West Virginia 45, thence along West Virginia 45 to junction West Virginia Highway 29, thence along West Virginia Highway 29 to junction West Virginia Highway 9, thence along West Virginia Highway 9 to the West Virginia-Virginia State line; (13) (a) between points in New Hampshire, on the one hand, and, on the other, points in South Dakota on and west of a line beginning at the Wyoming-South Dakota State line, thence along South Dakota Highway 34 to junction U.S. Highway 85, thence along U.S. Highway 85 to junction U.S. Highway 385, thence along U.S. Highway 385 to the Nebraska-South Dakota State line; (b) between points in New Hampshire, on the one hand, and, on the other, points in Tennessee on and west of a line beginning at the Georgia-Tennessee State line, thence along U.S. Highway 27 to junction Tennessee Highway 27, thence along Tennessee Highway 27 to junction U.S. Highway 127, thence along U.S. Highway 127 to junction Tennessee Highway 30, thence along Tennessee Highway 30 to junction Tennessee Highway 111, thence along Tennessee Highway 111 to junction Tennessee Highway 42, thence along

Tennessee Highway 42 to junction Tennessee Highway 62, thence along Tennessee Highway 62 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Tennessee-Kentucky State line.

(14) (a) Between points in New Jersey on and south of a line beginning at Asbury Park, N.J., thence along New Jersey Highway 71 to junction New Jersey Highway 33, thence along New Jersey Highway 33 to junction U.S. Highway 130, thence along U.S. Highway 130 to junction New Jersey Highway 33, thence along New Jersey Highway 33 to Trenton, N.J., including its commercial zone, on the one hand, and, on the other, points in North Dakota on, west, and north of a line beginning at the United States-Canadian border, thence along U.S. Highway 85 to junction U.S. Highway 3, thence along U.S. Highway 3 to the North Dakota-Montana State line, and Mar-marth, N. Dak., and its commercial zone; (b) between points in New Jersey, on the one hand, and, on the other, points in South Dakota on, south, and west of a line beginning at the Wyoming-South Dakota State line, thence along South Dakota Highway 34 to junction South Dakota Highway 79, thence along South Dakota Highway 79 to junction U.S. Highway 385, thence along U.S. Highway 385 to the Nebraska-South Dakota State line; (c) between points in New Jersey, on the one hand, and, on the other, points in Tennessee on and west of a line beginning at the Tennessee-Kentucky State line, thence along U.S. Highway 231 to junction U.S. Highway 41A, thence along U.S. Highway 41A to junction Tennessee Highway 55, thence along Tennessee Highway 55 to junction Tennessee Highway 50, thence along Tennessee Highway 50 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Tennessee-Alabama State line; (15) (a) between points in New York on and north of a line beginning at the Pennsylvania-New York State line, thence along New York Highway 19 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 21, thence along New York Highway 21 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction New York Highway 5, thence along New York Highway 5 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction New York Highway 3, thence along New York Highway 3 to its terminus at Plattsburgh, N.Y., on the one hand, and, on the other, Postell, N.C., and its commercial zone.

(b) Between New York City and Long Island, N.Y., on the one hand, and, on the other, points in North Dakota on and west of a line beginning at the North Dakota-Montana State line, thence along U.S. Highway 2 to junction U.S. Highway 85, thence along U.S. Highway 85 to the United States-Canadian border; (c) between points in New York on and south of a line beginning at the New York-Connecticut State line, thence along New York Highway 343 to junction U.S. Highway 44, thence along U.S. Highway 44 to

junction U.S. Highway 9W, thence along U.S. Highway 9W to junction U.S. Highway 209, thence along U.S. Highway 209 to the New York-Pennsylvania State line, on the one hand, and, on the other, points in South Dakota on and west of a line beginning at the South Dakota-Wyoming State line, thence along South Dakota Highway 34 to junction U.S. Highway 85, thence along U.S. Highway 85 to the Township of Belle Fourche, thence along U.S. Highway 85 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction South Dakota Highway 79, thence along South Dakota Highway 79 to junction U.S. Highway 385, thence along U.S. Highway 385 to the South Dakota-Nebraska State line; (d) between points in New York, on the one hand, and, on the other, points in Tennessee on and west of a line beginning at the Kentucky-Tennessee State line, thence along Tennessee Highway 56 to junction U.S. Highway 70N, thence along U.S. Highway 70N to junction Tennessee Highway 42, thence along Tennessee Highway 42 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction Tennessee Highway 56, thence along Tennessee Highway 56 to junction Tennessee Highway 55, thence along Tennessee Highway 55 to junction U.S. Alternate Highway 41, thence along U.S. Alternate Highway 41 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction Tennessee Highway 97, thence along Tennessee Highway 97 to the Alabama-Tennessee State line.

(16) (a) Between points in North Carolina on and east of a line beginning at the Virginia-North Carolina State line, thence along U.S. Highway 21 to junction North Carolina Highway 18, thence along North Carolina Highway 18 to junction U.S. Highway 421, thence along U.S. Highway 421 to junction North Carolina Highway 115, thence along North Carolina Highway 115 to junction U.S. Highway 21, thence along U.S. Highway 21 to junction U.S. Highway 74, thence along U.S. Highway 74 to junction U.S. Highway 601, thence along U.S. Highway 601 to the North Carolina-South Carolina State line, on the one hand, and, on the other, points in Tennessee on, north, and west of a line beginning at the Tennessee-Kentucky State line, thence along U.S. Alternate Highway 41 to junction Tennessee Highway 13, thence along Tennessee Highway 13 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction Interstate Highway 240, thence along Interstate Highway 240 to junction Interstate Highway 55, thence along Interstate Highway 55 to the Tennessee-Mississippi State line; (b) between points in North Carolina on and east of a line beginning at the Tennessee-North Carolina State line, thence along U.S. Highway 25 to the North Carolina-South Carolina State line, on the one hand, and, on the other, points in Texas on and west of a line beginning at the Texas-Louisiana State line, thence along U.S. Highway 84 to junction U.S. Highway 59, thence along

U.S. Highway 59 to junction Texas Highway 84, thence along Texas Highway 84 to junction Texas Highway 19, thence along Texas Highway 19 to junction Texas Highway 30, thence along Texas Highway 30 to junction Texas Highway 90, thence along Texas Highway 90 to junction U.S. Highway 290, thence along U.S. Highway 290 to junction Texas Highway 237, thence along Texas Highway 237 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Texas Highway 111, thence along Texas Highway 111 to junction Texas Highway 172, thence along Texas Highway 172 to its terminus at Olviva, Tex., on the Gulf of Mexico; (c) Between Postell, N.C., and its commercial zone, on the one hand, and, on the other, points in Vermont, on and north of a line beginning at the Vermont-New York State line, thence along U.S. Highway 2 to junction Vermont Highway 78, thence along Vermont Highway 78 to junction Vermont Highway 105, thence along Vermont Highway 105 to junction Vermont Highway 105A, thence along Vermont Highway 105A to the United States-Canadian border; (d) between points in North Carolina on and west of a line beginning at and including Washington, N.C., thence along U.S. Highway 17 to junction North Carolina Highway 125, thence along North Carolina Highway 125 to junction U.S. Highway 301, thence along U.S. Highway 301 to the North Carolina-Virginia State line, on the one hand, and, on the other, points in Wisconsin on, north, and west of a line beginning at and including Sheboygan, Wisc., thence along Wisconsin Highway 23 to junction U.S. Highway 151, thence along U.S. Highway 151 to the junction of U.S. Highway 51 to the Wisconsin-Illinois State line; (17) (a) between points in North Dakota on, west, and north of a line beginning at the South Dakota-North Dakota State line, thence along North Dakota Highway 8 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction North Dakota Highway 27, thence along North Dakota Highway 27 to junction North Dakota Highway 23, thence along North Dakota Highway 23 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction North Dakota Highway 256, thence along North Dakota Highway 256 to the United States-Canadian border, on the one hand, and, on the other, points in West Virginia on and south of a line beginning at the Kentucky-West Virginia State line, thence along U.S. Highway 60 to junction Interstate Highway 64, thence along Interstate Highway 64 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction West Virginia Highway 16, thence along West Virginia Highway 16 to junction West Virginia Highway 39, thence along West Virginia Highway 39 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction West Virginia Highway 41, thence along West Virginia Highway 41 to junction West Virginia Highway 20, thence along West Virginia Highway 20 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction U.S. Highway 33, thence along U.S. Highway 33 to the West Virginia-Virginia State line; (18) (a)

(b) Between Fortuna, N. Dak., and its commercial zone, on the one hand, and, on the other, points in Pennsylvania on, south, and east of a line beginning at the Delaware-Pennsylvania State line, thence along Pennsylvania Highway 82 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 202, thence along U.S. Highway 202 to junction Interstate Highway 276, thence along Interstate Highway 276 to junction U.S. Highway 1, thence along U.S. Highway 1 to the Pennsylvania-New Jersey State line; (c) between points in North Dakota on and west of a line beginning at the North Dakota-South Dakota State line, thence along North Dakota Highway 8 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 85, thence along U.S. Highway 85 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction North Dakota Highway 8, thence along North Dakota Highway 8 to junction North Dakota Highway 5, thence along North Dakota Highway 5 to junction North Dakota Highway 256, thence along North Dakota Highway 256 to the United States-Canadian border, on the one hand, and, on the other, points in Rhode Island; (d) between points in North Dakota on, north, and west of a line beginning at the United States-Canadian border, thence along North Dakota Highway 256 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction North Dakota Highway 8, thence along North Dakota Highway 8 to junction North Dakota Highway 23, thence along North Dakota Highway 23 to junction U.S. Highway 85, thence along U.S. Highway 85 to the North Dakota-South Dakota State line, on the one hand, and, on the other, points in Virginia.

(e) Between points in North Dakota on and west of a line beginning at the North Dakota-South Dakota State line, thence along North Dakota Highway 6 to Bismarck, N. Dak., thence along U.S. Highway 83 to junction North Dakota Highway 256, thence along North Dakota Highway 256 to the United States-Canadian border, on the one hand, and, on the other, points in West Virginia on and south of a line beginning at the Kentucky-West Virginia State line, thence along U.S. Highway 60 to junction Interstate Highway 64, thence along Interstate Highway 64 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction West Virginia Highway 16, thence along West Virginia Highway 16 to junction West Virginia Highway 39, thence along West Virginia Highway 39 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction West Virginia Highway 41, thence along West Virginia Highway 41 to junction West Virginia Highway 20, thence along West Virginia Highway 20 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction U.S. Highway 33, thence along U.S. Highway 33 to the West Virginia-Virginia State line; (18) (a)

east of a line beginning at the Indiana-Kentucky State line, thence along U.S. Highway 41 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction U.S. Highway 641, thence along U.S. Highway 641 to the Kentucky-Tennessee State line, on the one hand, and, on the other, points in Colorado; (c) between points in Kentucky on and east of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 41A to the junction of Kentucky Highway 85, thence along Kentucky Highway 85 to junction Kentucky Highway 81, thence along Kentucky Highway 81 to junction U.S. Highway 431, thence along U.S. Highway 431 to the Indiana-Kentucky State line, on the one hand, and, on the other, points in Kansas; (d) between points in Kentucky on, north, and east of a line beginning at the Kentucky-Indiana State line, thence along U.S. Highway 41 to junction U.S. Highway 62, thence along Kentucky Highway 176, thence along Kentucky Highway 176 to junction U.S. Highway 431, thence along U.S. Highway 431 to junction Kentucky Highway 80, thence along Kentucky Highway 80 to the Virginia-Kentucky State line, on the one hand, and, on the other, points in Mississippi; (e) between points in Kentucky on and south of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 31W to the junction of Kentucky Highway 80, thence along Kentucky Highway 80 to junction Kentucky Highway 30, thence along Kentucky Highway 30 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction U.S. Highway 119, thence along U.S. Highway 119 to the Kentucky-West Virginia State line, on the one hand, and, on the other, points in Missouri; (f) between points in Kentucky on and east of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 41A to junction Kentucky Highway 85, thence along Kentucky Highway 85 to junction Kentucky Highway 81, thence along Kentucky Highway 81 to junction U.S. Highway 431, thence along U.S. Highway 431 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Kentucky-Indiana State line; and all points on, west, and north of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 127 to junction Kentucky Highway 90, thence along Kentucky Highway 90 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Kentucky Highway 80, thence along Kentucky Highway 80 to junction Kentucky Highway 15, thence along Kentucky Highway 15 to junction U.S. Highway 119, thence along U.S. Highway 119 to junction U.S. Highway 23, thence along U.S. Highway 23 to the Kentucky-Virginia State line, on the one hand, and, on the other, points in Louisiana; (g) between points in Kentucky on and east of a line beginning at the Kentucky-Indiana State line, thence along U.S. Highway 41 to junction U.S. Highway 41A, thence along U.S. Highway 41A to the Kentucky-Tennessee State line, on the one hand, and, on the other,

points in Oklahoma; and (h) between points in Kentucky on and east of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 41A to junction U.S. Highway 41, thence along U.S. Highway 41 to the Kentucky-Tennessee State line, on the one hand, and, on the other, points in Texas. The purpose of this filing is to eliminate the gateways of Logan County, Ky., and Muhlenberg County, Ky.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,  
Acting Secretary.

[Notice 293]

#### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

MAY 22, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before June 11, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-35466. By order entered May 16, 1975 the Motor Carrier Board approved the lease to Wilton E. Taylor, doing business as Gene Taylor Heavy Hauling, Mesquite, Tex., for a period of five years of the operating rights set forth in Certificate of Registration No. MC-99850 (Sub-No. 2), issued September 8, 1965, in the name of Dallas Thompson, and acquired by Texas Steel Culver Company, Inc., Arlington, Tex., pursuant to No. MC-FC-73359, approved April 24, 1972, and consummated March 31, 1972, evidencing a right to engage in transportation, in interstate or foreign commerce, of various specified commodities, between points in Texas. M. Ward Bailey, Continental Life Bldg., Fort Worth, Tex. 76102, attorney for applicants.

No. MC-FC-75493. By order of May 15, 1975 the Motor Carrier Board approved the transfer to Collins Moving Systems, Inc., Kokomo, Ind., of the operating rights in Certificate No. MC-102679 (Sub-No. 2) issued May 8, 1972 to Lambert's Moving & Storage, Inc., Connersville, Ind., authorizing the transportation of household goods between

points in Indiana, on the one hand, and, on the other, points in Illinois, Kentucky, Michigan and Ohio. Walter F. Jones, Jr., 601 Chamber of Commerce Bldg., Indianapolis, Ind. 46204, attorney for applicants.

No. MC-FC-75756. By order of May 16, 1975, the Motor Carrier Board approved the transfer to Regional Transportation District, a political subdivision of the State of Colorado, Denver, Colo., of the operating rights in Certificates Nos. MC-57250 (Sub-No. 1) and MC-57250 (Sub-No. 3) issued January 7, 1949, and September 4, 1952, respectively, to Denver-Boulder Bus Company, a corporation, Denver, Colo., authorizing the transportation of passengers and their baggage, and express, mail and newspapers in the same vehicle with passengers, over described regular routes between Boulder, Colo., and Denver, Colo., serving all intermediate points. Leonard M. Campbell, 1900 Security Life Building, Denver, Colo. 80202 Attorney for applicants.

No. MC-FC-75813. By order of May 16, 1975 the Motor Carrier Board approved the transfer to O'Brien's Brokerage Company, Inc., Las Vegas, Nev., of License No. MC-12555 issued December 15, 1952 to Harry Armstrong O'Brien, doing business as O'Brien's Transfer & Storage Co., Las Vegas, Nev., authorizing it to engage in operations as a broker of household goods between Reno, Nev. and points within 100 miles thereof, on the one hand, and, on the other, points in the United States, including the District of Columbia. Maxwell A. Howell, 1511 K St., N.W., Washington, D.C. 20005 Attorney for applicants.

No. MC-FC-75817. By order of May 16, 1975, the Motor Carrier Board approved the transfer to Coppes Transfer, Inc., Yarmouth, Iowa, of the operating rights in Certificates Nos. MC-78644 and MC-78644 (Sub-No. 2) issued February 18, 1958, and April 30, 1962, respectively, to Milo F. Coppes, doing business as Coppes Transfer, Yarmouth, Iowa, authorizing the transportation of livestock and agricultural commodities, from Yarmouth, Iowa, to Chicago, Ill., serving intermediate and off-route points within 15 miles of Yarmouth and the off-route point of Forest Park, Ill.; mill feed, building materials, farm hardware, farm machinery, and farm supplies, from Chicago, Ill., to Yarmouth, Iowa, serving the same intermediate and off-route points as described above; livestock, from Yarmouth, Iowa, to Galesburg, Ill., and from Yarmouth, Iowa, to Peoria, Ill.; livestock and feed, between New London, Iowa, and Galesburg, Ill., and between New London, Iowa, and Peoria, Ill.; coal, from points in Tazewell, Peoria, and Knox Counties, Ill., to Yarmouth, Iowa, and points within 15 miles of Yarmouth, and fertilizer, in bags, from Streator, Ill., to points in a described area of Iowa. Kenneth F. Dudley, 611 Church Street, P.O. Box 279, Ottumwa, Iowa 52501, Registered Practitioner for applicants.

No. MC-FC-75822. By order of May 16, 1975 the Motor Carrier Board approved

the transfer to John L. Caldwell, San Diego, Calif., of Certificate of Registration No. MC-121227 (Sub-No. 1) issued July 27, 1965 to California Rapid Transfer, Inc., Lemon Grove, California, evidencing a right to engage in transportation in interstate commerce as in Decision No. 67209 by the Public Utilities Commission of the State of California. David P. Christianson, 606 Olive St., #825, Los Angeles, Calif. 90014, attorney for applicants.

No. MC-FC-75823. By order entered May 16, 1975 the Motor Carrier Board approved the transfer to John D. Whitmore, doing business as Moapa Valley Freight & Passenger Service, Overton, Nev., of the operating rights set forth in Certificate of Registration No. MC-97515 (Sub-No. 1), issued June 5, 1964, to Dennis B. Whitmore, doing business as Moapa Valley Freight and Passenger Service, Overton, Nev., evidencing a right to engage in transportation in interstate or foreign commerce of commodities generally, between Las Vegas, Nev., and Overton Beach, Nev., over specified routes, and between Overton, Nev., and a 45-mile radius of Overton, Nev., with exceptions. Lee E. Walker, 319 S. Third St., Las Vegas, Nev. 89101, attorney for applicants.

No. MC-FC-75825. By order of May 16, 1975 the Motor Carrier Board approved the transfer to Thrifty Tours, Inc., Washington, D.C., of License No. MC-12660 issued January 31, 1958 to Marie Emelia Reeves, doing business as Thrifty Tours, Washington, D.C., authorizing it to engage in operations as a broker of passengers and their baggage, in charter operations, from points in Kentucky, Ohio, New York and Pennsylvania, with certain exceptions and Buckingham, Herndon, and Vinton, Va., and Atlanta, Ga. to points in the District of Columbia, and return. Daniel B. Johnson, 1329 E St., N.W., Washington, D.C., 20004 Attorney for applicants.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Notice No. 40]

#### MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

MAY 16, 1975.

The following applications are governed by Special Rule 1100 247 of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure season-

<sup>1</sup> Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

ably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d) (3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d) (4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and on or before July 21, 1975, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the "Federal Register" of a notice that the proceeding has been assigned for oral hearing.*

Evidence respecting how equipment is expected to be returned to an origin point, as well as other data relating to operational feasibility (including the need for dead-head operations), must be presented as part of an applicant's initial evidentiary presentation (either at oral hearing or in its opening verified statement under the modified procedure) with respect to all applications filed on or after December 1, 1973.

If an applicant states in its initial evidentiary presentation that empty or partially empty vehicle movements will result upon a grant of its application, applicant will be expected (1) to specify the extent of such empty operations, by mileages and the number of vehicles,

that would be incurred, and (2) to designate where such empty vehicle operations will be conducted.

Each applicant (except as otherwise specifically noted) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 1936 (Sub-No. 43), filed April 18, 1975. Applicant: B & P MOTOR EXPRESS, INC., 720 Gross Street, Pittsburgh, Pa. 15224. Applicant's representative: John A. Vuono, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving Plymouth, Mich. as an off-route point in connection with carrier's regular route operations to and from Detroit, Mich.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Detroit, Mich.

No. MC 2202 (Sub-No. 483), filed April 18, 1975. Applicant: ROADWAY EXPRESS, INC., 1077 Gorge Boulevard, P.O. Box 471, Akron, Ohio. 44309. Applicant's representative: William O. Turney, 2001 Massachusetts Ave. N.W., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Stafford, Mo., and Davenport, Iowa; from Stafford, Mo., over Missouri Highway 125 to junction U.S. Highway 65, thence over U.S. Highway 65 to junction Missouri Highway 32, thence over Missouri Highway 32 to junction Missouri Highway 73, thence over Missouri Highway 73 to junction U.S. Highway 54, thence over U.S. Highway 54 to junction Missouri Highway 19, thence over Missouri Highway 19 to junction U.S. Highway 61, thence over U.S. Highway 61 to Davenport, Iowa, and return over the same route, as an alternate route for operating convenience only, serving no intermediate points, restricted against the transportation of traffic originating at or destined to points in Missouri and points in the St. Louis and Kansas City, Missouri commercial zones as defined by the Commission.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 2765 (Sub-No. 32), filed April 16, 1975. Applicant: SQUARE DEAL CARTAGE CO., a Corporation, 13401 Eldon Avenue, Detroit, Mich. 48234. Applicant's representative: Eugene C. Ewald, 100 West Long Lake Road, Suite 102, Bloomfield Hills, Mich. 48013. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Motor vehicles, in

secondary movements, in truckway service, from Albany, N.Y., to points in Indiana and Michigan.

**NOTE.**—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 4405 (Sub-No. 521), filed April 16, 1975. Applicant: DEALERS TRANSPORT, INC., 2209 E. 170th Street, P.O. Box 361, Lansing, Ill. 60438. Applicant's representative: Robert E. Joyner, 3008 Clark Tower, 5100 Poplar Avenue, Memphis, Tenn. 38137. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Anti-pollution equipment and supplies and refuse handling and treatment equipment and supplies, from Washington County, Okla., to points in the United States (except Oklahoma, Alaska, and Hawaii).

**NOTE.**—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Oklahoma City, Okla., or Washington, D.C.

No. MC 5227 (Sub-No. 17), filed April 15, 1975. Applicant: ECONOMY MOVERS, INC., P.O. Box 201, Mead, Nebr. 68041. Applicant's representative: Galfyn L. Larsen, P.O. Box 81849, Lincoln, Nebr. 68601. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Solar heating and cooling systems and related parts and accessories, roofing tile, and insulation, from the plant site and facilities of Mid-America Industries, Inc., located at or near Mead, Nebr., to points in North Dakota, South Dakota, Wyoming, Montana, Colorado, New Mexico, Texas, Oklahoma, Kansas, Missouri, Arkansas, Illinois, Indiana, Iowa, Wisconsin, and Minnesota; (2) equipment, materials and supplies used in the manufacture of the commodities named in part (1) hereof, from points in North Dakota, South Dakota, Montana, Wyoming, Colorado, New Mexico, Texas, Oklahoma, Kansas, Missouri, Arkansas, Illinois, Indiana, Iowa, Wisconsin, and Minnesota, to the plant site and facilities of Mid-America Industries, Inc., located at or near Mead, Nebr.; and (3) polystyrene (except in bulk) from Parsippany, N.J. and Pittsburgh, Pa., to the plant site and facilities of Mid-America Industries, Inc., located at or near Mead, Nebr.

**NOTE.**—If a hearing is deemed necessary, the applicant requests it be held at Lincoln or Omaha, Nebr.

No. MC 6461 (Sub-No. 16), filed April 21, 1975. Applicant: B LINE TRANSPORT CO. INC., 7100 E. Broadway, Spokane, Wash. 99206. Applicant's representative: Max Gray (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Ore and ore concentrate residuals, in bulk, from Kellogg and Snelterville, Idaho to points in Spokane, Stevens, and Pend Oreille Counties, Wash.

**NOTE.**—If a hearing is deemed necessary, the applicant requests it be held at Spokane, Wash.

No. MC 10173 (Sub-No. 17), filed April 7, 1975. Applicant: MARVIN HAYES LINES, INC., P.O. Box 468, Clarksville, Tenn. 37040. Applicant's representative: J. Marvin Hayes, Jr. (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment). (1) Between Guthrie, Ky., and Russellville, Ky.: From Guthrie, Ky., over U.S. Highway 79 to Russellville, and return over the same route; (2) Between the junction of U.S. Highway 41 and Kentucky Highway 181, near Guthrie, Ky., and the junction of Kentucky Highway 181 and U.S. Highway 68, at or near Elkton, Ky.: From junction U.S. Highway 41 and Kentucky Highway 181, near Guthrie, Ky., thence over Kentucky Highway 181 and U.S. Highway 68 near Elkton, and return over the same route; (3) Between Springfield, Tenn., and Russellville, Ky.: From Springfield, over U.S. Highway 431 to Russellville, and return over the same route; (4) Between Springfield, Tenn., and the junction of Tennessee Highway 25 and U.S. Highway 31-W, over Tennessee Highway 49 to junction Tennessee Highway 25, thence over Tennessee Highway 25 to junction U.S. Highway 31-W, thence over U.S. Highway 31-W to junction Tennessee Highway 25, thence over Tennessee Highway 25 to junction U.S. Highway 31-W, and return over the same route; and (5) Between the junction of U.S. Highways 41 and 31-W, near Goodlettsville, Tenn., and Louisville, Ky., over U.S. Highway 31-W, from the junction of U.S. Highways 41 and 31-W near Goodlettsville, Tenn., and Louisville, Ky., over U.S. Highway 31-W, and return over the same route, serving the junction of Tennessee Highway 25 and U.S. Highway 31-W for jointer purposes only with alternate route (4) above. (1) through (5) above as alternate routes for operating convenience only, serving no intermediate points, in connection with carrier's presently authorized regular route operations in MC 10173 and Sub-Nos. 10 and 12.

**NOTE.**—If a hearing is deemed necessary, the applicant requests it be held at Nashville, Tenn.

No. MC 22195 (Sub-No. 162), filed April 10, 1975. Applicant: DAN DUGAN TRANSPORT COMPANY, a Corporation, 41st & Grange Avenue, Sioux Falls, S. Dak. 57106. Applicant's representative: Fred Fischer (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Anhydrous ammonia, in bulk, in tank vehicles, from Polk, Red Lake, Pennington, and Marshall Counties, Minn., to points in North Dakota and South

Dakota; and (2) residual fuel oil, in bulk, those in tank vehicles, from Dickinson, N. Dak., to points in Minnesota and to points in South Dakota south and east of a line extending from the Wyoming-South Dakota State line along U.S. Highway 14 through Rapid City, Pierre, and Westminster to junction U.S. Highway 281, thence along U.S. Highway 281 through Redfield and Aberdeen to the South Dakota-North Dakota State line.

**NOTE.**—If a hearing is deemed necessary, the applicant requests it be held at either Fargo, or Bismarck, N. Dak.

No. MC 22229 (Sub-No. 160), filed April 14, 1975. Applicant: TERMINAL TRANSPORT COMPANY, INC., 248 Chester Avenue, SE, Atlanta, Ga. 30316. Applicant's representative: Harold H. Clokey, 1740 The Equitable Building, Atlanta, Ga. 30303. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plant site and facilities of Owens Illinois, Inc., at or near Streator, (La Salle County), Ill., as an off-route point in connection with carrier's otherwise authorized regular route operations between Chicago, Ill. and St. Louis, Mo., and between Rock Island and Chicago, Ill.

**NOTE.**—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill., or Washington, D.C.

No. MC 26307 (Sub-No. 20), filed April 17, 1975. Applicant: FREDRICKSON MOTOR EXPRESS CORPORATION, 3406 N. Graham St., P.O. Box 21099, Charlotte, N.C. 28206. Applicant's representative: Thomas D. Bunn, P.O. Box 527, Raleigh, N.C. 27602. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment): (1) Between Elkin, N.C. and the junction of U.S. Highway 21 and the Virginia-North Carolina State Boundary line: From Elkin over U.S. Highway 21 to the Virginia-North Carolina State line, and return over the same route, serving all intermediate points; (2) Between Mt. Airy, N.C. and the junction of North Carolina Highway 89 and the Virginia-North Carolina State Boundary line: From Mt. Airy over North Carolina Highway 89 to the Virginia-North Carolina State Boundary line, and return over the same route, serving all intermediate points; (3) Between the junction of U.S. Highway 601 and North Carolina Highway 268 and North Carolina Highway 268 to North Wilkesboro, and return over the same route, serving all intermediate points;

(4) Between North Wilkesboro, N.C. and North Wilkesboro, N.C.: From North Wilkesboro over U.S. Highway 421 to Boone, N.C., thence over North Carolina Highway 194 to junction U.S. Highway 221, thence over U.S. Highway 221 to Jefferson, N.C., thence over North Carolina Highway 18 to North Wilkesboro, and return over the same route, serving all intermediate points.

(5) Between Lenoir, N.C. and Boone, N.C.: From Lenoir over U.S. Highway 321 to Boone, and return over the same route, serving all intermediate points; (6) Between North Wilkesboro, N.C. and the junction of North Carolina Highway 18 and North Carolina Highway 89: From North Wilkesboro over North Carolina Highway 18 to junction North Carolina Highway 89, and return over the same route, serving all intermediate points; (7) Between North Wilkesboro, N.C. and the junction of North Carolina Highway 268 and U.S. Highway 321: From North Wilkesboro over North Carolina Highway 268 to junction U.S. Highway 321, and return over the same route, serving all intermediate points; (8) Between Jefferson, N.C. and Twin Oaks, N.C.: From Jefferson over U.S. Highway 221 to Twin Oaks, and return over the same route, serving all intermediate points; (9) Between Index, N.C. and Laurel Springs, N.C.: From Index over North Carolina Highway 88 to Laurel Springs, and return over the same route, serving all intermediate points; and (10) Between Winston-Salem, N.C. and North Wilkesboro, N.C.: From Winston-Salem over U.S. Highway 421 to North Wilkesboro, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only.

**NOTE.**—If a hearing is deemed necessary, the applicant requests it be held at Raleigh or Charlotte, N.C.

No. MC 42537 (Sub-No. 53), filed April 21, 1975. Applicant: CASSENS TRANSPORT COMPANY, P.O. Box 468, Edwardsville, Ill. 62025. Applicant's representative: Donald W. Smith, Suite 2465, One Indiana Square, Indianapolis, Ind. 46204. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Imported automobiles in secondary movements, in truckway service, from Chicago and Naperville, Ill., to points in Wisconsin and Minnesota, restricted to traffic having a prior movement by rail.

**NOTE.**—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Detroit, Mich., or St. Louis, Mo.

No. MC 51146 (Sub-No. 425), filed April 23, 1975. Applicant: SCHNEIDER TRANSPORT, INC., 2661 South Broadway, Green Bay, Wis. 54304. Applicant's representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Paper and paper products, and materials and supplies used in the manufacture and distribution of paper and paper products, between Crossett, Ark., on the one hand,

and, on the other, points in California, Oregon, Washington, Nevada, Idaho, Utah, Montana, Wyoming, and Colorado.

**NOTE.**—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 60580 (Sub-No. 31), filed April 21, 1975. Applicant: MAISLIN TRANSPORT OF DELAWARE, INC., 7401 Newman Boulevard, LaSalle, Quebec, Canada. Applicant's representative: Edward L. Nehez, 744 Broad Street, Newark, N.J. 07102. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plant site of Western Electric Company at the junction of New York Highway 422 and Maple Street (Elma Township), Erie County, N.Y., as an off-route point in connection with applicant's regular route operations to or from Buffalo, N.Y.

**NOTE.**—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either New York, N.Y., Newark, N.J., or Washington, D.C.

No. MC 61396 (Sub-No. 287), filed April 21, 1975. Applicant: HERMAN BROS. INC., P.O. Box 189, Omaha, Nebr. 68101. Applicant's representative: John E. Smith, II (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Inedible tallow, in bulk, in tank vehicles, from the facilities of National By Products, Inc., located at or near LaPlatte, Nebr., to points in Iowa, Kansas, Arkansas, Missouri and Minnesota.

**NOTE.**—If a hearing is deemed necessary, the applicant requests it be held at Omaha, or Lincoln, Nebr.

No. MC 61592 (Sub-No. 350), filed April 10, 1975. Applicant: JENKINS TRUCK LINE, INC., P.O. Box 697, R.R. 3, Jeffersonville, Ind. 47130. Applicant's representative: E. A. DeVine, P.O. Box 737, 101 First Ave., Moline, Ill. 61265. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Lumber and lumber products, from points in Flathead County, Mont., to points in North Dakota, South Dakota, Minnesota, Wisconsin, Illinois, Indiana, Michigan, Nebraska, Kansas, Missouri, Iowa, Colorado, Texas, Ohio, Utah, and Kentucky.

**NOTE.**—Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority with its lead at points in Cass County, Ind., to serve points in the United States east of the Mississippi River. If a hearing is deemed necessary, the applicant requests it be held at Billings, Mont. or Washington, D.C.

No. MC 64932 (Sub-No. 549), filed April 23, 1975. Applicant: ROGERS CARTAGE CO., 10735 South Cicero Avenue, Oak Lawn, Ill. 60453. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Au-

thority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquid chemicals, in bulk, in tank vehicles, (1) from Swanton, Ohio, to points in Louisiana, New Jersey, Texas, and West Virginia; (2) from points in Illinois, Kentucky, Louisiana, Michigan, New Jersey, Pennsylvania, Texas, and West Virginia to Swanton, Ohio; (3) from Linden, N.J., to points in Illinois, Kentucky, Louisiana, Pennsylvania, Texas, and West Virginia; and (4) from points in Illinois, Kentucky, Louisiana, Michigan, Pennsylvania, Texas, and West Virginia to Linden, N.J.

**NOTE.**—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 72243 (Sub-No. 50), filed April 24, 1975. Applicant: THE AETNA FREIGHT LINES, INC., P.O. Box 350, Warren, Ohio 44482. Applicant's representative: John P. Carlton, 903 Frank Nelson Bldg., Birmingham, Ala. 35203. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Iron and steel articles, aluminum articles, iron and steel tanks (assembled or knocked down), aluminum tanks (assembled or knocked down), and parts, attachments and accessories for iron and steel and aluminum tanks, from points in Liberty County, Tex., to points in Texas, Louisiana, Arkansas, Missouri, Kansas, Mississippi, Alabama, and Oklahoma.

**NOTE.**—If a hearing is deemed necessary, the applicant requests it be held at either Birmingham, Ala., or Washington, D.C.

No. MC 73165 (Sub-No. 363), filed April 18, 1975. Applicant: EAGLE MOTOR LINES, INC., P.O. Box 11086, Birmingham, Ala. 35202. Applicant's representative: Carl U. Hurst (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Lumber, pallets, poles; and (2) parts, attachments, and accessories, for commodities described in (1) above, from Brenham, Tex., to points in the United States (except Alaska and Hawaii).

**NOTE.**—If a hearing is deemed necessary, the applicant requests it be held at Houston, Tex.

No. MC 73165 (Sub-No. 364), filed April 21, 1975. Applicant: EAGLE MOTOR LINES, INC., P.O. Box 11086, Birmingham, Ala. 35202. Applicant's representative: Carl U. Hurst (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: General commodities (except commodities in bulk, household goods as defined by the Commission, articles of unusual value, and Classes A and B explosives), between the Yellow Creek Port Terminal and Industrial area located in Tishomingo County, Miss., on the one hand, and, on the other, points in Mississippi, Tennessee, and Alabama.

**NOTE.**—If a hearing is deemed necessary, the applicant requests it be held at either Birmingham, Ala., or Memphis, Tenn.

No. MC 82492 (Sub-No. 123), filed April 17, 1975. Applicant: MICHEGAN & NEBRASKA TRAMWAY CO., INC., P.O. Box 7653, 2109 Olmstead Road, Kalamazoo, Mich. 49003. Applicant's representative: William C. Harris, P.O. Box 2853, Kalamazoo, Mich. 49003. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such commodities as are manufactured, sold, or distributed by persons engaged in the manufacturing, processing, and milling of grain or grain products, and materials, equipment, and supplies, used in the conduct of such business (except commodities in bulk, and those which because of size or weight require special equipment). (1) between points in Michigan, on the one hand, and, on the other, points in Kentucky, Pennsylvania, Tennessee, and West Virginia; and (2) from points in Indiana, Kentucky, Tennessee, and Ohio, to points in Missouri, Kansas, and Nebraska.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 88380 (Sub-No. 19), filed April 23, 1975. Applicant: REB TRANSPORTATION, INC., 2400 Cold Springs Road, Fort Worth, Tex. 76106. Applicant's representative: John L. Payne (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Iron and steel articles, aluminum tanks and parts, attachments and accessories for iron and steel tanks and aluminum tanks, between points in Liberty County, Tex., on the one hand, and, on the other, points in Louisiana, Arkansas, Oklahoma, New Mexico, Kansas, Missouri, and Mississippi.

Note.—If a hearing is deemed necessary, the applicant requests it be held at either Birmingham, Ala., or Washington, D.C.

No. MC 93640 (Sub-No. 18), filed April 14, 1975. Applicant: W. W. GLESS, doing business as GLESS BROS., Blue Grass, Iowa 52726. Applicant's representative: James M. Hodge, 1960 Financial Center, Des Moines, Iowa 50309. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquid animal feed and liquid animal feed supplements, in bulk, from the plant site of Land O'Lakes, Inc., at or near Clarence, Iowa, to points in Illinois, Minnesota, Nebraska, North Dakota, South Dakota, Wisconsin, and Iowa.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 96855 (Sub-No. 7), filed April 21, 1975. Applicant: REFRIGERATED DELIVERY SERVICE, INC., P.O. Box 50247, Tulsa, Okla. 74150. Applicant's representative: V. Langenberg (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (a) Meats, meat products, dairy products and articles distributed

by meat packinghouses as described in Sections A, B, and C of Appendix I to the report to Descriptions in Motor Carrier Certificates, 61 M.C.C. 200 and 706 (except hides and commodities in bulk); and (b) foodstuffs when moving with commodities described in (a) above, from the plant site and storage facilities of Oscar Mayer & Co., located at or near Sherman, Tex., to points in Oklahoma, and Benton, Crawford, Sebastian, and Washington Counties, Ark., restricted to traffic originating at named origins and destined to the above named destinations.

Note.—If a hearing is deemed necessary, the applicant does not specify a location.

No. MC 99464 (Sub-No. 3), filed April 23, 1975. Applicant: IVAN W. WERNER AND WILLIAM R. DOUGLAS, a partnership doing business as PAWNEE CITY TRANSFER, P.O. Box 327, Pawnee City, Nebr. 68420. Applicant's representative: J. Max Harding, P.O. Box 87028, Lincoln, Nebr. 68501. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), serving the off-route points of Verdon, Dawson, and Falls City, Nebr., in connection with applicant's existing regular-route operations between Pawnee City and Omaha, Nebr.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Omaha, Nebr.

No. MC 99610 (Sub-No. 19), filed April 21, 1975. Applicant: ROSS NEELY EXPRESS, INC., 1500 Second Street, Pratt City, Birmingham, Ala. 36214. Applicant's representative: Edward G. Villalon, Suite 1032, Pennsylvania Building, Pennsylvania Ave. & 13th Street NW, Washington, D.C. 20004. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities requiring special equipment, and commodities in bulk in tank vehicles). (1) Between Centre, Ala., and Rome, Ga.: From Centre over Alabama Highway 9 to the Alabama-Georgia state line, thence over Georgia Highway 20 to Rome, Ga., and return over the same route, serving all intermediate points; (2) Between Centre, Ala., and Atlanta, Ga., serving all points within 15 miles of Atlanta, Ga., as off-route points; From Centre over U.S. Highway 411 to the junction of U.S. Highway 411 and U.S. Highway 41, thence over U.S. Highway 41 to Marietta, Ga., thence over Interstate Highway 75 to Atlanta, Ga., and return over the same route, serving all intermediate points between Centre, Ala., and Rome, Ga., and serving all points within 15 miles of Atlanta, Ga., as off-route points; (3) Between Gadsden, Ala., and Atlanta, Ga., serving all points within 15 miles of Atlanta, Ga., as off-route points; From

Gadsden over U.S. Highway 411 to the junction of U.S. Highway 411 and U.S. Highway 41, thence over U.S. Highway 41 to Marietta, Ga., thence over Interstate Highway 75 to Atlanta, Ga., and return over the same route, serving all intermediate points between Gadsden, Ala., and Atlanta, Ga., and serving all points within 15 miles of Atlanta, Ga., as off-route points; (4) Between Gadsden, Ala., and Atlanta, Ga.: From Gadsden over U.S. Highway 278 to Atlanta, and return over the same route, serving all intermediate points in Alabama.

(5) Between the junction of U.S. Highway 78 and U.S. Highway 431, in Alabama, and Atlanta, Ga.: From the junction of U.S. Highway 78 and U.S. Highway 431, in Alabama, over U.S. Highway 78 to Atlanta, Ga., and return over the same route, serving all intermediate points in Alabama; (6) Between the junction of Interstate Highway 20 and U.S. Highway 431 in Alabama, and Atlanta, Ga.: From the junction of Interstate Highway 20 and U.S. Highway 431, in Alabama, over Interstate Highway 20 to Atlanta, Ga., and return over the same route, serving all intermediate points in Alabama; and (7) Between the junction of U.S. Highway 29, and Interstate Highway 85, in Alabama, and Atlanta, Ga.: From the junction of U.S. Highway 29 and Interstate Highway 85, in Alabama, over Interstate Highway 85 to Atlanta, Ga., and return over the same route, serving all intermediate points in Alabama; and serving as off-route points in connection with (3) thru (7) above those points in Alabama not on applicant's existing regular routes north of the southern boundaries of Russell, Bullock, Pike, Crenshaw, Butler, Wilcox, Clarke, and Choctaw Counties, Ala.; and also serving points in Mobile County, Ala., and Dothan and Andalusia, Ala.; and serving points in that part of Baldwin County, Ala., in a territory beginning at Stockton, Ala., thence south along Alabama Highway 59 to junction Baldwin County Highway 64; thence in a westerly direction along Baldwin County Highway 64 to junction Baldwin County Highway 27; thence in a southerly direction along Baldwin County Highway 27 to junction U.S. Highway 98, thence west and north along U.S. Highway 98 to junction Baldwin-Mobile County line to the closest point in Chastang, Ala.; thence over an imaginary line from Chastang to Stockton, Ala., on the one hand, and, on the other, all points in Alabama north of the southern boundaries of Russell, Bullock, Pike, Crenshaw, Butler, Wilcox, Clarke, and Choctaw Counties, Ala.

Note.—If a hearing is deemed necessary, the applicant requests it be held at both Birmingham, Ala., and Atlanta, Ga.

No. MC 102567 (Sub-No. 185) (Correction), filed March 27, 1975, published in the *Federal Register* issue of May 1, 1975, and republished, as corrected this issue. Applicant: McNAIR TRANSPORT, INC., 4295 Meadow Lane, P.O. Box 5357, Bozler City, La. 71010. Applicant's representative: Joe C. Day, 2040 N. Loop West,

Suite 200, Houston, Tex. 77011. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Water based paint, paints, stains, or varnishes, from Celotex Corporation located at Macon, La., to the Celotex Corporation located at Paris, Texas; (2) Blackstrap molasses mixed with not to exceed 10% urea, and with or without not to exceed 6% of other ingredients, from Greina, La., to points in Alabama, Florida, Georgia, Arkansas, and Mississippi; and (3) Petroleum products, from Norphlet, Ark., to Bowmanville, N.Y., all in bulk, in tank vehicles.

Note.—The purpose of this republication is to correct the spelling of Bowmanville, N.Y. If a hearing is deemed necessary, the applicant requests it be held at either New Orleans, La., or Dallas, Tex.

No. MC 102567 (Sub-No. 187), filed April 17, 1975. Applicant: McNAIR TRANSPORT, INC., 4295 Meadow Lane, P.O. Drawer 5357, Bozler City, La. 71010. Applicant's representative: Joe E. Shaw, 815 Houston First Savings Bldg., 711 Fannin St., Houston, Tex. 77002. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Petroleum products (except liquefied petroleum gas), in bulk, in tank vehicles, from Cotton Valley, La., to points in Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Ohio, and Pennsylvania.

Note.—If a hearing is deemed necessary, the applicant requests it be held at either Houston or Dallas, Tex., or New Orleans, La.

No. MC 103051 (Sub-No. 343), filed April 17, 1975. Applicant: FLEET TRANSPORT COMPANY, INC., 834 44th Ave. North, Nashville, Tenn. 37209. Applicant's representative: Russell E. Stone (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Paint, in bulk, in tank vehicles, from Tucker, Ga., to Cleveland, Tenn.

Note.—Dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn., or Atlanta, Ga.

No. MC 103496 (Sub-No. 44), filed April 14, 1975. Applicant: W. D. SMITH TRUCK LINE, INC., P.O. Drawer C, DeQueen, Ark. 71832. Applicant's representative: Bruce J. Kianee (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: General commodities, in containers, between Laredo, Tex., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), restricted to traffic having a prior or subsequent movement in foreign commerce.

Note.—If a hearing is deemed necessary, the applicant requests it be held at San Antonio, Tex.

No. MC 104580 (Sub-No. 31) (Amendment), filed April 2, 1975, published in the *Federal Register* issue of May 8, 1975, and republished as amended this issue. Applicant: SOUTHERN

FREIGHTWAYS, INC., P.O. Box 371, Ruston, La. 71272. Applicant's representative: David C. Venable, Suite 605, 606 Seventh Street NW, Washington, D.C. 20004. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Such commodities as are used in or used by wholesale floor-covering and appliance distributors (except commodities in bulk), from points in the United States in and east of Minnesota, Iowa, Missouri, Kansas, Oklahoma, and Texas, to points in Florida, under a continuing contract, or contracts, with Cain & Bultman, Inc.

Note.—This amendment substantially broadens applicant's origin territory. No duplicating authority is sought and applicant indicates that it will surrender its authority in Sub-No. 36 simultaneously with the issuance of the permit sought in this proceeding. If a hearing is deemed necessary, applicant requests it be held at either Jacksonville, or Orlando, Fla.

No. MC 105733 (Sub-No. 52), filed April 21, 1975. Applicant: H. R. RITTER TRUCKING CO., INC., 928 East Hazlewood Ave., Rahway, N.J. 07065. Applicant's representative: Chester A. Zylhet, 1523 K Street, NW, Washington, D.C. 20005. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquefied petroleum gas, in bulk, in tank vehicles, from Portsmouth and Newington, N.H., to points in Maine, New Jersey, Pennsylvania, and Vermont.

Note.—If a hearing is deemed necessary, the applicant requests it be held at either New York, N.Y., or Washington, D.C.

No. MC 106644 (Sub-No. 206), filed April 21, 1975. Applicant: SUPERIOR TRUCKING COMPANY, INC., P.O. Box 918, Atlanta, Ga. 30301. Applicant's representative: W. Randall Tye, 1500 Candler Bldg., Atlanta, Ga. 30303. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Self-propelled articles, each weighing 15,000 pounds or more, and related machinery, tools, parts, and supplies, moving in connection therewith, from the plant site of Grove Mfg. Co., at or near Shady Grove, Pa., to points in the United States (including Alaska, but excluding Hawaii).

Note.—If a hearing is deemed necessary, the applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 107403 (Sub-No. 940), filed April 22, 1975. Applicant: MTLACK, INC., Ten West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquefied petroleum gas, in bulk, in tank vehicles, (1) from points in Escambia County, Ala., to points in Florida, Georgia, Louisiana, and Mississippi; and (2) from points in Santa Rosa County, Fla., to points in Alabama, Georgia, Louisiana and Mississippi.

Note.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 107403 (Sub-No. 939), filed April 21, 1975. Applicant: MTLACK, INC., Ten West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquid chemicals, in bulk, in tank vehicles, from the plant site of Dow Corning Corporation located at Carrolton, Ky., to points in Alabama, Arizona, Arkansas, California, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Missouri, Mississippi, North Carolina, Ohio, Oklahoma, South Carolina, Tennessee, Texas, West Virginia, and Wisconsin, restricted to traffic originating at the named plantsites and destined to the named destinations.

Note.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Houston, Tex., or Denver, Colo.

No. MC 108044 (Sub-No. 207), filed April 21, 1975. Applicant: SUPERIOR TRUCKING COMPANY, INC., P.O. Box 916, Atlanta, Ga. 30318. Applicant's representative: W. Randall Tye, 1500 Candler Building, Atlanta, Ga. 30303. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Tapers, water cooling, air conditioner, with or without blowers or fans; and (2) sheet steel thicker than 20 gauge or steel and wood combined, from the plant site of Baltimore Aircraft Company, Inc., located at or near Millford, Del., to points in Florida, Georgia, South Carolina, North Carolina, Alabama, Tennessee, Mississippi, Louisiana, Arkansas, Texas, New Mexico, Oklahoma, Kansas, and Nebraska.

Note.—If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C., or Atlanta, Ga.

No. MC 107403 (Sub-No. 939), filed April 21, 1975. Applicant: MTLACK, INC., Ten West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquid chemicals, in bulk, in tank vehicles, from the plant site of Dow Corning Corporation located at Carrolton, Ky., to points in Alabama, Arizona, Arkansas, California, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Missouri, Mississippi, North Carolina, Ohio, Oklahoma, South Carolina, Tennessee, Texas, West Virginia, and Wisconsin, restricted to traffic originating at the named plantsites and destined to the named destinations.

Note.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 108415 (Sub-No. 2), filed April 10, 1975. Applicant: NEW ENGLAND EXPOSIVES CORPORATION, 340 Washington Street, Keene, N.H. 03821. Applicant's representative: Bentley H. Kay, P.O. Box 217, Keene, N.H. 03821. Authority sought to operate as a contract carrier, by motor vehicle, over

irregular routes, transporting: Explosives, between Keene, N.H., on the one hand, and, on the other, points in New York, under contract with Trojan-U.S. Powder, Div. Commercial Solvents Corp.

Note.—If a hearing is deemed necessary, applicant requests it be held at Concord, N.H.

No. MC 110420 (Sub-No. 733) (CORRECTION), filed March 24, 1975, published in the FEDERAL REGISTER issue of April 17, 1975, and republished as corrected in part this issue. Applicant: QUALITY CARRIERS, INC., P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: John Sims, Jr., 915 Pennsylvania Building, 425 13th Street NW., Washington, D.C. 20004. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Fusul oil*, in bulk, in tank vehicles, from Lawrenceburg, Ind., to the plantsite and warehouse facilities of Northern Chemical Co., located at West Chicago, Ill.

Note.—The purpose of this republication is to indicate that applicant seeks to transport fusul oil in lieu of fuel oil which was previously published in error. Parts (2) and (3) of the previous publication remain as previously noticed. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 111401 (Sub-No. 447), filed April 24, 1975. Applicant: GROENDYKE TRANSPORT, INC., 2510 Rock Island Boulevard, P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Alvin J. Meiklejohn, Jr., Suite 1600 Lincoln Center, 1660 Lincoln Street, Denver, Colo. 80203. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia*, from Carlsbad, N. Mex., to points in Arizona, Oklahoma, Colorado, California, Texas, and Louisiana.

Note.—If a hearing is deemed necessary, applicant requests it be held at either Santa Fe or Albuquerque, N. Mex.

No. MC 112304 (Sub-No. 99), filed April 23, 1975. Applicant: ACE DORAN HAULING & RIGGING CO., 1601 Blue Rock Street, Cincinnati, Ohio 45223. Applicant's representative: John D. Herbert (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Pipe, conduit aluminum products, and extrusions* (except commodities in bulk), from Phoenix, Ariz., Winton and Burlington, N.C., to points in the United States (except Alaska and Hawaii).

Note.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 112304 (Sub-No. 98), filed April 18, 1975. Applicant: ACE DORAN HAULING & RIGGING CO., a Corporation, 1601 Blue Rock Street, Cincinnati, Ohio 45223. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a common carrier, by motor

vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which, because of size or weight, requires special handling and the use of special equipment; and (2) *self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* moving in connection therewith, restricted to commodities which are transported on trailers, between points in Pennsylvania on and west of U.S. Highway 15 on the one hand, and, on the other, points in Illinois and Wisconsin.

Note.—Common control may be involved. The purpose of this filing is to eliminate the gateway of Ohio at any point. Applicant presently holds authority in MC 112304 Subs 1 and 5 to perform the service proposed by tacking at any point in the state of Ohio. Such tacking does not involve any circuitry whatsoever. Through inadvertence, this service was not included in the letter-notice filed with the Commission pursuant to *Ex Parte MC 55, Sub 3, Gateway Eliminations*, 119 M.C.C. 530. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 112822 (Sub-No. 372), filed April 14, 1975. Applicant: BRAY LINES INCORPORATED, a Corporation, 1401 North Little Street, P.O. Box 1191, Cushing, Okla. 74023. Applicant's representative: Charles D. Midkiff (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Machine parts, packaging supplies, pallets, ingredients* utilized in the manufacturing and processing of dairy products, between Green Bay, Wisc., Logan, Utah, Carthage and Monett, Mo., restricted to traffic originating at the plant site and storage facilities of L. D. Schreiber Cheese Co., Inc. and destined to the above named points.

Note.—If a hearing is deemed necessary, applicant requests it be held at either Chicago, Ill., or Minneapolis, Minn.

No. MC 113362 (Sub-No. 287), filed April 21, 1975. Applicant: ELLSWORTH FREIGHT LINES, INC., 310 East Broadway, Eagle Grove, Iowa 50533. Applicant's representative: Raymond W. Ellsworth, P.O. Box 227, Seneca, Pa. 16346. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned puddings, powdered milk, butter, and sauces*, from Eau Claire and Reedsburg, Wis., to points in Northumberland County, Pa.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 113495 (Sub-No. 69), filed April 15, 1975. Applicant: GREGORY HEAVY HAULERS, INC., 51 Oldham Street, Nashville, Tenn. 37206. Applicant's representative: Wilmer B. Hill, 805 McLachlen Bank Building, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Self-propelled draglines, shovels and drills, and accessories, attachments, and parts*, for self-propelled draglines, shovels and

drills; (2) *materials, equipment, and supplies*, used or useful in the manufacture, sale, and distribution of the commodities in (1) above, between points in the United States, including Alaska, but excluding Hawaii, restricted to shipments originating at or destined to the plants, warehouses, storage and other facilities owned, operated or used by Marion Power Shovel Company, Inc.

Note.—If a hearing is deemed necessary, the applicant requests it be held at either Columbus, Ohio or Washington, D.C.

No. MC 114045 (Sub-No. 420), filed April 14, 1975. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Dallas, Tex. 75222. Applicant's representative: J. B. Stuart (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Drugs, and toilet preparations*, from Cranbury, N.J., to points in Texas, California and Oklahoma.

Note.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or New York, N.Y.

No. MC 114045 (Sub-No. 421), filed April 18, 1975. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Dallas, Tex. 75222. Applicant's representative: J. B. Stuart (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Acids, chemicals, and drugs or medicines*, from Phillipsburg, N.J., to points in California, Oklahoma, Louisiana, and Texas.

Note.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Philadelphia, Pa. or Washington, D.C.

No. MC 114194 (Sub-No. 181), filed April 23, 1975. Applicant: KREIDER TRUCK SERVICE, INC., 8003 Collinsville Road, East St. Louis, Ill. 62201. Applicant's representative: Ernest A. Brooks, II, 1301-02 Ambassador Building, St. Louis, Mo. 63101. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Liquid yeast*, in bulk, in tank vehicles, from Ft. Wayne, Ind. and St. Louis, Mo., to Columbus, Ohio; (2) *foundry molding sand treating compound and foundry sand*, in bulk, from the plantsite of American Colloid Company located near Granite City, Ill., to points in Alabama, Arkansas, Michigan, Minnesota, Mississippi, Nebraska, Tennessee, and Texas; (3) *flour*, in bulk, from the plantsite of Peavey Company at Alton, Ill., to points in Illinois, Indiana, Iowa, Kentucky, Michigan, Missouri, New York, Ohio, Oklahoma, Pennsylvania, Tennessee, and Wisconsin; (4) *oleo-margarine, shortening, salad oils, animal fats and oils and refined vegetable oils*, in bulk, in tank vehicles, from St. Louis, Mo., to points in the United States in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas; and (5) *animal fats and oils and vegetable oils*, in bulk, in tank vehicles, from points in the United States in and east

of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas, to St. Louis, Mo.

Note.—If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo. or Chicago, Ill.

No. MC 114789 (Sub-No. 467), filed April 24, 1975. Applicant: MATRONWELL CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. 55359. Applicant's representative: Donald L. Stern, 330 Univac Bldg., 7100 West Center Road, Omaha, Neb. 68108. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Such merchandise as is dealt in by discount and variety stores* (except foodstuffs and commodities in bulk), from Savannah, Ga., to points in Illinois, Iowa, Minnesota, Missouri, and Wisconsin, under contract with S. S. Kresge Company, restricted to traffic originating at named origin, and to the facilities of S. S. Kresge Company, at points in the named destination states.

Note.—Applicant holds common carrier authority in MC 117000 and asks thereunder, therefore that operations may be involved. Common control may also be involved. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich., or Chicago, Ill.

No. MC 114979 (Sub-No. 46), filed April 18, 1975. Applicant: BULK CARRIERS LIMITED, a Corporation, Box 10, Cooksville Post Office, Mississauga, Ontario, Canada L5A 2W7. Applicant's representative: Robert D. Schuler, 100 West Long Lake Road, Suite 102, Bloomfield Hills, Mich. 48301. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Tri-sodium phosphate, dry*, in bulk, in dump vehicles, between Joliet and Chicago Heights, Ill., on the one hand, and, on the other, the ports of entry on the International Boundary line between the United States and Canada located on the St. Clair and Detroit Rivers, restricted to traffic having a prior or subsequent movement in foreign commerce.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 115331 (Sub-No. 391), filed April 14, 1975. Applicant: TRUCK TRANSPORT INCORPORATED, a Corporation, 29 Clayton Hills Lane, St. Louis, Mo. 63131. Applicant's representative: J. R. Ferris, 239 St. Clair Avenue, East St. Louis, Ill. 62201. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Adhesives, beverages, flour, foodstuffs* (except frozen foodstuffs, meats, and packinghouse products), *gluten, grain products, starch, and spirits*, (except commodities in bulk); and (2) *ingredients of the commodities named in (1) above*, (except commodities in bulk), between points in Atchison County, Kans., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

Note.—If a hearing is deemed necessary, applicant requests it be held at either St. Louis or Kansas City, Mo.

No. MC 115331 (Sub-No. 392), filed April 21, 1975. Applicant: TRUCK TRANSPORT INCORPORATED, 29 Clayton Hills Lane, St. Louis, Mo. 63131. Applicant's representative: J. R. Ferris, 239 St. Clair Avenue, East St. Louis, Ill. 62201. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Foundry molding sand treating compound, and foundry sand*, in bulk, from the plantsite of American Colloid Company, located near Granite City, Ill., to points in Alabama, Mississippi, Nebraska, Minnesota, Michigan, Tennessee, Texas, and Arkansas; and (2) *trace minerals, and pigments*, in containers, from points in Sangamon County, Ill., to points in Alabama, Arkansas, Iowa, Kansas, Kentucky, Louisiana, Minnesota, Mississippi, Missouri, Nebraska, North Dakota, New Mexico, Oklahoma, South Dakota, Tennessee, Texas, Wisconsin, Indiana, Michigan, Pennsylvania, West Virginia, and Ohio.

Note.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or St. Louis, Mo.

No. MC 115841 (Sub-No. 501) (correction), filed March 18, 1975, and republished this issue. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., Suite 200, 805 Vulcan Road, P.O. Box 16527, Birmingham, Ala. 35202. Applicant's representative: Roger M. Shaner (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Swiss cheese* (except commodities in bulk), from Owensboro, Ky., to points in the United States (except Alaska, Hawaii, and Kentucky), restricted to traffic originating at the plantsite and storage facilities of Ragan Foods, and destined to the named destination points.

Note.—The purpose of this republication is to indicate that applicant seeks to transport *unseasoned foodstuffs* in lieu of frozen foodstuffs which was previously published in error. Common control was asserted in MC-F-7804. If a hearing is deemed necessary, applicant requests it be held at either New York, N.Y. or Washington, D.C.

No. MC 115994 (Sub-No. 11), filed April 23, 1975. Applicant: FEDERAK TRUCKING, INC., Lafayette Street, R.D. 2, Tamaqua, Pa. 18252. Applicant's representative: Paul E. Hammerer, 2628 North 19th Street, Allentown, Pa. 18104. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Spent or junk electric storage batteries*, from points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Maryland, District of Columbia, Ohio, and West Virginia, to Nequehoning, Pa.

Note.—If a hearing is deemed necessary, the applicant requests it be held at either Scranton, Pa. or Philadelphia, Pa.

No. MC 116040 (Sub-No. 22), filed April 21, 1975. Applicant: JAMES ELWOOD QUINN, INC., P.O. Box 136, Bouthville, N.C. 28618. Applicant's representative: Paul M. Dantoff, P.O. Box 972, Atlanta, Ga. 30301. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Window Glass*, from Clarkburg, W. Va., and Kingsport, Tenn., to points in Dade County, Fla.

Note.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Miami, Fla.

No. MC 116300 (Sub-No. 18), filed April 21, 1975. Applicant: NANCE AND COLLINGS, INC., P.O. Drawer J, Fernwood, Miss. 39625. Applicant's representative: Harold D. Miller, Jr., P.O. Box 22567, 700 Petroleum Building, Jackson, Miss. 39205. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Sugar*, in sacks and packages, and commodities, packaged in individual servings, in mixed loads with sugar, from the facilities of Amstar Corporation located at or near Chalmette, La., to points in Florida and Georgia.

Note.—If a hearing is deemed necessary, the applicant requests it be held at either New Orleans, La., or Jackson, Miss.

No. MC 116459 (Sub-No. 55), filed April 24, 1975. Applicant: BUSS TRANSPORT, INC., P.O. Box 4022, Chattanooga, Tenn. 37405. Applicant's representative: Leonard A. Jaskiewicz, Suite 501, 1720 M Street NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Asphalt and asphalt products*, in bulk, in tank vehicles, from Vulcan Materials Company located at Knoxville, Tenn., to points in Kentucky.

Note.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held either at Nashville, Tenn., or Atlanta, Ga.

No. MC 116710 (Sub-No. 19), filed April 7, 1975. Applicant: MISSISSIPPI CHEMICAL EXPRESS, INC., 2001 E. Texas Street, P.O. Box 6176, Bossier City, La. 71010. Applicant's representative: C. L. Laird (same address as applicant). Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Liquid sulfur dioxide*, in bulk, in tank vehicles, from Baton Rouge, La., to points in Colorado, Iowa, Kansas, Kentucky, Missouri, Nebraska, New Jersey, North Carolina, Pennsylvania, and South Carolina, under a continuing contract or contracts with Stauffer Chemical Company, located at Baton Rouge, La.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Shreveport, La., or New Orleans, La.

No. MC 116763 (Sub-No. 313), filed April 18, 1975. Applicant: CARL SUHLER TRUCKING, INC., North West Street, Versailles, Ohio 45380. Applicant's representative: H. M. Richters (same address as applicant). Authority sought to

operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such commodities as are dealt in or distributed by health and beauty aid distributors and wholesalers*, (1) from the facilities of Supreme Distributors Company, at or near Detroit, Mich., to points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Massachusetts, Minnesota, Missouri, Nebraska, New Jersey, New York, North Carolina, North Dakota, Ohio, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Virginia, West Virginia, Wisconsin, and the District of Columbia; and (2) from the destination in (1) above, to the facilities of Supreme Distributors, at or near Detroit, Mich., restricted to traffic originating at or destined to the points specified.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Detroit, Mich.

No. MC 117119 (Sub-No. 533), filed April 18, 1975. Applicant: WILLIS SHAW FROZEN EXPRESS, INC., P.O. Box 188, Elm Springs, Ark. 72728. Applicant's representative: L. M. McLean (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Prepared edible flour* (except in bulk), from the plant site of Modern Mald Food Products, Inc. located at or near Evansville, Ind., to points in Colorado, Illinois and Wisconsin.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held either at New York, N.Y. or Philadelphia, Pa.

No. MC 117557 (Sub-No. 21), filed April 21, 1975. Applicant: MATSON, INC., P.O. Box 43, Cedar Rapids, Iowa 52408. Applicant's representative: Kenneth F. Dudley, P.O. Box 279, Ottumwa, Iowa 52501. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Rotor assemblies, parts, attachments, and accessories*, between Bettendorf, Iowa, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill., or Kansas City, Mo.

No. MC 117940 (Sub-No. 162), filed April 17, 1975. Applicant: NATIONWIDE CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. 55359. Applicant's representative: Donald L. Stern, 530 Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Salt in packages, pepper in packages, and materials and supplies* used in the agricultural, water treatment, food processing, wholesale grocery, and institutional supply industries in mixed shipments with salt in packages, from the facilities of Morton Salt Company, Division of Morton-Norwich Products, Inc., located

at or near Rittman, Ohio, to points in Connecticut, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont, restricted to traffic originating at the above-named origin point and destined to points in the above named destinations territory.

NOTE.—Applicant holds contract carrier authority in MC 114789 Sub 1 and other subs, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill. or Philadelphia, Pa.

No. MC 117940 (Sub-No. 163), filed April 16, 1975. Applicant: NATIONWIDE CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. 55359. Applicant's representative: Donald L. Stern, 530 Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Salt in packages, pepper in packages, in mixed shipments with salt in packages, and materials and supplies* used in the agricultural, water, treatment food processing, wholesale grocery, and institutional supply industries in mixed shipments with salt in packages, from the facilities of Morton Salt Company, Division of Morton-Norwich Products, Inc., located at or near Silver Springs, N.Y. (Wyoming County, N.Y.), to points in the New York, N.Y., Commercial Zone as defined by the Commission, restricted to traffic originating at the above named origin point and destined to points in the above named destination.

NOTE.—Applicant holds contract carrier authority in MC 114789 Sub 1 and other subs, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill., or Philadelphia, Pa.

No. MC 118989 (Sub-No. 122), filed April 17, 1975. Applicant: CONTAINER TRANSIT, INC., 5223 South 9th Street, Milwaukee, Wis. 53221. Applicant's representative: Albert A. Andrin, 127 North Dearborn Street, Chicago, Ill. 60602. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Containers, container ends and closures and materials and supplies* used in the manufacture and distribution of containers and container closures (except commodities in bulk), and scrap metal, between the plant site and facilities of American Can Company at or near Whitehouse, Ohio, on the one hand, and, on the other, points in the United States (except Indiana, Illinois, Missouri, Wisconsin, Kentucky, and West Virginia).

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 118989 (Sub-No. 123), filed April 23, 1975. Applicant: CONTAINER TRANSIT, INC., 5223 South 9th Street, Milwaukee, Wis. 53221. Applicant's representative: Robert H. Levy, 29 South LaSalle Street, Chicago, Ill. 60603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Cans and can ends*, from

the plant site and storage facilities of Green Giant Co., at Ripon, Wisc., to Fremont, Mich.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 118989 (Sub-No. 125), filed April 18, 1975. Applicant: CONTAINER TRANSIT, INC., 5223 South 9th Street, Milwaukee, Wis. 53221. Applicant's representative: Robert H. Levy, 29 South LaSalle Street, Chicago, Ill. 60603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Metal containers and metal container ends* (except refuse containers), from Perrysburg, Ohio, to points in Maryland.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 119349 (Sub-No. 5), filed April 14, 1975. Applicant: STARLING TRANSPORT LINES, INC., P.O. Box 1733, Fort Pierce, Fla. 33450. Applicant's representative: Harry C. Ames, Jr., Suite 805, 666 Eleventh Street NW, Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in containers, (1) from Congo, W. Va. and Emlenton, Pa. to points in Florida and Georgia; and (2) from St. Marys, W. Va., and Farmers Valley, Pa. to points in Georgia and points in Florida, north of Levy, Marion, Lake and Volusia Counties, Fla.

NOTE.—Applicant holds contract carrier in MC 133867, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 119531 (Sub-No. 159) (Correction), filed March 28, 1975, published in the FR issue of April 24, 1975 as No. MC 119531 (Sub-No. 155), and republished as reassigned this issue. Applicant: SUN EXPRESS, INC., 1835 West Main Street, Zanesville, Ohio 43701. Applicant's representative: Paul F. Beery, 8 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Metal containers and container ends*, from Whitehouse, Ohio to points in the United States (except Alaska and Hawaii); and (2) *equipment, materials and supplies* used in the manufacture of metal containers and container ends, from points in the United States (except Alaska and Hawaii), to Whitehouse, Ohio.

NOTE.—The purpose of this republication is to indicate the correct docket number assigned to this proceeding in Sub-No. 159. Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Columbus, Ohio.

No. MC 119789 (Sub-No. 247), filed April 10, 1975. Applicant: CARAVAN REFRIGERATED CARGO, INC., P.O. Box 6188, Dallas, Tex. 75222. Applicant's representative: James K. Newbold, Jr. (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Drugs, medicines, and*

chemicals, from Elkhart, Ind., to points in Arizona, California, Nevada, New Mexico, Oregon, Utah, and Washington.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Elkhart, Ind., or Chicago, Ill.

No. MC 119789 (Sub-No. 249), filed April 21, 1975. Applicant: CARAVAN REFRIGERATED CARGO, INC., P.O. Box 6188, Dallas, Tex. 75222. Applicant's representative: James K. Newbold, Jr. (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Plastic materials*, from Marksville and Baton Rouge, La., to points in Illinois, Kentucky, North Carolina, and Texas.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Baton Rouge or New Orleans, La.

No. MC 119798 (Sub-No. 4), filed April 22, 1975. Applicant: SOUTHWEST SUPPLY, INC., 350 Roanoke Street, Bluefield, W. Va. 24701. Applicant's representative: John M. Friedman, 2930 Putnam Avenue, Hurricane, W. Va. 25526. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, including fresh meats and packinghouse products as described in Appendix I to 61 M.C.C. 209, between the warehouse facilities of Southwest Supply, Inc. at Bluefield, W. Va., on the one hand, and, on the other, points in Dickenson, Grayson, Lee, Roanoke, Russell, Scott, Smyth, Washington, and Wise Counties, Va.; points in Monroe, Nicholas, Pocahontas, and Webster Counties, W. Va.; and points in Floyd, Martin, and Pike Counties, Ky.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Charleston, W. Va., or Roanoke, Va.

No. MC 119815 (Sub-No. 17), filed April 23, 1975. Applicant: INTERSTATE HIGHWAY EXPRESS, INC., 814 Norton Avenue, Bedford, Ind. 47421. Applicant's representative: Walter F. Jones, Jr., 601 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Iron and steel articles* which because of weight or size require the use of special equipment or special handling, from Heltonville and Bedford, Ind., to points in Kentucky, Ohio, West Virginia, Michigan, Illinois, Missouri, and Wisconsin, under a continuing contract or contracts with Bedford Machine Co., Inc. and Indiana Steel & Engineering Corp.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or Indianapolis, Ind.

No. MC 119837 (Sub-No. 11), filed April 14, 1975. Applicant: OZARK MOTOR LINES, INC., 27 W. Illinois Street, Memphis, Tenn. 38106. Applicant's representative: A. Doyle Cloud, Jr., 2008 Clark Tower, Memphis, Tenn. 38137. Authority sought to operate as a common carrier, by motor vehicle, over regular

routes, transporting: *General commodities* (except in bulk, household goods as defined by the Commission, livestock, Classes A and B explosives, and articles which because of size or weight require special equipment), serving Batesville, Ark. and points in its Commercial Zone as off-route points in connection with applicant's authorized regular route operations between Memphis, Tenn. and West Plains, Mo.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn. or Batesville, Ark.

No. MC 119908 (Sub-No. 28), filed April 23, 1975. Applicant: WESTERN LINES, INC., P.O. Box 1145, Houston, Tex. 77001. Applicant's representative: Thomas F. Sedberry, 1102 Perry-Brooks Bldg., Austin, Tex. 78701. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles and tanks*; (2) *aluminum articles and tanks*; and (3) *attachments and accessories* related to (1) and (2) above, between points in Liberty County, Tex., on the one hand, and, on the other, points in New Mexico, Louisiana, Oklahoma, Kansas, Missouri, Arkansas, Mississippi, Alabama, Georgia, and Tennessee.

NOTE.—Applicant holds contract carrier authority in MC 110814 and subs thereunder, therefore dual operations may be involved. Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Houston or Dallas, Tex.

No. MC 120430 (Sub-No. 10), filed April 14, 1975. Applicant: COASTAL TRANSPORT CO., INC., 6300 Richmond Ave., P.O. Box 22592, Houston, Tex. 77027. Applicant's representative: A. T. Beletsky (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Wooden building materials, including plywood, particleboard, and lumber, and the accessories* used in the installation and application thereof, (1) from the plantsites of Louisiana Pacific Corp., located at points in Texas to points in Alabama, Arkansas, Georgia, Illinois, Kansas, Mississippi, Missouri, New Mexico, Oklahoma, and Tennessee; and (2) from the plantsites of Louisiana Pacific Corp. located at Winnfield and Urania, La., to points in Alabama, Arkansas, Georgia, Illinois, Kansas, Mississippi, Missouri, Oklahoma, Tennessee, and Texas, restricted against the transportation of commodities for or to the facilities of United States Gypsum Corp.

NOTE.—Applicant holds contract carrier authority in MC 134957 Sub 1, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at (1) Houston, Tex.; (2) Dallas, Tex.; and (3) New Orleans, La.

No. MC 123391 (Sub-No. 12), filed April 18, 1975. Applicant: MACHISE INTERSTATE TRANSPORTATION CO., 500 North Egg Harbor Road, Hammon, N.J. 08037. Applicant's representative: Mortan E. Kiel, Suite 6193, 5

World Trade Center, New York, N.Y. 10048. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Waste oil and reclaimed oil*, in bulk, between Corapolis, Pa., on the one hand, and, on the other, points in New Jersey, New York, Delaware, Maryland, Virginia and the District of Columbia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at New York, N.Y.

No. MC 123544 (Sub-No. 8), filed April 11, 1975. Applicant: BERTSCH TRUCKING, INC., P.O. Box 15, Hillsboro, N. Dak. 58045. Applicant's representative: James E. Ballenthin, 630 Osborn Bldg., St. Paul, Minn. 55102. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: (1) *Farm machinery and implements and parts thereof* from ports of entry on the International Boundary line between the United States and Canada located at or near Neche and Pembina, N. Dak., and Noyes, Minn., to points in Mississippi, Alabama, Georgia, and Florida; (2) *damaged, broken, defective or rejected farm machinery, and implements or parts thereof*, from points in Mississippi, Alabama, Georgia, and Florida, to ports of entry on the International Boundary line between the United States and Canada located at or near Neche and Pembina, N. Dak., and Noyes, Minn.; (3) *Farm machinery and implements and parts thereof* from points in Arizona, Arkansas, California, Colorado, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Nevada, New Mexico, New York, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota, Texas, Utah, Washington, Wisconsin, and Wyoming, to ports of entry on the International Boundary line between the United States and Canada located at or near Neche and Pembina, N. Dak., and Noyes, Minn.; (4) *damaged, broken, defective or rejected farm machinery, and implements or parts thereof*, from ports of entry on the International Boundary line between the United States and Canada located at or near Neche and Pembina, N. Dak., and Noyes, Minn., to points in Arizona, Arkansas, California, Colorado, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Mexico, New York, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota, Texas, Utah, Washington, Wisconsin, and Wyoming; and (5) *materials, equipment and supplies* used in the manufacture of farm machinery and implements and parts thereof (except scrap metal), between Fargo, N. Dak., and ports of entry on the International Boundary line between the United States and Canada located at or near Neche and Pembina, N. Dak., and Noyes, Minn., under a continuing contract or contracts with Versatile Manufacturing Ltd.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Duluth, or St. Paul, Minn.

No. MC 124078 (Sub-No. 645), filed April 21, 1975. Applicant: SCHWERTMAN TRUCKING CO., a Corporation, 611 South 28 Street, Milwaukee, Wis. 53215. Applicant's representative: Richard H. Prevette (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Corn products, liquid, and soybean products, liquid, in bulk, in tank vehicles, from Danville, Ill., to points in the United States (except Alaska and Hawaii); (2) hydrated alumina, in bulk, from Alpine, Ala., to Columbia, Tenn.; and (3) dry urea, in bulk, from Woodstock, Tenn., to West Memphis, Ark.*

NOTE.—Common control may be involved. Applicant holds contract carrier authority in MC 113832 Sub-No. 68, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 124306 (Sub-No. 18), filed April 18, 1975. Applicant: KENAN TRANSPORT COMPANY, INCORPORATED, P.O. Box 2729, Chapel Hill, N.C. 27514. Applicant's representative: Richard A. Mehley, 1000-16th St. NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquefied petroleum gas, (1) from points in Escambia County, Ala., to points in Georgia, Florida, Louisiana, and Mississippi; and (2) from points in Santa Rosa County, Fla., to points in Alabama, Georgia, Louisiana and Mississippi.*

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C., or Atlanta, Ga.

No. MC 124383 (Sub-No. 19), filed April 21, 1975. Applicant: STAR LINE TRUCKING CORPORATION, 161 West Wisconsin Avenue, Milwaukee, Wis. 53201. Applicant's representative: S. F. Schreier (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Lime, in bulk, in dump vehicles, from points in Wisconsin to points in Indiana.*

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Milwaukee, Wis.

No. MC 125763 (Sub-No. 1), filed April 14, 1975. Applicant: GRITZ TRANSPORT, INC., P.O. Box 1088, Wisconsin Rapids, Wis. 54494. Applicant's representative: Jack Kosloske (same address as applicant). Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Iron and steel silos, glass lined, iron and steel grain storage bins, glass lined, and materials and accessories used in the construction and erection of iron and steel silos and iron and steel grain storage bins, animal waste storage tanks, knocked down, glass lined steel, livestock scales, steel, knocked down, with weighing attachments, livestock feed bunker, glass lined steel, knocked down, forage meter device, animal waste spreader tanks, steel, spreader tanks, glass lined,*

*and soil saver, steel glass lined, knocked down, between Kankakee, De Kalb, and Eureka, Ill., on the one hand, and, on the other, points in the Upper Peninsula of Mich., and points in that part of Wisconsin north of the northern boundaries of Crawford, Richland, Sauk, Columbia, Dodge, Washington, and Ozaukee Counties, Wis., under a continuing contract or contracts with Fox Valley Harvestore, Inc., Gritz Harvestore, Inc., and Brave Harvestore, Inc.*

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Madison or Milwaukee, Wis.

No. MC 126625 (Sub-No. 15), filed April 14, 1975. Applicant: MURPHY SURF-AIR TRUCKING COMPANY, INC., Bluegrass Airport, Lexington, Ky. 40504. Applicant's representative: Robert H. Kinker, 711 McClair Building, Frankfort, Ky. 40601. Applicant's representative: Herbert Alan Dubin, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Aquariums, household pet cages, and aquariums and pet accessories, supplies and equipment (except in bulk), from the plant-site and storage facilities of Metaframe Corporation located at or near Maywood and Elmwood Park, N.J., to points in North Carolina, South Carolina, Georgia, Florida, Alabama, Tennessee, Mississippi, Arkansas, Louisiana, Oklahoma, and Texas.*

NOTE.—Applicant holds contract authority in MC 133106 and other subs, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 139495 (Sub-No. 61), filed April 24, 1975. Applicant: NATIONAL CARRIERS, INC., 1591 East 8th Street, P.O. Box 1358, Liberal, Kans. 67901. Ap-

plicant's representative: Herbert Alan Dubin, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Paper labels, from New Orleans, La., to points in California, Illinois, Texas, North Carolina, and Connecticut.*

NOTE.—Applicant holds contract carrier authority in MC 133106 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 139600 (Sub-No. 5), filed April 8, 1975. Applicant: LA CRESTA, INC., doing business as CALIFORNIA BULK EXPRESS, 12912 Camino Del Valle, Poway, Calif. 92064. Applicant's representative: Fred E. Caldwell (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Sand, from Oceanside, Calif., to points in Arizona and Nevada.*

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either San Diego, Los Angeles, or San Francisco, Calif.

No. MC 139973 (Sub-No. 1), filed April 21, 1975. Applicant: J. H. WARE TRUCKING, INC., 909 Brown Street, P.O. Box 398, Fulton, Mo. 65251. Applicant's representative: Larry D. Knox, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Ground clay, in containers, from Oran, Mo., to points in Nebraska, Missouri, Kansas, Texas, Oklahoma, Colorado, and Illinois.*

NOTE.—Applicant holds contract carrier authority in MC 138375 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either St. Louis or Kansas City, Mo.

No. MC 140014 (Sub-No. 1), filed April 14, 1975. Applicant: RICHARD A. TAZER TRUCKING, 10814-154th Place SE., Renton, Wash. 98055. Applicant's representative: Richard A. Tazer (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Bananas, from Long Beach and Wilmington, Calif., to points on the International Boundary line between the United States and Canada located in Montana, restricted to traffic moving in foreign commerce;* (2) *frozen fruit, berries, vegetables including processed potatoes and concentrates, between points in Washington, Oregon, Idaho, California, Arizona and Montana;* and (3) *red cedar shakes and shingles, from Sekiu, Wash., to points in California, Nevada and Arizona.*

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Seattle, Wash.

No. MC 140068 (Sub-No. 2), filed April 14, 1975. Applicant: KARL EMDE, 3835 East 2nd Ave., Burnaby, British Columbia, Canada. Applicant's representative: Dan E. Olson, 518 BNB Building, Bellingham, Wash. 98225. Authority sought to operate as a contract carrier,

by motor vehicle, over irregular routes, transporting: *Commercial fishing gear and fishing nets*, between the ports of entry on the International Boundary line between the United States and Canada at or near Blaine and Bellingham, Wash., restricted to the transportation of shipments having an immediate prior or subsequent movement in foreign commerce, under a continuing contract or contracts with John Redden Net Co. Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Seattle or Bellingham, Wash.

No. MC 140460 (Sub-No. 1), filed April 23, 1975. Applicant: COAST REFRIGERATED TRUCKING CO., INC., P.O. Box 188, Holly Ridge, N.C. 28445. Applicant's representative: Herbert Alan Dublin, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods and freezers*, from the facilities utilized by the Rich Plan Corporation located at or near Ottumwa, Iowa to points in Illinois, Indiana, Michigan, Ohio, Wisconsin, Alabama, Florida, Georgia, Mississippi, Louisiana, North Carolina, South Carolina, Tennessee, Texas, Virginia, New York, New Hampshire, and New Jersey.

NOTE.—Applicant holds contract carrier authority in MC 135760 Subs 1, 5, and 13, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 140460 (Sub-No. 2), filed April 21, 1975. Applicant: ROGER W. ANDERSON, 114 Sunset Avenue, Lodi, Wis. 53555. Applicant's representative: Rolfe E. Hanson, 121 West Doty Street, Madison, Wis. 53703. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Fresh meat*, for the account of Clarence Busse Livestock, from Martinsville (Springfield Township), Dane County, Wis., to New York, N.Y., Calumet City and Calumet Park, Ill., Boston, Mass., and points in New Jersey, under a continuing contract or contracts with Clarence Busse, doing business as Busse Livestock.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Madison or Milwaukee, Wis.

No. MC 140662 (Sub-No. 2) (Correction), filed March 6, 1975, published in the FEDERAL REGISTER issue of April 3, 1975 as No. MC 140662 (Sub-No. 1), and republished as reassigned this issue. Applicant: RALPH KLINGE, an individual, doing business as KLINGE TRUCKING, Box 31, Wright, Kans. 67882. Applicant's representative: Clyde N. Christey, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Hides*, from the plantsite and/or storage facilities of Holl-Tex, Inc., located at or near Garden City, Kans., and the plantsite and/or storage facilities of HyPlains Dressed Beef, Inc., located at or near Dodge City, Kans., to the plantsite and/or storage

facilities of A. J. Hollander and Co., Inc. located at or near Amarillo, Tex., under a continuing contract or contracts with A. J. Hollander and Co., Inc.

NOTE.—The purpose of this republication is to indicate the correct docket number assigned to this proceeding in No. MC 140662 (Sub-No. 2). If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Mo.

No. MC 140772 (Sub-No. 2), filed April 21, 1975. Applicant: JOHN H. THOMASON, doing business as DIXIE AIR FREIGHT, P.O. Box 823, Augusta, Ga. 30903. Applicant's representative: Virgil H. Smith, 1587 Phoenix Boulevard, Suite 12, Atlanta, Ga. 30349. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, Classes A and B explosives, household goods as defined by the Commission, and those requiring special equipment), between Bush Field located at Richmond County, Ga., on the one hand, and, on the other, Richmond, Columbia, McDuffie, Lincoln, Wilkes, Oglethorpe, Elbert, Greene, Taliaferro, Hancock, Warren, Glascock, Washington, Jefferson and Burke Counties, Ga., and points in Aiken, Barnwell, Allendale, Bamberg, Hampton, Orangeburg, Edgefield, Saluda, McCormick, Greenwood, Newberry, and Abbeville Counties, S.C., restricted to traffic having an immediate prior or subsequent movement by air.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Atlanta, or Augusta, Ga.

No. MC 140795 (Sub-No. 1), filed April 22, 1975. Applicant: MID ATLANTIC LEASING CORP., 4209 South Military Highway, Chesapeake, Va. 23321. Applicant's representative: Elliott Buncie, 618 Perpetual Building, 1111 E Street NW., Washington, D.C. 20004. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk), in containers, and empty containers, between points in the Commercial Zone of Norfolk, Va.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 140800 (correction), filed March 20, 1975, published in the FEDERAL REGISTER issue of April 24, 1975, and republished as corrected this issue. Applicant: COLONIAL TRANSPORTATION, INC., East Arrowhead Drive, McMinnville, Tenn. 37110. Applicant's representative: Robert L. Baker, 618 Hamilton Bank Bldg., Nashville, Tenn. 37219. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Electric motors, brake drums, disk brakes and parts thereto, and parts, materials, equipment and supplies*, used in the manufacture of the above commodities, (a) between Lexington, McMinnville, Memphis, and Humboldt, Tenn., on the one hand, and, on the other, Corinth, Miss., and St. Louis, Mo.; and (b) between Corinth,

Miss., and St. Louis, Mo., under a continuing contract or contracts with Gould, Inc., Century Electric Division.

NOTE.—The purpose of this republication is to redescribe the territorial scope of the application. If a hearing is deemed necessary, the applicant requests it be held at St. Louis, Mo., or Washington, D.C.

No. MC 140807 (Sub-No. 2), filed April 16, 1975. Applicant: MELROSE TRUCKING CO., INC., 6360 Raderville Route, Casper, Wyo. 82601. Applicant's representative: Charles S. Aspinwall, 430 East First Street, Casper, Wyo. 82601. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Barite*, in bulk and in sacks, from Salt Lake City, Utah, to bulk station terminals of Milchem, Inc., located in Wyoming, under a continuing contract or contracts with Milchem, Inc.

NOTE.—Applicant holds pending motor common carrier authority in MC-135705 (Sub-No. 5), therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Casper, Wyo.; Denver, Colo.; Billings, Mont.; or Salt Lake City, Utah.

No. MC 140833, filed April 9, 1975. Applicant: OLENGARRY TRANSPORT LIMITED, Highway 34 South, Alexandria, Ontario K0C 1A0, Canada. Applicant's representative: James E. Wilson, 1032 Pennsylvania Bldg., Pennsylvania Ave and 13th St. NW., Washington, D.C. 20004. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment): Between ports of entry on the International Boundary line between the United States and Canada, at Roosevelttown, N.Y., on the one hand, and, on the other, to the United States Customs Compound, via New York Highway 128.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Massena, or Syracuse, N.Y.

No. MC 140864, filed April 16, 1975. Applicant: CHARLES WRONSKI and CECELIA WRONSKI, doing business as J & J TRANSFER COMPANY, 106 Fifth Avenue South, Minneapolis, Minn. 55401. Applicant's representative: Leonard T. Juster, 1250 Builders Exchange Building, 609 Second Avenue South, Minneapolis, Minn. 55402. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Component parts* used in the fabrication and construction of industrial furnaces, industrial ovens and finishing systems for heating and drying paint, from Minneapolis and Lakeville, Minn., to points in North Dakota, South Dakota, Iowa, Missouri, Oklahoma, Mississippi, Illinois, Wisconsin, Arkansas, Kansas, Nebraska, Texas, and Louisiana, under a continuing contract or contracts with Despatch Oven Company.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 140885, filed April 14, 1975. Applicant: JAMES T. GARRETT, doing business as AMERICAN CONTRACT CARRIER, 2332 S. Peck Road, Suite 184, Whittier, Calif. 90601. Applicant's representative: Jerry Solomon Berger, 9454 Wilshire Blvd., Beverly Hills, Calif. 90212. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Scrap or waste plastic articles or materials* for recycling, from points in California, Louisiana, and Kenova, W. Va., to points in Houston, Tex.; (2) plastic pellets, from points in California, Wilmington, Del.; points in Illinois; Baton Rouge, and Lake Charles, La.; Leominster, Mass.; Manchester, N.H., points in New Jersey, Cleveland, Ohio, points in Texas, and Kenova, W. Va., to points in California, Oregon, Texas, and Washington, under a continuing contract with Cal Thermoplastics, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Los Angeles, Calif.

No. MC 140866, filed April 16, 1975. Applicant: HOLT COUNTY TRANSPORTATION CO., a corporation, Atkinson, Nebr. 68713. Applicant's representative: J. Max Harding, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: (1) *Irrigation systems*, from the plantsite and warehouse facilities of Olson Bros. Manufacturing Company, Inc. in Holt County, Nebr., to points in the United States (except Alaska and Hawaii); and (2) *returned shipments and materials, supplies and equipment* utilized in the manufacture, sale and distribution of irrigation systems, from points in the United States (except Alaska and Hawaii), to the plantsite and warehouse facilities of Olson Bros. Manufacturing Company, Inc. in Holt County, Nebr., under a continuing contract or contracts with Olson Bros. Manufacturing Company, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Sioux City, Iowa, or Omaha, Nebr.

No. MC 140869 (Sub-No. 1), filed April 25, 1975. Applicant: KERRI TRUCKING INC., 162 Clester Rock Road, Closter, N.J. 07624. Applicant's representative: Bert Collins, Suite 6193, #5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Balsa plywood prefabricated insulation panels*, from Central Valley, N.Y., to Avondale, La., and Newport News, Va., under contract with Cryogenic Structures Corporation.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 140885, filed April 18, 1975. Applicant: FIVE M TRUCKING CO., INC., 1805 Park Boulevard, Camden, N.J.

00193. Applicant's representative: J. G. Dall, Jr., 1111 E St. NW., Washington, D.C. 20004. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: (1) *Canned foodstuffs*, from Camden, N.J., to Baltimore, Md.; and (2) *materials and supplies* used in the manufacture of canned foodstuffs, from points in Delaware and Maryland, to Camden, N.J., under a continuing contract or contracts with Campbell Soup Company.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 140886 filed April 21, 1975. Applicant: MAYFIELD MOTOR LINE, INC., Suite 618 Hamilton Bank Building, Nashville, Tenn. 37219. Applicant's representative: Robert L. Baker (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities* (except household goods as defined by the Commission, Classes A and B explosives, commodities in bulk, articles of unusual value, and commodities requiring special equipment): (1) Between Nashville, Tenn. and Mayfield, Ky.: From Nashville over U.S. Highway 41-A (also over Interstate Highway 24) to junction Kentucky Highway 80, thence over Kentucky Highway 80 to Mayfield, and return over the same route, serving all intermediate points in Kentucky west of the Tennessee River; (2) Between Hopkinsville, Ky. and Mayfield, Ky.: From Hopkinsville over Kentucky Highway 91 to junction U.S. Highway 62, thence over U.S. Highway 62 to junction U.S. Highway 45, thence over U.S. Highway 45 to Mayfield, and return over the same route, serving all intermediate points in Kentucky on and west of the Tennessee River, and serving Hopkinsville, Ky. for the purpose of joinder only, restricted against service at any point in Illinois; (3) Between Clarksville, Tenn. and Mayfield, Ky.: From Clarksville over U.S. Highway 79 to junction U.S. Highway 641, thence over U.S. Highway 641 to junction Kentucky Highway 121, thence over Kentucky Highway 121 to Mayfield, and return over the same route, serving all intermediate points in Kentucky, and serving Clarksville, Tenn. for the purpose of joinder only; and (4) Between Murray, Ky. and Calvert City, Ky.: From Murray over U.S. Highway 641 to junction U.S. Highway 68, thence over U.S. Highway 68 to junction Kentucky Highway 95, thence over Kentucky Highway 95 to Calvert City, and return over the same route, serving all intermediate points.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn.

No. MC 140879 (Sub-No. 1), filed April 22, 1975. Applicant: RALPH OWENS, P.O. Box 711, Hereford, Tex. 79045. Applicant's representative: John C. Sima, P.O. Box 2976, Lubbock, Tex. 79406. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Sand and gravel*, from Finney County, Kans., to points in Texas.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Garden City, Kans., or Amarillo, or Hereford, Tex.

No. MC 140887, filed April 15, 1975. Applicant: SELECTED SHIPPER SERVICE, a corporation, 90 Court House Place, Jersey City, N.J. 07306. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Wearing apparel*, between the facilities of Holly Stores, Inc., and their subsidiaries, located at North Bergen, N.J., on the one hand, and, on the other, Carson, Calif., under a continuing contract or contracts with Holly Stores, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either New York, N.Y., or Washington, D.C.

No. MC 140889, filed April 24, 1975. Applicant: FIVE STAR TRUCKING, INC., P.O. Box 20148, El Cajon, Calif. 92021. Applicant's representative: Kenneth F. Dudley, P.O. Box 279, Ottumwa, Iowa. 52501. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Electric motor, electric welders, electric motor and welder parts, welding kits, welding supplies and accessories*, from the plant sites and facilities of the Lincoln Electric Co., located in Cuyahoga and Lake Counties, Ohio, to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming, under a continuing contract with The Lincoln Electric Company.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Cleveland, or Columbus, Ohio, or Chicago, Ill.

No. MC 140891, filed April 21, 1975. Applicant: PALMETTO MOVING & STORAGE, INC., Selberling Road at Fargo St., P.O. Box 4055, Charleston Heights, S.C. 29405. Applicant's representative: M. Carl Chavis (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Used household goods*, as defined by the Commission, between points in Bamberg, Berkeley, Charleston, Colleton, Dorchester, Georgetown, and Orangeburg Counties, S.C., restricted to the transportation of shipments having a prior or subsequent movement, in containers, beyond the points authorized, and further restricted to the performance of pickup and delivery service in connection with the packing, crating, and containerization or unpacking, uncrating, and decontainerization of such shipments.

NOTE.—If a hearing is deemed necessary, the applicant does not specify a location.

## PASSENGER APPLICATION

No. MC 2290 (Sub-No. 50), filed April 23, 1975. Applicant: AMERICAN BUSLINES, INC., 1501 South Central

Avenue, Los Angeles, Calif. 90021. Applicant's representative: R. Y. Schureman, 1545 Wilshire Boulevard, Los Angeles, Calif. 90017. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Passengers and their baggage*, in special operations, in round-trip sightseeing and pleasure tours, beginning and ending at points in Alameda, Contra Costa, Imperial, Los Angeles, Napa, Nevada, Orange, Placer, Riverside, Sacramento, San Bernardino, San Diego, San Francisco, and Solano Counties, Calif., and extending to points in the United States, including Alaska but excluding Hawaii; and (2) *passengers and their baggage*, in special operations, in one-way sightseeing and pleasure tours, beginning at points in Alameda, Contra Costa, Imperial, Los Angeles, Napa, Nevada, Orange, Placer, Riverside, Sacramento, San Bernardino, San Diego, San Francisco, and Solano Counties, Calif., and extending to points in the United States, including Alaska but excluding Hawaii.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Los Angeles and San Francisco, Calif.

## BROKER APPLICATIONS

No. MC 130301, filed February 20, 1975. Applicant: MILDRED RUTH SMITH, doing business as MILLIE SMITH TOURS, 305 North E Street, Madera, Calif. 93637. Applicant's representative: Mildred Ruth Smith (same address as applicant). Authority sought to engage in operation, in interstate or foreign commerce, as a broker at Madera, Calif. to sell or offer to sell the transportation of *passengers* as individuals and in groups, and *their baggage*, in round trip charter operations, by motor, rail, water, and air carriers, beginning and ending at Madera, Calif. and extending to points in the United States, including Alaska and Hawaii.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either San Francisco or Los Angeles, Calif.

No. MC 130313, filed April 7, 1975. Applicant: GRAY LINE OF SEATTLE, INC., 415 Seneca Street, Seattle, Wash. 98101. Applicant's representative: Edwin O. Cedergren (same address as applicant). Authority sought to engage in operation, in interstate or foreign commerce, as a broker at Seattle, Wash., to sell or offer to sell the transportation of *passengers* as individuals and in groups, and *their baggage* in the same vehicle with passengers, in charter and special operations in round-trip and one way tours, by air, water, motor, and rail carriers, between points in the United States, including Alaska and Hawaii, on the one hand, and, on the other, Seattle, Wash.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 130315, filed April 14, 1975. Applicant: WILLIAM C. BROWN, doing business as BILL BROWN TRAVEL

AGENCY, Second Avenue, Sutersville, Pa. 15083. Applicant's representative: Frank P. Antio, 116 Main Street, West Newton, Pa. 15089. Authority sought to engage in operation in interstate or foreign commerce, as a broker at Sutersville, Pa., to sell or offer to sell the transportation of *Groups of passengers and their baggage*, in special and charter operations, in sightseeing and pleasure tours, by motor, air, water and rail carriers, from various points in Western Pennsylvania, to points in Pennsylvania, Delaware, Maryland, Ohio, North Carolina, New Jersey, New York and Virginia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Pittsburgh, Pa.

No. MC 130316, filed April 21, 1975. Applicant: EUNICE D. HODGENS, doing business as HODGENS TOURS, Route 1, Box 87 AA, Travelers Rest, S.C. 29690. Applicant's representative: George W. Clapp, P.O. Box 836, Taylors, S.C. 29687. Authority sought to engage in operation, in interstate or foreign commerce, as a broker at Travelers Rest, S.C., to sell or offer to sell the transportation of individual passengers and groups of *passengers and their baggage*, in special and charter operations, in sightseeing and pleasure tours, by motor, air, water and rail carriers, beginning and ending at points in Anderson, Greenville, Oconee, Pickens and Spartanburg Counties, S.C., and extending to points in the United States.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Greenville or Columbia, S.C.

No. FF 434 (Sub-No. 1), filed April 30, 1975. Applicant: TRANSCONEX, INC., 3000 NW 74th Avenue, Miami, Fla. 33148. Applicant's representative: Alan F. Wohlstetter, 1700 K Street NW, Washington, D.C. 20006. Authority sought to engage in operation, in interstate commerce, as a freight forwarder, through use of the facilities of common carriers by rail, motor, water and express, in the transportation of *general commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, motor vehicles, commodities in bulk, commodities requiring special equipment, and commodities in vehicles equipped with mechanical refrigeration), from points in Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, Ohio, South Dakota and Wisconsin, to Jacksonville and Miami, Fla., restricted to export traffic only.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. FF 468, filed April 14, 1975. Applicant: 5 STAR AIR FREIGHT CORPORATION, a corporation, 1414 Calcon Hook Road, Sharon Hill, Pa. 19079. Applicant's representative: Thomas E. Kiley (same address as applicant). Authority sought to engage in operation, in interstate commerce, as a freight forwarder, through use of the facilities of common carriers by motor vehicle, in the transportation of *General commodities*,

restricted to shipments having a subsequent or prior movement by air, between points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,  
Acting Secretary.

[FR Doc.75-13343 Filed 5-21-75; 8:45 am]

[Ex Parte No. 270 (Sub-No. 8)]

**PAPER AND PAPER PRODUCTS**  
**Investigation of Railroad Freight Rate Structure**

It appearing, that in the order instituting this proceeding, dated January 29, 1974, it was stated that it appeared that:

1. . . . the term 'paper and paper products' has by custom of the trade . . . come to relate to the outbound movement of finished products which consist of paper in its various forms and products generally produced from paper but does not include articles in which the inherent characteristics of paper have been substantially modified;

2. . . . the term 'paper and paper products' . . . shall generally encompass the articles listed in Category 26 of the Standard Transportation Commodity Code (STCC), as published in the Standard Transportation Commodity Code Tariff No. 1-B, ICC C-998, filed by Traffic Executive Assn.—Eastern Railroads and others, but shall not include STCC 26 111, pulp, STCC 26 112, pulp mill products, STCC 26 461, bituminous fiber pipe, and STCC 26 6, building paper or building board;

3. . . . the term 'paper and paper products' . . . in addition to including most of the articles listed in Category 26 of the STCC may also include in various rate tariff applications other paper products, such as: STCC 27 417 62, calendar desk pads, STCC 39 551 15, paper, carbon, one time, and STCC 27 417 41, labels, not elsewhere classified; as well as other similarly related products;

4. . . . as shown by the 1966 and 1969 rail carload waybill samples and freight commodity statistics, paper and paper products as heretofore defined are consistently among the railroads' major revenue producers;

5. . . . comparison of the 1966 and 1969 burden studies discloses that the cost for transporting paper and paper products has increased at a faster rate than revenues derived from its transportation;

It further appearing, that following the entry of the order instituting this proceeding a Commission staff study designed to assist the Coordinator by illustrating, in graphic form, the railroad freight rate structure on paper and paper products was conducted, and that study, including "broader questions" which should be further explored in this proceeding, is set forth in its entirety in Appendix A<sup>1</sup> hereto;

It further appearing, that in view of the need to investigate all rates on paper and paper products maintained by the railroads subject to the Interstate Com-

<sup>1</sup> All appendices filed as part of the original document.

merce Act, a further order as to the conduct of the investigation is necessary:

It further appearing, that by notice dated April 9, 1974, served April 15, 1974, the parties to this proceeding were solicited "(1) to define the environmental issues that may be present in this proceeding, and (2) to suggest to the Coordinator the approach and methodology that should be considered in a study of environmental implication of this proceeding by May 16, 1974," in order to assist the Coordinator in making an environmental assessment as required by the National Environmental Policy Act of 1969 (NEPA), (42 U.S.C. 4321-47 (1970)).

It further appearing, that in response to the above solicitation the following parties on the dates indicated filed statements, which statements are discussed in appendix B hereto:

Parties	Filed
American Paper Institute	May 16, 1974
Southern, Eastern, and Western Railroads	May 16, 1974
Special Projects Counsel	June 4, 1974

And it further appearing, that the instant proceeding addresses solely the outbound movement of paper and paper products, and does not look back in the productive process to consider the constituent resources needed to manufacture said products; that, while a potential incentive to the movement and utilization of recyclable (or waste) paper may have definitive environmental advantages over virgin woodpulp, these concerns are not at issue in this sub-numbered investigation; that in the absence of substantive or significant issues, this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969; but that should environmental issues be raised during the course of this proceeding, such issues will most certainly be considered by the Coordinator;

It is ordered, That the three statements previously identified be, and they are hereby, accepted into the record herein;

It is further ordered, That this proceeding be handled under modified pro-

cedure as provided by the Commission's general rules of practice, except that 20 copies of all statements submitted shall be filed with the Commission, and that the filing and service of pleadings be as follows:

(a) An opening statement of facts and argument may be submitted by any party to the proceeding on or before August 18, 1975;

(b) A statement or statements limited to rebuttal to any opening statement filed in (a) above may be submitted by any party to the proceeding on or before September 17, 1975. The opening statement to which the rebuttal statement is directed must be specifically identified;

(c) A reply (surrebuttal) limited to replying to a rebuttal statement or statements in (b) above may be submitted by any party on or before October 17, 1975. The rebuttal statement to which the reply statement is directed must be specifically identified;

Notice is given that the Coordinator may hold petitions and motions filed in this proceeding for disposition in a Coordinator's report, and that all parties should proceed upon the assumption that any petitions and motions which may be filed in this proceeding will not justify any party's failure to comply with the scheduled due date for filing of statements.

It is further ordered, That all parties are requested to meet the filing dates as specified herein as no exceptions or postponements are contemplated;

It is further ordered, That respondents and all other parties shall submit the information specified in Appendix B in their opening statements;

It is further ordered, That the evidence submitted in the statements filed must be served on all parties on the service list and, with the exception of the environmental representations, must be divided in the manner provided in Appendix B, and that failure to do so may be cause for rejection of the pleading in its entirety;

It is further ordered, That in furtherance of the objectives of this proceeding, as stated in 345 I.C.C. 1, 3, official notice may be taken of relevant publications in Appendix C. Parties objecting to any of the listed publications or portions thereof, should file motions to strike, on or before June 18, 1975;

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy in the Office of the Commission's Secretary and by filing a copy with the Director, Office of the Federal Register.

Copies may be obtained from the Interstate Commerce Commission, 12th and Constitution Avenue NW., Washington, D.C. 20423.

Dated at Washington, D.C. this 9th day of May, 1975.

By the Commission, Commissioner Hardin, Coordinator.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Rule 19, Ex Parte 241, Exemption 97]

**RAILROADS SERVING KEOKUK, IOWA**  
**Exemption Under Mandatory Car Service Rules**

It appearing, That because of flood conditions the railroads serving Keokuk, Iowa, are unable to move empty cars to and from that station; that sufficient cars of suitable ownership are not available for loading by shippers served by these lines; that numerous other empty cars located on these lines cannot be returned to owners until normal operations can be resumed; that compliance with Car Service Rule 2 would result in these cars standing idle and would prevent their use by shippers unable to receive other cars for loading.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, the railroads serving Keokuk, Iowa, are authorized to move, place, and accept from shippers located in Keokuk, general service cars owned by other railroads regardless of the provisions of Car Service Rule 2.

Effective: May 6, 1975.

Expires: May 31, 1975.

Issued at Washington, D.C., May 6, 1975.

INTERSTATE COMMERCE  
COMMISSION,  
[SEAL] R. D. PFAHLER,  
Agent.

## **ENVIRONMENTAL PROTECTION AGENCY**

### **INORGANIC CHEMICALS MANUFACTURING POINT SOURCE CATEGORY**

Interim Effluent Limitations and  
Guidelines, and Proposed Performance  
and Pretreatment Standards

V 40-100 MAY 22 75

XUM

Title 40—Protection of the Environment  
CHAPTER I—ENVIRONMENTAL  
PROTECTION AGENCY  
SUBCHAPTER N—EFFLUENT GUIDELINES AND  
STANDARDS  
[FEL 375-6]  
PART 415—INORGANIC CHEMICALS  
MANUFACTURING POINT SOURCE  
CATEGORY

Interim Final Rule Making

Notice is hereby given that effluent limitations and guidelines for existing sources set forth in interim final form below are promulgated by the Environmental Protection Agency (EPA). On March 12, 1974, EPA promulgated a regulation adding Part 415 to Title 40 of the Code of Federal Regulations (39 FR 9612). That regulation with subsequent amendments established effluent limitations and guidelines for existing sources and standards of performance and pretreatment standards for new sources for the inorganic chemicals manufacturing point source category. The regulation set forth below will amend 40 CFR Part 415—inorganic chemicals manufacturing point source category by adding effluent limitations and guidelines for point sources other than publicly owned treatment works, which require the application of the best practicable control technology currently available for existing sources for the aluminum fluoride production subcategory (Subpart AG), ammonium chloride production subcategory (Subpart X), the borax production subcategory (Subpart AA), the boric acid production subcategory (Subpart AB), the bromine production subcategory (Subpart AC), the calcium carbonate production subcategory (Subpart AD), the calcium hydroxide production subcategory (Subpart AE), the carbon monoxide and byproduct hydrogen production subcategory (Subpart AG), the chrome pigments production subcategory (Subpart AH), the chromic acid production subcategory (Subpart AI), the copper sulfate production subcategory (Subpart AJ), the ferric chloride production subcategory (Subpart AL), the fluorine production subcategory (Subpart AN), the hydrogen production subcategory (Subpart AO), the hydrogen cyanide production subcategory (Subpart AP), the iodine production subcategory (Subpart AQ), the lead monoxide production subcategory (Subpart AR), the lithium carbonate production subcategory (Subpart AS), the nickel sulfate production subcategory (Subpart AU), the oxygen and nitrogen production subcategory (Subpart AW), the potassium chloride production subcategory (Subpart AX), the potassium iodide production subcategory (Subpart AY), the silver nitrate production subcategory (Subpart BA), the sodium fluoride production subcategory (Subpart BC), the sodium silicofluoride production subcategory (Subpart BF), the stannic oxide production subcategory (Subpart BH), the zinc sulfate production subcategory (Subpart BK) pursuant to sections 301 and 304 (b) and (c), of the Federal Water Pollution

Control Act, as amended (33 U.S.C. 1251, 1311 and 1314 (b) and (c), 86 Stat. 816 et seq.; Pub. L. 92-500) (the Act). Simultaneously, the Agency is publishing in proposed form limitations for existing sources and standards of performance for new point sources and pretreatment standards for existing sources and new sources.

In reviewing the data underlying the regulations for a number of subcategories, the Agency noted certain subcategories for which the data are incomplete, or where the data require further analysis before fully supportable effluent limitations can be derived. Accordingly, in order to promulgate these regulations in a timely fashion, consistent with the applicable court decree, the effluent limitations for the ammonium hydroxide production subcategory (Subpart Y), the barium carbonate production subcategory (Subpart Z), the carbon dioxide production subcategory (Subpart AF), the cuprous oxide production subcategory (Subpart AK), the ferrous sulfate production subcategory (Subpart AM), the manganese sulfate production subcategory (Subpart AT), the strong nitric acid production subcategory (Subpart AV), the potassium permanganate production subcategory (Subpart AZ), the sodium bisulfite production subcategory (Subpart BB), the sodium hydrosulfide production subcategory (Subpart BD), the sodium hydrosulfite production subcategory (Subpart BE), the sodium thiosulfate production subcategory (Subpart BG), the sulfur dioxide production subcategory (Subpart BI), and the zinc oxide production subcategory (Subpart BJ), are reserved. It is the Agency's intention to review these subcategories promptly and to revise this Part to include regulations covering such subcategories at the earliest possible date.

(a) *Legal authority.* Section 301(b) of the Act requires the achievement by not later than July 1, 1977, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of the best practicable control technology currently available as defined by the Administrator pursuant to section 304(b) of the Act. Section 301(b) also requires the achievement by not later than July 1, 1983, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of best available technology economically achievable which will result in reasonable further progress toward the national goal of eliminating the discharge of all pollutants, as determined in accordance with regulations issued by the Administrator pursuant to section 304(b) of the Act.

Section 304(b) of the Act requires the Administrator to publish regulations providing guidelines for effluent limitations setting forth the degree of effluent reduction attainable through the application of the best practicable control technology currently available and the degree of effluent reduction attainable through the application of the best control measures and practices achievable

including treatment techniques, process and procedural innovations, operating methods and other alternatives. The regulation herein sets forth effluent limitations and guidelines, pursuant to sections 301 and 304(b) of the Act, for the aluminum fluoride production subcategory (Subpart W), the ammonium chloride production subcategory (Subpart X), the borax production subcategory (Subpart AA), the boric acid production subcategory (Subpart AB), the bromine production subcategory (Subpart AC), the calcium carbonate production subcategory (Subpart AD), the calcium hydroxide production subcategory (Subpart AE), the carbon monoxide and byproduct hydrogen production subcategory (Subpart AG), the chrome pigments production subcategory (Subpart AH), the chromic acid production subcategory (Subpart AI), the copper sulfate production subcategory (Subpart AJ), the ferric chloride production subcategory (Subpart AL), the fluorine production subcategory (Subpart AN), the hydrogen production subcategory (Subpart AO), the hydrogen cyanide production subcategory (Subpart AP), the iodine production subcategory (Subpart AQ), the lead monoxide production subcategory (Subpart AR), the lithium carbonate production subcategory (Subpart AS), the nickel sulfate production subcategory (Subpart AU), the oxygen and nitrogen production subcategory (Subpart AW), the potassium chloride production subcategory (Subpart AX), the potassium iodide production subcategory (Subpart AY), the silver nitrate production subcategory (Subpart BA), the sodium fluoride production subcategory (Subpart BC), the sodium silicofluoride production subcategory (Subpart BF), the stannic oxide production subcategory (Subpart BH), the zinc sulfate production subcategory (Subpart BK) of the inorganic chemicals manufacturing point source category.

Section 304(c) of the Act requires the Administrator to issue to the States and appropriate water pollution control agencies information on the processes, procedures or operating methods which result in the elimination or reduction of the discharge of pollutants to implement standards of performance under section 306 of the Act. The report or "Development Document" referred to below provides, pursuant to section 304(c) of the Act, information on such processes, procedures or operating methods.

Section 306 of the Act requires the achievement by new sources of a Federal standard of performance providing for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the Administrator determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants. Section 307(c) of the Act requires the Administrator to promulgate pretreatment standards for new sources at the same time that standards of performance

for new sources are promulgated pursuant to section 306. Section 307(b) of the Act requires the establishment of pretreatment standards for pollutants introduced into publicly owned treatment works and 40 CFR Part 128 establishes that the Agency will propose specific pretreatment standards at the time effluent limitations are established for point source discharges. In another section of the Federal Register a regulation is proposed in fulfillment of these requirements.

(b) *Summary and basis of interim final effluent limitations and guidelines for existing sources.* (1) *General methodology.* The effluent limitations and guidelines set forth herein were developed in the following manner. The point source category was first studied for the purpose of determining whether separate limitations are appropriate for different segments within the category. This analysis included a determination of whether differences in raw material used, product produced, manufacturing process employed, age, size, waste water constituents and other factors require development of separate limitations for different segments of the point source category. The raw waste characteristics for each such segment were then identified. This included an analysis of the source, flow and volume of water used in the process employed, the sources of waste and waste waters in the operation and the constituents of all waste water. The constituents of the waste waters which should be subject to effluent limitations were identified.

The control and treatment technologies existing within each segment were identified. This included an identification of each distinct control and treatment technology, including both in-plant and end-of-process technologies, which is existent or capable of being designed for each segment. It also included an identification of, in terms of the amount of constituents and the chemical, physical, and biological characteristics of pollutants, the effluent level resulting from the application of each of the technologies. The problems, limitations and reliability of each treatment and control technology were also identified. In addition, the non-water quality environmental impact, such as the effects of the application of such technologies upon other pollution problems, including air, solid waste, noise and radiation were identified. The energy requirements of each control and treatment technology were determined as well as the cost of the application of such technologies.

The information, as outlined above, was then evaluated in order to determine what levels of technology constitute the "best practicable control technology currently available," "best available technology economically achievable" and the "best available demonstrated control technology, processes, operating methods, or other alternatives." In identifying such technologies, various factors were considered. These included the total cost of application of technology in relation to the effluent reduction benefits to be

achieved from such application, the age of equipment and facilities involved, the process employed, the engineering aspects of the application of various types of control techniques, process changes, nonwater quality environmental impact (including energy requirements) and other factors.

The data upon which the above analysis was performed included EPA permit applications, EPA sampling and inspections, consultant reports, and industry submissions.

(2) *Summary of conclusions with respect to the aluminum fluoride production subcategory (Subpart W), the ammonium chloride production subcategory (Subpart X), the borax production subcategory (Subpart AA), the boric acid production subcategory (Subpart AB), the bromine production subcategory (Subpart AC), the calcium carbonate production subcategory (Subpart AD), the calcium hydroxide production subcategory (Subpart AE), the carbon monoxide and byproduct hydrogen production subcategory (Subpart AG), the chrome pigments production subcategory (Subpart AH), the chromic acid production subcategory (Subpart AI), the copper sulfate production subcategory (Subpart AJ), the ferric chloride production subcategory (Subpart AL), the fluorine production subcategory (Subpart AN), the hydrogen production subcategory (Subpart AO), the hydrogen cyanide production subcategory (Subpart AP), the iodine production subcategory (Subpart AQ), the lead monoxide production subcategory (Subpart AR), the lithium carbonate production subcategory (Subpart AS), the nickel sulfate production subcategory (Subpart AU), the oxygen and nitrogen production subcategory (Subpart AW), the potassium chloride production subcategory (Subpart AX), the potassium iodide production subcategory (Subpart AY), the silver nitrate production subcategory (Subpart BA), the sodium fluoride production subcategory (Subpart BC), the sodium silicofluoride production subcategory (Subpart BF), the stannic oxide production subcategory (Subpart BH), the zinc sulfate production subcategory (Subpart BK) of the inorganic chemicals manufacturing point source category.*

(1) *Categorization.* For the purpose of establishing effluent limitations guidelines and standards, the significant inorganic products segment of the inorganic chemicals manufacturing category was divided into forty-one discrete subcategories consistent with the specific chemicals produced. Various other means to group the forty-one chemicals into subcategories were investigated. Factors such as raw waste loads, water requirements, and manufacturing processes do not establish a sound basis for subcategory because the raw materials used and production processes employed are specific for each chemical. Although certain waste water constituents may be reduced to similar concentrations for selected chemical groupings, the quantities of pollutants discharged based on production volume are different for each

chemical because of specific water requirements.

Thus, for the purpose of these regulations, a subcategory was established for each chemical product. This subcategory scheme simplifies the application of effluent limitations guidelines because inorganic chemical plants vary significantly in terms of product mix. This scheme also reflects differences in the character and treatability of waste streams due to the manufacturing process variables unique to each chemical.

(ii) *Origin and characteristics of process waste water pollutants generated by the manufacture of significant inorganic products.*

(1) *Aluminum fluoride.* Aluminum fluoride is manufactured by the reaction of hydrated alumina with hydrogen fluoride. The product aluminum fluoride is cooled and conveyed to a storage area for packaging and shipment. Process waste waters result from the use of water scrubbers to entrain air-borne wastes from the chemical reactor and from the loading and packaging area. Also, water is sometimes used for vacuum pump seals. The primary waste water constituents present in the untreated process waste water include fluoride and aluminum compounds.

(2) *Ammonium chloride.* Ammonium chloride may be produced from the reaction of anhydrous ammonia with hydrogen chloride gas, from the recovery of ammonium chloride from waste mother liquors generated by the production of sodium carbonate using the Solvay process, or as a byproduct from other chemical manufacturing processes. The regulations presented herein apply only to the first two manufacturing processes. No water is used in the ammonia-hydrogen chloride gas process, resulting in the generation of no process waste water pollutants.

In the recovery process from sodium carbonate production wastes, ammonium chloride-containing liquor is first filtered to remove insoluble impurities, then partially evaporated to extract residual ammonia and carbon dioxide. The liquor is then passed through a series of vacuum flash coolers wherein ammonium chloride crystallizes and is recovered by centrifugation. The waste mother liquor is returned to the sodium carbonate plant for recovery of residual ammonia values. All other waste streams from the various purification steps are also returned to the sodium carbonate production process. The only process wastes as a direct result of ammonium chloride recovery include filter aids and ammonia containing barometric condenser water.

(3) *Ammonium hydroxide.* The effluent limitations for this subcategory are being reserved for further consideration.

(4) *Barium carbonate.* The effluent limitations for this subcategory are being reserved for further consideration.

(5) *Borax.* Borax is manufactured by the mining and extraction from borax ore and also by the Trona process.

In the mining and extraction process, impure sodium tetraborate decahydrate is crushed and dissolved in water with

5

recycled mother liquor. The solution is fed to a thickener wherein insolubles are removed. The borax solution is then passed through crystallizers, and centrifuged to recover solid borax. Contact cooling water, thickener overflow, and washwaters are the process waste streams generated by this process. The wastes primarily consist of insolubles contained in the impure raw material.

In the Trona process, borax-containing brine is passed through a cyclic evaporation crystallization system. The brine is concentrated in triple-effect evaporators. The hot liquor is then cooled, allowing for the crystallization of borax, which is then filtered, purified, dried and packaged. The process waste streams consist of residual brine and depleted liquor which are returned to the brine source.

(6) *Boric acid.* Boric acid is made by reacting borax and sulfuric acid. The manufacturing process and associated raw waste load vary depending on the source of borax.

When mined borax is used as the raw material, the resulting slurry from the borax-sulfuric acid reaction is vacuum filtered to recover solid boric acid which is dissolved in water, filtered, reprecipitated, centrifuged, washed, dried and packaged. Wastes consist of excess boric acid liquor, unrecovered sodium sulfate, filter aids and undissolved impurities from the filtration steps.

Boric acid may also be produced by the Trona process from a liquid-liquid solvent extraction—evaporative crystallization process. The brine is purified and evaporated to dryness. The crystallized boric acid is then centrifuged, dried and packaged. The only wastes from this process are brine impurities which are recycled to the salt water body from which the brine was initially withdrawn.

(7) *Bromine.* Bromine may be produced by the Trona process or by extraction from well brines.

In the Trona process bromine is stripped from a hot liquor stream using chlorine and steam. The product bromine is condensed, distilled and collected as a liquid. The only wastes generated by this production process are residual brine and depleted liquor which are recycled to other manufacturing processes.

When well brines are used as the raw material the production process is similar to the Trona process. The brine stream is extracted by debromination with chlorine and steam. The wastes consist of spent brines which are returned to the salt cavity.

(8) *Calcium carbonate.* Calcium carbonate is produced by similar processes using various raw materials. In one process slaked lime is reacted with carbon dioxide. The slurry is screened and filtered to recover calcium carbonate. Other processes involve reacting various waste streams from the Solvay process used to manufacture sodium carbonate. Many of the wastes present from these processes are attributable to sodium carbonate production and not a direct result of calcium carbonate manufacture. The raw wastes from the various processes

essentially consist of waste sodium, ammonia, and calcium salts resulting from the numerous filtration and thickening operations.

(9) *Calcium hydroxide.* Calcium hydroxide is produced by the reaction of calcium oxide with water. It is essentially a dry process generating no waterborne wastes.

(10) *Carbon dioxide.* The effluent limitations for this subcategory are being reserved for further consideration.

(11) *Carbon monoxide and byproduct hydrogen.* Methane, air and water vapor are catalytically reacted to form a mixture of carbon monoxide, carbon dioxide and hydrogen. The carbon dioxide is removed by scrubbing with ammonia and the products, carbon monoxide and hydrogen, are separated, purified and compressed. Process waste waters include compression condensates, scrubber wastes and monoethanolamine waste. These wastes generally contain carbon dioxide, oil from compressors and monoethanolamine.

(12) *Chrome pigments and iron blues.* The following pigments are considered in this subcategory: Chrome yellow, chrome orange, zinc yellow, molybdate chrome orange, chrome green, chromic oxide and iron blues. Chrome yellow and chrome orange are impure forms of lead chromate. Molybdate chrome orange is a mixture of lead chromate, lead molybdate and lead sulfate. Chrome green is a mixture of chrome yellow and iron blue. Chromic oxide green and "gulfnet's" green are anhydrous and hydrated forms of chromic oxide. Zinc yellow contains compounds of zinc, potassium and chrome. Iron blues are produced by the reaction of ferrous sulfate with sodium ferrocyanide in the presence of ammonium sulfate. The process waste waters generated by the manufacture of chrome pigments result from various filtering, washing and drying operations. Process waste waters from a chrome pigment complex will generally contain chromium, lead, zinc, iron, cyanide, dissolved sodium salts and acetates. Other constituents are often present in lesser quantities.

(13) *Chromic acid.* Chromic acid is produced from waste liquors resulting from sodium dichromate manufacture. This waste liquor is reacted with sulfuric acid and the solution is filtered to recover chromic acid. The only waste streams not returned to the sodium dichromate manufacturing process are leaks, spills and wash down waters which contain chromium.

(14) *Copper sulfate.* Copper sulfate may be produced from a pure copper raw material or from an impure copper source.

When a pure raw material is used, copper, sulfuric acid, water and air are introduced into a steam-heated oxidizing tower. The resulting copper sulfate solution is sent to a sedimentation basin and then to a crystallizing tank. The concentrated crystals are centrifuged, separated and dried. All waste streams are recycled to the process.

In the byproduct recovery process, a waste stream from a copper refinery is

fed to an oxidizer tank wherein it is reacted with copper shot, steam and air. The resulting solution is concentrated and filtered. The filtrate is crystallized, centrifuged and screened. Product copper sulfate is dried and packaged. Process waste waters consist of spent mother liquors and wash down waters. Copper, nickel and selenium are process waste water pollutants generated by this process.

(15) *Cuprous oxide.* The effluent limitations for this subcategory are being reserved for further consideration.

(16) *Ferric chloride.* Ferric chloride is produced from waste pickle liquor. The pickle liquor is preheated and reacted with iron, chlorine and sometimes hydrochloric acid. The solution is filtered and sold in solution or evaporated to dryness to recover a solid product. Wastes consist of filter sludges and washdown and pump seal waters containing grease and various iron compounds.

(17) *Ferrous sulfate.* The effluent limitations for this subcategory are being reserved for further consideration.

(18) *Fluorine.* Fluorine production is based on the electrolysis of hydrogen fluoride. This electrolysis is either a direct electrolysis of liquid hydrofluoric acid or an electrolysis of fused salts containing potassium acid fluoride.

In the liquid hydrogen fluoride process, fluorine is formed at one electrode and hydrogen gas at the other. The fluorine is compressed and packaged in cylinders. No raw wastes are generated by this process.

In the fused salt process, lithium fluoride, potassium acid fluoride and gaseous hydrogen fluoride are added to a molten salt electrolytic cell. Liberated fluorine gas is filtered and cooled to remove impurities. Process waste water consists of periodic electrolyte discharge from the cell. The primary constituent contained in this waste stream is fluoride.

(19) *Hydrogen.* The production process applicable to this subcategory involves purifying refinery byproduct gas. Crude hydrogen is passed through a catalytic bed and drier to remove oxygen and water. The gas is then passed through gas exchangers to remove nitrogen and other impurities. The hydrogen is cooled, liquefied and packaged. There is no process waste water generated by this process.

(20) *Hydrogen cyanide.* Hydrogen cyanide is manufactured by the Andrussov process and also as a byproduct of acrylonitrile production.

In the Andrussov process natural gas, ammonia and air are catalytically reacted to yield an impure hydrogen cyanide gas stream which is purified to remove nitrites and ammonia. The product hydrogen cyanide is liquefied and stored. The wastes from this process consist of sulfates, ammonia, cyanide and nitrites discharged from the ammonia recovery unit and in various wash waters.

Production as a byproduct of acrylonitrile manufacture involves the catalytic reaction of propylene, ammonia and air. The products are separated and the hydrogen cyanide is purified, compressed and liquefied for the sale. No process

waste waters are generated by this recovery process.

(21) *Iodine.* Iodine is produced from iodide containing brine solutions. The brine is acidified and fed into an extraction unit wherein chlorine is passed through the brine liberating free iodine. The free iodine is stripped from the brine and treated again with chlorine yielding solid iodine. The solution is filtered, treated with sulfuric acid and refiltered. The product is then crushed and packaged for sale. The wastes from this process include spent brine solutions which are returned to the salt cavity from which the brine was initially obtained.

(22) *Lead monoxide.* Lead monoxide is produced by the thermal oxidation of lead. There are no process waste water streams generated by lead monoxide production.

(23) *Lithium carbonate.* Lithium carbonate is produced by the Trona process and from spodumene ore.

Production from spodumene ore involves the reaction of sulfuric acid with the ore. The solution is heated, leached with water and filtered. The solids are redissolved in sulfuric acid, precipitated by pH adjustment and centrifuged. The product lithium carbonate is then washed and dried. Raw wastes consist of the sulfates of calcium, lithium and sodium and ore residues.

In the Trona process, lithium carbonate is recovered from the solid residue resulting from potassium chloride and bromine production. The residue is dissolved in water and sent to a flotation system from which a dilithium sodium phosphate froth is withdrawn, filtered and dried. Sulfuric acid is reacted with this solid, yielding lithium sulfate which is reacted with sodium carbonate. Lithium carbonate is crystallized, centrifuged, dried and packaged. All waste materials are used in other manufacturing processes, such that there is no process waste water discharge.

(24) *Manganese sulfate.* The effluent limitations for this subcategory are being reserved for further consideration.

(25) *Nickel sulfate.* Nickel sulfate is produced from pure nickel or nickel oxide and from impure nickel containing materials.

When pure nickel is used as the raw material, the metal or oxide is digested in sulfuric acid. The solution is then filtered and sold or further processed to yield a solid product. Virtually no process wastes are generated by this process.

If impure raw materials are used, the sulfuric acid reaction solution must be treated with oxidizers to remove impurities. After filtration the product is marketed or converted into a solid product. Raw wastes consist of metal salts, suspended solids and dissolved solids present in the impure nickel raw material. Waste streams result from the use of wet scrubbers, from barometric condensers and from treatment of the raw materials to remove impurities.

(26) *Strong nitric acid.* The effluent limitations for this subcategory are being reserved for further consideration.

(27) *Nitrogen and oxygen.* Nitrogen and oxygen are manufactured by the distillation of liquefied air. Air is compressed, cooled and then separated into nitrogen and oxygen by distillation. The primary process wastes are oil and grease contained in compressor condensates.

(28) *Potassium chloride.* Potassium chloride is produced by the Trona process and by extraction from sylvite ore, which is a potassium chloride-sodium chloride mineral.

In the Trona process a brine solution is partially evaporated to produce a hot, concentrated liquor which is cooled in vacuum crystallizers. Potassium chloride is filtered from the resulting slurry, dried and packaged. The only wastes from this process are depleted brine solutions which are returned to the salt body from which the brine was initially withdrawn.

When sylvite ore is used as the raw material, it is crushed, screened and wet ground in brine solutions. Potassium chloride is separated from the slurry, centrifuged, dried, screened and packaged. The raw wastes consist primarily of sodium chloride and insoluble impurities present in the ore. Process waste waters result from the various separation processes and dewatering operations.

(29) *Potassium iodide.* Potassium iodide is produced by the reaction of potassium hydroxide and iodine. The waterborne wastes include potassium iodide and iodate which are present in washdown waste waters.

(30) *Potassium permanganate.* The effluent limitations for this subcategory are being reserved for further consideration.

(31) *Silver nitrate.* Silver nitrate is produced by dissolving silver in nitric acid. The solution is evaporated yielding a concentrated mother liquor which is sent to a crystallizer. The crystals are centrifuged, washed, dried and packaged. Waste water streams result from the use of wet scrubbers, from product washing and purification operations, and from the evaporators. The major waste water constituents include silver compounds, nitrates and trace metals.

(32) *Sodium bisulfite.* The effluent limitations for this subcategory are being reserved for further consideration.

(33) *Sodium fluoride.* Sodium fluoride may be made by two similar processes. Anhydrous hydrofluoric acid may be reacted with sodium carbonate. The solution is then sent to a vacuum filter to recover product sodium fluoride. Process wastes from this process consist of filtrate, mother liquors, wash down waters and scrubber solutions which are recycled. The mother liquor and wash down waters generally contain sodium carbonate and waste sodium fluoride.

Sodium fluoride may also be produced by the reaction of sodium silicofluoride with sodium hydroxide. The solution is fed to a multi-stage separator, wherein sodium fluoride separates from the soluble sodium silicate. The product sodium fluoride is washed, dried, and packaged. Process waste waters from this process

consist of waste liquor containing sodium silicate and sodium fluoride, wet scrubber blowdown and wash waters.

(34) *Sodium hydrosulfide.* The effluent limitations for this subcategory are being reserved for further consideration.

(35) *Sodium hydrosulfite.* The effluent limitations for this subcategory are being reserved for further consideration.

(36) *Sodium silicofluoride.* Sodium silicofluoride is produced by the reaction of fluosilicic acid with sodium chloride from which sodium silicofluoride precipitates. The reaction mixture is settled and the product is separated, washed, dried, classified and packaged. A variation of this process is also used to manufacture sodium silicofluoride. Impure phosphoric acid containing fluorides may be treated with sodium carbonate to precipitate sodium silicofluoride. The remaining steps to recover and prepare the product for sale are the same as those discussed above. Raw wastes from the two processes include the coproducts from the process reaction (hydrochloric acid in the first case and carbon dioxide in the second), excess reactants, impurities in the acids and minor process additives.

(37) *Sodium thiosulfate.* The effluent limitations for this subcategory are being reserved for further consideration.

(38) *Stannic oxide.* Two processes may be used to manufacture stannic oxide. In the "dry process" the metal is thermally reacted with air or oxygen. No process waste waters result from this process.

The second process involves the recovery of tin from scrap materials. The wastes contained in the process waters from this process include suspended solids, oil and grease.

(39) *Sulfur dioxide.* The effluent limitations for this subcategory are being reserved for further consideration.

(40) *Zinc oxide.* The effluent limitations for this subcategory are being reserved for further consideration.

(41) *Zinc sulfate.* Zinc sulfate is produced by reaction of sulfuric acid with crude zinc starting materials such as crude zinc oxide from brass mill fumes, zinc metal residues and zinc carbonate byproduct from sodium hydrosulfite manufacture. The reaction product is filtered, treated to precipitate metals, re-filtered, and evaporated to dryness or sold as a solution. Waste materials from this process are all solids except for a small amount of wash water which is recycled.

(iii) *Treatment and control technology.* Waste water treatment and control technologies have been studied for each subcategory of the industry to determine what is (a) the best practicable control technology currently available, (b) the best available technology economically achievable, and (c) the best available demonstrated control technology, processes, operating methods or other alternatives.

The application and performance of various control and treatment technologies to reduce the quantities of pollutants discharged to navigable waters as a result of the production of inorganic chemicals are specific to the inorganic

product manufactured. However, many in-process control measures, as well as end-of-pipe treatment systems, may be generally applied to several product subcategories.

Good in-process control is a significant pollution abatement technique for all products produced in the inorganic chemicals manufacturing industry. Practices such as minimization and containment of spills and leaks, segregation of waste streams, monitoring process waste water, water conservation and reuse, waste water equalization and good housekeeping, process operation and equipment maintenance are necessary to eliminate or reduce the volume of process waste water requiring treatment.

Five chemicals, borax, boric acid, bromine, potassium chloride and lithium carbonate, are produced by the Trona process in which salt brines are withdrawn from a dry lake basin. Saleable chemicals are extracted from the brine solution which is then returned to the brine field. No additional treatment is required for this process.

Several chemicals are manufactured as byproducts from other production processes or recovered from waste streams generated by other operations. No additional waste allowance is provided for these processes if no pollutants are added in the recovery or production processes. Hence, any treatment technologies are applicable to the primary manufacturing operation and no additional abatement systems are required. Such chemical manufacturing processes include ammonium chloride production from sodium carbonate wastes, chromic acid production in dichromate facilities, ferric chloride production from waste pickle liquor and ferrous sulfate recovery from titanium dioxide production.

Some chemical manufacturing processes are essentially dry, requiring no additional effluent treatment, because the existing technology averts the discharge of process waste water pollutants under normal operating conditions. These include calcium hydroxide production, lead monoxide production, stannic oxide production from tin metal and zinc sulfate production.

Nickel sulfate production from pure raw materials and sodium fluoride production generate no effluent requiring treatment by virtue of the recycle systems employed in the manufacturing processes.

All other chemical subcategories generate process waste water streams which must be controlled and treated. The constituents contained in the process waste water vary with the chemical produced. Suspended solids are present as a result of most production processes. These may generally be removed by sedimentation basins, clarifiers, filters, centrifuges and evaporation. These treatment technologies can be used when combined with disposal of residue.

Numerous metal ions and metal compounds are generated by the processes used to manufacture many chemicals. Treatment of these wastes generally consists of various precipitation processes

and subsequent solids removal. Fluorides are usually removed by lime precipitation.

Sulfides and sulfites are present as the result of manufacturing various sulfur compounds. Treatment systems to remove these pollutants include aeration processes, oxidation by various chemicals and biological systems.

The proper management of solid wastes resulting from pollution control systems must be practiced. Pollution control technologies generate many different amounts and types of solid wastes and liquid concentrates through the removal of pollutants. These substances vary greatly in their chemical and physical composition and may be either hazardous or non-hazardous. A variety of techniques may be employed to dispose of these substances depending on the degree of hazard.

If thermal processing (incineration) is the choice for disposal, provisions must be made to ensure against entry of hazardous pollutants into the atmosphere. Consideration should also be given to recovery of materials of value in the wastes.

For those waste materials considered to be non-hazardous where land disposal is the choice for disposal, practices similar to proper sanitary landfill technology may be followed. The principles set forth in the EPA's Land Disposal of Solid Wastes Guidelines 40 CFR Part 241 may be used as guidance for acceptable land disposal techniques.

For those waste materials considered to be hazardous, disposal will require special precautions. In order to ensure long-term protection of public health and the environment, special preparation and pretreatment may be required prior to disposal. If land disposal is to be practiced, these sites must not allow movement of pollutants to either ground or surface waters. Sites should be selected that have natural soil and geological conditions to prevent such contamination or, if such conditions do not exist, artificial means (e.g. liners) must be provided to ensure long-term protection of the environment from hazardous materials. Where appropriate, the location of solid hazardous materials disposal sites should be permanently recorded in the appropriate office of the legal jurisdiction in which the site is located.

(iv) *Cost estimates for control of waste water pollutants.* Costs for the treatment and control of water-borne pollutants for inorganic chemicals included in this study have been developed, for the most part, on a compilation and summation of costs for individual plants rather than a statistical projection based on a small fraction of existing plants. This approach was necessary because many of the forty-seven chemicals are made in only a very few plants in the U.S., most or all of which were studied. The percentage of production covered by actual plant visits or plant submitted data is more than 75 percent for 25 of the chemical products studied; 50 to 75 percent for an additional 10 products; and up to 50 percent for the remainder.

A summary of cost and energy information for attainment of no discharge of pollutants in process waste waters as developed from the specific chemical overall cost analyses is presented in the development document.

For the forty-seven inorganic chemicals of this study, treatment and disposal investment capital already spent is estimated as \$19,000,000. Much of this money has been spent to reach the minimum treatment level. A fair portion has been spent for best practicable or best available technology levels. It is estimated that approximately twice the amount of total additional capital expenditure is needed to achieve no discharge of pollutants in process waste water at all facilities in these industries.

Removal of dissolved solids is expensive at this time. The disposal of soluble solids once they have been removed from the waste water is another difficult problem. New plants have more options in solving these problems economically than do existing plants. New source facilities with heavy dissolved solids effluents and/or heavy solid waste loads may avoid costly waste water treatments by geographical location. A favorable balance of climatic evaporation to rainfall eases these problems. Land storage or landfill space should be available for solids disposal.

New plants being built can avoid major future waste abatement costs by inclusion of: (1) dikes, emergency holding ponds, catch basins and other containment facilities for leaks, spills and wash downs, (2) piping, trenches, sewers, sumps, and other isolation facilities to keep leaks, spills and process water separate from cooling and sanitary water, (3) noncontact condensers for cooling water, (4) efficient reuse, recycling and recovery of all possible raw materials and byproducts and (5) closed cycle water utilization whenever possible. Closed cycle operation eliminates all waterborne wastes to surface water.

Cost information was obtained directly from industry, from engineering firms, equipment suppliers, government sources, and available literature whenever possible. Costs are based on actual industrial installations or engineering estimates for projected facilities as supplied by contributing companies. In the absence of such information, costs estimates have been developed from either plant-supplied costs for similar waste treatment installation at plants making other inorganic chemicals or general cost estimates for treatment technology.

In the Cost Analysis Tables, the values of invested capital and annual costs given are the cost to plants that do not have the specified technology in place now.

Costs have been uniformly calculated based on 10 percent straight line depreciation. There is an additional amount of interest at 6 percent of the depreciated value per year (pollution-abatement tax-free money). These plus the costs of insurance and taxes yield a total overall annualized fixed cost of 15 percent per year. All costs have been

adjusted to 1971 values and are quoted as such unless otherwise noted.

Costs are developed for various levels of technology as described in Level Descriptions. The A level is the least stringent of the levels. B, C, D and E levels are other levels of treatment that were evaluated.

Treatment rationales employed in the cost development are: (1) All noncontact cooling water is exempted from treatment (and treatment costs) provided no process waste water pollutants are introduced, (2) water treatment, cooling tower and boiler blowdown discharged are not treated, (3) treatment of dissolved solids, other than harmful pollutants, is not included in cost development unless such removal is judged to be economically achievable, and (4) disposal considerations are covered in cost development including evaporation ponds, land spoilage and solid wastes handling.

(v) *Energy requirements and non-water quality environmental impacts.* The inorganic chemicals manufacturing industry has an estimated annual energy consumption of 3,020,000 billion kg/cal (12,000,000 billion BTU). Additional energy requirements to implement best practicable technology currently available are insignificant. An additional 60 billion kg/cal (240 billion BTU) will be required annually to implement best available technology economically achievable. This represents an increase in energy consumption of less than 0.01 percent above that currently used.

No significant increase in noise pollution, radiation, air pollution or thermal pollution will result from the implementation of water pollution control technology.

(vi) *Economic impact.* Generally, the costs of compliance are low and are not expected to significantly affect prices, profitability, industry production or growth in the product segments covered by these guidelines. In most cases, it is expected that these costs can be passed on to the consumer through price increases ranging from zero to 6.1 percent for 1977 and from zero to 6.5 percent by 1983. However, in two segments—nickel sulfate and ferric chloride—some producers will have to absorb these costs in their profit margins. As a result, it is estimated that one plant in the nickel sulfate segment, representing about 8 to 10 percent of current productive capacity, may close due to the 1977 effluent limitations. Although capacity utilization is high in this segment, it is expected that the larger-volume producers can make up this lost production. Approximately fifteen to twenty employees would be affected by these closures; however, there should be no significant impact on the local communities, balance of trade, or industry growth for these segments.

In addition, it is estimated that approximately two ferric chloride plants may close as a result of increased competition from new lower cost by-product recovery processes. These plants currently represent fifty-six percent of the

industry's productive capacity; however, they are expected to represent a smaller portion of future capacity after new plants are completed. Approximately sixty-five to seventy employees would be affected by these closures. The impact on the communities is expected to be minimal and no balance of trade or industry growth effects are anticipated.

The report entitled "Development Document for Interim Final Effluent Limitations and Guidelines and Proposed New Source Performance Standards for the Inorganic Chemicals Manufacturing Point Source Category" details the analysis undertaken in support of the interim final regulations set forth herein and is available for inspection in the EPA Freedom of Information Center, Room 204, West Tower, Waterside Mall, Washington, D.C., at all EPA regional offices, and at State water pollution control offices. A supplementary analysis prepared for EPA of the possible economic effects of the regulation is also available for inspection at these locations. Copies of both of these documents are being sent to persons or institutions affected by the proposed regulation or who have placed themselves on a mailing list for this purpose (see EPA's Advance Notice of Public Review Procedures, 38 FR 21202, August 6, 1973). An additional limited number of copies of both reports are available. Persons wishing to obtain a copy may write the EPA Office of Public Affairs, Environmental Protection Agency, Washington, D.C. 20460, Attention: Ms. Ruth Brown, A-107.

When this regulation is promulgated in final rather than interim form, revised copies of the Development Document will be available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Copies of the economic analysis document will be available through the National Technical Information Service, Springfield, VA 22151.

(c) *Summary of public participation.* Prior to this publication, the agencies and groups listed below were consulted and given an opportunity to participate in the development of effluent limitations, guidelines and standards proposed for the inorganic chemicals manufacturing category. All participating agencies have been informed of project developments. An initial draft of the Development Document was sent to all participants and comments were solicited on that report. The following are the principal agencies and groups consulted: (1) Effluent Standards and Water Quality Information Advisory Committee (established under section 515 of the Act); (2) all State and U.S. Territory Pollution Control Agencies; (3) the Manufacturing Chemists' Association; (4) the Chlorine Institute; (5) Puerto Rico Land Administration; (6) American Society of Mechanical Engineers; (7) American Society of Civil Engineers; (8) Hudson River Sloop Restoration, Inc.; (9) National Resource Defense Council; (10) Water Pollution Control Federation; (11) the National Wildlife Federation; and (12) the Salt Institute.

The following responded with comments: (1) Colorado Department of Public Health; (2) Kentucky Department for Natural Resources and Environmental Protection; (3) New York Department of Environmental Conservation; (4) Illinois Environmental Protection Agency; (5) Virginia State Water Control Board; (6) Arizona State Department of Health; (7) Florida Department of Pollution Control; (8) U.S. Water Resources Council; (9) BASF Wyandotte Corporation; (10) E. I. du Pont de Nemours and Company; (11) Allied Chemical Corporation; and (12) Manufacturing Chemists Association.

The primary issues raised in the development of the interim final effluent limitations and guidelines and the treatment of these issues herein are as follows:

(1) A common criticism was that disposal of storm water runoff makes the requirement of "no discharge of process water pollutants" unrealistic for many chemical subcategories. Land is often unavailable to provide total impoundment of storm water runoff and some provision must be established for periodic discharges.

Storm water runoff water is not considered process waste water for the purposes of the effluent limitations guidelines presented herein.

(2) Several commenters stated that the cost estimates for implementation of best practicable control technology currently available appear low and do not reflect total cost. Also, in cases where cost estimates appear realistic, some commenters state that the data has been misrepresented by averaging individual plant costs to reach an industry-wide cost figure.

Cost information was obtained directly from industry during plant visits, from engineering firms and equipment suppliers, and from available literature. This data has been obtained from the best sources available to the Agency and is believed to be representative of actual capital and operating costs.

In the draft development document, costs were presented that were applicable to the subcategory as a whole and not to any individual facility. The presentation of costs in the interim final development document has been changed to apply to costs for a typical plant that is not using the indicated treatment system.

(3) Some commenters questioned the establishment of daily maximum limitations as twice the thirty-day average. They state that consideration should be given to the variability of the raw waste load, shutdown and startup, and to different types of processes as well as the method of operation, i.e., continuous or batch.

Extensive, long-term data are not available for each of the chemical subcategories. It was necessary, therefore, to rely on data from other segments of the inorganic chemicals industry, as well as data from other industrial categories. Based on this information and using engineering judgment on the performance reliability of recommended treatment systems, a factor of two appears generous

for most subcategories. This factor considers raw waste load variability. In the case of shock loads which may upset a treatment system, equalization basins or surge tanks may be employed.

The issue most often raised is that a biological treatment system is susceptible to variations in influent loadings. However, the general treatment of choice for the inorganic chemicals industry is physical-chemical, not biological, and thus not as dependent on variations in influent loads. The reevaluation of the available information suggests that the daily maximum limitations based on best practicable control technology currently available should be three times the thirty-day average for the following batch processes: (a) Chrome pigments, (b) copper sulfate, (c) lithium carbonate (spodumene ore process), (d) nickel sulfate, (e) potassium iodide, and (f) silver nitrate.

(4) Many commenters recommend specifying a range of effluent reductions attainable by application of various control and treatment technologies instead of establishing rigid effluent limitations based on production volume.

The approach taken in developing effluent limitations guidelines and standards of performance for the inorganic chemicals manufacturing industry was to examine all variables and segment the industry into workable subcategories consistent with these variations. Subcategories have been established based on the chemical product manufactured. In cases where two dissimilar processes are used to manufacture the same product, separate limitations have been established within the subcategory. Thus, ranges are provided for, as are other factors, by segmenting the inorganic chemicals manufacturing point source category into discrete subcategories, each with its own limitation. Production-based limitations have been established to ensure adequate treatment. Concentration-based standards may be achieved by dilution of process waste waters which is contrary to the intent of the Act.

(5) Some commenters questioned the establishment of a limitation based on best practicable control technology currently available which requires zero discharge of process waste water pollutants for twenty-four of the forty-nine process subgroups. They state that this limitation is often not achievable using the recommended treatment systems.

The initial recommendations have been revised for many chemical subcategories. As shown in the regulation, based on BPCTCA, no discharge of process waste water pollutants is required for all or part of 18 of the 27 interim final process subcategories. Many of these processes are dry or discharge no waste water to navigable waters. The treatment and control technologies to achieve this level of pollutant reduction are summarized in the preamble paragraph (b) (2) (III) and sections VII, IX and X of the Development Document.

(6) Some commenters stated that the term "harmful materials" often appears in the contractor's report and is ambiguous. They recommend precise definition of the phrase or substitution of a more definitive term.

This ambiguity has been clarified in the Draft Development Document for Interim Final and Proposed Effluent Limitations Guidelines and Proposed New Source Performance Standards for the Significant Inorganic Chemicals Manufacturing Point Source Category.

(7) Many commenters noted that the recommendation of "no" hydrogen sulfide as the limitation for several chemical subcategories is technically unachievable because of the presence of sulfide ions in the waste water. Because the concentration of hydrogen sulfide in the waste water depends on pH and on the sulfide ion concentration, the limitation on hydrogen sulfide has been deleted, while the sulfide limitation is maintained.

(8) Several State pollution control agencies expressed concern because some limitations would allow industrial point sources to discharge waste water constituents to receiving waters in concentrations greater than those allowable by water quality standards.

The effluent limitations guidelines and new source performance standards presented herein are based on the practicability and availability of control and treatment technologies. They are not water quality related. However, more stringent standards may be applied to a point source, pursuant to section 303 of the Act, when necessary to preserve water quality.

(9) Some reviewers commented that leaks and spills may be contained and treated before discharge, but that reuse or recycle may not be practical in all cases. Containment and/or reuse of all contaminated noncontact cooling water is not generally feasible.

Contaminated non-process wastewater has been defined in certain subcategories which otherwise require no discharge of pollutants. In such subcategories, contaminated non-process wastewaters are not covered by these guidelines and limitations on such discharges may be established by the permit issuing authority.

(10) One commenter noted that the basis of cyanide limits is 0.01 mg/l. The detectable limit is also 0.01 mg/l, such that at 0.02 mg/l the analysis is only fifty percent accurate. The waste water analysis at the recommended level would be unusable for enforcement purposes.

The cyanide limitations have been revised. A concentration basis of 0.05 mg/l for oxidizable cyanide and 0.5 mg/l for total cyanide has been established as achievable by a well operated treatment system in this industry as well as in other industries.

(11) One manufacturer stated that the guidelines for ammonium chloride production considered only the manufacture from Solvay process wastes and the manufacture by reacting anhydrous ammonia with hydrogen chloride gas. It was questioned whether or not the guidelines

would be applied to other production processes.

The effluent limitations presented in Subpart X apply only to the manufacture of ammonium chloride by the processes studied, as stated in § 415.240.

(12) Several commenters concurred with the definition of best practicable technology currently available for ammonium chloride production as neutralization prior to discharge. However, they note that the recommended limitation is not consistent with the technology.

The limitation for best practicable technology currently available has been revised to allow for the discharge of small quantities of ammonia present in the barometric condenser cooling water. The limitation based on best available technology economically achievable and the new source performance standard require no discharge of process waste water pollutants. This may be accomplished by replacing barometric condensers with noncontact heat exchangers.

(13) One commenter stated that chemical precipitation and filtration should be required as best practicable control technology currently available for chrome pigments. It was also stated that limitations should be established on other metals, including cadmium, mercury, copper, etc., as well as BOD<sub>5</sub>.

Because of the high water usage in the chrome pigment industry, filtration is not considered to be best practicable control technology currently available. It is, however, required for new sources and for best available technology economically achievable. While integrated pigment complexes may discharge some metals other than those limited, it was concluded that they are generally not present in sufficient quantities to be the subject of effluent limitation guidelines. All discharges must conform to water quality standards, as well as standards for toxic pollutants. Because of the use of acetates, a complex discharge may contain some BOD<sub>5</sub>, however, sufficient data was not available to establish effluent limitations.

(14) For chrome pigments one commenter criticized the hexavalent chromium limitation based on best available technology economically achievable as being unachievable.

The hexavalent chromium limitation for best available technology has been reviewed and revised to 0.0017 kg/kg, which is readily achievable by the indicated technology as practiced in well operated treatment systems.

(15) For calcium carbonate production, a commenter questioned the validity of determining a process waste water discharge flow basis by averaging the data from two of three plants. It was recommended that a variable limit be established for this subcategory.

Two plants have similar waste water flow rates. This was used as the basis of the guidelines. There are no process differences which would preclude the other plants from attaining the same water use as the two plants used as a basis for the guidelines.

(16) For calcium hydroxide production, one commenter questioned whether

the effluent guidelines are applicable to the production of calcium hydroxide by the reaction of calcium chloride and caustic soda.

The present guidelines for calcium hydroxide production are applicable only to the manufacturing process wherein water is reacted with calcium oxide.

(17) For carbon monoxide and by-product hydrogen it was recommended that the carbon monoxide and by-product hydrogen production subcategory be deleted from the inorganic chemicals manufacturing category because they are reforming processes in petroleum refineries.

This subcategory is retained because the process is associated with ammonia plants which are sometimes, but not usually, part of a petroleum refinery.

(18) It was pointed out that only chromic acid production in facilities which manufacture dichromates was investigated.

Seventy-five percent of the industry capacity for chromic acid is associated with dichromate facilities. Hence, as shown in § 415.350, the guidelines apply only to chromic acid production in dichromate facilities.

(19) The fluoride limitation was criticized for being low and not achievable using the recommended technologies.

The fluoride limitation has been revised. A concentration basis of 20 mg/l fluoride was used to compute the revised limitation. This is consistent with the actual performance of lime precipitation systems.

(20) Several commenters are concerned that the Agency may be extending the definition of "navigable waters" to include underground waters.

The issues whether or not the term "navigable waters" as defined in the FWPCA includes underground waters, and if so, to what extent such waters are included, have not yet been finally resolved by the courts. It is not the Agency's intention in these guidelines to take a position on these issues. These regulations do not establish effluent limitations, guidelines or new source performance standards applicable to brines returned to the underground process water source from which they were pumped. Moreover, these regulations do not designate any body of water, or class of water bodies, as navigable.

(21) One commenter feels that specific provisions should be included for analytical laboratory wastes.

It has not been demonstrated that laboratory wastes present a problem for the inorganic chemicals industry. There is no evidence that suggests that a significant amount of wastes need arise from analytical laboratory procedures because they result from a planned, routine activity which lends itself to proper disposal of pollutants.

The Agency is subject to an order of the United States District Court for the District of Columbia entered in "Natural Resources Defense Council v Train" et al. (Cv. No. 1609-73) which requires the promulgation of regulations for this industry category no later than December 10, 1974. This order also requires that such regulations become effective immediately upon publication. In addition, it is necessary to promulgate regulations establishing limitations on the discharge of pollutants from point sources in this category so that the process of issuing permits to individual dischargers under section 402 of the Act is not delayed.

## RULES AND REGULATIONS

22409

In consideration of the foregoing, 40 CFR Part 415 is hereby amended as set forth below.

Dated: May 2, 1975.

JOHN QUARLES,  
Acting Administrator.

## Subpart W—Aluminum Fluoride Production Subcategory

- Sec. 415.230 Applicability; description of the aluminum fluoride production subcategory.
- 415.231 Specialized definitions.
- 415.232 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

## Subpart X—Ammonium Chloride Production Subcategory

- 415.240 Applicability; description of the ammonium chloride production subcategory.
- 415.241 Specialized definitions.
- 415.242 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

## Subpart Y—Ammonium Hydroxide Production Subcategory

- 415.250-415.252 [Reserved].

## Subpart Z—Barium Carbonate Production Subcategory

- 415.260-415.262 [Reserved].

## Subpart AA—Borax Production Subcategory

- 415.270 Applicability; description of the borax production subcategory.
- 415.271 Specialized definitions.
- 415.272 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

## Subpart AB—Boric Acid Production Subcategory

- 415.280 Applicability; description of the boric acid production subcategory.
- 415.281 Specialized definitions.
- 415.282 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

## Subpart AC—Bromine Production Subcategory

- 415.290 Applicability; description of the bromine production subcategory.
- 415.291 Specialized definitions.
- 415.292 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

## Subpart AD—Calcium Carbonate Production Subcategory

- 415.300 Applicability; description of the calcium carbonate production subcategory.
- 415.301 Specialized definitions.
- 415.302 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

## RULES AND REGULATIONS

- Subpart AE—Calcium Hydroxide Production Subcategory**
- Sec. 415.310 Applicability; description of the calcium hydroxide production subcategory.
- 415.311 Specialized definitions.
- 415.312 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart AF—Carbon Dioxide Production Subcategory**
- 415.320-415.322 [Reserved]
- Hydrogen Production Subcategory**
- 415.330 Applicability; description of the carbon monoxide & by-product hydrogen production subcategory.
- 415.331 Specialized definitions.
- 415.332 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart AH—Chromium Pigments Production Subcategory**
- 415.340 Applicability; description of the chromium pigments production subcategory.
- 415.341 Specialized definitions.
- 415.352 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart AI—Chromic Acid Production Subcategory**
- 415.350 Applicability; description of the chromic acid production subcategory.
- 415.351 Specialized definitions.
- 415.352 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart AJ—Copper Sulfate Production Subcategory**
- 415.360 Applicability; description of the copper sulfate production subcategory.
- 415.361 Specialized definitions.
- 415.362 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart AK—Cuprous Oxide Production Subcategory**
- 415.370-415.372 [Reserved].
- Subpart AL—Ferric Chloride Production Subcategory**
- 415.380 Applicability; description of the ferric chloride production subcategory.
- 415.381 Specialized definitions.
- 415.382 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart AM—Ferrous Sulfate Production Subcategory**
- 415.390-415.392 [Reserved]
- Subpart AN—Fluorine Production Subcategory**
- 415.400 Applicability; description of the fluorine production subcategory.
- Sec. 415.401 Specialized definitions.
- 415.402 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart AO—Hydrogen Production Subcategory**
- 415.410 Applicability; description of the hydrogen production subcategory.
- 415.411 Specialized definitions.
- 415.412 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart AP—Hydrogen Cyanide Production Subcategory**
- 415.420 Applicability; description of the hydrogen cyanide production subcategory.
- 415.421 Specialized definitions.
- 415.422 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart AQ—Iodine Production Subcategory**
- 415.430 Applicability; description of the iodine production subcategory.
- 415.431 Specialized definitions.
- 415.432 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart AR—Lead Monoxide Production Subcategory**
- 415.440 Applicability; description of the lead monoxide production subcategory.
- 415.441 Specialized definitions.
- 415.442 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart AS—Lithium Carbonate Production Subcategory**
- 415.450 Applicability; description of the lithium carbonate production subcategory.
- 415.451 Specialized definitions.
- 415.452 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart AT—Manganese Sulfate Production Subcategory**
- 415.460-415.462 [Reserved]
- Subpart AU—Nickel Sulfate Production Subcategory**
- 415.470 Applicability; description of the nickel sulfate production subcategory.
- 415.471 Specialized definitions.
- 415.472 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart AV—Strong Nitric Acid Production Subcategory**
- 415.480-415.482 [Reserved].

- Subpart AW—Oxygen and Nitrogen Production Subcategory**
- Sec. 415.490 Applicability; description of the oxygen and nitrogen production subcategory.
- 415.491 Specialized definitions.
- 415.492 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart AX—Potassium Chloride Production Subcategory**
- 415.500 Applicability; description of the potassium chloride production subcategory.
- 415.501 Specialized definitions.
- 415.502 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart AY—Potassium Iodide Production Subcategory**
- 415.510 Applicability; description of the potassium iodide production subcategory.
- 415.511 Specialized definitions.
- 415.512 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart AZ—Potassium Permanganate Production Subcategory**
- 415.520-415.522 [Reserved].
- Subpart BA—Silver Nitrate Production Subcategory**
- 415.530 Applicability; description of the silver nitrate production subcategory.
- 415.531 Specialized definitions.
- 415.532 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart BB—Sodium Bisulfite Production Subcategory**
- 415.540-415.542 [Reserved]
- Subpart BC—Sodium Fluoride Production Subcategory**
- 415.550 Applicability; description of the sodium fluoride production subcategory.
- 415.551 Specialized definitions.
- 415.552 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart BD—Sodium Hydrosulfide Production Subcategory**
- 415.560-415.562 [Reserved]
- Subpart BE—Sodium Hydrosulfite Production Subcategory**
- 415.570-415.572 [Reserved]
- Subpart BF—Sodium Silicofluoride Production Subcategory**
- 415.580 Applicability; description of the sodium silicofluoride production subcategory.
- 415.581 Specialized definitions.
- 415.582 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

## RULES AND REGULATIONS

- Subpart BG—Sodium Thiosulfate Production Subcategory**
- Sec. 415.590-415.592 [Reserved]
- Subpart BH—Stannic Oxide Production Subcategory**
- 415.600 Applicability; description of the stannic oxide production subcategory.
- 415.601 Specialized definitions.
- 415.602 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- Subpart BI—Sulfur Dioxide Production Subcategory**
- 415.610-415.612 [Reserved]
- Subpart BJ—Zinc Oxide Production Subcategory**
- 415.620-415.622 [Reserved]
- Subpart BK—Zinc Sulfate Production Subcategory**
- 415.630 Applicability; description of the zinc sulfate production subcategory.
- 415.631 Specialized definitions.
- 415.632 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
- AUTHORITY: Secs. 301, 304 (b) and (c), Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1311, 1314 (b) and (c), 86 Stat. 816 et seq., Pub. L. 92-500) (the Act).

- Subpart W—Aluminum Fluoride Production Subcategory**
- § 415.230 Applicability; description of the aluminum fluoride production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of aluminum fluoride.

## § 415.231 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "product" shall mean aluminum fluoride.

(c) The term "contaminated non-process wastewater" shall mean any water which, during manufacturing or processing, comes into incidental contact with any raw material, intermediate product, finished product, by-product or waste product by means of (1) rainfall runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment, which are repaired within the shortest reasonable time not to exceed 24 hours after discovery; and (4) discharges from safety showers and related personal safety equipment: *Provided*, That all reasonable measures have been taken (i) to prevent, reduce and control such contact to the maximum extent feasible; and (ii) to mitigate the effects of such contact once it has occurred.

## § 415.232 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Fluoride.....	0.08.....	0.34
TSS.....	0.30.....	0.43
Aluminum.....	0.34.....	0.17
pH.....	Within the range 6.0 to 9.0.....	
(English units) lb/1,000 lb of product		
Fluoride.....	0.08.....	0.34
TSS.....	0.30.....	0.43
Aluminum.....	0.34.....	0.17
pH.....	Within the range 6.0 to 9.0.....	

## Subpart X—Ammonium Chloride Production Subcategory

§ 415.240 Applicability; description of the ammonium chloride production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of ammonium chloride by the reaction of anhydrous ammonia with hydrogen chloride gas and by the recovery process from Solvay process wastes.

## § 415.241 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "product" shall mean ammonium chloride.

(c) The term "contaminated non-process wastewater" shall mean any water which, during manufacturing or processing, comes into incidental contact with any raw material, intermediate product, finished product, byproduct or waste product by means of (1) rainfall runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment, which are repaired within the shortest reasonable time not to exceed 24 hours after discovery; and (4) discharges from safety showers and related personal safety equipment: *Provided*, That all reasonable measures have been taken (i) to prevent, reduce and control such contact to the maximum extent feasible; and (ii) to mitigate the effects of such contact once it has occurred.

## § 415.242 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamen-

## RULES AND REGULATIONS

tally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations. The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from ammonium chloride production by the reaction of anhydrous ammonia with hydrogen chloride gas: There shall be no discharge of process waste water pollutants to navigable waters.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from ammonium chloride production by the recovery process from Solvay process wastes:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Ammonia (as N).....	8.9.....	4.4
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
Ammonia (as N).....	8.9.....	4.4
pH.....	Within the range 6.0 to 9.0.	

#### Subpart Y—Ammonium Hydroxide Production Subcategory

§§ 415.250–415.252 [Reserved]

#### Subpart Z—Barium Carbonate Production Subcategory

§§ 415.260–415.262 [Reserved]

#### Subpart AA—Borax Production Subcategory

§ 415.270 Applicability; description of the borax production subcategory.

The provisions of this subpart are applicable to discharges resulting from the

production of borax by the ore-mining process and by the Trona process.

#### § 415.271 Specialized definitions.

For the purpose of this subpart: Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

§ 415.272 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: There shall be no discharge of process waste water pollutants to navigable waters, except that residual brine and depleted liquor may be returned to the body of water from which the process brine solution was originally withdrawn.

#### Subpart AB—Boric Acid Production Subcategory

§ 415.280 Applicability; description of the boric acid production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of boric acid from ore-mined borax and from borax produced by the Trona process.

#### § 415.281 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "product" shall mean boric acid.

§ 415.282 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

subpart after application of the best practicable control technology currently available:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from boric acid production from borax produced by the Trona process: There shall be no discharge of process waste water pollutants to navigable waters, except that residual brine and depleted liquor may be returned to the body of water from which the process brine solution was originally withdrawn.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from boric acid production from ore-mined borax:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Arsenic.....	0.0028.....	0.0014
TSS.....	0.14.....	0.07
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
Arsenic.....	0.0028.....	0.0014
TSS.....	0.14.....	0.07
pH.....	Within the range 6.0 to 9.0.	

#### Subpart AC—Bromine Production Subcategory

§ 415.290 Applicability; description of the bromine production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of bromine by the bromine-mining process and by the Trona process.

#### § 415.291 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

§ 415.292 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations

## RULES AND REGULATIONS

have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: There shall be no discharge of process waste water pollutants to navigable waters, except that residual brine and depleted liquor may be returned to the body of water from which the process brine solution was originally withdrawn.

#### Subpart AD—Calcium Carbonate Production Subcategory

§ 415.300 Applicability; description of the calcium carbonate production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of calcium carbonate by the milk of lime process and by the recovery process from Solvay process wastes.

#### § 415.301 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "product" shall mean calcium carbonate.

§ 415.302 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to col-

lect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from calcium carbonate production by the milk of lime process:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	0.56.....	0.28
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
TSS.....	0.56.....	0.28
pH.....	Within the range 6.0 to 9.0.	

## RULES AND REGULATIONS

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from calcium carbonate production by the recovery process from Solvay process wastes:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	1.16.....	0.58
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
TSS.....	1.16.....	0.58
pH.....	Within the range 6.0 to 9.0.	

#### Subpart AE—Calcium Hydroxide Production Subcategory

##### § 415.310 Applicability; description of the calcium hydroxide production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of calcium hydroxide by the lime slaking process.

##### § 415.311 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "contaminated non-process wastewater" shall mean any water which, during manufacturing or processing, comes into incidental contact with any raw material, intermediate product, finished product, by-product or waste product by means of (1) rainfall runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment, which are repaired within the shortest reasonable time not to exceed 24 hours after discovery; and (4) discharges from safety showers and related personal safety equipment. *Provided*, That all reasonable measures have been taken (i) to prevent, reduce and control such contact to the maximum extent feasible; and (ii) to mitigate the effects of such contact once it has occurred.

##### § 415.312 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology

available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different from that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: There shall be no discharge of process waste water pollutants to navigable waters.

#### Subpart AF—Carbon Dioxide Production Subcategory

##### §§ 415.320–415.322 [Reserved]

#### Subpart AG—Carbon Monoxide and By-Product Hydrogen Production Subcategory

##### § 415.330 Applicability; description of the carbon monoxide & by-product hydrogen production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of carbon monoxide and by-product hydrogen by reforming process.

##### § 415.331 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "product" shall mean carbon monoxide plus hydrogen.

(c) The term "contaminated non-process wastewater" shall mean any water which, during manufacturing or processing, comes into incidental con-

tact with any raw material, intermediate product, finished product, by-product or waste product by means of (1) rainfall runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment, which are repaired within the shortest reasonable time not to exceed 24 hours after discovery; and (4) discharges from safety showers and related personal safety equipment. *Provided*, That all reasonable measures have been taken (i) to prevent, reduce and control such contact to the maximum extent feasible; and (ii) to mitigate the effects of such contact once it has occurred.

##### § 415.332 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different from that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
COD.....	0.5.....	0.25
TSS.....	0.12.....	0.06
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
COD.....	0.5.....	0.25
TSS.....	0.12.....	0.06
pH.....	Within the range 6.0 to 9.0.	

#### Subpart AH—Chrome Pigments Production Subcategory

##### § 415.340 Applicability; description of the chrome pigments production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of chrome pigments.

##### § 415.341 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "chrome pigments" shall mean chrome yellow, chrome orange, chrome green, zinc yellow and iron blue.

(c) The term "product" shall mean chrome pigments.

(d) The term "zinc A" means that the zinc limitation is based solely on the production of zinc yellow.

(e) The term "cyanide A" shall mean those cyanides amenable to chlorination as described in "1972 Annual Book of ASTM Standards," 1972, Standard D2036-72, Method B, page 553.

(f) The term "chromium (T)" shall mean total chromium.

##### § 415.342 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the

## RULES AND REGULATIONS

process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	5.1.....	1.7
Chromium(T).....	0.10.....	0.034
Chromium(6+).....	0.010.....	0.004

pH.....	Within the range 6.0 to 9.0.	

#### Subpart AI—Chromic Acid Production Subcategory

##### § 415.350 Applicability; description of the chromic acid production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of chromic acid in facilities which also manufacture sodium dichromate.

##### § 415.351 Specialized definitions.

For the purpose of this subpart: Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

##### § 415.352 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: There shall be no discharge of process waste water pollutants to navigable waters, except as provided for in § 415.172 (39 FR 9630).

#### Subpart AJ—Copper Sulfate Production Subcategory

##### § 415.360 Applicability; description of the copper sulfate production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of copper sulfate from pure raw materials and by recovery from impure raw materials.

##### § 415.361 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and meth-

## RULES AND REGULATIONS

ods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "product" shall mean copper sulfate.

(c) The term "contaminated non-process wastewater" shall mean any water which, during manufacturing or processing, comes into incidental contact with any raw material, intermediate product, finished product, by-product or waste product by means of (1) rainfall runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment, which are repaired within the shortest reasonable time not to exceed 24 hours after discovery; and (4) discharges from safety showers and related personal safety equipment: *Provided*, That all reasonable measures have been taken (i) to prevent, reduce and control such contact to the maximum extent feasible; and (ii) to mitigate the effects of such contact once it has occurred.

§ 415.362 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations. The following limitations establish the quantity or quality of pollutants or pollutant proper-

ties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from copper sulfate production using pure raw materials:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Copper	0.0006	0.0002
pH	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
Copper	0.0006	0.0002
pH	Within the range 6.0 to 9.0.	

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from copper sulfate production by the recovery process:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS	0.001	0.023
Copper	0.0006	0.001
Nickel	0.0006	0.002
Selenium	0.0015	0.0006
pH	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
TSS	0.001	0.023
Copper	0.0006	0.001
Nickel	0.0006	0.002
Selenium	0.0015	0.0006
pH	Within the range 6.0 to 9.0.	

#### Subpart AK—Cuprous Oxide Production Subcategory

§§ 415.370–415.372 [Reserved]

#### Subpart AL—Ferric Chloride Production Subcategory

§ 415.380 Applicability; description of the ferric chloride production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of ferric chloride from pickle liquor.

§ 415.381 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and meth-

ods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "contaminated non-process wastewater" shall mean any water which, during manufacturing or processing, comes into incidental contact with any raw material, intermediate product, finished product, byproduct or waste product by means of (1) rainfall runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment, which are repaired within the shortest reasonable time not to exceed 24 hours after discovery; and (4) discharges from safety showers and related personal safety equipment: *Provided*, That all reasonable measures have been taken (i) to prevent, reduce and control such contact to the maximum extent feasible; and (ii) to mitigate the effects of such contact once it has occurred.

§ 415.382 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a

point source subject to the provisions of this subpart after application of the best practicable control technology currently available: There shall be no discharge of process waste water pollutants to navigable waters.

#### Subpart AM—Ferrous Sulfate Production Subcategory

§§ 415.390–415.392 [Reserved]

#### Subpart AN—Fluorine Production Subcategory

§ 415.400 Applicability; description of the fluorine production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of fluorine by the liquid hydrofluoric acid electrolysis process.

§ 415.401 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "contaminated non-process wastewater" shall mean any water which, during manufacturing or processing, comes into incidental contact with any raw material, intermediate product, finished product, by-product or waste product by means of (1) rainfall runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment, which are repaired within the shortest reasonable time not to exceed 24 hours after discovery; and (4) discharges from safety showers and related personal safety equipment: *Provided*, That all reasonable measures have been taken (i) to prevent, reduce and control such contact to the maximum extent feasible; and (ii) to mitigate the effects of such contact once it has occurred.

§ 415.402 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of

## RULES AND REGULATIONS

the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: There shall be no discharge of process waste water pollutants to navigable waters.

#### Subpart AO—Hydrogen Production Subcategory

§ 415.410 Applicability; description of the hydrogen production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of hydrogen as a refinery by-product.

§ 415.411 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "contaminated non-process wastewater" shall mean any water which, during manufacturing or processing, comes into incidental contact with any raw material, intermediate product, finished product, by-product or waste product by means of (1) rainfall runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment, which are repaired within the shortest reasonable time not to exceed 24 hours after discovery; and (4) discharges from safety showers and related personal safety equipment: *Provided*, That all reasonable measures have been taken (i) to prevent, reduce and control such contact to the maximum extent feasible; and (ii) to mitigate the effects of such contact once it has occurred.

§ 415.412 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to

factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: There shall be no discharge of process wastewater pollutants to navigable waters, except as provided for in Part 419 of this chapter (39 FR 16560).

#### Subpart AP—Hydrogen Cyanide Production Subcategory

§ 415.420 Applicability; description of the hydrogen cyanide production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of hydrogen cyanide as a by-product of acrylonitrile manufacture and by the Andrussow process.

§ 415.421 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "product" shall mean hydrogen cyanide.

(c) The term "Cyanide A" shall mean those cyanides amenable to chlorination by chlorination as described in "1972 Annual Book of ASTM Standards," 1972, Standard D2036-72, Method B, page 553.

## RULES AND REGULATIONS

### § 415.422 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations. The following limitations establish the quantity or quality of pollutants or pollutant properties controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available.

(a) The following limitations established the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from hydrogen cyanide production as a by-product of acrylonitrile production: There shall be no discharge of process waste water pollutants to navigable waters, except as provided for in Part 414, Subcategory F, § 414.62 of this chapter for acrylonitrile.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from hydrogen cyanide production by the andrussov process:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	2.4	1.2
Cyanide.....	0.05	0.025
Cyanide A.....	0.005	0.0025
BOD <sub>5</sub> .....	3.6	1.8
Ammonia (as N).....	0.36	0.18
pH.....	Within the range 6.0 to 9.0	
(English units) lb/1,000 lb of product		
TSS.....	2.4	1.2
Cyanide.....	0.05	0.025
Cyanide A.....	0.005	0.0025
BOD <sub>5</sub> .....	3.6	1.8
Ammonia (as N).....	0.36	0.18
pH.....	Within the range 6.0 to 9.0	

#### Subpart AQ—Iodine Production Subcategory

##### § 415.430 Applicability; description of the iodine production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of iodine.

##### § 415.431 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "contaminated non-process wastewater" shall mean any water which, during manufacturing or processing, comes into incidental contact with any raw material, intermediate product, finished product, by-product or waste product by means of (1) rainfall runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment, which are repaired within the shortest reasonable time not to exceed 24 hours after discovery; and (4) discharges from safety showers and related personal safety equipment: *Provided*, That all reasonable measures have been taken (i) to prevent, reduce and control such contact to the maximum extent feasible; and (ii) to mitigate the effects of such contact once it has occurred.

##### § 415.432 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these

limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: There shall be no discharge of process waste water pollutants to navigable waters.

#### Subpart AR—Lead Monoxide Production Subcategory

##### § 415.440 Applicability; description of the lead monoxide production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of lead monoxide.

##### § 415.441 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "contaminated non-process wastewater" shall mean any water which, during manufacturing or processing, comes into incidental contact with any raw material, intermediate product, finished product, byproduct or waste product by means of (1) rainfall runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment, which are repaired within the shortest reasonable time not to exceed 24 hours after discovery; and (4) discharges from safety showers and related personal safety equipment: *Provided*, That all reasonable measures have been taken (i) to prevent, reduce and control such contact to the maximum extent feasible; and (ii) to mitigate the effects of such contact once it has occurred.

### § 415.442 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: There shall be no discharge of process waste water pollutants to navigable waters.

#### Subpart AS—Lithium Carbonate Production Subcategory

##### § 415.450 Applicability; description of the lithium carbonate production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of lithium carbonate by the Trona process and from spodumene ore.

##### § 415.451 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "product" shall mean lithium carbonate.

## RULES AND REGULATIONS

### § 415.452 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations. The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from lithium carbonate production by the Trona process: There shall be no discharge of process waste water pollutants to navigable waters, except that residual brine and depleted liquor may be returned to the body of water from which the process brine solution was originally withdrawn.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from lithium carbonate production from spodumene ore:

Effluent limitations		
Effluent characteristic	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	2.7	0.9
pH.....	Within the range 6.0 to 9.0	
(English units) lb/1,000 lb of product		
TSS.....	2.7	0.9
pH.....	Within the range 6.0 to 9.0	

#### Subpart AT—Manganese Sulfate Production Subcategory

##### §§ 415.460–415.462 [Reserved]

#### Subpart AU—Nickel Sulfate Production Subcategory

##### § 415.470 Applicability; description of the nickel sulfate subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of nickel sulfate from pure and impure raw materials.

##### § 415.471 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "product" shall mean nickel sulfate.

(c) The term "contaminated non-process wastewater" shall mean any water which, during manufacturing or processing, comes into incidental contact with any raw material, intermediate product, finished product, byproduct or waste product by means of (1) rainfall runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment, which are repaired within the shortest reasonable time not to exceed 24 hours after discovery; and (4) discharges from safety showers and related personal safety equipment: *Provided*, That all reasonable measures have been taken (i) to prevent, reduce and control such contact to the maximum extent feasible; and (ii) to mitigate the effects of such contact once it has occurred.

##### § 415.472 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data

## RULES AND REGULATIONS

which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations. The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from nickel sulfate production from pure raw materials: There shall be no discharge of process waste water pollutants to navigable waters.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this paragraph, which may be discharged in process waste water from nickel sulfate production from impure raw materials:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Nickel.....	0.006.....	0.002
TSS.....	0.046.....	0.032
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
Nickel.....	0.006.....	0.002
TSS.....	0.046.....	0.032
pH.....	Within the range 6.0 to 9.0.	

## Subpart AV—Strong Nitric Acid Production Subcategory

§§ 415.480–415.482 [Reserved]

## Subpart AW—Oxygen &amp; Nitrogen Production Subcategory

§ 415.490 Applicability; description of the oxygen and nitrogen production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of oxygen and nitrogen by air liquefaction.

§ 415.491 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

§ 415.492 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best

practicable control technology currently available:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Oil and grease.....	0.002.....	0.001
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
Oil and grease.....	0.002.....	0.001
pH.....	Within the range 6.0 to 9.0.	

## Subpart AX—Potassium Chloride Production Subcategory

§ 415.500 Applicability; description of the potassium chloride production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of potassium chloride by the Trona process and by the mining process.

§ 415.501 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

§ 415.502 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the

discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: There shall be no discharge of process waste water pollutants to navigable waters, except that residual brine and depleted liquor may be returned to the body of water from which the process brine solution was originally withdrawn.

## Subpart AY—Potassium Iodide Production Subcategory

§ 415.510 Applicability; description of the potassium iodide production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of potassium iodide.

§ 415.511 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "product" shall mean potassium iodide.

§ 415.512 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fun-

## RULES AND REGULATIONS

damentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
TSS.....	0.09.....	0.03
Sulfide.....	0.015.....	0.005
Iron.....	0.015.....	0.005
Barium.....	0.009.....	0.003
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
TSS.....	0.09.....	0.03
Sulfide.....	0.015.....	0.005
Iron.....	0.015.....	0.005
Barium.....	0.009.....	0.003
pH.....	Within the range 6.0 to 9.0.	

## Subpart AZ—Potassium Permanganate Production Subcategory

§ 415.520–415.522 [Reserved]

## Subpart BA—Silver Nitrate Production Subcategory

§ 415.530 Applicability; description of the silver nitrate production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of silver nitrate.

§ 415.531 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "product" shall mean silver nitrate.

(c) The term "contaminated non-process wastewater" shall mean any water which, during manufacturing or processing, comes into incidental contact with any raw material, intermediate product, finished product, byproduct or

waste product by means of (1) rainfall runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment, which are repaired within the shortest reasonable time not to exceed 24 hours after discovery; and (4) discharges from safety showers and related personal safety equipment; *Provided*, That all reasonable measures have been taken (i) to prevent, reduce and control such contact to the maximum extent feasible; and (ii) to mitigate the effects of such contact once it has occurred.

§ 415.532 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Silver.....	0.009.....	0.003
TSS.....	0.009.....	0.023
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
Silver.....	0.009.....	0.003
TSS.....	0.009.....	0.02
pH.....	Within the range 6.0 to 9.0.	

#### Subpart BB—Sodium Bisulfite Production Subcategory

§ 415.540–415.542 [Reserved]

#### Subpart BC—Sodium Fluoride Production Subcategory

§ 415.550 Applicability; description of the sodium fluoride production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of sodium fluoride by the anhydrous neutralization process and by the silico fluoride process.

#### § 415.551 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "contaminated non-process wastewater" shall mean any water which, during manufacturing or processing, comes into incidental contact with any raw material, intermediate product, finished product, by-product or waste product by means of (1) rainfall runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment, which are repaired within the shortest reasonable time not to exceed 24 hours after discovery; and (4) discharges from safety showers and related personal safety equipment: *Provided*, That all reasonable measures have been taken (i) to prevent, reduce and control such contact to the maximum extent feasible; and (ii) to mitigate the effects of such contact once it has occurred.

§ 415.562 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry

subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: There shall be no discharge of process waste water pollutants to navigable waters.

#### Subpart BD—Sodium Hydrosulfide Production Subcategory

§§ 415.560–415.562 [Reserved]

#### Subpart BE—Sodium Hydrosulfite Production Subcategory

§§ 415.570, 415.571 and 415.572 [Reserved]

#### Subpart BF—Sodium Silicofluoride Production Subcategory

§ 415.580 Applicability; description of the sodium silicofluoride production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of sodium silicofluoride.

#### § 415.581 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "product" shall mean sodium silicofluoride.

(c) The term "contaminated non-process wastewater" shall mean any

water which, during manufacturing or processing, comes into incidental contact with any raw material, intermediate product, finished product, by-product or waste product by means of (1) rainfall runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment, which are repaired within the shortest reasonable time not to exceed 24 hours after discovery; and (4) discharges from safety showers and related personal safety equipment: *Provided*, That all reasonable measures have been taken (i) to prevent, reduce and control such contact to the maximum extent feasible; and (ii) to mitigate the effects of such contact once it has occurred.

§ 415.582 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kg of product		
Fluoride.....	0.5.....	0.25
TSS.....	0.6.....	0.3
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/1,000 lb of product		
Fluoride.....	0.5.....	0.25
TSS.....	0.6.....	0.3
pH.....	Within the range 6.0 to 9.0.	

#### Subpart BG—Sodium Thiosulfate Production Subcategory

§ 415.590–415.592 [Reserved]

#### Subpart BH—Stannic Oxide Production Subcategory

§ 415.600 Applicability; description of the stannic oxide production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of stannic oxide by the reaction of tin metal with air or oxygen.

#### § 415.601 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "contaminated non-process wastewater" shall mean any water which, during manufacturing or processing, comes into incidental contact with any raw material, intermediate product, finished product, by-product or waste product by means of (1) rainfall runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment, which are repaired within the shortest reasonable time not to exceed 24 hours after discovery; and (4) discharges from safety showers and related personal safety equipment: *Provided*, That all reasonable measures have been taken (i) to prevent, reduce and control such contact to the maximum extent feasible; and (ii) to mitigate the effects of such contact once it has occurred.

§ 415.602 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels

(b) The following limitations establish the quantity or quality of pollutants or pollutant or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (of the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: There shall be no discharge of process waste water pollutants to navigable waters.

#### Subpart BI—Sulfur Dioxide Production Subcategory

§§ 415.610–415.612 [Reserved]

#### Subpart BJ—Zinc Oxide Production Subcategory

§§ 415.620–415.622 [Reserved]

#### Subpart BK—Zinc Sulfate Production Subcategory

§ 415.630 Applicability; description of the zinc sulfate production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of zinc sulfate.

#### § 415.631 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in Part 401 of this chapter shall apply to this subpart.

(b) The term "contaminated non-process wastewater" shall mean any water which, during manufacturing or processing, comes into incidental contact with any raw material, intermediate product, finished product, byproduct or

waste product by means of (1) rainfall runoff; (2) accidental spills; (3) accidental leaks caused by the failure of process equipment, which are repaired within the shortest reasonable time not to exceed 24 hours after discovery; and (4) discharges from safety showers and related personal safety equipment: *Provided*, That all reasonable measures have been taken (i) to prevent, reduce and control such contact to the maximum extent feasible; and (ii) to mitigate the effects of such contact once it has occurred.

§ 415.632 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

(a) In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: There shall be no discharge of process waste water pollutants to navigable waters.

# ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 415]

[FRL 375-7]

## INORGANIC CHEMICALS MANUFACTURING POINT SOURCE CATEGORY

Effluent Limitations and Guidelines for Existing Sources and Standards of Performance for New Sources and Pretreatment Standards for Existing and for New Sources

Notice is hereby given that effluent limitations for existing sources and standards of performance and pretreatment standards for new sources and pretreatment standards for existing sources set forth in tentative form below are proposed by the Environmental Protection Agency (EPA). On March 12, 1974, EPA promulgated a regulation adding Part 415 to Title 40 of the Code of Federal Regulations (39 FR 9612). That regulation with subsequent amendments established effluent limitations guidelines for existing sources and standards of performance and pretreatment standards for new sources for the inorganic chemicals manufacturing point source category. The regulation proposed below will amend 40 CFR Part 415 inorganic chemicals manufacturing point source category by adding §§ 415.233, 415.234, 415.235 and 415.236 to the aluminum fluoride subcategory (Subpart W), §§ 415.243, 415.244, 415.245 and 415.246 to the ammonium chloride subcategory (Subpart X), §§ 415.273, 415.274, 415.275 and 415.276 to the borax subcategory (Subpart AA), §§ 415.283, 415.284, 415.285 and 415.286 to the boric acid subcategory (Subpart AB), §§ 415.293, 415.294, 415.295 and 415.296 to the bromine subcategory (Subpart AC), §§ 415.303, 415.304, 415.305 and 415.306 to the calcium carbonate subcategory (Subpart AO), §§ 415.423, 415.424, 415.425 and 415.426 to the calcium hydroxide subcategory (Subpart AE), §§ 415.333, 415.334, 415.335 and 415.336 to the carbon monoxide and by-product hydrogen subcategory (Subpart AG), §§ 415.343, 415.444, 415.445 and 415.446 to the lead chrome pigments subcategory (Subpart AH), §§ 415.353, 415.354, 415.355 and 415.356 to the chromic acid subcategory (Subpart AI), §§ 415.363, 415.364, 415.365 and 415.366 to the copper sulfate subcategory (Subpart AJ), §§ 415.383, 415.384, 415.385 and 415.386 to the ferric chloride subcategory (Subpart AL), §§ 415.403, 415.404, 415.405 and 415.406 to the fluorine subcategory (Subpart AN), §§ 415.413, 415.414, 415.415 and 415.416 to the hydrogen subcategory (Subpart AO), §§ 415.423, 415.424, 415.425 and 415.426 to the hydrogen cyanide subcategory (Subpart AP), §§ 415.553, 415.434, 415.435 and 415.436 to the iodine subcategory (Subpart AQ), §§ 415.443, 415.444, 415.445 and 415.446 to the lead monoxide subcategory (Subpart AR), §§ 415.453, 415.454, 415.455 and 415.456 to the lithium carbonate subcategory (Subpart AS), §§ 415.473, 415.474, 415.475 and 415.476 to the nickel sulfate subcategory (Subpart AU), §§ 415.493, 415.494, 415.495 and 415.496 to the oxygen and nitro-

gen subcategory (Subpart AW), §§ 415.503, 415.504, 415.505 and 415.506 to the potassium chloride subcategory (Subpart AX), §§ 415.513, 415.514, 415.515 and 415.516 to the potassium iodide subcategory (Subpart AY), §§ 415.533, 415.534, 415.535 and 415.536 to the silver nitrate subcategory (Subpart BA), §§ 415.553, 415.554, 415.555 and 415.556 to the sodium fluoride subcategory (Subpart BC), §§ 415.583, 415.584, 415.585 and 415.586 to the sodium silicofluoride subcategory (Subpart BF), §§ 415.603, 415.604, 415.605 and 415.606 to the stannic oxide subcategory (Subpart BH), and §§ 415.633, 415.634, 415.635 and 415.636 to the zinc sulfate subcategory (Subpart BK) pursuant to sections 301, 304 (b) and (c), 306(b) and 307 (b) and (c) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1311, 1314 (b) and (c), 1316(b) and 1317 (b) and (c), 86 Stat. 816 et seq.; Pub. L. 92-500) (the Act). Simultaneously with this proposed rule making EPA is promulgating interim final regulations which establish the above listed subparts.

In reviewing the data underlying the regulations for a number of subcategories, the Agency noted certain subcategories for which the data are incomplete, or where the data require further analysis before fully supportable effluent limitations can be derived. Accordingly, in order to promulgate these regulations in a timely fashion, consistent with the applicable court decree, the effluent limitations for the ammonium hydroxide production subcategory (Subpart Y), the barium carbonate production subcategory (Subpart Z), the carbon dioxide production subcategory (Subpart AF), the cuprous oxide production subcategory (Subpart AK), the ferrous sulfate production subcategory (Subpart AM), the manganese sulfate production subcategory (Subpart AT), the strong nitric acid production subcategory (Subpart AV), the potassium permanganate production subcategory (Subpart AZ), the sodium bisulfite production subcategory (Subpart BB), the sodium hydrosulfide production subcategory (Subpart BD), the sodium hydrosulfite production subcategory (Subpart BE), the sodium thio-sulfate production subcategory (Subpart BG), the sulfur dioxide production subcategory (Subpart BI), and the zinc oxide production subcategory (Subpart BJ), are reserved. It is the Agency's intention to review these subcategories promptly and to revise this Part to include regulations covering such subcategories at the earliest possible date.

(a) *Legal authority.* Section 301(b) of the Act requires the achievement by not later than July 1, 1977, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of the best practicable control technology currently available as defined by the Administrator pursuant to section 304(b) of the Act. Section 301 (b) also requires the achievement by not later than July 1, 1983, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of best available

technology economically achievable which will result in reasonable further progress toward the national goal of eliminating the discharge of all pollutants, as determined in accordance with regulations issued by the Administrator pursuant to section 304(b) of the Act.

Section 304(b) of the Act requires the Administrator to publish regulations providing guidelines for effluent limitations setting forth the degree of effluent reduction attainable through the application of the best practicable control technology currently available and the degree of effluent reduction attainable through the application of the best control measures and practices achievable including treatment techniques, process and procedural innovations, operating methods and other alternatives. The regulation herein sets forth effluent limitations and guidelines, pursuant to sections 301 and 304 (b) of the Act, for the aluminum fluoride production subcategory (Subpart W), the ammonium chloride production subcategory (Subpart X), the borax production subcategory (Subpart AA), the boric acid production subcategory (Subpart AB), the bromine production subcategory (Subpart AC), the calcium carbonate production subcategory (Subpart AD), the calcium hydroxide production subcategory (Subpart AE), the carbon monoxide and byproduct hydrogen production subcategory (Subpart AG), the chrome pigments production subcategory (Subpart AH), the chromic acid production subcategory (Subpart AI), the copper sulfate production subcategory (Subpart AJ), the ferric chloride production subcategory (Subpart AL), the fluorine production subcategory (Subpart AN), the hydrogen cyanide production subcategory (Subpart AP), the iodine production subcategory (Subpart AQ), the lead monoxide production subcategory (Subpart AR), the lithium carbonate production subcategory (Subpart AS), the nickel sulfate production subcategory (Subpart AU), the oxygen and nitrogen production subcategory (Subpart AV), the potassium chloride production subcategory (Subpart AX), the potassium iodide production subcategory (Subpart AY), the silver nitrate production subcategory (Subpart BA), the sodium fluoride production subcategory (Subpart BC), the sodium silicofluoride production subcategory (Subpart BF), the stannic oxide production subcategory (Subpart BH), the zinc sulfate production subcategory (Subpart BK) of the inorganic chemicals manufacturing point source category.

Section 304(c) of the Act requires the Administrator to issue to the States and appropriate water pollution control agencies information on the processes, procedures or operating methods which result in the elimination or reduction of the discharge of pollutants to implement standards of performance under section 306 of the Act. The report or "Development Document" referred to below pro-

vides, pursuant to section 304(c) of the Act, information on such processes, procedures or operating methods.

Section 306 of the Act requires the achievement by new sources of a Federal standard of performance providing for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the Administrator determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants.

Section 306(b) (1) (B) of the Act requires the Administrator to propose regulations establishing Federal standards of performance for categories of new sources included in a list published pursuant to section 306(b) (1) (A) of the Act. The Administrator published in the FEDERAL REGISTER of January 16, 1973, (38 FR 1624) a list of 27 source categories, including the inorganic chemicals manufacturing category. The regulation proposed herein sets forth the standards of performance applicable to new sources for the aluminum fluoride production subcategory (Subpart W), the ammonium chloride production subcategory (Subpart X), the borax production subcategory (Subpart AA), the boric acid production subcategory (Subpart AB), the bromine production subcategory (Subpart AC), the calcium carbonate production subcategory (Subpart AD), the calcium hydroxide production subcategory (Subpart AE), the carbon monoxide and byproduct hydrogen production subcategory (Subpart AG), the chrome pigments production subcategory (Subpart AH), the chromic acid production subcategory (Subpart AI), the copper sulfate production subcategory (Subpart AJ), the ferric chloride production subcategory (Subpart AL), the fluorine production subcategory (Subpart AN), the hydrogen cyanide production subcategory (Subpart AP), the iodine production subcategory (Subpart AQ), the lead monoxide production subcategory (Subpart AR), the lithium carbonate production subcategory (Subpart AS), the nickel sulfate production subcategory (Subpart AU), the oxygen and nitrogen production subcategory (Subpart AV), the potassium chloride production subcategory (Subpart AX), the potassium iodide production subcategory (Subpart AY), the silver nitrate production subcategory (Subpart BA), the sodium fluoride production subcategory (Subpart BC), the sodium silicofluoride production subcategory (Subpart BF), the stannic oxide production subcategory (Subpart BH), the zinc sulfate production subcategory (Subpart BK) of the inorganic chemicals manufacturing point source category.

Section 307(c) of the Act requires the Administrator to promulgate pretreatment standards for new sources at the same time that standards of performance for new sources are promulgated pursuant to section 306. §§ 415.236, 415.246, 415.276, 415.286, 415.296, 415.306, 415.316,

## PROPOSED RULES

415.336, 415.346, 415.356, 415.366, 415.386, 415.406, 415.416, 415.426, 415.436, 415.446, 415.456, 415.476, 415.496, 415.506, 415.516, 415.536, 415.556, 415.586, 415.606, and 415.636, proposed below, provide pretreatment standards for new sources within the aluminum fluoride production subcategory (Subpart W), the ammonium chloride production subcategory (Subpart X), the borax production subcategory (Subpart AA), the boric acid production subcategory (Subpart AB), the bromine production subcategory (Subpart AC), the calcium carbonate production subcategory (Subpart AD), the calcium hydroxide production subcategory (Subpart AE), the carbon monoxide and byproduct hydrogen production subcategory (Subpart AG), the chrome pigments production subcategory (Subpart AH), the chromic acid production subcategory (Subpart AI), the copper sulfate production subcategory (Subpart AJ), the ferric chloride production subcategory (Subpart AL), the fluorine production subcategory (Subpart AN), the hydrogen cyanide production subcategory (Subpart AP), the iodine production subcategory (Subpart AQ), the lead monoxide production subcategory (Subpart AR), the lithium carbonate production subcategory (Subpart AS), the nickel sulfate production subcategory (Subpart AU), the oxygen and nitrogen production subcategory (Subpart AV), the potassium chloride production subcategory (Subpart AX), the potassium iodide production subcategory (Subpart AY), the silver nitrate production subcategory (Subpart BA), the sodium fluoride production subcategory (Subpart BC), the sodium silicofluoride production subcategory (Subpart BF), the stannic oxide production subcategory (Subpart BH), the zinc sulfate production subcategory (Subpart BK) of the inorganic chemicals manufacturing point source category. Section 307(b) of the Act requires the establishment of pretreatment standards for pollutants introduced into publicly owned treatment works and 40 CFR Part 128 establishes that the Agency will propose specific pretreatment standards at the time effluent limitations are established for point source discharges. §§ 415.234, 415.244, 415.274, 415.284, 415.294, 415.304, 415.314, 415.334, 415.344, 415.354, 415.364, 415.384, 415.404, 415.414, 415.424, 415.434, 415.444, 415.454, 415.474, 415.494, 415.504, 415.514, 415.534, 415.554, 415.584, 415.604, and 415.634, proposed below provide pretreatment standards for existing sources within the aluminum fluoride production subcategory (Subpart W), the ammonium chloride production subcategory (Subpart X), the borax production subcategory (Subpart AA), the boric acid production subcategory (Subpart AB), the bromine production subcategory (Subpart AC), the calcium carbonate production subcategory (Subpart AD), the calcium hydroxide production subcategory (Subpart AE), the carbon monoxide and byproduct hydrogen production subcategory (Subpart AG), the chrome pigments production subcategory (Subpart AH), the chromic acid production subcategory (Subpart AI), the copper sulfate production subcategory (Subpart AJ), the ferric chloride production subcategory (Subpart AL), the fluorine production subcategory (Subpart AN), the hydrogen cyanide production subcategory (Subpart AP), the iodine production subcategory (Subpart AQ), the lead monoxide production subcategory (Subpart AR), the lithium carbonate production subcategory (Subpart AS), the nickel sulfate production subcategory (Subpart AU), the oxygen and nitrogen production subcategory (Subpart AV), the potassium chloride production subcategory (Subpart AX), the potassium iodide production subcategory (Subpart AY), the silver nitrate production subcategory (Subpart BA), the sodium fluoride production subcategory (Subpart BC), the sodium silicofluoride production subcategory (Subpart BF), the stannic oxide production subcategory (Subpart BH), the zinc sulfate production subcategory (Subpart BK) of the inorganic chemicals manufacturing point source category.

gory (Subpart AH), the chromic acid production subcategory (Subpart AI), the copper sulfate production subcategory (Subpart AJ), the ferric chloride production subcategory (Subpart AL), the fluorine production subcategory (Subpart AN), the hydrogen cyanide production subcategory (Subpart AP), the iodine production subcategory (Subpart AQ), the lead monoxide production subcategory (Subpart AR), the lithium carbonate production subcategory (Subpart AS), the nickel sulfate production subcategory (Subpart AU), the oxygen and nitrogen production subcategory (Subpart AV), the potassium chloride production subcategory (Subpart AX), the potassium iodide production subcategory (Subpart AY), the silver nitrate production subcategory (Subpart BA), the sodium fluoride production subcategory (Subpart BC), the sodium silicofluoride production subcategory (Subpart BF), the stannic oxide production subcategory (Subpart BH), the zinc sulfate production subcategory (Subpart BK) of the inorganic chemicals manufacturing point source category.

(b) *Summary and Basis of Proposed Effluent Limitations for Existing Sources and Standards of Performance and Pretreatment Standards for New Sources and Pretreatment Standards for existing Sources.*

The general methodology and summary of conclusions are discussed in considerable detail in the preamble of the interim final regulation for the aluminum fluoride production subcategory (Subpart W), the ammonium chloride production subcategory (Subpart X), the borax production subcategory (Subpart AA), the boric acid production subcategory (Subpart AB), the bromine production subcategory (Subpart AC), the calcium carbonate production subcategory (Subpart AD), the calcium hydroxide production subcategory (Subpart AE), the carbon monoxide and byproduct hydrogen production subcategory (Subpart AG), the chrome pigments production subcategory (Subpart AH), the chromic acid production subcategory (Subpart AI), the copper sulfate production subcategory (Subpart AJ), the ferric chloride production subcategory (Subpart AL), the fluorine production subcategory (Subpart AN), the hydrogen production subcategory (Subpart AO), the hydrogen cyanide production subcategory (Subpart AP), the iodine production subcategory (Subpart AQ), the lead monoxide production subcategory (Subpart AR), the lithium carbonate production subcategory (Subpart AS), the nickel sulfate production subcategory (Subpart AU), the oxygen and nitrogen production subcategory (Subpart AV), the potassium chloride production subcategory (Subpart AX), the potassium iodide production subcategory (Subpart AY), the silver nitrate production subcategory (Subpart BA), the sodium fluoride production subcategory (Subpart BC), the sodium silicofluoride production subcategory (Subpart BF), the stannic oxide production subcategory (Subpart BH), the zinc sulfate production subcategory (Subpart BK) of the inorganic chemicals manufacturing point source category.

## PROPOSED RULES

(Subpart BH), the zinc sulfate production subcategory (Subpart BK) of the inorganic chemicals manufacturing point source category which are being promulgated by EPA simultaneously with publication of this proposed regulation. The information contained in the preamble to the interim final regulation is incorporated herein by reference. The proposed regulation set forth below proposes pretreatment standards for pollutants introduced into publicly owned treatment works. The proposal will establish for each subpart the extent of application of effluent limitations to existing sources and to new sources which discharge to publicly owned treatment works. The regulation is intended to be complementary to the general regulation for pretreatment standards for existing sources set forth at 40 CFR Part 128. The general regulation was proposed July 19, 1973 (38 FR 19236), and published in final form on November 8, 1973 (38 FR 30982). The regulation proposed below applies to users of publicly owned treatment works which fall within the description of the point source category to which the limitations and standards apply. However, the proposed pretreatment regulation applies to the introduction of pollutants which are directed into a publicly owned treatment works, rather than to discharges of pollutants to navigable waters.

The general pretreatment standard divides pollutants discharged by users of publicly owned treatment works into two broad categories: "compatible" and "incompatible." Compatible pollutants are generally not subject to pretreatment standards. However, 40 CFR 128.131 (prohibited wastes) may be applicable to compatible pollutants. Additionally, local pretreatment requirements may apply (see 40 CFR 128.110). Incompatible pollutants are subject generally to pretreatment standards as provided in 40 CFR 128.133. §§ 415.234, 415.244, 415.274, 415.284, 415.294, 415.304, 415.314, 415.334, 415.344, 415.354, 415.364, 415.384, 415.404, 415.414, 415.424, 415.434, 415.444, 415.454, 415.474, 415.494, 415.504, 415.514, 415.534, 415.554, 415.584, 415.604, and 415.634 of the regulation proposed below are intended to implement that portion of § 128.133, above, requiring that a separate provision be made stating the application to pretreatment standards of effluent limitations based upon best practicable control technology currently available.

Questions were raised during the public comment period on the proposed general pretreatment standard (40 CFR Part 128) about the propriety of applying a standard based upon best practicable control technology currently available to all plants subject to pretreatment standards. In general, EPA believes the analysis supporting the effluent limitations and guidelines is adequate to make a determination regarding the application of those standards to users of publicly owned treatment works. However, to ensure that those standards are appropriate

in all cases, EPA now seeks additional comments focusing upon the application of effluent limitations guidelines to users of publicly owned treatment works.

The report entitled "Development Document for Interim Final Effluent Limitations and Guidelines and Proposed New Source Performance Standards for the Inorganic Products Segment of the Inorganic Chemicals Manufacturing Point Source Category" details the analysis undertaken in support of the regulation being proposed herein and is available for inspection in the EPA Freedom of Information Center, Room 204, West Tower, Waterside Mall, Washington, D.C., at all EPA regional offices, and at State water pollution control offices. A supplementary analysis prepared for EPA of the possible economic effects of the proposed regulation is also available for inspection at these locations. Copies of both of these documents are being sent to persons or institutions affected by the proposed regulation or who have placed themselves on a mailing list for this purpose (see EPA's Advance Notice of Public Review Procedures, 38 FR 21202, August 6, 1973). An additional limited number of copies of both reports are available. Persons wishing to obtain a copy may write the EPA Freedom of Information Center, Environmental Protection Agency, Washington, D.C. 20460, Attention: Ms. Ruth Brown, A-107.

When this regulation is promulgated, revised copies of the Development Document will be available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Copies of the Economic Analysis will be available through the National Technical Information Service, Springfield, Virginia 22151.

(c) *Summary of public participation.* A full listing of participants and discussion of comments and responses is included in the preamble of the interim final regulation for subparts W through BK being simultaneously promulgated by EPA and are incorporated herein by reference.
